CARS CAPSIZE IN WRECK NEAR NEWCASTLE FRIDAY

Car Driven by Samuel Frankel Rams Rear End of Vehicle Driven by Bert Samis of Newcastle—Both Drivers Escape Injury.

When a car driven by Bert Samis of Newcastle, was proceeding along the provincial highway in Clarke on Friday afternoon, about a mile and a half east of Newcastle, it was rammed by a car driven in the same direction by Simon Frankel of Toronto. Both cars overturned into the ditch and the Samis' car received the worst of the argument. Both drivers miraculously escaped injury.

The Samis car was struck with such an impact that it was turned completely around and overturned into the ditch facing in an easterly direction. The Frankel car caromed across to the left hand side of the highway and capsized facing west.

TENDERS

St. Paul's Presbyterian Church Port Hope

Tenders will be received by the undersigned up to Saturday, April 7th, for painting and decorating the Sunday School rooms, corridors and stairways. Specifications and instructions can be had from me. The

lowest or any tender not necessarily accepted.

MASSEY SPEAKS OF ARCTIC WEALTH

Hon. Vincent Massey Tells of Canada to San Francisco Audience

Canada is adding another ocean to her avenues of transportation, Hon. Vincent Massey, Canadian Minister to the United States said in the course of an address before the Commonwealth Club at San Francisco Thursday.

"Nature has been good to us," said Mr. Massey. "We are only beginning to understand how good she has been. But nature imposed on us the test of geographical obstacles, and we have had to overcome those obstacles before nature's trusteeship was relinquished.

"Our conflict with nature was on the Western frontier at first. For years we called the West barren lands, because there were no trees on them. The delusion of barrenness has gone. Recently an Alberta wheat field containing 1300 acres produced a crop of 57 bushels of wheat to the acre.

"For a much longer period we considered the Northern Frontier as barren land as well. This perhaps was because there seemed to be little but rock in the North. Now we are finding in our Northern Frontier unknown treasures of minerals, and incidentally we are solving one of our national problems. One of the great tasks we had in Canada was to widen the band of population from East to West and make it continuous. The great stretch of rocky country between East and West with every year is proving more productive. We used to think in terms of two oceans in Canada. Over the doors of our Parliament appear the words, 'The wholesome sea is at her gates, her gates both East and West.' We are busy constructing another gate in the North—at Fort Churchill. The Arctic Ocean is no longer something we merely look at on the map, but is coming to an increasing extent into our national consciousness. A Provincial Cabinet Minister said not long ago that it would soon be possible to get into a sleeping car in Toronto and alight within the Arctic Circle. Incidentally our new gateway will bring Western Canada 1000 miles nearer to Great Britain than does any present avenue of transportation.

RECORD BROKEN BY U.S. FLIERS

Haldeman and Stinson in Monoplane Remained in Air for Over 53 Hours

The world's record for sustained airplane flight came back to the United States on Friday.

Eddie Stinson and Captain Geo. Haldeman at 1 p.m. exceeded by one hour the record set by Johann Ristic and Cornelius Edzard, the German fliers. The one hour mark automatically gave them the new record.

Stinson and Haldeman, flying a big orange and black Stinson-Detroit monoplane, completed 53 hours and 23 minutes of flying and remained aloft, hoping to stretch their mark to 55 hours or more.

The exact previous record was 52 hours, 22 minutes and 32 seconds, established by the Germans last August 5 in a Junkers plane.

Aided by clear weather throughout the flight, Haldeman and Stinson kept their plane slowly cruising back and forth over a strip of the Florida Coast since 7.37 a.m. Wednesday. They maintained an altitude of 4,000 to 5,000 feet during most of the record flight.

CHOIR PRESENT CONCERT AT BOWMANVILLE

Local United Church Choir Was Heard to Advantage by Bowmanville Audience

The Port Hope United Church Choir under the direction of T. W. Stanley, presented their annual concert in Trinity United Church, Bowmanville, to a large audience Thursday night. The choir members were all vested and were more than 50 in number. The selections chosen for concert use were all varied and the solo and chorus numbers were exceedingly well given. Mr. Stanley's selection "Fret and Peasant" on the organ was wonderfully played. He also was accompanist for the evening.

