## \$1 BILL HERE

The new Dominion one-dollar bill has reached Port Hope and several citizens have new pieces of paper money. It has been issued at this particular moment to make sure the Governor-General and his gracious lady who are completing their term did not miss the compliment intended for them. Their portraits appear in the centre of the bill instead of the sides as was the case of the last one in 1008 upon the face of which Lord and Lady

Aberdeen appeared. The picture of the log jam and the bold preevy men on the river has been superseded by large portraits.

The new dollar bill somewhat re-

sembles the four-dollar bill of 1912 though there is really no danger of mistake. This latter note has a picture of the lock at Sault St. Marie in the centre. A curious fact about this issue is that it was a correction of the \$4 issued in 1900, which carries a picture of the American Sault instead of the Canadian as intended.

Few people are aware of the exact distinction between Dominion bills and ordinary bank notes. The Dominion Government issues the coin currency and the one two and four dollar bills. The banks are only permitted to put out fives and multiples of fives. The Dominion notes are legal tender, the banks notes and checks are not, technically speaking. The Government also issues \$50, \$100, \$500, and \$1,000 bills.

### Italian Instantly Killed

A fatal accident occured yesterday at Pottery Corners, 2 miles from Lindsay where an Italian named Joseph Fracasse was struck by the regular C. P. R. passenger train, and instantly killed. Fracasse had been working for Stewart & Perry at the construction work Baker's mill, but had finished there and it is thought that he was driving to the work out near Peterboro accompanied by another Italian named Nichols Reusata.

They had reached Pottery Corners and had started to cross when the driver tried to turn off the track instead of crossing and the horse balked refusing to move. Seeing that they would be struck Reusta jumped and escaped injury Fracasse was instantly killed being hit over the temple besides having his breast badly injured. The buggy was smashed into match wood while the horse escaped and ran up the road.

The emergency brakes were immediately put on and the train, which was in charge of Conductor A. McNeillie, and Engineer Barr, Now for 12 O'clock Point stopped, but the injured man was dead when picked up. He was taken in the baggage car to the is needed where a pleasant day's as above. Mr. Jack Murray easily captured the fish and soon found he had a lucky catch by having a live bass for dessert. The local fishing sports are having fine success this year.

Mr. G. H. G. McVitty and daughter, of Toronto, paid friends in Port Hope a brief, visit returning from an enjoyable vacation at the Kawartha Lakes.

H. T. Bush, the head of Port Hope's largest industry, was expected to oppose reciprocity, but he appeared at the Liberal convention, declared that he had thought the matter over, and announced his conclusion that if the manufacturers are entitled to protection, and the Government gives them reasonable protection, they in turn, to be fair, should help to give the farmers what they believe will be in their best interest, for whatever Port Hope's largest industry, was expected to oppose reciprocity, but he appeared at the Liberal convention, declared that he had thought the matter over, and an-neunced his conclusion that if the manufacturers are entitled to protection, and the Government gives them rea-sonable protection, they in turn, to be fair, should help to give the farmers what they believe will be in their best interest, for whatever is for the farmers' benefit is likewise for the manufacturers' interest. #### "ANNEXATION" AS DEAD AS EVER

Under the above heading, the Western British American, published in Chicago, has the following, which goes to show that annexation is something in the minds only of scheming and interested politicians on both sides of the line, and that no reputable public man or citizen in either country is in favour

of. The British American says: increasing.
A large party of American editors The comm recently in convention at Detroit, are now taking a holiday trip up through Quebec and Ontario. When their coming was announced in the Canadian newspapers, some of the latter hinted that the object of the Yankee journals in crossing the boundary at this time was to stimulate sentiment in favour of annexation. At the least, it was rumored they were bent upon "spying out the land" in the interests of the conspirators, supposed to be active on this side, who lie awake nights plotting ways and means of alienat-

ing the Dominion from the Empire. The editors have just been cordially welcomed and entertained at Montreal. Incidentally of course, speeches were made by hosts and guests, and the Montrealers lost no time in convincing the visitors that Anglo-Saxon People lovalty to the Motherland was never so strong in Canada as it is to-day. Annexation was feared by some nervous Canadians, they intimated, but favoured by none. The universal aim was to rivet more securely the ties of friendship with their neighbors to the south, but to preserve their staunch allegiance to said, "to wad a shot gun. We the new King and the old flag.

