Skaters' Reunion

At the rink, on Wednesday night of this week (Hospital Night.) Everybody is going—old and young—"Has Beens" and "Will Be's"—See the fun for only 15c.

POLICE COURT

Two Vagrants Given fifteen Minutes to Leave Town

John Woods and William O'Brien were in the Police Court this morning charged with vagrancy, and both pleaded guilty. Woods was very abusive during the night to Constable Chesher because he did not supply more coal. They were given fifteen minutes to leave town, and if found here after that time they will be sent to Central Prison. Wood left for Frankford and O'Brien for Lindsay.

DESTRUCTIVE FIRE

At Millbrook—Needler's Mill Is Totally Destroyed—Other interesting Items

From Our Own Correspondent. We regret to notice that Mr. Geo. Needler's flour mill here was destroyed by fire on Sunday morning last. The fire alarm was given about twenty minutes to one o'clock. Three loads of flour were saved. It was one of the oldest buildings in town. Messrs. Needler have the sympathy of the community in their loss, for they are good enterprising citizens, having remodelled the mill with the latest machinery at quite a large expense, the loss will not only be felt by the owners, but less or more by the community. Cause of fire unknown, supposed to be spontaneous combustion. It is to be hoped that Mr. Needler will rebuild again having a fine water power. The loss is \$12,000, with insurance of 7,500. Last Sunday we had the pleasure of hearing Rev. Wm. Johnston Presbyterian pastor here, preach in

his own pulpit a good, earnest, practical sermon on "Loving the Lord with all our strength."

Warden Kelly, Reeve of Cavan was at Ottawa last week attending a meeting of the G. T. Railway Board on Counties business and respecting proposed deviation of G. T. R. line from Lindsay to Port Hope.

Miss Beatrice Cann, of Peterboro, is visiting at the home of her uncle, Mr. Chas. Thorndyke.

Along with other sports another dance is coming off in the Town Hall next week for the pleasure of lovers of the light fantastic.

SPORTING SKITS HOCKEY.

Speaking of the game in Belleville last Thursday night the Intelligencer says: Any visitor to the Arena last night who was a stranger to ice hockey might have mistaken the encounter—it cannot be fairly called a game—for the rehearsal on a small scale of a battle, without the rattle of small arms, or the roar of artillery. There were the opposing forces, attired in blue and green sweaters respectively, the clash of arms, the falling of the killed or wounded, on either side the ready first aid services of the hospital field corps, who bore the fallen to the temporary hospital. Even the call for medical assistance and the prompt attendance of the duly qualified surgeons was not lacking. The encounter was between the Port Hope professionals and a seven composed of four of the Bellevilles and three of the late Picton team which had disbanded the previous night. These men were all tired and sore after a hard game the night before, and a long drive which landed them here at 5 o'clock in the morning.

Everything Must Go Bargains for Everybody J. F. Clark & Son

PORT HOPE

THE BATTLE

The fight began under the supervision of "Bill" Lane, of the Bellevilles, who proved to lack sufficient nerve for the position. After a few minutes strenuous combat, Randall of Port Hope, fouled Dusty, who was on the Belleville line. He was given a minute on the fence, but as he left the ice he gave the referee a jolt with the butt end of his stick, and was then ruled off for the rest of the game. Then the war really began. The Blues then threatened to discontinue and after a long parley, the Referee yielded and Randall was let off with three minutes. Thenceforward the players did almost as they chose. Dusty was knocked out with a serious injury to his shoulder by being bodied against a girder. Kyle was tripped by Debeau and could not continue because of an old hurt in one of his knees, and finally was forced to leave the game. Crossett was crowded so that his head struck a girder and was unconscious for a time.

From seven on a side at the beginning the number, owing to casualties fell to four on each side and Port Hope won by 10 to 6. The game was of such a character as the people of Belleville would not care to witness again. It is but fair to state however, that the majority of the players really played the game.

CONVENTION CALL

A convention of the temperance workers of the County of Durham is called to meet in the Town Hall, Port Hope, on Monday, February 27th, 1911.

Convention Session at 2 p. m. Public Mass Meeting at 8 p. m. Addresses by Rev. Ben. H. Spence, Sec'y. Dominion Alliance, and others.

Howard Russell, the celebrated Toronto Baritone will sing afternoon and evening.

We are approaching a crisis in regard to temperance reform in the Province of Ontario. Local Option by-laws have been submitted in seventy-eight per cent. of the municipalities of the Province, and fifty-five per cent. of these are now free from the licensed liquor traffic.

There are in Durham County, 2 towns, 2 villages and 6 townships. The town of Bowmanville, the village of Millbrook, and every township, viz: Cartwright, Cowan, Clarke, Darlington, Hope and Manvers are under Local Option. The only municipalities under license are the Town of Port Hope and the village of Newcastle. Newcastle voted on Local Option in January, 1911, and gave a majority in favor of the by-law but not the required 60 per cent. majority.

