He said: We are living in a day when money.

Not for a long time have these believed in and feared eternal forment. And their present attitude is one of doubt respecting everything connected with the Bible. They well connected with the Bible. They well know that outside the Bible there is know that outside the Bible there is nothing but guess work, and they prefer their own guesses to those of other people. Very many of them speak candidly and tell that they are agnostics, that they are uncertain and would like to be informed re-

specting the future. A very similar condition growingly prevails amongst the poorer classes and the uneducated, who say, We believed the scholars when they told us the Bible was inspired. Why should we not believe them now when they declare that it is a fraud? As the wealthy doubt that God will specially favor them, so the poor doubt whether God will specially disfavor them. Both classes are reach-ing the conclusion that fortune or disaster rests, not with the Lord, but

with themselves. The effect of all this loss of faith in an Almighty God is seen on every hand and is felt by many. One of the consequences is that the religious element of man's nature is becoming numb and the masses, rich and poor, are seeking a substitute in pleasure; as the Apostle's words foretold, they are "lovers of pleasure more than lovers of God." Additionally, many of the wealthy carry on a kind of brigandage along commercial lines. Desirous of imitating them, but unable so to do, others are filling the world with violence to an extent that is alarming to everybody. Were it not for our elaborate and costly police protection life and property would be far less secure in civilized lands than amongst the heathen. With all the protection afforded by telephone, telegraph, police, etc., etc., our rulers and officials tell us that they are often bewildered in their attempts to

preserve law and order. Many learned men believe that there is no other God than Nature; and many of the unlearned are fol-lowing their lead. They reason that Nature served them as both father and mother, that Nature is pitiles, unsympathetic, cruel. Indeed, this is one of their special arguments against a personal God, for they say that such a God would not permit the sufferings we witness on every hand and the still more terrible suf-

take cognizance of our affairs. We cannot know in what manner the electric or lightning flash serves as a Divine messenger. Lut we can believe that a Soul so Infinitely high above us possesses powers of informa-tion as far beyond our comprehention as far beyond our comprehen-sion as the telephone and wireless telegraphy and electric light were beyond the comprehension which our forefathers had of these things in their day. It is easier to believe that so great a Being as the One who formed man should have all wisdom and all power than to believe Him deficient of these. The Scriptural argument is a good one: "He that formed the eye, shall He not see? He that formed the ear, shall He not hear?"

The creeds handed down to us from the dark past declare that God it the dark past declare - omnipresent, everywhere present - omnipresent. This is as unthinkable as it is fool-ish and unscriptural. Taking advan-tage of this error of "orthodoxy," the Adversary has turned many away from a belief in a personal God. He who is everywhere is nowhere. The result is the absurd view which has ligent people, to the effect that good and God are synonomous. Hence a log of wood that is good for some-thing, that can be made into something useful, is said to have good in it, and, hence, to have God in it-ditto, a piece of iron, a bed, a chair, ditto, a piece of iron, a bed, a chair, a table. The folly grows into saying that God is everywhere and is in everything. Thus faith in a "god of nature and happen-so" takes the place of faith in the God of the Bible, whose residence is in heaven, but whose intelligence and power ex-tend throughout the Universe, in thousands of ways of which we are coals learning through electricity only learning-through electricity, radio activity, etc., besides angelic messengers that can come and go like the wind.

Our text, misunderstood, is supour text, misunderstood, is sup-posed to teach Divine omnipresence, whereas it really teaches Divine om-niscience and Almighty power. The Lord's presence, as represented in His intelligence and power, are everywhere. Nowhere could we go to be beyond His reach and beyond His travelades. Ware this theoret the knowledge. Were this thought thor-oughly impressed upon every human mind, what a vast difference it would make in human conduct from that now seen-in Wall Street, in banks, in palaces, in hovels, in saloons, in gambling houses-everywhere. It is the great lesson needed by the whole world. Everyone who believes this should join with nature in attesting Divine Wisdom, Power, Justice and Love

· But really the undermining of faith in the God of the Bible has been accomplished largely by the misrepre-sentation of the Bible's teaching Our text, for instance, is supposed to teach that God is in heaven with the saintly, rejoicing with them and enjoying their pleasure and that He also is in hell with the unsaintly, looking upon their sufferings and tortures and planning with devils for their everlasting continuance. Think-ing minds are rejecting such nonsense, but, alas, they are rejecting the Bible, too, hence have no foundation for a better, truer faith.

