DEATH FROM NATURAL CAUSES

Coroner's Jury so Decided in Fraserville Case

At the inquest held at Fraserville Wednesday night for the purpose of inquiring into the death of the unknown man whose body was found in an unused stable of Mr. John Madill Monday afternoon and later identified as that of John Carroll, the jury decided after hearing the report from the doctors who performed the post-mortem examination that the deceased had died from natural causes.

Several witnesses were called to testify as to the last time deceased was seen alive.

Mr. Archie Reynolds who identified the body by the clothes and trinkets on it, said that the deceased was at his store on June 11. He had intimated that he intended going to Mr. Henry's and later to Mr. Campbell's but he never reached either place.

Mr. W. Gillett, of Millbrook, took charge of the remains.

G. T. R. Met Demand.

The exceptional demand for Farm Laborers in the Canadian North West to harvest the crop for 1911 is being actively taken hold of by the various Railway lines. The Grand Trunk Pacific Railway is comparatively a new factor in the field, and is putting forth every effort to relieve the situation, and are prepared to place as many as can be obtained in the territory contiguous to their lines in the west.

With this in view efforts are being made through their European organization to obtain help, and in addition they are operating excursions from points in Ontario and Quebec, tickets for which are available on August 3rd, 12th, 16th 23rd and 25th.

Full particulars may be obtained on application to any Grand Trunk Agent.

Special arrangements have been made for the distribution to points where men are needed from Winnipeg by the Government for those not engaged before starting for the West.

A Campaign of Slander

It is positively sickening to read the silly claptrap dished up by the Conservative press since Parliament was dissolved, says the Lindsay Post. The Tories profess to be indignant over the action of Sir Wilfrid in bringing on the election. Don't blame the Government, gentlemen, it is of your own making. Did you

not rant and rave in the House of Commons for weeks against what you were pleased to term the high handed action of the Government in trying to force Reciprocity through the House without first submitting it to the country? Oh, yes, you were very anxious for an appeal to the people and when Government called your bluff, you cried like spanked children. What hypocrisy!

The Conservative party is afraid to face the country on the question of Reciprocity, and as a result they intend inaugurating a policy of slander and mud slinging in order to try and hoodwink the electors—a sort of herring in a decomposed state, as it were to draw across the trail. Editorials and glaring headlines which did duty in 1908, are being trotted out again, and the old charges against the Government and its Ministers are being retouched in their frantic efforts to hoodwink the people. In this they pay a poor tribute to the intelligence of the electors.

Never was a party in such sore straits. They see defeat in the coming elections, but they are trying to stave it off. They remind us very much of the ostrich, which buries its head in the sands of the desert when a storm is approaching.

Last night's Warder contained half a column of glittering generalities and popcock, but not a word about the great question at issue. The old moth-eaten slogan, "Time for a change," was trotted out, as well as a lot of other silly flapdoodle which served as a boomerang to the Tory party in the campaign of 1908.

Keep it up, champions of a forlorn hope. You are making votes for the Liberal Government.

PORT HOPE, AUG. 4 1911

A TROUBLESOME MISGIVING

Continued from yesterday.

"Yes. But no, I didn't doubt. Indeed, indeed, I didn't doubt! But I felt such a need of hearing from your own lips that—Oh, I can't explain myself!"

Godwin smiled sadly. "I think I understand. But there was every reason for my believing that your love could not bear such a test."

He had resolved to speak not a word that could sound like an appeal to her emotions.

He had only to retire with the dignity still possible to a dishonoured man.

To touch the note of pathos would be unworthy; to exert what influence might be left to him, a heart's cruelty.

But he had heard such unexpected things, that it was not easy for him to remember how complete had seemed the severance between him and Sidwell.

The charm of her presence was reasserting itself, and when avowal of continued love appeared so unmistakably in her troubled countenance, her broken words, he could not control the answering fervour.

He spoke in a changed voice, and allowed his eyes to dwell longingly upon hers.

"I felt so at first," she answered. "And it would be wrong to pretend that I can still regard you as I did before."

It cost her a great effort to add these words. When they were spoken, she was at once glad and fearful.

"I am not so foolish as to think it possible," said Peak half turning away.

"But that is no reason," she pursued, "why we should become strangers. You are still so young a man; life must be so full of possibilities for you."

"You are going to encourage me to begin the struggle once more," he said bitterly. "Where? How? It is so easy to talk of 'possibilities.'"

"You are not without friends—I mean friends whose sympathy is of real value to you."

