G.P.R. WILL BUILD LAKE SHORE LINE

Orders Given for the Work to Start at Once—Working at Each End.

Montreal, April 27.—Mr. D. McNicoll, Vice President of the C.P.R., gave orders to-day to the engineering department to begin work at once on the new lake shore line to Toronto, details of which have been published in the Toronto Globe. A single track will be laid first and a double track will be added as soon as business warrants it. At least that is the proposal at present, though there is a possibility that a double track may be built at the outset. In order to expedite the work one party of engineers will work east from Toronto and a other west from Glentay.

PORT HOPE TWENTY-FIVE YEARS AGO TO-DAY

April 28, 1886—A lovely day after the glorious rain.

The Independent Order of Odd-fellows are holding a concert in the Opera House this evening, the occasion being the sixty-seventh anniversary.

The Mayor and Messrs King and Stevenson were appointed a deputation to wait upon the Government re the abolition of the toll gates on the Port Hope Rice Lake road.

Mr. John Hagerman who was recently injured in a railway accident, has fully recovered.

Guilty of Something.

In certain sections of West Virginia there is no liking for automobiles, as was evidenced in the case of a Washingtonian who was motoring in a sparsely settled region of the State.

This gentleman was brought before a local magistrate upon the complaint of a constable. The magistrate, a good natured man, was not, however, absolutely certain that the Washingtonian's car had been driven too fast, and the owner stoutly insisted that he had been progressing at the rate of only six miles an hour.

"Why, your Honor," he said, "my engine was out of order, and I was going very slowly because I was afraid it would break down completely. I give you my word, sir, you could have walked as fast as I was running."

"Well," said the magistrate, after due reflection, "you don't appear to have been exceeding the speed limit, but at the same time you must have been guilty of something or you wouldn't be here. I fine you \$10 for loitering."—Lippincott's.

REFUSED ADMISSION—The will of R. H. Thompson, New York, a retired millionaire, was refused admission to probate in Brooklyn by Surrogate Ketchum, who ran that for years the testator had been under the control of supposed advice from the other world, conveyed to him through his granddaughter, (who was also his adopted daughter.) Mrs Marlon Funk, a medium. "A will which proceeded from a mind so unbalanced and upset," says the opinion of the surrogate, "is the product of fraud and void."

ACCIDENT—Mr. Norman Billings, an old Orono boy, does an extensive awning manufacturing business at Queen Street West, Toronto. A few days ago C. E. Cuttill in passing the shop stopped to steady a roller into the end of which Norman was endeavoring to drive an iron pin, wishing however a moment later that he had been miles in another direction, as he had no sooner taken hold than the hatchet slipped from Norman's hand striking him on the left cheek below the eye, causing a wound that required four stitches.—Orono News.

LANCOT CHARGES

Report of Committee is Debated in the Commons.

DISCUSSION IS RESPECTABLE

Sir Alan Aylesworth, Mr. German and Hon. C. J. Doherty Argue Points of Shipyards Affair—Transaction Was Quite Open and the Country Lost Nothing, Says the Minister of Justice Yesterday.

Ottawa, April 28.—Parliament came into its own yesterday. It rose to its best traditions in the principal portions of the all-day debate consequent upon the presentation of the majority and minority reports of the committee on privileges and elections. This forum recently dealt with the transactions at Sorel, which placed the seat of Mr. Adelard Lancelot in jeopardy. From scenes of disorder and acrimony, from the fulminations of the Lennoxes, Sproules and Lancelots, Parliament passed into a dignified, serious and edifying discussion of the gravamen and effect of this specific case, and the ethical standards which should govern Parliamentary membership and discussion, led by Sir Alan Aylesworth, Hon. C. J. Doherty and a number of others. The change was marked.

In moving the adoption of the report of the majority of the members of the privileges and elections committee, exonerating Lancelot, in connection with the charges made against him by P. E. Blondin, Nationalist member for Champlain, Wm. German, chairman of the committee, went exhaustively into the matter from the point of view of the Liberal majority of the committee.

Mr. German did not undertake to defend a system under which Government employees of the Sorel shipyard were allowed to do work for an outsider. That, he said, was another matter which did not come under the terms of the charge as made by Mr. Blondin. He declared, however, that the evidence adduced made it clear that throughout Mr. Lancelot had acted in good faith and with no intention of profiting at the expense of the Government.

Analysing the charge that Lancelot had not paid for all the work done, Mr. German said that the member for Richelieu had paid for 217 days' labor.

