Sidwell had fallen into conversation with Mr. Moorhouse. Miss Moorhouse, Mrs. Warricombe, and Louis were grouped in animated talk. Observing that Fanny threw glances towards him from a lonely corner, Peak went over to her, and was pleased with the smile he met. Fanny had watchet eyes, much brighter than Sidwell's ; her youthful vivacity blended with an odd little fashion of schoolgirl pendantry in a very piquant way. Godwin's attempts at conversation with her were rather awkward ; he tound it difficult to strike the suitable note, something not too formal yet not deficient in respect.

It is Not in the Blood Medicine Taken Internally Cannot Cure Eczema. It Is Caused by Germs.

Eczema cannot be overcome by ordinary treatment and the oid fashioned way of dosing the system with drugs. Eczeme is caused by a parasite germ that bores into the skin. It is generally a contagious disease. Until the parasite is conipletely destroyed and removed, eczema cannot be cured. Fully one-third of the skin diseases are in the form of eczema.

I so thoroughly believe that Rexall Eczema Ointment will overcome eczema and allied skin complaints, that I unhesitatingly promise to promptly return the money paid me for it should it in any way be unsatisfactory to the user.

Because of its remarkable cleansing, antiseptic, germicidal, soothing healing influence, Rexall Eczema Ointment has a very pronounced value in the treatment of skin diseases, especially where the form of ailment is of the chronic, aggravating sort. I highl recommend it for the dry scaly form or the weep type, where there is a constant flow of ill-smelling excretion.

They Paid the Price.

The corporation of the city of Glasgow wanted to purchase the Whistler portrait of Carlyle and in due course waited on the master of the gentle art of making enemies about the price (1,000 guineas). They admitted it was a magnificent picture, but "Do you not think, Mr. Whistler, the sum a wee, wee bit excessive?"

"Didn't you know the price before you came to me?" asked the master, with suspicious blandness.

"Oh, aye, we knew that!" replied the corporation. "Very well, then," said Mr. Whistler

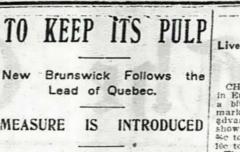

in his snavest tones, "let's talk of something else." And as there was nothing else of interest to detain the "corporation" they paid the price and made an excellent bargain.

"I'm looking for a breezy march," said the bandmaster in a Chestnut street music store the other day. "How about this one dedicated to the Aero club?" the facetious clerk asked.

Hon. Mr. Grimmer, Surveyor-General, Brings In a Bill In the Provincial House to Acd a Rider to All Pulpwood Licenses Forbidding the Export of the Timber In Its Unmanufactured State.

Fredericton, N. B., April 6.-In the Legislature yesterday Hon. Mr. Grimmer, Surveyor-General, introduced a bill to prevent the export of pulpwood from the crown lands of the province. The act provides that every timber license or permit conferring authority to cut spruce or soft wood trees or timber, not being pine, suitable for manufacturing pulp or paper on the ungranted lands of the crown, shall contain and be subject to the condi-tion that all such timber cut under the authority or permission or such license or permit, shall be manufac-tured in Canada, that is to say into merchantable pulp or paper or into sawn lumber, woodenware utensils, or other articles of commerce or merchandise, as distinguished from the said spruce or other timber in its raw or unmanufactured state. There are provisions for the enforcement of the regulation, and also exempting such logs as may be required for fuel or building purposes. The regulation applies to all licenses

permits hereafter issued, whether the first time or in the renewal of licenses or permits heretofore issud or granted, and the act comes in force when proclaimed by the Governor-in-Council.

Convict's Awful Revenge. Philadelphia, Pa., April 6.-Frantic messages are being rushed to every railroad centre in the United States and Canada to-day, and tracers are being sent out to locate car No. 59,496

of the Lebish Valley Railway. In that car, it is feared, is the body of 12-year-old Bernard Rogers, victim of one of the most diabolical schemes

of revenge ever attempted. The boy disappeared on Monday of las, week, and Tuesday his uncle, As-sistant District Attorney Rogers, re-ceived a card which said that the writer had been sent to prison by Rogers for a four-year term and that to carry out a "vow of vengeance" he had decoyed the 12-year-old boy to the railroad yards and locked him in the car which was then on a siding wait-ing to be attached to a through train.

Farmers Protest.

St. Paul, Minn., April 6.—A special to The Despatch from Grand Forks, N.D., says the farmers of North Dakota and the other border states will insist on a hearing before the national ways and means committee before action is taken on the adoption of the Canadian reciprocity treaty. This is one of the results to-day of the North Dakota anti-reciprocity meeting held in this city yesterday.

A delegation of eight convention delegates, headed by R. S. Lewis, as chairman, and accompanied by delegations from every county in the state, will make the fight against this particular feature of national legislation and declare they will have evi-dence to fully substantiate their claims.

