#### A POPULAR CANDIDATE

East Durham people, especially residents of Cavan, trade largely in the City of Peterboro, in the adjoining county, so that the news-papers in the "Electric City," as it is know owing to the location there of the Canadian Electric Company's Works, are more tamiliar with the public men of the eastern part of Durham county than we are in West Durham. Hence we welcome the editorial that appeared in The Daily Examiner of Peterboro on Saturday last under heading of "A popular Candidate":

"Liberals of Durham County made a good selection when they nominated Mr. T. A. Kelly, Cavan, to contest the Riding in the coming General Election against Mr. C. J. Thornton, the present Conservative member. With an issue like Reciprocity and a candidate like Mr. Kelly, the Liberals were never in a better position to redeem the Rid-

Mr. Kelly is an ideal candidate. He is a young man with all kinds better known throughout the

VALUABLE APPLE TREE county of Durham as "Sandy Kelly" and no young man in Durham has been more prominently before the public during the past ten or twelve years. He has been President of East Durham Farmers' Institute and has been prominently identified with every movement that has tended to the best interests of the farmers of his district. Mr. Kelly is at present President of East Durham Agricultural Society, one of the best institutions of its kind in Ontario; Reeve of the Township of Cavan and Warden of the United Counties of Northumberland and Durham. He has proved that he The tree is twenty years old and is called the Chelan. The fruit is gold or yellow and is said to be different from that of any other county's most promising young

Every municipality of Durham County was represented, and the candidate was assured of the most some" to beat the aggressive and popular young reciprocity candidate from the Township of Cavan.

NEVER THRASHED GIRL PUPIL-A school-teacher in Liverpool, G. B., who boasts that he has never chastised a girl pupil, saved his record the other day by permitting a boy to receive the punishment due to a girl. It was during the hot weather last month, and the girl had repeatedly dropped a book to make a disturbance. When the schoolmaster made his offer there were 20boys willing to take the punishment and the master chose the most popular boy of the school, thus adding to the boy's popularity, and, presumably, to his own.

## FARMERS DON'T SELL

#### Value of Farm and Fruit Lands Will Advance.

Farmers are advised not to sell or give an option on their farms, orchards or apples at present. For as sure as the sun rises the value of farm and fruit lands when the reciprocity agreement goes into force will advance. Even now city speculators are after farms and we are told that some of the best orchards of these counties are already leased for a term of years.

A great many of our people do not realize that we are in the centre of the best winter apple district in the world and the orchards here should be valued accordingly. We grow better winter fruit than can possibly be grown in New York State or the south side of Lake Ontario, and it will pay our farmers to give even greater attention to the care of orchards and the grading of fruit than ever before.

There are men in Port Hope who will remember that United States buyers came here, paid good prices for apples and laid down the cash for what they bought years ago when the tariff allowed our truit to go to the United States. In those times Port Hope Harbor was a crowded busy spot and it paid to trade with our nearest neighbor.

It must be remembered that the English market is now almost stationary and there is little hope for an increasing demand, for it is a fully developed country, while the United States and our own West will be increasing in their needs, while the country is filling up and growing.

Farmers are business men these days and we are satisfied they will not vote against their own interests. This time it is not a Conservative and Liberal quarrel, but it is simply a business proposition, and the farmers will not reject a big market and larger prices on political grounds.

Vote for larger markets by marking your ballot for Kelly

#### Good-By to the Potato Bug.

From London, Ontario, comes the momentous information, as recorded in news despatches of recent date, that a new species of beetle has been discovered that feeds upon the potato bug, otherwise known as the Colorado beetle. The despatch reads as follows:

Edward H. B. McKone, a science teacher, of this city, has discovered what he believes to be a new species of beetle so far as this country is concerned, and which will in time wipe out the Colorado beetle, better known as the potato bug. The new beetle resembles a milk leaf beetle, and it preys upon potato bugs, destroying many of the pests in twenty-four hours. It was found in a potato field near Devize, a short distance from London, and it is said that where the newcomers were plentiful the Colorado beetles were scarce. Several specimens have been sent to the Ontario Agricultural College, Guelph.

They were opposite each other in the railway carriage. Malkin leaned forward with earnest, anxious

That's my trouble,' he whispered. 'Im confoundedly uneasy about it. I don't think she's bringing them up at all in a proper way. Earwaker, I would pay down five thousand pounds for the possibility of taking Bella away altogether.'

