SEVERE INJURIES

To Mr. E. Robinson—Was Struck by a Run-away Horse.

Mr. E. Robinson, of the local branch of the Agricultural Department, met with a very unfortunate accident yesterday afternoon. A horse belonging to Mr. S. A. Coupland and used on the rural mail route, took fright near Elmview and ran away, proceeding on his merry pace until it reached the main street here. Mr. Robinson, who had been up west judging the standing crops, had just left the 4.20 train at the Midland platform. When on the crossing near the Bank of Toronto the horse came tearing along, and some person on the opposite side of the street called to him of the danger. The warning and the noise of the train rather confused Mr. Robinson, and he realized nothing of his perilous position until the horse crashed against him. He was thrown to the pavement with great force and suffered several severe injuries. His head was badly cut at the back and his nose broken. His side and ankle were also injured by the rig passing over him.

Mr. Robinson was removed to H. W. Mitchell's drug store, where Dr. McKinley attended to him and he was later taken to his home in the ambulance. He spent a very restful night and was much better this morning. The driver of the rig was not injured, and none of the mail was lost.

SPORTING SKITS

BOWLING.

The first league match of the season took place last evening between Cobourg and Port Hope. Two Cobourg rinks came here and two local rinks went to Cobourg. The game was very closely contested, the local club winning out by four points. Skip Jordan was the useful man and his playing was the feature of the game. Time after time with the end against him he pulled in for shot when it seemed almost impossible.

The teams and scores were as follows:

Lad Runs 43 Miles To See Dying Father

Centralia, Wash., July 22.—To reach the bedside of his father, whom he believed to be dying, fourteen-year-old Royal Eubanks raced on foot from Morton to Centralia, forty-three miles, in thirteen and a half hours yesterday. When the little fellow, utterly worn out by his terrific exertions, threw himself into his mother's arms he fainted away after hearing the news that his father was safely on the road to recovery.

The lad is a son of Mr. and Mrs. J. M. Eubanks of Centralia and a grandson of ex-Mayor Wood. With his father and his brother Bernie he went fishing up the North Fork of the Tilton river early in the week. As his father was standing on two logs, with his legs wide apart one of the logs swung out and he was thrown backward violently across the other.

The impact of his fall knocked him unconscious, and the two little lads, at the imminent risk of falling in the water themselves, rushed out on the log and caught him just as he was slipping into the river. They managed to hold him there until their frantic shouts brought help. The injured man, still insensible was carried to Morton and from there hurried to Centralia.

There was room for only one of the boys in the buggy, and it fell to Bernie, as the elder, to accompany his father on the trip home. Undeterred by the fact that he would have to make part of the lonely journey in the dark, Royal followed on foot as fast as his legs could carry him. Speed and strength were lent to his wiry little limbs by the prospect that his father might be dead before he arrived.

When he reached home, he had

HOPE COUNCIL.

SPECIAL MEETING.

A special meeting of the Hope Township Council was held at the Clerk's residence, Welcome, on Friday evening, July 14th, at 8 o'clock. All the members present except Mr. Greenaway.

On motion the reading of the minutes of the previous meeting was dispensed with.

The Reeve explained that the meeting was called to consider and adopt ways and means for the securing of a Railway station on the C.N.O.R. as near the subway on the gravel road south of Canton as possible.

Dr. Leslie, President of the Farmers' Club, who together with the Council had been appointed for the above purpose, explained that it was the unanimous desire of a largely attended meeting of ratepayers recently held at Welcome that an operating station on the line of the C.N.O.R. should be established east of the subway on the gravel road, between Welcome and Canton. He considered a station at this place would be a mutual advantage both to the C.N.O.R. and the people of Hope, and that a profitable business would be done there.

On motion of Mr. Edwards, seconded by Mr. Caldwell, the Clerk was instructed to write the C. N. O. R. authorities and urge strongly the granting the wish of all the people in this part of Hope Township in the giving of an operating station at the above place.

The Council on motion adjourned.

REGULAR MEETING.

The Council of the Township of Hope met in the Clerk's office in Port Hope on Wednesday, July 19, 1911, at 1.30 p.m.

Present—Lewis H. Cann, Reeve, presiding; S. R. Caldwell, Deputy Reeve; J. N. Greenaway, G. H. Martyn, G. Edwards, Councillors.

The minutes of the last meeting were read and on motion confirmed. Communications were read from His Honor Judge Benson, appointing July 29th next, at 11 o'clock as the time for holding the Judge's Court.

