Port Hope Pupils Made Splendid Showing

The results of the examinations chools were announced Thursday. The Department of Education made the following statement :-The certificates of the successful candidates and the statements of marks of those who failed will be mailed to the principals or inspectors in the course of a few days.

The appeal examiners have already re-read the papers of each candidate whose marks would in former years have justified an appeal. Where such a candidate has still failed his statement of marks will be stamped as re-read and no further appeal will be allowed. In

all other cases of failure appeals will not be refused if made before September 1 and accompanied by the fee of \$2 In view of all the precautions taken, however, it is most unlikely that such appeals would succeed.

Successful candidates who desire to attend the coming session of the Normal schools are notified that their applications for admission must be made to the Deputy Minister of Education not later than Tuesday, September 5th. The Normal schools will open on Tuesday, September 26th, at 9 a. m., at which time all candidates must present themselves. Applicants are regired to be at least eighteen years of age before October 1st. Further information regarding the conditions of admission may be obtained from sections 4 and 5 of the syllabus, copies of which may be obtained on application to the Deputy Minister of Education. No candidate will be admitted who does not comply fully with the conditions of these sec-

tions. on this examination has been fully mounting rooms.

WEDDING BELLS.

HAGERMAN-RICHARDS Tuesday, August 1st, a very pretty wedding took place at the home of the bride's mother in Oshawa, when Mr. Harvey Hagerman, of Oshawa, and Miss Lottie F. Richards, also of Oshawa, were united in the holy bands of matri-mony by the Rev. W. B. Tucker, of Norwood, assisted by Rev. S. C. Moore.

It was a quiet wedding, only immediate relatives being present. The couple were unattended. Jessie Balsom acted as flower girl. The bride was given away by her mother, and wore a dress of embroidered Batiste, and a boquet of white roses and sunburst of pearls, the gift of the groom.

Miss Rose Goyne played the wedding march (Mendelssohn's.) Mrs. D. M. Arnott sang "The Crown of Love.'

The young couple received many

valuable presents, among which were two handsome pieces of furniture from the McLaughlin Carriage The possible effect of the hot Co's office staff, also several pieces weather on the candidates writing of cutlery from the shipping and

It poverty will always stand between vast improvement and enlargement must be as miserable for you to hear as for me to speak. Let us make an end of it. I can't understand how I have escaped detection so long.

Remembering every detail of Buckland's story, Sidwell feit that she had possibly been unjust in representing the Moxeys as her brotner's authority; in strictness, she ought to mention that a friend of theirs was the actual source of information. But she could not pursue the subject; like Godwin she wished to put it out of her mind. What question could there be of honour or dishonour in the case of a person such as Miss Moxey, who had consented to be party to a shameful deceit? Strangely, it was a relief to her to have heard this. The moral repugnance which threatened to estrange her from Godwin, was now directed in another quarter; unduly restrained by love, it found scope under the

guidance of jealousy, 'You have been trying to adapt yourself,' she said, 'to a world for which you are by nature unfitted. Your place is in the new order; by turning back to the old you condemned yourself to a wasted life. Since we have been in London, I have come to understand better the great difference between modern intellectual life and that which we lead in these far-away corners. You must go out among

your equals, go and take your part with men who are working for the future.

Canadian West Seems Solid For Reciprocity

Mr. W. H. Collier is in the city just returned from an extended holiday trip to the Canadian West -as far as British Columbia. He visited at the principal cities between Winnipeg and Vancouver and was astounded at the activity of development to be seen everywhere. Things are seething, and in the process of subsidence to settled conditions great opporunities for young men are presented on every hand, and thousand of young men are taking advantage of them.

Wherever Mr. Collier went he found Peterboro young men, and whenever he mot them he found them invariably doing well, pro sperous thirsty and saturated with the energetic spirit of the West; some in business for themselves, and some working for others with

abundant reward. Vancouver Mr. Collier found to be splendidly booming. The dole-ful pictures of a stump here pictured in the Toronto World recently, had no original. That story was a very greatly exaggerated version of temporary unsatisfactory conditions, resulting from a short-lived labour strike. strike. Building operations are astonishing. Already so far this season building permits to the amount of fifteen million dollars have been issued, and it is expected that the figures will reach twenty millions before the year closes. He says the new residence district. "Shaughnessy Heights," is the most admirable city residence district on the continent. It is rapidly filling up with handsome residences from \$10,000 up. There being two now under construction to cost \$250,000 add \$75,000 respectively. The generally employed material is a grey marble, occurring in great abundance in the vicinity. It can

impressed with by reason of the lavout of its streets and its municipal advancement-all its public services, street railway, electric light with the existing buildings.

