When interviewed this morning Jimmy stated that the severe cramps in his legs caused his defeat. He has decided however, that the trip is too much for him and he will give up the walking game. Some companies still require that the asmany involved questions and fine ink conditions and warranties which leave him and the mortgagee entirely at the company's mercy when a loss occurs, and as these are often conditions precedent to recovery, sometimes the policy has not even attached. Many of the best companies do not now require an application, and these should be chosen, and only their policies accepted.

4 The policy should be free from trick clauses and restrictions. These

issue a policy without variations and most of the other first class companies will waive any on theirs if that is insisted on. Demand and secure a policy absolutely free from this most serious defect.

5 The mortgage clause should be attached to every policy and the loss made payable to the mortgagee without restriction. By this clause no act of the assured will avoid the policy so far as the interest of the mortgagee is concerned. The investiture was a very brilliant function, the ceremony including a grand procession of knights in their robes. The knights wore full regalia, including the large plumed hats, more than a foot in height, which have been

The King himself buckled the garter on the prince's left leg, affixed the riband and the George on the left shoulder, fastened the star of the order to the left breast and handed his royal highness the collar.

During the investiture the prelate of the order, the Bishop of Winchester, pronounced the following quaint ad-

Wear it as a symbol of the most illustrious order, never to be forgotten or laid aside, that thereby thou mayst be admonished to be courageous, and, having undertaken any just war in which thou shalt be engaged, that thou mayst stand firm, valiantly, fight successfully and conquer."

PERJURY CHARGED

Colborne Auctioneer Is Placed Under Arrest

WITNESS IN MURDER CASE

Henry Hicks, Who Appeared For the Defence in the Brimacombe Murder Case and Said He Saw the Girl Alive After Matthews Left the Hotel, Has Been the Subject of Searching Inquiry by Police.

Colborne, June 13 .- A sensation was caused here late yesterday afternoon by the arrest of Henry Hicks, auctioneer, of Colborne, on a charge of perjury in connection with the trial of Henry (Son) Matthews for the mur-der of Josephine Brimacombe. Mat-thews was acquitted on April 15 last.

Hicks was arrested by John Miller, provincial detective, who, it is understood, has been for some time quietly at work on the case, as the result of crown's dissatisfaction with the conflicting nature of the testimony at

The evidence given by Hicks decidedly strengthened the side of the defence, as he swore positially that he was in the Bristol Hotel on the night that the Brimacombe girl, a waitress, met her death, and had seen her alive after Matthews had left the hotel.

Hicks was taken to Cobourg by Chief Jameson and lodged in the jail

Perjury Somewhere. Toronto, June 13.—There was per-jury at the trial of Charles Watkins for assault upon Harold Barrod. That's what Magistrate Kingsford said in the Police Court yesterday morning. Two men swore that Watkins struck Barrod and three swore he did not. The two were believed.

E. B. Skimms, George Browning and John Glenn were the trio who failed to gain credence, while the stalwarts who upheld the truth against odds were Barrod and Charles Taylor, who was with him when the trouble took place in Smith's hotel. Watkins went to jail for sixty days.

Arrangements have been made for the prisoner to be taken to a maternity

A much stronger feeling prevalled in the market for cattle, and prices advanced 25c to 25c per cwt., which was attributed to the strength in the Toronto market at the latter end of last week. Choice steers sold at \$5.00 to \$5.00; good, at \$6.25 to \$5.35; fairly good, at \$6.25 to \$5.50 per cwt. MORMONS A MENACE

Assembly Favors an Agressive Campaign Against Them.

ARE STRONG IN ALBERTA

Special Committee Reports That Latter Day Saints Are Striving to Get the Balance of Power In Alberta-Calgary Minister Sees Objectionable Features In Their Religlous Belief In Large Families.

Ottawa, June 13 .- The menace of the Mormon community to Canada was emphasized at the Presbyterian General Assembly yesterday, which went on record in favor of an active campaign against it. The matter came up on the report of a special committee, which was presented by Rev. Dr. W. J. Clark of Montreal Clark of Montreal.

That the Mormons were, as a rule, a sober and industrious people was the opinion of Rev. Dr. McLaren of Vancouver. But their religion propounded some abominable principles and their morals were a positive danger to Canada. The number of marriages and progeny appealed to a Morriages and progeny appealed to a Canada. mon, but was distasteful to a Cana-dian. They had attained great power in the United States and talked of getting the balance of political power in Alberta, if not in all Canada. The Mormons voted together, and a corporate vote was always dangerous, and not desired in Canada. Mormonism was more of a menace than Roman Catholicism, because the Mormon priest had a greater hold on the peo-ple. "We don't want this sort of thing in Canada," said Dr. McLaren, and the main remedy is to preach the gospel in the very centres where Mormonism is making a stand."