"Saying this, she looked keenly at him. 'Friends,' he replied. 'who perhaps at this moment are laughing over my disgrace.'"

sooner or later.' You knew that he had become acquainted with the Moxeys?"

Her tone was more reserved than hitherto. 'Yes, I knew he had. He met Miss Moxey by chance at Budleigh Salterton, and I happened to be there—at the Moorhouses—on the same day.'

Sidwell glanced at him inquiringly, and waited for something more. 'I saw Miss Moxey in private,' he added, speaking more quickly, and asked her to keep my secret.

I ought to be ashamed to tell you this, but it is better you should know how far my humiliation has gone.

He saw that she was moved with strong feeling. The low tone in which she answered had peculiar significance.

Did you speak of me to Miss Moxey? 'I must forgive you for asking that,' Peak replied coldly. 'It may well seem to you that I have neither honour nor delicacy left.'

There had come a flush on her cheeks. For some moments she was absorbed in thought.

'It seems strange to you,' he continued at length 'that I could ask Miss Moxey to share such a secret. But you must understand on what terms we were—she and I. We have known each other for several years. She has a man's mind, and I have always thought of her in much the same way as of my male companions.'

New Publication Just Issued by the G.T.R.

A new publication has just been issued by the Grand Trunk Pacific Railway in connection with a territory that is practically unknown.

This publication deals with the plateau and valley lands in Central British Columbia, and which will be reached by the main line of the Grand Trunk Pacific Railway west of Fort George and east to Hazelton, British Columbia.

The descriptive matter was secured with much difficulty by an exploration party sent out last year, who discovered the possibilities of the marvellously rich and climate-favored land referred to, and the statements made are based directly on these researches.

Facts have also been secured and incorporated in this publication from Government agents' reports and equally reliable sources, and every care has been taken in the compilation of the text, which will be found correct in all statements.

as to how to secure Government lands, taxation, education, social conditions and advice to emigrants.

A new and very interesting map accompanies the book, which is profusely illustrated and most interesting in every particular.

The illustrations are made from direct photographs taken by the especially equipped party sent out by the Grand Trunk System last year.

Any one desiring a copy of this publication may obtain same without cost by applying to Mr. C. E. Horning, C.P. & T.A., G. T. Ry. System, Northwest corner King and Yonge streets, Toronto, Ont.

STANDING OF THE PARTIES.

The standing of the parties in the House of Commons at dissolution was as follows:

Quebec—Libs. 53, Cons. 12. Ontario—Libs. 35, Cons. 51. New Brunswick—Libs. 11, Con. 2. Nova Scotia—Libs. 12, Cons. 6.

P. E. Island—Libs. 3, Con. 1. Manitoba—Libs. 2, Cons. 8. Br. Columbia—Libs. 2, Cons. 5. Saskatchewan—Libs. 2, Con. 1. Alberta—Libs. 4, Cons. 3. Yukon—Lib. 1.

The above list includes Messrs. Sifton and Verville (Labor), with the Liberals, and gives Messrs. Gilbert (Nationalist) and W. F. McLean, and Russell (Toronto) who were elected as Independents, to the Conservatives.

The Liberal majority, including the Speaker, was 43.

PERENNIAL SOW THISTLE.

Authorities at the Ontario Agriculture College and elsewhere pronounce this pest (Sonchus Arvensis) to be by far the worst weed in Ontario to-day.

Patches of it have been noticed near Port Hope and Morganston, particularly at the latter place, where it was common, both in hay and grain fields.

The writer merely wishes to warn all farmers and landowners against allowing this obnoxious pest to gain a foothold.

An excellent description, discussions of characteristics, and methods of eradication are given in Bulletin 189, by J. E. Howitt, of the Ontario Agricultural College, pages 126-128 and 130.

This Bulletin may be obtained free of charge on application to R. S. Duncan District Representative, Port Hope, or to the Ontario Department of Agriculture, Parliament Buildings, Toronto.

There is also in the last issue of "The Farmer's Advocate," July 13th an excellent article on "Bladder Campion" and "Perennial Sow Thistle" which it would be well worth any one's while to read carefully.

The Double Business. Champ Clark may now be said to be famous. They have found his double, or, more properly, the double has found himself.

They usually are self discovered. The more celebrated the man the more doubles he has.

Mr. Roosevelt, notwithstanding the claims and to tighten their upper lips and give their lower jaws a sort of prognathic thrust to prove it, had oodles of doubles, and Lincoln, whose homeliness the Creator found inimicable, had so many doubles that, like Bill Nye's famous first white child born in California, it was at one time seriously proposed that they hold an annual convention.