Blow Killed Italian.

Toronto, April 6 .- At the inquest last right into the recent death of the Italian, Joseph Andrews, who, after being arrested for drunkenness, was found to have a fractured skull, Nor-man Henry admitted that he had knocked the Italian down in a fight.

Then Fanny came forward with a book of mosses, her own collection, which she had mentioned to Peak as they were talking together in the carriage.

'Do you make special study of any science ?' Sidwell asked, when certain remarks of Godwin's had proved his familiarity with the things he was inspecting.

'It is long since I worked seriously at anything of the kind,' he answered; adding in a moment, 'Except at chemistry-that only because it is my business.'

'Organic or inorganic chemistry?' inquired Fanny, with the promptness of a schoolgirl who wishes to have it known that her ideas are no longer fague.

'Organic for the most part,' Godwin replied, smiling at her. 'And of the most disagreeable kind.'

Sidwell reflected, then put another question, but with some diffidence.

'I think you were once fond of geology?'

It was the first allusion to that beginning of their acquaintance, ten 'years ago. Peak succeeded in meeting her look with steadiness.

'Yes, I still like it.'

'Father's collections have been much improved since you saw them at Thornhaw.'

'I hope Mr. Warricombe will let me see them.'

A DRUNKEN DEBAUCH.

Last Sunday the Missouri Legislature held a session that ended in a drunken debauch, a rough and tumble fight on the floor of the House, and in the end a mob of infuriated Democrats stormed the Senate and forced it to adjourn. Soon after the pastor of the Pres-

byterian church had opened the Sunday morning services the riot began.

Every Democrat who was addicted to alcoholic beverages had an opportunity to fill up to his full capacity, and many of the Bourbons in the House consumed as much as they could carry.

Before the Secretary had finished drowned by the shouts of the drunken members of the House. They then adjourned to the Senate. Some were singing and others were giving college yells. They climbed the stairway leading through the Supreme Court building to the Senate chamber, and their boisterous shouts rang through the building. Just as they arrived at the Senate door and started to enter the door was slammed shut by the Sergeantat arms.

The hilarious members then battered the door with their fists and marched out into the corridor where they set up an outcry rivaling the savage Indians.

They sang songs, hymns and rag-time. Then they did what some actress called a "skirt dance."

The performers acted in the cenprescribed for admission to the ter of an admiring throng. Married at Eleven Years.

Ottawa, April 6.-A young girl of 11 appeared in the Hull Police Court yesterday on a charge of disorderly conduct. She gave the name of Mrs. A. Beaudin, and on enquiry the magistrate discovered that she was married at 11 years and was deserted three months afterwards by her husband. The charge against the child was held over until to-morrow, and in the meantime the police will investithe circumstances surrounding gate her life.

Doubled the Reward.

Berlin, April 6.-The Township Council of Wellesley yesterday added \$200 to the \$250 reward offered by the Provincial Government for the arrest of the slayers of Frank Lobinski, the aged Pole, who was murdered in his shanty in that township. The offer was the result of a petition signed by 209 farmers, expressing the belief that the chase for the slayers was not being prosecuted as it should be.

BRADBURY ON PACT

Member For Selkirk Performs Remarkable Feats.

BRODER CALLS IT FOLLY

Bradbury Winds Up Long Address V. ich Remark That "Other Great Men Have Made"-Hon. Mr. Graham Answers Critics of I. C. R. Accidents - Papers Say What They Like About the Road.

Ottawa, April 6.-Mr. Bradbury is a political gymnast. For nearly three weary hours he wrestled with the problem of facing both ways when the reciprocity debate was resumed in the Commons yesterday afternoon. "I may say, as has been said by other. great men," he finally modestly assur-cd a smiling House, "that we are tak-ing a leap in the dark." The member for Selkirk advocated free trade in manufactured products, particularly agricultural implements, but he op-posed any enlargement of Canadian markets by a tariff-free exchange of natural products.

Before the reciprocity debate was resumed vesterday, a variety of matters engaged the attention of the House of Commons. First was the formal an-nouncement by Hon. Geo. P. Graham, Minister of Railways and Canals, confirming the report that the contract i.r the Quebec Bridge had been gwarded to the St. Lawrence Bridge Co., which is a combination of the Canadian Bridge Co., Walkerville, and the Dominion Bridge Co., Lachine. As announced, the contract price was slightly under nine millions of dollars. The Minister promised to table all correspondence in a few days. Mr. Foster draw the attention to the

iact that the new Anglo-Japanese treaty has been signed. He asked if the Government had any information to impart as to where Canada stands

in this regard. Mr. Fielding replied that for the present Canada was not included in the terms of the treaty. The Government was now considering whether it would be advisable to adhere to the terms of the agreement between Great Britain and Japan or to make

Great Britain and Japan or to make an arrangement of her own. Haughton Lennox (Sincoe) noted that the U. S. Government had estab-lished a publicity bureau under the Presidency of Champ Clark, which way compiling statistics dealing with reciprocity. He asked the Govern-ment to get a supply of publications of this sort issued at Washington for the use o' members of the House. the use o' members of the House.