The concert was put on under the auspices of the Trinity United choir which members were practically all present to hear the choir of their former organist and choir master, Mr. Stanley. The chorus parts with organ accompaniment were splendid in the extreme and the effect perfect was duly gratifying.

The opening chorus was the 'Love's Benediction' and other chorus numbers were "John Peel," "Anchored" and "Hush, Thee, My Baby," the latter a selection from Sullivan. A vocal number by Gil Darling entitled "Come into the Garden, Maud" followed the first opening and was sung in a fine voice. A ladies' sextet consisting of Mrs. (Dr) Hawkins, Mrs. E. Holden, Mrs. B. Wakelin, Mrs. C. Evans and Miss J. Hawkins and Miss M. Garnett, gave the number "Nymphs and Shepherds," which won much applause.

Mrs. Reeve delighted with several readings and Mrs. C. Evans sang "Sing, Sweet Bird," in an accomplished style. G. Ward changed the order of things with clarinet selections of medleys of old time songs. The song "Tom O'Darn" was given by Mr. Stephenson and won much approval.

A piano solo by F. Skitch featuring the "Prelude in C Sharp Minor" and a pleasing encore were splendid. Mr. Skitch's playing deserves great credit and the handling of the well known Prelude was exceptionally well done.

"The Maiden in Gray," a duet and musical sketch was quite delightful. The acting for this piece was well carried out and the voices in each case controlled admirably. Mrs. Manson and Mr. Darling took the parts. Miss Ruth Wickett sang "Mighty Lak a Rose," in a sweet voice. Miss Sorrell gave a splendid vocal number.

"The Black Mare," a comic song, but possessing the rich qualities of a well trained voice, was sung by Mr. Thompson. Miss Brown gave two fine readings which were delightfully humorous.

The quartette consisting of Misses H. Harcourt, R. Wickett, M. Sorrell and M. Pomfret, and F. Skitch, J. Douglas, G. Garnett and H. Hancock, sang the part song, "Cherry Ripe."

After the concert, the guest singers and the Bowmanville choir were entertained in the school room when a fine lunch was prepared. During the social hour the choir president, of Trinity, moved a hearty vote of thanks for the Port Hope choir and was seconded by Charles Jewell. A. Fulford, on behalf of the visitors, thanked the hosts and hostesses in which he was seconded by E. V. Dyer. Mr. Stanley also gave a short address.

The prize for the contest was won by Miss Pomfret.

OSHAWA STRIKE IS CONCLUDED

Men Return At Old Scale Pending Decision by Board of Conciliation

With Hon. Peter Heenan, Minister of Labor, and M. S. Campbell, Chief Conciliation Officer of the Department of Labor at Ottawa, conducting negotiations, the General Motors strike, which was launched Monday morning when three hundred trimmers walked out, ended Friday afternoon when H. A. Brown, General Mgr. of General Motors of Canada, Limited, through the minister, offered to allow the men to go back to work at the old scale of wages, pending the decision of a Board of Conciliation to be appointed. The strikers at the Armories at a mass meeting accepted the proposals and as a result the trimmers were at work this morning with the remainder returning Monday.

Brown's Letter

The letter handed to the Minister of Labor which brought about the settlement from Mr. Brown read as follows:

"I wish to express to you first our very sincere appreciation of your efforts in connection with the adjustment of our present labor difficulty. I will attempt to outline to you briefly our position in regard to the employees who are now out on strike.

"I will be not only willing, but glad to have these employees all return to their former positions without prejudice, which, of course, involves the removal of the men temporarily employed in the trimming department to other positions in our plant.

"I am surprised to find that some of the grievances of our employees seem to be attributable to the lack of understanding between employees and certain superintendents and foremen and this misunderstanding I feel sure can be adjusted to our mutual satisfaction.

"I am surprised to find that some of the grievances of our employees seem to be attributable to the lack of understanding between employees and certain superintendents and foremen and this misunderstanding I feel sure can be adjusted to our mutual satisfaction.