Mark Twain had a circular letter with which he always answered his double correspondence. It said: My Dear Sir—Many thanks for your letter with inclosed photograph.

Your resemblance to me is remarkable. In fact, to be perfectly honest, you look more like me than I do myself. I was so much impressed by the resemblance that I have had your picture framed and am now using it regularly in place of a mirror to save by Yours gratefully, S. L. CLEMENS.

BALFOUR IS CRAFTY

He Heads Off Insurgent Lords With Empty Words.

RESOLUTION OF CENSURE

Opposition Leader's Vote of Condemnation of Government's Action in Asking for King's Guarantee to Create Peers Will Come Up on Monday and Has Taken Backbone Out of Halsburyites.

London, Aug. 4.—Arthur J. Balfour, leader of the Opposition in the House of Commons, again yesterday displayed the political sagacity which for so many years has given him undisputed leadership of his party, when he announced in the lower chamber that he proposed on Monday next to move a vote of censure on the Government for having secured from King George the promise of sufficient peers to pass the veto bill.

This move will change nothing in the actual situation. It will be defeated in the Lower House and be carried by the House of Lords, where Lord Curzon will move an identical vote. Nevertheless, it is a subtle means for satisfying Mr. Balfour's rebellious followers with a phrase, and is proposed at the psychological moment when doubts had begun to assail many members of the Hal-bury revolt as to the wisdom of their procedure.

During the last few days, there has been a distinct rally towards Mr. Balfour among the insurgents, except in the small section which is seeking to wrest the leadership from his hands. Thus the effect of the proposed vote of censure will be seen immediately. It was received with extraordinary enthusiasm by all ranks of the Unionist party and little else than it was talked of in Parliament lobbies and the political clubs last night.

The Halsburyites take the credit to themselves of having driven Lord Lansdowne and Mr. Balfour to this tardy act of leadership. Lord Willoughby de Broke, in an interview last night, declared the situation was unchanged and that nothing would induce the members of his party to refrain from voting for the retention of Lord Lansdowne's amendments to the veto bill.

Judging by the comments of the morning newspapers, however, Mr. Balfour has completely re-established his lost authority. The Morning Post says: "At last, though late in the day, the Unionist leaders have taken a step which will cause immense satisfaction to all their followers—a step which will save the party from disaster—and the Unionist cause from disaster."

Wanted Store Any More Grain. Montreal, Aug. 4.—As a result of the conditions which have existed in the port of Montreal since the present season of navigation opened, it is understood that the harbor commissioners will shortly announce that in future no grain will be received in their elevator which is not destined for immediate transshipment to transatlantic ports.

It is also stated that the period of twenty days' free storage at present allowed by the commissioners will be discontinued.

The commissioners state that the congestion is due to shippers sending grain here and keeping it in storage, instead of at once shipping it across the Atlantic.

Refused to Give Evidence. Winnipeg, Aug. 4.—The efforts of the Provincial Commission to investigate the circumstances surrounding the methods by which the St. Peter's Reserve lands of great value were secured by speculators at the time the Indians surrendered their titles to the Government was suddenly blocked yesterday by the refusal of J. O. Lewis, who represented the Indian Department of the Dominion Government in the deal to testify. He refused on the ground that the commission has no legal authority to grant the investigation. The commission adjourned until the courts can order Lewis to testify.

New Sanitarium. Montreal, Aug. 4.—Dr. J. E. Laberge of the infectious disease department, has presented an application to the City Council for the inauguration of a sanitarium on the mountain, for incipient sufferers from tuberculosis.

His scheme would provide a building wherein the patients would be able to have suitable diet; specified by the medical officer of health, and sleep out in the open at night. Special cars would bring them down to work in the city during the day. This idea, he is convinced, would have a great tendency to lessen the spread of the disease, which is alarming the city.

Two Are Killed. North Bay, Aug. 4.—Paul Tessier, 47, and a passenger of the Soo westbound C.P.R. express yesterday, on his way to work in the lumber shanties, fell from the train near Warren and was instantly killed.

Joseph Lafriere of Chalk River, a C.P.R. employe on a work train, fell under the wheels of the train on Kippawa branch. One arm was badly crushed and other injuries sustained and he died later at Mattawa Hospital.

Building Trades Boom. Kingston, Aug. 4.—Building operations in Kingston this year will figure close on \$3,000,000. For the seven months ending July, the amount of building was \$172,614 against \$138,961 last year.

