THE INQUEST

Verdict Returned After Jury Had Been Out Two Hours

Operator Exonerated From All Neglect or Carelessness in Discharge of His Duties

"The jury selected to consider the means by which William Mercer came to his death in the Town of Port Hope on 19th July, 1911, find that said William Mercer came to his death by the explosion of a retort at the Port Hope Canning Factory on July 18th, while discharging his duties as an employee of said Canning Factory and the jury exonerates the said William Mercer from carelessness or neglect in the discharge of his duties."

The above is the verdict returned by the jury empanelled to enquire into the cause of the death of the late William Mercer. The evidence was submitted to the jury at eleven o'clock but they were unable to reach a verdict until one o'clock. The discussion by the jurymen grew quite warm at times, several of them being of the opinion that the blame should be attached to the Canning Co., while the others opposed it. The verdict now is practically an open one.

The course followed by the defence was that the clamps were not tightened by the late William Mercer and this was responsible for the accident.

Robert Smith stated that Leo Bowen who was working with the late William Mercer at this retort when the accident happened told him that he saw Mercer tighten the clamps of the retort securely.

Mr. Greenfield, formerly manager of the factory, said during his time he had no trouble with retorts. The breakage, he thought was due to the fact that the clamps were cast iron. He had never seen cast iron clamps used on any other retorts. He made no recommendation to have them changed because the Company would not expend the money to do so.

Wm. Mercer, son of deceased, stated that he heard his father tell Mr. Matthews, the manager of the factory, that he was carrying about ten pounds of steam at the time of the accident and that he had securely fastened all the clamps, as he had done over them a second time. Mr. Matthews corroborated the

statement of the former witness. The clamps in the retort in question were new ones and after the accident he noticed a block of wood under the front clamp and was therefore under the impression that this clamp had not been fastened. He thought if clamps were made with forged iron they would not break so easily.

Mr. George Smith said it would be impossible for a person to operate a retort with the clamps not fastened and not notice the steam escape.

Mr. Fred Spangler, chief engineer of the Standard Ideal Factory, tested the safety valve and found that it would not blow off at less than thirty pounds pressure of steam. With a pressure of 13 or 11 lbs. as was stated was carried by this retort, he would expect the valve to blow off at about 13 pounds for the safety of the operator.

This concluded the evidence and after addresses by the Solicitors the jury retired.

SUGARS STILL HIGHER

Third Advance Since July 11th Occurs In Ontario and Winnipeg

Following a rise in the New York market, all grades of refined sugar were again advanced throughout Ontario and at Winnipeg Monday at 11.45 a. m. This is the third advance of similar proportions since July 11th.

Toronto wholesale quotations in 100 pound bags are now as follows:
Extra granulated, Redpaths...\$5 05
do Red, 20 lb. bags 5 15
do St. Lawrence 5 05
do 20 lb bags 5 15
Extra S. G. Acadia 5 00
Imperial granulated 4 90
Beaver granulated 4 90
No. 2 yellow St. Lawrence 4 75
No. 1 yellow Acadia 4 65
Unbranded Acadia 4 45
Montreal, July 24.—Refined sugar to-day advanced 10c per 100 pounds, making granulated \$5.
London, July 24.—Sugar—Muscovado, 115 6d; beet sugar, July, 12s 11 1/2d.

This is the third increase in the price of sugars since the 1st of July, making a total of 30c. per 100 lbs. One of our local merchants was successful in securing two cars of sugars before there was any advance.

WON LITTLE FOOT RACE

Girl Sprints Her Way to a Seventy Thousand Dollar Fortune.

That it pays to be a good sprinter, even for one of the fair sex, was clearly proven a few days ago, when Miss Caroline Cantlon, a Chicago girl, learned that a little race she won three years ago from five girls in Calgary, Alta., has been the means of making her the owner of mining stock valued at \$70,000.

Miss Cantlon when in College devoted more time to athletics than to study. Before graduating from Vassar she had become the faster runner in the College.

The year after leaving school she went to Calgary to visit some of her College chums. The Provincial Fair was being held at that time, and one of the big events was a half mile run for girls.

Miss Cantlon and two of her

school chums entered the race against three other Calgary girls. Just before the race was called a young Calgary millionaire came dealer stepped forward and said he would give a prize of a diamond bracelet to the winner. Before he girls' screams of delight had subsided another young Calgary millionaire mine owner declared that he would add another prize to the winner—a certificate of 1,000 shares of stock in a British Columbia mining company.

When the outburst of yells, catcalls and laughter had subsided it was explained to Miss Cantlon that the mine was looked upon as worthless and had never paid any dividends, although at one time considered a winner.

She had met her friends' laugh at the mining stock with the statement that it was at least a pretty bit of paper and she would keep it for a souvenir.