Agrees To Board

"I agree to your suggestion that a Board of Conciliation under the Federal Industrial Disputes Investigation Act be formed and function with regard to the disputed reduction in piece rates established in the trimming department on March 22 and on Chevrolet and Pontiac assembly lines on March 15.

"I wish to assure you, Mr. Heenan that we have every desire to treat our employees right at all times, paying them wages equal to or better than is paid elsewhere for similar work in similar industries, and are willing to lay the facts before the board as you have suggested in order to bring the matter to a head. I agree, pending the findings of the Board of Conciliation, to re-establish the rates applicable immediately prior to the above-mentioned dates."

While it was anticipated by the city generally that a settlement was near at hand, it was realized that since both sides had remained firm in their convictions since Monday, anything was likely to happen. Friday morning the arrival of the Minister of Labor inspired confidence that the differences which had so disturbed the city would be soon terminated.

"I wish to assure you, Mr. Heenan that we have every desire to treat our employees right at all times, paying them wages equal to or better than is paid elsewhere for similar work in similar industries, and are willing to lay the facts before the board as you have suggested in order to bring the matter to a head. I agree, pending the findings of the Board of Conciliation, to re-establish the rates applicable immediately prior to the above-mentioned dates."

"I wish to assure you, Mr. Heenan that we have every desire to treat our employees right at all times, paying them wages equal to or better than is paid elsewhere for similar work in similar industries, and are willing to lay the facts before the board as you have suggested in order to bring the matter to a head. I agree, pending the findings of the Board of Conciliation, to re-establish the rates applicable immediately prior to the above-mentioned dates."

"I wish to assure you, Mr. Heenan that we have every desire to treat our employees right at all times, paying them wages equal to or better than is paid elsewhere for similar work in similar industries, and are willing to lay the facts before the board as you have suggested in order to bring the matter to a head. I agree, pending the findings of the Board of Conciliation, to re-establish the rates applicable immediately prior to the above-mentioned dates."

Looks For Solution

Mr. Heenan said that the strike situation was under Provincial jurisdiction and that as a consequence he really had no authority to act in the matter. He said, however, that as he had been invited to be a mediator in the dispute he would do his utmost to bring about a settlement. Conciliation Boards succeeded in nine cases out of ten in providing the key to problems, he said and arriving at a satisfactory solution.

ANNUAL MEETING

The annual meeting of the Oshawa District Intermediate Baseball league is being held in Bowmanville this afternoon and representatives of the local Intermediate Club will attend.

Seven persons were killed in Ohio traffic accidents during one day. Suspenders banned for firemen of Tulsa, Okla.

Fifteen motor busses may replace trolley cars at Oshkosh, Wis.

BUSY TIME FOR MRS. LINDBERGH

Mother Of Famous Airman Is Expected in Toronto On April 10th

Mrs. Evangeline Land Lindbergh, mother of the "lone eagle" airman, is to spend two exceedingly busy days in Toronto when she comes there on April 10.

The main event of her visit is to be the presentation to her by the Ontario Educational Association of a life membership certificate, for she is a teacher in a Detroit school. It is likely that the certificate will be gotten up in rather striking style—probably on thin gold plate enclosed in a silver casket, Ontario gold and silver being used.

She is to be breakfasted as a beginning by the Toronto Teachers' council at 8.45 on Tuesday morning, April 10. Then she goes to the city hall for a civic reception at 11. She will probably be received there by airmen and will deposit a wreath on the cenotaph. At luncheon she is to be the guest of the Womens' Canadian Club. At dinner the American Womens' Club will have her as their guest. In the evening she will be run out to the Coliseum where 10,000 people will see her made a life member of the O.E.A.

Wednesday morning the Toronto Council of Women will have her at breakfast. It is likely that she will have lunch at Willard Hall as guest of the W.C.T.U. And at dinner she will be with the Canadian Womens' Business and Professional club.

ADVANCEMENT OF OLD PORT HOPER

L. W. Buller Receives Important Post in C.N.R. Service

L. W. Buller, assistant superintendent for the Northern Ontario district of the C.N.R. has been appointed transportation assistant for the same district with headquarters at North Bay, it was announced by W. R. Devenish, general superintendent. Mr. Buller, who has been in the railway's service for 32 years began his career as a telegrapher on the Grand Trunk system and has been stationed at a number of different posts.