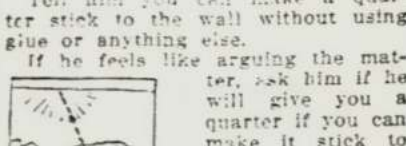

Two buildings yet to report are, in addition to the postoffice and lead smelter, which will add \$70,000 to the present amount.

Aeroplane Dropped Into Crowd. Chicago, Aug. 4.—Physicians yesterday reported the injury of five persons, who narrowly escaped death last on Wednesday when an aeroplane dropped 100 feet into a crowd of spectators at West Pullman, Illinois. Frank Bell, the aviator, was unscathed.

Here's a bully scheme for "working" dad for some spending money. Tell him you can make a quarter stick to the wall without using glue or anything else.

wood—say the bookcase or a door panel—pressing it hard with a downward sliding motion, against the wood. Take your hand away and the coin will stick tightly.

The striking and pressing expel the air between the coin and the wood, forming a vacuum which will hold the millionaire's dollar or Johnny's penny just alike.

Some Descriptions of Useful Articles for Camping.

Many boys look forward to going into camp as soon as school is closed, taking for their camping grounds some piece of woods or small island near their homes. It is also good fun to set up a camp in the backyard if one's parents do not wish to have one in the woods. Boys who are interested in this sort of good time will find it a good plan to start soon to make some of the necessary articles of the camp equipment.

A boy reader has sent to this page some descriptions of articles which are useful for campers and which may be made at a very small cost or without any cost at all.

To make a camp lantern take a can and puncture it. A small block of wood may be hollowed out to make a holder for the candle. The block of wood is set inside the can and the light shines through. This can also be used for carrying small fish or bait.

Another lantern is made of a glass jar which has a tin cover. Puncture holes in the cover and make a basket for the candle of wire which is twisted around so as to hold the candle, as shown in the picture. There are two long strands of wire which come up through the lid and form a handle for the lantern.

A camp warmer and cook stove may be made of a tin. A camp warmer and cook stove may be put in a covered pail and then covered with hot coals. To make an oven, fill the pail with hot coals. The articles to be roasted may be placed on top of these coals.

ASOF AND HIS PONY. An Arabian Story for Canadian Children.

Asof loved his pony Selim very dearly. He used to whisper in his ear that when he grew to be a man he would buy him a string of the loveliest pearls to hang around his neck and feed him on rose sugar drops. One day Asof's uncle came to see Asof and brought him a box of sweetmeats of most beautiful colors and shapes, 25 in all.

"Have a good time with these candies," said he. He knew his little nephew had a sweet tooth, and the sugar roses, violets and lilies were made of the purest creamed sugar.

Asof finished his head.

"I will have the best of times," said he. "I will eat five candies myself and feed the rest to Selim."

"To Selim!" echoed his uncle. "Yes, to Selim!" merrily laughed Asof, and off he scampered to have a good time with his pony.

AN AFTER SUPPER THUNDER "STORY."

Here's some homemade, individually applied thunder that will out-thunder old Vulcan himself. You can produce it on nights when there isn't a cloud in the sky—right in the house, and only one person at a time will hear it.

Place a piece of string around the other fellow's head, taking care that his hands cover his ears. Then cause the string to vibrate by drawing the moistened finger and thumb along the string.

The effect will be that of a rolling peal of thunder, audible only to the person operated upon.

INSECTS TOOLS.

There is a little fly called a sawfly, because it has a saw to work with. The fly uses it to make places where the eggs will be safe. What is more strange it has a sort of home-made glue which fastens them where they are laid.

Some insects have cutting instruments that work just as scissors do. The poppy-bee is one of them, whose work is wonderful. This bee has a boring-tool, too. Its nest is usually made in old wood. This borer cleans out the nest for use. When all is ready, the insect cuts out pieces of leaves to line the nest and to make the cells. These linings are cut in the shape of the cells. You would be surprised to see the care taken to have every piece just the right size.

FUN FOR FRIVOLOUS FROLICS. Seated in a circle you begin to count, passing rapidly from one to the next, but instead of saying "seven" the player says "Buz" which must be repeated at 14, 21 and each multiple of seven; also instead of five or any multiple of five, take 10, 15, etc., the player must say "Bang." A forfeit must be paid each time one fails to "Buz" or "Bang" at the right time.

WILL SIGN TO-DAY

Anglo-Franco-American Treaty Reaches Fruition.

FRANCE IS ALREADY IN

Great Britain and U. S. Will Have Put the Names of Their Chief Executives to Great Pact Before Day Is Over—All Disputes Capable of Being Arbitrated Will Be Taken to The Hague.