TERMS OF SALE.—The property will and water services are municipally

to 30 miles into the country from interest. For fixther particulars and conditions of sale, apply to T. Long & Son, Estate Agents; J. H. Wilson, Auctioneer, or HENRY WHITE, poor crop of any kind of Sidwell murmured ing quite comfortable over the The farmers are all well pleased adoption of the reciprocity treaty with the outlook and they say that with Canada by the Senate, and barring frost this month the west will reap a record crop, both in yield per acre and in aggregate.

> Mr. Collier found reciprocity in high favour in the west. He met and conversed with hundreds of both political parties-in fine, he found as a rule only one party the party of reciprocity. He says from what he heard all along the trail from east to west that if the people vote as they talk, it looks as if there will hardly be elected three men opposed to reciprocity between Winnipeg and Vancouver. Judged by expressed opinions, the result of the coming election will be a practically solid contingent of reciprocity representatives from the canadian west.—Peterboro Exampation and place of residence of each member of the firm must be given.

A United States View.

Chicago Trioure

For years Canada has sought reciprocity with us. She should have had it long ago. Now that she is to have closer and better relations, it is foolish to talk about accept the lowest or any tender. political annexation at this time. If the reciprocity convention created absolute free trade between us it would still be foolish. But that we have moved forward toward a natural and inevitable economic community must react beneficially upon our every relation.

But of greater moment than any of these considerations, is that of the effect upon our American attitude toward the tariff. It is for fear of this that many of the high tariff bourbons have fought reciprocity and have declared that it is the ritt in the dike which will widen to a chasm, and eventually bring the whole protective barrier down to

procity, the personal measure of an SUCCESSFUL JAPANESE TEA. American President, passed finally by a Republican Senate, is a direct defiance of standpatism, an authoribeen increasing gradually for the tative denial that the tariff is sacred and must not be tampered with, but to be built higher, and a substantial affirmation, after years of delay, of the foresight of James G, Blaine and William McKinley.

The reciprocity act is not a world shaking measure. But it is a sane, sound, conservative act of State, and it is a practical challeng of common sense to the fetish worship of

Mrs. Sterling Entertains For

The Benefit of the Y.M.C.A.

A very unique and pretty feature of Friday atternoon and evening was the Japanese tea given by Mrs. Sterling at her home, Sullivan street in aid of the Y.MC.A. The Ladies Auxilliary have worked very hard during the past year for this good cause as funds are greatly in demand to continue the work.

Yesterday tea was certainly very encouraging and Mrs. Sterling is to be congratulated on her splendid success. The tea room was quite a little picture in itself with streamers of Japanese flags, lanterns &c., strung from corner to corner, with bunches of sweet peas, mignonette and dahlias on the pretty tables and tall sunflowers standing guarding the doors.

Separating the two rooms was a very artistically arranged lattice of green crepe paper, dotted here and there with some little Japanese effect.

In the reception room was a hugo Japanese umbrella hung with lanterns, under which the little "almond eyed" maidens attended to the wants of the numerous customers who had indeed many "sweet teeth" in their heads, and before the evening closed candies and ice cream were all sold, and A handful or two in line at quite a desirable sum was realized

This is the fifth tea given in this aid and as this is not likely to be the last one, it is hoped that the ladies of our town will still patronize them as generously as in the Packed in barrels and kegs past, with the aim in view that our growing boys must be looked after in the long winter months, and to have a desirable and attractive place to carry on this work, it requires tunds.

The ladies are always pleased to add any more names to their list of members, the next regular meeting being in their parlor at the Y.M.C. A. on the first Monday in Septem-

ORGANIZATION OF CANADA BREAD CO.

Five Companies Included In Proposed New Organization

Toronto, Ont., Aug 4, '11-The establishment of another large industry for Canada will result from the negotiations closed here to-day by Mr. Cawthra Mulock for the organization of the Canada Bread Co. Limited. The Company will have modern bread manufacturing plants in Montreal, Toronto and Winnipeg, and it is the intention to arrange in the near future for the erection of plants in all the other larger cities in the Dominion. The Common when immediate plans of extensions and new plants are completed will have a weekly output of 1,000,000 loaves, giving an annual production of about \$50,000,000 loaves. According to announcement made here to-day by Mr. Cawthra Mulock included in the new company are five of among the largest bread manufacturing companies in Canada, among them being the Bredin Bread Co. of Toronte, Stuarts Limited, Montreal, Geo. Weston, Ltd., Toronto, known as the Toronto Bakery Co. The businesses taken over have all grown from very small beginnings and are to-day among the most successful in their respective fields in the country. The services of the men who have made the different businesses pre-eminently successful are being assured to the new company. Mr. Mark Bredinhead of the Bredin Eread Co., Toronto, and regarded as perhaps the most successful bread manufacturer that Canada has yet had, will be general manager while the board of directors will include Geo. Weston, president of Geo. Weston, Ltd., H. C. Tomlin, of the Toronto Bakery Co., and W. J. Boyd's bakery, Winnipeg. Canada Bread Co. Ltd., is at the Winnipeg. outset being placed in a very strong financial position by the sum of \$1,000,000 being placed in the

treasury to provide for the erection of new plants and the extension of the present ones and at the same time supply ample working capital. When seen by our correspondent to-day Mr. Mark Bredin the general manager pointed out that the new Bread Co. with its modern up-to-date plants would be in a position to turn out a more uniform and better grade of bread while the systematizing of the distribution will ensure to the company the saving of enormous sums that are now being wasted owing to the customers of the different bakeries being very largely spread over all sections of a city.

