

GOOD ATTENDANCE BOWLERS EUCHRE

Fifteen Tables Were Played and High Scores Were Made

Fifteen tables were played at the Bowlers' Stag Euchre conducted in the Foresters' Hall on Queen St.

TWENTY YEARS AGO

Items of interest taken from the file copies of The Guide of twenty years ago.

APRIL 15, 1908

Wedding Anniversary

One of those enjoyable affairs which tend to give pleasure to our every day life, took place at the home of Mr. and Mrs. W. McMillan, Walton Street, on April 15th, 1908.

TUXIS BOYS WIN GAME

Practically Doubles the Score in Game On Thursday Night

In an interesting game of basketball at the United Church gymnasium Thursday night, the Tuxis Boys defeated Bill Brockenshire's 42-22.

Following are the line ups: Losers—Brockenshire centre; Giddy and O'Neill, forwards; Wakely and Douglas, defense; and Clayton sub.

Doing Well

Mr. Wilber Baskerville of Newcastle, who lost his arm the other week by being caught in the drive belt of a sawing machine, is doing as well as could be expected.

Leonard David, 16, of River Grove Ill., died from lockjaw, which resulted from a cut on his foot by a hog near Seaford Del.

GERMAN PLANE SPANS ATLANTIC

Forced Down by Exhaustion of Gas—Bremen Lands on Canadian Soil

"German plane, Bremen, landed Greenley Island, noon. Slightly damaged. Crew well."

The Canadian Government wireless direction finding station at Red Head, near St. John, N.B., received the above message at 8.35 p.m.

Message from Von Huenefeld

The North German Lloyd announced last night receipt of a wireless message from Baron Von Huenefeld, one of the crew of the monoplane, Bremen, confirming the safe landing at Greenley Island, Labrador.

The message read: "Made a safe intermediate landing on Greenley Island, necessitated by lack of fuel and strong head winds encountered on way. (Signed) Von Huenefeld."

Will Fly From New York

Fred Melchior, representing the Junkers Company in America, announced last night that he would fly the Junkers C-38, sister ship of the Bremen, to Greenley Island, Labrador, to aid the crew of the German plane reported to have landed there in its attempted Ireland-New York flight.

Plans to start the sister ship of the Bremen on its flight to Greenley Island were made after receipt by Henry Schuengel, general manager of the North German Lloyd Line of a second telegram from Baron Von Huenefeld.

Hertha and Erhard Junkers, daughter and son of the designer of the Bremen, who spent the day at Mitchell Field, prepared to go with Melchior in the C-38 to meet and escort the transatlantic plane, were jubilant when reports that the plane had landed safely were received.

The government steamer Montcalm has been dispatched to Greenley Island to return members of the crew of the monoplane Bremen to civilization. Early yesterday morning the Montcalm was in the Gulf of St. Lawrence, 200 miles from Greenley Island.

The lightkeeper, who spent the Christmas holiday in Quebec, traveled afoot or dog team to the island and reported that it took from December 26 to March 17 to get to his destination.

Relief will not be an easy matter because of the thick drift ice and the fact that usually the straits are not navigated till the end of May or even later.

The possibility of sending a flying boat from Ottawa is also being discussed, but there is only one capable of carrying five passengers, while the hazard would be very considerable, and as the aviators are not suffering any hardship, rescue by means of a boat is preferable, especially as the Bremen could also be salvaged.

EXECUTIVE MET FRIDAY NIGHT

Representatives of Intermediate Teams Convened At The Queen's Hotel

Representatives from Oshawa, Port Hope and Bowmanville convened at the Queen's Hotel here on Friday night in the interests of the Oshawa District Intermediate Baseball Association and several matters pertaining to the league were discussed.

Another executive meeting will be held at Bowmanville on April 27 and entries for the league close on May 1st.

OBITUARY

REV. FATHER O'BRIEN

Word was received in Toronto last night of the death in Notre Dame Hospital, Montreal yesterday of Rev. Father Michael S. O'Brien, for several years past the parish priest at Huntsville.

