Another big sale of "Sunkist" oranges been picked; so rigidly were they inspected will begin Monday next, continuing till the close of the week.

These special sales, which are held from and wholesome as can be bought in Los time to time, are proving immensely popular.

Nearly everybody now knows the excellence of "Sunkist" oranges and they look forward with great interest to these announcements. If you and your people have never eaten "Sunkist" oranges, please try them. Until you do so, you can not imagine the delicious taste of fresh picked, treeripened oranges."

Special "Sunkist" Train

Two giant locomotives, pulling 48 refrigerator cars laden with freshpicked, tree-ripened oranges-the select crop of 5,000 groves will soon arrive from California. So carefully have these oranges

the choicest of each of five thousand California Orange Farmers, who produce 60% of the state's entire crop. They pack all their perfect oranges under the one name, "Sunkist," and ship them East by special fast freight. Every "Sunkist" orange is firm, solid

and sound. It is picked by a gloved hand. No orange that falls to the ground or becomes bruised or damaged in any other way, ever bears the "Sunkist" name.

Cheapest You Can Buy

"Sunkist" oranges are not only the finest flavored, freshest and most healthful of all ranges, but they are actually the least costly

you can buy. Being seedless, fibreless and thin-skinned, the percentage of waste is extremely small. The tender, luscious pulp comprises 98% of the orange.

So it means economy to buy "Sunkist" oranges.

Buy "Sunkist" by the box. You can obtain a box from your dealer. Because of their excellent condition "Sunkist" oranges keep better than others.

Many Ways to Serve Them

Oranges are the most appetizing and nourishing foods one can serve—at breakfast-in the sick-room-between mealsin salads, ices, sherbets and puddings.

K There is no limit to the number of excellent dishes of which "Sunkist" oranges form the basis.

Doctors Recommend Them

It is very unusual to find a food that people like and can safely eat as much of as they please. Leading physicians say that to counteract the meats and other heavy foods we eat, one should eat oranges liberally. It is a universally known fact that orange juice is an excellent food for the brain cells and a tonic for run-down nerves. No better laxative than sound, ripe oranges can be found.

Medicine Taken Internally Cannot Cure Eczema. It Is Caused by Germs

Eczema cannot be overcome by ordinary treatment and the oldfashioned way of dosing the system with drugs. Eczema is caused by parasitic germ that bores into the skin. It is generally a contagious disease. Until the parasite is completely destroyed and removed, eczema cannot be cured. Fully onethird of skin diseases are in the form of eczema.

I so thoroughly believe that Rexall Eczema Ointment will overcome eczema and allied skin ailments, that I unhesitatingly promise to promptly return the money paid me for it should it in any way be unsatisfactory to the user.

Because of its remarkable cleansing, antiseptic, germicidal, soothing and healing influence, Rexall Eczema Ointment has a very pronounced value in the treatment of skin diseases, especially where the mend it for the dry scaly form or the weeping type, where there is a constant flow of ill-smelling excre-

CHICAGO, Feb. II —A fresh low record for the season was made to-day in the price of wheat. Every option sold (heapprice of wheat. Every option sold cheaper than at any previous time for the crop. Closing figures were 1½c to 1½c to 1½c to 1½c under last night. In corn the outcome wasn net loss of ½c to ½c. Oats finished unchanged to a shade off and provisions at 7½c to 1½c advance. The wheat market had one sharp advance, due to news from Washington that the grain clause of the Boott Anti-Option Bill had been left out. Short selling on a big scale by a leading speculator proved especially disconcerting to believers in higher prices for the July delivery. Towards the end the market showed no recuperative power to speak of, and the final tone was decidedly nervous. Stratton and Warren of Trust Company, Lown, Ferguson, Fraser and Watson-Travers Declares That He Gave C. H. Smith \$1,800-Tells of His Visit to Hon. Mr.

