Some of the passengers got off early this morning and came to the city. The rest were brought up by RAN UPON ROCKS the Aletha shortly before noon and taken to the Grand Trunk station and sent to Cobourg whence they will be taken by boat to Charlotte. They got such a scare as they will not soon forget. This mishap has caused them a great deal of incon-venience, which they will not care

to have repeated.

HATS, BOOTS

It was stated on good authority that the company discharged the

crew of the Caspian this morning. Mr. E. E. Horsey, 'general manager of the steamship company was sent for. He arrived here this Tuesday night. To-day she is high and fast. She was due here at 11.35 p. m. With such force did morning and was taken to the wrecked vessel by a local boatman. The steamer was found to be in auditors. bad shape. Some say the damage may amount to five or six thousand dollars.

One mariner says that if the water is allowed to get into the hold, the vessel may never be released or that the weight would be treasurer. sufficient to break it in two. Meeting

At noon the Parthia of the Donnelly wrecking outfit of Kingston arrived and began operations. Pumps and syphons are busy at

MEETING OF THE HOSPITAL TRUST

How the vessel got where it is is Officers and Trustees Elected not known for the night was clear, -By-laws Approved and two men were at the helm and the Confirmed Captain was near by. It appears the vessel was between 75 and 100 feet north of her course. She had run about 50 feet inside of the buoy.

A meeting of the Port Hope Hospital Trust was held at the Town Hall on July 13th, with a

large attendance present.

Moved by Mr. Burton, seconded by Mr. Hume, that the annual meeting of the Directors shall be held on the third Thursday of June

size of lot approximately four actes, building to face to the south.

Moved by Mr. Thurber, seconded by Mr. Thurber, seconded by Mr. Burton, that this meeting adjourn until the next regular in each year.

Moved by Mr. Burton, seconded by Mr. Galbraith, that the by-laws as read by the Solicitor be approved and confirmed.

Moved by Col. Ward, seconded by Mr. Barlow Cumberland, that Mr. Burton and Mr. Schwartz he appointed scrutineers for the election of Trustees of the Port Hope Hospital Trust.

The election then took place and there were fifteen ballots cast, re-

monthly meeting on August 13th.

BRITISH AND AMERI-CAN JUSTICE.

The contrast between British and American justice is strikingly shown in the punishment of homicides, says the Ottawa Journal. England prides herself on her judicial despatch in even the gravest cases. The Crippen trial, watched by the whole world, was an instance, lasting but four days,

and speedily followed by execution. American journals do not disguise their admiration of the British system. Combining the principle that until guilt be established a man is held innocent with rigorous impartiality and the stern execution of the decreed penalties seems to produce a system as near to ab-solute justice as human law can attain. In England a homicide rarely goes unpunished. The murderer stands no chance of escape by fine-spun theoreus "brain storm and "mania Americana" creations

The most glaring example of the laxity of American justice is furnished. The last murdered hanged there paid the penalty to society on October 22, 1909. Since then there have been 548 homicides in Chicago, of which 223 were straight indisputable murders. And not one of that gory-handed throng of 223 has been adequately dealt with

lending colour to the charges of political prejudice or of that open mind which accompanies the open

Thurber, Chas. Mann. hand, yet disinterested observers claim that the standard of the judiciary has considerably improved. What has not risen is the public opinion of the heinousness of mur-der. Any black-hearted slayer, so long as he has the funds, or the friends, to retain clever lawyer can stimulate a maudlin sentiment in favour of his release, or, at least a light imprisonment. The mollycoddle temper which indiscriminately signs petitions for clemency regardless of equity is akin to anarchy, for its spread would mean that the structure of law collapse like a house of cards.

Canada has fortunately kept far nearer to Great Britain than to her southern neighbour in criminal procedure and penalties. But signs not lacking that the same tendencies are at work here as have made a farce of the punishment of American homicides. . A mawkish sentimentality engineered for the benefit of criminals, especially mur-derers is the grossest injustice against society at large. In her unprecedented criminal record of recent years the United States is reaping the whirlwind sown by her own hands.

BOWLING.

