FUNERAL COSTUMES.

Their Extravagance Curbed by Law at One Time In England.

Sumptuary mourning laws were formerly found necessary in England to restrict the extravagance of the nobility and their imitators in the matter of funeral costume. At the end of the fifteenth century it was laid down that dukes, marquises and archbishops should be allowed sixteen yards of cloth for their gowns, "sloppes" (mourning cassocks) and mantles; earls fourteen, viscounts twelve, barons eight, knights six and all persons of inferior degree only two. Hoods were forbidden to all except those above the rank of esquire of the king's household.

In the following century Margaret, countess of Richmond, mother of Henry VII., issued an ordinance for the "reformation of apparel for great estates of women in tyme of mournings." So it seems that men and women have met in the extravagance of worrow.

Even 200 years ago London tradesmen found that court mourning seriously affected their business. Addison relates that at a tavern he often met a man whom he took for an ardent and eccentric royalist. Every time this man looked through the Gazette he exclaimed, "Thank God, all the reigning by making reassuring remarks respecting the health of British royalists. After some time Addison discovered that this universal royalist was a colored silk merchant, who never made a barment, "All this will take place as long as no royal personage dies in the interval."-London Chronicle.

Farmers Near North Bay Quarrel Over a Debt

JOHN M'DOUGAL IN JAIL

Lawrence Morin Is Dead and His Assailant Awaits Trial-Morin Went to Collect Money and Set Dog on McDougal - Charge Meant For Canine Entered Brain of Farmer - Feels His Position.

North Bay, April 5 .- As a result of a quarrel yesterday morning between neighboring farmers in Widdifield Township, about fifteen miles north o' North Bay, Lawrence Morin lies dead and John McDougal, a man of 52 years of ege, is locked up in the police station, the admitted slayer of Morin.

McDougal and Morin lived on farms about two miles apart, and McDougal was working for Morin taking out poles on contract. Yesterday morning McDougal went to see Morin to get some money on his wages. He found Morin in the bush alone with his dog. McDougal claims that the dog was vicious and he took his shotgun along to protect himself against the canine. Morin became angry when asked about the money due his neighbor, and, according to McDougal's story, and the dog on him. The latter states that he warned Morin that he would Morin persisted, and McDougal fired at the dog, but the charge entered the head of Morin. Then McDougal states the fired the other barrel and killed the dog. He left Morin lying dead in his tracks and went home, afterwards going to the township magis-trate to give himself up. McDougal was brought to North Bay and locked up. An inquest will be held Wednes-

day in North pay. According to McDougal's story, there were no witnesses to the quarrel, although some men were working in a bush nearby, and must have heard the shots. Morin was a man about fifty years of age, and had a wife and large family. McDougal is also married, with a grown-up family, and seems to iee. his position keenly.

MADERO WELL PLEASED.

Insurrecto Sees Hope In President Diaz's Concessions.

Madero's Camp, near Chihuahua, April 5 .- A declaration that all talk of peace is futile so long as President Diaz refuses to resign and that the abinet changes at Mexico City have served only to convince the insurrec-tos of their ultimate success, was made by Francisco Madero, jr. the provisional President, in an interview vesterday. Madero declared he was confident of "the final triumph of arms in the overthrow of Diaz.

"The change of the Ministry is a concession to an armed revolution," said Madero, "but it comes too late, and is not sufficient."

"No, we don't want promises; the Government has always made pro-mises and kept none. The only condition we will accept peace terms is that Diaz shall step aside and declare null the election of last year. We must be certain of a free ballot, the protection of the constitution of 1907 and a guarantee of no re-election of the President.

RHEUMATISM AND COMMON SENSE

Father Morriscy's No. 7 Eliminates th. Uric Acid.

Many treatments will relieve the aches and pains of rheumatism, but there is only one way to cure that dread disease. The common sense method is to remove the cause, and the effects will soon disappear.

Rheumatism is caused, as is well known, by the failure of the kidneys to perform their intended work of filtering the uric acid out of the blood and eliminating it from the body through the bladder. When the kidneys go on strike, the uric acid is carried to the joints and tissues, where it causes stiffening of the muscles, and the excrutiating pains of rheumatism. Father Morriscy, the learned priest-

physician, after much research devised a prescription which would act directly on the kidneys, and by toning them up to vigorous action, cause them to clear the system of the uric acid. This remedy, known as No. 7, has been used success fully in thousands of cases.

Father Morriscy's Liniment will bring relief from the effects of rheumatism, while his No. 7 Tablets will get to work on the cause and in due time cure the disease.

Why suffer from this painful and troublesome affliction, when by using the common sense methods originated by Father Morrisey and successfully followed for years, it is possible to and Nature to restore you to health?