From M. Cameron, surveyor, re his account.
From the Municipal Association, soliciting Hope Council to become members.

From a Law Society, with particulars re a Municipal Law Book, edited by Sir Wm. Meredith, price to be about \$12.

From the Sawyer-Massey Company re good roads machinery.
Mr. Edwards reported that some useful grading had been done on Clarke boundary and Hope should expend, say \$15, more and Clarke a similar amount, to complete the work; also 10 yards extra gravel on York road was required. Water courses require attention at Roseberry Hill, and no lumber has been delivered by Mr. Comstock.

Mr. Martyn and Mr. Caldwell said they had visited Mr. McMillen and had advised him to build the

Deputy Reeve of Clarke could not see his way clear to keep Mr. McMillen.

The Reeve asked for an extension of time re Wm. O'Hara grievance; also reported having let contract for 70 yds gravel at 55c and 30 yds at 40c on the 8th con.

The Clerk reported having received \$40 from Mr. Robt. Morton for trees which he had given to the Treasurer.

PORT HOPE, JULY 26, 1911

A TROUBLESOME MISGIVING

Continued from yesterday.

You suspect a lurking belief even in the minds of avowed atheists. But take the assurance from me that a man like Peak (and I am at one with him in this matter) regards with absolute repugnance every form of supernaturalism. For him to affect belief in your religion, is a crime against conscience. Peak has committed this crime with a mercenary motive—what viler charge could be brought against him?

Without looking at him his sister replied: "Whether he is guilty or not, I can't yet determine. But the motive of his life here was not mercenary."

"Then how would you describe it?" Buckland asked, in astonishment.

"I only know that it can't be called mercenary."

"Then the distinction you draw must be a very fine one.—He has abandoned the employment by which he lived, and by his own admission he looks to the Church for means of support. It was necessary for him to make interest with people of social position; the closer his relations with him the better. From month to month he

has worked skillfully to establish his footing in this house, and among your friends. What do you call this?"

She had no verbal answer to make, but her look declared that held to another interpretation. "Well Buckland added, impatiently, 'we will hear father's opinion. He, remember has been deceived in a very gross and cruel way. Possibly he may help you to see the thing in all its hatefulness.' Sidwell turned to him.

"You go to London this afternoon?"

"In an hour or two," he replied, consulting his watch.

"Is it any use my asking you to keep silence about everything until I am back in town?"

Buckland frowned and hesitated. "To mother as well as father, you mean?"

"Yes. Will you do me this kindness?"

"Answer me a question, Sidwell. Have you any thought of seeing Peak?"

"I can't say," she replied, in agitation. "I must leave myself free. I have a right to use my own judgment."

"Don't see him! I beg you not to see him!"

He was so earnest that Sidwell suspected some other reason in his request than regard for her dignity.

"I must leave myself free," she repeated, with shaking voice. "In any case I shall be back in London to-morrow evening—that is, if—but I am sure mother will wish to go. Grant me this one kindness; say nothing here or there till I am back and have seen you again."

He turned a deaf ear, for the persistency with which she resisted proof of Peak's dishonour had begun to alarm him. Who could say what miserable folly she might commit in the next four-and-twenty hours? The unavoidable necessity of his own return exasperated him; Who could say; he wished to see her safe back in London, and under her father's care.

"No," he exclaimed with a gesture of determination;

"I can't keep such a thing as this secret for another hour. Mother must know at once—especially as you mean to invite that fellow into the house again.—I have a mind to telegraph to Godolphin that I can't possibly be with him to-night."

Sidwell regarded him and spoke with forced composure.

"Do as seems right to you, Buck-

land. But don't think that by remaining here you would prevent me from seeing Mr. Peak if I wish to do so. That is treating me too much like a child. You have done your part—doubtless your duty; now I must reflect and judge for myself. Neither you nor anyone else has authority over me in such circumstances."

"Very well. I have no authority, as you say, but common sense bids me let mother know how the case stands."

And angrily he left the room.

The Critical still lay where it had fallen. When Sidwell had stood a while in confused thought, her eye turned to it, and she went hurriedly to take it up. Yes, that was the first thing to be done, to read those pages with close care. For this she must have privacy. She ran upstairs and shut herself in her bedroom.