The other mused. 'But, mind you,' pursued Malkin, 'she's not a bad women. By no means! Thoroughly good-hearted I'm convinced; only a little weak here.' He tapped his forehead. 'I respect her, tor all she has suffered and her way of going through it. But she isn't the ideal mother, you

On his way home, Malkin turned into his friend's chambers for five minutes.' At two in the morning he was still there, and his talk in the meanwhile had been of nothing but schemes for protecting Bella against her mother's more objectionable influences. On taking leave, he asked:

'Any news of Peak yet?' 'None. I haven't seen Moxey for a long time.'

'Do you think Peak will look you up again, if he's in London?' 'No, I think he'll keep away. And I half hope he will; I shouldn't quite know how to behave. Ten to one he's in London now. I suppose

he couldn't stay an Exeter. But he may have left England.' They parted and for a week did not see each other. Then on Monday evening when Earwaker

#### Impossible to Resist.

Hon. G. E. Foster in the House of Commons. March 25, 1888 (Hansard, 1888, vol. 8, page 194:)

"I say to hon, gentlemen op-posite: Suppose the United States had put a clause in their tariff act saying the very moment Canada makes natural products free the United States will make them free, would we not have a pressure which it would be totally impossible to resist ?"

Is not that the very situatiou in Canada to-day? The United States has made the offer of free natural products (the same offer Sir John put in the National Policy act, and Mr. Foster kept there.) Can the Conservatives afford to resist the pressure of the people of Canada for its acceptance?

#### Apt and Prophetic,

Mr. Arthur Hawkes, of the British Born campaign, who quoted Grey's Elegy at a political meeting the other night, is understood by the Toronto Star to be preparing one for Mr. R. L. Borden for use on the night of September 21, and it is suggested that this might fill the bill:

HON. GEO. E. POSTER

There is much speculation in political circles in regard to the position Geo. E. Foster will occupy should the Conservatives come into power. That he will occupy a prominent position goes without saying for he has stood the brunt of battle for thirteen long years. He is easily the best debator in the House of Commons, and in finance his consumate knowledge and ability to use that know-ledge for the benefit of his party and the detriment of his political enemies - personal enemies he has none have made him a power to be reckon-ed with. Born 64 years ago in New Brunswick, he was given a splendid education, attending the Universities of New Brunswick, Edin-burgh and Heidelberg, where he won honours and medals. He entered the teaching profession being appointed Professor of classics and ancient literature in 1871. After eight years of battling with the ancients years of battling with the ancients he resigned to take up political lite being elected to the Federal House of Commons in 1882. In 1885 he became a member of Sir John Macdonald's Government as Minister of Marine and Fisheries. Three years later he succeeded Sir Chas. Tupper, as Finance Minister, a position he held right through the different Conservative administrations ferent Conservative administrations

HON. GEORGE FOSTER.

until 1896 when he resigned with the Government. Outside his govern-mental positions Mr. Foster has held many important positions in various temperance organizations of Canada.

#### Dr. J. A. MACDONALD Newspaperman.

Dr. MacDonald has been called the nofficial member of the Government, which while not quite true is an indication of his influence in the great field of politics, though he would be the first to disclaim any ambition in that direction, believing truly that journalism, which he adorns so well, is the real field through which the people of Canada will be induced to take up their full responsibilities, as citizens. There is no doubt but that in a very short time, the Press of Canada will be the real leaders,—editors for some time have realized their responsibility and are gradually raising the general tone of their papers, and no one has done more to bring this about than Dr. MacDonald.

Dr. J. A. MACDONALD,

Educated for the Presbyterian Ministry, MacDonald graduated at Knex Collage Toronto and was ordained to the ministry of Knox Church St. Thomas Ont. in 1891. In 1896 he resigned his pastorial charge and removed to Toronto to become first editor of the Westminster, a religious monthly, subsequently, a number of other church papers were acquired and consolidated under his editorship and issued weekly under the name of the Presbyterian. For five years Dr. MacDonald was principal of the Presbyterian college for ladies, and in 1906 he was appointed by the Ontario Government to serve on the Board of Governors of the University of Toronto.

