Mr. White, Town Solicitor, stated developments were likely to occur regarding the Grand Trunk spur line and the C. P. R. and he thought the Council should appoint a committee to look after these matters and take action as they deemed advisable.

The Finance Committee reported that in going over the Treasurer's accounts of arrears of taxes they found certain items which for the reasons hereinafter mentioned should be written off in order to close out doubtful assets of the town from the balance sheets. These items are as follows:

- 1 Robertson estate, part lot 53, Walton street. Accumulated interest on arrearages heretofore settled but not written off—\$24.62.
- 2 Canada Radiator Factory property. Arrears of taxes charged but not payable and allowed to accumulate in order to be used if necessary in perfecting title to the property. No longer necessary to be retained for this purpose, \$3253.45.
- 3 Water Works' property. Assessment in error on sundry lots acquired by Water Commissioners for waterworks purposes not assessable—\$173.10.
- 4 Lots 1, 2, 3, 4 and 5, Harcourt street, Cornelius Donahue wrongly assessed and legally impossible to collect—\$17.66.
- 5 Liddell property. Arrears \$29.05, closed out by tax sale but not then written off.

The committee recommended that the foregoing amounts appearing as arrears of taxes in the Treasurer's books be written off and that the Treasurer be authorized to make the necessary entries for this purpose. The report was received and adopted.

Moved by Mr. Long, seconded by Mr. W. A. Russell that in view of the proposed railway changes and developments relating to the same in this municipality, a committee consisting of His Worship, the Mayor, Couns. R. G. Russell, T. H. Ambrose and H. Fulford, and the Town Solicitor be appointed to watch such changes and developments and take such action as they may deem desirable to conserve the interests of the town and ratepayers.

Council adjourned.

RECIPROCITY

BENEFITS AT OUR OWN DOORS

What a Former Resident of Clarke, Now Living in New York, Has to Say About His Orchard

If any person doubts the benefits of reciprocity they should read the letter below from W. W. Dickey, a former resident of the township of Clarke, but now living in New York. Mr. Dickey still owns property here and Mr. M. J. Holman, of Clarke township, was desirous of buying the apples on this property and made Mr. Dickey an offer for the same. Here is the reply:

New York, Aug. 3, 1911
DEAR FRIEND MORTE:
I would consider your offer generous under ordinary circumstances, but I look for apples to be very high. The wind has blown nearly all of them from the trees in this state and the reciprocity treaty would easily make them worth \$200 on the tree in Canada. However, I will give you the first chance. How many do you think I will have?

Yours very truly,
W. W. DICKEY.
P. S.—I look for everything produced on the farm to be very high. One man here gave an order for 500 work horses at \$450 each, \$225,000.—W. W. D.

C. P. R. SURVEY

Along Southern Portion of The Town—Crosses John St., Near Dorset

MAYOR SUGGESTS BUILDING A VIADUCT

The C. P. R. surveyors have arrived in town and are busy surveying a line in the southern portion of the town. The line at present being set out comes through the old golf links south of Hayward street, along the southern part of Penryn Park, through Croft's property near Alexander street, the south-east

corner of J. N. Schwartz property, across George Wainman's property on Catharine street, crossing at the corner of Park and Smith streets and passing directly through Geo. A. Smith's residence on Pine street, continuing it will go through the Waddell property at the corner of John street, striking the double house known as the Blackham property, crossing the creek near the dam and thence along in a straight line through the Bluestone. His Worship the Mayor has suggested that a viaduct be constructed from Pine to King street and to be as near the G. T. R. viaduct as possible. Several other lines will be surveyed before anything definite is decided upon, but the town should not be entirely surrendered to the railways.

STOLE A WATCH

George Johnston Pleaded Not Guilty to the Charge.

George Johnston, a rather hard looking character, appeared in the Police Court this morning charged with stealing a watch, the property of Richard Dark. He pleaded not guilty and because he claimed he was not ready to go on with the trial an adjournment of one week was granted.

The Chief arrested Johnston on Mill street yesterday afternoon and he had the watch in his possession then. He made things as unpleasant as possible for the Chief, and finally he was thrown into a wagon and taken to the jail.

Burns, a Buffalo malster, who appeared before the Finance Committee of the Senate at Washington, during the hearings on the reciprocity bill in May, and appealed to them to admit Canadian barley free to give his industry a fair chance:

"In 1890 Congress enacted tariff laws which completely cut off our nearest and best supply of raw material, Canadian barley."