Four rinks of Cobourg bowlers played an exhibition game here last evening and were defeated by six shots. Skip Aldrich was up six, Skip Gillies up four, Skip Mac-Laren played a tie game and Skip Rosevear was down four.

A MISTAKE. - In our article on the C. N. R. station on Thursday we referred to the artistic appearance of the station, being built of dressed stone and pressed brick. This was an error. The brick used was manufactured by Mr. Walter Crowhurst, of this town.

A TROUBLESOME MISGIVING

Continued from vesterday.

hope? The railway journey, I'm afraid.'

'Yes, the journey. She has a slight hoarseness, but I think we shall prevent it from'-

Their eyes kept meeting, and with more steadfastness. They were conscious of mutual scrutiny and, on both sides, of changes since they last met. When two

people have devoted intense study to each others features, a three months' absence not only revives the old impressions but subjects them to sudden modification which engrosses thought and feeling. Sidwell continued to utter commonplaces, simple as a means of disguising the thoughts that occupied her; she was saying to herself that Peak's face had a purer outline than she had believed, and that his eyes had gained in expressiveness. In the same way God-win said and replied he knew not what, just to give himself time to has not been all work, I hope?' observe and enjoy the something new—the increased animation or subtler facial movements—which struck him as often as he looked at his companion. Each wondered what the other had been doing whether the time had seemed long or short.

'I hope you have kept well?' Sidwell asked. Godwin hastened to respond

with civil inquiries.

I was very glad to hear from Mr. Warricombe a few days ago,' he continued. Sidwell was not aware that her father had written but her pleased smile seemed to of a bumpkin. signify the contrary.

arranging her hair have something to do with it. But no, she looks younger in herself. She must have been enjoying the pleasures of

'You have been constantly occupied, no doubt, he added aloud, feeling at the same time that this was a clumsy expression of what he meant. Though he had

unbuttoned his overcoat, and seat ed himself as easily as he could, the absurd tall hat which he held embarrassed him; to deposit it on the floor demanded an effort of which he was yet incapable.

'I have seen many things and heard much talk,' Sidwell was replying in a gay tone. It irritated him; he would have preferred her to speak with more of the old pensiveness. Yet perhaps she was glad simply because she found herself again talking with him?'
'And you?' she went on.

'Oh no! I have had many pleasant intervals.'

This was in imitation of her vivacity. He felt the words and the manner to be ridiculons, but could not restrain himself. Every moment increased his uneasiness; the hat weighed in his hands like a lump of lead, and he was con-vinced that he had never looked so clownish. Did her smile signify criticism of his attitude?

With a decision which came he knew not how, he let his hat drop to the floor and pushed it aside. There, that was better; he felt less

Sidwell glanced at the glossy 'She looks younger,' Peak said in his mind. 'Perhaps that London dress and the new way of gravely:

'Have you been in Exeter all the

mocked at himself for calculating

He smiled bitterly.

'I have never known much of them,-and you remember that I look forward to a life in which they will have little part. Such a life,' he continued after a pause, 'seem to you unendurably dull? I noticed that, when I apoke of it be-

'You misunderstood me.' She said it so undecidedly that he gazed at her with puzzled look. Her eyes fell.

'But you like society?'

'If you use the word in its narrowest meaning,' she answered, 'then I not only dislike society, but

She had raised her eyebrows, and was looking coldly at him. Did she mean to rebuke him for the tone he had adopted? Indeed, he seemed to himself presumptuous. But if they were still on terms such as these, was it not better to know it, even at the cost of humiliation? One moment he believed that he could read Sidwell's thoughts, and that they were wholly favourable to him; at another he felt absolutely ignorant of all that was passing in her, and disposed to interpret her face as that of a conventional women who had never regarded him as on her own social plane.

Salt In the Spectrum.

The extreme delicacy of the spectrum test is illustrated by the fact stated by Lommel, that the three-millionth part of a milligram of a salt of sodium, an imperceptible particle of dust to the naked eye, is yet capable of coloring the flame of a candle yellow and of giving the yellow lines of sodium in the spectroscope. Indeed, sodium in the form of a common salt (sodium chloride) is so universally (sodium chloride) is so universally present as an impalpable dust floating in the air that it is next to impossible to get a spectrum which does not show the sodium lines.

