CONFERENCE MEETING

First Draft of Stations-Pastoral Address Is Presented

The meeting of the Conference esterday was confined to ministerial sessions and the delegates had a busy day and made splendid progress.

The delegates were delighted with an address from Dr. Burwash, Chancellor of Victoria College, Toronto. He told the meeting that today quality was needed more than quantity in the missionaries sent to foreign fields. becoming better. "God is fulfilling himsel' in many ways."

Notwithstanding these encouraging signs of the times, there are certain dangers into which we are as his first command to the apostle, prone to fall. Some of these let us note : Modern machinery for doing the work of the Kingdom of Christ is complex to a remarkable degree ; perhaps fully as much so as is good dom of heaven." Our duty is plain for the individual membership of the Church. God is not so much in the method as in the man. Personal responsibility may not therefore be lost sight of without serious harm resulting. In our struggle with the Hero, and Working with and not hydra-headed monster intemperance, let us not forget to seek the salvation of the drunkard and to train his little children and our own in purity us too long-sighted. The man at Money is absolutely necessary for is the primary consideration. Peace neighbors should be sought.

In the Missionary Enterprise, rations and declarations are of some the stagnant pool. Let the floods lift up their voice. Destructive criticism may reveal to us the truth, but it should be carefully and tactdestroy but to fulfil.

Union of Churches may be a desired but unity of the spirit in the fund. bonds of love must precede this.

Having noted some of the encouraging features of modern life, of, let us view the prospect before us, and study the ways and means of the Kingdom of God that we We have to-day in the Divine Providence presented to us for solution and abandons the ministry. as a land of Bibles and Churchesa Christian country not only in name but in fact as well. How shall we assimilate the incoming millions that invade our land and settle in our communities? Yea more, how shall we do our share in Bowmanville. bringing the world to Christ? To save the myriad millions of the lost, to attack the institution of evil, and destroy them, to thoroughly establish the Kingdom of Christ in our Country, and help evangelize the world, to christianize the laws, the institutions, and the social relations of our people, to realize the Kingdom of God by the application Pethick efficiently presided at the the Mount in our life, to produce a meeting. Miss A. Hampton gave Christian solution to every question 1 that relates man to man as a citizen and social being, these we believe are works to be wrought only by an all-wise and all-powerful, God, through the instrumentality of an dialogue on mental arithmetic, entirely sanctified and divinely illuminated Church. How shall we do our part of this God-given task? We answer first, by Evangelism. The work of the Christian church is ever to save life. We evangelize or fail. We do not prescribe the special method or designate the particular means, but this work is primarily and fundamentally the salvation o the soul. Pastor and people may well rouble their hearts if Christ is not doing this work through their efforts. We need not congratulate ourselves on our numerical strength and perfect organ: ization, if small churches with fewer members and less influence socially and otherwise, are doing more effective evangelistic work than are we. Cathedral churches, where wealthy and respectable congregations listen to e oquent discourses delivered by scholarly preachers, are an asset to our denomination, if they are the resort of the outcast and the hospital of sin-sick, if the reek and defilment of human sewage is cleansed and made respectable there, Let us remember- too, that this responsibility rests as well upon our rural congregations which meet us in quiet hamlets. Shall we not write upon the lintels and doorposts of every institution erected and maintained by the people called Methodists, "Salvation to our God." Nay more upon the hearts and minds of our membership.

And in this work let us not forget the children. Evangelism of prevention is a continually pressing duty. The child-loving Christ gave who had learned His love, "Feed my lambs." "Suffer little children," said he, "to come unto me and forbid them not for of such is the king--to conserve the life of the children is the most important work of the church. Let us, therefore, give ourselves to this task, presenting Christ to them as their Friend and against their nature, that they may grow up in Him.

Our next duty as a church is to strengthen and enlarge the kingdom and sobriety. Laws are good but of God by education of the individ-there are men above law. his self-respect. He was in no concern for his daily bread. With narrower re-sources in the world of print, he might have been compelled, like many another journalist, to swallow his objections and write as Runcorn dictated; for the humble folks at home could not starve to allow him the luxury of conscientiousness, the luxury of conscientiousness, whatever he might have been disposed to do on his own account. POINTS TO CHINESE ARMY.