Toronto, Feb. 18 .- Sensation followed sensation thek and fast in the hearing of the conspiracy charge against the provisional directors of the Farmers' Bank and others in the Police Court yesterday morning. Of the nine charged with conspiring to secure the certificate of the Treasury Board of Canada by fraud, six were present, three are absentees from this and other charges. Those who answered to their names and pleaded not guilty were J. R. Stratton, M.P., presi-dent, and J. J. Warren, manager of the Trusts & Guarantee Co.; John Ferguson, Alex. Fraser, A. S. Lown and John Watson, provisional directors. Those absent were Dr. Beattie Nesbitt, former president of the bank; W. J. Lindsay, stock seller in the organization, and C. H. Smith, secretary of the provisional board.

tary of the provisional board. Even the morning session, though largely taken up by the filing of ex-hibits, was filled with sensation towant the close. At the afternoon sitting, which opened at 3.15 and closed at 4.45, surprise after surprise was sprung until the senses were dulled against all but the most startling de-

velopments.
L. During this hearing, taken up with the examination of W. R. Travers, and which was not completed, Magis-trate Denison asked why the name of W. H. Hunter, solicitor, had not been included among those charged; it was promised that Travers' statements would be investigated and, if supported, the name would go with the others before the grand jury. Travers charged that William Laidlaw, K.C., had approached him to be appointed solicitor for thek and to receive a share of Travers' commission, for, which he would get his brother to take \$5,000 stock and go on the board of directors, failing which he would put the bank out of business.

Travers further declared that to baulk the investigation of the Bankers' Association's secretary, Jehn T. Knight, he had secured a deposit slig from the Trusts & Guarantee Co. for \$80,000, for which he had paid no money into the company, but had manipulated back a former loan (made to secure money to complete the deposit with the Finance Minister and which had been repaid), to stand as a deposit in order that he might present such deposit slips to Mr. Knight.

Mr. Hunter explained later, out of court, that this had been a purely legitimate transaction in the regular routine of business.

The morning session was taken up by the reading and filing of various books and documents by Inspector Duncan as exhibits in the case and with the bearing of the evidence of Secretary Knight.

The checks of the Trust Company making the loan to the bank were preduced and filed, and these were for \$80,000 and \$20,000, and were drawn in such a way that they could be used by the bank only for deposit with the Minister of Finance at Ottawa.

Travers, during his evidence, declared that he had paid \$1,800 to C. H. Smith, secretary for the provisional board in Ottawa as a compromise for the \$2,500 which Smith claimed as still due in addition to his salary under the agreement in which Travers had agreed to allow the provisional board and Smith \$20,000 for their ser-

Travers explained that while in Ottawa he had been introduced to W. S. Calvert, then Liberal whip. Mr. Calvert had gone with him to see Mr. Fielding, and in a 15-minute interview with the Finance Minister, had done all that he could to further the granting of the charter.

Travers was asked if Mr. Calvert had got anything for this. He said no. He was asked if anything had been promised. He said no. He was then asked if he had leant Mr. Calvert money and said that he had lenthim \$5,000 on his note, which had not been endorsed. This had been repaid. It was lent through the bank in the ordinary course of business.

One more information was laid by Inspector Duncan yesterday in cone nection with the Farmers' Bank. It charged W. S. Morden of the Trusts' & Guarantee Co., with Mr. Stratton and Mr. Warren, with hypothecating the bank's notes (currency), contrary to the provisions of the Bank Act. This was in July, 1910, and the amount was \$50,000.

It was said at the close of the hearing that W. S. Fielding, Dominion Minister of Finance, would be subpoensed to tell just what persons had intervened with him to secure the granting of the certificate to the bank and just what had been the nature of the intervention.

City to Buy Bridge.

Kingston, Feb. 18.-There is a movement for the city to purchase Cataraqui bridge for \$14,850 and be in a position to eventually deal with the Dominion Government. At present the city holds \$20,000 stock in the bridge, the value of which is placed at \$49,-700. There is an annual grant of \$1,400 from the Dominion Government. If a new bridge is not erected for some years the tolls collected would more than keep the bridge in repair.

South Africa cabled Jan. 20, suggesting the consideration of replacing the trade preferences by contributions to the Imperial naval and local defence, but these suggestions were withdrawn on Feb. 10.

After Cocaine Dealers.
Montreal, Feb. 18.—For three months John Foley, cocaine vendor, has led Constables Daoust and Martin a merry chase through the red light district, but they caught him Thursday night with the drug on him and he was yesterdey morning fined \$25 or ninety days. Since July last, Constables Daoust and Martin, aided latterly by Constable Marsolais, have arrested 155 cocaine vendors. Of these cases 125 appeared in the recorder's court, convictions being obtained in every case, some times on double charges. Over \$300 worth of the drug has during this period been seized and analyzed.