Washington, Aug. 4.—Three of the world's greatest nations joined hands yesterday in opening the way to the coveted goal of statesmen of modern times—universal peace.

The general features of the new treaties are: All differences internationally justiciable, shall be submitted to The Hague, unless by special agreement some other tribunal is created or selected.

Differences that either country thinks are not justiciable shall be referred to a commission of inquiry, composed of nationals of the two governments, empowered to make recommendations for their settlement.

The commission, at the request of either government, will delay its findings one year to give an opportunity for diplomatic settlement.

The conventions grew directly out of President Taft's speech in Washington December 15 last, before the American Society for the Judicial Settlement of International Disputes, in which he said:

"If now we can negotiate and put through a positive agreement with some great nation to abide the adjudication of an international arbitral court in every issue which cannot be settled by negotiation, no matter what it involves, whether honor, territory, or money, we shall have made a long step forward by demonstrating that it is possible for two nations at least to establish as between them, the same system of due process of law that exists between individuals under a government."

Paris, Aug. 4.—The Franco-American Arbitration Treaty was signed at 2:08 o'clock yesterday afternoon. This is hailed in this country as meaning the extension of a movement in all countries for the reduction of armaments to have absolute prevention of wars.

The Figaro in a long study of the situation resulting, declares that if other nations do not join the movement, those who have pledged for arbitration should adopt the principle of boycotting by inserting a clause in the international agreements, providing that they shall suspend all relations of commerce, transportation, and postal intercourse with any country warring upon one of the signers.

"By boycotting," The Figaro adds, "we will obtain obligatory arbitration, and then the limitation of armaments."

Catholic Foresters Raise Rates. Cleveland, O., Aug. 4.—After a long and stubborn fight, the Catholic Order of Foresters in their biennial convention here yesterday, decided to raise the order's insurance rates so as to equal the rates adopted by the National Federal Congress.

The new rates will go into effect on Jan. 1, 1913. The decision to increase the rates was carried by only nine votes. The delegates by a large majority vote decided to continue holding biennial sessions and not change to quadrennial sessions.

Auto Was Second-Hand. Montreal, Aug. 4.—Montreal's municipal authorities were badly fooled when they bought Fire Chief Tremblay an automobile to enable him to be quickly on the scene when fires are reported.

Chief Tremblay reported to the Board of Control yesterday that the car has been under expert examination, and is now said to have been second-hand when bought.

Drowned in Artificial Pond. Ottawa, Aug. 4.—Hugh Bradley, 22 months old, son of Mr. Clem. Bradley, was drowned in an artificial pond on the Driveway here. His father has been here three weeks from Portage la Prairie, Man., for a holiday. The deceased is a nephew of Hon. Hugh Armstrong.

Bad Outlook For Potatoes. Kingston, Aug. 4.—If there is no rain within a day or so the potato crop in this district will be a failure. On the market yesterday potatoes sold at \$2 per bushel. The ground is burning up with the heat and drought.

Empress Auguste Victoria of Germany is ill with an attack of heart trouble. It is stated, however, that the attack is not severe.

Because of the contention of Canada that a treaty is violated by naval militia manoeuvres on the great lakes, none will be held this year.

A young man named Boisvert from Cap Magdaine, near Three Rivers, aged 17, was drowned in the St. Maurice River last evening while bathing.

Wm. Brennan, who claimed to have no permanent address, was fined \$50 for three months in jail on a charge of peddling cocaine in the streets of Montreal.

The Hamburg-American line steamer Albion sailed from Kingston, Jamaica, yesterday. It is believed she has gone to Haiti to bring ex-President Simon here.

The dead body of a child was found at Hull Thursday and last night a jury returned a verdict that Miss Rosanna Villeneuve, mother of the child, was responsible for the death.

Plans for aiding fallen women will be laid before the general synod meeting in London next month by the committee on social and moral reform of the Church of England in Canada.

The heaviest rain for the season fell at Niagara Falls yesterday and caused considerable damage along the frontier. Tons of rock were washed on to the tracks of the Gorge Railroad.

A party of berry-pickers, returning to Mansfield, Mich., in a launch capsized in the Michigan River, near the mouth of Fence River. The launch contained seven persons, five of whom were drowned.

Mrs. Allen Sheppard, in whose house the fire which rendered 19 families in Longue Point, Montreal, homeless last week, originated, died in the general hospital yesterday as the result of the burns she suffered at the fire.