Mr. Borden then asked what business Foreman Paget had to take Government material away and send it to the house of Mr. Lancelot. Mr. German replied that whether or not he should have done so was another matter. The point was that Mr. Lancelot had acted in good faith.

In conclusion Mr. German explained the view that Mr. Lancelot had not been guilty of violating the Independence of Parliament Act, and criticized Mr. Blondin for bringing such a serious charge against a fellow-member, without first making an effort to ascertain the real facts.

F. D. Monk (Jacques Cartier), said it was clear from the evidence that Lancelot intended to get the work done without refunding the cost. Lancelot did not seem to have realized the special position, and with Paget, the foreman, had started in to perpetrate an odious fraud on the Government. It was public notoriety, he said, that these things were done daily in Sorel. Men had started stores there on what they had got from the Government.

Sir Alan Aylesworth said they must remember that the charges affected not only Mr. Lancelot's seat in the House, but affected his personal character and honor. He was literally on trial. Personally he regarded Mr. Lancelot with affection and held him in the highest esteem and regard, but he would not allow this to interfere with his duty.

He confessed that he was not able to find evidence of fraudulent behaviour. There was no question, he admitted, that the work was done by Government employees with Government materials, but Lancelot had paid for it. The agreement between Lancelot and the Government employee was perfectly distinct. Government supplies were used and to be replaced. Sir Alan argued that there had been no infraction of the Independence of Parliament Act by Mr. Lancelot.

C. J. Doherty, St. Anne's, Montreal, pointed out that the whole defence was that Lancelot paid. He considered this childish. The Minister of Justice had called this borrowing, but the criminal code called it theft. There was such a crime as compounding a felony. Lancelot shares equally the guilt of the employees. The question was simply whether Lancelot had done this lawfully or unlawfully.

Mr. Doherty agreed with the Minister of Justice that there had been no violation of the text of the Independence of Parliament Act, for the very simple reason that the act dealt with contractual relations. There had been no contractual relation between Lancelot and the Government of Canada. The relation that existed, however, was the relation of the man who obtained another man's property unlawfully.

Body Found In Pool.

Brockville, April 28.—A little daughter of M. Gavin of Toledo wandered away from home during the forenoon. Her mother, busy with household duties, did not notice her absence for some time, and when she did there was no response to her calls. The lifeless body of the child was found in a pool of water at an old ashery, about three-quarters of a mile from the house.

Man's Sudden Collapse.

Winnipeg, April 28.—R. E. Jamieson, prominent business man, ex-mayor of Calgary and formerly general superintendent of the C.P.R. at Winnipeg, has been taken to New Westminster, B.C., sanitarium in a hopeless condition. Fatal results are feared. His decline is most sudden, for his health had been excellent.

MIXED WITH CROWD.

And Inspector Harris Caught Many Fair Smugglers.

Brockville, April 28.—With the opening of navigation Brockville people have again started the practice of visiting Ogdensburg, N.Y., in large numbers on every trip of the Island Bell, and strong suspicions of smuggling are invariably directed to the female sex. Yesterday over fifty patronized the outing, and upon the return were treated to an unpleasant surprise by being met by two officers of the customs staff, who ushered them into headquarters to pass the inspection of Special Officer Harris of Toronto, who is working along the frontier. Duties were imposed and collected on all purchased displayed, large and small, though in the rush it is reported that several ladies who did not care to be too closely interrogated, evaded the officers and got safely away.

Inspector Harris mingled with the passengers on the trip, his identity not being known until he asserted his authority in the customs office. He came to Brockville from Prescott, where he is said to have done a land office business. Frequent complaints have been sent to the customs department at Ottawa by Brockville merchants of the smuggling operations from Ogdensburg.

BRIEFS FROM THE WIRES.

Leslie Burk was committed for trial at Colborne on a charge of arson.

Several buildings of the Canada Car & Foundry Co. at Amherst, N.S., were burned.

A non-party deputation urged on Premier Asquith the creation of an Imperial Council.

Mrs. Eva Richardson, Toronto, ended her life, and her husband was arrested on a charge of being drunk.

The Grand Trunk will put four new trains into service in western Ontario, including an early morning newspaper train out of Toronto.

The new C.P.R. steamship, which is being built at the yards of Wigham Richardson on the Tyne for the British Columbia coast service, is to be named the Princess Alice.

C.P.R. officials state that during the next few weeks 45,000 United States farmers will leave the U. S. to settle in Western Canada. It is estimated that they will bring with them in wealth at least \$20,000,000.

