## PA'S HOUSECLEANING.

When the April sun a-shinin' hot an' things is nice and fresh, When the willer's droppin' tossels an' the blackbird's in the brush, When Pa comes in for nooin' an' the floors is wet as souce, Then Lasses massy on us! Your ma's a-cleanin' house.

Then me an' Jim is sure to find rag carpets in the sun; When we'd planned to go a-fishin' fer the suckers in the run; But while pa takes his nooin' an' the hosses eats their snacks Us boys can beat them carpets while we're restin' up our backs.

An' then next day pa's certain sure to have to go to town; But he always leave us orders, "Help to put them carpets down." An' at night when he gets home agan you'd think to hear him groan, About the hardship of it, that he'd done the job alone.

Poor ma! She has it awful hard, she'll work until she drops, An' pound her thumb nails half way off, an' wet her feet with slops; She'll get so hoarse that she can't speak and sore at every bone; But pa, he say, it was him he'd let the house alone.

An' then that night the kid is sick an' has to have a drink, An' ma she can't get up because her back's in such a kink, If pa should bang the furniture whilst groping for a cup, You can feel him gettin' mad enough to fairly eat her up.

So me and Jim was sayin', if the time should ever come When pa and ma should change their work, an' pa should stay at hum, I wouldn't like to be a boy, but just a little mouse

To hear what things pa would say if he was cleanin' house. —William F. Gibbons in Woman's Home Companion.

## Address and Presentation

To Mr. and Mrs. J. F. Johnstone; Both Will be Greatly Missed in Port Hope.

Mr. J. F. Johnstone, manager of the Bank of Montreal here, left this morning for Medicine Hat, Alta., where he will take charge of the branch. Mr. Johnstone during his residence in Port Hope made a large circle of friends and all were very sorry to hear of his removal. He was an enthusiastic member of the Board of Trade, an active worker in St. John's church, and was always ready and willing to assist in any work to promote the interests of the town. As a mark of appreciation of his services the customers of the Bank here presented Mr. Johnstone on Saturday with the following address and a beautiful sterling silver tea service, with a mahogany tray:

J. F. Johnstone, Esq., manager Bank of Montreal Port Hope:

Dear Sir,—A number of your friends here, who view with great regret your departure from Port Hope for another and greater sphere of usefulness, feel that they cannot allow you to go without some slight expression of esteem and regard. It is always a matter to be deplored when one who has been for years a good citizen and welded, as it were, into the life of the community, is called away, but such is life in the case of Bank managers, and we can only wish you and your good wife God-speed, and every assurance of happiness in the new life before you. In accepting the accompanying memento you will, we know, regard it, as it is intended you should, as only a small expression of the esteem in which you are held by the numerous friends who have made during your residence in Port Hope.

The lady friends of Mrs. Johnstone presented her with a very handsome necklace.

Mrs. Johnstone and family will leave for the West in about ten days. They carry with them the best wishes of their host of Port Hope friends for every success and happiness.

## CORRESPONDENCE.

To the Editor of THE GUIDE:

DEAR SIR,—I noticed in your issue of the Weekly GUIDE of June 16th in which Mr. Long and Mr. Patterson reports having asked for a grant of \$500 to assist in building the Electric Light Bridge and that the representatives of Hope Township were to blame for the grant being turned down. I was much surprised to think the representatives from Port Hope would make such misleading statements for the purpose of pulling the wool over the electors' eyes. Going back some two years ago last spring when Port Hope was so seriously damaged by flood, the representatives, Mr. Chislett and Mr. Merrifield, asked for a grant of \$500 to assist in building the Electric Light Bridge, and I must say at that time I did all in my power to help the representatives get the grant, to which I think they will agree. At that time every member of the County Council thought that would end the Port Hope bridge, but again in Dec. 1910, Mr. Long and Mr. Patterson with a deputation from Port Hope, argued that this bridge was in lieu of a boundary line and therefore the Counties were compelled to assume it. The question was discussed in the Council and I took the stand at that time that it was Port Hope's duty to prove their claim and until they did so I would oppose the taking over of the bridge. It is a well known fact that we were threatened with a law suit and when we would not scare the matter was dropped until the June session of 1911. Again the representatives ask for another \$500 grant, as did Reeve Millson of Darlington, and Reeve Hickson of Manvers, making a total of \$1,500, and it was a matter of you scratch my back and I will do likewise, but thanks to the men that Mr. Long abuses, the scratching did not work. The Port Hope grant was left for the Durham members to decide and it the majority were in favor of the grant being given to Northumberland members were voted with the majority. Mr. Long's statement in regard to the motion and amendment is correct and the matter was settled. Mr. Long would lead you to believe that my actions were the means of the grant being defeated, but forgot to state that Reeve Colville, of Newcastle and Warden Kelly, of Cavan, were just as strongly opposed to the

grant as I was. Now, Mr. Editor, when the matter was settled as we thought, Reeve Cann came in, and when Reeve Long's eagle eye saw him he thought their chances were good to win with Reeve Cann's vote making it a tie, if he could persuade the chairman, Reeve M. A. James, of Bowmanville, to open up the question and have it reconsidered, which he was successful in doing. Reeve Cann was informed of what was going on and asked his opinion. He said he was in favor of the \$500 grant asked for and went further, stating that if they would make it \$1000 he would support it. A motion was put asking for \$500 and was lost, the reason being the representatives were disgusted with the matter being reconsidered.