Since he became editor of the Toronto Globe he has not only infused new life into the great liberal organ, but has strengthened its position. both editorially and financially As a writer and speaker Dr. MacDonald is trenchant and convincing,—a man who knows his mind and knows how to express it without fear or favour. Outside his editorial work he has published two books and a number of fugitive articles on literary, social, political and religious subjects.

Claims on Treasuries.

#### AN ANCIENT INDIAN SUIT

Cayuga Indians, Who Say They Lost Their Lands In the American Revolution, Are the Chief Claimants Before the New Anglo-American Tribunal - Sir Charles Fitzpatrick May Represent Canada.

Ottawa, Aug. 17 .- Under the treaty concluded last year between Great Britain and the United States with regard to the settlement of pecuniary claims affecting the national treasur-ies of Great Britain or her domin-ions and of the American Federal or State Governments, an international court will shortly be established to deal with the first schedule of claims filed for adjudication. The court will consist of three members, one being selected by each Government con-cerned, with a third member chosen by consent as chairman. It is un-derstood that Canada's representative on the court named to consider claims affecting this country and the United States will be Sir Charles Fitzpatrick,

Chief Justice of the Supreme Court.

The principal claim to be considered, in so far as the Canadian Government is concerned, is that of the Cayuga Indians, who during the war of independence were, it is claimed unlawfully dispossessed of their lands in the Mohawk Valley by the State of New York. The Indians settled in Brant County, Ontario, where they were given land by the crown, and became the wards of the Indian Department. Their claim for compensation from the State of New York is considerably over a century old, and has been pressed from time to time in a desultory sort of way for genera-tions. Nobody now knows the exact amount of the claim in view of ac-cumulated interest and enormously enhanced values of the lands from which they were dispossessed. The Dominion Government, acting for the Indians, will now attempt to secure some fair and legal settlement. There are a score or so of other

#### WHO'S WHO IN CANADA &

HON. CLIFFORD SIFTON Chairman Conservation Commission

When the Federal Government decided to create a Conservation Com-mission in 1909 with great powers, and put Clifford Sifton at its head an epoch was marked that future generations will bless, for it meant that Canada had at last realized that something must be done and done quickly if she was to save her spiendid water powers and forests from vandalism and destruction.

Since that date the Commission bas done splendid work — conserving this forest, controlling that water fall, and advising the different provinces and municipalities as to the best methods of making the most, without destroy-ing, of their local waters and forests.

Canada's water powers are greater than those of any other country in the world. Her known or estimated flow development is about twenty-six million horse power, but it is certain that this is but a fraction of her water power asset.

So far the computation has been de-pendent upon somewhat unreliable statistics, but the energy displayed by the Conservation Commission has had beneficial results. This important body has stirred to action some in-different provincial authorities, and there is now the prospect that a com-plete table of waterpowers in the Dominion will be ready to place before the public, along with much valuable information relating thereto.

HON. CLIFFORD SIFTON, Chairman of the Conservation Commission.

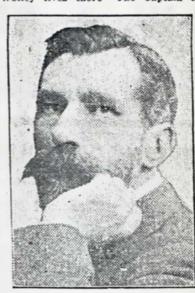

It may be said in passing that the provincial governments for the most part have been negligent in the matter, and it is only where the federal government has control and responsibility that accurate information has up till the present time been available.

It is calculated that the maintenance of one horse power per annum from steam power involves a consumption of 21.9 tons of coal On this basis the available water powers of Canada represent a combined energy, which, if it had to be maintained by steam force generated from coal, would involve a coal consump-tion of six hundred million tons per

And the man who is at the head of this work? Clifford Siften is one of the strong men of Canada. It was during his administration as minister of the Interior that Canada and its opportunities were first brought to the notice of the outside world with such beneficial results.

## STRIKE IS AT HAND

British Troops Will Guard the Rallway Lines.

MEN TO WALK OUT TO-DAY

Widespread Strike of British Railway Employes Begins at Expiration of Ultimatum and Entire Aldershot Garrison Is Armed With Ball to Fight the Unionists In Case of Disorder Along the Line.

London, Aug. 17 .- Meetings, with a view to settling the controversy between the railway companies and their employes were held yesterday and last night at the Board of Trade, but when they were adjourned late last night the situation remained as far from being solved as when they begun. The railway managers declared they had been promised protection in the running of their trains and would not yield to their men; the representatives of the Railway Men's Unions declared the strike would take place at the expiration of their ultimatum to-day.