"The present duty on barley is 30c. a bushel—prohibitory."

"When you cut off our supply of barley you cut off a supply of the best barley that grows outdoors and when you cut off that supply you lowered the standard from the best barley that grows to a No. 3 grade raised in this country."

"You can never get as much for an inferior article as you can for a superior article. Canadian barley, I have stated, always sold at a premium."

"The best malting barley, and the only barley that comes into the proposition with the malster is the barley raised in Ontario."

"I wish I could take you to the cities and towns of Oswego, Syracuse, Rochester, Jordan, Weedsport, Lyons and other towns, and show you the malt houses which were formerly beehives of industry, now standing as monuments of idleness. That, gentlemen, is what the prohibitory duty of 30c. per bushel has cost our State."

Quotations of the prices of barley at Canadian and United States points show the great benefit that will accrue to the farmers of Ontario from their surplus barley when the 30c. per bushel duty is removed, as shown by a report compiled by the Department of Labor.

PORT HOPE, AUG. 22 1911

BARLEY MARKET WORTH WHILE

Mr. Thornton's Statements Regarding Barley Are Absurd

Take the case of barley. A Conservative candidate in eastern Ontario, Mr. Thornton of Durham, who ought to know better, says free access to the United States barley market will be of little or no value to Canada, as the United States no longer wants Canadian barley. Mr. Thornton is old enough to remember the boon the United States barley market furnished to the farmers of Durham, Hastings, Prince Edward and the other Lake Ontario counties until the enactment of the Dingley tariff. He also remembers the discouragement and stagnation that followed later, part-overcome, happily, by other industries and the general prosperity of the country for the last 15 years.

Where Mr. Thornton and other Conservative orators err is in saying Canadian barley is not wanted in the United States. It will always be wanted owing to its superior quality. Here are some extracts from the evidence of Mr. H. V.

Hats! Hats! Hats!

Girls of bygone days wore hats; Think of it—the stupid flats! Nowadays upon their their heads Women carry featherbeds, Footballs, flower pots, Laundry bags

Balls of leathers or of rags Helmets, pie plates, butter tubs, Jungle growths of trees and shrubs Boxes meant for fruit or cheese; Drying frames with wire and slats; Anything, in short, but hats.

A VOICE FROM THE PAST

Address to His Constituents by Sir J. Thompson, 20 Years Ago.

In 1891 the Macdonald Government dissolved Parliament on the question of Reciprocity with the United States, and Sir John issued a now famous manifesto favoring it. Our readers, Conservative and Liberal alike, will read with interest the following address to his constituents by Sir John Thompson, then Minister of Justice in the Macdonald Government, as an additional proof, if any were needed, that Mr. Borden was suffering from mental aberration when he declared that reciprocity would reverse the policy of this country for the past forty years. The address reads:

At the election which will take place on the 5th day of March I will be a candidate for re-election as a member of the House of Commons for the County of Antigonish.

The Government of which I am a member is appealing to the country with a policy which we believe will be heartily endorsed by a great majority of the electors. We have made to the Government of the United States through the Government of Great Britain, proposals for reciprocity in trade, which we have good reason to believe will result in an arrangement by which the markets of the United States will be reopened to the products which our people desire most to send there.

A fair measure of reciprocity is what we desire, and we have no doubt that that can be obtained without undue sacrifices.

I respectfully ask your support and votes, and I pledge myself to serve the best interests of the country, if I should be honored by a renewal of the confidence which was reposed in me at the last election, and for which I shall be forever grateful. I remain, gentlemen, your obedient servant,

JOHN D. THOMPSON.
 Antigonish, Feb. 24, 1891.

And, as will be seen, that is only twenty years ago. The Conservative party was elected on the reciprocity cry. It remained in power until 1896, and it never ceased to beseech our neighbors for reciprocity until the time it was turned out. And that is only fifteen years ago.

Reciprocity Will Not Hurt Manufacturers

J. D. Tudhope Says He is in a Syndicate Which Has Already Laid Foundations for \$400,000 Factory.

J. D. Tudhope, M.P.P., himself a manufacturer on a large scale, speaking at the Liberal nomination meeting in Orillia the other day, gave an illustration of how little he feared reciprocity as affecting manufacturers. He said he was sure the reciprocity agreement was going into effect, and one of the very few industries it would touch, and touch perhaps the heaviest, would be the manufacture of farm implements and machinery. Knowing this he with others had just formed a company for the manufacture of farming implements in Orillia, and if the gentlemen present cared to

Reciprocity Will Not Hurt Manufacturers

walk to the foot of West street they would see being laid the foundation of a factory building that would cost upwards of \$400,000. The manufacturers were not going to be hurt; they only thought so, and the farmer and consumer were going to be immeasurably benefited.