Now these are facts which I am prepared to prove and I am surprised at a man occupying the position Reeve Long does making such misleading statements, which we know are not correct. We appreciate any favors that Hope township may have received from Port Hope. I took the stand in this matter as whether it was right or wrong to support a grant of this kind. I am in favor of supporting a grant to any municipality under ordinary conditions. Now, Mr. Editor, if Mr. Long continues to plead poverty for Port Hope as he has done in past session, no doubt his next move will be to ask the County Council to admit Port Hope to the House of Reluge. Now, in conclusion, I want the representatives from Port Hope to understand that I am not sent to Cobourg as a tool for the Port Hope representatives, but to look after the interests of Hope Township and the County, and as long as I am there, let it be long or short, I am not going to be led around by the nose by Reeve Long or any other representative from Port Hope.

EVE OF FESTIVITIES.

London is Ablaze With Color: For Coronation Week. London, June 19.—On the eve of coronation week London is ablaze with color. A few days ago the aspect of the streets suggested a city in splints, so vast was the quantity of bare timber. All this has been transformed with paint and hanging fabrics. The metropolitan streets are gayest with a attire. From early morning until late at night the streets are crowded with a commotion of things. Motor buses are everywhere, and the carriers, carry-sightseers to the coronation route. Musical rehearsals are proceeding with full choir and orchestra for the great evening in Westminster Abbey. No fewer than 450 voices compose the choir, drawn from every cathedral in England. The interior transformation of the Abbey is completed, and with the final rehearsal today, at which Their Majesties are expected to be present, everything will be in readiness for the coronation.

Thanking you, Mr. Editor, for space and wishing you every success, I remain, Yours truly, S. R. Caldwell, Oaca.

Premier In Address at the Constitutional Club Says that the Agreement with the United States is a Matter of Convenience to Canada and Does Not Interfere With British Commercial Unity.

London, June 19.—(C.A.P. Cable.) Sir Wilfrid Laurier, speaking at the Constitutional Club, said that although himself a party man, he belonged to no party whatever in this country. They did not forget in his country when they came to Britain, they became part of the greater whole of British institutions, which, while not perfect, was certainly the wisest ever devised by men for the Government of men. It was fourteen years since Canada had introduced the system of a preferential tariff in Britain, they did it without any conditions, believing in their heart of hearts that such a policy was sound commercially and would be of benefit to the Empire. They had had no reason to repent of their action. It had done a great deal for the Empire, and they had of it the better they liked it. They had hoisted the policy of British preference to the top of the mast.

FIVE MILES OF WOMEN.

Suffragettes Hold Monster Demonstration in London. London, June 19.—The coronation procession of suffragettes, which started yesterday at 10 o'clock, was a most impressive sight. The women, dressed in white, marched in five-mile processions, which started at the Victoria Memorial, and proceeded along the coronation route to Kensington. Militant and non-militant suffragettes, which leads to the all question of caste being put aside and queens, or those garbed to represent such characters as Boudicca, Catherine of Aragon, Mary Queen of Scots and Queen Victoria rubbed shoulders with fellow-workers in the procession.

Two Birdmen Are Burned by Exploding Benzine. One Crashes Into a Tree, Another Falls and Will Die. One Plunges Into the Earth and Three Others Fall at Vincennes.—Girl Killed at Budapest.

Three Aviators Killed at Start of Great Circuit Race.

Paris, June 19.—Fifty aeroplanists took wing early yesterday from the aviation field at Vincennes on the first stage of the European Circuit race, which calls for a flight to London and return with stops at various points en route. Two of the aviators almost immediately after the start met with tragic death. One was killed later and at least one more injured.

Three Aviators Killed at Start of Great Circuit Race.

The dead: Capt. Princeton, whose motor exploded in mid-air, flooding him with gasoline and burning him to death. M. Lemartin, who dashed against a tree, the motor of his aeroplane crashing his head. M. Lebrun, burned to death near Chateau Thierry. Benzine in the reservoir exploded and the machine was consumed.

Three Aviators Killed at Start of Great Circuit Race.

The injured: M. Gaubert, a former lieutenant in the army, who was cutured by the civilian race under the name "Daiger." He was found lying senseless near his machine in a wheat field, four miles from Villars-Coterets. His injuries are serious. M. Bille, his aeroplane struck the earth within a mile of the start and was wrecked. Bille was injured, but not seriously.

Three Aviators Killed at Start of Great Circuit Race.

Three other birdmen fell: M. Lordan, near Charleville; Oscar Morison, close to Gagny; and M. Morin at Gisors, within 22 miles of Liege, which is the end of the first stage of the race. None of these men were badly hurt, though all of them were badly shaken up.

Three Aviators Killed at Start of Great Circuit Race.