Against Danger.

St. Petersburg, June 1.-In a lead-ing article yesterday The Novoe Vremya points warningly to the Chinese armament in Manchuria, which, it says, calls for the greatest vigilance

on the part of Russia. The paper declares that 6,500 European trained troops are being quar-tered in the towns and villages within a three days' march of Harbin, and that auxiliary troops are being maintained in the same area; that 9,000 so-called rural guards have been draft-ed along the Chinese Eastern Rail-road, and that four divisions of regular troops have been stationed at the various strategical points in the province.

Owing to the continued warm weather and the more liberal supplies of cattle, a weaker feel-ing prevailed in the market and prices show a decline of ½c per lb. since Mon-day. At this reduction the demand was only fair from butchers and sellers in some cases found it impossible to make a clearance. The trade on the whole was good, with sales of steers ranging from some cases found it impressive to make a clearance. The trade on the whole was good, with sales of steers ranging from Sc to Sic; cows, from Sic to Sic, and buils, from Sic to Sc per ib. The market for hogs was weaker on account of the larger offerings, and prices ruled Sc per cwt. lower than on Mon-day. The demand was fairly good and sales of mixed lots were made at \$5.50 per cwt, weighed off the cars. A fair trade was done in sheep at prices ranging from \$4 to \$5, and spring lambs, at from \$2 to \$4.50 each. The demand for calves was good and prices were steady at from \$2 to \$5 each, as to size and quality. At the Montreal Size Yards. West End 'Market, the receipts of live stock were 250 cattle, 200 sheep and lambs, 550 boys and 500 calves. This market was also weaker for cattle and the prices realized were much the same as quoted above. Broke Ankle Jumping From Freight Car ...

Belleville Ontario

Some G. T. R. cars were robbed last evening at Oshawa and a message was received here stating that some ten or fifteeh men had left that town on a freight train on which they were stealing a ride. Five of the crowd were arrested at Cobourg, but the rest managed to make their escape from the police. A short distance out of Cobourg these latter returned to the track and caught the train again. The Grand Trunk people arrested them and locked them up in a car, but they broke out by means of a hammer which they had with them. Getting near this city one of the men stealing a ride in trying to get away from a brakemen, jumped from the top of a moving freight car at Vandervoort's crossing and fell to the side of the track breaking his ankle. Two others were arrest ed by the Belleville police ot the local depot, whither they had been called by Mr. L, Coleman, ass't superintendent. The young man whose ankle is broken is Wilfrids Pendleton of Kingston. He was found by Mr. Percy Thompson near Vandervoot's crossing and brought to the police station after 9 o'clock last night. Chief Newton arranged to have him taken to the hospital for treatment. He is 22 years of age. The two arrested are Wilfred Turcott, aged 18, and Robt. O'Brien aged 17. They are charged with trespassing on the G.T. R. In court this morning they pleaded to the charge of stealing rides and stated their homes to be in Kingston. They had come from Toronto and were on their way to the Limestone city. O'Brien declared that they were ordered off at Cobourg and that they had started to walk down the street when drunken tramps who had been on the same train, met them and made them re, turn to the train. They were shut up by the hoboes in a car. Magistrate Masson was inclined to take a lenient view of their case, but remanded them to jail until Monday next, so that further information may be obtained as to the nature of the theft in Oshawa and the men arrested at Cobourg.

We notice that Mr. Jess Byam has repainted the front of his store white. We admire his taste for it gives it a bright, cheerful aspect. We all should cultivate cheerfulness which is our God-given privilege, having the promise of the life that now is as well as of that which is to come, and it has been truly said -Man's chief aim is to glorify God and enjoy Him both here and hereafter.

Mrs. Jacox, the widow whose wrongs had made such an impression on Malkin, announced herself, in a thin mealy face and rag-doll figure as not less than forty, though her irresponsible look made it evident that years profited her nothing, and suggested an explanation of the success with which she had been victimised. She was stylishly dressed, and had the air of enjoying an unusual treat. Her children were of more promising type, though Earwaker would hardly have supposed them so old as he knew them to be. Bella, just beyond her fourteenth year, had an intelligent prettiness, but was excessively shy; in giving her hand to the stranger she flushed over face and neck, and her bosom palpitated visibly. Her sister, two years younger, was a mere child, rather self-conscious, but of laughing temper. Their toilet suited ill with that of their mother; its plainness and negligence might have passed must muster in London, but here, under the lucent sky, it seemed a wrong to their budding maidenhood.