Father O'Brien was born in Lind say 39 years ago, the son of the late Michael O'Brien for some time a Separate School Inspector for Ontario, and more recently the Secretary of the Catholic Education Council.

MARY PICKFORD SOON TO RETIRE

Rumors are current through the Hollywood movie colony that Mary Pickford probably would make no more motion pictures because of her grief over the death of her mother, Mrs. Charlotte Pickford.

CASES ENTERED ON COURT DOCKET

Mr. Justice Rose Will Preside at Cobourg Spring Assizes

The spring sitting of the supreme court of Ontario will open before Hon. Mr. Justice Rose on Monday. Three jury trials are down for hearing, the first being McAuley v. Hall which will likely be settled before day of trial with the second on the list being the celebrated libel action of Currie v. Wilson and Preston.

McAuley v. Hall is an action by Mary E. McAuley of Haldimand township against Thos. F. Hall asking that an agreement bearing date the 4th day of September 1921, made between plaintiff and defendant for the sale of certain lands in the township of Haldimand be set aside, and to recover monies paid by the plaintiff to the defendant under the said agreement.

Currie v. Wilson and Preston is the celebrated libel action brought by Sir Arthur Currie, late commandant of the Canadian forces during the latter days of the world war, against Wilson, editor of the Port Hope Guide, and Preston.

MY MOTHER

There is a soft, a holy name Round which the feelings close. In globe like form, that mock to shame

Again, 'tis fading on the eye. And as it slow departs, It bears the glow from off the sky.

The shadow death had flung; Between eternity and time, I saw at last one ray.

And now this heart, though hard and cold Still speaks her as I dream. As melting ice will never hold

The murmur of the stream. On prayers I learned beside her knee Time can no shadow cast

BRIEF AS CAN BE

Traffic control for pedestrians on sidewalks is urged by Boston traffic expert.

Rain ended forest fires near Bloomsgröve, Pa., after acres were burned.

Coal gas poisoning caused the death of Charles Felrick, 97, of Snyderstown, Pa.

New York vagrant worth \$25,000 was found using subway trains and stations for lodging.

It was reported that Miss Pickford has been considering leaving the motion picture business for several years, and that this desire had been accentuated by her mother's death.

SOFTBALL TEAMS HAVE ORGANIZED

Six Teams Will Enter Port Hope Softball League This Summer

Considerable enthusiasm was displayed at the organization meeting of the Port Hope Softball League held in the Department of Agriculture on Friday evening, and it appears that softball will be one of the leading sports of the town this season.

Officers were elected at the meeting on Friday night and general business was transacted. The following officers were appointed: President—G. V. Strong

It was decided that the entries of the various teams be in the hands of the secretary by April 20th, accompanied by the necessary fee of \$2.00. On that date another meeting will be held in the Department of Agriculture when the final plans for the league will be completed.

Rules and Regulations Following are the rules and regulations as decided on Friday night: 1. Playing rules to be taken from the Ontario Amateur Softball Association, using the 12 inch out-scram ball.

5. All players must be bona fide residents of Port Hope. 6. Home teams to take up collection and prepare field in each game according to the schedule.

8. Seven innings will constitute a game. 9. Teams finishing first, second and third, respectively, will play off for the championship with the first team receiving a bye.

Green Tea drinkers do not know the full enjoyment of Green Tea unless they use "SALADA" Green—the very choicest variety, blended to perfection—packed in air-tight metal to protect the flavour—Sells for only 38c per ½-lb.—Ask for it at any grocer's.

"SALADA" GREEN TEA

CROP REPORT

THE GUIDE STORY

(Continued from yesterday.)

KENT—On the clay land many drills were in the field this week but all operations have been stopped with the heavy rains of last week. Some of the early sown oats are already through the ground. Early potato growers are preparing to plant.

