### SERIOUS ACCIDENT

#### Blanche Nixon Knocked Down by a Horse and Had Her Skull Fractured

Blanche Nixon, the eleven year old daughter of Mr. George Nixon, Hope street, met with a very painful and serious accident yesterday afternoon. With two other girls she was returning from school by way of North street. Just as the girls were about to cross at Seymour street Mr. J. E. Smart drove along. The girls evidently misjudged the distance and tried to cross in front of the rig. In an instant the horse reared, striking

Blanche in the head with full force. The little one was knocked to the ground and the horses foot came down fairly upon her head causing a compound and depressed fracture of the skull. Dr. Clemesha was called and he found it necessary to remove several pieces of bone and elevate the lower plate.

The injured girl is resting comfortably to-day and there is hope that she will recover.

### SPORTING SKITS

#### BOWLING

A slight error appeared in the list of bowling rinks published in The Guide last evening. Mr. D. N. Hoey takes Mr. Sheriff's place on Skip J. M. Ball's rink, and Mr. Sheriff goes on Skip Gillies rink.

#### BASEBALL

There is another big program billed for the Park on Saturday afternoon. Bowmanville and the local club will be the contestants, and the battle will start at 3 o'clock sharp. The ladies will be admitted free.

### PUBLIC SCHOOL BOARD

#### New East Primary School Will Be Built on the Property Known as Athletic Grounds

#### Teachers Given Another Increase

The regular meeting of the Public School Board was held last evening and Dr. Clemesha was the absentee. The question of a new East Primary School was discussed at some length and the Board decided it was absolutely necessary. Plans and specifications for a suitable four room building will be secured at once and Dr. Powers, the chairman, was authorized to purchase the lot at the corner of Hope and Ward streets, known as the old Athletic grounds from Mr. W. G. Stevenson, for the sum of \$700. This lot will be used for the new school building. Miss Phyllis Smith applied for a position as teacher and on motion of Mr. Smart, seconded by Dr. Aldrich, Miss Smith was re-appointed on the staff, duties to commence Sept. 1st.

The old time question of salaries was again considered by the Board, and it was decided that on and after Sept. 1st the minimum salary would be fixed at \$400 per year.

### POLICE COURT

#### Abner Kilpatrick Made Things Exciting and a Woman Interfered

Abner Kilpatrick caused considerable excitement at the corner of John and Dorset Streets yesterday afternoon. Constable Cheshier heard Kilpatrick shouting on the corner and went up to place him under arrest. Abner however decided not to go, and for a time proved very interesting. A large crowd soon gathered and finally a

### PAINFUL ACCIDENT.

#### John Record Had His Nose Broken While Playing Ball

John Record Jr. while practising baseball, at the Town Park last evening, met with a very unfortunate accident. He was catching, when a foul tip struck him in the face, and broke his nose.

### BAPTIST CHURCH NOTES

The men's choir will practice Thursday evening in the School room at 8 o'clock.

The fifty-sixth anniversary of the church will be observed on Sunday, June 18th, when Rev. Chas. Geo. Smith, of Belleville, will preach.

### KINGSTON CAMP.

The 46th Regiment has been relieved from training this year, but a number of the officers have been attached to the 40th.

Northumberland Regiment and a company is being recruited to go with the 40th for this camp. Those who desire to go are requested to leave their names with Capt. Long not later than Saturday night of this week. A bus will leave the drill shed for Cobourg on Monday (June 12th.) at 6.30 A. M. sharp.

AT THE GRAND.—Uncle Tom's Cabin street parade attracted a large crowd at noon to-day. The press speaks very highly of the presentation of this old play by the Company which appears here tonight. No doubt a large crowd will be present to witness it.

SUCCESSFUL.—In the results of the Faculty of Education just published, we notice that Misses Olive W. Fisher; Eleanor Gliddon, Phyllis M. Smith, Eletha Sissen, Cora Souch, and Mr. Richard W. Fitch were successful, receiving permanent first-class Public School certificates. These students all attended our High School.

RED HEADS THE BEST.—Editor Beck, of the Recorder, Holton, Ark., doesn't propose to stand idly by and have redheaded people libeled any longer. He has taken his quill in hand and opened an editorial campaign in their defense. "I have often heard the word redheaded applied to persons when they lose their temper and get beyond self-control," said he. "This is a slander on red-headed people. The most even tempered and altogether, at all times the most congenial man I ever knew was a red headed man. He was everybody's friend and everybody was his friend."

### WATERWORKS COMMISSIONERS

The regular monthly meeting of the Board of Waterworks Commissioners was held on Friday evening, June 2nd, at 7 o'clock, the Secretary's Office.

Present—Dr. L. B. Powers, chairman; Messrs. E. A. Pipher, T. B. Chalk and Mayor Mulholland.

The minutes of the previous meeting were read and confirmed. Of the minutes read it was reported that the pipes had been laid to Mr. Cumberland's premises as per instructions of last meeting; that an effort had been made to secure laborers for \$1.75 per day, but none were willing to work at that figure, consequently the Board had to pay them \$2.00 per day.

That the first reading of the by-law asking for issue of \$10,000 debentures had been given by the Town Council, and that Mr. White, the Town Solicitor, had been waited upon to draw up a by-law, and said before he could do anything the following information was absolutely necessary:

- 1 What extension and improvements are proposed to be made with this money.
- 2 Show that these improvements and extensions are necessary.
- 3 Show that sufficient additional revenue will be derived to meet the annual special rate required to pay the new debt interest.
- 4 How it is proposed to pay this debt, by instalment or sinking fund, and the amount already expended on the Waterworks system of the Town of Port Hope. Sec. 6 Edward 7 chap. 34; Sec. 21.