MARKET REPORTS.

Liverpool and Chicago Wheat Futures Close Lower-Live Stock-Latest Quotations.

CHICAGO, July 14.—Fear of forced liquidation thru the calling of loans by banks had considerable effect today in causing wheat prices to smash. Record-breaking deliveries of new wheat from the farms put trade facilities under a heavy strain. At one time the market showed a fall of more than three cents for the July option. Taking the list as a whole, latest figures, however, were at a net decline of 1 5-8c to 2 1-2c. On the other hand, corn finished with a gain of 1-8c to 3-4c and oats up 1-8c to 1-2c. The outcome for hog products was a loss of 2 1-2c to 15c.

I 1-20 to 15c.

The Liverpool market closed to-day ¼d lower than yesterday on wheat, and ¼d kwer on corn. Berlin closed unchanged for wheat, Buda Pest 1½c lower, Antwerp unchanged.

Montreal Grain and Produce.

Montreal, July H.—The foreign demand for Manitoba spring wheat was fair at the decline in prices in the Winnipeg market. Bids were in line and sales of 100,000 bushels were made. The demand for oats continues good, but as foreign buyers have not responded to the recent advance here bids are still out of line. The local market is firm and holders as a rule are very strong in their views as to the future course of prices. A good business continues to be done in spring wheat flour for export account and a fair trade on spot.

Oats, Canadian western, No. 2, 12%c to 13c, car lots ex store; extra No. 1 feed, the to 41%c; No. 3 C.W., 41%c to 43c, Flour, Manitoba spring wheat patents, firsts, E.30; seconds, H.80; whiter wheat patents, H.80 to H.75; strong bakers', H.80; to 10 H.75; bid bayer of 90 Hs., EL5. ESTIMATES TOO BIG

Hon, Frank Cochrane Deprecates Wild Rumors.

SUFFERERS ARE CARED FOR

Minister of Lands and Mines Says the Survivors of the Disaster In the North Have All They Need Except Utensils -- North Bay Estimate of Loss of Life Persists In Calling It Five Hundred.

Toronto, July 15 .- Reassuring reports came to the Parliament Buildings and offices of the T. & N. O. yesterday regarding the loss of life

in the Porcupine fire. Hon. Frank Cochrane, Minister of Lands, Forests and Mines, who has shared with Mr. Englehart a large part of the anxiety and responsibility of controlling the situation the last few days, was rather severe in his of what he termed exaggerated reports of the casualties.

"While we don't want to minimize this terrible affair, reports coming in are grossly exaggerated. Our Mr. Clements, chief engineer of the T. & N. O. Railway, says that only 52 pec ple have been accounted for as dead. We have it directly from the Dome people themselves that their death list is nine only. In a number of in-stances where bodies have been reported as lying on the ground, inves-tigation by Mr. Clements has failed to find anybody who had seen any. Wild rumors are caught up and they are spread to an incredible extent. We want to check these wild rumors, and feel from the reports we receive and the questions asked that people are unnecessarily alarmed. What the people want is cooking utensils. There is plenty of provisions on the way the present.

Subsequently Mr. Cochrane deplored the effect of these reports on re-latives and friends of those in Porcupine. The loss of life was bad enough without stampeding the people into alarm. It was much better to comfort the people and inspire confi-dence than to excite the feelings of those already on the verge of panic. "The fact is," added Mr. Cochrane, "every person who wanted to come out of Porcupine could come. Two cars on the train which left Thursday were unoccupied. There is no real suffering. They have food, tents and covering against the weather. Everybody from Cochrane, Porcupine, Matheson and other affected districts could come out on the railway without expense, but many refused and pre-

erred to remain."