A grass fire at Waterville, N.B., near the Maine border, yesterday spread to the Methodist and Reformed Baptist Churches and destroyed both. Nine buildings in the village were afire at one time, but were all saved.

Oliver Cox, aged 19, of Middlemiss, near London, Ont., was arrested by High Constable Hughes for arson. He is charged with the burning of the barns, implements and live stock of Frank O'Neill, with whom he lives.

Taken From His Engine.

Brockville, April 28.—For stealing a bicycle, which he sold for \$4, Thomas Weston, hailing from Montreal, was yesterday sentenced by Magistrate Deacon to six months in the Central Prison. Weston had secured employment as locomotive fireman on the Grand Trunk and was making his trial trip, when he was arrested by the chief of police of Cornwall on his engine and brought back here for trial.

Judge Reynolds allowed James Holmes of Prescott to go on suspended sentence. The prisoner was caught in the act of sawing the padlock of a cell in the Prescott police station to liberate an acquaintance who was behind the bars. A strong petition for leniency saved Holmes from a term in the penitentiary.

Blazing Forests Give Trouble.

North Adams, Mass., April 28.—Blazing forests, which also have devastated 500,000 acres of timber land in the towns of Clarksburg and Williams-town and in the outskirts of North Adams, kept more than 400 fire-fighters busy last night. While the flames showed little sign of dying out, despite three days' fight against them, actual danger to settlements was still remote. The situation was at its worst in Clarksburg, where the outlying houses were a mile and a half from the advancing fires, but the wind was light and no fear was felt for the immediate safety of the farm buildings.

A Test Case.

Rio Janeiro, Brazil, April 28.—The concessionaire of the Rio Janeiro docks is suing the Government for damages of \$700,000 because the defendant granted a concession of steel manufactures to operate their own docks.

The suit is intended to determine the legality of the recent concession, by which a local syndicate receives Government assistance in the manufacture of steel and iron.

Pirates Fired Vessel.

San Francisco, April 28.—A cable message from Shanghai yesterday says that after looting the wreck of the steamer Asia, which struck on Finger Rock, Chinese pirates set fire to the vessel, completely wrecking the ship. The officers and crew of the Asia will be brought here on the steamer Persia, due June 16.

A Big Contract.

Winnipeg, April 28.—The \$1,500,000 contract at Transcona for the completion of coach shops and buildings, has been awarded to Haney, Quinlan & Robertson, the contracting firm, which is just finishing the erection of the shops at Transcona for the commission and the Grand Trunk Pacific.

Inspected Jamaica Defences.

ANOTHER EXPLOSION

History Repeats Itself After a Year at Sand Point, Ont.

FOUR WORKMEN KILLED

Disaster at Dominion Explosives Co.'s Plant Absolutely Destroys the Bodies of Two of Its Victims—Although Nearby None of the Other Employees Is Hurt—Two Bodies Found In the Ruins.

Sand Point, Ont., April 28.—As the result of an explosion in the drying house of the Dominion Explosives Co., one and a half miles west of this place, a calamity which in cause and some of its results almost exactly duplicated of a year ago in the same powder mills, four men were instantly hurled into eternity and about \$700 damage was done to the property of the company.

Minic Bennet, Westport, aged 22. William Brooks, Sand Point, aged 27.

Joseph Mills, Poplar, London, England, aged 38.

Horace McMullen, Ottawa, aged 29. The explosion occurred at 12.10 yesterday afternoon, and is said by the officials of the company to have been due to the ignition of a quantity of gas in the building where it took place. An inquest will be opened today by Coroner Armstrong of Arran in an effort to fix the responsibility.

The catastrophe was one so sudden as it was terrible in its effects. Without anything that might in any way have given the unfortunate victims a warning the explosion came. The drying house was disintegrated in an instant and smashed into kindling wood, which strewn the surrounding landscape. Wm. Brooks and Dominick Benedict were inside the building. Joseph Mills and Horace McMullen standing on its platform. The bodies of Benedict and Mills were blown into atoms, no trace of them having been found last night. Those of Brooks and McMullen were recovered, that of the latter being almost impossible to identify. Almost miraculously none of the other employees were injured, though near by.

Besides the complete destruction of the drying house, the sides of the nitrate rooms were stove in, as were the ends of the ice house and a store room. Where the drying house had been, nothing was left but a large hollow in the ground, the result of the downward action of the explosion.

Wants Separation From Church.

Kingston, April 28.—Queen's University board of trustees at their annual meeting decided to once more ask the general assembly to take steps to separate the university from the Presbyterian Church in Canada. They ask the assembly to co-operate with the board of trustees in procuring the legislation to give effect to the proposed changes in the constitution of the university.