LANARK —Horses, cattle and sheep in rather better condition than usual; hogs about normal. There is an increase in the average number of sheep but their ewes is decidedly the case with hogs.

LINCOLN—Fall wheat and alfalfa seem to be coming through in very much better condition than was expected at one time. There has not been as much heaving as was expected as the weather has turned warm and with the recent rains growth is already making rapid gains especially with alfalfa. The last few days has seen a growth of about one inch in length on the latter. Fruit growers are now spraying with the oil sprays for control of Pear Psylla and scale and a few men have already put on a dormant lime sulphur spray for peach leaf curl. Fruit trees are on the whole in excellent condition.

There has been some planting of early garden seed such as peas, spinach, onions, etc. The ground is working up in excellent shape and it is anticipated that there will be a small percentage done by Saturday night, April 7th.

MIDDLESEX—Pruning is general all over the county. More orchards are being pruned this spring than for some years.

OXFORD—A heavy run on sweet clover seed would indicate an increased acreage of this crop.

The demand for cattle would indicate that the number is slightly below average. The demand for all kinds of cattle, pure-bred and grade, is good and both pure-bred and grade are selling at unusually high price.

PEEL—Fall wheat is taking on a much healthier appearance and appears to have wintered well and the alfalfa and clovers are coming thru in fine shape.

WELLAND—The Better Seed campaign has had a good effect. Over 400 bushels of registered seed oats have been purchased by farmers in the county.

WENTWORTH—Increased interest is being shown in orchards. More pruning has been done this year than usual. More interest is also being shown in cultivation and fertilization of orchards.

the doctor's then she roused herself out of her usual indifference.

"Really, Doctor Forrester, I do think you might help the library a little," she said. "People were talking about it yesterday at the Lindredges', and there was a chorus of regret because you had declined to take part."

"It is a capital part, too," remarked Firefly. "You would have to make love to three girls at once and be engaged to an absent fourth, and manage to make each of the four believe she is the one and only one!"

"I know no more about acting than you do about mixing drugs. I may be a villain in appearance, but that won't help the play any."

"Bosh, doc dear," cried Firefly indignantly, with a teasing look at Olwen, who she knew was irritated to hear her speak in this familiar way. "Have you forgotten 'Hamlet' at home and the 'Wicked Duke' and the 'Robber Chief'? Don't be a humbug. You know you can act."

John's quick eyes had detected a shadow creeping over Olwen's face, and he turned to her with a half laugh.

"You shall decide this knotty question, Miss Ransome. I have said 'No' twice. Shall I now say 'Yes' for a change?"

"Do you think it infra dig for a doctor to act?" asked Olwen.

"No, it was pure laziness. I'm growing an old fogey, I suppose, and I no longer fancy the prospect of endless rehearsals. By the bye, who is the stage manager?"

"A Mr. Clayton. Do you know him, doc?" asked Firefly eagerly.

"If we have a good man, it will make all the difference."

"Clayton? Ah, yes, a jolly sort of chap—drives a tandem and has a fine place near Drayton. Yes, you will be all right in his hands; he is famed for getting up things of this sort. I suppose you are both going to act?" he added, with a look at Olwen.

"No," the latter replied hastily. "I hate acting, and I can't do it any more than the man in the moon. I am to be one of the spectators, and the critic in chief."

(to be continued)

TRADITIONS ARE UPSET

Third Wall of Herod Agrippa is Found By Road Builders

The Church of the Holy Sepulchre in Jerusalem, which has been accepted for sixteen centuries as the traditional site of the resurrection, will be regarded more critically this Easter tide by visitors to the holy land, for new and sensational discoveries made in Jerusalem have strengthened the belief already held by many archeologists that the Skull Hill on the Jericho road, near the Damascus Gate, is the true Golgotha, and that the tomb in the garden adjoining known as the Garden tomb, is the real scene of the resurrection.

More POWER

than any other Engine of its Size

McLaughlin-Buick engine develops more power than other types because the valve-in-head construction concentrates the full force of the explosion directly on the piston and because it necessitates a smaller cooling area. This latter feature also provides more efficient combustion and a valuable saving of fuel.