Another point cleared up at the Department of Lands yesterday was that the fire which destroyed Cochrane was not the same fire that devasted Porcupine. The Porcupine fire was confined to Whitney and Tisdale Townships. There have also been fires in other sections of the country. The trains from the northern country have now brought from the fireswept districts nearly one hundred persons. Every train from North Bay has from one to fifteen people whose stories of escape thrill with human

hen the truth of the big fire is known the wonderful self-sacrifice and heroism displayed by many of the men who undertook to save the women and children first will be equalled by that shown by the women themselves. Returned sufferers state that the women as a rule were cool and self-collected, and that many heroic deeds were performed in the course of what they took to be the call of duty and self-sacrifice.

as of the north or the wide area destroyed by the numerous bodies of water into which men have plunged, the flames and the number of prospectors, miners and laborers scattered in all directions, makes the task of listing the dead an impossible one, say refugees, who shudder as they tell of the dangers through which they have passed.

"There are bodies lying at the bot-

tom of Porcupine Lake, which no one knows of," said E. R. Henderson, proprietor of the Lyric Theatre, at Golden City, last evening on his arrival in Toronto. Both Mr. Henderson and a friend

Mr. Whittam, were of the opinion that at least one hundred people had per-ished in Porcupine Lake alone. They said at least 60 went down in full view of their own eyes. It appeared that the fire had been

raging near South Porcupine and Pottsville on Sunday and Monday the wind rose and without a moment's notice carried the sparks from the wood to the rear of South Porcupine over to the waterfront, setting the buildings there on fire. The inhabitants in less there for a minute, were tants, in less than five minutes, were

hemmed in by fire on all sides.
Messrs. Henderson and Whittam said the damage to the mines is very slight, in fact the clearing away of the trees makes the work of prospecting very much easier, and the works of mining will also be made lighter. Orders have already been placed

for mining machinery and other sup-plies. The work will not be dorment for more than a few weeks at the most and will then go on with greater activity than ever.

One Estimate Gives 500.

North Bay, July 15.-Refugees are pouring out of the north country and all gave cries of suffering and death along the trails and roads. The estimate of dead now reaches over five hundred and may be more. One prospector tells a story of seeking refuge in a mud hole, where a black bear snuggled up beside him until the fire passed over. It is hard to say which was most frightened, the man or bear, but bruin skedaddled in the bush after the fire passed and the prospector got out to the steel.

Jack Thurlow, prospector of North Bay, is reported missing. He is a married man.

George Connolly is dead. At the Big Dome an Italian woman who was about to be confined was in serious danger, but was cared for and gave birth to the child after the werst was over.

Reports coming in from Night Hank Lake indicate great loss of life.

Dr. McLean, a graduate of Toronto

University, reported dead, is all right. At the Dome the scene was terrible. When the shaft house succumbed to flames, the air was shut off in the shaft, and Mrs. Burd managed to reached the surface, but fell back to her death, exhausted. She must have had a hard fight as the cage was not in operation and the woman must have crawled from timber to timber only to see the daylight and fall back dead in the shaft.

Reports are coming in of fires along the line of C.P.R. and other railroads. Sellwood is wiped out, with great loss but no casualties as far as known. Fires are burning around Lake Nipissing, but conditions are good to save lives and property.

VOTE ON PACT.

U. S. Senate Will Ballot on Measure on July 22.

Washington, July 15 .- The Senate will vote on the Canadian reciprocity bill July 22, on the wool tariff revision bill, July 27, on the free list bill August 1, Congressional reappor-tionment bill Aug. 3, Statehood bill for Arizona and New Mexico on the legislative day of Aug. 7 and will adjourn, according to general under-standing, quickly thereafter. This voting program, decided upon after prolonged conference yesterday, and resulting from conference that have covered many days, was agreed to by the Senate.

The agreement is now specific regarding adjournment, but it is under-stood generally that adjournment will follow immediately the disposition of the statehood bill. All the measures mentioned have passed the House. President Taft was quickly acquainted with the Senate's action and expressed his gratification, particularly over the precedence given to the re-

iprocity bill in the program.

The understanding forecasts the end ciprocity of a long struggle in the Senate over the reciprecity and the Democratic tariff measures. The final votes will not be taken on the bills named until the dates fixed, but amendments can

be disposed of from time to time.