The desire of the Government was to make Quebec the centre of the pulp and paper industry of the world. If the choice lay between Quebec and Ottawa, the interests of Quebec would certainly receive first consideration.

Clue In Lobinski Case.

Berfin, Feb. 18 .- What may prove to be a clue in the Lobinski murder case has been brought to light here in the discovery of a blood-stained coat. The garment was brought to a local cleaning and pressing establishment Thursday to be cleaned, and when one of the employes went to work on it he found spots of blood. Detective Boyd and Constable Huber are satisfied the stains are those of human blood, and the detective says that they may lead to important discoveries in the case.

To Jail In His Auto.

Toronto, Feb. 18 .- "Jake" Saunders did not need a patrol to take him to the jail to serve his sentence of ten days' hard labor, imposed on him yesterday morning by Magistrate Denison, but instead scooted off in his big new touring car. He was arrested on a charge of keeping a common gaming house, and, as he is known all over the city as a sportsman with plenty of the necessary, the magistrate did not give him the option of paying a fine, knowing that he would gladly do so and escape punishment.

A Sensational Attack.

Winnipeg, Peb. 18 .- A sensation was furnished in the Legislature yesterday by W. Molloy Laverandle, who charged Conservatives with having tried to steal every seat in the province, and declared that a conspiracy to tamper with the ballot boxes in his constituency was frustrated. The Operators Declare That Their Petition For An Increase In Salary Was Answered by the Dismissal of All Who Would Not Sign a Statement That They Were Pleased With Present Conditions.

Toronto, Feb. 18 .- For the third time in seven years is the Great Northwestern Telegraph Co. threatened with a strike of its operators. From the present temper of the men and the uncompromising attitude assumed by the company, there seems little doubt but that the trouble will at least reach the point of an appeal for the ar pointment of a board of conciliation under the provisions of the Lem-

In emational President S. J. Konenkamp of the Commercial Telegraphers' Union of America, arrived in the city from Chicago yesterday evening. to take charge of the situation. While there was no question, he said of union recognition in the dispute, the union would render the committee appointed by the men every support possible in their fight for a reasonable salary schedule.

While the trouble has come to a head in Toronto, three dismissals following the presentation of a new schedult, he pointed out that the entire staff of operators, from Winnipeg to the Atlantic coast, would be affected by any action that might be taken. Twenty-five men have been discharged by the Great Northwestern Telegraph Co. since Jan. 1 as a result of a campaign among the telegraphers of that company which had for its purpose higher wages. Telegraphers' wages have not generally kept pace with the times and the minimum salary remains at \$25 per month, with a

maximum of \$70 with the G.N.W., the same as ten years ago, despite the sought to obtain relief first by petitions and finally by organizing. A new schedule of wages, asking for a minimum salary of \$30 per month, was presented to the management on Feb. 2 by a committee holding authority from the great majority of the em-ployes, and the committee asked for a conference. The company replied by first discharging the committee and

then dismissing eight of those who refused to sign a paper which stated that they were satisfic with present conditions and that the committee was not authorized to act. This happened on Wednesday. Despite the dismissal of some of those who refused to sign the paper, it is understood only 20 of the 60 telegraphers employ d in the Toronto office

signed. Some of those who did sign were promised an increase of \$5 per month, to take effect April I. Approximately twenty-five employes have been dismissed so far, and it is reported that others will follow as rapidly as men can be obtained from the United States to fill their places.

President Konenkamp said that a conference of the general committee, representing all the G.N.W. employes. would be held within the next few days, and that until this took place he did not feel competent to discuss the matter at length. He pointed out, however, that all the committee had dene was to submit a proposition on behalf of the employes and ask for a conference. It was inconceivable, he said, that men should be dismissed for such a cause. The schedule presented by the men had been approved by him in accordance with the laws of the union.

Conspiracy of Silence.

London, Feb. 18 -(C.A.P. Cable.)-The Standard says: "The conspiracy of silence on the part of the American press cannot prevent the Canadian people from discovering what is being said and done on the other side of the frontier. Annexation sentiment may be dormant, but it has never been quite extinguished. The mere prospect of union with Canada fills ardent Republican Chauvinists with exultation which they are unable to repress. The President is naturally not anxious to frighten Canadians too soon, otherwise the agreement may be rejected. It is easy enough for Canadians to get into reciprocity, but getting out is different."