TESTS prove that the valve-in-head engine as used by McLaughlin-Buick develops more power than any other engine of its size.

The G. M. A. C. Deferred Payment Plan offers many advantages to buyers of McLaughlin-Buick cars.

GREAT BRITISH PICTURE COMING

side bears the amazing resemblance to a grinning skull.

The Gospel story tells how Christ, bearing His cross, "went forth into the place of the skull which is called in the Hebrew, Golgotha." Is the Skull hill the true Golgotha? Did the remarkable skull-like formation of the rock, and the fact that it was also the place of stoning, give rise to the sinister name? Persons condemned to death by stoning were thrown from this cliff, and their broken bodies battered by stones hurled from above by their accusers.

Assuming that the Skull hill is the place where the crucifixion was held, then it is obvious that the tomb of Christ must also be near. St. John says: "In the place where He was crucified there was a garden, and in the garden a new sepulchre."

It is a remarkable fact that this tomb, answering the Scriptural description has been found in a garden on the slopes of the Skull hill. It is rock hewn and unfinished. It has been at some time, closed with a stone. It is comparatively isolated, and seems suitable as a private burial place. It also contains the head cavity which is the distinguishing mark of the Hebrew tombs of the period.

In addition there are signs that a building once stood over the tomb. Traces of two arches still exist; there is also a fragment of stone paving and the remains of a column. Above the door are three small recesses which are usually found in heathen temples. All these seem to indicate that Hadrian's temple to Venus may have stood there, and the further finding of the shrine stone strengthens the theory.

If you want to reach the people, advertise in "The People's Paper"—THE GUIDE.

Scene from "Land of Hope and Glory," a big production made in England, which will be shown at the Royal Theatre on Monday and Tuesday. This photoplay is an exceptional one, telling the story of

a British family whose sons migrated to the overseas dominions, one of them coming to Canada. It has a big theme—that of Empire patriotism—a true-to-life story with genuine heart appeal and a typical "national" English cast.

For the first time in many years St. Catharines is to hold a real military ball.

NEW EMPIRE OF WEST FORESEEN

With Vast Development In Its Natural Resources

A new empire of the west with a vast development in its natural resources and home market for the consumption of its farm products was envisioned by Cyril T. Young, F.R.G.S., Superintendent of Development, Canadian National Railways who has just returned from a two weeks' trip in Western Canada. In speaking of his visit to the prairie provinces, which now scarcely knows the foot print of the white man, would be yielding untold mineral wealth to the nation. As in the case of Northern Ontario and its mining camps, he prophesied the development of not only home markets for the consumption farmer, but also new labor markets of food products raised by the prairie with a vast purchasing power.

"Not only will the farmer benefit but such a mining development," said Mr. Young, "but also such allied industries as affect mining. Nor is this development to be considered a futile dream of the future. It is something that in my mind, must inevitably take place due to the fact that the world has used more metals in the past 25 years than in all preceding time. It must be remembered that in northern Manitoba, northern Saskatchewan, and northern Alberta, north of Edmonton, the same precambrian formation exists, as in northern Quebec and northern Ontario. We all know something of the untold mineral wealth which lies in the precambrian shield of these two provinces and the Flin Flon and Sherrit Gordon section is an indicator of the mineral possibilities lying dormant in western Canada. Keeping in mind the tremendous development made within the last twenty-five years in the lode provinces of Ontario and Quebec and that now under way in northern Manitoba, it is difficult to peep into the future and picture something of what should take place throughout the west and of the vast home and employment markets which await creation north of the prairies."