The other day Miss Cantlon learned that the mine had been taken over by new management and had been made the best paying property in Western Canada. Stock is selling at \$70 a share. Miss Cantlon's 1,000 shares are worth just \$70,000, with prospects of it reaching \$100,000 soon.

TWO ENJOYABLE EVENTS

The Young People's Society and the Tri-mu Bible Class of the Baptist church have each, during this week proven their wide awakens and ability to bring things to pass.

Under the auspices of the former organization a "surprise" meeting was held on Monday evening July 24th. Few except the committee in charge knew before hand any thing about the nature of the program, so that as each unexpected and unusual voice added entertainment and instruction to the evening's enjoyments, the surprise grew continually greater. All in all it was a very successful and profitable gathering.

Yesterday July 26th the Tri-Mu Bible Class held its picnic at Rice Lake. The weather was on its best behavior, and about one hundred and twenty-five members and friends of the class made the day vocal with their spontaneous expressions of joy at being alive and in such goodly company, with boating, swinging, racing, foot and baseball games, and other sports, appetites were enlarged to enjoy the abundance of good things provided for the inner man. So spent, the golden hours flew all too fleetly to the sunset, when the happy party gathered in the various conveyances and made their way homeward through the glorious twilight, making the evening melodious with laughter and song. All present voted the outing an unqualified success.

"REAL DAUGHTER" FOUND AGED 111

Atlanta, July 25.—Mrs. Mary Trawick Proctor, aged 111 years, a real daughter of the American Revolution, has been discovered in a humble one room cabin in Barrow County Georgia. Her only com-

panions are her daughters, Miss Mary Proctor, aged 90, and two great-great-grandchildren descendants of another daughter.

Mrs. Proctor was born in Wake County, North Carolina, in 1800. At the age of 19 she married Hiram Proctor, a veteran of the Revolution and of the War of 1812. She has lived under the administration of 25 presidents.

On a bedding of straw, consisting of a mattress so thin that the rough slats can be seen this daughter of the Revolutions lies her form emaciated skin wrinkled and almost a skeleton.

Her aged daughter administers to the wants of the little household and sometimes tills the soil in a little cotton and garden patch nearby. The meagre profits derived from this labor she adds to the \$12 a month pension Mrs. Proctor receives for the services her husband rendered in the War of 1812.

A movement has been started in Atlanta to raise funds sufficient to provide for the two aged women the rest of their lives.

A TROUBLESOME MISGIVING

Continued from yesterday. It was impossible to believe that Peak had made love to her in cold blood, with none but sordid impulses.

had spoken of it. Buckland's manifold evidence was irresistible. Why should Peak have concealed his authorship? Why had he disappeared from among the people who thoroughly knew him?

CROP REPORT

A bulletin on the crops and live stock of Canada has been issued recently. The condition of the field crops of Canada for the month ending June 30th, as compiled in the Census and Statistics Office from the reports of a large staff of correspondents, is on the whole, quite satisfactory, although on account of uneven rainfall it is not uniform for all the provinces.

west provinces, Prince Edward Island and New Brunswick, and over 90 in Nova Scotia and Quebec, a point below 90 in Ontario and only 84 in British Columbia. Oats show an average of 94.40 for all provinces, which is higher than any year since 1908, and is 95 or higher in Prince Edward Island, New Brunswick, Quebec, and the North-west provinces.

THE PEACEMAKER

'Twas just about a year ago that Fanny ran away. Leavin' ma and me alone — eloped with Philip Gray; He'd come a-shinin' around her, off an' on, a year or so.

DETECTED HIM

"Last Sunday," said the clergyman to his congregation, "some one put a button in the collection bag. I wouldn't mention names. I will merely say that only one individual in the congregation could have done so, and I shall expect the said member, after the service, to replace the button with a coin of the realm."

that only one individual in the congregation could have done so. "Just so. You see, sir, it is scarcely possible that two individuals could have put one button in the bag, is it now?" asked the clergyman, with a bland smile.

PHYSICAL ENDURANCE

Athletes, as a Rule, Reach the Zenith of Their Powers Early. In athletic sports physical endurance plays the most important part. This is particularly noticeable in the Marathon races. In boxing, wrestling and rowing ability to stand the tremendous strain on the physical powers is essential.

LAUGH AND GET FINED

That Seems to Be a Common Occurrence in Germany. English law is occasionally subject to criticism, but for real comedy we are a long way behind Germany. In Berlin recently an ironworker was sent to prison for a week because he laughed. Going along the street he saw a merry-maker being chased by a particularly stout policeman, and the sight tickled him. He was promptly haled before the court for scandal.