At Aldershot the military authorities are taking every precaution to insure the working of the railways in the event a strike is called. Every soldier in the Aldershot command has been placed under orders for duty Previously only the cavalry and in-fantry had been under orders, but yesterday the Royal Engineers, the Army Service Corps and the Field and Garrison Artillery were warned to have every man in their ranks ready

to move off on a moment's notice.

If a strike is declared three regiments of cavalry and three batteries of Royal Horse Artillery will first be moved direct to London, to be followed at short intervals by an infantry battalion, field artillery, the royal engineers and the medical units of the command. Only the barracks' guard will be left at Aldershot. All the soldiers will be armed with

rifles and ball ammunition. They will be stationed along the railway lines north and south of London, while the cavalry will be employed at stations and also will patrol the lines so as to be able to get quickly to any point of danger. The trains will be worked by flag signals.

It is estimated that 25,000 men from Aldershot will be prepared to move in a few hours, trains to accommodate that number having been assembled there. Similar precautions also have been taken at all other military sta-tions in England, Scotland and Wales, so that in case of need every avail-able soldier will be on duty to insure the continuance of railway traffic.

Though the Government yesterday made an energetic attempt to avert the calamity of a general railway strike, the present indications are that one will materialize to-day, when the ultimatum of the employes expires. Con-ferences were held yesterday and last night at the Board of Trade with representatives of both sides of the dispute, by Sydney Buxton, President of the Board, but they did not actual-ly result in a meeting between the contending parties. An adjournment of the conferences until to-day was arranged late last night, in order to enable Mr. Buxton to see the executives of the three railway men's unions, who are now en route to London from Liverpool. This fact alone leaves a glimmer of hope that the men's ultimatum may at the last moment be extended another day and provide an opportunity for further negotiations. This is the Government's earnest desire, but up to midnight there was no sign of any change in the plans for

It is understood that Mr. Buxton's conference with the members of the railway companies was largely taken up with the discussion of how far the Government was prepared to go in affording military protection to the railways in the event of a strike. In the House of Commons yesterday Winston Churchill, the Home Secretary, declared that non-unionists were antitled by law to work without mo-lestation and that they would be pro-tected in the exercise of that right. The Chancellor of the Exchequer, David Lloyd George, also declared that the Government was determined to protect the railways and the food supply at all cost, and would not depart in the smallest degree from its determination to protect life and pro-

Renewed Riots In Liverpool.

Liverpool, Aug. 17.—A renewal of rioting growing out of the strike of dockers and allied unionists occurred last night on the Scotland road division of the city. The police again had to make baton charges, and the sol-diers also were called upon. Their presence, however, was sufficient to overawe the rioters, who dispersed.

Motor wagons, which were conveying print papers to the newspaper offices, were attacked, street car vindows were smashed, and another at-tempt was made to release prisoners from the vans, in which they were being conveyed to Walton Jail. The police and soldiers, however, were present in force, the troops with their bayonets fixed, and the crowd was not so daring as on Tuesday night, and did not compel the militia to fire.

Last night the troops bivouacked in the streets of the city. They have been given orders not to fire over the heads of rioters in the future, as this endangers innocent parties, but that if it become necessary to shoot that they shall pick out the apparent ringleaders of the mob. Coal and provisions are being brought into the city under military

In many others of the great provincial towns business has been partially or completely dislocated by reason of strikes. Some trains out of Birming-ham already have been cancelled, but, there are members of unions, a general tie-up is not anticipated.

Used Bent Wire for Key.

Montreal, Aug. 17.—Robberies which have been baffling the police for some time were cleared up by the arrest of three boys, Alfred Gouin, aged 14; Hector Cyr, aged 13, and Lucien Champeau, aged 9, yesterday. For some time past articles have been missing from the stere of M. Ham-ber, 1,141 Mount Royal East. The doors were never disturbed and the windows never broken, and still articles were disappearing. About \$35 worth of goods were found in the possession of Cyr Tuesday night by Detective Mercier. His two compan-ions said that, armed with bent wire, they would open the shutters, and plying the same instrument, would draw the articles through a hole in the bottom of the window used for ventilation purposes.

Cyr put up a bold front in the dock and claimed he had nothing to do with it. The other two beys pleaded guilty and incriminated Cyr. They were both allowed out on suspended sentence, but Cyr was sent to the penitentiary for three years.

