Brilliant Display a Remarkable Feature of Skies Saturday Night

The aurora borealis, one of nature's grandest phenomena, was to be seen from the town on Saturday night between eleven and midnight, when it showed up more brilliantly than it has for, some years. This phenomenon is supposed to have given warning of the heat wave which struck the town over the week end. catch fish. Could I have bought the same article elsewhere for less?

Won't some other make prove more satisfactory?

Isn't there some other product that will suit me better?

UNLESS you can say "No" to these questions, about every purchase you make, there's a good chance that you are not getting the most for your money.

To get the most from every dollar of the family income -for food, clothing, furnishings and the rest-you must know what you want before you go to buy.

Read advertisements. They will keep you from throwing away your pennies-and your dollars. They will help you to live better and dress better at less cost.

#### HOW DREAMS MATERIALIZE

It is our desire at certain times of the year to get away from the din of city traffic, and out to where the slightest noise would be instant ly noticeable. We often think of be ing aboard a steamer out in mid ocean, where time hangs peacefully upon your hands, and the worries of life have fled. We dream of these things, yet little do we realize that these dreams can come true if we but pause for one moment to think What of inland waters? We only think of them as being fit for anglers and those who delight in ennoe ing.' But of steamers with broad white decks, where we can sit or some quiet corner and give out selves up to dreamy thought. Do we ever think of such possibilities? They do exist and think of it, for two whole days on an ocean of your own, embarking at Port McNicholl sweeping out . across Lake Huron through the greent Soo canal, and out over Lake Superior, the greater body of fresh water in the world, Your dreams, therefore, can materialize, and more so if you call upon the Canadian Pacific Railway, obtaining all information regarding this wonderful trip, and finally ask ing them for reservations. Messrs. Thos. Long & Son, Town Agents, is hoped to repeat the conference Port Hope, Ont. .

Woman unable to "speak up" in her evidence at the' London Sessions: "I lost my teeth in the flood."

Magistrate at Wellesden: "Your husband is the defendant. Where is he?" Woman: "I don't know, sir he died some years ago."

Solicitor, at Bow County Court: "My client objects to pay 50s for extra nourishment for a cut foot."

Stratford man of a woman: 'There is nothing abnormal about her language-for the district."

The Alpine Club of Canada will hold its 23rd annual camp July 17-31 at the Lake of the Hanging Glaclere in the Purcell Range of the Rockies. Banff will be the raffhead for the camp which is five heads motor journey farther on. Eloven peaks all above ten, and some exceeding eleven thousand foct in height, will be at the climbing disposal of the campers. There are also many others between nine and ten thousand foet high.

East makes its annual bow to West with the University of Mont-real trip across Canada to the Pacifie and back, starting from Montreal July 7. Many prominent French-Canadians make this annual trip which is sponsored by the University and run on Cauadian Pacific trains, motor facilities and Great Lakes steamships. All the major cities of the West and the beauty spots of the Rockies are covered in this popular tour.

Younger railwaymen in the employ of the great Canadian transportation companies held their first annual conference at Montreal recently under Y. M. C.