But did not at once begin to read. It concerned her deeply to know whether Peak had so expressed himself in this paper, that no room was left for doubt as to his convictions; but another question pressed upon her with even more urgency—could it be true that he did not love her? If Buckland were wholly right, then it mattered little in what degree she had been misled by intellectual hypocrisy.

PORT BRITAIN

Miss M. E. Best is visiting Mr. Charlie Best at Zion.

Miss Nellie Grant and Master Grant Milbourn, of Chester, Pa., are visiting Miss Mary Best.

Miss Laura Newman, of Toronto, is spending a few months holidays at the home of Mr. Wm. Inch. Miss Newman will do much to enliven Port Britain as she is an expert player on the piano.

Mr. Cyril Darke has built an

implement shed for his tenant, Mr. G. Bye.

Mr. George Best has done considerable painting on his house.

Mr. Sanford Haskill has shingled one of his buildings.

Mr. George Dinner has shingled his barn.

Mr. A. N. Ball has painted Revelstoke Manor, and put in a new metallic ceiling.

Mr. Joseph Bryce planted an orchard of four or five hundred young apple trees last spring. Four-fifths of the trees are now dead. As society is now constituted it is considered just as lawful for nursery men to praise their goods far above their merits as it is to tell the truth about them. Consequently we hear much about hardy northern trees, guaranteed free from San Jose scale, best varieties of annual bearers yet introduced. Such expressions as these have become stereotyped phrases in advertising new varieties of fruit trees no body knows anything about. Yet every experienced fruit grower knows spies, baldwins and russets have never been excelled.

Everybody here is in favor of reciprocity. Some of the papers have given us a lot of rot about annexation. As much as I think of my relations in the old sod, I love my American cousins none the less, especially President Taft. He is not ambitious to become an invader, neither is he quarrelsome or bloodthirsty. He is not thinking of building Dreadnaughts, but on the contrary his international arbitration treaty between Great Britain the United States and other countries makes him famous the world over.

It Is Not in the Blood
Medicine Taken Internally Cannot Cure Eczema. It Is Caused by Germs.

Eczema cannot be overcome by

ordinary treatment and the old fashioned way of dosing the system with drugs. Eczema is caused by a parasite germ that bores into the skin. It is generally a contagious disease. Until the parasite is completely destroyed and removed, eczema cannot be cured. Fully one-third of the skin diseases are in the form of eczema.

I so thoroughly believe that Rexall Eczema Ointment will overcome eczema and allied skin complaints, that I unhesitatingly promise to promptly return the money paid me for it should it in any way be unsatisfactory to the user.

Because of its remarkable cleansing, antiseptic, germicidal, soothing healing influence, Rexall Eczema Ointment has a very pronounced value in the treatment of skin diseases, especially where the form of ailment is of the chronic, aggravating sort. I highly recommend it for the dry scaly form or the weeping type, where there is a constant flow of ill-smelling excretion.

Rexall Eczema Ointment is very prompt in relieving pimples, blotches skin discolorations, ringworm, acne, nettle rash, tetter, hives, ulcers, insect bites, and for healing sores and wounds. It is a pleasant smelling, grayish-white ointment, and is very cleanly for use. Two sizes, 50c. and \$1.00. Sold only at my store—The Rexall Store. H. W. Mitchell, Phm. B.

MONARCH KNIT

THEY can afford to beach their canoe and "spoon" on the shore—because they're clothed in "Monarch Knit." For evenings cool, on the water or the road, your money cannot buy nattier or more comfortable garments. "Monarch Knit" coats and sweaters, as well as auto caps and toques, have fairly won and fairly hold a big international market—Because of select material, skilled craftsmanship and up-to-the-minute style and swagger knit into the garments and their very texture. Every modern merchant knows the fundamental reasons for the superiority of the

famous "Monarch Knit" line. Your merchant will gladly tell you all about these stunning garments—not because of big immediate profits, but because of after effects. "Monarch Knit" coats and sweaters possess the marked individuality you like your garments to have. Comfort and style—the easy poise of the well-dressed lady or gentleman—the certainty that your lounging coat or sweater is a correct expression of fashion's latest decree—all that goes with "Monarch Knit." And then the price is reasonable—just what you expect to pay for garments that are worth while.

Bobby Leach Goes Over the Horseshoe Falls.

HE IS BADLY SHAKEN UP

English Barrel Performer Cuts Adrift at Navy Island Plunges Over the Cataract and After Being Given Up For Dead Pops Out of His Strange Craft - May Now Be Arrested to Stop Practice.