Mr. Young stated that with the sound mining development going on in the Flin Flon-Sherrit Gordon area where a large smelter will be constructed and the present increased mining development in British Columbia and in addition the pulp and paper developments in British Columbia, eastern Manitoba and in fact, through to the head of the lakes, western Canada is now building up, not only home markets, but employment centres where men employed on the farm during the summer may have an opportunity for employment in the west during the winter months. It is in fact all year round employment such as men with dinner pails must have and what is also very important, mining, pulp and power development, with its allied industries are not subject to climatic conditions as is agriculture.

During his fortnight's trip through the West, Mr. Young visited many of the leading prairie centres including Winnipeg, Brandon, Saskatoon and Edmonton, where he delivered a development—"Canada Forward" stated that he found a spirit of healthy optimism prevailing in the west and that business conditions were good.

IN SPRING A FISHERMAN'S FANCY TURNS TO HIS FAVORITE STREAM

Fishing time is near again. The gear that brought you good luck last year is being overhauled—you are deciding on your fishing grounds.

Thoughts of the fun and sport you had last year are sprucing you on to new endeavors—where will it be—the same old spot where you fought it out with the big black bass, or new waters to conquer—where the lunge are eager for the bait—and cool streams haunted by the gamey speckled trout.

Timagami, Kawartha Lakes, Georgian Bay or Alouquin—wherever you wish to go, Canadian National Railways offer you a most satisfactory service. Any Canadian National Agent will be glad to help you plan your trip—he has all the information and trips that you want—ask him for descriptive booklets, game laws, etc.

Relief From Asthma. Who can describe the complete relief from suffering which follows the use of Dr. J. D. Kellogg's Asthma Remedy? Who can express the feeling of joy that comes when its soft and gentle influence relieves the tightened, choking air tubes. It has made asthmatic affliction a thing of the past for thousands. It never fails. Good druggists everywhere have sold it

"READY" HEIGHTS.

Air Passengers Need Not Be Afraid of That Giddy Feeling.

From a few inquiries the writer has made recently, it would appear that the greater part of the men and women who would like to fly, but dare not, are deterred, not by the thought of any danger in consequence of going up some thousands of feet into the air without any "visible means of support," but are afraid of air-sickness brought on by looking down from such a colossal height.

"Even to stand on the top of a building and look down a hundred feet or so makes me go all dizzy," said one lady. "What should I be like at five thousand feet?" And so say the majority of people.

But the truth of the matter is that this line of reason is based entirely on a fallacy. As a matter of fact, it is a truth well known to science that looking down a lift-shaft gives one a very much worse feeling than does looking down from an airplane at any height.

Why is this? It is because, in order to create an unpleasant sensation in these circumstances, it is necessary that there should be a definite, visible line to carry the eye from the place where one is standing or sitting down to the earth below.

With a lift-shaft you have four perpendicular lines all carrying the eye down, and you get a very bad sensation indeed. Almost as bad is the giddiness that comes of looking down from a high building. Here you have the sheer line of the wall to follow. Next, but much better than either of the foregoing, comes looking down from a captive balloon. In this case there is the cable which anchors the balloon to give a straight line.

But with an airplane you have no line at all, and, consequently, no giddy feeling either. So, next time you have the opportunity of going up, don't refuse on grounds of possible giddiness. If this fear is all that worries you, you can take it for granted that you will thoroughly enjoy your first air trip.

SHOULD TAKE

A physician expects to have restored two patients to sanity by pulling their teeth. When they see the bill they may go crazy again.—Hillsburgh Sun.

A Useful Duty.

One rule of safety is to place no confidence in the other fellow obeying the road regulations.

Brought Up to Date.

Bananas may have been right in its century, but now about two come every minute.—From Life.

An Unselfish Idea.

A motorist speeding through a country neighborhood killed a hen. He stopped and pressed a two-dollar bill into the hand of little Edna, who was on her way to neighbor Reed's. Edna ran and told her mamma of her good-fortune.

"Well," said her thrifty mother, "but the money in your bank, and will cut the hen's head off so we can eat her."

"Perhaps, mamma," said Edna, thoughtfully, "as long as we have the money we had better let the Reed's eat the hen. It was their hen."