Mr. Tudhope is President of the Carriage Factories, Limited, and President of the Tudhope Motor and Carriage Companies.

A TROUBLESOME MISGIVING

Continued from yesterday.

Before three had struck the arrangements for flight were completed. A heavily-laden cab bore away Malkin's personal property; within sat the unhappy man and his faithful friend.

The next morning Earwaker went down to Tilbury and said farewell to the travellers on board the steamship Orient. Mrs. Thomas had already taken her brother-in-law under her special care.

It's only three children to look after instead of two, she says in a laughing aside to the journalist. 'How grateful he will be to you in a few days! And I'm sure we are already.'

Malkin's eyes were no longer quite lustreless. At the last moment he talked with animation of two years hence and there was vigour in the waving of his hand as the vessel started seaward.

CHAPTER III

Peak lost no time in leaving Exeter. To lighten his baggage, and to get rid of possessions to which hateful memories attached, he sold all his books that had any bearing on theology. The incomplete translation of Bibel und Natur he committed to the flames in Mrs. Roots's kitchen scattering its black remnants with savage thrusts of the poker. Whilst engaged in packing he debated with himself whether or not he should take leave of the few acquaintances to whom he was indebted for hospitality and other kindness. The question was: Had Buckland Warricombe already warned these people against him? Probably it had seemed to Buckland the wiser course to be content with driving the hypocrite away; and if this were so regard for the future dictated a retirement from Exeter which should in no way resemble secret flight. Sidwell's in fluence with her parents would perhaps with hold them from making his disgrace known and in a few years he might be glad that he had behaved with all possible prudence. In the end he decided to write to Mr. Lilywhite saying that he was obliged to go away at a moment's notice and that he feared it would be necessary altogether to change the scheme of life which he had in view. This was the best way. From the Lilywhites other people would hear of him and perchance their conjectures would be charitable.

Without much hesitation he had settled his immediate plans. To London he would not return for he dreaded the temptations to which the proximity of Sidwell would expose him and he had no mind to meet with Moxey or Earwaker. As it was now imperative that he should find work of the old kind he could not do better than go to Bristol where from the safe ground of a cheap and obscure lodging he might make inquiries, watch advertisements and so on. He already knew of establishments in Bristol where he might possibly obtain employment. Living with the utmost economy he need not fall in to difficulties for more than a year and before then his good repute with the Rotherhithe firm would ensure him some position or other; if not in Bristol then at Newcastle, St. Helen's—any great centre of fuming and malodorous industry. He was ready to work would delight in work, idleness was now the intolerable thing.

knowledge any actual connection between these people and himself. But their characteristics no longer gravely offended him and he willingly recognised the homespun worth which their lives displayed. It was clear to him that by no possible agency of circumstances could he have been held in normal relations with his kinsfolk. However smooth his career it must have wafted him to an immeasurable distance from Twybridge. Nature had decreed that he was to resemble the animals which once reared go forth in complete independence of birthplace and the ties of blood. It was a harsh fate but in what had not fate been harsh to him?

A fair business was done in spring wheat flour for export account, and the country demand water food at fair prices. Demand for bran and shorts is good. Cheese and butter are fairly active and firm. KING SENDS THANKS

His Majesty Congratulates Lloyd-George on Work.

THE MEN ARE DISSATISFIED

They Say the Companies Are Not Living Up to the Terms of the Agreement in Refusing Reinstatement Without Prejudice—Much Friction Is Caused by Refusal to Give Men Former Jobs.

London, Aug. 22.—The strife in the industrial world of the United Kingdom gradually is abating. With a truce in effect on all railway lines except the London and North-western, the Board of Trade was occupied all yesterday in an endeavor to reach an amicable arrangement between the employes of this line and the managers, and also in trying to settle the strike of the short sea traders. It was announced last night that both these controversies are now in line for early adjustment.

There is still much friction on some of the railroads over the impatience of strikers returning to work, to be accorded full reinstatement to their old positions, which have been given to men who remained loyal to the companies when the walk-out was declared. As a result there were several instances of disorder yesterday in various parts of the kingdom, and decisions by small bodies of men to remain on strike.