Niagara Falls, Ont., July 25.—In his steel barrel Bobby Leach successfully made the trip over the Horseshoe Falls yesterday afternoon. Beyond a number of bruises and a severe shaking up he was uninjured by the drop of 156 feet. He is in bed at his home here to-day.

This was the second time the falls trip has been successfully made. Mrs. Anna Edson Taylor accomplished the feat on Oct. 24, 1901. Mrs. Taylor witnessed Leach's trip, and as the barrel made its frightful plunge she remarked to a friend that she feared the intrepid little Englishman would never come out of the craft alive.

It was just 2:55 o'clock when the barrel was cut adrift off Navy Island. It was towed into position by a rowboat and started on its perilous journey down the tossing waters of the upper rapids to the cataract by cutting the towline. A strong wind was blowing and the river level was several feet above normal. Navigating the upper river in a rowboat in such a mood was extremely dangerous work.

When the barrel was cut adrift it was in the middle channel, but it had not gone a hundred yards on its journey before it took a course nearer the Canadian shore. It was within fifty feet of the mainland when it passed the plant of the Electrical Development Co. Less than a mile above the cataract the barrel was caught by currents and swung away from the Canadian shore. When it took the plunge over the falls at 3:13 o'clock, it was fully 100 feet from shore.

Striking great billows at the brink of the cataract, the barrel was lost to view for a moment as it started on its plunge. Then watchers on the shore saw it reappear between rifts in the spray. When it struck the water its sharp nose burrowed into the lower river and for a twinkling the craft remained under water, only to leap from the water with the force of the rebound.

The barrel remained in the lower river 22 minutes before the manhole was opened and Leach stuck his head to the shoulders through the opening. He waved his hat to the spectators. When the barrel was caught in an eddy near the Canadian shore Frank Bender of Chippawa, swam out and grasped it. Within two minutes men in a rowboat began towing it ashore. "That was hell, boys!" were Leach's first words as he shook hands with Bender, after the towline had been attached.

When Leach was removed from the barrel it was thought that he had sustained a broken leg and he was removed to his home on a stretcher. Dr. E. W. Wilson made an examination and declared that Leach's left leg was severely strained and cut on the knee almost to the bone, which made the injury very painful.

Leach was accompanied on his trip home by his wife, who had witnessed the plunge over the falls at Table Rock. Before he was carried to his room he fondled his three-year-old daughter Pearl, the child crying with joy at the sight of her father. In spite of her youth, Pearl has twice before taken a keen interest in Bobby's perilous adventures, having twice seen her father make the trip through the whirlpool rapids in a barrel.

Police Waiting. Toronto, July 25.—The question of whether Bobby Leach left the Canadian side of the Falls or the American side on his barrel trip will likely be an important matter for him to answer on these days. The whole proceeding looks to the coldly disapproving eye of J. E. Rogers, superintendent of provincial police, like attempted suicide.

"We can't countenance such a thing as a man deliberately wanting to take his own life," said Mr. Rogers last night. "If he left the American side he has committed no offence in Canada, but if he left from the Canadian side, we will take whatever action the Attorney-General sees fit to order."

Will Spend Six Millions. Minneapolis, July 25.—The Soo line and Baltimore & Ohio roads will come into close relationship in the Chicago traffic field in a plan by which the Soo will spend \$6,000,000 for a direct entrance into and terminals in Chicago. Soo line or Wisconsin Central passenger trains will no longer use the Illinois Central passenger station on the lake front in Chicago when the plan is complete, but will enter instead the Grand Central passenger station owned by the Baltimore & Ohio. Freight terminals of the Soo will adjoin the Baltimore & Ohio freight terminals.

Announcement yesterday of Chicago terminal plans of the Soo are believed to account for the recent protracted visit of President Fred D. Underwood, of the Erie road, to Montreal, where he had repeated long conferences with Sir Thomas Shaughnessy, president of the Canadian Pacific. It is suggested in railway circles here that the program of the Soo sent the Erie's president to Montreal to head off, through Canadian Pacific influence or in some manner modify, if possible, the proposed Soo plan, and that he failed to accomplish his purpose.

Pope's Health. Rome, July 25.—The condition of the Pope, who is suffering from a sore throat, was less satisfactory yesterday, with a temperature higher than that of the day before, when a slight rise above the normal was noted. The general symptoms, however, are not alarming.

CLIFFORD IS BETTER.