Curbing the Kickers

One of the St. Louis country clubs has an unwritten rule that whenever a member kicks for something he thinks the club ought to have it at once put in at his expense. Not long ago a member complained of the cream. "The club ought to have a couple of fine cows of its own," he growled. That ended the incident for the time being, but the first of the month he found the following item on his bill:

The New York Shake

I think that the New Yorker's share is symptomatic of the whole rate of life in New York. It is, if you will, luxurious, but you have to allow twenty minutes out of your day for it. In London I never allow more than five minutes. Here I lie down in a chair and say: "I'm in a hurry. Be as quick as you can, please." My barber surveys me with no look of interest and goes to talk for five minutes to the lady manicurist. When he returns I say from my recumbent position, "I'm in a great hurry." He says, "Yep?" interrogatorily as if I had given him a piece of quite uninteresting and dispassionate information. He goes to a mirror and for some moments examines a wart upon his cheek. Eventually he shaves me.—Atlantic.

True Eloquence

True eloquence, indeed, does not consist in speech. It cannot be brought from far. Labor and learning may toll for it, but they will toll in vain. Words and phrases may be marshaled in every way, but they cannot compass it. It must consist in the man, in the subject and in the occasion. Affected passion, intense expression, the pomp of declamation, all may inspire to it. They cannot reach it. It comes, if it comes at all, like the outbursting of a fountain from the earth or the bursting forth of volcanic fires with spontaneous, original, native force.—Webster.

DON'T WANT CLASH

France and Spain Anxious to Avoid War. Two Countries Wish to Prevent Repetition of Incidents Such as Have Occurred at Alcazar—Paris Papers Say All Will Be Well if Germany Will Be More Reasonable in Moroccan Dispute.

MODUS VIVENDI PREPARED

Madrid, July 27.—The main lines of a Franco-Spanish modus vivendi to prevent a repetition of incidents such as have occurred recently at Alcazar, Morocco, have been drawn up. It is expected that the agreement will be signed before the end of the week. Paris, July 27.—A closer understanding between France and Spain appears a probability, both countries being anxious to avoid difficulties growing out of clashes between the respective authorities in Northern Morocco. Definite arrangements are likely to be published within a few days.

Not Very Sanguine

Woodstock, Ont., July 27.—John A. Almas of Falden's Corners, one of the family said to be heirs to a huge estate left by the late Col. Baker, is not optimistic over his chances of inheriting a fortune. Questioned regarding his prospects by a correspondent, Mr. Almas said that he had no doubt that the estate was left and that he and his relatives were rightful heirs, but that he had great doubts whether sufficient proof would ever be brought forth to secure them the property after the lapse of so many years. This estate consists mainly of property in Philadelphia, and its value is estimated all the way from eighty million to three hundred million dollars. Mr. Almas says he will be glad to get anything that he can from it, but he will sell his chances at a very reasonable figure.

Taken to Hospital

Sault Ste. Marie, Ont., July 27.—Mrs. Neopolitana, recently committed for life imprisonment for the murder of her husband, was removed to the hospital here at midnight, for the delivery of her child, after which she will be taken to Kingston penitentiary.

A Growing City

Chatham, Ont., July 27.—The census will show that Chatham's population has reached 10,750. This is an increase of 1,600 since the last census.

RADIUM SAFES.

Lead Cases Used to Protect the Rays of the Strange Substance. Radium is such a strange substance that but few persons in all the world are perfectly familiar with it and its peculiar properties. It throws off a peculiar ray of light, and if not protected it will in time exhaust itself, going no one knows exactly where. Its emanations are such that there is but one known substance through which it cannot pass, and that is pure lead. For some time the problem of complete protection against its own loss through emanations and the possible loss by burglars was a puzzle to scientists and mechanics, but finally a safe was constructed in London with an inner cell of lead about three inches in thickness, surrounded by a specially prepared outer safe, which is said to be a perfect safe for radium. The safe door is round and so adjusted as to make it possible to disclose any slight defect that might be caused by the use of the opening, and in the inner portion of the door are openings through which tubes containing mercury can be placed to collect any emanations resulting on the interior during the confinement of the curious substance. Mercury collects the emanations and prevents loss in that direction.—Los Angeles Times.

PROGRESS AND MISERY

The Progress Must Go on, and the Misery May Be Modified. Many of the inventions of civilization have their unhygienic side. The invention of houses has enabled mankind to dwell in all parts of the world, but it is responsible for tuberculosis, especially after glass was devised, which, while letting in the light, keeps out the air. The invention of the alphabet and printing has made possible the accumulation of knowledge, but it has produced eye strain, with all its attendant evils. The invention of chairs has added to human convenience, but it has led to spinal curvature and abdominal congestion. The device of a division of labor has added to wealth, but has destroyed the normal balance of mental and physical work, recreation and rest. Similar fault may be found with clothing, especially corsets, shoes and hats, and with numerous other contrivances. Yet it would be foolish, even if it were possible, to attempt to "return to nature" in the sense of abolishing civilization. We must not go backward, but forward. The cure for eye strain is not in disregarding the invention of reading, but in introducing the invention of glasses. The cure of tuberculosis is not in the destruction of houses, but in devices for ventilation.—Dr. Irving Fisher in New York Christian Advocate.