Work on the London docks was in full swing yesterday for the first time in three weeks, but it will be some time before the congestion of the port, due to the dock and transfer men's strike, is relieved.

King George telegraphed his congratulations to Premier Asquith, David Lloyd-George, Chancellor of the Exchequer, and Sydney Buxton, president of the Board of Trade, on the settlement of the railway strike. The King's message to Mr. Lloyd-George said:

"I am glad to hear that it was largely due to your energy and skill that the settlement was brought about. I heartily congratulate you and feel that the whole country will be most grateful to you for averting a most disastrous calamity. It has caused me the greatest possible anxiety."

The representatives of the railway employes yesterday complained that the companies were not carrying out the terms of the agreement under which the strike was called off, referring particularly to clause two, which provides for the reinstatement of strikers without prejudice. As a consequence a long conference was held at the Board of Trade and a protest of the men investigated. At its conclusion the announcement was made that a satisfactory solution of the difficulty had been reached.

To Head Off Powers.

Pekin, China, Aug. 22.—The transfer of Prince Su, chief of the Naval Department, to the board of dependencies is taken to mean that China will attempt to develop Mongolia and Tibet, as well as Manchuria and convert them into provinces, with the object of saving them from ultimate foreign domination. The prince visited Mongolia in 1906 and made an investigation of its industrial and commercial conditions.

China is planning to allow the office of Dalai Lama of Tibet to lapse by not authorizing the appointment of a successor, and so to control Tibet without a religious intermediary, but the rapid and effective fulfillment of this program is not to be expected.

Jury Blames Waters.

Hamilton, Aug. 22.—That the deceased came to his death by being struck by an automobile driven by W. J. Waters, and that the speed of the auto was excessive, was in effect the verdict of Coroner Anderson's jury, which last night inquired into the death of William Boyce, who died in the City Hospital on Aug. 15, from injuries received the previous day in a motor accident at the corner of Main street and Sanford avenue.

Crown Attorney Washington could not say last night whether or not the crown will take any further action in the case. George S. Kerr, representing the Boyce family, and John W. Gaud, acting for Mr. Waters, were present at the inquest last night.

Shot Wild Cat.

Montreal, Aug. 22.—Constable Trudeau, 1415 St. Denis street, leaning out of his window yesterday morning saw two exceptionally large feline creatures occupying a branch of one of his trees. Taking a shot, he brought one down, the other escaping. On inspection the dead animal was found to have been a wild cat. It is thought that the pair escaped from the Barnum and Bailey circus.

Oil Refinery Burned.

West Toronto, Aug. 22.—About five o'clock on Saturday evening fire broke out in the oil refinery and ice house at Gunn's abattoir, corner of St. Clair avenue and Albany road. About \$10,000 damage was done to the building and about \$5,000 damage to the refrigerator cars belonging to the Grand Trunk and C.P.R., which were on the siding loaded with beef at the time.

Heat Affects the Pope.

Rome, Aug. 22.—There was another heat wave here yesterday, and in consequence the Pope, who was reported to be convalescent from his recent attack of gout and heart weakness, suffered a slight relapse.

He was weakened to such an extent that he was unable to go into the Vatican gardens, as he had intended.

Loses an Arm.

Cornwall, Aug. 22.—Early yesterday morning, John Burgess, an employe of the Dundas Cotton Mill, while attending to his duties, had his arm drawn into a picker. The limb was so crushed that it had to be amputated.

BRIEFS FROM THE WIRES.

Dr. James Beaudet, Conservative nominee for Megantic, has retired. Montreal City Council appointed Mr. Dagher of Toronto to inquire into telephone rates.

The delay in negotiations between France and Germany in relation to Morocco is causing considerable uneasiness in Paris.

A Rio Janeiro paper confirms the recent announcement that Brazil has engaged German naval officers to command ships of her navy.

There have been persistent rumors that new interests have obtained control of The Halifax Chronicle, and that this may have an important bearing on the election campaign.

Riots, growing out of the strike of newboys, were renewed in Dublin yesterday. The contents of several newspaper wagons were burned and there was some stone-throwing.

A cigar stump carelessly thrown away by a smoker is believed to have been the cause of a serious fire at Mountain Grove, near Sharbot Lake, early yesterday morning. The loss was \$8,000.

Because Ernest Joffret married three times and attempted to enter into the bonds of matrimony the fourth time, he was sent to jail in Toronto yesterday to be examined by the city physician.