Passing Indisposition Was Not Apparent After All.

Toronto, July 25.—A cablegram received yesterday afternoon by the wife King's Prize at Bisley, shows that King's Prize at Bisley, shows that he has recovered from his indisposition, which was thought to have been appendicitis.

The probable time of the arrival of Private Clifford in Toronto is Saturday, August 12. He is coming on the Allan liner Victoria, which leaves Liverpool on August 4 and is due to arrive in Montreal on August 11.

The time of his arrival may, however, be delayed by receptions in Quebec and Montreal. So far, no word of any preparations to receive him in these cities has been received, but it is altogether likely that they will entertain him in each place for a while. It may be that his arrival here will be delayed until Monday, August 14.

Arrangements for his reception in Toronto have not yet been completed. He is not coming with the rest of the Canadian Bisley team, for they sail on Aug. 3. Then there is little possibility of their being held up by welcomes on route.

More Carpenters Out. Montreal, July 25.—Called out by the union, forty carpenters employed in the construction of the harbor commissioners' new grain elevator, near the Victoria pier, joined the carpenters' movement yesterday morning, demanding a minimum rate of 35 cents per hour and a nine hour day.

The strike, it was stated by the foreman, is not delaying the progress of work on the elevator as there are upwards of 200 carpenters still on the job. Many of these are non-union men, while others, although members, refused to obey the order to strike. The carpenters engaged on the new elevator are drawing from 27-12 to 29 cents an hour, each man being paid according to his worth.

STICK TO LEADER

Balfour Advises Lords to Keep to Lord Lansdowne.

THE EXCITEMENT CONTINUES

Opposition Leader in Britain Says a Split in the Unionist Party Is the Worst Evil That Could Befall the Tories of the United Kingdom—Must Bow to the Inevitable, Declares Hon. Mr. Balfour.

London, July 25.—Another exciting day of political conferences, party caucuses and Ministerial visits to the King left the crisis no better solved than on Monday. There was renewed flinging of epithets in the House of Commons yesterday. The only significant incident of the session was that F. E. Smith, one of the leaders in Monday's turmoil, quit his accustomed seat among the adherents of Lord Hugh Cecil and other insurgent unionists.

The most important event of the day was the publication of a letter, which Mr. Balfour wrote to Lord Newton in reply to a request for his opinion on the situation. As was expected he fully supports Lord Lansdowne in bowing to the inevitable and avoiding the creation of peers. Thus the rupture in the Unionist party is definite and open.

In part the leader of the Opposition in the House of Commons says: "I never conceived it to be part of my duty actively to intervene in the affairs of a House to which I do not belong, nor have I on the present occasion taken any share in the propaganda, which, I understand, is being vigorously conducted by some of its members. This is not because I have any doubts as to the advice which I ought to give those who seek it. On the contrary, my views are clear.

"I think that the majority in the House of Lords should support its leader. I agree with the advice Lord Lansdowne has given his friends. With Lord Lansdowne I stand, with Lord Lansdowne I am ready, if need be, to fall."

The present crisis has been seized upon by Mr. Balfour. This time the attempt is more likely to succeed because it has the assistance of a similar movement in the House of Lords to dethrone Lansdowne in favor of the Earl Halsbury. But Mr. Balfour has weathered similar storms before. The "no surrender" party is practically identical with the extreme protectionist party of recent times, which was equally dissatisfied with Mr. Balfour's leadership in the fiscal controversy and the chief point of interest to-day is not the fate of the veto bill, which already is known, but whether Mr. Balfour will be able to reunite his party.

BRIEFS FROM THE WIRES.

Brockville Liberals will hold their convention on August 8th. The visit of the British Atlantic fleet to Norway was postponed. A French army officer resigned his office on a question over national defence.

Thousands of people are homeless as a result of extensive fires in Constantinople. The steamer Germanic ran aground near Little Current and was released without damage.

A student of physico-psychical phenomena says that the human soul has a definite weight. The infant child of Mr. J. J. Wilkinson of Oshawa was drowned by the upsetting of a boat near Windsor.

Capt. Weiler's boat, the Romania, on which he started to cross the ocean to Queenstown, was wrecked at Chebogue Point, N.S. Over \$90,000,000 worth of minerals were produced in Ontario last year, which is 40 per cent. of the production of the whole Dominion.