As the money would only be expended from year to year as circumstances required the Board considered it impossible to answer these questions satisfactorily, and it was thought a personal interview with

**G. A. OUTRAM HARDWARE**

The Chairman of the Municipal Railway Commission was the better way to solve the difficulty, and to this end it was

Moved by Mr. Chalk, seconded by Mr. Pipher, that the Mayor and the Secretary of the Board be a deputation to lay the requirements before this Commission, and explain the difficulties in answering the questions submitted to us.

A letter from Mr. D. H. Chisholm was read asking for free water for a term of years for the Port Hope and Country Golf Club.

The Secretary was instructed to write a courteous reply, assuring the members of the club of the Board's good wishes, but under the present circumstances, having to borrow money to make needful extensions and alterations to their system, they deeply regretted they could not comply with the request.

A letter from Mr. J. J. Jeffrey, Superintendent Midland Construction Company, asking for 4-in. water main from the brewery to their power house and estimating the cost at \$200. They would be willing to pay half.

As their intention was to pump water from the creek the town water to be used merely as an auxiliary, when the water in the creek was low, and as the Board had already granted them permission to attach a 2 in. pipe to the water main at the brewery, it was thought more advisable to allow the Construction Company to lay their own pipe for their own use, and the Secretary was instructed so to reply.

Mrs. T. T. Baines asked if she would be allowed to furnish water to Wm. Garnett from her kitchen tap and on what conditions.

The Board decided that the regular charge for one tap would have to be charged, \$5 or \$6, per year, according to the number of rooms in Mr. Garnett's house.

The Secretary reported 15 services put in so far this season; that a note at 3 months for \$500 had been placed in the Traders Bank; that at present we have \$671.05 on hand, with \$456.87 account outstanding.

The urgent need for a greater supply of water was freely discussed. It was considered that a well in close proximity to the pumping station was an absolute necessity if we are to get the full benefit of the water in the basins and in the collecting gallery.

Some members thought it necessary to bring an engineer here to get up plans and specifications for work of this kind, but after full consideration it was thought better to have the advice of a first class man and to this end it was

Moved by Mr. Pipher, seconded by Mr. Chalk, that the Secretary be instructed to invite Mr. Willis Chapman, Civil Engineer, Toronto, to come here for consultation at as early a day as may be convenient to him. Carried.

Fire Waste

The fire losses in Canada for the first four months of the current year total \$5,361,875 an average of \$1,340,468 per month. This is equal to a daily loss of \$44,682. In other words, \$1,861 worth of property has been burned every hour since the new year dawned, or \$31 every minute. This is an appalling fire loss and little is being done to check such extravagant waste of capital. It is very satisfactory, to note, however, that Peterborough's contribution to this great waste of property is very small. This fact emphasizes the importance of maintaining a well equipped and well-manned fire department. The best fire-fighting apparatus and appliances are indispensable, and the expense incurred in providing them is true economy; and also, the maintenance of a fire brigade of men, well paid, enough to secure efficiency and continuity of service. These conditions are naturally somewhat expensive; but this becomes comparatively insignificant when one considers that in default of a well-equipped and well-manned fire department, a fire breaking out under favouring conditions may easily do, in an hour, damages to an amount sufficient to pay for the whole equipment fire hall included and a years salary of a brigade. We have at present, well-equipped and efficient fire department, and it should be kept so. Any policy of petty nagging and fault finding that tend to lessen the efficiency and weaken the esprit de corps of the fire department should be in the interests of the public and the protection of property be promptly and resolutely discouraged.—Peterboro Examiner.

A TROUBLESOME MISGIVING

(Continued from Yesterday)

'At Boston. He met him in the street—or thinks he did. There's a doubt. When Malkin spoke to the man, he declared that he was not Peak at all—said there was a mistake.' Marcella moved so as to show her face; endeavoring to express an unemotional interest, she looked coldly scornful.

'That ridiculous man can't be depended upon,' she said. There had been one meeting between Marcella and Mr. Malkin with the result that each thoroughly disliked the other—an antipathy which could have been foreseen.

'Well, there's no saying,' replied Christian. 'But of one thing I feel pretty sure: we have seen the last of Peak. He'll never come back to us.'

'Why not?' 'I can only say that I feel convinced he has broken finally with all his old friends.—We must think no more of him, Marcella.'

His sister rose slowly, affected to glance at a book, and in a few moments said good-night. For another hour Christian sat by himself in gloomy thought.

At breakfast next morning Marcella announced that she would be from home the whole day; she might return in time for dinner, but it was uncertain. Her brother asked no questions, but said that he would lunch in town. About ten o'clock a cab was summoned, and Marcella, without leave-taking, drove away.

Christian lingered as long as possible over the morning paper, unable to determine how he should waste the weary hours that lay before him. There was no reason for his remaining in London through this brief season of summer glow. Means and leisure were his he could go whither he would. But the effort of decision and departure seemed too much for him.

Worst of all, this lassitude (not for the first time) was affecting his imagination; he thought with a dull discontent of the ideal love to which he had bound himself. Could he but escape from it and begin a new life! But he was the slave of his airy obligation; for very shame's sake his ten years' consistency must be that of a lifetime.