Rogers Suggests Spite.

Toronto, Aug. 17.—Was the Hamilton Asylum report of William Crawford, provincial inspector of fire equipment for public buildings, pigeonholed? It is said that the inspector made recommendations, which, had they been carried out, would have prevented the loss of life that occurred.

Provincial Superintendent Rogers stated yesterday afternoon that he hadn't heard anything as to whether the fire inquest would be re-opened or not. Mr. Rogers expressed the opinion that there must be spite some-where on the part of the Hamilton citizens, who believe that the inquest

did not probe sufficiently deeply.

It is now developing that a good many people beyond the confines of Hamilton were not satisfied with the conduct of the investigation.

#### Slays His Partner.

Dawson, Y.T., Aug. 17.-D. N. Allison just arrived here from Fort Macpherson, at the mouth of the Mackenzie River, reports that a prospector from Edmonton, and his partner were victims of a double tragedy, when ne killed the other wit then committed suicide.

An Indian found the bodies in a cabin at the mouth of the Sale River. 500 miles up Mackenzie from the mouth of Peel.

One of the prospectors left a note that he had killed his partner be-cause he himself had been taken ill and his partner had refused to go for a doctor. Details, it is explained. will be received at Mounted Police headquarters, Regina, during September via the Hudson Bay steamer, which is now en route up the Mackenzie.

#### Funeral Prepaid.

London, Aug. 17 .- The recent death of a woman who paid for her own funeral benefits twenty years ago was the subject of an inquest Tuesday at St. Luke's coroner's court, E.C.

It was stated that the deceased wo man, Elizabeth M. Chappell, aged 77. an old pensioner, was very eccentric. Her favorite method of spending her time was in the various city churches. She never spent a moment out of a church that she could help.

Twenty years ago she paid for her own funeral. The undertakers at first thought she was only joking, but she insisted, and a legal contract to bury her was drawn up and signed. She always carried the contract about with

Political Fight Goes Merrily on Throughout the Dominion-Premier Spends Day In Montreal Conferring With His Organizers-Hon. Mr. Fielding Chosen - Huron Selects Mr. M. G. Cameron.

Montreal, Aug. 17.—Sir Wilfrid Laurier spent the day here in organiration work, holding conferences with Liberal leaders of this district. He left to-day for Three Rivers. With him will be Hon. Sydney Fisher. Hon. Rodolphe Lemieux, Dr. Beland, Hon. Mackenzie King and others. The Premier announced that his itinerary had not been definitely settled, but that he would visit Quebec City after Three Rivers, and that the next two weeks would probably be spent in this province.

A deputation from the Liberals of Soulanges visited Mr. Lemieux yes-terday and invited him to run in that division. No definite answer was given. The new Minister of Marine, however, will run again in Gaspe, and in some other division nearer the cen-

tre of the province.

The Socialists of St. Lawrence division will run a candidate against Messrs. Robert Bickerdike, Liberal, and G. F. Johnston, Conservative, in the person of Hugh Cotton, editor of

## BORDEN AT CHATHAM.

Conservative Chieftain Holds Rally In

Kent. Chatham, Aug. 17.—Mr. R. L. Borden addressed a rally of a couple of thousand persons in this city to-night. His speech was largely a reiteration of that at London.

Mr. Borden handled the reciprocity pact without ceremony, and appealed to the young men of Canada "to preserve the national type of citizenship."
"Will you not tell Mr. Taft on Sept.

21 that the tie which binds Canada to the Empire is stronger than ever before, and please God it will never be broken," he declared.
Mr. Borden made it clear that the

policy of the Conservative party with regard to the Hudson Bay Railway was for Government ownership and operation. His opposition to the Transcontinental Railway Commis-sion was that the appointees were not men familiar with or competent to undertake such a work. The tariff commission, he said, would have only an advisory, but no legislative power whatever. The commission would merely report to Parliament, which was directly responsible to the people Ward Stanworth, Conservative can didate for West Kent, was the first speaker. He was glad that the coun-try had a great issue before it—something more than acts of maladministration and corruption on the part of the Government. The reciprocity pro-posals, said Mr. Stanworth, brought before the country the well-known national policy inaugurated by Sir John A. Macdonald. It was most ap-propriately named. It stood for the benefit of all classes. It had resulted in the establishment of the large number of industries at Chatham, which represented large investments of American capital. He welcomed their investment and deplored the proposal to allow Canadian raw materials to be converted into manufactures in the United States. H. W. French, candi-

date for East Kent, spoke briefly.
On the platform were George Sulman, M.P.P., Phil. Boyer, M.P.P.;
J. E. Armstrong, ex-M.P.; H. W. French, Conservative candidate for East Kent; Mr. Ritchie, president of West Kent Conservative Association. was in the chair. Mr. Armstrong fol-lowed Mr. Borden briefly with a vig-orous speech against the Government.