been a little surprised at these the Canadians for development, and earnest expressions of fealty, but we say to you, God bless you, and their spokesmen in responding God speed you. made it clear that Uncle Sam's pre-One emphatic scribe stated that this century she is in population "there was not enough annexation and wealth, and in every respect, spirit in the United States to wad a the equal of the United States, beshot gun." Another editor, who cause after all it is the people of hailed from Virginia, said this: the Anglo-Saxon and kindred bloods "We are not interested in annexation. This 20th century belongs to the Canadians for development, and hand to hand, when the great probwe say to you "God bless you and lems of the coming century, the speed you." Nothing would please dominion and control of the world, aus better than to see Canada grow have to be faced."

so that in this century she is in population and wealth, and in every other respect, the equal of the United States.

The journalists before departing promised that not a single word favourable to annexation would be written by any one of them, but without exception they all announced their purpose to preach Reci-procity until the Pact was established on both sides of the border.

If this illustrates one thing more than another, it is that annexation sentiment exists in the United States and Canada nowhere outside of the brains of interested politicians. Whenever the two peoples get together and compare notes they discover that it is a dead issue. Frequent exchanges of candid opinion on this vital subject by Americans and Canadians will bury annexation beyond recall, and, at the same time, boost one of the most important of present-day reforms -Reciprocity.

### PEANUTS VALUABLE.

#### Crop in United States Last Year Valued at 12 Million.

The peanut might seem a small matter, says the Boston Herald, but the value of the peanut crop of the United States for the year 1908 was valued at 12 million dollars, and the rea of cultivation and the value of the product are steadily

The common peanut originally came from tropical America. Properly speaking it is a pea rather than a nut, the term not having been added on account of its flavor, which is similar to that of many of the true nuts.

The cultivation of the peanut for commercial purposes has still comparatively recently been confined chiefly to araes in Virginia, Tennessee, the Carolinas and Georgia, but in recent years the industry has become established throughout the south Atlantic states and westward to and including California. The climate requirements of the peanut are a long season without frost a comparatively light rainfall during the growing period, abundant sunshine and a high temperature.

## To Stand Together.

Governor White, of West Vireinia, expressed himself very emphatically at Montreal the other day. He said:

#### TORIES BOUND TO LOSE.

### The Candid Opinion of a Liberal Paper they Like to Quote.

Huntingdon Gleaner

The situation on Saturday was an offer before the House of Commons from the United States to have tree trade in farm products, with one-third of the members determind by hook or crook to prevent its acceptance. Laurier did what he could not help doing, he appealed to the electors to decide whether those who favored reciprocity or those against it represent the sentiment of the country. The issue is definite for the question put to each elector is, Are you for reciprocity? and the answer must be either yes or no. It is to be regretted the issue should be thus narrowed to a single question for it would have been preferable had Mr. Borden allowed the vote on reciprocity to be taken and then forced dissolution on the general record of the Laurier administration. It faces the electors for the best act it has done, the negotiation of a treaty to open the United States' market to our farmers. The 21st of Septem-cer will give the answer of the farmers.

Mr Borden's excuse for bringing on the election before redistribution its un worthy of him. He declares he advised the government at the beginning of March to hasten the census so as to permit the passage of a redistribution bill. How could the government fly in the face of the statute enacting that the census must be taken in June? By bring-Ing on an election before the census returns are in, Mr. Borden has disfranchised a million of newcomers in the west. Sir Wilfred's address magnifies reciprocity and dilates on the obstructive courses of the opposition in trying to prevent its acceptance.

#### Ate Fifty-Seven Ears of Corn.

New York, Aug. 9.- The Tammany corn-eating contest is an annual event of the greatest import ance to the New York east side. This year's contest, held on the porch of a Broome street saloon last night, was won by James Dugan, a cab driver, who ate fiftyseven separate and distinct ears, carrying off the 1911 championship and a purse of gold coins.

Dugan's nearest competitor was eleven ears behind his record.