There was but one place away from London to which he felt himself drawn, and that was the one place he might not visit. This morning's sunshine carried him back to that day when he had lain in the meadow near Twybridge and talked with Godwin Peak. How distinctly he remembered his mood!

'Be practical—don't be led astray after ideals—concentrate yourself;—yes, it was he who had given that advice to Peak; and had he but recked his own rede—! Poor little Janet! was she married? If so, her husband must be a happy man.'

Why should he not go down to Twybridge? His uncle, undoubtedly still living, must by this time have forgotten the old resentment, perhaps would be glad to see him. In any case he might stroll about the town and somehow obtain news of the Moxey family.

With vague half-purpose he left the house and walked westward. The stream of traffic in Edgeware Road brought him to a pause; he stood for five minutes in miserable indecision, all but resolving to go on as far as Euston and look for the next northward train. But the vice in his will prevailed; automation-like he turned in another direction, and presently came out into Sussex Square. Here was the house to which his thoughts had perpetually gone forth ever since that day when Constance gave her hand to a thriving City man, and became Mrs. Palmer. At present, he knew, it was inhabited only by domestics: Mr. Palmer, recovering from illness that threatened to be fatal, had gone to Bournemouth, where Constance of course tended

him. But he would walk past and look up at the windows. All the blinds were down—naturally. Thrice he went by and retraced his steps. Then, still automation-like, he approached the door rang the bell. The appearance of the servant choked his voice for an instant, but he succeeded in shaping an inquiry after Mr. Palmer's health.

'I'm sorry to say, sir,' was the reply, 'that Mr. Palmer died last night. We received the news only an hour or two ago.'

He Could Not Keep Away From Calgary.

Robt. Kirkpatrick, of Selkirk, Man., Says This City Will Be Chicago of the West.

Calgary News Telegram. Mr. Robert Kirkpatrick, the well-known hotel man of Selkirk, Man. is in the city today enroute to the coast by way of a holiday. Mr. Kirkpatrick is a big man—big in stature and big in girth—and he packs around with him no small amount of perspicuity. When the News Telegram mentioned this latter attribute as one of his leading characteristics, he denied the soft impeachment. He said he never indulged in any of those French drinks, nor did he keep them in his bar, as he thought they weren't good for white men.

Mr. Kirkpatrick said he had heard so much of Calgary that he simply couldn't help stepping off to take a look at it. He was amazed at the progress the city had made, its growth being simply wonderful. Its fine streets, its elegant buildings were a revelation to him, and it was quite apparent that Calgary was destined to be one of the greatest centres in the country. The crowded state of the street and nearly every one apparently on business bent, gave a hustle and bustle to things that were surprising to anyone who had not visited the city for several years. When one looked at what was deemed the very rapid growth of Winnipeg and compare it with the phenomenal uprising of Calgary, it seemed slow indeed, although in reality such was not the case. This growth was but an event of what is going on in all parts of the western provinces, but it was natural that it should be so much greater here this being the centre of things progressive.

Mr. Kirkpatrick expressed the opinion that Calgary is destined to be the Chicago of Canada, and from the gait it had struck he felt sure that not many years would elapse ere that status would be reached.

MODERATOR CHOSEN

Rev. Dr. R. P. Mackay Is Elected to High Office.

TOO MUCH SENSATIONALISM

Rev. Principal Forrest of Dalhousie University, Halifax, In His Retiring Address Scores the Modern Popular Pastor Who Goes Far Afield to Talk of Things of Which He Knows Little About.

Ottawa, June 8.—'In the name of the great King and head of the church,' the 37th general assembly, the highest church court of the Presbyterians in Canada, opened last evening in Knox Presbyterian Church. As was expected Rev. Dr. R. P. Mackay of Toronto was elected moderator. Rev. Dr. James Ross of London was also put in nomination, but he withdrew and the choice of Dr. Mackay was made unanimous. Rev. Dr. Scott will now be in line for the honor next year. A suggestion was also made that the honor might be given to a layman, but the retiring moderator pointed out that the rules required that the moderator be a clergyman.

The other features of the evening was the address by the retiring moderator, Rev. Dr. Forrest, Dalhousie University, Halifax. In a forceful sermon he emphasized the importance of pure gospel preaching and in no uncertain tones condemned the modern practice of many ministers preaching on political economy, sanitation and other questions on which too often they knew very little. The aids called in to make up for the weakness of the sermons, music, cantatas, solos with violin obligatos, also came in for pointed criticism.

He said in part: 'Some may think that I am pessimistic, but I wish I could think the one theme in the whole of our pulpits is Jesus Christ and Him crucified. I know with many it is. But read the advertisements in the Saturday evening papers in many towns and cities and you will hear of men preaching on every kind of theme, sanitary hygienic, political or economic, and often when the preacher has very imperfect ideas of the subjects he professes to deal with. Follow down the advertised absurdities till you reach the region of absolute drivell, inaccurate history, crude and ill-digested economics, sensational serio-comic attacks on sins of people far away, while the sins that stare up from every pew are quietly ignored, and think that this is done by ambassadors of Christ, and the very thought of it is humiliating. "What do such preachers think? Have we not enough of this in the yellow journals that come into our homes from day to day without having this trash palmed off in the church? Can we expect thinking men to come to the house of God for such stuff as this? Is it the message heaven has sent to dying men? We talk of our educated ministry. What education? What instruction? What refinement is there in preaching of this kind? When a medical man enters our homes to deal with a serious case we at least expect seriousness and dignity from him. Do we expect less from a physician of souls?'