Samuel Fowler of the editorial staff of The Kingston Standard died after a few days' illness from a stroke of apoplexy, aged 62 years. Deceased was a son of the late John Fowler of Cobourg, in his day an eminent railway contractor.

The body of the world's largest woman was laid to rest Sunday in Toronto. Borne in a casket specially constructed, being 3 feet 6 inches wide, 3 feet 6 inches deep and 6 feet long, the remains of Mrs. Letitia Campbell, known professionally as Dolly Varden were taken to Mt. Pleasant cemetery.

One Was Drowned.

Montreal, Aug. 22.—While crossing the railway bridge at Terrebonne on Sunday night, two boys met with a terrible accident, which resulted in the death of the younger, Joseph Martin, aged 11 years, and serious injury to his older brother, Emile Martin, 13 years.

The boys were half way across the bridge when they saw the lights of a locomotive approaching. Losing his head completely, the younger brother plunged into the river and was drowned. The older one crowded himself against the rails at one side of the track and was struck by the passing train. Help soon arrived, and Dr. Rochette of Terrebonne, attended the wounds of the injured boy, who was reported yesterday morning as likely to recover. The younger boy's body was found yesterday.

Will Buy Cochrane Bonds.

Toronto, Aug. 22.—To enable the Town of Cochrane to pay the interest and sinking fund of the debenture debt toward building a new jail, public school, etc., the Provincial Government has agreed to buy the bonds of the town for the sum of \$21,000.

Cochrane is taking up the work of erecting public buildings to replace those destroyed by the recent fire. The financial load entailed is a heavy one, and will seriously tax the energies of the people of that town.

In connection with this matter, a deputation, composed of the mayor of Cochrane, two of the aldermen, the president of the Toronto Board of Trade, and Mr. Home Smith, recently waited upon the Ontario Government and asked it to help the town out with its financial arrangements.

Roosevelt Out of It.

Pittsburg, Pa., Aug. 22.—Former President Theodore Roosevelt in a letter to Alex. P. Moore, editor of The Pittsburg Leader, made public yesterday, says:

"I must ask not only you, but every friend of mine I have to see to it that no movement whatever is made to bring me forward for the nomination in 1912. I should esteem it a genuine calamity if such an attempt were undertaken."

The Leader has been advocating the nomination of Mr. Roosevelt for President in 1912.

Revolt Failed in Ecuador.

Guayaquil, Ecuador, Aug. 22.—The garrison at Chone, in the Province of Manabi, yesterday repulsed an attack by 50 armed supporters of Gen. Flavio Alfaro. One of the rebels was killed and two others were wounded.

Detailed news from Quito announces that the city has returned to its normal quiet, following a week of panic and rebellion, which began when the supporters of President Alfaro sought to proclaim a dictatorship. Public opinion failed to support the movement.

Fought Lion With Knife.

Brownsville, Texas, Aug. 22.—Juan Morales, a Spanish farmer, living seven miles out of town, with a jack-knife, killed a mountain lion, which had killed one of his children, bound up his right arm, lacerated and crushed in the fight, and walked into town, where surgeons say he must sacrifice his arm.

Morales' three-year-old boy, thinking the lion was a dog, had called it into the house and started to pet it.

Ferry Passenger Drowned.

Buffalo, N.Y., Aug. 22.—In a futile attempt to rescue Henry Rother, 25 years of age, who fell overboard and was drowned, the steamer Favorite, with 300 passengers on board, ran aground in Niagara River early yesterday.

There was considerable excitement when the boat grounded. The passengers were brought ashore in rowboats.

Reciprocity With Argentine.

Washington, Aug. 22.—Representative J. M. Curley of Massachusetts, yesterday introduced a resolution requesting the President to direct the Department of State to enter into negotiations with the Argentine Republic to secure an agreement looking to the admission free of duty of all food products between the two countries.

FURTHER EVIDENCE

The Premier's Position in Quebec is Unshaken.

SPEAKS AT ST. JULIENNE

Sir Wilfrid Gets Royal Greeting at Little Quebec Town Which Railway Has Brought Into the Front of Rural Communities—Shows the Farmers What Reciprocity Will Do For Their Products.

St. Julienne, Que., Aug. 22.—The impression that Sir Wilfrid Laurier still occupies the foremost position in the estimation of his Quebec compatriots was further strengthened at yesterday afternoon's meeting at St. Julienne, Montcalm county, a little town on the Canadian Northern Railway. Although St. Julienne was but a few years ago an outpost of civilization in this province, the building of a railway through the country has developed it wonderfully.