#### RECIPROCITY.

The Canadian People Desirous of Giving It a Trial, Declares Anti-Laurier Ouebec Journal.

Interesting and significant is the following frank statement by La Verite, the anti-Laurier weekly of Quebec City:

"The Opposition are committing grave tactical error in forcing the Laurier Government to appeal to people on the question Reciprocity. The Taft-Fielding agreement, the advantages an disadvantages of which are debatable, will certainly be ratified by the majority of the Canadian people, as they will be desirous of giving it a trial.

"The Opposition would have had greater chance of success if it had forced the Government to go to the country on the question of the navy.

"The new naval policy of the Government is far from being popular in certain Provinces. That is the only question capable of producing a radical change in our political life. The Laurier Government is absolutely certain to take advantage of the next general election surreptitiously to get the Canadian people to ratify its naval policy."

### Planning for Barley.

Word comes that all along the Ontario shore of Lake Ontario the farmers are quietly preparing to put part of their acreage in barley, says the Montreal Herald. They are not saying about how they are going to vote, but they are counting on having barley to sell across the lake next year.

The case is like that of the mis ing the trunks while her husband was praying for guidance about accepting a call to a larger church.

There is as much politics in the lake Counties as anywhere else, if you stir it up, and a farmer who votes Tory as a life habit isn't keen about announcing any change in view. This time, however, he sees that it is the farmer's turn. So he prepares his field for barley.

## A TROUBLESOME MISGIVING

Continued from yesterday.

What a surprising visit!' was Christian's exclamation, when he and his sister were alone. 'How did she find u-?'

'Directory I suppose.'

'A lady doctor!' he mused. 'And a very capable one, I fancy,' said Marcella. 'Wa had nearly an hour's talk before you came. But she won't be able to stand the work. There'll be another breakdown before long.'

Has she a large practice, then?' 'Not very large, perhaps; but she studies as well. I never dreamt of Janet'becoming so interesting a person.'

Christian had to postpone till after dinner the talk he purposed about Mrs. Palmer. When that time came, he was no longer disposed for sentimental confessions; it would be better to wait until he could announce a settled project of marriage. Through the evening, his sister recurred to the subject of Janet with curious frequency and on the following day her interest had suffered no diminution. Christian had always taken for

'Easier to forgive, certainly, than those of a man, said Marcella with

a curl of the lip. Christian became silent, and went thoughtfully away.

A week later, he was again in Mrs. Palmer's drawing-room, where again he met an assemblage of people such as seemed to profane this sanctuary. To be surehe said to himself-Constance could not at once get vid of the acquaintances forced upon her by her husband; little by little she would free herself. It was a pity that her sister and her neice-persons anything but intelligent and refinedshould be permanent members of her household; for their sake, no doubt, she felt constrained to welcome men and women for whose society she herself had little taste. But when the year of her widow-

hood was past-Petrarch's Laura was the mother eleven children; Constance had had only three, and one of these was dead. The remaining two, Christian now learnt, lived with a governess in a little house at Bournemouth, which Mrs. Palmer had taken for that purpose.

'I'm going down to see them tomorrow,' she informed Christian, 'and I shall stay there over the next day. It's so quiet and restful: that was to say, no idle call ister's wife who was upstairs pack- ers would break upon her retirement; she would be able to welcome a friend, and talk reposefully with him. His conviction strong as ever, he came to the journey's end, and in due course discovered the pieasant little house of which Constance had spoken. At the door his heart failed him; but retreat could not now be thought of. Yes Mrs. Palmer was at home. The servant led him into a sittingroom on the ground floor, took his name and left him.

It was nearly ten minutes be-Constance appeared. On her face he read alrank surprise.

Eight Alleged "Black Handers" Arrested in Toronto.

GRIRO GOES TO TRIAL

Confessed Slayer of Frank Tarro Tells Long Story to Detectives and as a Result Eight Italians In Toronto's Foreign Quarter Are Locked Up -Detectives Raid Suspected Places-One Is a Woman.

Toronto. Aug. 12 .- Following upon the information given to Inspector of Detectives Duncan by Frank Griro. self-confessed murderer of Frank Sciarone or Tarro, eight Italians were arrested in a raid on three York street resorts by pretty much the whole de-

tective force yesterday afternoon.