Temperance sentiment is advancing in Durham and Northumberland as evidenced by the steady reduction in the number of licenses: In 1874 there were 170 licenses. In 1885 " " 113 " In 1895 " " 74 " In 1905 " " 57 " In 1910 " " 27 " Of these only 10 licenses are in Durham County. Each church, temperance society,

or other organization in sympathy with the movement is asked to send two delegates for each fifty members after the first full fifty members of such organization.

OBITUARY.

THE LATE N. GREENAWAY.

It is our sad duty to chronicle the death of one of our oldest and most highly respected neighbors and friends, in the person of the late Mr. Nathaniel Greenaway, who, after a short illness, departed this life on Sunday, January 29th.

The late Nathaniel Greenaway was born in Cornwall, England, in 1821, and came to Canada when quite young, with his wife and infant daughter (afterwards Mrs. Richard Runnalls, who predeceased him in November, 1888.) He leaves to mourn besides his aged widow seven daughters and two sons. Mrs. Oke, Mrs. Cade, Mrs. Crowe, Toronto; Mrs. Wood, Oshawa; Mrs. Williams and Mrs. Pedlar, Port Hope; Mrs. Pryde, Welcome; William, in the fruit business in Port Hope, and Jacob on the home-stead; and also two sisters and one brother—Mrs. Tom, Exeter; Mrs. Boney, and Mr. Jacob Greenaway, Port Hope, and several grand children and great-grand children.

Mr. Greenaway was a Methodist and leaves behind him a noble record. The funeral service was conducted at the house on Wednesday by Rev. Mr. Rourke, and assisted by Rev. W. G. Clarke, of Port Hope—a friend of the family.

Six of his sons-in-law acted as pall-bearers, and the great esteem in which he was held was shown by the immense concourse of people who followed his remains to their last resting place in the family plot, Welcome.

CHARCOAL

Is splendid for starting fires or renewing old ones.

The Evening Guide

PORT HOPE, FEB. 13 1911

A TROUBLESOME MISGIVING

(Continued from Saturday)

The bitterness came when he had returned to his home in the back street of Twybridge, and was endeavouring to spend the holidays in a hard 'grind.' He loathed the penurious simplicity to which his life was condemned; all familiar circumstances were become petty, coarse, vulgar, in his eyes; the contrast in the idealized world of his ambition plunged him into despair.

CHAPTER III

With the growth of his militant egoism, there had developed in Godwin Peak an excess of nervous sensibility which threatened to deprive his character of the initiative rightly belonging to it. Self-assertion is the practical complement of self-esteem. To be largely endowed with the latter quality, yet constrained by a coward delicacy to repress it, is to suffer martyrdom at the pleasure of every robust assailant, and in the end be driven to the refuge of a moody solitude.

NA-DRU-CO LAXATIVES advertisement: 'a new evacuant pleasant to take, mild and painless. Increasing doses never needed. 25c. a box at all druggists. National Drug & Chemical Co. of Canada, Limited'

heart afire with scornful wrath. The affliction could not have befallen him at a time when he was less capable of supporting it resignedly. Notwithstanding his noteworthy success in two classes, it seemed to him that he had lost everything—that the day was one of signal and disgraceful defeat. In any case that sequence of second prizes must have filled him with chagrin, but to be beaten thus repeatedly by such a fellow as Bruno Chilvers was humiliation intolerable.

As soon as he had escaped from his uncle, he relapsed into musing upon the position to which he was condemned when the new session came round. Again Chilvers would be in the same classes with him, and as likely as not, with the same result. In the meantime, they were both 'going in' for the first B. A.; he had no fear of failure, but it might easily happen that Chilvers would achieve higher distinction.

TO BE CONTINUED.

CHILDREN INJURED

Ordinary Cathartics and Pills and Harsh Physic Cause Distressing Complaints.

You cannot be over-careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given, except in emergency cases. Ordinary pills, cathartics and purgatives are apt to do more harm than good. They cause griping, nausea and other distressing after-effects that are frequently health-destroying and a life-lasting annoyance.

Rexall Orderlies are eaten like candy. They are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness or other undesirable effects. They have a very natural action upon the glands and organs with which they come in contact; act as a positive and regulative tonic upon the relaxed muscular coat of the bowel and its dry mucous lining; remove irritation, overcome weakness, tone and strengthen the nerves and muscles, and restore the bowels and associate organs to more vigorous and healthy activity.

lieve constipation, except when of a surgical character. They also tend to overcome the necessity of constantly taking laxatives to keep the bowels in normal condition. Two sizes of packages, 10 cents and 25 cents. Remember you can obtain Rexall Remedies in Port Hope only at my store—The Rexall Store. H. W. Mitchell, Phm. B.

L. B. Barker's New Romance at the Grand, Feb. 15th.

What is conceded to be one of the most powerful American dramas written in recent years is L. B. Barker's new romance of a phase of life in our idle rich class entitled "The Final Settlement," which comes to the Opera House on Wednesday, February 15th.