Every educated mir ster that I tell the Truth to the common people when I say that the word he'll in our text has not the slightest reference to a place of torture, or even of consciousness. Indeed this is true of every occurrence of the word hell, from Genesis to Malachi. In every instance the translation is from the same Hebrew word, sheel, which signifies the grave, the tomb, and is thus most frequently translated. I urge upon all ministers of education to join with me in explaining to the public the true meaning of the Hebrew word sheel and the Greek word hades. Whatever may have been their thought of expediency in the past they should see that the mis-taken views of the meaning of these words are undermining the faith of Christendom. The Psalmist really said, "If I ascend up into the sky. Thou art there; if I make my bed in sheol (the grave), behold. Thou art there ••• In the uttermost parts of the sea, even there shall Thy hand lead me and Thy right hand shall hold me. The thought is that the Divine Power is everywhere, that whether we live or die, nothing can separate us from God's Wisdom and Power and from the ultimate accomplishment of our rescue from the power of the grave, which God has purposed and has promised shall be done through the great Messiah. For His Kingdom we wait and pray. The word orthodox signifies "correct in doctrine." I am ready to ad-mit that my presentation is not the ordinary one-but I claim that it is correct, that it is the true doctrine of the Word of God. If so, it is orthodox, in the highest sense of that term, and everything to the contrary. being opposed to the standards of God's Word, must be unorthodox. Everything depends upon our stand-ard. I stand for the Bible, its teaching, its doctrines, and therefore am orthodox. On the contrary, Higher Critics and Evolutionists and those who hold the creeds of the "Dark Ages," contradictory to the Bible, are proportionately unorthodox-hereti-

us free." Let us accept the Bible as the only standard. Let we study it and understand it to the extent of our ability. Let us rejoice in every degree of harmony we all attain in the correct understanding of it. Let us fellowship as Christians all who acknowledge its Divine authenticity and who, in harmony with its presentation. are trusting in Jesus as their Rede-mer; and who, in acceptance of His invitation, have forsaken all to be His footstep followers. These are the real Christians, with

have become identified, through the supposition that they were doing the will of God. These alone are the saints; these alone are running in the race course; these alone have the opportunity of making their "calling and election sure." The masses known as Christendom are unchristian in every sense of the word. They are civilized heathen, in the sense that they do not recognize any more than do the heathen, a personal God of glorious character .perfect in His of giornous character , perfect in His Wisdom, Justice, Love and Power. They realize not His All-seeing Eye. And their general lives show their lack of this knowledge and this faith. More than this (shall we say it?) the majority of professed church members, so far as we can under-stand their sentiments as privately expressed and publicly declared by the ministers of their choice, are no more Christians than are the Jews. They neither believe the Bible to be the Divine Revelation nor do they accept the Lord Jesus Christ as the world's Redeemer from sin and death. Of course, therefore, they do not profess to consecrate their lives to sacrificially follow One in whose rademptive work they do not believe. Comparatively few of the hundreds of thousands of those who have named the name of Christ, and who have come under various denominational yokes, have any knowledge of the Mystery of the Cross of Christ, the Mystery of the Gospel, "The Mys-tery which hath been hid from ages. and generations, but now is made manifest to his saints" (Colossians

, 26). Alas, the majority seem content to have merely a "name to live" and wish merely to be called Christians and to wear a jeweled cross. It is but the few of those who have tasted that the Lord is gracing and have but the few of those who have tasted that the Lord is gracious and have felt an earnest desire to know and to do the Father's will at the cost of self-sacrifice. With the majority the intimation that a certain course in life is the "narrow way," the way of the Cross is sufficient to turn of the Cross, is sufficient to turn them in an opposite direction; for, while they would like to share the heavenly glories and honors of the Lord, they are unwilling to be shar-ers in His ignominy, sufferings and death death.