Feared Burial Alive

The dread of premature burial haunted Harriet Martineau, who would certainly not be classed as a fanciful person, and she bequeathed £10 to her doctor to see that her body was decapitated before burial. Edmund Yates in his will stipulated that his jugular vein should be severed and left £20 to pay for the operation. Lady Burton took even stronger precautions. She enjoined that her heart should be pierced with a needle before any steps were taken to certify her death and that her body should afterward be submitted to a postmortem examination.—London Chronicle.

Lucky or Not

"Eve was really a very lucky woman," remarked Mr. Henpeque. "She didn't have any woman to criticise her clothes." Mrs. Henpeque's eyes snapped. "On the other hand," she retorted, "she didn't have any woman around to envy the first gowns a woman ever had."—Cincinnati Commercial Tribune.

Life

Life is the finest of the fine arts. It has to be learned with lifelong patience, and the years of our pilgrimages are all too short to master it triumphantly.—Drummond.

else we may die before we ever laugh at all.—La Bruyere.

WERE RELEASED.—The two men who were arrested yesterday upon advice from the Captain of the Steamer North King were released to-day and one of them was sent back to the States.

BLACKSMITHS ORGANIZED.—Over 5000 blacksmiths doing business throughout the Province of Ontario have organized and will apply at the next session of the Legislature for incorporation as an association. The will ask power to compel all blacksmiths who shoe horses to pass an examination.

CAMP NOTICE.—The members of Victoria Encampment No. 25, I. O. O. F. are requested to attend a regular meeting on Friday evening July 28th at 8 o'clock, for the purpose of meeting District Deputy Grand Patriarch, J. H. Perrin, of Whitby, who will install the officers for the coming term.

DON'T DELAY.—Owing to the large number of inquiries for booths for the Firemen's Tournament and Musical Festival, on August 9th, the Committee have decided to increase the number of privileges to six. The plan of grounds with spaces for booths may be seen at Mr. G. A. Outram's hardware store. First come, first served.

HO! FOR TWELVE O'CLOCK POINT.—August 14th—Keep the date clear. St. Mark's Parish Picnic will be held again this year at Twelve O'Clock Point. The picnic and excursion held there last year was such a pleasant and enjoyable outing for the day, the same trip has been requested for this year by nearly all those who enjoyed it so much last year. The steamer Argyle has been secured for Aug. 14th, leaving Port Hope at 8 o'clock a. m., calling at Cobourg on the way. Further announcements later on.

MILL STREET CHURCH S. S. PICNIC.—The Mill Street Presbyterian Sunday School picnic was held at the Town Park Wednesday afternoon. There was a large attendance, and games and races were indulged in during the afternoon, and a big baseball game in the evening, the St. Paul's and Y. M. C. A. teams putting on a fine exhibition of the soft ball. The game was fast and exciting all the way, the Saints starting on and pulling up a score of eight runs in the first two innings, and holding the Y's down to one run. After this the Y's settled down and held the Saints down to three scattered runs and running up a score of 14, making the score 14 to 11 in favor of the Y. M. C. A.

Full particulars from any Grand Trunk Agent.

BLOODHOUNDS AS AGENTS OF JUSTICE.—The Supreme Court of Kansas has just upheld the bloodhound as an agent of justice. In November, 1910, Joseph Anderson was murdered. He lived in Graham County. There were tracks about his home, bloodhounds were put upon the trail and they followed it to the home of Glen Adams, six miles distant. The tracks around the Anderson home and around the Adams house corresponded with the shoes that Adams wore. The hounds and the shoes were all the evidence against him, but the Supreme Court, to whom the case was appealed after the man was convicted, decided that the evidence was sufficient and Adams will have to hang.

ABOUT RECIPROCITY.—It is habitual to dread the unknown. In the reciprocity discussion we have witnessed the anomalous situation of American farmers fearing Canadian competition, and quite a minority of Canadian producers predicting injury as the result of American competition. Both magnify the competition, and both are wrong. As well the New York farmer dread his Michigan cousin, or the Ontario farmer the habitant of Quebec. Let reciprocity come into force and international competition will be no more feared than interprovincial. The easier access to natural markets will doubtless benefit many farmers of each country in the long run.—Farmers' Advocate.