A man named Larson, an escaped convict from Dorchester Penitentiary, is creating terror in Westmoreland County, N.B. He has stolen three horses and Wednesday night after stealing the last one, he set fire to the barn.

Trawler Lost.

Halifax, May 4.—While approaching Canso harbor Wednesday night in a dense fog, the steam trawler Cambodia struck on Flag Island Point, and is hard and fast.

While running out the anchor after the steamer struck, Mate Simon Sorenson and one of the crew named Paul Thompson were drowned by the sinking of their boat. A third man was picked up by a fishing dory and put off on shore. He escaped by jumping clear as the boat went down.

The Cambodia is one of the largest type of steam trawlers belonging to Grimsby, England, and is commanded by Capt. Oleson, an experienced trawler. She has been fishing on this side only a few weeks, with but fair success. It is not known yet what may be the chances of floating the vessel.

The bodies of the two men have not been recovered.

Removing the Maine.

Havana, Aug. 4.—The work of removing the wreck of the battleship Maine entered an exceedingly interesting and important phase yesterday afternoon when the process of dissecting the shattered and distorted remains of the vessel by a gas blast apparatus was begun.

The work was begun on the highest part of the wreckage above the central superstructure, which at the present rate of progress will be entirely cut away in a few days, greatly facilitating the exploration of the hull. Afterwards the wreckage of the forward section will be removed. The stern section of the vessel, however, will not be touched by the gas blasters pending the settlement of the question whether there is a possibility of placing a bulkhead in it and floating it out of the cofferdam.

Republicans Alarmed.

Washington, D.C., Aug. 4.—Alarmed over the possibility of an attempt to pass the wool tariff revision bill over the anticipated veto of President Taft, the regular Republican leaders of the Senate yesterday set about to bring all the absent Republican Senators to the city before next week.

The House Ways and Means Committee yesterday refused to accept the farmers' free list tariff bill as amended by the Senate and instructed Chairman Underwood to move that the House nonconcur and ask a conference with the Senate.

"I have not the slightest doubt we can come to an agreement on the bill in conference," said Mr. Underwood.

One Life Lost.

Ogdensburg, Aug. 4.—While entertaining four friends yesterday in a motor boat, near Huckleberry Island, in the St. Lawrence River, Alexander Harris set fire to the craft by striking a match to light his pipe. Flames from the resultant explosion of gasoline burned the boat to the waters' edge and resulted in Harris' death.

The five men clung to the boat's edge as long as they could, dropped off when the fire got too hot and started for shore. Harris, who could not swim, was drowned in eight feet of water. He was 30 years of age, and leaves a widow and three small children. Searching parties are grappling for his body.

Aeroplane Postal Service.

London, Aug. 4.—The Postmaster-General is arranging with Graham White, the aviator, for an experimental aeroplane postal service between London and Windsor.

OUT TO DEFEAT IT

Provincial Tories Make Common Cause Against Laurier.

FIGHT OPENS IN NORFOLK

Imperialist National League, Anti-Imperial Bourassaites, British Tariff Reformers, High Tariff Vested Interests and Provincial Conservative Governments in League Against Reciprocity Pact.

Ottawa, Aug. 4.—The various Provincial Governments on both sides of politics are likely to take a decidedly more active part in the present Federal contest than in the last general election.

Mr. Borden has repeatedly appealed to every possible ally to help him out, and his Macedonian cry has apparently been heard by practically all the interests concerned in the desperate attempt "to beat Laurier at any cost."

The Imperialist National League, the Anti-Imperial Bourassaites, the British tariff reformers, the high tariff vested interests, whose aims in the last analysis are diametrically opposed to those of the British tariff reformers, and finally the Provincial Conservative Governments, have all rallied in one concourse of unrelated prejudices to defeat Laurier and reciprocity.

The place selected for Sir Wilfrid Laurier's opening meeting of the campaign on August 15 is the town of Simcoe, Norfolk County.

All the Ontario Ministers will speak at various points throughout the province, and Hon. W. S. Fielding will also address several meetings in Ontario before going to the Maritime Provinces.

Hon. William Paterson will speak at the Liberal convention for Lennox and Addington in Napanee on Tuesday next, at the North Lanark nomination at Almonte on the 11th and at his own nomination for Brant at Paris on the 15th.

McBride Not Running. Vancouver, B.C., Aug. 4.—"I do not intend to enter this election as a candidate, but will do my utmost, consistent with my position, to aid in victory, which I feel sure will crown Federal Conservatives in this campaign."