The prisoners up to date are: Joseph Rapola, a barber, 174 York street;
Joseph Muselino, boarding-house keeper, said to be an influential member of the Black Hand; Jim Vecari, roomer at 160 York street; Mrs. Mary Clark, lives at 160 York street; Ruffino Raffale, 146 Christie street; Sal-vatore Sciarone, or Tarro, brother of murdered man; Sam Carollo, and Jos-

eph Dolzini. Griro, who was committed for trial upon the murder charge in the Police Court yesterday, at the request of W. A. Henderson, counsel for the de-tence, made a long statement regarding the killing of Tarro, and the workings of the Black Hand in Toronto, to the inspector after his surrender Thursday night, and it was upon this and other information given that the arrests were made yesterday. All the but Joseph Rapola are prisoners

charged with vagrancy.

Rapola, who is an Italian barber,
with a shop at 174 York street, is
charged with selling the gun which
killed Tarro to the murderer on the
morning of the killing. He says that he received \$10 for it and that Griro he received \$10 for it and that Griro came to his shop, saying that his own gun was out of order and that he wanted to buy Rapolo's because it would be sure not to fail. Rapola says that Griro was always telling him that he intended to shoot someone, but that he did not say so not the morning. that he did not say so on the morning that he bought the revlover. The penalty for selling such a weapon when the purchaser exhibits no permits the police, is a fine of from \$25 to \$200, or six months imprisonment, or both. The seller may also be deported.

The other eight are believed to be connected with the Black Hand more or less closely and are charged with

vagrancy.
Joseph Muselino is 32 years of age. He has been in this country for several years and is a naturalized citizen. When the police descended upon his fruit store and boarding-house at 160 York street, they found him and several others there. A number of vicious looking knives and stilettos made of filed were found, which Mu-selino says belonged to his boarders. In the fruit store were found only three bunches of bananas and a box of macaroni. The police believe that this store is not a real one. Muselino declared that if not wanted he would go to the States or to Italy. He said that he made his living from his boarders' fees.

Jim Vecari, who lives at this house, is a sickly looking lad. He says that he has an order from the city for admission to the hospital and that he has not worked recently through ill-

Ruffino Raffaele was picked up at the same place, but says he lives at 146 Christie street. He is believed to have been engaged in the white slave Mrs. Mary Clarke says that she lives with her husband at the Musel-

#### DEBATE WILL BE KEEN.

Hon. Mr. Lemieux Meets Bourassa at St. Hyachine To-morrow.

Montreal, Aug. 12.—Everywhere there is plenty of comment preparatory to the selection of candidates. Beyond that, however, the surface is calm as neither side is divulging anything of real importance.

thing of real importance.

The joint meeting Sunday next at St. Hyacinthe, when Henry Bourassa, the Nationalist leader, will reply to Hon. Rodolphe Lemieux on the naval policy and reciprocity programs of the Government, promises to be a big affair. It will be a keen battle of wits, as both men are able speakers. So great is the interest, that special trains will leave Montreal to accom-modate the crowds who like to listen

to wit and repartee. Le Devoir, Mr. Bourassa's paper, announces it hears a gang of toughs will endeavor to break up the meet-ing, and recalls certain past gatherings wherein stones were hurled on the platform. The meeting will most likebe lively enough, but as to violence it is not expected it will go beyond

Half a dozen speakers will be heard before Mr. Lemiux is to make his long-expected attack on Henry Bourassa, and the Nationalist leader, will, it is promised, be in fighting form and so will the Minister of Marine.

## Clifford at Montreal.

Montreal, Aug. 12.-Private W. J. Clifford of Toronto, the hero of the Bisley meet, winner of the King's and Prince of Wales' prizes, returned to Canada by the steamer Victorian last Private Clifford returns with over \$2,000 in prize money and a cabin full of cups, medals and badges.

Commenting on his trip, he said that the only thing of which he had to complain was the interference of some of the inexperienced range officers, who had evidently not mastered the whole book of the somewhat complicated Bisley rules. He said that he had been somewhat handicapped in the King's, especially by range officers, who took objection to his using

the low position.