Ottawa, Aug. 5.-The Cabinet changes foreshadowed some time ago in connection with the retirement of Hon. L. P. Brodeur, Minister of Marine and Fisheries and of Naval Affairs, to take the position on the Supreme Court Bench rendered va-cant by the death of Justice Girouard, will take place next week.

Hon. Mr. Brodeur is now winding up pending matters of departmental administration in connection with his portfolio, so as to have things in good shape for his successor, Hon. Rodolphe Lemieux, the present Postmaster-General. Dr. Henri S. Beland. the young, able and popular member for Beauce will enter the Cabinet as Postmaster-General, and will be sworn in within a few days at Murray Bay, Que., where His Excellency

Earl Grey now is. The new Minister will address meetings both in Ontario and Quebec during the campaign. Hon. Mr. Lemieux will go to Simcoe with Sir Wilfrid for the Prime Minister's opening meeting of the campaign on Aug. The other Ministers to accompany Sir Wilfrid to Simcoe will be Hon. Geo. P. Graham and Hon. W. L. Mackenzie King.

Two More Victims.

Porcupine, Aug. 5.—Rain followed the intense heat of Thursday. It is cooler to-day. The burned mines in the outlying districts are rebuilding very rapidly considering the fact that all transportation must be by teams. Bones of two more bodies were found in Deloro, two miles south of the Tis-dale line. No identification was made as only the bare skeletons are left. This brings the death list as the re-sult of the holocaust up to 73, with three unidentified.

The Government boat inspector tied | up all motor boats yesterday until the regulations relative to ballast and life preservers were observed. Many complied at once and were permitted to run. The small boats were not re-Jeased. High winds on the lake made boating in light craft dangerous where ballast was not carried.

Report Cotton Goods Bill.

Washington, D.C., Aug. 5 .- The Insurgent-Democratic combination in Senate sprang a surprise yesterday when it directed the finance committee to report the House cotton goods bill, reducing tariff duties nearly fifty per cent., not later than Aug. 10, and predictions of an early adjournment are shattered.

There is no doubt that the cotton bill will be passed and sent to President Taft, along with the wool and

will not be consulted.

Fired at Policeman.

Winnipeg, Aug. 5.-The entire police department yesterday were engaged in a man hunt growing out of a desperate fight between a highwayman and Constable Trayner, who had arrested him Thursday night. Nightly, for several days, citizens have been held up and robbed on the streets by two

thugs armed with guns.

One was arrested Thursday night on complaint of his landlady, but Constable Trayner did not realize he had arrested a dangerous man until his prisoner jerked away, drew a revolver and fired at him repeatedly. The thug escaped into the railway yards. A search of his rooms showed unmistakable evidence of highwaymen. The two said they came from Toronto and were railway men.

Census Takers' Pay.

Ottawa, Aug. 5 .- The Department of Agriculture yesterday afternoon is-sued checks to the census enumerators throughout the country where the or-iginal accounts, have been corrected. It was decided after completion of the enumeration to withholf ten per cent. on all checks until accounts had been examined and found correct. Many of the enumerators have been awaiting their pay for some weeks. In Ottawa those who covered one section of the city were paid in full, but the money of the others was held up, much dissatisfaction arising as a result.

Washout Near Guelph.

Guelph, Aug. 5 .- A cloud burst, which occurred shortly after 6 o'clock. Thursday night, caused a washout on the Grand Trunk six miles north of this city. Little Man Who Has Been at Coronation Puts Up With Indignities of New York Press Photographers Without Evincing a Sign of Displeasure-Extremely Interested In Electrical Locomotives.

New York, Aug. 5 .- Admiral Togo left New York late yesterday afternoon for Washington. His departure had a feature quite as unusual as his midnight arrival and welcome in New York bay Thursday night, for he left the city in the cab of a big electric engine drawing a heavy train for the capital city.
Although the luxurious car Olivette,

which the Government had provided for the distinguished guest while in this country was attached to the train, the naval hero elected to sit by the engineer's side and watch him operate the 40,000 horsepower motor.
"I am intensely interested in your

pre-eminence in electric engineering and railroading," the admiral said through his interpreter, "and I wish to avail myself of this opportunity to closely observe both. Therefore, I will ride with the engineer"

The admiral rode in the cab to the limit of the electric zone at Harrison, N.J., and there entered his car. He asked many questions of the engineer concerning the electric equipment. In fact, it was remarked that he display-ed more interest in this incident of his visit than in anything previously.