Premier McBride made this statement in an interview prior to his welcome here yesterday by members of the Conservative party, which took the form of a public reception.

In reply to an address which approved his stand against reciprocity, the Premier repeated his view that such a measure would lead to the exploitation of Canada by the United States. Furthermore, Canada would be a broken link in the chain of empire.

Convention In Stayner.

Collingwood, Aug. 4.—Arrangements have now been completed for the holding of the Conservative convention to nominate a candidate for the House of Commons. It will take place at Stayner on Saturday, the 12th inst., commencing at 1 o'clock.

It goes without saying that Major John A. Currie will be the unanimous choice of the convention.

Laurier to Visit Hamilton? Hamilton, Aug. 4.—Members of the local organization of the Liberal party this morning announced that Sir Wilfrid Laurier would include this city in the itinerary of his campaign. It is not definitely known, however, when the Premier will speak here.

Major Beattie May Retire. London, Aug. 4.—The Conservatives will meet Saturday to decide on a candidate for the Federal elections. Major Beattie has repeatedly expressed his opinion that he did not care to run again, so his name may not go before the members of the association. Billy Gray is the popular choice.

G. F. McKim for South Lanark.

Pertch, Ont., Aug. 4.—Yesterday afternoon the local convention of South Lanark met and C. F. McKim of The Rideau Record of Smith's Falls was chosen Liberal candidate for the coming election.

Cattleman Lost Money.

Toronto, Aug. 4.—Thomas Joyst of Shallow Lake, Ont., arrived in town yesterday with a load of cattle. After he had disposed of them he was assaulted and robbed of \$80 on Terauley street.

Later yesterday afternoon Detective Murray arrested James Britton on a charge of assault and robbery. When searched the money was found on him.

Admiral Togo Arrives at New York.

New York, Aug. 4.—Admiral Count Heihachiro Togo, chief of the naval staff of the Japanese Empire, and hero of the battle of the Sea of Japan, will land in New York from the Lusitania today, to be the guest of the United States for the following two weeks. He will leave for Canada by way of Niagara on the 16th or 17th, taking the steamer for Japan at Vancouver.

Justifiable Homicide.

Montreal, Aug. 3.—"Justifiable homicide" was the verdict of the coroner's jury in the case of Auguste Leroux, held in connection with the death of J. B. Bison.

The tragedy was the result of a dispute on religious matters, forced upon Leroux, it was stated, by the deceased.

Mangled Beyond Identification.

St. John, N.B., Aug. 4.—The finding of a man's hat and coat on the cow-catcher of a locomotive cleaned at Moncton told the tale of an awful accident. A search revealed the body of a man lying near the track at Sunnyside, a suburb, in a mangled condition.

Lambert's Body Recovered.

Sault Ste. Marie, Aug. 4.—The body of Lorne Lambert, who was drowned in the river a week ago while operating the gasoline launch of the Model Dairy, was recovered yesterday at the New Ontario dock, about half a mile from the scene of the accident.

GRIRO IS ACCUSED.

Missing Italian Blamed For Murder In Toronto.

Toronto, Aug. 4.—"That a certain person, whom we, the jurors in the case, believe to be Frank Griro, on the 30th day of July, did feloniously willfully and of his malice aforethought, kill and murder Frank Tarro."

The coils of circumstantial evidence have been surely tightening around the missing Frank Griro, or Grossio, alias Rossaro, for whom the police are searching for the murder of his compatriot, Frank Tarro, last Sunday, and last night, at the conclusion of the inquest, the chain of evidence was practically completed, and the foregoing verdict returned.

Witness after witness identified the murderer with the picture of Griro, as taken by the police department. Slowly his route of escape is being worked out.

A witness, last evening, Herbert Eastough, a street railway conductor, giving evidence to the fact that he got on his car at Front and John streets in a very nervous condition, getting off again at Bathurst street, and striking down over the tracks. It is believed that he boarded an east-bound freight train. Oran Benson gave evidence that he had passed the man on Yenge street shortly after the murder.

P. C. Craig told the story of the fruitless chase. He was at West Market and Front street when he heard shots fired. Running to the scene, he started in pursuit of the fleeing assassin, but a man shouted to him to come back. Still he ran on, but again the man shouted, telling him, as he thought, that the fugitive was returning. He came back, but found that he meant the man was dead. He thought it a suicide.

He told of finding a revolver and said that another revolver and a stillito were handed him by the other men. The strongest evidence against Griro was given by Max Guenberg, who, after identifying him by the photograph, stated that he had known him for some time, having met him in Hamilton. He told of his coming into his store for a knife. When he showed him the knife he declared he wanted a larger one, explaining that it was for a friend. He identified the knife found near the scene of the murder as the knife he sold to Griro on Friday night.