British Capital Has the Worst Electrical Disturbance In Many Years and Lightning Plays Havoc With Life and Property-Bad Storm Ravages Pittsburg - Little Girl Drops Dead From Fright.

London, June 1 .- The exceptionally high temperature that prevailed dur-ing the month of May culminated last evening in a terrific thunderstorm in London and the southern and western suburbs. Many persons were killed by lightning, which also struck num-erous churches and other buildings. 'An electric wire fused in the building of the Royal Exchange and started a fire, which, however, was speedily quenched.

The storm was accompanied by a deluge of rain, which caused a landslip on the Southeastern Railway near Merstham, blocking the line and flood-ed the Great Western Railway at Ealing, severely deranging traffic. full fury of the storm was felt at Epsom shortly after the horse races had ended, and thousands of the spectators were drenched.

The storm was the most severe that has visited London in many years. The thunder crashed and vivid lightning played with terrifying effect along the rails of the railroads and in the telephone and telegraph instruments, while the deluge of rain stopped motor vehicles, causing great inconvenience.

Altogether seven deaths as the re-sult of the storm have been recorded. Five of these - two policemen and three civilians-occurred in the neighborhood of Epsom Downs.

Four Die at Cleveland.

Cleveland, O., June 1 .- Four dead and a score injured was the toll of the terrific wind and rain storms which swept over Cleveland and vicinity yesterday, wrecked buildings, overturning boats in Lake Erie, breaking down wire poles, tearing up trees and smashing windows and signs on the streets. The storm was general in Northern Ohio and very destructive. Henry J. Render, 40, was fishing in the lake when the storm broke. His boat capsized and he was drown-The body was recovered. Anton ed. The body was recovered. Marani Malico, Gaivoni Cininico and Marani Giovannis were rowing off Edgewater Park. All went down but Giovannis, who chung to the boat and was rescued, only to die a half hour later in a hospital.

Twenty bathers at Edgewater Park, who took shelter in the bath house, were buried, when the roof fell on them. George Richards, 14, and Frank Heinberger, 11, were so seriously in-jured that they will probably die. E. A. Wright had both legs broken when a wagon was blown on him. John Gravini was struck by a piece of cornice, blown off a 11-storey building down town, and his skull was fractured.

Pittsburg Suffered Severely.

Pittsburg, June 1 .- With wind blowing 64 miles an hour, as recorded by the weather bureau, and rain that fell in torrents, a storm swept over this section of the state late yesterday. dealing death and damage in its track. Ethel Makrauer, aged 9, dropped dead from fright. George A. Martin, presi-

BANK ATTACKED. CANADIANS DINED Clerks Exchange Fusilade of Shots With Robbars.

Danville, Que., June 1.--A daring attempt to rob the Danville branch of the Eastern Townships Bank was made at an early hour yesterday morning by three masked men, who are believed to be part of a gang of yeggmen, who crossed the line from the United States some weeks ago. Shortly be-fore three o'clock two of the bank clerks, Thorbe and Greenshields, who were sleeping on the premises, were awakened by the sound of breaking glass. On examination of the front entrance of the bank, the two clerks saw three men, closely masked, attempting to gain an entrance into the office.

Screening themselves behind the desks, Thorbe and Greenshields opened fire on the intruders with their auto matic revolvers and for a time there was a fusilade of shots exchanged, the burglars returning the fire with alacrity as they retreated from the building. The sound of the shooting soon aroused the residents of the neighborhood, but by the time any appeared on the scene the yeggmen had decamped in the direction of Richmond, leaving no trace of their

identity. Chief McCaskill of the provincial detective department, was notified of the attempt early yesterday morning and despatched one of his men to Danville on an early train to work in conjunction with the local authorities

in the attempt to trace the gang. Acting on information recently com-municated to him by Chief McCaskill, J. P. Knight, of the Canadian Bank-ers' Association, had warned bank managers throughout the province that a well-organized gang of safebreakers was believed to be making for this part of the country and advised unusual vigilance in the safeguarding of branch banks at night. The advice of Mr. Knight was followed by the manager of the Eastern Townships at Danville, and two clerks were detailed to sleep on the premises. The unsuc-cessful attempt of yesterday morning shows the wisdom of the step.