Entertained by Lord Northcliffe. London, June 8.—(C.A.P. Cable).—Lord and Lady Northcliffe entertained 300 members of the Imperial Conference and general overseas visitors at their residence, Sutton Place, Guildford. Attending were Sir Joseph Ward, Premier Morris, Lord Chelmsford, Premier Hazen, Sir Edmund Walker, Sanford Evans, Max Aitken, M.P.; Sir William Mackenzie, Rev. T. C. S. Macklem and Miss Merritt.

Ladies Were Searched. Brockville, June 8.—Five female passengers landed here from Ogdensburg, N.Y., by the steamer Riverdale, were searched in the customs office by Mrs. Ogilvie of Toronto, the special officer, and each were found to have goods secreted in their clothing. Three of the ladies hailed from Kingston.

TRUST IS BLAMED

The American Publishers Want Cheaper Print Paper.

FAVORS THE ENTIRE BILL

Herman Ridder Occupies the Floor During the Greater Part of the Day In Hearing Before the U. S. Senate Finance Committee—Trust Is Trying to Shut Out Paper.

Washington, June 6.—Public hearings on the Canadian reciprocity bill were concluded by the Senate finance committee yesterday, representatives of the American Newspaper Publishers' Association and of the Associated Press being the last to appear before the committee.

Secretary of State Knox, at the request of Senator Bailey, had been asked to explain to the committee today whether the Root amendment to the paper section of the bill providing that it shall not be in force until the President is satisfied and has issued a proclamation to the effect that paper and wood pulp are being admitted free into all the provinces of Canada, is in full accord with the agreement, as understood by the commissioners from both countries, who prepared the treaty. On Wednesday the committee will take up the bill in executive session to discuss committee action.

Both Herman Ridder, until recently president of the American Newspaper Publishers' Association, and Melville E. Stone, general manager of the Associated Press, testified yesterday, in answer to queries from various Senators, that in their opinion no effort had been made by the newspapers of the country to present only one side of the reciprocity argument, to color their reports on the question or to suppress any facts which were of new value. Bruce Haldeman, president of the Publishers' Association, and F. B. Noyes, president of the Associated Press, also appeared.

The chief interest which the newspapers of the country have had in the matter, Mr. Ridder told the committee, is their desire to free themselves from the paper manufacturers' trust, which now, he added, has the publishers at its mercy. The readers of the country would benefit by cheaper paper, as well as the publishers, he declared, because the money saved on paper could be used to furnish a larger and better news service.

The hearings wound up with a friendly philosphizing between Senators Bailey, Smoot, Lafollette and Clark on the one hand, and Mr. Stone, on the other, as to whether or not it would be better for the public if the newspapers gave them more of the serious, solid and instructive sort of news and less of the sensational.

Mr. Ridder, who occupied the greater part of the day before the committee, acknowledged that the Publishers' Association had sent out bulletins and letters urging the passage of the reciprocity measure. 'But I would not have favored the measure,' he said, 'if I had not thought it would be of benefit to the country as a whole independent of my interest in it as a newspaper publisher.'

When Mr. Ridder attacked the paper trust, which he said, limited the output, fixed the price and told a publisher where he must run his paper, both Senators McCumber and Bailey, opponents of the bill, declared that if there was such a trust they wanted to see it prosecuted by the Government. Mr. Ridder insisted, in answer to numerous questions, that any amendment to the bill would, in his opinion, endanger and probably kill the measure, and that therefore he was in favor of seeing the bill passed exactly as it came from the House.

Mr. Stone testified that no instructions had been sent out to Associated Press correspondents as to Canadian reciprocity, except that they had been told to send any important matter connected with it, because of the general interest of the subject. He was questioned in detail as to the Associated Press service by a number of Senators. All reports, he said, were supposed to be absolutely fair to both sides, to be a recital of facts on their news value only.

BREATH OF A WOLF.

Here's a Persian Remedy if a Bone Sticks in Your Throat.

A new and ingenious remedy for a bone in the throat will be found in an account of a Persian pilgrimage published under the title of 'The Glory of the Shia World.' The doctor was Mirza Sadik Khan, chief physician of the vakil ul mulk:

'The patient was brought in on the verge of death, and when his condition had been described the learned physician stroked his long beard and exclaimed: 'By Allah! This case would be hopeless except for me, whose perception is phenomenal. The cause of this man's state is a bone lodged in the throat so firmly that no efforts avail to dislodge it. Therefore either the man must quickly die or the bone must be dissolved, and by what agency? Thanks be to Allah, I am a physician and a Kermani and have observed that wolves, who live on raw meat and bones, never suffer any calamity such as that of the patient. Therefore it is clear to me that the breath of a wolf dissolves bones and that if one breathes down the throat of a patient the bone will be dissolved.'

'Infinite are the marvels of Allah, for when a wolf belonging to a buffalo was brought in and breathed on the patient suddenly a fit of choking ensued and the bone, dissolved without doubt by the breath of the wolf, was loosened and extracted.'

MARKET REPORTS.

Liverpool Wheat Futures Close Lower, Chicago Higher—Live Stock—Latest Quotations.