L. H. GIDDY, LOCAL DEALER

Winnipeg. — Despite the heavy movement of immigrants to the West during the past two weeks, more positions are open on western farms than the railways and employment agencies can fill, immigration and employment officers state. Thousands of vacancies, the officers said, had been reported. Likelihood of an earlier commencement of seeding operations is generally conceded in the West, they added, and unless immigration continues at its present high peak the opening of operations on the land may find western farmers short-handed.

As the result of a conference between members of the Sheep Breeders' Association, financial representatives and members of the Winnipeg and Brandon Boards of Trade, a movement is under way for the placing of 100,000 sheep annually on Manitoba farms. These will be sold in groups of fifty to each farmer, somewhat similar to the plan now in operation in North Dakota. J. D. McGregor was appointed temporary chairman of a committee to make further arrangements for the carrying out of this plan.

About 40 Mennonite Ministers held conference this week at Kitchener. Maple syrup is being sold at \$2 a gallon in the Brockville district.

Immigrants are flowing into Canada at record rates since lately and Canadian Pacific steamers from Great Britain and Europe are bringing them over at the rate of shiploads of close on a thousand per ship. The majority are farm laborers of British and North European stock and are mostly going in the land in the Prairie Provinces with a fair proportion going to Ontario and the Maritime Provinces.

Alaska

JASPER NATIONAL PARK and the PACIFIC COAST

Visit the far West —land of a thousand delights

PLAN to see the Pacific Coast this summer. Stop off at Jasper National Park. See Mount Robson, the highest peak in the Canadian Rockies. Visit Vancouver and Victoria.

Sail through the Scenic Seas of the North Pacific to Alaska—ten days on board a palatial steamer. All outside rooms. From the deck see towering glaciers and a skyline of giant mountain peaks.

The entire tour will be an inspiring experience that will never be forgotten. Take advantage of this opportunity. Make your arrangements now.

Reservations & full particulars from
 Mr. A. Mark, Ticket Office, Wallon St. or Phone 72.

Fare from Vancouver to Skagway and return, including meals and berth, only

Here and There

(60)
 Victoria. — The area of forest land in British Columbia dedicated to future forest production is 5,860,000 acres, according to a Government report.

Calgary. — Plans are actively under way by the Calgary Terminal Grain Company to build a seven hundred thousand bushel elevator at Vancouver, it is announced by A. R. Betts, manager of the company. Mr. Betts said that an eminently suitable site had been secured on the north shore, approximately opposite Spillers elevator.

Five special trains carrying around 1500 pilgrims passed through Montreal recently on their way to Quebec City and the shrine of Ste. Anne de Beaupre also visiting the shrine of St. Joseph in Montreal on their return trip. They were from the church of St. Aidan, Jersey City and under the care of Father Thomas M. Curry, parish priest, were on their annual pilgrimage to these shrines.

Shipments of freight destined to points in the north-west of Canada via Port McNicoll, Ont., on the Canadian Pacific lake and rail route will now be accepted, the earliest date being April 9. There will be five steamers in the company's lake service between Port McNicoll and the head of the Lakes during the coming season. Through passenger service will be resumed this season from Owen Sound May 7 and from Port McNicoll, May 19.

SPORTING SKITS

BASEBALL

LEAFS WIN EXHIBITION

There is another candidate in the
field for the opening day assign-
ment at Newark in the person of
Johnny Prudhomme, who, on his
performance Friday against the
Asheville Sally Leaguers, is about
ripe and ready to go the route
against more pretentious clubs than
the Alpinists. The Shreveport ser-
ver set down the losers with four
hits and one run and should have
had a shut out. The final score
was 5 to 1 with Prudhomme going
the full distance and striking out
eight.

It was the best all round exhibi-
tion of the spring training trip on
the part of any Toronto twirler and
a remarkable effort considering the
Leaf's have been idle since last Sat-
urday.