His position as assistant superintendent will be filled by H. S. Cavanagh, at present assistant superintendent at Capreol, Ontario.

Mr. Buller will be remembered by many residents of Port Hope, he being a former resident of the town. He is a son of the late Jno. Buller.

room furniture; bedroom furniture, beds, bedding, walnut bookcase, walnut tables, dishes, curtains, rugs, piano, clocks and a lot of other articles. About four tons of coal and 40 jars of fruit.
GEO. E. CALDWELL, Auct.

AUCTION SALE

The household effects of the late Mrs Reid of Brown St., will be sold by public auction on Wednesday, April 4th, 1928, at ten o'clock, consisting of kitchen furniture, range, tables, chairs; dining room, walnut table, chair and sideboard; living

C.P.R. Seed Train Tours West

Upper—Specially-fitted lecture car used by the Canadian Pacific on the Forage Crop and Better Seed Grain Train. Windows of the coach are equipped with colored transparent photographs depicting various phases of farming activities. Lower right—The Hon. C. M. Hamilton, Minister of Agriculture, second from the left in the photograph, who opened the Better Seed Grain Train, photographed with F. Hedley Auld, Deputy Minister of Agriculture (left); D. T. Elderkin, manager Regina Industrial Exhibition Association, second from the right, and George Williams, representative of the Canadian Pacific Agricultural Department. Lower left—Interior view of one of the cars containing seed cleaning machinery.

With a view to further promoting the best use of seeds and obtaining first-class results in addition to educating the farmers as to how to overcome seed grain and forage crop difficulties, the Canadian Pacific Railway has again placed a touring demonstration train on their lines, which visits all important farming centres in the West, Prairie Provinces and part of the East.

This train went into service at the latter end of last month, the opening being attended by a representative gathering of government officials and members of the Saskatchewan Wheat Producers. The value of such a train was stressed by the Hon. C. M. Hamilton, Saskatchewan Minister of Agriculture, who urged the farmers to make the best possible use of this splendid advantage offered by the railway. In addition to the lecture car, the train consists of two baggage cars carrying a number of seed cleaning machines and others to be used in demonstrating seed and smut treatment. Dairying will also be featured throughout the tour, lectures in this connection being given by R. B. Vogne, government dairy promoter.

In the towns already visited, the train has been greeted with enthusiasm with the farmers displaying an eagerness which speaks highly of the reputation of the seed and forage crop demonstration train. It is operated in conjunction with the University and extension service of the Saskatchewan provincial government, with all cars having been equipped at the Weston Shops of the Canadian Pacific Railway at Winnipeg. Several of the cars are provided with motor-driven grain cleaning machinery of various types, while other cars are fitted with motion picture accessories for the showing of various phases of grain activities, with still others for the purpose of exhibiting grain and grasses. The entire train is opened for inspection at the various stops, demonstrators being on board to explain the entire exhibit and to give advice on important points in seed selection.

THE GUIDE STORY

(Continued from yesterday.)

John was half way across the hall, when he paused, went into the library, rang the bell and asked the servant who answered it to inquire whether Miss Fenton would let him see her for a moment.

As Firefly had been expecting the summons, it was only a few seconds before they were together in the grand old room, with its oak panels and wealth of books.

CHAPTER IV.

The Heiress

"Well, doc, 'to be or not to be?' " asked Firefly gayly, looking at the tall figure standing on the hearth-rug. "In spite of all your dismal croakings, I rather fancy that I've come to stay."

"Kindly give me your attention for a few minutes, Firefly," said John curtly, "for my time is limited. You have come to stay? Very well then, as you intend to occupy the position of companion to my patient, Miss Granby, I wish to give you a few instructions, as well as a warning."

Firefly made a grimace, but John continued unmoved.

"Miss Granby has heart trouble. On no account must she be worried, overtired or overexcited, for the consequences might be harmful. So far, you have done her no good. With your own ends in view, you have worked upon her sympathetic nature. For the rest of the morning I wish her to remain perfectly quiet, with only her maid in attendance. In the case of your noticing any fresh change in her condition, now or here, I must ask you

Now is your chance to have a cheap desert like last week.