IN MEMORIAM

MORTON—In loving memory of our dear sister, Mrs. J. R. Morton, who died Feb. 4, 1910. Peaceful be thy rest, dear Martha, 'Tis sweet to breathe thy name; In life we loved you, ever dear— In death we do the same.

IT GIVES STABILITY

Taft Says Agreement Will Make U. S. Self-Supporting.

IS NOT A FORMAL TREATY

President of United States Defends Proposed Revision of Tariff at a Meeting in Springfield, Ill.—Says Canadian Cattle Can Utilize Over Supply of American Corn—Wages Are the Same.

Springfield, Ill., Feb. 13.—President Taft defended the proposed reciprocity agreement with Canada in an address before the Illinois Legislature here Saturday as the "logical conclusion" of the protection plank in the last Republican national platform.

He defined the protection theory as one that should impose a tariff not exceeding the difference in the cost of production in the United States and abroad, and allowing a fair margin of profit for the home producer. He argued, therefore, that inasmuch as the conditions of production from the United States and Canada, "were substantially the same, the widest latitude was given Secretary Knox and the commissioners who represented the United States in offering to Canada a reduction of duties on goods, and products coming into this country from Canada, in consideration of the establishment of the same duty, a freedom from duty, on similar goods going into Canada."

The President explained that it was brought under consideration of both governments not to make a formal treaty, but to make an agreement between the executives by which each, exercising his constitutional power in his own government, should submit the agreement in the form of a statute to be enacted and to go into force on condition that a similar statute was passed by the Legislature of the other country.

"It will give the United States much greater control of the wheat market than it has ever had before. It will enable its milling plants to use Canadian wheat into flour and to export the finished product, and will stimulate the sale of manufactures and other things that we have to sell to Canada."

The President further asserted that in removing the artificial barriers between the northwestern part of the United States and the Canadian provinces, the agreement would result in the bringing over of live cattle to feed on the corn of the American farmer. He added that the rapid increase of population in the United States required "a source of food supply like Canada, right at our doors."

time, she is at the parting of the ways. Shall she be an isolated country, as much separated from us as if she were across the ocean, or shall her people and our people profit by the proximity that our geography furnishes and stimulate the trade across the border that nothing but a useless, illogical and unnecessary tariff wall creates?"

ROUTE IS CHOSEN

Canadian Northern Ontario Line Is Finally Located.

IT TAPS A RICH COUNTRY

Will Leave Present Line at Rideau Junction and Swing Round, Following Almost the Route of the Georgian Bay Canal to Meet Transcontinental Line—Opens Up Some Fine Farm Lands.

Toronto, Feb. 13.—The survey of the main line of the Canadian Northern Ontario Railway, extending from Ottawa to Port Arthur, has been completed, and the exact location of the road, as decided upon by the company, was given the press on Saturday night. It is believed that the work of construction will be commenced this year, and that the road will be open for traffic at the end of three years.

The Canadian Northern Ontario Railway, which name is given to that portion of the C.N.R. transcontinental line running through the Province of Ontario, commences at Rideau Junction on the Toronto-Ottawa branch, now under construction, and crossing the Ottawa River at Fitzroy Harbor, will continue along the Ottawa Valley on the Quebec side, and runs through Pembroke and Petawawa to North Bay. Continuing, it will pass up the Vermillion Valley and great clay belt of the Algoma district to Lac Seul, and thence to Port Arthur, where it connects with the C.N.R. proper.

Taking the Ottawa Valley as its route, it will run in close proximity to the proposed Georgian Bay Canal at many points. At first it was believed the two highways would work in opposition to each other, but upon further consideration of the industries and utilities served by each, the C.N.R. decided that far from interfering with one another, they will be complementary, and both necessary to the full development of the district through which they pass.

The Canadian Northern Ontario Railway, although exploiting a new country, will make five crossings of other roads, and in every case overhead. The new line will leave Rideau Junction some six miles southwest from the point of entry into Ottawa, and will run directly west through the Village of Bell's Corners, through the rich and comparatively undeveloped country in March and Toronto Townships, unserved by any existing road, and cross the Ottawa at Fitzroy Harbor to the Quebec side of the river. By taking this route the company hope to encourage manufacturing establishments at the magnificent water-power at Chats Falls, such as have been promoted by inferior powers on the Mississippi at Carleton Place, Almonte and Galleeta, and on the Bonaventure at Renfrew.

At Portage du Fort the railway will again cross the Ottawa at the foot of its greatest individual drop of one hundred feet, which means not less than 150,000 horse-power.

It then enters on the Ontario side the Township of Ross and a little further on, Westmeath. The latter especially has a reputation as one of the best grain producing in Ontario, and its emporium, Beachburg, is prosperous in spite of its nine-mile haul to the C.P.R. at Cobden.

Crossing over to the Valley of Muskat River it enters Pembroke from the rear, the C.P.R. having taken up the whole waterfront. Twelve miles further it will pass Petawawa, and skirting the south edge of the military reserve plunge into the wilderness by the valley of the Petawawa. This is a singular depression lying almost parallel to the Ottawa for many miles. Unlike the valley of the latter, it is not a rock canyon, except for short distances, but expands into great basins at Grand Lake, Lac a Travers, Trout Lake, and Cedar Lake, with large areas of arable land.