Mr. Fielding said the Government had not had any communication with Champ Clark, and suggested that all Mr. Lenno:: had to do was to ask the Parliamentary librarian to get this information for him. Mr. R. L. Borden asked what the

Government proposed to do about the bank act, a notice in reference to which had been on the order paper for to r months. He saw no reason why the bill should not have been in the hands of the banking and commerce

Mr. Fielding said that the same question had been put to him the oth-er day, and that his answer was on Hansard. The effect of that state-ment, it might be well to note, was that it is neither probable or essential that the revision of the act should be undertaken at the present session. E. N. Rhodes (Cumberland) read

an article and editorial from a Maritime Province newspaper, to show that the I. C. R. was establishing an unenviable record in the matter of wrecks and accidents. The paper be unable to indicate the view of the said that there must be something Home Government.

HURTS HOME RULE. IS AIMED AT JAPAN Irish Member Says Veto Is Bad For

Emerald Isle. London, April 6 .- Moreton Frewen will soon resign his seat in Parliament |

for the northeast division of Cork County, as he opposes the Govern-ment's veto bull and desires to create a vacancy for Timothy Healy, who was defeated in the last election. Dis-cussing his proposed retirement yes-terday Mr. Frewen said: DIAZ

"I am convinced that the veto bill includes every wrong method for winning public opinion in England to rational home rule views. A second chamber of destruction instead construction is incompatible with the federal solution, which is the only solution. It is quite impossible to achieve such a constitutional rearrangement as is desired without the

co-operation of both great parties. "The furious passions that are being stirred up must make the generous financing of the new Irish Govern-ment and the completion of the land purchase hopeless for many years. To have coaxed the Tories, to have conciliated the classes and creeds; this would have been quite easy, indeed, shanks to the federal movement for which Lord Grey is chiefly responsible. The leaven was already at work, but now we are likely to be undone. However, it is not possible for me to advance such views. To do so in this crisis would be to weaken Mr. O'Brien and his new movement, upon which is contingent that broader settlement which I anticipate with confidence, when this present attempt is seen to have miscarried."

New Anglo-Jap Treaty. London, April 6.—The new Anglo-Japanese commercial treaty. which was ratified at Tokio on Tuesday. provides for reductions in the rates of the new Japanese tariff on the chief British textile and metal imports from Japan.

In the case of grey cotton tissues, the duties are reduced from one-third to one-fourth, and on the most important tissues, pure wool and cotton mixed and linen yarns, a reduction of

one-fifth is made. On certain classes of iron and steel plates, including galvanized sheets and tin plates, there is a concession of from two-ninths to two-fifths per cent., on pig iron one-sixth, and on paints one-third per cent.

Specialties in Japanese manufacture will continue to be admitted to the United Kingdom duty free. The treaty will remain in force twelve years.

Champ Clark Explains.

Washington, D.C., April 6.-In an authorized statement, Speaker Clark yesterday replied to comment upon his failure to mention Canadian reciprocity in his speech to the House on Tuesday. He said that his position in favor

of reciprocity with Canada was too well known to need expansion, and that he had confined his remarks to the promises made by the Democrats before the elections last fall.

He contended that the question was of Democratic origin, and that if it were enacted into law it would be largely by Democratic votes.

Prominent Mexican-American Gives Clue to the Sending of U. S. Troops South by Statement That Japanese Were Trying to Force Diaz to Them a Coaling Station In

Magdalena Bay-Immigration.

El Paso, Texas, April 6 .- .'n explanation bearing all the marks of authenticity, clearing up the American-Mexican Japanese situation was given here yesterday by one of the most prominent Mexican-Americans in the country. According to this informant, President Diaz was seeking a way to refuse a coaling station on Magdalen Island to the Japanese, even before the renewal of the American Govern-ment contract came up for discussion ment contract came up for discussion. "Diaz,' said the Mexican-American,

'found himself between the upper and nether milestones. He was impressed with the influx of Japanese into Mex-ico and in particular with the knowl-edge that they had mapped its entire western coast. Slow, insistent pres-sure was brought on him to give Japan a coaling station in Magadelana Bay. On the other side was the U.S. and

the Monroe doctrine." He temporarized until, to his con-siderable relief, came an unmistak-able intimation from Washington that Japan was not to have the station, although the same privilege for the U. S. was not insisted upon. Diaz then informed Japan that he did not care to lease any part of his country to a foreign power.