Both parties held caucuses at Ottawa, and the prospects for a general election somewhere about the last week in September were strengthened. Armed with a rifle and carrying a letter addressed to President Taft and the British consul, N. Lusane, 25 years old, ran amuck in the crowded streets of Chicago last night. Eight men were wounded.

A New York subway express train, running at top speed, caught three electricians in its path yesterday afternoon, fatally injuring one and sent the other two spinning through the air for fifty feet.

Missionary Convention. Woodstock, Ont., July 25.—The first annual Woodstock conference of the Young People's Missionary Movement of the United States and Canada opened in Woodstock College with a goodly representation of delegates present. Monday night's meeting was in charge of Rev. Dr. MacKay, D.D., general secretary of Presbyterian Missions, and moderator of the general assembly, who gave the opening address. Among those expected to take part in the proceedings this week are Morris W. Ennes, New York, editorial secretary, Young People's Missionary Movement; Rev. J. G. Brown, D.D., secretary Baptist foreign mission board; Rev. Canon S. Gould, M.D., secretary, missionary society of the Church of England in Canada; Rev. F. C. Stephenson, Methodist Young People's missionary secretary.

Suing Steamboat Company. Kingston, July 25.—Action has been brought against the St. Lawrence River Steamboat Co. by Inez F. Shargraw for \$2,000 damages, alleged to have been caused by falling over the hood protecting the wheel shaft of the steamer America.

Struck by Lightning. Napierville, July 25.—Paul Perrons' barn and stables were struck by lightning Monday afternoon and burned to the ground, with sixty tons of hay, two head of cattle, and farm implements. Loss \$1,500. No insurance.

GALE FASSING OVER.

Ontario Points Receiving Tail End of Storm.

Toronto, July 25.—We have been very fortunate here in Ontario in just escaping a severe gale. The observatory officials state. Yesterday's storm was nothing more than the tail end of the wind storm that was passing through Ontario. On the south side of the lake the gale was felt in its real strength—the wind whistling through the trees at 50 miles per hour in many places not far from Buffalo and Rochester.

"The disturbance is passing in a northeasterly direction across Ontario and Quebec," said the weatherman last night. "It wasn't at all severe in this part of the province, and it's all over anyhow."

The officials state that many people are still enquiring about what is regarded as abnormally low temperature at the present time.

"The temperature is not exceptionally low," said the weatherman, "but in reality it is a point or two ahead of the average, as far as minimum temperatures are concerned anyhow. In thirteen different years the minimum temperature for the month of July has been 50 degrees, and during the present month it is 52 degrees. In one instance the minimum temperature for July registered at the local observatory was 39 degrees. It's just a contrast with the previous siege of hot weather we have been having. That's all."

Storm Hurts Apples. Woodstock, July 25.—What promised to be a good crop of apples in Oxford County was sadly depleted by a severe wind storm which visited this district on Monday night. Although there are few reports of trees being shaken off in great quantities. Pear, plum and other fruit trees also suffered, but these are scarce in comparison with apples, so the loss is not so serious. It is too soon to make an estimate of the value of the apples lost, but it will be heavy.

River Traffic Stopped. Brockville, July 25.—At noon yesterday there subsided a terrific gale, which had prevailed for 24 hours, tying up traffic on this section of the River St. Lawrence. Only boats of large dimensions ventured out, and these navigated under difficulties.

From the rural district come reports of widespread damage to trees and fences. Orchards and small fruit suffered to the extent of several thousands of dollars throughout this district. Grain also was leveled in all directions.

Typhoon in Japan. Tokio, July 25.—A typhoon centering over Tokio and Yokohama reached its height at 3 o'clock this morning. Widespread damage has been done in the lower districts of the city, which are flooded, and from fifty to a hundred persons are missing. It is feared that a great number of fishing and other vessels have been lost.

HYDRO WINS IN HAMILTON.

Alter a Hard Struggle Cataract Company Loses Bylaw. Hamilton, July 25.—The greatest fight ever made against Hydro-Electric power came to an unsuccessful conclusion here yesterday when the Hydro bylaw carried by a majority of 439.

The campaign put up by the Cataract Power Co. in opposition to the measure was perfectly organized, and must have cost considerable. On the other hand, the Hydro forces had practically no organization and a campaign fund of only \$400.

Every carriage, auto or buggy in Hamilton capable of bringing voters to the polls was secured by the Cataract Company two months ago. Long lines of empty rigs hired by the Cataract Company stood in front of the polling booths, while the Hydro voters were forced to walk to the voting places.