ADRIFT ON LAKE.

Three Toronto Boys Spend Unhappy Time in Boat.

Toronto, June 1 .- After being tossed to and fro in a little 14-foot dinghy on Lake Ontario, without food and with the sparsest of clothing, for one day and two cold nights, G. E. Macklem, aged 19, of 345 Indian road; Edward Fleury, 29 Brooklyn avenue, and W. G. Harvey of Roncesvalles avenue, were cast ashore yesterday morning near Grimsby. Sighting a farm house they lost no time in securing a good country breakfast, and in 'phoning to Toronto relatives of their safe, but hardly timely landing on soil far from

where they had set sail. The unfortunate trio left Toronto Monday afternoon about 4.30, and sail-ing out the western gap followed the course taken by the wind. Little did they realize the peril they were in until their skill proved insufficient to steer their little craft against the stiff gale which had taken them far from city lights by the time the red glow in the western sky had vanished Helplessly they tossed all night on the waves, living in the hope that

some steamer would pass their way. The light came, but no vessel ap-peared within hailing distance. The night again fell and with the warm morning light appeared the land of some distant shore. Hope revived and the three struggling seamen made a last and successful effort to reach fety

Premier Ward of New Zealand Urges a Better System of Communication Between His Country and Canada -Union of Dominions Would Mean Solidity to the Empire-Laurier Replies to Toast.

London, June 1 .- There was an exceptionally large gathering at the Canadian Club dinner here last night. Lord Strathcona presided, and among those present were Sir Wilfrid Laurier. Hon. L. P. Brodeur, Sir Joseph Ward (Premier of New Zealand), the Right Hon. Lewis Harcourt (Secre-tary for the Colonies), Hon. Richard McBride (Premier of British Colum-bia), Hon. W. J. Bowser (British Columbia), Sir Edmund Walker, G. J. Desbarats, Col. Sam Hughes, Dr. J. A. Macdonald, Sir William Mackenzie, Sir Donald Mann, Hon. Walter Scott (Premier of Saskatchewan), Hon. A. L. Sifton (Premier of Alberta), and Chairman Smithers of the G.T.R. Sir Wilfrid Laurier, responding to the toast of "The Dominion," deliver-ed a lengthy eulogy on Lord Strath-cona. Referring to the growth of Canada, Sir Wilfrid continued: Can-da mas mally only discovered within ada was really only discovered within

the last twelve years as a new constellation in the western sky, a land | fit for hardy men, and offering to all the British institutions which Canada cherished as the apple of her eye. "Canada," concluded Sir Wilfrid, amid applause, "is the pride of the twentieth century, a gem in the Brit-

sh crown. Sir Joseph Ward, Premier of New Zealand, said he regarded Canada as the halfway post across the Pacific between New Zealand and the United Kingdom. They realized fully that in future years there would be much closer associations between Canada, Australia and New Zealand. He wanted the distance between these countries and the United Kingdom annihilated. If they were within twenty-one days of London and within thirteen days of Canada it would draw the people of these countries closer together. They wanted all parts of the Empire to be one in reality.

Sir Wilfrid Laurier had already negotiated a direct steamship service across the Pacific, continued Sir Joseph Ward, and now Britain should help in the same way across the Atlantic.

"In the great galaxy of countries under the British Crown," concluded the speaker, 'there is one under-cur-rent directed to the bringing about practical co-operation between the different part of the Empire and so making the whole irresistible."

Sir Edmund Walker said the great problem before Canada was the mak-ing of the immigrants of various na-tionalities part of the British people "Probably for the next half century," continued bir Edmund. "Canada will have to rely upon British credit and will have to look to Britain for the money for further development."

TWO MEN KILLED.

M.C.R. Train Is Derailed Near

Bridgetown. Chatham, June 1 .-- Crushed and scalded to death beneath their engine, Engineer Stephen Quinlan and Fireman Russell Oakes met a terrible death yesterday morning when a pas-senger train of the M.C.R. was derailed cast of Ridgetown.