In this match, he said, a range officer stood over him at every shot and timed him with a stop watch, which naturally proved somewhat discon-certing. Apart from this, however, he

had a royal time.

Private Clifford will not proceed to Toronto until Monday night, as by doing so he would anticipate the big civic reception prepared for that date. At a meeting held yesterday morning at the Point Aux Trembles ranges by the P.Q.R.A., it was decided to give a dinner this evening at Cooper's to Private Clifford.

## STRIKE IS SETTLED

London Lightermen Get Increase They Demanded.

WON A SIGNAL VICTORY

Carters and Dockers Have Already Been Settled With and .. /hen Lighter Workers Get a Ter.-Hour Day and 25 Per Cent More Pay Serrious Outlook Passes Away-Supplies Are Now Moving.

London, Aug. 12-The strike of dockmen, lightermen, coal porters and car-men, which for several days has ser-iously disturbed all business in London and resulted in a shortage of food-stuffs, coal, petrol and other necessi-ties, was ended last night with the settlement of the lightermen's dispute. The men were conceded a ten-hour day and an increase of about 25 per cent, in wages. The situation had be-come so critical that troops were held in readiness at Aldershot and other places to proceed to the capital and intervene.

Last night the strike committee issued a manifesto congratulating the men on the signal victory obtained and declaring the strike ended.

The dispute of the carters and dockers already had been settled and yesterday there only remained a com-promise with the lightermen to bring about a return to normal conditions. Until a late hour last night it was doubtful whether an agreement would be reached and both Home Secretary Churchill and Sydney Buxton, president of the Board of Trade, cancelled their week-end engagement in order to remain at the Board of Trade where conferences looking to the ending of the strike had been in progress. It is now expected that all the men will

resume work on Monday.

The evening in London passed quietly. There were no street disturbances and owing to police protection the transfer of meat and other foodstuffs by the circuitous underground railway connections from the depots to the markets had been effected. With the

markets had been effected. With the supplies thus secured it is expected that the people will feel less inconvenience to-day.

The Home Office last night issued a circular to the chief constables throughout the country calling attention to the provisions of the law dealing with intimidation and molestation in trade disputes and instructing them

how to act.
City's Trade at Standstill.

Liverpool, Aug. 12.—The strike sit-uation here continues critical. The attempts of the Lord Mayor and others to arrange a settlement of the trouble failed, and the trade of the city is at a standstill. The coaling of the steamer Teutonic was stopped by the strikers. A conference later took place between the managers of the White Star Line and the leaders of the strike in an endeavor to effect a comromise, but it was without result.
Conflicts between the police and strikers occurred in various quarters of the city Thursday night.

At the inquest held yesterday afternoon a post-mortem was ordered to be made, and an order for the burial of the body this afternoon was issued. only witnesses examined were the chief of police and the under-taker, who testified to bringing the body to Orillia. ## WAITERS ARRESTED

They Wouldn't Serve Passengers on Allan Liner.

ALL CARRIED OFF TO JAIL

Fifty-Seven Stewards For No Apparent Reason Suddenly Withdraw From the Hash Distributing Business and Coldly Look On-Five Vanloads of Police Await the Ship's Arrival In Montreal.

Montreal, Aug. 12.-Fifty-seven men. comprising the entire contingent of first and second-class stewards on board the Allan liner Victorian, were arrested and driven to jail on the arrival of that vessel from Liverpool yesterday afternoon. Their arrest was due to the fact that they had refused to perform their duties at Rimouski, and during the voyage up the river from that point. The entire fifty-seven were taken into custody without a blow being struck and without any signs of trouble, and seemed somewhat surprised that the company should have called in shore law to settle the difficulty.

The trouble started when the vessel arrived at Rimouski yesterday morning and the stewards refused to put the mail ashore. This has been a grievance for some time and was the cause of some little trouble last year, but since the spring, when the Allan liners took to putting all the mail, except that for the Maritime Provinces ashore at Quebec, the amount handled at Rimouski has been so small as not

to cause trouble.

The mail was put ashore with some little delay, but both at breakfast and at lunch time, the stewards refused to serve meals to the passengers watched them in scornful silence. The chief steward, the second steward, and four stewardesses did their best to satisfy the passengers. The cooks and the third-class stewards did not take part in the movement.