At every polling place there were at least three scrutineers for the Cataract, while at many of them the Hydro had none at all. Two or three autos that came from Toronto and the rigs of a few local sympathizers who had refused to "sell out" were the only resources of the Hydro party.

For the last six weeks Cataract canvassers have called upon every voter. A tremendous increase in taxes was of course the chief argument of the canvassers. It was also threatened that the necessary car line extensions would not be made.

During the last few days of the fight the Cataract Company covered the town with placards and notices, all attempting to persuade the citizens away from the bylaw.

Under these circumstances the Hydro victory was an important one. Accepted Sentence. New York, July 25.—The Federal Government yesterday scored heavily in its effort to break up the alleged "wire trust," when thirty-seven of the eighty-three men indicted June 29 withdrew the plea of "not guilty" and accepted sentence without trial on pleas of "nolo contendere."

Upon this passive admission of guilt, Judge Archibald, in the U. S. District Court, imposed fines of from \$1,000 to \$1,700 and costs in each case.

Youngest Bishop.

St. John's, Nfld., July 25.—The youngest bishop in the British Empire was formally inducted into office yesterday, when Archbishop Stagni, papal delegate for Canada, consecrated in the St. John's Cathedral, Father Michael Power, the parish priest of Harbor Breton, as bishop of the St. George West, Newfoundland. Bishop Power is a native of this city, and is only 34 years old.

Six May Have Drowned.

Toledo, O., July 25.—Embarking on a sixteen-foot naphtha launch Saturday afternoon for a trip of 24 hours to a small island in Lake Erie, six Toledoans have since been lost sight of. The occupants of the launch were Mr. and Mrs. Charles Kennedy, their son, aged 7, and daughter, Pearl, aged 20, and Mr. and Mrs. Mason.

ELECTION CERTAIN

Both Parties in Caucus Declare It Inevitable.

TIRED OF WASTING TIME

Liberals Decide to Accept Challenge of the Opposition and Appeal Will Be Made to the Country About the End of September or the First of October—Slander on French Members Vigorously Resented.

Ottawa, July 25.—While the Conservative minority in the Commons were deciding in caucus yesterday morning to continue the present obstructive tactics on the reciprocity issue, and compel the Government to appeal to the country to break the deadlock, the Liberal majority in the House, also gathered in caucus, were enthusiastically and unanimously deciding to accept the challenge and fight the issue out at the polls. The decision of both sides was for an election as speedily as possible. Members on both sides are tired of the present farcical waste of time in the House, and want to get away to their constituencies to plunge at once into active campaign work.

Yesterday's caucuses dispelled any hope of a compromise being reached that might avert an election. On the Liberal side there was no question of any receding from the attitude consistently adhered to for the past six months, namely, to stand or fall by the reciprocity agreement. There was not a single waverer in the ranks. On the Opposition side it was also decided to adhere to the anti-reciprocity policy to the bitter end.

The general election will follow just as soon as the voters' lists can be got ready, and the other legal preliminaries observed. The last week in September or the first week in October should see the vote taken and the people's answer given.

After Monday the sitting of the House of Commons yesterday was quiet in contrast, although crowded galleries suggested another outbreak of hostilities.

The reciprocity discussion was resumed after Mr. Monk's amendment had been declared lost on a division. W. R. Smythe (East Algoma) continued the animadversion against the pact and the lack of information at the possession of the Ministers in not protecting Canada against the importation of cheap southern lumber.

Major S. Sharpe (North Ontario) made a careful analysis of the negotiations and said there was a fallacy in one Minister telling the farmers that reciprocity would give them higher prices for their products, and another Minister saying to the manufacturers that their market would be increased and prices enhanced.

Morning sessions of the House commenced yesterday, beginning at 11 o'clock. On the motion by the Premier for morning sessions Dr. Sproule made inquiry as to the time to be devoted to the consideration of private bills in committee and the House.

"It is the intention of the Government to go on with the measure which is before the House," said Sir Wilfrid, "that is, with the reciprocity agreement. Everything else depends upon that," was Sir Wilfrid's ultimatum.

Hon. Sydney Fisher, in reply to a question by Mr. Borden, said that the resignation of Dr. J. G. Rutherford, chief Dominion veterinarian, was in his hands.

R. L. Borden asked the Secretary of State for a detailed report showing what progress has been made with the preparation of the voters' lists.