Twenty Thousand Strike.

London, Aug. 4.—As a result of Wednesday night's call for a general strike of all classes of London dock workers and affiliated trades, about 8,000 more walked out yesterday, bringing the total number of strikers to about 20,000. Leaders predict that 40,000 men will be out by to-night.

There is a possibility that a general international strike will be declared, and this would result in a tie-up of all shipping between America and European ports.

Provision dealers are greatly concerned over the situation. Supplies of meats and other perishable goods will be quickly exhausted. There already is a scarcity, and the strike is but two days' old.

2,000 Harvesters From Montreal.

Montreal, Aug. 4.—Two thousand able-bodied men, representing Montreal's answer to the call of the Canadian west to send harvesters to gather in the great wheat crop of the prairie provinces left the city yesterday for western points over the local roads.

MARKET REPORTS.

Liverpool and Chicago Wheat Futures Close Higher—Live Stock—Latest Quotations.

CHICAGO, Aug. 2.—Predictions that the export surplus in Russia this season would be only 30,000,000 bushels against a recent average of more than 300,000,000 bushels took the wheat market aloft today. There were persistent assertions, too, that the presence of black rust in Canadian fields had been confirmed by laboratory tests.

Closing prices were firm at a net advance of 1/8c to 1/4c. The Liverpool market closed to-day 1/4c higher than yesterday on wheat and 1/2c higher on corn. Antwerp closed unchanged on wheat, Berlin 1/4c lower, and Buda Pest 1/4c lower.

3 Big reductions in boots, shoes, trunks, valises and harness at J. L. Thompson & Son's.

Methodist Sunday School, Cobourg, are holding their annual excursion and picnic at Burleigh Falls, Stoney Lake, on Friday, August 11th. Special train will leave Cobourg at 7:30; Port Hope, down town station, at 8. Returning, will leave Lakefield at 7 p.m. Tickets only \$1.25 for round trip; children, 25 cents. The best trip of the season. Patronize it.

A rather remarkable circumstance took place recently at the farm of Mr. C. W. Miller at Bunclody. A three weeks old colt fell into a dry well thirty feet deep. It was found some hours later standing in the well winking its little tail evidently without injury. When raised to the service with a rope it kicked up its heels and ran off at once.—Souris Plaindealer.

HO! FOR TWELVE O'CLOCK POINT—August 21st—Keep the date clear. St. Mark's Parish Picnic will be held again this year at Twelve O'Clock Point. The picnic and excursion held there last year was such a pleasant and enjoyable outing for the day, the same trip has been requested for this year by nearly all those who enjoyed it so much last year. The steamer Argyle has been secured for Aug. 21st, leaving Port Hope at 8 o'clock a.m., calling at Cobourg on the way. Further announcements later on.

If you want bargains drop into J. L. Thompson & Son's.

CONCRETE WALKS.—The concrete walk along the east side of Ontario street, from Walton along near the C.N.R. offices, has been completed. Wonder if the Council considers this portion more important than the north end of Ontario street to the C.N.R. station.

POST MASTER OF COBourg DEAD.—The death occurred this morning at Cobourg of Mr. Alexander Pratt, Postmaster of that town. Mr. Pratt has been ill for some time and underwent an operation in the Toronto Hospital quite recently. His host of friends will learn this news with deep sorrow and extend sympathy to the bereaved ones. Mrs. W. J. B. Davison of this town is a daughter.

YOU CAN'T FOOL ALL THE PEOPLE ALL THE TIME.—There was no band concert last evening, only a few of the bandsmen putting in an appearance. The band agreed to give a stated number of concerts for \$150. Their offer was accepted, and the Council decided to have a concert every Thursday evening. A large crowd turned out to hear the concert last evening, but had to go away disappointed. The band should not do business in this way. The matter of disappointing the public does not pay.

The Style Subject

The value of good style in the clothes you select cannot be overestimated. To give clothes that certain touch of correctness which you are desirous of seeing in your garments is distinctly a question of ability on the part of the maker of the clothes.

We believe you will get what you pay for in the matter of fabrics and linings, if you buy clothes of a reliable make, but if you want style, combined with quality, it is a question of ability. The 20th Century people have the ability, hence the style you always find in their bench-tailored garments.

The New Cloths, Style Charts and Measurement Forms for Fall, 1911, are here now. Come in and take a look through.