If you are not yourself rheumatic, you doubtless know of some one who is, and who would be glad to learn of a treatment which has such a consistent record of cures It is easy to take and sure to benefit and ultimately cure rheumatism. 50c. a box, at your dealer's, or from Father Morriscy Medicine Co., Ltd., 99 Montreal, Que.

To Succeed Late Eishon.

Hamilton, April 5 .- Trouble is already brewing in connection with the appointment of a successor to the late Bishop DuMoulin. To avoid any friction between the

high and low church factions Canon Howitt and Canon Sutherland, repre-senting the high and low clergy of the church, sent out a circular calling a meeting, at which it was hoped to agree on a candidate. Rev. Robert Ker, of St. Catharines,

has written an open letter denounc-ing this action as lacking decency and good taste.

Now there promises to be friction between the laity and clergy in the matter of appointment.

Standard Oil and Mexico.

New York, April 5 .- The Standard Oil Co. yesterday issued a formal statement, denying reports that it has been financing the revolt in Mexico. The statement says:

"All these and similar reports are absolutely untrue. The Standard Oil Co., in its character as a citizen of the United States, has strictly held itself apart from all interference in the affairs of the Mexican republic, with which it has no connection, moral or material."

There were but two speakers, the Minister of Finance and Hon. George E. Foster.

A more handsome showing has never been made in the House of Com-mons and Canada has had a year of wonderful prosperity, crowned by a

surplus of over thirty millions. Mr. Fielding pointed to the pros-perous condition of Canada. Dealing with the public accounts, he said that the estimated revenue for 1909-10 had been 97 1-2 millions. The revenue had totalled \$101,500,000, or 16 millions in excess of the previous year, and five millions over the total of the record year, 1907-8.

The other side of the sheet was equally satisfactory. In 1908-9 there had been a reduction of 11 millions in revenue: The brakes had been applied. The expenditure had been \$79,-440,000, or a million and a half less than the estimate. There had been an estimated surplus of 16 1-2 million and an actual surplus of \$22,091,963, a record for Canada.

'Over sinking fund?'' asked Mr. Foster. "Yes."

The capital account expendatore had been \$35,971,911, of which two-thirds had been paid out of revenue, leaving some twelve millions to be added to the debt.

Nearly twenty millions had been spent on the Transcontinental. "The year," said Mr. Fielding, "was

a very prosperous one." Turning to 1910-11 Mr. Fielding gave these figures: Customs revenue, \$72 .-704,010; excise, \$16,651,118; postoffice revenue, \$8,642,090; Dominion lands revenue, \$3,023,872; railways revenue, \$10,368,590; miscellaneous revenues, \$3,276,558; actual revenue 1909-10, \$101,583,710.

For the last year up to March 31. \$114,666,225, an increase of \$16,000,-

The estimated total revenue for 1910-11 was 117 1-2 millions. For 1910-11 the consolidated expenditure was \$75,590,195.

There were circumstances, explain-ed the Finance Minister, where a large surplus of such a character would be open to criticism. If it were the result of increased or burdensome taxation, it would be open to criticism. But in this instance the rates of taxation were lower than before, but owing to the flourishing condition of the country, the amount col-lected was larger. The rates of customs taxation were, he declared, lower

than in previous years. "When this surplus comes to us from a system of taxation which is no: open to the charge of being gener-ally burdensome. I think we do well to take the surplus obtained in this way and use it in paying for some por-tion of our capital and specific the year just closed the total trade was \$687,376,352, an increase over the corresponding period of last year of \$76,-798,000.

It was impossible, he said, to make an accurate estimate for the year 1911-12, but he had no reason to fear States Congress. that it would not be satisfactory. He believed the revenue would be sufficient to meet all ordinary expenditures and a share of the expenditures | TAFT'S MESSAGE TO-DAY of a capital and special character. Mr. Fielding concluded his address by saying: "Every prospect for Can-ada to-day is bright and hopeful. With peace and progress and pros-With peace and progress and pros-perity at home, with the friendliest relations with the great republic ly-ing along side of the great Empire of which has a second seco which we are so proud to form a part, the Canadian people can look forward to the future with every hope and confidence." (Liberal applause.). Hon. George E. Foster, in arising to discuss Canada's prospects, was ac-corded loud Opposition applause. He remarked that fifteen months had passed by since Mr. Fielding had given a statement of the financial posi-tion of the country to the House. He hoped that this would not be a precedent for future delinquencies, and characterized it as slovenliness. With

the story of increasing revenue and increasing expenditure and the hope of even a larger foreign trade, every on: would be glad, he said, that Canada had had such a large measure of prosperity, but whilst they on the Opposition side also rejoiced, they were careful not to become idolators and worship the gods-that-are-to-be as the authors of all this.