These, without relinquishing their These, without relinquishing their desire for righteousness, are disin-clined to go to such lengths as the Master and the Apostles taught and exemplified. Hence, they are not interested in the "deep things" of God's Word, but merely in the more superficial. In the language of the Scriptures, they are willing to say. "We will est our own bread, and Scriptures, they are willing to say, "We will eat our own bread, and wear our own apparel; only let us be called by thy name, to take away our reproach" (Isaiah iv, 1). The fault lies largely with many of the clergy, who are not leading the people to "the faith once delivered to the saints," but away from it. The Scriptures most distinctly teach that we are under the reign of the

that we are under the reign of the "Prince of this world," Satan, and that our Lord at His Second Coming. in power and great glory will bind or restrain this strong one and over-throw his empire, which is not of Divine authorization, but built upon human weaknesses, ignorance and superstition. We are distinctly told that Satan shall be bound for that thousand years (the Millennium) that he may deceive the people no more until the thousand years shall be Surely, then, the Lord has used the great Adversary to assist in the ac-complishing of the Divine purposes. Satan may have supposed that he was frustrating God's plans, but just as surely he was mistaken. The Divine Word is sure which declares, "My Word that goeth forth out of My mouth shall not return unto Me void, but it shall accomplish that which I please, and it shall prosper in that whereunto I sent it." It is time that all who really believe in the Bible, who really believe that Jesus left the glory of the Father and humbled Himself even unto death, thus providing the redemptive price for the Church and for the world, should proclaim these facts clearly, positively. They should also declare, as do the Scriptures, the Second Com-ing of the Redeemer and the establishment of His Kingdom in Divine power and majesty, for the putting down of sin and the lifting up of man-kind to glorious privileges of restitution, with a just penalty against every form of sin, and the Second Death as the penalty for wilful, persistent disobelience.

ferings which the creeds of Christendom have taught them are in store for all except the saintly few. It is time that we return to

Bible proposition and see the truth of the statement, "The fool hath said in his heart, There is no God." Surely there is something wrong with the brain which, after noting the wonders of nature, seen in the surrounding worlds and systems and attested in all matters earthly, sees not an in-telligent Creator! The wonderful adaptability of our own bodies tells of a wise Creator.

we compare the human eye adapted to its purposes and condi-tions, with the eye of a fish, adapted to its different conditions, and with the eye of a beetle, adapted to still different conditions, we see the most indubitable proofs of profoundest wisdom and superhuman skill. When we think of man's wonderful powers and of his great achievements in the world and then consider his inability to make a single living thing, from a microbe to an elephant, from a tiny seed to a tree, surely we should concede that the One who ordered nature in the production of these wonderful variations, and created man himself, must be an A'mighty, intelligent God. Surely "Day unto day uttereth speech and night unto night showeth knowledge" along these lines, to those who have the eyes of understanding to see. It is time that these great truths were being emphasized and that the boastful gentlemen who ignore them should have their true measure taken, re-gardless of how many titles may follow their names. We grant that our feeble minds are unable to comprehend so great, so universal an Intelligence.

## **PEOPLE WILL DECIDE**

Dissolution of Parilament Took Place on Saturday.

## POLLING ON SEPTEMBER 21

Unique End to Eleventh Parliament of Canada - Closed Without State Ceremony-Sir Wilfrid's Masterly Summing Up of Reasons of Prorogaton - Mr. Borden's Statement-Nominations Sept. 14.