The Bristow amendment to the Canadian reciprocity bill, proposing a reduction of the sugar tariff and the abolishment of the "duties standard" basis of assessing tariff on imported sugar, was defeated yesterday after-noon 38 to 8, after Senator Bristow had made an exhaustive speech on the subject. Senators Bourne, Bristow, Brown, Cummins, Clapp, Dixon, Gronna and Nelson voted in support

Doukhobors Block Census.

Nelson, B.C., July 15 .- More than one thousand Doukhobors, members of a colony at Brilliant, on the lower Arrow Lake, have rebelled against the census taking, absolutely refusing to be counted. Sherbining, the leader of the colony, has done everything in his power to persuade the colonists to submit, and they have been threatened with arrest without avail.

The census commissioner has telegraphed to the Minister of Agriculture at Ottawa asking for instructions. From previous experience, the police and census men here believe that the instructions will be to arrest all men who refuse to give the data required and preparations are being made to send a strong force of officers to the colony to enforce the law.

Found Bodies In the Niagara.

Niagara Falls, Ont., July 15 .- The body of an unidentified man was taken from the river below the falls by the Maid of the Mist at six o'clock last night. The body, which had apparent-ly been in the water for some time. was that of a young man with red hair, partially clothed in brown trousers, light brown underwear, and low black shoes. Nothing that would aid in identification was found on the

The body of eight-year-old Daniel Fill, who disappeared from his North Tonawanda home Tuesday, was found in the river above the falls late yes-terday afternoon. It was recovered by power house workmen.

Half a Million For Equipment. Ottawa, July 15.—Contracts have been awarded by the Railway Department amounting to half a million dollars for new equipment for the Inter-

The Canadian Locomotive Works has been awarded the contract for five locomotives, costing \$114,000; the Canadian Car Co. for 230 steel-framed box cars, 20 steel platform cars, 25 dumn. dump cars, 2 baggage cars and a refrigerator car, totalling \$334,790; and the Nova Scotia Car Co., 100 freight cars, two postal and two stock cars, for \$112,000. It is understood that the Dominion Steel Co. has put in the lowest tender for steel rails

"Go North, Young Man."

New York, July 15.-Interviewed on his return from a three-months' trip o Europe and the coronation, John Wanamaker said regarding reciprocity the English people seemed to favor the idea in the abstract, but that they had many differences of opinion as to the articles of agreement. Mr. Wana-maker held a pamphlet on Canada in

his hand, and pointing to it, said: "Canada is a great country. It is a longer any need for our young men to go west. They should go north and settle in the country of the fu-

Would Force Dr. Wiley Out.

Washington, D.C., July 15.—Dr. Harvey W. Wiley, chief of the Bureau of Chemistry, who for twenty years has been leading the fight against adulteration of foods, is charged with having violated the law in the payment of a salary to Dr. H. H. Rusby of Columbia University, as an expert. The committee on personnel of the Department of Agriculture has recommended that Wiley be permitted to resign, but he won't.

the pure food law have been long on

PACT IS RENEWED

Britain and Japan Enter Into Alliance For Six Years.

A CHANGE IN AGREEMENT

The United States by Reason of the Arbitration Treaty Is Excluded From the List of Great Britain's Possible Enemies, According to Text of Treaty Signed Thursday by Grey and Count Kato.

London, July 15 .- The Anglo-Japanese alliance has been modified to exclude the United States from Great Britain's possible enemies, and the life of the alliance has been extended nearly six years by the new version of the treaty which Sir Edward Grey, the British Secretary of Foreign Affairs, and Count Kato, the Japanese ambassador at London, signed on Thursday. The original agreement, which was signed August 12, 1905, included eight articles and a preamble. The only practical difference between that and the new versions is em-bodied in article 4, which reads:

"Should either high contracting party conclude a treaty of general arbi-tration with a third power, it is agreed that nothing in this agreement shall entail upon such contracting party an obligation to go to war with the power with whom such treaty of arbitration is in force."