Hon. Charles Murphy promised to have a report prepared. Col. Talbot of Bellechasse took exception to an article in the Montreal Gazette, in which it was stated that the French-Canadian members are in a state of revolt and object to having to remain at Ottawa now that their sessional indemnity has expired. He said the story was both contemptible and malicious, and that a sense of duty would keep the French-Canadian members at Ottawa just as long without pay as it would other members.

Mr. Lapointe of Kamouraska said about the same thing in French and was loudly cheered.

Mr. Arthurs, Parry Sound, read a report in the press saying that the elections in Northern Ontario would be deferred because it would not be possible to prepare the lists in time.

Sir Wilfrid Laurier said that the elections would be held according to law.

Major Currie was not satisfied with this reply, and Sir Wilfrid explained that under the statutes the polling could be postponed in certain constituencies, but that these did not include any constituencies in Northern Ontario.

Claude Macdonell (South Toronto) asked if an order-in-council had been passed removing restrictions on American laborers, so as to facilitate their entry into Canada during the harvest period.

Mr. Oliver explained that there are no restrictions imposed on farm laborers except such as are imposed by statute, and these could not be removed by order-in-council. He explained that farm laborers are not required to possess a certain sum of money.

A Harrowing Trip.

Chatham, Ont., July 25.—The three Labadie brothers and party of Detroit arrived at the Thames River light-house yesterday morning with a harrowing tale of experience on Lake St. Clair. They were tossed about in a disabled motor boat from early Sunday night till late Monday night. They had cruised to the Log Cabin Inn on Sunday, and had finished the biggest part of the return trip to Detroit when the motor stalled within sight of the Detroit River lights. They were pitched about in a rough sea and drifted clear across the lake to Mitchell's Bay in the storm.

DON'T DELAY.—Owing to the large number of inquiries for booths for the Firemen's Tournament and Musical Festival, on August 9th, the Committee have decided to increase the number of privileges to six. The plan of grounds with spaces for booths may be seen at Mr. G. A. Outram's hardware store. First come, first served.

FAREWELL PARTY.—A farewell party for Mr. Arthur Watt, who has been transferred to the Traders Bank, Porcupine, was held at the residence of his mother, Mrs. D. Watt, Ontario street, on Monday evening. A very enjoyable time was spent, progressive euchre being played and a pleasing program of vocal and instrumental music was rendered. Refreshments were served and the happy evening was brought to a close by the singing of a verse of "He's a Jolly Good Fellow."

DECORATION DAY

The Grand Master Will Assist in the Ceremony

The annual decoration ceremony by Durham Lodge No. 78, I.O.O.F. will be held on Sunday afternoon next and the parade will leave the lodge room at 3 o'clock. Mr. Joseph Powley, Grand Master of the Order, will be in attendance and deliver an address at the cemetery. The Ideal Concert Band will be in attendance and will also play the accompaniments for the hymns at the cemetery. A cordial invitation is extended to all visiting brethren to join in the parade and the public are invited to participate in the service.

TWO MEN ARRESTED

Left North King At Brighton and Chief was Instructed To Arrest Them.

This morning Chief Bond received a message that two men had left the steamer North King at Brighton and since they left a quantity of jewellery consisting of a gold watch, diamond ring and other articles were missing. The Chief located the two men about eleven o'clock and placed them under arrest. They had none of the jewellery on them when searched but the chief is holding them until he receives further instructions.

"A SHABBY DEAL FOR PORT HOPE."

Under the above and other scare headings the Toronto Mail had an article on Tuesday, July 25th, that for misrepresentation and false statements and cowardly insinuations against one of our most respected citizens, capped the climax of parish politics.

The facts are that Dr. Powers was not at the last election or at any other time, a candidate for Durham. We did not read the scandalous article referred to (by the way, we seldom read the Mail at all.) We have not time just at present to go into the facts and figures to-day. But we challenge the writer of the article to quote the facts as they will appear in the returns of the expenditure upon harbor etc., and they will show conclusively that for the time that the Liberals have been in power one-third more money was granted to our harbor than was expended upon it for the same number of years under the Tory rule.

We might say that the Government engineer has notified parties here that he will be on hand on Friday next to thoroughly examine the harbor and report thereon. He said, however, that there was no chance to get any money to expend upon harbor until after next election, which will perhaps occur on or before October, 1911. Hence, our good people may rest quite assured that the Moses next discovered by the Mail's correspondent is only a diminutive tempest in a tin teapot.