On the river are several very fine water powers, infinitely larger than those that have built up the thriving towns of Bracebridge and Burk's Falls on the Grand Trunk. To the south and west lies practically all that is left of the pine of older Ontario. The road will pass through one of the most attractive portions of Algonquin Park, accessible at present only by canoe or over an extraordinary rough road of 24 miles from the C.P.R.

At Cedar Lake it leaves the main river and ascends a branch which drains Lake Cauchon, thence over a low divide to the collecting basin of the Amable du Fond, another river with a tremendous fall and great opportunity for power development. The railroad does not follow the river, but cuts across to the Wistwasing, where it again emerges from the wilderness to settled country, settlement which has pushed its way from Powassan on the Grand Trunk. The land for the next twenty miles is excellent, but most of it too far away from the railway at Powassan to be successfully cultivated.

5000, and the rivers are strong swift, and numerous. The next is the Apishkanogama, and the next Kapuskasing, having fine water-powers and a good growth of timber along its banks. This kind of country extends for some two hundred miles, in which distance the C.N.O. will cross the Missinabi, the Kakabekagami, the Morrison, the Kakabekagami, the Pughatchewan and the Kenogami, all strong and rapid rivers. It will also pass within thirty or forty miles of the great fall of the Pic, one of the finest water-powers in the country and quite comparable with the Kakabeka.

Rounding the north end of Long Lake it heads southwest for Lake Nipigon, and for thirty miles or more the country is most attractive.

The road along Orient Bay will be the most difficult for construction, and will necessitate the excavating of a tunnel 1,200 feet in length. The scenery for the next twenty miles is very fine, and the fishing probably the finest in the world on fresh water. The railway will follow a curious gorge extending from the end of Orient Bay, an ancient glacier bed half-filled with gravel and drift, past a number of small lakes and surmounting a low divide come out in the Township of Ledger, sloping towards Nipigon Bay. Ouimet and Dorion show some fine farms and thrifty farmers all clamoring for a means of getting their crops to market.

COMMITTEE PASSES IT.

Reciprocity Measure Sent on to the House. Washington, Feb. 13.—The Canadian reciprocity agreement was reported favorably, 12 to 7, to the House on Saturday by the committee on ways and means.

The committee adopted an amendment proposed by Mr. Mann of Illinois providing that wood produced in Canada may be brought into the United States free, and that products of wood, as specified in the bill, up to valuation of 4 cents a pound, may be brought in free.

The committee in its final vote to report the bill stood: For—Payne (New York), McCall (Mass.), Hill (Conn.), Boutwell (Ill.), Needham (Cal.), Longworth (Ohio), Republicans; Clark (Mo.), Underwood (Ila.), Fox (N.C.), Randall (Texas), Harrison (N.Y.), and Brantley (Ga.) Democrats—12.

Against—Dalsell (Penn.), Calderhead (Kans.), Fordney (Mich.), Gaines (W. Va.), Dwight (N.Y.), Ellis (Oregon); Republicans and Broussard (La.) Democrats—7. Acting Chairman McCall was authorized to make the report immediately and bring it up in the most feasible and expeditious way. It is probable that a rule will be reported from the rules committee limiting debate and preventing the adoption of amendments, although as a measure of the highest privilege a rule is unnecessary. The present expectation is that the bill will be considered by the House early next week. All reference to wood pulp and paper was first taken out of the McColl bill and combined in the following:

"Pulp of wood mechanically ground, pulp of wood chemically bleached or unbleached, news print paper and other paper and paper board manufactured from mechanical wood pulp or from chemical wood pulp or of which such pulp is the component material of chief value, colored in the pulp or not colored, and valued at no more than four cents per pound, not including printed or decorated wall paper, being the products of Canada, when imported therefrom directly into the United States, shall be admitted free of duty on the condition precedent that no export duty, export license fee or other export charge of any kind shall be levied on such products."

soever (whether in the form of additional charge or license fee or otherwise) or any prohibition or restriction in any way of the exportation (whether by law order, regulation, contractual relation, or otherwise directly or indirectly) shall have been imposed upon such paper, board, or wood pulp, or the wood pulp used in the manufacture of such paper or board." The committee's action upholds in its entirety the agreement negotiated with Canada, but changes the phraseology of the McColl bill, which was drafted as an administration measure to put that agreement into legislative shape.

Compact to Die Together.

Oxford, Me., Feb. 13.—In fulfilment of a compact alleged to have been made with her husband during his lingering illness, which death ended Saturday, Mrs. Linwood S. Keene, took her own life yesterday, after fatally shooting her 14-year-old son Gerard. The compact, dated about a month back, was found by the coroner in a sealed envelope in the woman's room.

Keene was formerly a prosperous farmer, but, according to the compact, the family had become impoverished and discouraged during his long sickness.

Husband and wife wished to be buried in a double casket, and asked that their son's coffin and theirs be placed in the same box for final interment. So it has been arranged, and the triple funeral will be held here on Wednesday.