It is in the rural districts that the Nationalists are reputed to have made the greatest headway, but the Premier paid little attention to Messrs. Monk, Bourassa and Lavergne in his address, and did not indulge in the fierce replies to these opponents that have characterized his addresses in some of the larger centres of population. He was, however, particularly emphatic in stating that the claims of the Nationalists that the navy would soon result in conscription were ridiculous and false.

Speaking on reciprocity, he said that Canada was an agricultural country par excellence, and cultivated for the English market, to which butter and cheese were shipped especially, and for the American market, to which were shipped straw, hay, corn, cattle and lambs. "If you ship to the United States," he said, "you will have to encounter the custom duties. On hay you will pay \$4 a ton, on straw \$1 a ton, on horses twenty-five per cent. of their value, on lambs sixty-five cents a head, on sheep \$1.50 a head. We have arranged so that all these products will enter free into the United States."

Hon. Rodolphe Lemieux, who has quite recovered from the throat affection which has been troubling him, also spoke.

The meeting was presided over by Mayor Bertrand. A feature of the meeting was the presence of D. A. Lafortune, K.C., who two years ago carried Montcalm County, in which this village is situated, as an independent Liberal, although Omer Lapierre opposed him, endorsed the Government. Mr. Lafortune has again been nominated to contest the county, and yesterday the Premier endorsed his candidature, while Mr. Lapierre, the defeated candidate, in a brief speech, also exhorted the electors to give their support to Mr. Lafortune.

Leaders' Plans.

Ottawa, Aug. 22.—Both the political leaders are now turning their attention to the Maritime Provinces.

R. L. Borden closes his Ontario tour in Brockville next Monday. His itinerary for the eastern provinces was announced to-day. Beginning with a meeting in Montreal on Tuesday, Aug. 29, from Montreal the Conservative leader goes down to the eastern townships, holding two and three meetings a day. Wednesday, the 30th, he speaks at Farnham, Granby and Waterloo. Thursday at Richmond and Sherbrooke. Friday at Cookshire and Lake Megantic.

Sir Wilfrid Laurier will complete his Quebec tour this week, and will leave on Saturday for the Maritime Provinces, where he will remain a week, after which he will go to Toronto.

The Liberal convention Wednesday night will select the candidate for St. James' division, Montreal. There is some talk that Hon. Rodolphe Lemieux may run, as there is a feeling in Liberal circles that a Minister should seek election in a metropolitan division. In that event a picturesque fight will be certain if Mr. Henri Bourassa could be induced to oppose him.

To Contest South Toronto.

Toronto, Aug. 22.—Four hundred enthusiasts gathered at the Labor Temple last night and nominated Controller J. J. Ward as the Liberal candidate for South Toronto in the coming Dominion elections. J. E. Atkinson of The Star, moved the nomination. J. P. Magann seconded it, and the crowd "battered" for the close of the nominations. This was done immediately, and the speech-making commenced, followed by lots of assurances and predictions that J. J. Ward would be the next representative from South Toronto in the Federal Parliament.

Mayor Bleau in Provencher. St. Boniface, Man., Aug. 22.—The convention of Provencher Conservatives, held here yesterday afternoon, chose Mayor J. A. P. Bleau as the candidate to oppose Dr. J. B. Molloy.

King For Waterloo.

Waterloo, Aug. 22.—Hon. W. L. Mackenzie King was nominated yesterday afternoon by a gathering of delegates that crowded the Town Hall, and the four hundred delegates gave the young Minister a big ovation.

The afternoon's list of nominations began and ended with the name of the Minister of Labor. It was presented by Mr. Wm. Snider, president of the Waterloo Manufacturing Co., and the Millers & Manufacturers' Fire Insurance Co. Mr. J. W. Hartlieb, a well-known farmer and stock-breeder of Wellesley Township, was the seconder.

Hon. Mr. Fisher Chosen.

Montreal, Aug. 22.—Hon. Sydney Fisher, Minister of Agriculture, was yesterday afternoon, by unanimous vote, chosen again as the Liberal standard-bearer in Brome county.

The convention was held at Knowlton. Mr. Fisher will be opposed by Major G. H. Baker, a young lawyer from Montreal.

BORDEN AT BERLIN.

Conservative Leader Enters Hon. Mr. King's Riding.