Ottawa, July 31 .- The Liberal Government decided at noon yesterday upon the immediate dissolution of Parliament. To a jull conference of his Cabinet Sir Wilfrid Laurier announced the Governor-General had granted permission to appeal to the people on the reciprocity question. The Ministry fixed upon September 14 as nomination day, with elections to follow one week later, September 21.

The decision, which has been trembling in the balance for the past two weeks, was reached after seeing that the Conservative opposition would block reciprocity indefinitely, and, as Sir Wilfrid announced repeatedly in Parliament, that the one matter be-fore the House was the ratification of the Washington agreement, Government business was at a standstill. The Premier told his colleagues that the only way out of the present impasse was a general election, allowing the people to decide for or against reci-

procity. The Government made September 21 election day, as being the earliest possible date that would be convenient for western Canada. The Ministry was reluctant to bring on the elections before the harvesting movement had been completed.

By the compromise agreed upon between the Conservatives and the Liberals before the two months' adjourn-ment to allow the Premier and Parliamentary contingent to attend the coronation of King George, the Gov-ernment has supplies until September 1. Consequently, there will be but three weeks' interval after the money voted by Parliament is all expended, and for this short period the Minister of Finance can readily negotiate a temporary loan with the Bank of Montreal, as is customary.

One of the factors entering into the decision for immediately dissolving Parliament was the departure Friday night of some score of members, who announced that they would not return, despite the Speaker's adjournment until Monday only. It was feared that too few members would be left to carry on even the routine business. Know ing that elections were in the air, every member was anxious to get into his own constituency to make his calling and election sure. A red hot campaign is now launch-

ed upon the Dominion, and, by agreement of both parties, reciprocity will be the one and only issue.

## Sir Wilfrid Makes Statement.

Ottawa, July 31 .- Sir Wilfrid Laur. ier, in an address to the Canadian people, issued Saturday after the dissolution of Parliament, places the issue before the electors, in part, as follows:

"At all times during the last forty years it has been the constant effort of all political parties in Canada to make with the United States an arrangement for the free exchange of natural products between the two

decision. Referring to the Oliver enquiry, he said: "It is a distinct breach of con-stitutional usage that Parliament should be dissolved while one of its committees is engaged in the investi-gation of charges which involved the honor of a Minister of the crown and the fate of the Government. Such a course constitutes an alarming and dangerous precedent which would not be tolerated in the Mother Country. It was the duty of the Government

clear up those charges before appealing to the people, and that could have been done in one week. Several witnesses summoned by the committee are in Ottawa to-day ready to give their evidence on Tuesday. The com-mittee and all its powers of inquiry was wiped out of existence by the dissolution of Parliament. The course of the Coursement in deliberated of the Government in deliberately burking this inquiry on the eve of an appeal to the people was an outrage-ous abuse of their power and mani-fested in a most striking manner their utter contempt of decent public opinion.

## COLLISION IN MAINE.

## Railroad Disaster Claims Eight Dead and Fourteen Injured.

Grindstone, Maine, July 31 .- Eight persons are dead and fourteen seriously injured as the result of a head-on collision which occurred at the Bangor & Aroostook Railroad station hershortly after nine o'clock on Friday night. The trains were a special of three light coaches containing about 150 excursionists, and a regular passenger express.

Five of the dead were passengers on the excursion train. The other three included the two firemen and the engineer of the special. The five passengers killed and all of the injured were in the smoking car directly behind the engine of the excursion train. Both trains were moving slowly at the time, one of them just pull-ing out of the station and the other slowing down for a siding where the trains were to have passed. The accident appears to have been due to a misunderstanding of orders. None of the cars left the rails, and the passengers on the regular escaped with a slight shaking up. Grindstone is a small settlement of

not more than fifty persons, with no facilities for the care of the injured. They were cared for temporarily by physicians on board the trains and early yesterday were placed on a spe-cial train to be taken to Millinocket.