Two Nominations.

Ottawa, Aug. 17 .- Two more tawa Valley nominations were added to the list yesterday. Thomas Low is again the Liberal candidate in South Kenfrew, following a convention held at Eganville.
A report that the Opposition nomi-

nation in Labelle would go to Henri Bourassa, the Nationalist chief, did not survive the holding of the Con-servative convention last night at Papinesuville. The nomination went to Honore Achin, an advocate of Nominingue.

A Three-Cornered Fight.

Welland, Aug. 17 .- William Monroe of Thorold was unanimously chosen as Conservative standard-bearer for this county. The large auditorium of the court house proved inadequate, close to four hundred persons being present, and all municipalities im the county being represented. The session fasted from 2 until 7 p.m.

In view of the attitude of thee late Liberal member, Wm. German, M.P., in opposing reciprocity there was a feeling in some quarters that the Conservative party should not noomi-nate a candidate. Hon. Frank Coochrane, organizer for the province, while not dictating to the convention, vooiced the view that the party might wwell recognize Mr. German's servicees against the pact.

P.E.I. Nominations.

Charlottetown, P.E.I., Aug. 17 .- Theie Federal nominations in Prince Edward Island are complete. The Liberals of Prince at Summerside have selected J. W. Richardson. Other candidates are Dr. P. C. Murphy, Conservative, for Prince; A. J. Warburton and for Prince; A. J. Warburton and L. E. Prowse, Liberals, and S. A. McLean and Donald Nicholson, Conservatives, for Queen's; J. J. Hughes, Liberal, and A. L. Fraser, Conservava. tive, for Kings.

West Huron Liberals. Goderich, Aug. 17.—At the Liberal al convention for West Huron held here re yesterday afternoon, M. G. Cameronon, mayor of Goderich, was nominated Mr. Cameron is opposed by E. N. Lewis, the late member at Ottawa,

W. S. Fielding was nominated for Queen's-Shelburne.

The Lunenburg Liberal convention nominated the late member, J. D. Sherry of Petite Revere.

Fredericton Nomination.

Fredericton, N.B., Aug. 17.—O. C. Crocket was nominated as candidate by a large Conservative convention here yesterday afternoon. A resolution against reciprocity was passed.

Gervais Accepts Judgeship. Montreal, Aug. 17.—Honore Gervais, ex-member for St. James' Division, after an interview with Sir Wilfrid Laurier yesterday, stated that he had decided to accept the appointment to the Court of King's Bench, appeal side. The new justice will be sworn in at the beginning of next month and will enter upon his duties with the opening of the Criminal Assizes, Sept.

This leaves the Liberal eandidature in St. James open, and a convention will be held shortly to choose a can-Hon. Rodolphe Lemieux is spoken of, as the Liberals of St. James Division are anxious to be represented in Parliament by a member of the

Rostand Near Death.

Biarritz, France, Aug. 17.—Edmond Rostand, the poet and dramatist, was the victim of a serious automobile accident near here vesterday, and lies in his villa at Cambo-Les-Bains today, surrounded by physicians who as yet have been unable to determine what the outcome of his injuries will be. He is suffering from serious con-tusions of the head and body, and it is feared he is injured internally.

Mr. Rostand was motoring from Cambo-Les-Bains to St. Jean de Luz, accompanied by his chauffeur and a mechanic, when his machine skidded on a curve in the road, leaned into the air, turned over and fell to the bottom of a 15-foot ditch, pinning the poet beneath it. Mr. Rostand is 43

#### Another Blythe Case.

Toronto, Aug. 17 .- A beating which she says she received at the hands of her husband, has brought another woman close to death. Mrs. Thomas Lowther, 7 Somerset avenue, was found wandering in the street early yesterday morning, bleeding profusely from a great scalp wound at the base of the skull. She was taken to the Western Hospital, where her condition

is considered serious.