Passenger train No. 9, New York to Chicago, in charge of Conductor George Marr, due in Ridgetown at 3.32 a.m., was running a few minutes late. The Ridgetown home signal was set "proceed." In an instant the loco-motive, tender and four baggage cars were plunged into the ditch, with the engineer and fireman crushed beneath None of the passengers were injured. Eight coaches remained on the track. few of the passengers being aroused by the shock

At the distant signal the train came to a full stop, the trainmen state, ow-ing to the board being displayed at "caution." Farther on the engineer found the home protection signal dis-played "proceed." Quinlan apparent-ly had his train well under control, running not more than sixteen miles per hour, which accounts for the absence of shock or disaster to the passenger coaches.

St. Thomas, June 1 .- "There is no question about it, it is, a case of train-wrecking," said Supt. Shearer of the M.C.R. last night, when asked as to his opinion of the cause of the wreck of the Chirago special. Mr. Shearer had been at the scene of the wreck all day, and made a thorough investigation into the whole affair. "The fishplays were taken off both ends of the fail and spikes pulled out and the rail removed and placed in the centre of the tracks, and, as far as we could see, its position had not been moved by the wrecking of the train," said Mr. Shearer. He lost no time in informing Crown Attorney Smith of Chatham and Inspector Rogers of the same place about the affair, and they responded by placing a provincial officer in charge of the case. M.C.R. Detective Heenan is also at work, but so far they have no clue to the identity of the perpetrators of the crime. The company will conduct no private investigation, but will assist the authorities in ferreting out the

Democrats Will Not Accept Amendments to Reciprocity.

Washington, D.C., June 1.-Demo-cratic leaders of the House of Repre-sentatives have notified President Talt they will not accept the proposed Senate amendments to the Canadian reliprocity agreement. The Democrats informed the President they will stand by the reciprocity

proposition, as it was negotiated, and it was adop: 1 by the House. This action on the part of the House leaders means there will be a dead-lock between the upper and lower branches of Congress, and that the extraordinary session will be prolong-ed until late in the fall In the event of the reciprocity measure being amended by the Senate, it will be necessary to send it to a conference com-mittee. The House members of the conference will be men who stand out against the Senate amendment indefinitely, or until the upper branch of Congress is forced to yield.

A canvass of the House has developed that the regular Republicans who voted for the reciprocity measure will support the Democrats in their efforts to force the adoption of the recipro-city proposition as negotiated, thus obviating any amendment on the part of the Canadian Parliament. Presi-

Will Not Turn Out.

Brantford, June 1.-Lieut.-Colonel Ashton of the Dufferin Rifles issued the statement here yesterday that the regiment would not turn out and assist in the mayor's gala day celebration on June 22, on account of the treat-ment accorded the Dufferin Rifles band. Recently the City Council divided the summer park concerts among three local bands, a citizens' organization, the Brant Dragoons and the Dufferin Rifles, the latter being the pioneer band of the city and hav-ing always had civic patronage. Col. Ashton contends that the city owes its support to the military band, the members of which receive no pay for services. The demonstration will be gone on without military features.

Despondent; Commits Suicide.

Lindsay, June 1 .- No. 35 St. Patrick street, was the scene of a sad tragedy last evening about six o'clock, when Joe Bell, an employe of the Sylvester Manufacturing Co., shot himself. Bell, who was about 35 years of age, has been out of work on and off lately, and was in a despondent mood. He complained of being ill yesterday morning, and in the alternoon coaxed his wife to visit her parents to see her brother, who had just returned town on a visit from the States. While away, Bell deliberately shot himself in the head, and was quite dead when his wife returned. Besides his wife, he leaves one child.

More Jobs Than Applicants.

Montreal, June 1 .- "No person need be without a job and any able-bodied man who complains that he is with-out work, can be put down as an idle loafer, too lazy to work." This is the emphatic statement of Mr. Fran-cis Payette, superintendent of the provincial employment bureau.

"Yes," he said, "you can state with-out fear of contradiction, that, notwithstanding the constant arrival of immigrants from the old country, we have here in Montreal more vacancies than applicants.