During his fourteen hours' stay in the city, Admiral Togo had many con-flicting experiences, but there was not the least change in his almost blank countenance. He was not seen to smile, nor to frown, although he had much occasion to do the latter. He was entirely impassive so far as his countenance might reveal his emotion.

Once when an over-zealous photographer for whom he had graciously consented to pose, roughly shoved his head to one side with a "Don't hold your head so stiffly," he evinced no displeasure. Again, when the photo-graphers became involved in a quarrel in his presence as to preference for camera position, he looked on without changing his expression, even while Chandler Hale, third assistant secre-tary of State, and official representa-tive of the Government, in entertaining the admiral, ejected the photographers.

ASQUITH ASSAILED.

Extreme Unionists Bitterly Attack Mr. Asquith.

London, Aug. 5.—The progress of the veto bill toward the crisis next week, is now coming into clearer light. Viscount Morley yesterday published a list of 76 Liberal peers who have written promising to support the Government in the passage of the measure.

A meeting of Unionist peers who favor supporting the Government was held yesterday. It was presided over by Viscount St. Vincent, formerly Sir Michael Hicks-Beach. The meeting decided that it would not be advisable to take organized action in the vote on the bill, but to leave each peer to act on his own discretion. This may add ten or more votes to the Government side making the total 86 to 90 in favor of the measure. The only list of names the followers of the Earl of Halsbury has as yet permitted to be published, gives 68. Thus the bill, according to present probabilities, will be adopted by a narrow majority of between ten and twenty.

The insurgents continue to breathe

undiminished defiance to the Government. Iney held two crowded meetings last night in London, one in Holborne, and one in Chelsea, at which the Earl of Halsbury, the Earl of Selborne, Lord Milner, Lord Willoughby de Broke, Austen Chamberlain, F. E. Smith and Sir Charles Wyndham all made strong speeches. Wyndham all made strong speeches, their chief theme being denunciation of the Government for what they termed revolutionary proceedings in dragging King George into the mire of politics at the behest of John Redmond, the Irish leader. Resolutions pledging a "no surrender" policy were carried amid scenes of intense enthus-

The Spectator and other moderate Unionist newspapers continue their urgent appeals to the party to allow the bill to pass the House of Lords the bill to pass the House of Lords without the creation of new peers and thus keep the King from a struggle which could only cause him anxiety and embarrassment. They say also that if the bill is defeated by the Lords, it will no longer be a question of the creation of a few peers, but at the very least 400 of them.

employed.
Mr. Landers stated that there were

many glaring cases of inadequate protection and gave a list of factories where the lives of hundreds of wo-men and children workers are in jeopardy. This list included not only old establishments, but several build-ings newly erected, with fine business fronts, which Mr. Landers declares are little more than fire traps.

He mentioned a number of factories where he declares the laws are winked at. One in particular had 500 wemen and girls working on the sixth floor, with no fire escapes, and only one exit.

Mr. Landers' statements were followed with great interest by the Board of Control and the building inspector and fire chief will be instructed to take immediate action.

Ottawa, Aug. 5.—The New York Herald of Friday says: Failing in their efforts to block the Canadian reciprocity compact in Con-gress, American opponents of the treaty are endeavoring to defeat the measure, it was learned yesterday, by raising a large campaign fund to be used in the Dominion next month to bring about the defeat of the mem-bers of Parliament who favor the measure.

Wilbur F. Wakeman, treasurer and general secretary of the American Protective Tariff League, informed a Herald reporter that he had been approached by a representative of a large publicity agency, who outlined the plan to defeat the reciprocity

treaty with American dollars.

Mr. Wakesman, who has opposed the lowering of the tariff wall between the United States and Canada, said that the American Protective Tarifi League refused even to consider the plan for raising funds to defeat the treaty in Canada. He said that he did not believe a large sum of money could be raised in the United States to be used to influence the politics of

The Style Subject

The value of good style in the clothes you select cannot be overestimated. To give clothes that certain touch of correctness which you are desirous of seeing in your garments is distinctly a question of ability on the part of the maker of the

We believe you will get what you pay for in the matter of fabrics and Ilnings, if you buy clothes of a reliable make, but if you want style, combined with quality, it is a question of ability. The 20th Century people have the ability, hence the style you always find in their bench-tailored garments.

The New Cloths, Style Charts and Measurement Forms for Fall, 1911, are here now.