CHICAGO, June 7.—Scared shorts rushed up the price of wheat to-day on discovery that the market had been oversold. The close was strong, 1/4 to 1/2 to 3/4 higher than last night. Final trading left corn 1/4 to 1/2 to 1/4 up; oats 1/4 to 1/2 to 1/4 advance and provisions varying from a five-cent decline to a gain of 10 cents.

The Liverpool market closed to-day unchanged to 1/4 lower than yesterday on wheat, and 1/4 lower on corn. Budapest wheat closed 1/4 higher, Paris 20 to 240 lower, closed unchanged, and Berlin 1/4 lower.

Montreal Grain and Produce. MONTREAL, June 7.—There was an improved demand for sugar for oats, and a sale of 5000 bushels No. 2 Canadian western was made at 41 1/2c, and 25,000 bushels extra No. 1 feed to arrive at 40 1/2c, ex-store. The tone of the market is firm, but unless the demand for export account improves the impression is that present prices cannot be maintained. The foreign demand for spring wheat flour was good, and as the prices bid showed a further advance of 61 per sack, sales of some round lots were made.

Oats—Canadian western, No. 2 41 1/2c to 42c, car lots, ex-store; extra No. 1 feed, 41c to 41 1/2c; No. 3 C.W., 40 1/2c to 40 3/4c; No. 2 local white, 40c to 40 1/2c; No. 3 local white, 39 1/2c to 40c; No. 4 local white, 38 1/2c to 39c.

CATTLE MARKETS.

Montreal Live Stock. MONTREAL, June 7.—At the Canadian Pacific live stock market the offerings this morning were 500 cattle, 200 sheep and lambs, 250 hogs and 500 calves. There was no important change in the condition of the market for cattle, prices being fairly well maintained on account of the fact that the supply was ample to take care of it. The attendance of buyers was fairly large, and a good trade was done. Choice steers sold at 64c; good at 54c to 6c; fairly good at 54c to 6c; fair at 44c to 5c, and common at 44c to 46c per pound. There were some thousand cows among the offerings, and they brought 54c, while the lower grades sold at from 40c down to 35c. Prices for bulls ranged at from 4c to 5 1/2c per pound.

The tone of the market for hogs was firm, with no change in prices to note. The supply was only fair, for which the demand from packers and butchers was good, and a fairly active trade was done. Sales of selected lots were made at 64 1/2c, very heavy weights at 64 1/2c, and sows at 64 1/2c to 65c, and 65c per 100 lbs., weighed off cars.

Supplies of small meats were rather larger, for which the demand was good, and more active. The tone of the market was steady, and values were unchanged, with sales of old strap at \$4 to \$6; spring lamb at from \$1.50 to \$2, and calves at from \$2 to \$3 each.

At the Montreal Stock Yards west end market there were 250 cattle, 200 sheep and lambs, 900 hogs and 850 calves. The market was fairly active for all kinds, and the prices were steady, with the exception of hogs, which sold a trifle higher, at 64.5c per 100 lbs., weighed off cars, for selected lots.

East Buffalo Cattle Market.

EAST BUFFALO, June 7.—Cattle—Receipts, 50 head; market active and steady; prime steers, \$4.75 to \$5.50; butcher grades, \$1.50 to \$2.25. Calves—Receipts, 200 head; market active. 500 higher; cull to choice, 57 1/2c to \$2.

Brockville Scouts For England. Brockville, June 8.—Brockville sent three boy scouts to Montreal to join the coronation contingent sailing for England—Charles Steben, Guy Dangle and George Geiger. They were accompanied by J. M. Johnson of Athens.

QUAKE IN MEXICO

Sixty-Three Killed and Seventy-Five Hurt in Capital.

DAY OF MADERO'S ARRIVAL

On Day That Was Intended For a Grand Celebration Mexican Capital Was Stricken by a Disturbance That Brought Down Buildings to Extent of \$100,000 - Soldiers Crushed Under Barracks.

Mexico City, June 8.—Sixty-three were killed, 75 wounded and property worth \$100,000 was wrecked yesterday by an earthquake shock which shook Mexico City and injected a note of tragedy into what was to be a day of pure rejoicing over the arrival of Francisco I. Madero, Jr.

When the work of searching the ruins is completed it is possible that the list of dead will be increased somewhat, as hiding here and there throughout the city there doubtless are wounded, who, with traditional fear of the authorities and Government hospitals, are anxious to evade discovery.

Little of the loss is covered by insurance.

It was 4.36 o'clock when the first shock was felt. According to meteorological observatory the greatest intensity was reached at the end of the first minute, but the instruments continued to record the shocks for 14 minutes more.

The disturbance was vacillating and almost free from trepidatory motion. More than half the dead accounted for were soldiers. They were caught beneath the falling walls of the artillery barracks in San Cosma, near the Mexican Central station.

Another place where the earthquake took its toll of death in considerable numbers was at the city power plant of the Street Car Co. There six persons were killed and six wounded. Two others were found in the debris.

With these two exceptions, the death list was made up of single cases, or in a few instances of two and three persons caught beneath falling walls in unsubstantial buildings.

Although the shock was plainly felt in all parts of the city, few realized the magnitude of the catastrophe until later in the forenoon, because the casualties were confined to a comparatively small area. Accustomed as the people of the city are to earthquakes, which usually are harmless, the inhabitants were slow to realize that this was the most serious shock the capital has suffered in a score of years.

With the exception of one Chinaman killed, no foreigners were injured.