Since Sir Wilfrid Laurier had come into power there had been an increase of taxation of 195 per cent. The total revenue in 1896 was thirty-six millions last year it was one hundred and one millions, and next year it was estimated that one hundred and seventeen millions. He dissented altogether from the statement that the burden and the rate of taxation had not been

and the rate of taxation had not been raised by the present Government. Taxation per capita to-day, he declar-ed, was higher than in 1896. As the surplus, Mr. Foster, said that it was to a considerable degree fictitious. For instance, several mil-lions of dollars which during the past two or three years had been realized through the sale of land to create a fund to cover the cost of the construc-tion of the Hudson Bay Railway had been put in with the revenue, in order to swell it and increase the size of the surplus. The Government was selling the capital of the country and crediting it to revenue. This is not the way in which a business man would treat a matter of that kind.

While admitting that the figures regarding foreign trade were satisfac-tory. Mr. Foster suggested that it would be highly desirable for the Minister to secure information dealing with the all-important inter-provincial trade. He said that whatever tended to discourage this trade was not for the upbuilding of the country. Dur-ing the last year the balance of trade against the Dominion had been ninety million dollars. It would have been much better had this balance been in favor of Canada, and the only way to bring about better conditions was to import less and make more within the country, which could be shipped out.

The sooner we get to the country and settle all these things the country we will get to settled conditions in this he affirmed. Before closing, country," he affirmed. Before closing, Mr. Foster had some suggestions to make. He recommended a creation of a board to investigate and report upon impartially all items of public expenditure.

Mr. Foster also strongly urged up-on the Government the necessity of the appointment of a tariff commission. He said when the Canadian Ministers went to Washington the American Ministers were supplied with gress to-day. statistics dian Ministers had practically noth-ing. The result was that tariffs were made by rule of thumb, and it would continue to be so until a scientific commission was appointed.

States Congress.

Democrats In the Lower House Have a Scheme of Tariff Changes and Are Not Sure Whether Canadian Reciprocity Should Be a Separate Bill or Part of the General Change In the Schedule.

Washington, April 5 .- The plan of tariff revision to be recommended to the House by the ways and means committee will be the subject of a conierence to-day among the Democratic members. Also the revision and reciprocity have been thoroughly considered by Chairman Underwood and his associates, though no definite method of procedure has been determined up-

on up to this time. There is a division of opinion in the committee as to whether the Canadian reciprocity measure should be presented as a separate bill or should have attached to it revised schedules embracing parts of the existing tariff law, such as the woollen or cotton schedules. A decision may be reached to-day, and the committee will be ready, if desired, to report some legis-lation to the House by Thursday. It is understood that the Democratic

members of the committee have a reci-

Chairman Underwood. Bills on almost every conceivable subject, both public and private, were introduced last night. They provide for changes in tariff pensions, im-provements in the postal service, an income tax, making the birthday of Abraham Lincoln, Feb. 12. a legal holiday, for memorial to Robert Fulton, inventor of the steamboat, in the county in Pennsylvania where he was orn, and many other matters.

Representative Hull of Tennessee is the author of a bill for an income tax on all salaries or incomes of \$5,000 or more, derived from any source whatever, unless otherwise taxed, to be assessed at the rate of one per cent. a year. He expects to press the bill without regard to the proposed constitutional amendment on the sub-

Quebec Bridge Superstructure Documents Signed.

Montreal, April 5 .- The contract for the superstructure of the Quebec bridge was signed yesterday at Ot-tawa, the amount involved being \$9,-000,000, and it is also understood that a check for a large sum of money was put up as a guarantee for the carry-ing out of the contract. The signatures to the contract are Hon. George Graham, Minister of Railways and Canals, representing the Government; Phelps Johnston, as president, and F. Webber, secretary of the St. Lawrence Bridge Co., while Mr. Johnston again Bridge Co., while Mr. Johnston again signed as vice-president of the Dom-inion Bridge Co., with M. Davy as secretary; the Canadian Bridge Co. of Walkerville being represented on the signed document by F. C. McMath, president, and Mr. Miller, secretary. As previously announced the Dom-inion Bridge Co. and the Canadian Bridge Co. unit: to form a construc-tion company to do the work, this company being known as the St. Law-rence Bridge Co.

rence Bridge Co.

The contractors of the new structure at Quebec agree to have the work completed by the 31st of Decem-ber, 1911. The first thing to do is to purchase the land and erect new shops, the whole to cost \$1,000,000, as no existing plant in the Dominion is sufficient to carry on such an ex-tensive contract. The shops will be in, or near, Montreal, and not in the neighborhood of the bridge site, as has in suggested. The contract for the steel has already been given to the United States Steel Co. of Pittsburg, as the material will be too long for ocean steamers.

naval service were being taken from capital account so the actual expendi-\$4,000,000 only. For 1910-11 Mr. Fielding predicted a surplus of \$30,500,000. The speech was interrupted by a

summons to the Senate for Royal assent to the supply bill. Continuing Mr. Fielding said that

the obtaining of this big surplus was not open to criticism, inasmuch as rates of taxation were really lower than in former years. "We do well in taking this surplus

to pay for part of our capital and special charges," he said.