The preamble states:

"The Government of Great Britain and the Government of Japan having in view the important changes which have taken place in the situation since the conclusion of the Anglo-Japanese treaty of 1905, and believ-ing that a revision of that agreement responding to such changes would contribute to the general stability and repose, have agreed upon the following stipulations to replace the agree-ment above mentioned."

Then follows the objects of the al-liance as set forth in the previous draft. These include the consolidation and maintenance of general peace in the regions of Eastern Asia and India, the preservation of the common interests of all the powers in China, and the maintenance of the territorial rights of the contracting parties in the regions of Eastern Asia and India,

and the defence of their special in-terests in those regions.

Articles three, four and six of the treaty of 1905 are omitted in the revised version. Article three of the old version stipulated that "Japan, possessing paramount political, military, and economic interests in Korea. Great Britain recognizes Japan's right to take such measures for the guid-ance, control and protection of Korea as she may deem proper and neces-sary to safeguard and advance those interests, providing the measures so taken are not contrary to the principle of equal opportunities for the

commerce and industry of all nations.

Article four referred to the recognition by Japan of Great Britain's rights to safeguard her Indian pos-sessions. Article six specially referred to the war between Japan and Russia at that date, and Great Britain's neutrality.

This version of the treaty is known to be largely the result of the dis-cussion of foreign affairs at the Imperial Conference, and was responsible to the wishes of the colonies, particularly Australia. That it was consummated so soon was a surprise to the diplomats. The extension of the time of the alliance is another sur-

"Death to Congress."

Lima, Peru, July 15.-The opening the preliminary sessions of Chamber of Deputies was made the occasion of a demonstration, in which two persons were killed and several wounded.

The Government failed to send a guard to keep order, but several se-cret police acted instead. When the deputies were leaving the chamber there were cheers for the Government and cries of "Death to the Congress." Hundreds of revolver shots were fired. None of the deputies were

May Fine Railway Company.

Montreal, July 15 .- A new phase of the fight between the city and the street railway, the former seeking a better and more extensive service and the latter a new and more profitable franchise, developed yesterday when action was entered by the city against the Montreal Street Railway Co., asking a mandamus against the company and to fine it heavily for not con-structing lines in St. Paul and Em-ard wards. The company asked a delay of fifteen days to file an answer in writing.

Destroyed by Curse of God. Au Sable, Mich., July 15.-"The curse of God destroyed Au Sable and

Oscoda." Rev. L. Bird, B.D., of the Oscoda Methodist Church, vehemently makes this statement, and refers to his proof the holocaust which he made from his pulpit last Sunday morning in a sermon on the destruction of Sodom and Gomorrah.

"I knew it was coming, because of their shortsightedness," declared the clergyman, with tears in his eyes.

Mrs. Neapolitano Not to Hang. Ottawa, July 15.—Mrs. Angelina Neapolitano is not to hang. The case was considered and decided at a largely attended Cabinet Council yesterday morning, and on the recommendation of the Minister of Justice the commutation of the sentence was agreed upon. This decision goes to the Governor-General's deputy for approval.

The Seat Is His. Niagara Falls, Ont., July 15.—City Clerk Seymour yesterday notified Edward Davis that he is entitled to the council seat made vacant by the re-signation of Ald. William Hollman, following the hearing before Master-in-Chambers Cartwright recently. Davis has until July 19 to accept.

LEGACY GENUINE.

Montreal's Strange Benefactor Was a King's Son.

Montreal, July 15 .- Mayor Guerin, Montreal, July 15.—21.27.09 who has been in London investigating the bequest of over \$100,000 the poor of Montreal," by a certain Gustave Meurling, unknown here, explains in a letter the unusual gift, which he discovers to be absolutely

Somewhere about fifteen or twenty years ago the morganatic son of one of the kings of Europe lived in Mont-real under the name of Meurling. Among his acquaintances was the late Senator Forget, who befriended him in a very marked manner. He had at that time only \$10,000, which, on the that time only \$10,000, which, on the advice of Senator Forget, he invested as directed, and made over \$75,000. He went away from Montreal later, and no news has been heard of him until the City Council of Montreal r-ceived a notice that a Mr. Gustave Meurling had left \$100,000 to the poor of Montreal in memory of courtesies and kindnesses received from its citizens. There are also estates in France and Germany, and American securities, the value of which have not yet been determined.