In the barracks, where the soldiers were killed, twelve women also lost their lives. They were the wives of artillerymen. These women have the privilege of spending the night within the walls of the barracks, an old structure. It was unlike many of the older edifices of the city, as its walls were comparatively thin. Seventy-two soldiers were sleeping in the house. Approximately 35 were quartered on the first floor, the remainder on the second.

The bodies of 30 soldiers have been recovered. Three are missing and 16 are wounded, a few severely. Those who escaped began the work of rescue at once without spreading the alarm for some time. Women, whose soldier husbands were in the pile, stood by waiting in groups, while children clung to their mother's dresses and stared curiously at the gruesome scene. Ambulances later carried the wounded to the military hospitals and the dead to Dolores Cemetery.

Playgrounds For Berlin.

Berlin, Ont., June 8.—Berlin may follow the example of Toronto and other cities by establishing children's playgrounds. The Children's Aid Society is behind the movement, and are endeavoring to get a centrally located property for that purpose.

There promises to be a merry fight between the sewer commission and the council over the bylaw, which, if carried, will abolish the sewer commission. That body is as bitter as the council in denunciation, and assert that the bylaw will be snowed under by the people. They are unanimous in repudiating the graft foreman Ryckerman.

Never Offered For Sale.

Kingston, June 8.—On being interviewed yesterday, Hon. William Hartley denied offering the Chats Falls for sale to Ottawa for any price. He produced a letter written by him Sunday, in which he stated that the City of Ottawa had never made any proposal to him, nor had received any proposal from him concerning the ownership of the falls, or the price at which he would be willing to sell.

The Lakeside Sold.

St. Catharines, June 8.—The Niagara, St. Catharines & Toronto Navigation Co. on Tuesday disposed of the steamer Lakeside to M. J. Hogan of Port Colborne, the price paid being \$10,000. The old steamer was yesterday taken to Port Maitland, to enter service for Hogan, who has large contracting interests. The familiar whistle of the boat is now in use at the Independent Rubber factory at Merriton.

New Church For Alexandria.

Cornwall, June 8.—The building committee of the Presbyterian Church, Alexandria, has awarded the contract for the new church to J. J. McIntosh of that town, who will commence work almost immediately. The church will be of concrete blocks with hot air furnaces and electric light.

Instructor of R. M. C.

Kingston, June 8.—Lieut. Maurice Plummer, a graduate of the Royal Military College, will succeed Capt. Blair as instructor in military topography here. Mr. Plummer is in Ireland with the Royal Artillery. He is a son of J. H. Plummer of Toronto.

JUDGE LEET'S VIEW.

Jurist Says Church Has No Jurisdiction Over Marriage.

Montreal, June 8.—Judge Leet, who considers that his opinion with regard to the Herbert marriage case and the "no temere" decree has been quoted in such a way as to create a misunderstanding, has issued a letter to the press in explanation of his position. He upholds the ruling of the court as regards the legal invalidity of the marriage of two Catholics by a Protestant minister, but contends that this ruling has no application to mixed marriages. The courts, he says, cannot endorse the "no temere" connection with regard to the marriage of a Catholic to a Protestant. After discussing the legal history he concludes:

"Until the no temere decree there was never any question in this country as to the validity of the marriage of a Catholic with a Protestant by a Protestant minister, and I do not think there is any danger of the courts upholding the pretension of the decree. The decree will only cause heart burnings and social difficulties that the law can hardly deal with. It is only a dogma of the church, which the law now does not recognize and is not likely to recognize."

AGGRESSIVE WORK.

Congregationalists Have Had a Good Year.

Kingston, June 8.—Yesterday morning's session of the Congregation Union of Canada was taken up in selecting standing committees and receiving reports. The missionary report presented was most encouraging. The society is supporting forty ministers and churches, carrying on an aggressive campaign. A special evangelist was recommended for Swedish work. A bequest of \$17,000 was reported from the late George H. Hodge of Sherbrooke. It was reported that the co-operation committee had succeeded in consummating with other denominations an agreement for co-operation in home mission work.

Feeling reference was made to the death of Charles Cushion, whose influence was felt in all departments of the work. The mission society referred to the increase in finances since 1906 to 1910, from \$14,718 to \$39,835.

Rev. Dr. Garvie, representing the English Colonial Missionary Society, gave an address, in which he spoke of the interest England had in the work being done in Canada.

Released Wrong Man.

Cornwall, June 8.—In compliance with a telegram from Chief Russe of Cobourg, Chief of Police Smyth of Cornwall, the other day went to the G.T.R. depot and arrested a passenger on the eastbound express, named Charles Crane. It seems that Crane, along with several other young men, was arrested and sent to jail at Cobourg for stealing a ride on the Grand Trunk Railway. One of the crowd, named Berry, wrote to his friends in Montreal, who sent the Cobourg chief money to pay Berry's fine and provide him with a ticket to Montreal. When Berry was asked for at the jail Crane stepped forward instead, and was released and started for Montreal. Afterwards the mistake was discovered, and the message was sent out in pursuit of Crane. He was taken back to Cobourg by Chief Russe to finish his sentence.

Lived Three Months In Ice Block.

Geneva, Switzerland, June 8.—Extraordinary experiments showing the possibility of suspending life for an indefinite period have been carried out by Prof. Raoul Pictet.

He took some live goldfish, froze them in water to 20 degrees centigrade below zero, and then, after three months, gradually warmed the blocks of ice and brought the fish back to life.