Dresses for Easter

Smart styles in Poiret, Plain and Combined Fabrics. Included are the popular Kasha with contrasting trim. Sports styles at any price you may mention. Special attention to the Junior Miss.

D. A. SHAW CO.

"Be judicious in your kindness," said John dryly, with a twinkle in his gray eyes, "and remember that, for her, even pleasurable excitement is as bad as worry. By the bye, what age are you supposed to be now? I nearly put my foot in it this morning. I understood you were engaged to be married at eighteen, that makes you now—what?"

Firefly blushed. Had Doctor Forrester known it, there were not many who had the power to cause color to appear in her cheeks.

"Don't be too critical, doc," she said, almost shyly. "One must tell tarradiddles sometimes, and the dear old lady would have been horrified if I had said that he was eighteen and I was sixteen when that memorable event happened. I shall never forget how savage you were about it, and how you made us both own up to my mother."

"Why need you have said anything about that childish affair?" asked John.

"I thought it was the duty of a companion to amuse her employer," replied Firefly, with a questioning look in her hazel eyes.

John fairly groaned.

"Don't you ever tell the truth, Firefly?"

"Not often. I find that untruths amuse people much better! It is very strange, doc, but I have discovered that to tell the truth is, in most cases, fatal. People always think one is lying and get cross."

"Well, some day you will find it is a mistake," replied John, feeling for once at a loss what else to say. "Good by and be careful of Miss Granby, and if she should confide in you, don't laugh at any of her fancies; they may be absurd, perhaps, but agree with them."

"Good by?" replied Firefly. "Well you are a horrid man! I thought you would stay for a long chat about the home people—and everything."

John Forrester was but human. The girl was pretty, her clustering red-gold curls made her look like a child, if an impudent one, and, despite himself, he smiled.

(To be continued.)

JOHN BARRYMORE

The screen's greatest romantic actor, whose latest production, "When a Man Loves," will be shown at the Royal Theatre on Monday and Wednesday only. In "Don Juan" and "The Beloved Rogue," Mr. Barrymore proved very popular here and his new photoplay should be a strong attraction. It is based on a story of France in the reign of Louis XV, and has been produced on a magnificent scale. Beautiful Dolores Costello, herself a star, is co-featured.

WILLING TO WED AGAIN

Right Man Mustn't Be Too Old Says Mrs. Goldberg Who Expects to Reach 115

Mrs. Ida Goldberg of New Rochelle, N.Y., was 107 years old the other day. She celebrated the event at the United Home for Aged Hebrews by eating prodigiously of a huge cake and expressing herself on such modern subjects as companionate marriage, smoking by girls and prohibition.

Companionate marriages, she said, "are all right as far as I can see. At least they are something new and perhaps are worth a trial, anyway, before they are condemned."

Smoking by girls, she continued is their business and no one else's.

"Never," she said, looking up at her interviewers, "look up. Always look down and you will see how many persons are much worse off than you are, no matter how hard you think your lot in life is. Remember there are thousands who have not been as fortunate as you."

Thus having delivered herself upon general problems and her philosophy of life, Mrs. Goldberg turned to the personal side.

"Would you," she was asked, "marry again?"

Here Mrs. Goldberg munched thoughtfully on her cake for a time and then said:

"If the right man came along and he was not too old, I might consider wedlock again, as I expect to live to be 115 years old, like some of my ancestors."

Not so much because of the infirmities of age as because of a broken hip sustained two years ago, Mrs. Goldberg was confined to a wheel chair during her birthday party. She moved this around with alacrity and showed how keen her eyes were by threading a needle without the aid of eye glasses.

Born in Kovno, Lithuania, she is descended from the famous Rabbi Loebe, who built the Golem statue in Prague. She was hostess at a dinner to the other inmates of the home. Her chief guests were Feigele Leicher, who is 101 years old and Herman Keller, a youngster of 89.

BIG WOLF SHOT AT CASTLETON

One of Three Animals Which Had Settled in District Is Killed

For several weeks three wolves have been seen in the vicinity of Castleton.