She says that her husband came home drunk Tuesday night and beat her, striking her repeatedly with an iron instrument. The man was arrested, charged with drunkenness, and was remanded a week from the Police Court yesterday morning.

Circus Train Wrecked. Montreal, Aug. 17.-The Barnum and Bailey circus train en route for Montreal was in collision yesterday morning, the engine drawing the cir-cus cars crashing into the van of a freight train that was ahead of it going down grade on the same track.

The collision occurred on the Canadian Pacific Railway tracks between the Angus shops and the Eastern Abattoir. In the impact the van was cut in two, and the wreckage scattered for many feet around. There were no fatalities. The circus train was delayed about an hour, but the engine was not seriously damaged, and was able to draw the train to its destination.

#### Two Men Blown Up.

Dublin, Aug. 17.-Two men lost their lives and two others were injured, in an explosion which accurred Tuesday at Kynoch's explosive factory at Ark-low, County Wicklow.

It is stated that two men were

wheeling a bogey containing four boxes of high explosives when, on reaching the points on the rails op-posite a mixing house, a loud explosion occurred.

Fragments of the bodies were pick-

up on the sandhills around. mixing house in which two men were engaged was partly blown in and the inmates were injured. The cause of the explosion is at present unexplain-

#### \$100,000 Fire at Ottawa.

Ottawa, Aug. 71.—A fire occurred here last night with losses estimated at \$100.000

The boys smoking cigarettes while tending a team of horses, set fire to the warehouses of Provost & Allard, wholesale grocers, and did \$20,000 damage there. The flames then caught to Chevrier's Hotel on Murray street, which was completely gutted, and some of the shantymen therein had to be carried out by firemen, owing to being under the influence of drink. The fire scorched many nearby houses and between the fire and water cost some \$100,000 damage ere it was over.

Commander McDonald's Fate.

Ottawa, Aug. 17.-Hon. L. P. Bro-deur, former Minister of Marine, by resigning from that office last week to take a supreme judgeship, has escaped and relegated to his successor, Hon. Rodolphe Lemieux, the unpleasant duty of deciding what shall be the fate of Commander McDonald, of the Niobe, an investigation into the grounding of which has just been con-cluded at Halifax. The report of the enquiry has not yet been received at the Navy Department. Commander Roper, however, who was a member of the investigating board, will return to-day with the report.

#### Arrests Follow Lynching.

Coatesville, Pa., Aug. 17.—Three men, one of whom, the authorities assert, was a leader of the mob, were arrested here yesterday and charged with murder in connection with the burning of Zacharias S. Walker, who was dragged on his cot from the Coatesville Hospital on Sunday night and cremated. Those arrested were Joseph Schofield, master mechanic of the Conestoga Traction .Co.; Norman Price, a millhand, and George Stoll, who was employed with Price in the iron mills.

Charge Maladministration.

Montreal, Aug. 17.—A sensation was created at the City Hall yesterday, when it was learned that two officials of the fire department had signed depositions which they were about to submit to the Board of Control, charging Chief Tremblay, head of the fire department, with a species of mal-

administration.

It is charged in the depositions that Chief Tremblay has used firemen of his department to make a motor for a boat he owns, and that firemen have been working at Mr. Tremblay's house at Valois, in the city's name. The chief stated that while firemen

had assisted him in moving and in building his boat, the work was done in spare time, and the Board of Control were aware of it.

#### Railway Rumors.

Winnipeg, Aug. 17.—A rumor, fan-ned by a New York despatch, has spread through the city that the Canadian Northern has either acquired control of the Minneapolis and St. Paul Railway, or will work in collusion with that company to secure terminals at Minneapolis and Chicago. Confirmation of the report cannot be secured.

Another despatch says that the Chicago, Milwaukee and St. Paul Railway will invade western Canada via Win-

mipeg, within a short time.

A third story is to the effect that
the Minneapolis and St. Louis will
run up to the Canadian border to connect with the Canadian Northern, the Grand Trunk and the Canadian Pacific Railway.

Torpedo Boat Sunk. Copenhagen, Aug. 17.—While manoe-uvring yesterday off the east coast of Langeland, torpedo boat No. 21 of the German navy came into collision with torpedo No. 14 and was sunk. The crew of No. 21 was taken from the sinking vessel and no one was injured.