Editor Renews Charge.

Paris, Feb. 13.—The Liberator made its appearance again yesterday. Editor E. H. James gives an eight-column review of the trial of Edward F. Mylius, The Liberator's London agent, for seditious libel. He also publishes anonymous letters averring that a Catholic priest performed the alleged morganatic marriage of King George.

South Ontario Liberals.

Whitby, Feb. 13.—The Liberals of South Ontario at the annual meeting Saturday afternoon elected officers and turned over to the executive committee the question of holding a convention to bring out a candidate for the Ontario Legislature. At a meeting afterwards the executive decided upon holding a nominating convention in the music hall here on the 15th Saturday in May.

A resolution supporting the reciprocity agreement with the United States was carried without an opposing vote; Fred L. Fowke, M.P. for this riding, in an extended speech gave an elaborate exposition of the agreement. Organizer Inwood addressed the meeting on provincial prospects.

PEOPLE'S PULPIT.

Sermon by
CHARLES T. RUSSELL
Pastor Brooklyn
Tabernacle.

Thousands of Demons Infest the Atmosphere

Bible Shows Their Origin and Their Pernicious Influence on Mankind.

"Giving heed to seducing spirits and doctrines of demons" (1 Timothy iv, 1). "Wicked spirits in high positions" (Ephesians vi, 12). "The heathen sacrifice to devils and not to God" (1 Corinthians x, 20).

Trenton, N.J., February 12.—Pastor Russell of Brooklyn Tabernacle preached here to-day in the Opera House on the "Hereafter," and subsequently on "Those angels which kept not their first estate" (Jude 6). Excellent attention was given at both services. We report the latter as follows:

The Bible's teaching that the earth's atmosphere is infested with evil spirits is now very generally disbelieved. As a result of the disbelief thousands of well-meaning people are being the more easily entrapped by these evil spirits. The blight is both physical and moral. The usual method of procedure is to arouse curiosity. While the quest for knowledge proceeds, an influence much like that of hypnotism affects the investigator, impelling him forward to further investigation. Sometimes the curiosity is attracted through the outer senses at spiritualistic seances, with ouija-boards, etc. At other times it is by spirit rappings. Again, it may be by whisperings in the ear, inaudible to others. At other times the messages come through transmediums.

In every instance these communications purport to come from dead human beings. This of itself gives to the communication a special charm to many. They feel honored in being sought out by the dead and in being able to communicate with them. They are curious for information respecting the hereafter. They forget that they have been taught from infancy that the holy dead are far off in heaven, and that the unholy dead are far off in torment.

How fully this is forgotten is shown by a letter which I received on the first day of this month from a Catholic lady. In it she tells how she first obtained clairvoyant powers—the gift of hearing what others could not hear. This, in turn, permitted her to communicate with the evil spirits, the fallen angels. These, representing themselves to her as inmates of purgatory, came to her for help. They solicited her prayers and were pressing to get her more and more under their control. Just in time she was rescued through reading my writings on the subject. Since then she has exercised her will and her prayers against having any fellowship whatever with these fallen angels. Gradually she is becoming more and more enlightened in the Truth of God's Word.

Not infrequently do these spirits personate the Heavenly Father and Christ, urge more prayer, accuse of sin, recommend the reading of the Scriptures, etc. This appears to be with a view to gaining the confidence, the relaxing of the will. Later on dishonorable suggestions are made. The Bible is scorned, prayer is laughed at. If, then, the subject takes fright and seeks to break the hypnotic chain, the evil spirits laugh at him, swear at him, and sometimes tell him that they will shortly have him fully in their power to roast him forever. If he attempts to pray, they intrude and interrupt and tell him that God would not hear him now, that he has gone too far, etc.

With some the matter goes so far that the human will is broken down completely and the spirits obsess them and use their bodies foolishly—sometimes viciously, sometimes insanely, until finally they are pronounced dangerous and committed to asylums. We do not claim that all the insane are obsessed of evil spirits, but so far as we can judge, nearly one-half the inmates of asylums are obsessed by demons who live in them while they are mastering their wills.

God, through His Word, has forewarned His people against these delusions. In permitting them, nevertheless, to fall into these traps, He is merely teaching a great lesson. The terrible results of disobedience, of neglect of God's Word, are not eternal.

The Divine arrangement is that, ultimately the entire human family shall be released from the bonds of sin and death, ignorance and superstition, and all have full opportunity for coming into full harmony with God. The present lesson will illustrate the necessity for searching the Scriptures and obeying God's voice therein.

St. Paul, in describing our day, declares one of its prominent signs to be that many will now give heed to these seducing spirits, whose teachings and practices lead away from God. St. Paul intimates also that by these misleading spirits many will come to hold doctrines of demons, or devilish doctrines. It is a sad commentary upon our wonderful day of enlightenment that the most enlightened people should hold the most awful doctrine respecting the hereafter.