Cruiser Had Been at Yarmouth Roads at a Celebration and When Storm Came Up Put Out For Deep Water -At Last Word She Had Been Released, But the Damage Has

## Not Yet Been Reported.

Halifax, N.S., July 31.-It was a close call that H.M.C.S. Niobe had on Saturday night when she touched the southwest shoal off Cape Sable and came within an acre of a frightful disaster. She got off with her starboard engineroom pierced and with water rising there and aft, but was able to keep it down by her own pumps. The first news of the stranding of the cruiser came shortly before one o'clock yesterday morning by wireless from Cape Sable. Commander MacDonald reported that the Niobe was in grave peril and required assistance

At 6.45 he sent a wireless that the cruiser was afloat and asking for a convoy, and stating that the ship's pumps were keeping the water down. The Niobe had been at Yarmouth as one of the chief attractions at a big old-home week celebration at that place, and she was to have sailed to-

day for Liverpool, N.S. The depth of water did not permit the cruiser to proceed up Yarmouth harbor, so she anchored in the road-stead outside the bay. A despatch from Shag Harbor last

night says the Niobe has arrived there under her own steam and is anchored in nine fathoms of water. She was convoyed in by a tug from Yarmouth. Shing Harbor is ten miles west of the place where she struck. The Niobe's divers went down to examine the bottom of the cruiser, but no report from them has been received here. The Government steamers Lady Laurier and Stanley have not yet reached the scene, the dense fog still prevailing. The Department of Marine now ex-pects the Niobe at Halifax this even-ing if the fog lifts.

Saturday night there was a heavy southwest gale, and Commander Mc Donald apparently considered it the part of prudence to put to sea. But a dense fog hung over the entire coast. The Niobe had more searoom outside, but she did not reckon on the fierce current that raced and the ship drifted on to the southwest ledges off Cape Sable, the most dangerous part of this rockbound coast. By midnight the Niobe had found herself on the edge of the rocks, and she was sending out wireless messages for assist ance.

## SLAIN ON STREETS Toronto Italian Is Victim of

Daylight Outrage.

SLAYER STILL AT LARGE

Young Man Named Tarro Is Dead as Result of Dastardly Sunday Afternoon Attack When He Was Shot

Down by Enemy-Police Have Clue to Murderer and Are Hot on His Trail To-day.

Toronto, July 31 .- A cold-blooded murder, done in broad daylight right at the corner of Church and Front streets-that was the tregedy which broke in upon the Sunday quietude of the down-town part of the city about four o'clock yesterday afternoon.

The victim was a young Italian named Tarro, 23 years of age, residing at 165 York street, who was shot and killed by bullets from a 38-calibre revolver of the Iver-Johnson type.

After his cowardly attack, the mur-derer left Tarro lying on the pave-ment with his life-blood streaming away, and succeeded in making good his escape down a lane leading from Front street to the Esplanade.

A number of Italians, who were able to impart information, were rounded up very quickly and from them the detectives extracted much data which they hope will aid them greatly in the search for the missing man. Among those who were called to the City Hall was Frank Motto, the Police Court interpreter, and he learned from the other Italians that the deed was most probable committed by one of two men. A search was at once begun with the result that one of the

two was not to be found. It so happened that a police phote was obtained of one of the men men-tioned and this the two witnesses recognized as that of the man who escaped by way of the lane.

Both men were well dressed, the criminal being clad in a blue suit, Christie hat and tan boots. He is described as being about thirty years of age and standing five foot seven of eight inches and well developed.

The victim is a young man. He wore a drab-colored striped suit, black socks and low buttoned black shoes. In the left lapel of his coat is a hole where one of the bullets passed through, and on the right lapel, but slightly more towards the mid-line and a couple of inches lower, is a hole where the second bullet entered. The man's face was completely covered with blood, he having apparently rolled over on his face when he fell, after receiving the fatal shot.

The only eye-witnesses of the affray were two women, who were walking along Front street and had reached the west side of Church street, when the fatal scuffle began.