Frogs, he says, can bear freezing to 23 degrees below zero, anails have borne from 110 to 120 degrees, and a dog has been seen to go through a whole hour at a temperature of 110 degrees below freezing point without dying.

Prof. Pictet is convinced that life is being brought within the number of nature's constant forces.

Ask \$10,000 For Hospital.

Brantford, June 8.—At a meeting of the city hospital trust board here it was decided to ask the city and county combined to provide \$10,000 for a new hospital building to be erected on the present site, the John H. Stratford Hospital being utilized in the new building. The directors appointed Miss Carson, superintendent of Owen Sound Hospital, as matron succeeding Miss Tolmie, resigned.

Tips Didn't Pay.

Montreal, June 8.—John Flynt, a follower of the races, who was arrested on Monday night by the Westmont police for selling "tips," was brought before Police Magistrate McMahon and sentenced to fifteen days in jail. So poor a business had the man been doing that he was not able to pay the optional fine of \$5, which would have kept him out of jail.

Kidnapped By Parents.

Brantford, June 8.—There was some excitement near Langford yesterday when a man and woman in a covered buggy kidnapped a nine-year-old adopted daughter of a farmer named Shunk, while she was on her way to school.

The girl is a ward of the Children's Aid Society, and her parents are believed to be the guilty parties.

Missing Child Found Drowned.

Brookville, June 8.—Glendon Newvine, aged three, wandered from home on Tuesday. An all-night search by the police failed to locate the child. Yesterday morning a fishpole found on a boat-house dock in Tunnel Bay furnished a clue, and a drag-net recovered the body in ten feet of water.

Patched Up Their Quarrel.

Brantford, June 8.—The trouble between the Dufferin Rifles Regiment and the city was adjusted yesterday, the regiment sending notice that by a majority vote it had been decided to turn out and assist in the mayor's gala day and coronation celebration.

SPITE IS EVIDENT

M.C.R. Wreck Seems to Have Been Carefully Planned.

ONE RAIL WAS LIFTED OUT

Spikes Were Taken From Another According to Witnesses at Inquest In Ridgetown Into Wreck Near That Town—Crown Has Eye on Suspected Persons and Is Waiting For Evidence to Go on.

Ridgetown, Ont., June 8.—Evidence submitted by trainmen and others at the adjourned inquest yesterday afternoon into the fatal wreck of the Michigan Central flyer, which was derailed here on the morning of May 31, went to show that a rail had been deliberately removed and laid 12 inches inside its usual position, while five spikes had been pulled from the other rail.

No evidence was submitted to incriminate anyone, but an adjournment was taken till Tuesday to allow the crown to enquire into the actions of certain people, who may be implicated in the matter.

Coroner Dr. C. B. Lake presided. Crown Attorney H. D. Smith of Chatham had charge of the case, W. S. Blackburn, a London barrister, a brother-in-law of the deceased Engineer Oakes, W. B. Kingsmill, for the railway company and Government, and Provincial Detective Jas. Miller, who is working on the case, were present. An array of witnesses were in the room, but only 12 were called.

Thomas Hickey, roadmaster of all the Michigan Central, was the first witness. Describing the accident, he said when he arrived after 4 o'clock in the morning he found the engine and baggage car overturned, and the front trucks of the smoker off.

"I found a rail had been taken out," he said, "and laid between the tracks, about 12 inches inside of its normal position. I found that the spikes had been taken out and the fish plates taken out, and thrown down the bank. The bolts were taken off by hand."

"How do you know they were taken off?"

"Because they could not have come off any other way. The thread of the bolts was in the usual condition. The spikes showed they were pulled out without any bending or twisting."

Asked if he saw any further evidence of intentional wreckage, he declared that five spikes had been pulled from the other rail, as if an attempt had been made to remove it also.

W. B. Kingsmill, for the railway, brought forth the story about the breaking into the tool house, and the robbing of foreman's tools. Questioned concerning the spreading rails, he said that rails spread gradually, and that one rail alone would not have been loose.

Jno. Lamb, station foreman, was asked about his inspection of the line. He made an inspection in the morning, but kept his eyes open all day for anything wrong. Monday night, however, was the last time of inspection until the Wednesday morning of the accident. The ties were not bad in any place. He put his tools in the tool house on Tuesday night and locked the doors. When awakened on the morning of the wreck, he went to the tool house and found part of the lock wrenched off. Search with his twelve men showed his plow bar and wrench missing.

George Galt, a passenger, declared that the tools which had been found showed indications of having been recently used. There was no rust on them, as he would expect from iron being out all night, and they were all perfectly dry.

Adjournment was then made until Tuesday, June 20, at 10 o'clock, the crown saying that there was another side of the case which would take some time to enquire into.

"There are people whose actions have not been satisfactorily explained and whom the officials of the crown are of the opinion might possibly be implicated in the matter," declared Crown Attorney Smith last night. "Until the evidence can be shaped out to justify us in naming them and in presenting what facts we have against them, however, we think it only fair to hold our hands and not take any evidence that might hurt innocent people."

Uncovering the Sunken Maine.

Havana, Cuba, June 8.—The first stage of uncovering the wreck of the battleship Maine was completed when the water level within the great cofferdam built around the wreck had been lowered. Tuesday by precisely five feet. This leaves the portion of the barnacle-covered wreck visible above the water practically the same as after the disaster, before the hull was imbedded in the mud. The pumping resumes June 15.

Local Option at Vankleek Hill.