A doctrine of demons it most surely is which tells of the dishonor of God's name, that nine hundred and ninety-nine out of every thousand of humanity are to be eternally tortured, either because of Divine incompetence to make better arrangements for them, or because God-willed and foreordained it so before creation. This doctrine of demons has enslaved many honorable people who would themselves scorn to make such a

plan of the ages as they attribute to God.

Thank God, the time is not far distant when these seducing spirits will be completely bound, restrained, and deceive humanity thus no more. But the deception has so long prevailed that poor humanity is thoroughly under its control. The falsehood leading up to all this error is Satan's first lie to our parents in Eden. There, contradicting the words of God, he said, "Ye shall not surely die." Ever since, for six thousand years, he has worked along this line, and all the fallen angels with him. His message is, "Ye shall not surely die." You do not surely die. When men seem to die, they become more alive than before they died.

On account of these errors, that dead men are alive, Satan and the fallen angels, contrary to the teachings of the Bible, have instilled into the whole world, nonsensical, heathen superstitions respecting heaven, purgatory and hell. The Catholics pray for those who go to Purgatory, to help them out. Protestants do not pray, believing that the saintly few go direct to heaven and all of the unsaintly go as directly to eternal torture.

If this great lie wherewith Satan first seduced Mother Eve and murdered our race could be fully eliminated from our minds and our creeds, it would mean a religious revolution to both Catholics and Protestants—back to the Bible and away from the domination and seduction of the lying spirits, the fallen angels, who personate humanity.

So far as we can learn from those who have once been spirit mediums, the trend of Spiritism is toward unchastity, impurity. And this agrees well with the Scriptural declaration relative to the sin through which these fallen angels first became reprobate.

St. Jude (6) and St. Peter (II, Peter ii, 4), tell us briefly of the fall of the angels—that "they left their own habitation and kept not their first estate." Both Apostles mention the circumstance in connection with human lasciviousness. The story of the fall of the angels is given us briefly in Genesis vi, 1-4. After man's fall into sin God permitted the holy angels to have communication with humanity. And because human eyes cannot see spirit beings, God permitted the angels to materialize. For instance, we note the case of the angels who visited Abraham on the plains of Mamre and for whom he prepared a veal dinner. We read that, materialized, these angels were like men, and taken by Abraham to be men, while they ate and talked with him. It was subsequently that Abraham learned that they were really heavenly visitants.

So it was with all the angels before the flood. They were permitted to materialize and to appear in every sense of the word as men. The record shows that the angels became lustful. We read, "The sons of God saw the daughters of men that they were fair and took unto themselves wives of such as they chose." The angels, with superior powers and superior knowledge to man's acted as the masters of men, who were practically obliged to do their bidding. The result is stated in few words. The children of this mesalliance, we are told, were giants as compared with the ordinary members of our race. And not only were they giants physically, but also intellectually—"They were men of renown." Poor humanity could not compete with this race. The result was that strife and contention and lustful, sinful practices abounded in all the earth, until God declared that every imagination of the thoughts of man's heart was only evil continually.

God had foreknown all this, and a canopy of waters, which then surrounded the earth, similar to Saturn's rings now, was held in readiness to cause a flood, that sinful men and the human offspring of the angels might be destroyed. Only Noah and his family were found worthy of preservation to be the new start of humanity this side of the flood. The declaration of the Scriptures respecting Noah's family is, "Now Noah was perfect in his generation." He was properly generated or born—so were his children. There was no strain or admixture of the angelic stock in that family. The plain information is that the remainder of humanity were so degraded by the seductions of those fallen angels that they were not fit to live. The entire race had become corrupt.

Of course, the fallen angels were not destroyed in the flood, for they not only had the power to materialize, but also the power to dematerialize. It was at that time, however, that all of the fallen angels were put under restraint—not permitted again to materialize, the limitation lasting "until the judgment of the great day."

Their restraints or chains are not physical, to confine them to a place in Tartarus—the earth's atmosphere. They may roam at will; but are chained, or restrained from materializing. The intimation of the Scripture seems to be that, with the ending of this Gospel Age, just prior to the inauguration of the New Dispensation, these evil spirits may be allowed to break their chains and manifest themselves as men, in connection with the great trouble time incidental to the change of Dispensation.

Separated from God and the holy angels, and unable to assume human

bodies, the sinful angels have probably had terrible experiences during the past forty-four hundred years. True happiness is not to be expected amongst those alienated from God. Anger, malice, hatred, strife, "works of the devil," the Apostle says, are not compatible with the love, joy and peace which belong alone to a condition of holiness. Under such circumstances we cannot wonder that these fallen angels would seek association with humanity. Being under the control of Satan as a chief or prince of devils, they have followed his course and propagated his original falsehood—"Ye shall not surely die." They have conjured to men's minds the hell of the heathen, the hell and Purgatory of the Catholics, and, worst of all, our Protestant misconception of awful and unending torture for all except the saintly few.