The officers of the ship sent word ahead and when the vessel arrived here at 6.30 p.m., five police patrols, loaded with constables, were at the docks. The stewards were taken into custody without trouble. The only sign that anything unusual had taken place was the fact that the passengers carried their own hand baggage, while sailors handled the heavier stuff.

The authorities of the Allan line

office say they cannot understand what caused the men to act as they did, as their wages were raised only two months ago and at that time they expressed themselves as satisfied.

"It must be an echo of the dock strike on the other side," said one official.

A young man, well-known in Cobourg, has been committed for trial at Ottawa, charged with obtaining money from a bank under false pretences .- Cobourg Star.

We would call attention to the card of Dr. Wamsley, of Peterboro, who will be at the Hotel St. Lawrence each Tuesday from 2 to 7

great preparations and the show ever. The 48th Highlanders of Toronto, will be in attendance.

We congratulate Miss Ruby E. Jewison, a former resident of this town, upon her success in having passed the State Board of Examina-tion and Registration of Nurses, held recently in the city of Hartford, Conn., having obtained the highest marks of all those who wrote.

WATCH OUT FOR HIM. - Chief Bond has been notified by Chief Vincent, of Sault Ste. Marie to look out for Alfred Ross, 21 years of age, 5 feet 8 or 9 inches, slim build, dark hair, very slight moustache, dressed in light grey suit. Has been a dry goods clerk and has one eye under doctor's care. He is wanted for burglary,

AT THE GOAL. - The number of prisoners in the gaol this week was five. The warm weather must have added much to the weary condition of the people, and they can't get up ozone enough to do anything worth being committed for. It was too warm to drink whisky, and such allfired hot, miserable weather that the criminally inclined were too weary to act.—Cobourg Star.

C. P. R. SURVEY .-- C. P. R. Surveyors struck town last week and are rushing the final survey from Toronto to connect with the main line at Smith Falls. The survey cuts in from the west through Norman Allin's farm, about 150 yards south of his house, through A. Lake's young orchard a little north of the grove, then across the Allin Bros. farm and through Reeve Colwell's orchard about 100 yds north of his barn, and on across the south west corner of T. M. Gibson's farm, crossing the road between M: Belgers's house and barn and down south-east half a mile through E. Rinch's farm and into J. Holmes' orchard; throauh Frank Bone's and Henry Adam's farms and on near the G. T. R. to Port. — Newcastle Independent.

#### ADMITS LAURIER'S VICTORY

A very good pointer on the real opinion of the Conservative, party as to the result of the elections on September 21 is to be found in a circular sent out by the canning combinations of Western Ontario to the wholesale grocers of the Dominion. In this circular, which bears the signature of two men who were Conservative members of the House of Commons recently dissolved, this statement is made :-

"The reciprocity agreement be-A FINE Show.—Cobourg Horse Show will be held on August 15, 16, 17, 18. The committee have made great preparations, and the show will be held on August 15, 16, 17, 18. The committee have made great preparations, and the show will be show the electrorate on September 21 next, at the general elections, it great preparations and the show is of the greatest importance that this year promises to be better than wholesale merchants would now secure full supplies of ganned beans and peas, because, at the session which will follow the elections, Sir Wilfrid Laurier, returned to power will not tail to have the agreement ratified by Parliament and this will mean an increase in the price of beans and peas of 50c. a bushel."

This is the business man's view, which indicates that the farmer will get increased price for his products under reciprocity, coupled with a confession that the Conservative cause is again doomed to defeat.

# The Style Subject

The value of good style in the clothes you select cannot be overestimated. To give clothes that certain touch of correctness which you are desirous of seeing in ? your garments is distinctly a question of ability on the part of the maker of the clothes.

We believe you will get what you pay for in the matter of fabrics and Ilnings, if you buy clothes of a reliable make, but if you want style, combined with quality, it is a question of ability. The 20th Century people have the ability, hence the style you always find in their bench-tailored garments.

The New Cloths, Style Chart and Measurement Forms for Fall, 1911, are here now.

Come in and take a look through.