Of the fifty aviators who started the race, thirty-eight were civilians, and the other twelve were military. The military aviators are prizes amounting to \$94,000. The prizes were leading to the annexation of Canada, and he had a right to say that he did not believe such an accusation as that. If he believed in the annexation, he advocated this policy. Their effort would be to trade with the Mother Country in preference to any other (cheers), and they would also trade with other countries.

Three Aviators Killed at Start of Great Circuit Race.

Lemartin's aeroplane had reached the woods a quarter of a mile beyond the barrier which he observed to pitch swiftly downward into the field. Lemartin was using a biplane. The engine was running, but it fell at the foot of an oak tree. A corner of the motor struck the aviator's head, crushing his skull, and his right leg also was broken in two places. The aviator was barely alive when he was taken away by Red Cross surgeons, whose stations surrounded the field.

Three Aviators Killed at Start of Great Circuit Race.

Adjoining the junk warehouse was a two-story building used by the M. E. Keefe Co. for storing goods. The fire spread there and also a pump and block-making establishment to the east. Two sharp explosions in the junk warehouse blew out portions of the roof, and sides of the building. This was probably old ammunition stored with other materials.

Halifax Has Fire.

Halifax, June 19.—Spontaneous combustion in a junk warehouse started a big fire in Halifax yesterday morning, which destroyed four wooden buildings and seriously threatened the adjacent streets. The fire broke out at eight o'clock, apparently in a mass of bags purchased from the Acadia Sugar Refineries by William MacPartridge, the proprietor of the junk store, and a large dealer in that description of material. Three alarms were sent in and the fire was extinguished in about half an hour. The scene of the fire was a mass of flames that were very little to be seen. The proximity of the conflagration to the Ordnance Yard alarmed the military, and the soldiers were ordered to the scene.

Millions of Christians Unwittingly Profane the Creator in Misrepresenting What His Holy Name Represents.

Denver, June 18.—Pastor Russell gave two public addresses here today, one of which we report. Many of Denver's prominent religious people were conspicuous in the large audience.

Scriptures answer that Satan has deceived us; he has put light for darkness and darkness for light.

Shakespeare tells of some "damned by faint praise." We grasp his statement as implying that a faint praise is more injurious than silence.

Al! my friends, is not this still another form of blasphemy? If some of us are guilty of a demerit in representing our Heavenly Father as merciless, loveless, have we not in another way blasphemed that same Holy Name which we worship and adore?

There may be said to be three different theories prevalent in Christendom on the subject. They all have in common a certain error.

How glad we are that this dawn of the New Dispensation the light is shining upon the Divine Word as well as throughout the realm of nature.

Each claims to love God and to seek to serve and honor Him. Evidently, two at least of the three are wrong.

How glad we are that this dawn of the New Dispensation the light is shining upon the Divine Word as well as throughout the realm of nature.

Our Catholic friends tell us that by Divine arrangement terrible purgatorial experiences await practically every member of our race.

Now we are seeing that this great blessing of the Sabbath day is not merely an awakening from the tomb, but a complete uplift out of sin and degradation to the full perfection of the creature in the earthly likeness of the Creator.

But we have grown so accustomed to this blasphemy that it fails to reach the majority to the hearts as it should.

Now we see that the free grace and glorious opportunity to human restitution will not meet with the Kingdom, but that preceding that glorious Epoch God is making a selection of a saintly class to be the Bride of Christ.

Is it any wonder that in early life our children's hearts were filled with fear rather than with love toward our Creator and toward their neighbor.

By examining the hall-mark on any silver article made in Britain, the name of the city where it was manufactured can be ascertained.

Are not such evil thoughts and presentations respecting our great Creator blasphemous? We pray that we would be blasphemous to God.

London is represented by a leopard's head within a shield, and has been in use with slight variations since 1300. The mark of Birmingham is an anchor; of Chester, three wheatheaves and a dagger; Dublin, is represented by the figure of Henry, king of Edinburgh, with a castle.

SATURDAY OR MONDAY FOR DOMINION DAY?—The Dominion Day Committee are undecided as to the day of holding the celebration. The 1st of July falls on Saturday this year, and the merchants of course will not observe it as a holiday. A meeting will be held this evening to decide the matter and a large attendance is very desirable.

DUST! DUST! DUST!—Unfortunately the chairman of the Street and Bridge Committee does not live on Ontario street. If he did we feel sure that the portion of the street from Barrett street south to the bridge would be watered. The dust is flying there at all times in large clouds and there is not a more travelled street in Port Hope. All the streets nearby are watered and the work connected with this portion would not inconvenience the teamster. Let us have water.

QUIET WEDDING—The marriage took place this afternoon at the residence of the bride's sister, Mrs. Walter Blood, Pine street, of Miss Rose Mangano to Mr. Silas Runnalls, of Toronto, son of Mr. John Runnalls of this town. Their many friends join with THE GUIDE in wishing them many years of happiness.

A FOOL JOKE.—Mr. Elverett Richardson, was the victim of a very serious accident on Sunday as the result of a joke by one of his younger brothers. It is not known, as yet, whether the injury to the eye will be permanent but the accident is one he will long remember.—Hastings Star.