These doctrines of demons have increased the gulf between God and humanity and have made the Bible, the message of God's love, a book of terrors—not to be loved, merely to be endured or kept as a fetish to secure possibly a cooler place in purgatory. We may safely say that all the false doctrines of Christendom, represented in all of the creeds of the "Dark Ages," are doctrines of demons. Our minds became defiled—our hymn-books, our creeds, everything.

Thank God that the light of the New Dispensation is now bringing to us the beginning of blessing—release from some of our darkness. The seeing of the true wage of sin—that it is death and not eternal torment—is one of the most important features connected with our enlightenment. When we learn that the dead are really dead and, as the Bible declares, will not know anything until the resurrection, then we begin to see the beauty of God's Plan—the need of Christ's death; the need of His second coming; the need of His Kingdom; the need of a resurrection; the need of an opportunity for all mankind to come to a clear knowledge of the great Truth of redemption through the precious blood and the opportunity then, by God's grace, of attaining eternal life—either during this Gospel age, as New Creatures, spirit beings like unto the angels, or in the New Dispensation during the more general salvation of the world to human perfection in an earthly Paradise.

Our great Redeemer manifested his power by casting out demons from those who had become obsessed. And we read further that he commissioned his Apostles to heal all manner of disease and to cast out unclean spirits. We are told that they did this—and numerous instances, in illustration, are given us. One man was obsessed by a legion of these spirits. No wonder the poor fellow was crazy. But after they were cast out he was clothed and in his right mind and became a disciple (Luke viii, 26-36).

St. Paul and Silas had an experience with an obsessed young woman who practiced sooth-saying, fortune-telling, by the power of the evil spirit which obsessed her. As the evil spirits recognized Jesus and cried, "We know Thee, who Thou art, Jesus," so this spirit knew the Apostles and, through the young woman's lips, cried after them, "These be the servants of the Most High God, which show us the way to obtain eternal life" (Acts xvi, 16-18).

Neither Jesus nor the Apostles were willing to accept demon testimony and commanded the evil spirits to come out of their victims.

The Scriptures indicate that there will be a wonderful activity amongst the fallen angels in the close of this Gospel Age. The Master declared that the deceptions would be such that, if it were possible, the "very elect" would be deceived. But that will not be possible, because Divine providence stands engaged to protect the elect. The Ninety-First Psalm, which gives a picture of the closing of this Age and its sundry trials and tests, declares that God will give his messengers a charge concerning the feet members of the Body of Christ in all their ways—lest a foot should be dashed against a stone of stumbling (Psalm xci, 12).

As Satan and the fallen angels operate largely through the children of disobedience," so God and his holy messengers use not only the Scriptures, but God's children of obedience as mouthpieces, as helpers, as God's ambassadors in "building one another up in the most holy faith." Hence the time when "a thousand shall fall at thy side and ten thousand at thy right hand" will be also the time when these ensnaring and deceptive errors will "not come nigh them"—not come nigh the members of the Body of Christ, the elect.

If our understanding of the Scriptures be correct, we need not be surprised if the fallen angels may again seemingly gain a victory over the Divine restraints and materialize in broad daylight—personating not only the dead, but also at times personating the living. Spiritists and mediums are claiming such things as already beginning and likely to be accomplished on a grand scale shortly. Should it come it will inaugurate a terrible time of trouble such as has not been since the flood. God's people, while resting confidently and at ease under Divine supervision, should be on the alert to resist everything akin to Spiritism, Occultism, Hypnotism, and to warn their friends respecting these things.

Numerous scientific men are being entrapped by these lying spirits whose doings and powers they are investigating under the name of Psychic Phenomena.

Thank God we are nearing the time when Satan shall be bound and when every evil influence shall be restrained. Not only will there be a full cleansing from a physical obsession, but a still greater cleansing and freeing from the doctrines of demons.

A Record Egg.
A 1911 record has been established at Halton (Eng.) by a hen. A correspondent writes: "One of our fowls has laid an egg weighing 3.4 ounces, and measuring 3 inches long and 6 1/2 inches in girth."

BISHOP RYAN DEAD

Prelate Passes Away After Hard Struggle For Life.

HE HAD WORKED TOO HARD

Roman Catholic Archbishop of the Diocese of Philadelphia Was 77 Years of Age and Was Famous as a Leader in His Church—Will Have a Magnificent Funeral on Thursday Afternoon.

Philadelphia, Feb. 13.—The gallant struggle of Archbishop P. J. Ryan for life has failed. The venerable prelate of the Roman Catholic diocese of Philadelphia passed away at the archiepiscopal residence at 4.08 o'clock Saturday afternoon, after an illness that became serious nearly two weeks ago.

Weeping relatives and priests surrounded the bed when the famous church leader breathed his last. They had been hastily summoned when the patient's heart began to fail at 11 o'clock. The physicians knew that death was near and the last rites for the dying were administered.

In the words of one of the attending physicians, the aged prelate's heart had "practically worn out." An indefatigable worker, he never had spared himself, and the illness that prostrated him shortly after Christmas was the result of over-exertion. From the first his attendants recognized that the gravest danger lay in the probability of heart failure, and stimulants to keep that organ strong were almost constantly administered.