Apparently waiting for a car Tarro was standing at the northeast corner of Church and Front streets, when his assailant approached from the east side, took two or three steps in front of Tarro, turned around suddenly, and whipping two revolvers from his hip pockets fired four shots from one, dropped the other and then made his escape across Front street and down the lane twenty yards east of Church street, between Maclaren's warehouse and that of Lyman Bros. & Co. It was at first believed that the murderer had sought safety in the old cold-storage building down near the Espla-Through Tourist Pullman Sleepnade, but the police failed to find him

'In 1854 Lord Elgin, on behalf of Canada and the Maritime Provinces, negotiated with the United States a treaty for that purpose, which lasted until 1866. and which, within the memory of many still alive, was of the greatest advantage. Ever since the termination of that treaty all pub-lic men of any prominence in Canada, whatever their differences on other questions, have been unanimous in the attempt to again secure this free exchange of natural products.

The present Conservative party in Parliament seeks absolutely to reverse the lifelong policy of its great leaders in the past, declaring that it will op-pose to the bitter end the very prin-ciples enunciated by both Sir John Macdonald and Sir John Thompson.

"This agreement, which in no way impairs our fiscal policy, which still maintains at the topmast the fecund principle of British preference, this agreement, by opening new avenues of trade hitherto closed, would further improve the friendly relations which now happily exist between this coun-try and the Mother Country on the one hand, and the American Republic on the other hand, and which, it is hoped, may at no distant day, eventuate into a general treaty of arbitra-tion the effect of which would be to remove forever all possibilities of war between the great Empire of which we are proud to form a part, and the great nation which we are proud to have as neighbors."

## Mr. Borden's Statement.

Ottawa, July 31.-Mr. R. L. Borden, leader of the Opposition, gave out the following statement last night: "The dissolution of Parliament came as a great surprise to the supporters of the amendment. They evidently knew no more of the intention of the Government than they knew of the reciprocity agreement up to the 26th of January last. Apparently the Government decided upon dissolution in a hurry or even in a panic, as they gave no intimation to the many members on both sides of the House who are accustomed to spend the week-end with their families and who left their homes on Friday night without receiving the courtesy of notice. The Liberal-Conservative party

welcomes an appeal to the people up-on the great issue which has been under discussion in Parliament. The President of the United States has more than once emphasized the fact that Canada is to-day at the parting of the ways. Those two ways lead in very divergent directions. The choice of the people will be fraught with /momentous consequences to the future destiny of this country. ## Gales on East Coast.

Boston, Mass., July 31.—That the tale of the gale that swept the eastern New England coast Friday will not be told completely for some days seemed evident when each hour brought succeeding chapters of ship-wreck, disaster and loss of life from one of the earliest West Indian hurricanes that have rushed up from the

tropics in many years. At noon Saturday four coastwise sailing vessels were fast on the rocks and beaches, or helplessly adrift off the coast, while from Cape Cod to Bar Harbor, there was scarcely a harbor that did not show disabled yachts.

### Grain Weighers Arrested.

Winnipeg, July 31 .- The ramifica-tions of the wholesale robbery of freight cars, covering a period of two years, attributed by the C.P.R. secret service to a number of grain weighers of the Dominion Government, reached new proportions yesterday, when Jake Movane, the proprietor of a north side store, was arrested, charged with receiving loot. Seven Dominion grain weighers are now under arrest and the detectives assert that a number of other men employed in a similar capacity are to be taken into custody, twenty in all.

fighting the flames, but at a late hour there was no indication that they would be controlled within any short time.

## Feet Cut Off.

a man answering the description given b ythe two women, who saw the shooting, run across the car tracks at the Esplanade and disappear in the direction of Yonge street.

At an early hour yesterday morning the entire staff of city detectives and Inspector Duncan, were searching for the murderer, believing they could identify him and that he was still within the city limits.

## Six Fatal Accidents.