Prof. A. S. Ferguson was appointed junior professor of philosophy, to succeed Dr. S. W. Dyde. Prof. J. Matheson was appointed professor of mathematics and head of the department, to succeed Dean Dupuis.

A number of increases in salaries were made and it was decided to establish a fellowship in history.

Narrow Escape From Drowning.

Kingston, April 28.—Engineer Reynolds and Fireman Wilbur of the steamer Sally had a very narrow escape from drowning when the steamer was upset off Point Frederick yesterday morning. The steamer was towing the steam yacht Nokomis, owned by W. H. Nichols of Howe Island. A mistake in throwing off the lines caused the steamer to topple over. The men were caught under the vessel, but were rescued in the nick of time by a tug.

Artillery Team For Britain.

Ottawa, April 28.—The officers commanding field batteries have received instructions to the effect that one man from each of the 15 highest field batteries in last year's efficiency list will be taken on the composite team which goes to England in August for the artillery competitions. There will also be eight men from the heavy artillery and seventeen from the coast defence, making a team 40 strong.

To Neutralize Philippines.

Washington, April 28.—Representative Sabath of Illinois yesterday introduced a resolution providing for the neutralization of the Philippine Islands, which will be created by the committee on insular affairs. The resolution directs the President to take steps to secure an international guarantee whereby the islands shall be forever neutralized and placed under the protection of the powers.

Will Discuss Hydro Power.

Brockville, April 28.—At a meeting of the board of water and light commissioners a resolution was passed proposing a joint conference of the commissions with the Board of Trade and Town Council to discuss the proposition of the Hydro-Electric Commission, made by Hon. Adam Beck recently, to supply cheap power to Brockville.

River Steamer Sank.

Pensacola, Fla., April 28.—Loaded to capacity with 5,000 barrel cargo of naval stores, the river steamer Belle, from Vernon, Fla., to Pensacola, sank in a severe fifty-mile gale Wednesday in the Choctaw River, and four lives were lost.

Wanted In Brantford.

Kingston, April 28.—Albert Henderson, aged 25, was arrested on the steamer City of Hamilton as she arrived in port by Constable Bateson. He is wanted in Brantford on a charge of theft.

MAINTAINS INNOCENCE.

J. J. McNamara Issues First Statement on the Case.

Los Angeles, Cal., April 28.—J. J. McNamara, secretary and treasurer of the International Bridge and Structural Iron Workers' Association, gave his first authorized statement as to his arrest to the Associated Press yesterday, as follows:

"To the brotherhood of organized labor in California and the United States:

"In this second attempt to crush and discredit the cause we represent, I fully realize the desperation of the enemies of labor arrayed against us, but I am of good heart, for it will fail.

"That I am innocent of any infraction of the law, in word or act, needs no emphasis from me, for the truth is mighty and will prevail right speedily, and for it I will contentedly wait.

"I send to all brothers and friends of union labor the world over my earnest and affectionate greetings, with the assurance that there is no villainy or conspiracy possible of which we are afraid.

"I am also confident that it is not asking too much of the public to suspend judgment in these matters until opportunity for a full and fair defence has been afforded.

Signed "J. J. McNamara." Mrs. D. H. Ingersoll of San Francisco, in whose lodging house was the man she knew as "James B. Bryce," who was charged with the actual dynamiting of the Times building here, was taken into the jail to see if she could identify James B. McNamara as "Bryce."

Mrs. Ingersoll left the jail with the district attorney, who refused to reveal the woman's decision in the matter of identity. No one was permitted by him to see Mrs. Ingersoll.

Spanish Papers Cautious.

Paris, April 28.—The Spanish press generally urges the Government to proceed with the utmost caution. Premier Canalejas and his associates in the Spanish Ministry find themselves in a difficult position. The army is not disposed to go to Morocco, and public opinion is opposed to the cost of money and lives without seeing definite advantages to be gained.

It is understood unofficially that the French Government considers that since its action is in the interest of all the powers, all will approve, including Germany. Nevertheless, the comment in some of the German newspapers, reprinted here, distrusts some Frenchmen. However, the supporters of the Government policy recall that the French and German Moroccan agreement of 1909 gives Germany what is interpreted in France to be predominant commercial interests in Morocco, while France retains a predominant political position there.

Lake Captain Dead.

Kingston, April 28.—Capt. William Ada, aged 78, one of the oldest great lakes captains, is dead. He had been in the service of the R. & O. Co., thirty-five years.