A few days ago Messrs. Lew Palmer, Charles Millar and James Wilson started on a hunt for the animals which lasted from five a.m. until eight p.m., and which covered considerable territory. The animals were finally surrounded at the north end of the Allen Brothers' property.

One of the animals then came out of the woods, and was shot through the backbone by Millar, but it started to run, dragging its hindparts. It was shot twice again before it dropped.

These wolves are very large; the one shot measuring five feet nine inches. The hunt for the other animals will be continued as soon as possible.

"SALADA" GREEN TEA

HEAVY INCREASE IN PRODUCTION

February Still Only Two-Thirds of Year Ago—Imports Increased

Production of automobiles in Canada during February at 12,504 cars was 48 per cent. over the output of 8463 cars reported for the previous month, but 33 per cent. below the number of 18,655 cars produced in February of a year ago, according to figures compiled by the Dominion Bureau of Statistics.

Compared with the previous month, February production showed an increase in all types of cars. Open model passenger cars advanced slightly to 1788 from 1780; closed models rose to 8292 from 4671; trucks to 211 from 105, and chassis to 2213 from 1905. No taxicabs or buses were produced in February as against two in January.

According to customs records 2644 automobiles were imported into Canada during February, as compared with 1586 in January and 1567 in February of last year. Exports cleared from Canadian ports numbered 4128 as against 3526 in January and 5321 in February, 1927.

The number of motor cars needed to meet the Canadian demand may be computed by adding the imports of 2644 to the 9082 cars which were made for sale in Canada; this makes an available supply during the month of 11,726 cars. For the year to date the number of cars made available for consumption in Canada totalled 17,873.

For the two months ending February, the production of cars in Canada amounted to 20,967 or about 38 per cent. less than the 34,031 cars produced during the corresponding period of 1927. This year's output to date included 3569 open passenger cars; 12,963 closed models; 316 trucks 4118 chassis and 2 taxicabs or buses.

Irwin Dysert, 26, who escaped from Ohio Penitentiary last August was captured at Kenton, Ohio.

BY GEORGE McMANUS

FRIENDLY cushions, fashioned with the comfort of an easy chair, invite relaxation as your McLaughlin-Buick sweeps smoothly along.

Comfort that invites Relaxation

In the designing of McLaughlin-Buick for 1928, riding ease and comfort have been given unusual consideration. Lovejoy Shock absorbers on all four wheels absorb and cushion every road-shock and rebound. Rubber Engine Mountings prevent vibration from reaching the car-body. Extra deep, resilient seat cushions, beautifully upholstered, are specially shaped and tailored to fit, like an easy chair. The lower body-lines have been attained without any sacrifice of headroom. And in finish and appointments, McLaughlin-Buick establishes a standard of luxury which vies with your drawing-room or club. The G.M.A.C. Deferred Payment Plan offers many advantages to buyers of McLaughlin-Buick cars.

When Cæsar Was a Boy

The Forum was the common market-place for all of ancient Rome. Today a few crumbling columns stand as mute reminders of its former grandeur. In our present day complex civilization, market-places have become scattered. It is no longer possible to visit them all in the morning—or even in a day. Advertising, instead, has become the convenient Forum of modern buyers and sellers. If you are considering the purchase of a new car, you scrutinize the auto advertising. Or if it's a razor or a talking machine that you want, you turn again to the advertising. Here is the national market-place for merchandise. Furthermore, as you leaf over those same pages of products, your mind is storing away for tomorrow a compact and valuable fund of information. Instinctively, you will remember those facts when you make your future purchases. Increase your store of knowledge by reading the advertisements regularly.

Advertising has become the common market-place of this 20th century.

Throw Out The Laugh Line!

It's the song you sing And the smile you wear That's making the Sunshine everywhere.

Special to the Guide from Staff Photographer.

Some peoples' records would not sound well on a victrola.

Easy jobs never last long, the competition is too keen.

Telephone operators should work eight hours and sleep eight hours, but not the same eight hours.

Probably they did not have Carnegie medals that time when the boy stood on the burning deck.

"I've swallowed my collar button," gasped the grocer.

"Well," responded his wife, "you know where it is, anyway."