According to details supplied Mayor Guerin in London by Messrs Stibbard and Gibson, the London firm that drafted the will, Mr. Meurling was married many years ago to a French countess of considerable social pres-tige, but several years later they were divorced. Five years later he married another French lady, who died in three years. He himself died at the

age of seventy.

Deceased was without children, and consulted with his London solicitors as to whom he should leave his money. He did not take their suggestions, but eventually decided in favor of Montreal, in memory of a courteous and kind people.

Mayor Guerin has gone to Mentone, France, to instruct the French lawyers as to the disposition of the pro-

BRIEFS FROM THE WIRES.

The Bank of Montreal has decided to increase its capital to \$16,000,000.

Edmund Hartnett, a St. Catharines hotelkeeper, dropped dead on the

The Canadian team as Bisley made good scores in the McQueen and Schumacher competitions.

The Unionist party in Britain is torn by dissension, on account of the veto bill. The moderates are unwilling to amend it.

The Tusseck moth has made its appearance again this summer in Montreal and traces of its work are notice-able in all the city parks.

The Dominion Government is send-ing militia tents and blankets into Porcupine, with a detachment to distribute them. Parliament will be ask-ed for a vote to aid the sufferers.

A serious fire broke out in Canso, N.S., yesterday in the centre of the town and before it was got under con-tral three residences and three stores were totally destroyed and others damaged. There was a mix-up among a gang

of Italian laborers on St. Antoine street, Montreal, yesterday afternoon, and as a result, Angelo Beligne of Lusigna street, received a bullet

wound in the right side.

A score of guides and others are searching in the mountains for Homer Tidman of Boston, who set out several days ago, unaccompanied, to climb the Dent-Du-Midi, a lofty peak of the Alps. It is feared that he has fallen over a precipice.

Captains Paid Their Fines.

St. Catharines, July 15.-The captains of the steamers Corona and Chippewa of the Niagara River Line appeared before Police Magistrate Camplicense inspector, and admitted illegal sales of liquor on the steamers while plying on their regular routes. They were fined \$150. Every year the license inspector pays a visit to all the steamers of the fleet, with the result that fines are recorded against the captains.

BIRDMAN WILL DIE

Daring Aviator Falls Under Biplane at Erie, Pa.

CARRIED KING OF SIAM

"Bud Mars;" One of the Most Intrepid of the Aeroplane Navigators In America, Has an Accident While Exhibiting Before Big Crowds and Falls to the Ground-Doctors Have Given Him Up.

Erie, Pa., July 15 .- "Bud" Mars, the well known aviator was probably fatally injured in this city yesterday afternoon when he crashed several hundred feet to the ground. The heavy biplane dropped on top of him. His injuries are of such a nature, it is said that there is practically no hope for his recovery.

The aviator's wife witnessed the ac-

cident and last night her condition is serious, due to shock.

Mars had made one successful flight earlier in the afternoon. He was in the air for the second time when the accident occurred. Several thousand spectators were watching him. He circled the field a number of times at a height of several hundred feet. Suddenly the machine made a dip downward and Mars was seen to jerk at something in an effort to regain control. It was a futile attempt, however, and an instant later the machine struck the ground. The bi-plane was completely wrecked and Mars lay under it. He was covered with blood, and at first it was believed he was dead. His wife ran towards him screaming, but she collaps-ed before reaching the wreck.

Doctors, who were present as spec-tators, were soon at the side of the injured man. The serious nature of his injuries was evident and he was rushed to a hospital. Last night, Dr. Broughton, one of the physicians attending Mars on the field, issued a statement from the hospital to the effect that the aviator's chest was badly injured, and that he had sus-tained concussion of the brain and suffered internal injuries, while he is also bruised from head to foot.