The Daily Express says that reciprocity leads to annexation. Canada seemed to have been lulled by Laurier into an utterly false sense of security. These delusions had been dissipated through Champ Clark's words.

Keep Plague Out of English Ports. London, Feb. 18.-Despatches from St. Petersburg saying that the bubonic plague has invaded Europe and caused thirty deaths in the Russian province of Astrakhan, resulted yesterday in steps being taken for the inauguration of a campaign to protect English ports from the plague. Discussion Arises In House Over the Grant For Festival of Empire Which Opposition Members Say Is Too Large - They Alse Demand the Expenditure of More Funds on Agriculture In the Deminion.

Ottawa, Feb. 18.-In committee of supply on an item of \$100,000 for exhibitions yesterday, Hon. Sidney Fisher explained that it was for an expenditure incurred during the present year in connection with the exhibit Canada will have in the Crystal Palace grounds, London, as an adjunct of the festival of the Empire, which will be a feature of the coronation celebration. The exhibit will be in a building which will be a reproduction on a small scale of the Canadian Parliament Buildings, and another vote of over \$150,000 will be required to cover the total expense which will

be incurred. Then there was some criticism of the nature of the proposed expenditure, during the course of which the Minister explained that Canada's only contribution to the pageant of nasterling for rental of space in the

grounds for the Canadian building.

Mr. Fisher explained that all the other countries which make up the British Empire would be well represented with exhibits, and that the Government would not be doing its duty if Canada did not make her us-

ual good showing. Glen Campbell (Dauphin) introduced a criticism of Wm. Hutchinson. after investigation, it was found out the company was endeavoring to get legislation to develop power south of the boundary line, independently of the Canadian Government. The bill omitted any provision for the consent of Canada, but expressly stated that the company could construct and operate.

Martin Burrell (Yale-Cariboo) read telegram from the ratepayers of Coldstream and Vernon, B.C., deploring the reciprocity agreement, and deciaring that there can be no difference of opinion, but that if there is to be protection, there should be pro-tection all round. They believe that it is more necessary to protect the fruit-growing than manufactures, and that there is no justice in sacrificing an infant industry and protecting a full grown industry.

Bennett Gets His.

Washington, Peb. 18.-The fame of William S. Bennett, as the man who would annex Canada to the United States at once by resolution, went up like a rocket and came down like a stick. Solemnly introduced in the Congress Thursday, the resolution to commence negotiations with Great Britain to this end met an untimely and undignified end in the committee of foreign affairs yesterday morning, and there was none save Mr. Bennett to do it honor. When it emerged from nowhere Thursday it at once took a place in international politics, and the friends of reciprocity felt that it could only arouse unnecessary prejudice and prevent a rational consideration of the bill upon its merits. I: was, therefore, thought desirable that there should be an immediate decision to place the resolu-

Sir Alan Aylesworth has aligned himself on the floor of the House with those who favor good spelling . To belong to this party it is necessary for a man to declare in public his intention of spelling as well and as consistently as circumstances will permit. Not for him the cowardly subterfuge of illegibility or the make-shift expedient of blam ing the stenographer. When the Colborne 6.15 " spelling purist is confronted with the problem of whether it is ie or ei in counterfeit he takes his chance gallantly and fails, it fail he must, with the air of one who, at any rate, has done his duty. The fundamental principle of the purists is that under no circumstances is it permissable to dispense with any of the letters which have in the course of time, associated themselves with the spelling though not with the pronounciation of words in every day use. To retain the "u" in valour, labour and other words of this ilk is nothing less than a point of honour, while to sit silent while "thorough" is spelled "thoro" would be infamy unspeakable. In fact the enthusiasm for pure spelling is one of the most beautiful as well as one of the most harmless enthusiasms on the market. Its indulgence can do no harm to either man or beast and the English language offers a wide scope for its activity. To a certain extent, it is a check to the development of brutal utilitarianism and there hangs about it an air of impracticability which is delicious and refreshing. If Sir Alan can only persuade his colleagues in the House to begin studying good spelling, it is quite within the possibilities that they may ultimately take a sufficient interest in good manners as to prevent such incidents as usually attend Mr. Carvel's attempts to expediate the transaction of public business before the Public Accounts Committee. Even Mr. Carvel may be a good speller.