The friend in need turns up often or than the friend indeed.

Nothing irks a genuine college boy any more than shaking out the envelope from home and finding nothing in it but news and love.

Try This on your Piano

In addition to being a leap year, 1928 will have 53 Sundays, three full moon Sundays and three Fridays the 13th. But here is something even more interesting: Think of any number of three figures that does not read the same backward and forward. Then reverse it; that is, if it was 598, put down 895. Subtract the smaller from the larger, and if the difference is greater than 99 you can now proceed as follows: Add the difference to the magical number 1928. Then add the difference reversed. That is, in the above case, add 297 to 1928 and then add 792. The result is 3,017. And that will be true whatever number you choose. Try it.

University of Toronto women have made up a supply of "don'ts" for the men of the University and which were printed in a recent issue of Varsity. The co-eds showed that they could speak for themselves, as well as be spoken to.

Here are the suggestions they gave for the guidance of their male contemporaries:

Don't compile rules for young ladies' behavior—or at least be original.

Don't gush over one girl when you are out with another.

Don't hide behind a newspaper in a street car and offer your seat to a girl with a great show of courtesy—when your stop comes.

Don't say a smart girl is "not so much" because she didn't fall for you.

Don't wait for your girl to order coffee and toast before you order chicken salad.

Don't wear loud smelling hair oil.

Don't hire a meter cab to keep your eye fixed on the meter all through the ride.

Don't drop hints about off color jokes and then deplore the lack of delicacy in modern girls.

Don't wear your ties crooked;

brush your clothes—relieve us of a tiresome duty.

Don't say they are the best seats you could get when the fifteen rows in front of you are vacant.

Don't ask a girl out if you are going to spend the evening audibly worrying where your next week's lunches are coming from.

Don't kiss a girl against her will—take "No" for an answer.

Don't expect every girl you take out to be a John Held, Jr., cartoon.

Don't call "big men" by name to give the impression that you are well known.

Don't rave about your wild parties—we're not interested in lurid pasta.

Don't make excuses in a last minute date—or make 'em good.

Don't forget that it is none of your business whether girls smoke or not.

Don't confuse cattiness with sincerity.

Don't get "lit" but be "polished."

Don't be discouraged—perfection is tiresome in all men—be they "collyer" or otherwise.

Two Scotchmen Thought Lost in the United States—Headline. Probably they are in a Pay as You Leave Street Car.

OUR DAILY FAIRY STORY

Once upon a time we could buy Bock Beer for Easter.

The ghost walks today and we won't get lost either.

GLEE SINGERS FROM ENGLAND

Those who desire to hear this wonderful choir when they make their appearance at the Royal Theatre in Port Hope, on Tuesday next in afternoon and evening performances, should secure their reservations at Strong's Store immediately as the house is being sold out very quickly.

Although a measure of sacred music will be included in the program of the Westminster singers, it is mainly in the secular forms of cathedral singing that their greatest appeal will lie. Glee, madrigal, part-songs, solos with vocal accompaniment, concerted numbers for boys' voices, male quartettes and vocal dances will all be represented, the whole forming an absolutely unique performance.

The main object of the Westminster Glee Singers' world-wide tours is to revive an interest in the national music of the Old Country in the form of the folk-songs and traditional airs of England, Scotland, Ireland and Wales. Nowadays there is an ever-increasing appreciation of these beautiful melodies, many of which are being utilized in all forms of composition, including very important works for orchestra. There is no doubt that the Anglo-Saxon race, the world over, is becoming more alive to the wonderful musical literature which is our national heritage, although as far as the younger portions of the Empire are concerned, it will first be necessary to alienate the people's minds from the "jazz" and "rag-time" obsession.

CONDITIONS IN CANADA (Bank of Montreal Monthly Bulletin)

The business situation in Canada is affected in more or less important degree by activities concerned with works of national development, and therefore a review of conditions at the opening of spring may well include a survey of what in the aggregate is an impressive programme of construction in the fields of public utility and industry.