Had Archbishop Ryan lived until the 20th of this month he would have been 80 years old.

The funeral will be held on Thursday and it is expected to be attended by practically all the prominent clergy in the American hierarchy who can reach Philadelphia in time. The body will lie in state at the cathedral and will be entombed back of the altar of the great church, beside those of Bishop Egan, Bishop Conwell and Archbishop Wood, who were his predecessors in the diocese. This was his wish.

Until Archbishop Ryan's successor is appointed Rev. Prendergast, D.D., V.G., titular bishop of Scillio and auxiliary bishop of Philadelphia becomes administrator of the archdiocese.

Patrick John Ryan was born in Thurles, County Tipperary, Ireland, Feb. 20, 1834. His family was distinguished in Irish history, being descended from the O'Ryan, prince of Irdone. He came to America at the age of 21, and became a professor at Canonadelet Seminary.

When the failing health of Archbishop Kenrick demanded a coadjutor's assistance, Ryan was appointed to that position in 1872.

In January, 1884, he was appointed archbishop of Salamis, and on Aug. 18 of the same year archbishop of Philadelphia. He was formally installed Aug. 20, 1884.

Two Burned to Death.

Montreal, Feb. 13.—An overheated stovepipe caused a fire yesterday morning in the boarding-house kept by Joseph Phillips, aged 70, on Prince street, and Phillips, with one of his boarders, Michael McMahon, aged 47, lost their lives. John Quinlan, who had retired to rest fully dressed, was almost suffocated when he awoke to find the house in flames. The heat was so intense and the smoke so thick that Quinlan made a hurried escape through one of the windows on the stairway, and raised an alarm. Quinlan's face and hands were badly burned. When the brigade arrived the fire was quickly extinguished. Groping their way through the house, the firemen discovered the dead bodies of Phillips and McMahon, and also the body of Mrs. Phillips, aged 70, who was lying unconscious on the dining-room floor. She was taken to the General Hospital, where last night her condition was considered serious.

Roughly Handled.

Montreal, Feb. 13.—John H. Bobert, the secretary of the Dominion Alliance, had an exciting experience in the early hours of Sunday morning. While conducting a raid on a dance hall at the corner of Montcalm and St. Catherine streets, where liquor is alleged to have been sold, and city policemen in uniforms are said to have been seen drinking, Mr. Bobert and three private detectives, who were with him, were roughly handled. The liquor they had seized was taken from them, and in a row that ensued they were considerably outnumbered and handed some hard knocks. One of the private detectives received a cut from a flying bottle, another had a revolver taken from him, and Mr. Bobert was struck on the head two or three times. The names and addresses of those implicated in the affair have been taken, and complaints will be laid and warrants issued for their arrest.

English Colonel Suicides.

Porcupine, Feb. 13.—Col. Charles Salkeld, formerly of Yorkshire, Eng., and known all over the Northern Ontario mining camps as an English cavalry officer, killed himself on a street of Golden City yesterday morning.

Col. Salkeld was one of the most popular men in the northern district, and none of those here who knew him can assign any reason for his suicide. He has been in this county seven years, and has been engaged as a mining broker in Cobalt and later in Porcupine, owning a fine house in the former place at Crossed Lake.

The deceased was a member of one of the finest English families, and a colonel in the Imperial cavalry, being in his 53rd year. He leaves behind him a son, aged 21.

Albany Also Approves.

Albany, N.Y., Feb. 13.—The Canadian reciprocity agreement was approved in resolutions adopted by the directors of the Republican League of Clubs of the State of New York at their annual meeting here on Saturday.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of
Charles H. Fletcher
The Kind You Have Always Bought
In Use For Over 30 Years.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

AT THE GRAND

"THE FINAL SETTLEMENT" is hardly a suitable title for the play of that name, which will be presented at the Grand on Wednesday, Feb. 15th, for the reason that the piece is far above what the name would indicate. It isn't a story of border warfare, wild west gunplay, or even New York's shady life, but a good story of a condition of affairs known in all walks of life, the elevation of a man's millions over his honor, love and respect and the old, old story of an infatuation for the millions without the real feeling of devotion, just such a story as recently startled the country in New York high life, the story of a man elevated to his lofty position by an honest, plain and sincere woman whose place in his heart is taken by the flash of frills and feathers of an actress whose charms ensnare him in their meshes until "The Final Settlement" when as a wreck, without fortune or the position that was his he learns how empty is such glory after all. The play is as pretty a piece as has been dramatized for quite a while. One of the very best features of it is the thorough manner in which it is staged, all of the small details being carefully attended to, and it is a play which will attract bigger audiences every time it is produced, for while it holds to perhaps the harsher facts of real life, it nevertheless polishes them to a suitable degree and holds the attention of an audience completely absorbed until the end. The details are all arranged in a satisfactory way and the story doesn't go ahead of itself, the tale unfolding in an easy, natural way to make it better in each act until the close, when its real moral becomes apparent. It is a truly good story and it will be truly well told by the company.

Business Cards