"Not knowing what might be the result of the Mexican attitude in Japan, President Taft ordered the mobilization of a division of American troops in Texas. In Mexico every citizen realizes that in the event of Japan aggression, which, however, baseless the fear may be, is still feared. Jexico must rely upon the assist-ance of the U.S. Japan never has attempted the colonization of large bodies of Japanese on certain tacts of land in Mexico, but the aggregate immigration figures from the land of the Rising Sun are impressive."

"Are not these immigrants mostly coolie laborers?"

"Mexico does not need to import labor; they are mostly veterans of the Russo-Japanese war. They are not brought to Mexico to make an army of protection against the Americans. They came of their own accord, and for their own accord, and for their own ends.

"And bear in mind, they do not make maps for fun and we know that many of these immigrants have had no other visible occupation.

Program of Woman Mayor.

Hunnewell, Kas., April 6.-It may seem strange enough to have a woman for mayor, but what about a woman for chief of police too? Yet Mrs. Ella Wilson, the first woman ever to be elected to a mayoralty, says she pro-poses to make such an appointment in her effort to make the town "dry." Her program includes prohibition

of liquor traffic; prohibitive-tax on pool rooms; purification of water supply; appointment of medical officer to compel proper ventilation of stores and factories and public buildings of all kinds; provision of proper places of amusement for the young and the encouragement of healthy athletics for young men.

She will name Mrs. Osborne a can-didate for judgeship, for chief of po-lice, and Mrs. S. Hilton as city treas-

Camorra Treasurer Heard. Viterbo, Italy, April 6.—One of the most interesting characters in the Camorra trial, Giovanni Rapi, the supposed treasurer, yesterday made a general denial of complicity in the murder.

Rapi has the bearing of a gentle-man and was dressed in stylish clothes. Speaking in a carefully modulated tone and with precision, he betrayed a desire to emphasize his social superiority over the other thirty-five defendants.

He is a high-class gambler. Surveillance of the Italian police becoming oppressive he went to Paris and, when expelled set up business in London, subsequently returning to Italy with a fat purse, only to go broke again. He founded the Unione del Mezzo-giogno of Naples, to the success of which many of the aristocracy contributed their fortunes in a single night's play, and conducted gambling places Rome and Ostend.

He claimed that he had returned from Paris of his own accord to stand trial, even announcing the hour of his arrival.

Child Burned.

Cornwall, April 6.-Mrs. Alexander Demartin sustained injuries which will probably result fatally, and her only child, a two-year-old boy, was burned to death yesterday afternoon, as the result of the mother mistaking a can of gasoline for coal oil. The woman and her child were alone in the house, and it is believed that she made a mistake in the cans when filling a coal oil stove, and that when she attempted to light the stove it exploded.

.With her clothing all aflame she rushed into the street and her cries brought to her assistance several men who were employed in the Dundas Cotton Mill, near by. Some extin-guished the flames which enveloped the woman, while others, running into the house, found the child in a simi-lar predicament and the carpet afire. Both mother and child were taken to the General Hospital, where the child died. The doctors do not think that the mother can recover.

wrong with the management of the road, and that it was the duty of the Minister of Railways to institute an enquiry.

Mr. Graham said that he had not heard of any such difficulty. He de-nied emphatically that the I. C. R., considering its mileage and traffic, had any more accidents than any other railway. The trouble was that when the Government-owned railway had an accident, it got scare headlines in the newspapers, whereas the same kind of an accident on a company-owned line would be tucked away in a corner.

The House then went into committee of ways and means on the reci-procity resolutions, and Geo. Brad-1-1y (Selkirk, Man.), continued the debate after the lapse of a month. He condemned it from the standpoint that it was calculated to destroy what had been accomplished in Canada during the last thirty or forty years. He considered as the result of the

pact that the farmers would be "the worst picked people in Canada." Ralph Smith (Nanaimo) made a speech in favor of the agreement from the standpoint of the consumer. He expressed the views at the outset that Mr. Broder did not represent the opinion of the majority of the farmers of the country, because it was the farm-ers who had made the strongest demands for a reduction in the duties. Mr. Broder cried out for a full meas-ure of free trade. If the Conservative party would not give its support to a small measure, the people of the west who want more would not be likely to

small measure, the product in the likely to put their confidence in them. Andrew Broder, following Ralph Smith (Nanaimo), attacked the agree-ment from the point of view of the farmer. He asked how it was that the Government was going to give the farmer higher prices for his produce and cheaper food to the consumer. He regarded the argument as foolish. He regarded the argument as foolish. He agreed with Mr. Smith that the con-sumer should be considered, but he contended that the man in the furrow wa, the man who ought to be considered first, and he was not ashamed of his position.