Cornwall, June 8.—Local option went into force at Vankleek Hill on May 1, and now it costs 50 cents for a meal at the Vankleek Hill hotels, and a charge is made for use of the hotel sheds. The temperance people are fighting this by throwing open the sheds at the various churches, and the business men are arranging for a 25-cent meal eating house.

Ice Keeps Steamer Out.

Nome, Alaska, June 8.—The steamer Corwin, which arrived from Seattle with 102 passengers Monday, has been unable to make a landing because of the heavy ice floes and the rough sea. The Corwin went twenty miles up the coast, but was unable to find a suitable landing place. The ice still stretches six miles out from shore.

Three Children Burned to Death.

Sherbrooke, June 8.—A report was received here yesterday afternoon that three children, aged 12, 9 and 6 years, was burned to death at St. Martin's, Beauce County, yesterday morning. The fire broke out in the house occupied by Leon Poulin. Mrs. Poulin and her 20-year-old son were also badly burned.

NO COMPROMISE.

Senate Committee Cannot Reach an Agreement on Tariff.

Washington, June 8.—Following four hours' discussion of the Canadian reciprocity bill by the Senate finance committee in executive session yesterday, Chairman Penrose expressed the opinion that any amendment that might be adopted by the committee would be killed on the floor of the Senate. It was thought at first that a compromise might be reached on the Root amendment to the paper and wood pulp clause, which amendment had been objected to as fatal to the agreement, but such a compromise was found impossible. It is not believed that any amendment other than that offered by Senator Root will have a chance of adoption in committee, although Senator Nelson who has prepared several, placing duties on grains, cattle and horses, which under the agreement would come in free, will be heard by the committee to-day.

It was the first day of executive consideration of the bill, but the committee's deliberations were without result so far as voting on the bill or any amendment were concerned, and it was declared doubtful whether the committee would be ready to report the measure to-day.

Bitterness of political debate such as has not characterized any of the opening tariff skirmishes of the present session of Congress cropped out in the beginning of the wool tariff discussion in the House yesterday. Democratic Leader Underwood devoted the afternoon to an explanation of the proposed revision of the wool tariff, and to an attack upon the Payne tariff law and the Republican party.

He was met at almost every stage of his argument by replies from former Chairman Payne, now ranking Republican on the ways and means committee, and by other Republicans who questioned his statements and his arguments.

Mr. Payne will lead the opposition to the Democratic bill and will probably make the opening speech to-day.

"There is nobody in this country who does not know that the American Woolen Co. to-day fixes the price," said Mr. Underwood; "that it is a monopoly, that it is a trust, and that industry and that company dictated to a Republican House, when they prohibited you from reducing the exorbitant rates under schedule K in the last Congress."

Paying his respects to the present tariff board, Mr. Underwood said that if that body "went on for ten years as it is going at present, we would not get enough information on the wool schedule to write a tariff bill."

He said he was convinced that no tariff board ever appointed by the President, even though it were a permanent board with wide powers, would work satisfactorily. While not questioning "the sincerity or honesty of purpose of President Taft," Mr. Underwood said he was convinced that "either the board refused to give up facts we called for, even with the President's sanction, or else the board has wasted a quarter of a million dollars in its work."

BRIEFS FROM THE WIRES.

The Canadian cadets won three cups, three medals and other prizes in Britain.

Admiral Togo and Gen. Nogi were loudly cheered on arrival in London for the coronation.

The laymen of the Toronto Methodist Conference favored increasing the remuneration of clergymen.

The official nominations for the Nova Scotia Legislature was held yesterday. All are on straight tickets.

The authorities of the Township of Scarborough have ordered all dogs tied up for 90 days on account of a rabies case traced to Toronto.

Listowel Council, after a conference with a Board of Trade delegation, decided to grant \$50 for the purpose of advertising the town.

The Board of Health took action to compel cleanliness in the sale of articles of food. The M.H.O. may indict the City of Toronto for the use of the public drinking cup.

Dr. Armstrong of Montreal, the newly-elected president of the Canadian Medical Association, was seized with sudden illness and was unable to deliver his inaugural address.

Railway steel reached Porcupine yesterday. The work train leaving at 6 o'clock to-day carried the first passengers on the all-rail trip from Porcupine. Ballasting is completed within eight miles.

At a meeting of the Oxford Council at Woodstock a resolution was offered calling on the Attorney-General to press the graft charges against certain members. No vote was taken, pending the receipt of the committee's report.

Thomas Moyle of Toronto, who was arrested a week ago at Galt on a charge of kidnapping his son, who was a ward of the Children's Aid, received his trial yesterday. The father was referred to the society with his grievance, and was told to keep away from his son.

Nearly Ran Into Canal.

St. Catharines, June 8.—A large auto driven by W. Thompson of Paris, narrowly escaped plunging into the new canal at Queenston street crossing. The car rounded a curve approaching the bridge at rapid rate, when it was discovered by the driver that the brakes and steering the car into a near-by post, a most serious accident was avoided, but the machine was considerably damaged by the impact with the post, which was cut into, toppling over into the auto.

Does Not Want an Election.

Winnipeg, June 8.—Hon. Frank Oliver stated here yesterday that the Government has no desire to call a general election now. It was true that only five-twelfths of the supply had been voted, and therefore it was in the power of the Opposition to force on an election in September. That would be before complete census returns would be in, and therefore before redistribution would be possible. He spoke last night at Selkirk, Man., and will address several meetings in Manitoba before proceeding west.