Prudy worked smoothly and well
at all stages and maintained his
great speed right to the finish. Lens

Styles, who caught him in the ma-
jority of his games last season, held
him in fine style and did much of
his debating for him.

Dale Alexander and Joe Rabbit
were very much in evidence. The
former drove in the majority of the
team's while the latter emulated
a mountain goat when he clambered
up the right field cliff and speared
a bold bid for a homer with his
gloved hand. He did not look to
have a chance to make the catch,
but there is nothing impossible for
this fellow who is a hustler if ever
there was one. Rabbit also col-
lected two of the Leaf's ten hits,
one being a double and scored a
pair of runs.

TORONTO GETS NEXT SWIM

Toronto is likely to be the scene
of the third Wrigley marathon. The
greatest swimming classic of them
all may be held for the second con-
secutive time in the Queen City this
summer during exhibition time and
prizes of \$50,000 for the various
winners are offered. But there will
be a distinct departure this year
from the two previous races. The
race will be divided in two—one for
women at ten miles and one for
men at fifteen.

It is also announced that Ernst
Vierkoetter, winner of the second
swim, will race George Young, win-
ner of the first to settle who is the
faster man. The shorter distance
is believed, will work to the ad-
vantage of both swimmers, and the
watchers will see both natists at
their best.

Toronto stole the race away from
several other bidders, including Mon-
treal, due to the enterprise of the
Canadian National Exhibition direc-
tors, who met yesterday afternoon
Montreal had already offered the 50
"grand" for the prizes, but the met-
ropolis's lack of suitable water
course prevailed against them. New
York, Detroit, Cleveland and Chi-
cago were also bidding for the great
aquatic event in the world, but
the ideal situation that prevails at
Toronto seems to point toward a
repetition of the race there.

The women's race would be held
the first week and would be a ten
mile one, while the second race
would take place the second week,
fifteen miles being the distance.

KID ROY WINS

Jack Johnston's Canadian feather-

weight championship ambitions end
ed abruptly last night with the de-
livery by the champion, Leo Roy of
Montreal, of a smashing left hook
to the point of the losers jaw. The
blow, sent home with telling force,
came after two minutes and forty
five seconds of the second round
had been boxed, and scored as clean
a knockout as has ever been seen
in a Toronto ring. Johnston was
catapulted through the ropes and
lay on the boards, an inert figure,
while Referee Lou Marsh counted
ten. The count might have gone
on indefinitely, Johnston's seconds
working on him for several minutes
after Roy had been declared the win-
ner before he could go to his dress-
ing room.

COMING EVENTS

A THREE-ACT PLAY ENTITLED
"Mother Mine" will be given by
the Young Peoples' Society in
Canton church on Wednesday,
April 18, at 8 p.m. Admission—
adults 35c, children 20c.

CHEVROLET TON-MILE ECONOMY

The Reason You Need
this CHEVROLET Truck!

THE lowest Ton-Mile Cost in the
world (that is, the lowest cost of
transporting one ton for one mile, or
its equivalent) is the one big reason
why truck-users in all lines of business
are choosing the Chevrolet Ton Truck.
Added to this economy are amazing
speed and dependability; exceptional
performance, never before offered in a
low-priced commercial car; rugged-
ness, strength and modern design un-
dreamed-of in a truck so low in price.

Whether you need a truck for fast delivery
on city streets or for steady transportation of
ton-loads over all sorts of roads . . . you
can find the right type of body available on
the money-saving Chevrolet Ton-Truck
Chassis. Ask your Chevrolet dealer.

The G.M.A.C. . . . General Motors' own de-
ferred payment plan affords the most convenient
and economical way of buying your Chevrolet on
time.

JOB PRINTING DONE AT THE GUIDE

Keep it Painted!

Pride shines in the eyes of certain
home owners you know as they invite
you in. They may not make the com-
ment openly but they would like to say, if the truth be told: "Isn't this
a pretty little place of mine?" "Isn't it kept well?" Get the dingy
spots covered with paint and have the same feeling.