James C. Mars is well known for his daring in the field of aviation. At the age of fifteen he learned parachute jumping as a pupil of Captain Tom Baldwin, the aviator, and though only a young man he has been a circus rider, lion-tamer, high diver and balloonist. He took up aeroplaning with Glen Curtiss a year ago, and on his second day's practice made twen-ty-five flights. He left San Francisco last December and came back last month laden with trophies of 250 flights in Honolulu, Manila, Sumatra, Japan, Korea, Siberia, Russia, and on one occasion carried a royal pas-senger, the King of Siam.

He has had several narrow escapes. Last August he fell into lower New York Bay and narrowly escaped drowning. A few weeks later he crash-ed down at Memphis, Tenn., on top of an automobile, and was in bed for ten days. His young wife, who accompanies him everywhere, has been his companion in many of his flights.

Should Mars succumb he will be the seventy-fifth victim to the science of aviation, the first being Lieut. Thomas E. Selridge, U.S.A., Sept. 17, 1908. In 1909, four lives were lost, in Thomas E. Selridge, U.S.A., Sept. 17, 1908. In 1909, four lives were lost, in 1910 thirty-four fatalities occurred, while so far this year thirty lives have been sacrificed.

Stopped When Motorman Died.

of what happens if a motorman of a speeding subway express train drops QUINTE STEAMBOAT CO., LTD dead at his post was most assuringly answered yesterday when a ten-car express train, crowded with passen-gers during the rush hours, came to a sudden standstill between stations. The motorman, W. A. Stone, was found under the third car dead. He had opened the window of his box to get air and had fallen out when

his controller was on at full speed. An emergency button, on which the motorman's hand naturally rests while working the controller, was released when he fell, automatically shutting off the power and applying the air brakes. Within three car lengths the train came to a sudden halt, averting what otherwise might have proved a disastrous collision with a train ahead.

Dockers Are Arrested.

Antwerp, July 15.—The dockers employed on the Red Star steamers struck yesterday, under the leadership of Strike Agitator Chapelle. pelle was finally arrested and placed in jail. The police are now protect-ing the stewards of the Finland, who are loading that vessel. The authorities are determined to brook no in-terference, and will resort to drastic measures if necessary to put down all disturbances.

The Finland, which is scheduled to sail to-day, will probably not leave port. The strikers are boycotting the Red Star Co. because of its long re-sistance to their demands.

Killed Father-In-Law.

Shaftsbury, Vt., July 15 .- George B. Niles, a farmer, is under arrest charg-ed with the murder of his father-inlaw, Charles Barton, yesterday. It is alleged that Niles and his wife had words and that when Barton took his daughter's part, Niles struck him. Barton died a few minutes later. An autopsy will be held to-day to deter-mine the exact cause of death. Niles is 49 years old. He and Barton worked a farm together.

Another Guelph Man Missing.

Guelph, July 15.—A. W. Nicholson, brakeman on the Grand Trunk, is anxious about his brother Samuel, first reported to have been among the victims of the fire at Porcupine.

Nicholson was from Palgrave, near Wingham, where his parents reside He was about 28 years of age and unmarried. He had worked at Cochrane before going to the Porcupine

He had a lost advertisement inserted in the Guide and before the paper had been out an hour his money was returned to him. Guide ads. always bring quick returns.

ICE DISAPPEARING. - We are told by scientists that the South Polar ice is rapidly retreating, and it is also a well-known fact that the ice around the North Pole is disappear-ing. In the Dominion certain lands bordering on the north that have hitherto been too ice-bound to raise wheat are now capable of producing the largest crops, all because favor-able climatic conditions have banished the ice region. Iceland now belies its name, for in December, 1910, there was no snow and scarcely any trost. Major B. A. Marriott, of the English coast survey, suggests that the change is due to the diminished obliquity of the earth's axis. the year 1354 B. C. the globe had an inclination of thirty-five degrees. The Polar regions then occupied a far greater extent than they do today, and the glacial epoch reigned over the earth. Now the earth has an inclination of only 23 degrees and this is getting less and less. This state of things will last until the year 2205 A. D., when the earth will be nearly upright and the con-trast between summer and winter will be small. Since this year is only 385 years ahead of us, each century will show a modification of