Berlin, Aug. 22.—R. L. Borden happened into Berlin on the day of Hon. W. L. M. King's nomination and got a noisy reception. The leader's voice was in poor condition and he had some trouble raising it above the disturbances.

Mr. Borden admitted that in 1896 and for some years afterwards, Canada desired reciprocity with the United States. But that was the nineteenth century; this was the twentieth century, the century of Canada (Cheers).

In 1903, when the bill to provide for the National Transcontinental Railway was before the House, Sir Wilfrid Laurier had asserted that Canada could only prosper by being absolutely independent of the United States. Contrast that with the present situation. He likened the sentiment surrounding reciprocity to the spiritual comfort which a character in Scripture derived from repeating over to himself the word "Mesopotamia."

True, he went on, reciprocity would obtain with a country like the British West Indies, which did not grow what Canada had to export, and only exported what Canada could not produce.

The immediate cause for the reciprocity pact was that the Dominion Government got down on their knees before the United States, because they were afraid of the enormous dislocation of business if the United States impose the maximum duty. I do not think they were right in doing that. I am free to admit that our Government had the support of the business interests of Canada, and it would have been better to have fought that issue out then and there, and to determine whether or not we were a free people in Canada so far as the control of our tariff is concerned, or whether we would submit to interference of that kind.

Johnstone Benefit Meet.

Chicago, Aug. 22.—A wind that reached 30 miles an hour at times prevented all but a few aviators from trying to get into the air at the benefit performance for the widow of St. Croix Johnstone yesterday. It had been announced that all the rules of the International Aviation Meet would be declared off and that the fliers would be at liberty to risk their necks in any aerial feats they chose, and as a consequence it was expected that the exhibition would be more spectacular than any during the meet.

The wind proved too gusty and for several hours no one attempted to fly. Then Lincoln Beachey arose, circled the field, descended and declared the wind was too strong for safe flying. An hour later Beachey, Gill, C. P. Rodgers and James Ward gave short exhibition flights.

Got Up and Hanged Himself.

Smith's Falls, Ont., Aug. 22.—Harvey Wilton, aged 23, an employe of the Frost & Wood Co., was found dead in his room, having hanged himself by his bedpost by means of an elaborate arrangement of straps.

He was sitting on the verandah of his boarding-house in conversation with a friend, when he arose suddenly and went to his room. Some hours later he was called, but gave no response. The chief of police was summoned and, breaking into his room, found the body.

There is said to have been a woman in the case.

Togo Interested in Hydro.

Niagara Falls, Ont., Aug. 22.—Admiral Togo left here aboard the private car "Canada" last night, after spending two days within hearing of the mighty cataract. He said before leaving that he was much impressed with the beauty of the falls and the wonderful power development. He was much interested in the Hydro-Electric scheme. He left Toronto for the west on the Canadian Pacific transcontinental express at 10.20 last night. He spent the entire day with Japanese Consul-General to Canada Nakamura, who accompanied him to Toronto.

Don't Need Convention.

Winchester Springs, Ont., Aug. 22.—Andrew Broder, member in the late Parliament, will again be the Conservative candidate in Dundas.

The Conservative association of the riding held its annual meeting here yesterday, and so popular is Mr. Broder in the party that a convention was not deemed necessary.

Sir James Whitney was present, and he was also named as the party's choice for the Provincial House.

The Ontario Premier and Mr. Broder delivered addresses in accepting the nomination of their old constituents.

"Pushed" a Barber's Face.

London, Eng., Aug. 22.—Sir David Bruce, who served in the South African war, and who is an authority on sleeping sickness, was at Abergele Denbighshire, on Saturday fined half a crown for assaulting a barber.

Sir David was being shaved in a barber's shop, when the barber cut his cheek. He said that he slapped the barber's face, considering it the best form of chastisement and that it would do him good.

Denies Steel Merger.

Bethlehem, Pa., Aug. 22.—Charles M. Schwab, president of the Bethlehem Steel Co., last night denied the report that his company would be merged with the Lackawanna Steel Co. and the Republic Iron & Steel Co. to form the United States Steel Corporation. He said that no such step was contemplated. "We are solely interested in the development of our own company," he said.

Cotton Tariff Bill Passed.

Washington, Aug. 22.—The cotton tariff revision bill was passed by the House late yesterday. The bill was signed by Vice-President Sherman and Speaker Clarke and sent to President Taft, who will veto it.

The Senate adjourned until noon today, and Congress, after hearing the President's veto message, will finally adjourn at 3 p.m.