Mormonism was really under the protection of the politician, and there fore difficult to get at, stated Rev. Dr. Pringle of Sydney. Their morals were low and should not be allowed in Canada.

That the Mormons were the most dangerous people in the west because of their activities was the statement by Rev. D. W. Reid of Calgary. He referred to their bringing 500 girls from Great Britain to Utah, and said there were many objectionable features to their wership. They had a male and a female god and taught that the more morriages and the more children a man had the higher would be his position in heaven. They claim to have 3,000 missionaries to propagate their principles and one little town is said to have sent out thirty. Their strength in South Alberta is claimed to be 20,000 and two members are in the Legislature.

The following motion, moved by Rev. Dr. Clark, was then carried by

the assembly:
"The assembly deems it advisable to call attention to the danger that necessarily attaches to the existence of Mormonism in any country, and to of Mormonism in any country, and to utter a warning against the insidious methods employed by Mormon mis-sionaries, while frankly acknowledg-ing all that can be fairly urged in be-half of Mormons and Mormonism, the assembly regards with deep regret

"The detestable doctrine held and preached by the Mormon Church.

"The extravagant political ambitions cherished by the Mormons.

"The absolute obedience to their religious leaders, required of the mem

ligious leaders, required of the mem-bers of the organization, not only in

their religious, but also in their ma-terial and political relationships.

"The assembly very cordially en-dorses the important work that is being carried on by the home mission committee in the Mormon district, commends it most heartily to the sympathetic and prayerful interest of the whole church, and requests the committee to give special attention to this department of the work during the present year and bring in such recommendations to the next general assem-

bly as they may deem wise."
The "ne temere" decree will come before the assembly to-night, and there is every indication that this question will receive a great deal of attention. Already the matter has been touched upon in the report of the board of social and moral reform, and was referred to a special committee by the assembly. Rev. Dr. Duval of Winnipeg, and F. H. Larkin of Seaforth have also presented a motion on the question. This motion was read at the assembly and was referred to the committee without any vote being taken. Dr. Duval stated that it was put in purely as a basis for the com-mittee to work on.

Expect Government to Help. Kingston, June 13.—In an interview yesterday Prof. John Watson, vice-principal of Queen's, who has just re-turned from Ottawa, ridiculed the suggestion that raising the denominational restrictions on the university would in any way divorce religion from its education. Dr. Wat-son believes the Ontario Government will have to give aid to the university.

REVENUE IS LARGE

New Ontario Bar Tax For May Brings in \$18,000.

BETTER THAN ESTIMATED

Hon. W. J. Hanna, After Receiving the First Month's Returns From Bars Doing a Business of Over \$50 Per Day, Estimates That the Province Will Reap a Revenue of \$180,000 Per Annum.

Toronto, June 13 .- The ten days of grace allowed hotelkeepers throughgrace allowed hotelkeepers throughout the province to send in their returns under the new percentage clause of the liquor license act, expired on Saturday, and the Provincial Treasury is now richer by some \$18,000, paid on bar receipts for May. "The returns this month indicate a yearly revenue from that quarter of about \$180,000," said Hon. W. J. Hanna, Provincial Secretary. "The figures work out yery much as cal-

figures work out very much as cal-culated."

The first month's figures show that the estimates upon which the bill was based were conservative. In the country districts the returns varied little from estimates, but the large city hotels paid more than was ex-pected. Under the act hotels in cities of 100,000 population pay a tax of five per cent. on bar receipts in excess of \$60 daily, while all other hotels pay five per cent. on the excess over \$50 daily.

The fact that there are considerably over 2,000 hotels under license in Ontario makes the compiling of the returns a difficult task, and it is yet impossible to state with accuracy the possible to state with accuracy the number of hotels doing a bar trade of over \$50 or \$60, and therefore paying the tax. Practically all the bars in the cities and large towns will pay a share, but a great many rural hotels will escape entirely.

Kansas City. June 13.—"The crow must go." This is the edict of Mis-souri. In this day of alarm clocks the people of this state have asked in vain to be shown the use of the rooster's crow. He has determined to evolve a crowless rooster.

When Welborn had achieved this wingless victory, his neighbors were strong for recognizing his services by the presentation of a medal. New Pulp District.

Ottawa, June 13 .- Ontario may have a new pulp industry district, which will challenge those of Quebec if the result of the investigation to be conducted by a party from the interior department into the pulp properties of the English River district proves as successful as expected.

The English River is the boundary between Ontario and the new district of Keewatin, so that the work of the party will be of interest to both.

They have through their long life given an example of true and progressive citizenship-and in the good cause have not only been helpers but leaders therein.

They are now growing old very gracefully and their lives say to their contemporaries.