The capital and special expenditure for the N.T.R. would be 24 millions, on railways, public works, etc., 111-2

millions, a total of 35 1-2 millions. Allowing for the surplus and pay-ment of \$1,100,000 to sinking fund, only \$3,900,000 would be added to the debt. The debt, Mr. Fielding argued, was

not a burden. On March 31 the net debt was \$336,268,546. It would come up to \$340,168,546.33. Producing a statement since 1801, the Minister showed that the debt per capita had gone from \$49.09 to \$43.69, the present population being estimated at 7,755, 000. Twenty years ago it would have taken six years to pay the debt. To-day it could be done in less than three

years. Mr. Fielding then passed to his treatment of loans.

After reviewing the history of the policy of granting bounties, Mr. Field-ing said those in existence at the present time were: Iron produced from Canadian ore by electric smelting, which would be operative until Dec. 31, 1912; rolled round wire rods, which expires July 1 next; lead ex-tracted from Canadian ore, expiring June 30, 1913; manilla fibre used for binder twine, unlimited; crude petro-leum, unlimited, since the inception of the bounty system in 1884, to March 31 last, the sum paid in bounties amounted to \$21,031,700.

After quoting figures to show that the total trade of Canada hall grown from \$381,500,000 in 1900 to \$728,431,-000 in 1910, the Finance Minister commented upon the tremendous expan-sion of the nation's business, and gave it as his opinion that the indications were for an increasing volume of trade. London, April 5.—The Privy Council yesterday granted leave to appeal against the decision of Justice Robson of Manitoba, re Federenko, whose arrest was unsuccessfully sought by the Russian Government on the charge of murder.

Federenko disappeared. Winnipeg, April 5.—The Privy Coun-cil yesterday consented to receive the crown's appeal in the Federenko case. In the meantime Federenko has dis-appeared. He is the fugitive wanted Russia for shooting a policeman while escaping arrest for a political of-fence. His friends assert he is hiding in the Southwestern States, and oth-ers say he has joined the Mexican revolutionists. Sympathizers in St. Paul, Chicago, New York and eastern Canadian cities raised \$50,000 for his defence. He was released on a technicality, and frauds proved. If Russia had completed application per requisi-tion, the Canadian courts would have forced to surrender the fugitive, been and that meant death.

Chicago, April 5 .- Carter H. Harrison, Democrat, was elected mayor of Chicago yesterday. It was the fifth time he had been given the office, and his plurality was in the neighborhood of 18,000. Charles E. Merriam, his republican opponent, conceded the election two and one-half hours after the polls closed.

Annexation propositions failed to get majorities in Oak Park and the Town of Cicero, but the Village of Morgan Park decided to join the city. The Socialists polled nearly 24,000, a gain of 11,000 over four years ago, while the prohibition vote fell from 5,875 to about 3,000.

Fire at Seaforth.

Seaforth, April 5.-Fire yesterday practically wiped out a number of firms doing business in the Scott Block, a three-storey brick building on Main street. ham was asked yesterday for a statement of the Government's position in regard to the gigantic scheme of Engineers Kerr and Tye for a solution of Ottawa's railway entrance problem, which embodies diverting the Rideau Canal outlet here and the construc-tion of a tunnel under the city. The Minister of Railways and

Canals, said, however, that pending a report by Government engineers, he could not speak authoritatively. One thing certain, though, was that the Government, while it might agree to the proposition if feasible, would not agree to stand the cost of building a new canal outlet. That would have to be done by the parties directly interested—the city and the railways. An exhaustive enquiry will precede the Government's decision.

Jewelry Store Robbed.

Toronto, April 5.—The jewelry store of Ellis Bros., 108 Yonge street, was burglarized last night. The exact amount of booty secured by the burglars is not known, but the appear-ance of the showcases indicated that several trays of jewelry had been removed. That the burglars had gained an entrance to the place during the early part of the evening was quite apparent from the moist condition of the shavings sprinkled around the back door, through which an entrance was gained by sawing out one of the panels. Near the door was found a brace and bit, a hammer and a large jackknife. The door was found open by Constable Hollis shortly before two clock this morning.

Compel Factory Fire Drill.

Hamilton, April 5.—The city will likely appeal to the Ontario Govern-ment for power to compel factories to have fire drills for their employes.