DAMAGE BY STORM

Western Provinces Swept by Gale 200 Yards Wide.

SEVEN ARE KILLED IN U. S.

Cyclone Cuts Across Saskatchewan, Near Gainsboro, Blowing Down Barns and Passes Over a Corner of Manitoba—Storm Sends Wheat Up Two Points on the Grain Exchange, Winnipeg.

Winnipeg, Aug. 22.—The extent of the damage suffered by Sunday's storm cannot be gauged. That it was sufficient to send the wheat market soaring two points is patent; but the volume of actual harm caused is beyond conjecture. The city is flooded with reports and rumors, which are unreliable, as is shown by the fact that correspondents in the same districts do not agree as to the effect of the storm.

One thing is known definitely, and that a cyclone two hundred yards in width swept through a big stretch of Saskatchewan, the southern corner of Manitoba, and entered into the northern States. The tornado apparently gained momentum as it swept forward; in Dakota it killed seven, overthrew grain fields and swept buildings off their foundations.

Apparently in Saskatchewan hail and heavy winds robbed a few sections of a good percentage of grain, but it is not believed that the damage was really a warrant for the big advance in local prices here yesterday.

Four buildings are totally wrecked. When the barn of Donald Colquhoun, near Gainsboro, Sask., was blown down, two men were in it, and one is so seriously injured that he is not expected to recover, while the other is quite badly injured.

The other buildings on the farm were damaged and the machinery rendered useless, while the crops were destroyed.

J. S. Shillington's barns, hay and crops are totally ruined.

A neighbor named Brown suffered a like loss, and a boy was hurt from the flying timbers of one of the barns. John W. Stevenson lost his barn, granary, machinery and crops.

John Cares suffered as severely as Stevenson.

The houses of all were damaged, though none were blown down.

Barn Burned.

Chatham, Aug. 22.—The barn shed, implements, 500 bushels of newly-threshed wheat and the season's crop of other grain and hay on the farm of William Sturgis, 4th concession of Dover, were totally destroyed by fire Saturday afternoon. A threshing machine belonging to J. Glover, which was in the barn at the time, was also burned up. There was insurance on the threshing machine and the barn, but none on the grain. The fire was caused by a spark from the threshing machine.

Painted Him Red.

Chatham, Ont., Aug. 22.—A well-known young man from Chatham was set upon recently by a number of farmers' sons while returning from visiting a country girl down the river. His clothes were stripped from him and he was painted from head to foot with red ochre, a paint used for coloring brick. No informations have yet been laid against the men who attacked him, and an effort is being made to hush the affair up.

Rev. Guinness Rogers Dead.

London, Aug. 22.—The Rev. Guinness Rogers, former minister of Clapham Congregational Church, and well known as an author of religious books, died here yesterday. He was born December 29, 1822.

Cholera at Constantinople.

Constantinople, Aug. 22.—There were forty-one new cases of cholera and thirty-four deaths here on Sunday.

ONE FOR THE SMOKERS.—To please his wife who objected strongly to the habit, George Totend, of Jamaica, L. I., quit smoking. He died suddenly last night, and physicians said his death was due to the shock to his system caused by the sudden abandonment of tobacco.

Big reductions in boots, shoes, trunks, valises and harness at J. L. Thompson & Son's.

EXPORT OF HUMAN HAIR.—The Christian Guardian says: "The Chinese export trade in human hair was last year very much the largest on record. Prices were so good that thieves made a regular harvest cutting off queues while their owners slept. We are not much impressed with the beauty of Chinaman's queue, but it is really handsome compared with the effect produced when the Canadian girl piles about six inches deep of a Chinaman's or some other person's hair on the back of her head and pins a two-inch pink ribbon around it. In artistic effect the Chinaman is a long way ahead of the Canadian girl."

HAPPY FACULTY OF GETTING THERE.

Cavan Correspondence. The Millbrook Reporter (Conservative) says: "Should Warden Kelly be the choice of the Convention no stronger or more fit representative of the Reform Party in the Riding could be selected. When he does enter a contest he has a happy faculty of getting there."

"Sandy" Kelly has many friends among the Conservatives of the Riding, and as he is a farmer among farmers, with the best interests of the farmers at heart, they naturally will support and elect him as their representative. From the above the Reporter seems to think that "Sandy" has the happy faculty of getting there, and hundreds of others throughout the Riding are of the same opinion. Vote for Kelly and Reciprocity, which means larger markets and better prices for your produce.