Most significant in this program is undoubtedly the development of water powers. Undertakings are now well advanced by which an additional 378,000 h.p. will be ready for operation during the first six or seven months of the present year. It is officially reported by the Department of the Interior that water power development in the initial stages of construction, or about to be commenced, will result in an addition to the Dominion total of more than 2,000,000 h.p. much of which will be in place before the end of 1930, while the capital required for this new work will involve the direct investment of at least \$200,000,000, and many times this amount in the application of power to industry and domestic and public use.

Important additions to the port facilities of Montreal, Vancouver,

Victoria and Quebec as well as Halifax and Saint John, are in the making. One million dollars is to be spent in constructing submerged dams below Montreal to increase the depth of the St. Lawrence waterway, and a new elevator will be brought into operation in the port of Montreal during the season, increasing the elevator capacity from 12,000,000 to 15,000,000 bushels.

Ready For A Weekend In The Country

AFTER those endless rounds of social duties and business worries that the winter season demands, quiet weekends at the beach or in the country seem to take a great load off one's mind. Here it is possible to relax and take life easy—no formal dinners or bridges or endless other affairs to plan or dress for. Time for the moment means nothing and sunny hours pass by all too quickly. This young lady in order to enjoy herself to the fullest has donned a delightful cotton frock which will be smart on informal occasions all through the coming summer. Box pleats are inserted in a diagonal in front with a little patch pocket opposite to give balance to the design. The short sleeves are admirable for the girl who goes in for sunburn but long ones may easily take their place if she wishes to preserve the whiteness of her skin. The boyish turned-back collar and the narrow buckled belt complete this charming frock. Printed washable silks can also be used as materials but cotton prints will be very popular this season. (Copyright, 1928, by Hesterick)

IF A MAN COULD BE BORN WHEN HE'S OLD

If a man could be born when he's old, And gradually grow young, The wisdom he'd gain and the lore he'd attain Are not easily said or sung, If I knew as much as my boy Who is six times younger than I, I'd have a sufficiency of general omniscience, Be finished and ready to die, So a man might drink deeper, I hold, And force out truth's obstinate bung, If a man could be born when he's old, And gradually grow young.

For the grouping and ignorant man In his darkness would count it a joy, If he had the light to enlighten his night, Of the wise, luminiferous boy, If he could grow younger and wise, And develop from age into youth, We'd be able to hold when we're thirteen years old

The substance and sum of all truth And the oceans of wisdom we'd hold Cannot be imagined or sung, If a man could be born when he's old, And gradually grow young.

But a man is now born very young, And he gradually grows old, And as his youth finishes his wisdom diminishes, And his ignorance grows manifold. And so every year doth his wisdom decrease And his tight knowledge web is unstrung, And no man can be sure he is not immature Unless he's exceedingly young— What sages the world might behold, What giants of brain and of tongue, If a man could be born when he's old, And gradually grow young!

Strangled with Asthma is the only expression that seems to convey what is endured from an attack of this trouble. The relief from Dr. J. D. Kellogg's Asthma Remedy is beyond measure. Where all was suffering there comes comfort and rest. Breathing tubes completely cleared. This unequalled remedy is worth many times its price to all who use it.

Use of Rays by Flowers.

Do flowers use rays not visible to the human eye to attract insects to them? Certain insects can spot ultraviolet light that cannot be seen by man, and some blossoms, in addition to their ordinary brilliant hues, vary in the kind of short light rays that they emit.

Prof. F. K. Richtmyer of Cornell University told the Optical Society of America, meeting at the bureau of standards in Washington recently, that these invisible rays may guide pollen-bearing insects to the flowers in their search for honey. Giving signals in rays shorter than the deepest violet that we can see brings the flowers the pollen that is necessary to it in producing seed. Experiments made by Professor Richtmyer on Colorado flowers show that flowers apparently differ in their reflection of ultraviolet as much as in their visible colors.

Insulted.

Simkins, the junior clerk, was looking very much on his dignity this morning. As he came out of the manager's private room he wore a look of offended pride, in which there was more than a suspicion of hauteur.

"Hello!" remarked one of his fellow juniors. "What's the matter with you? You look as if you'd lost a dime and found a nickel."

"The boss has said something to me which I resent," explained the other. "If he does not apologise I shall leave."

"Oh, and what did he say?" was the next question.

"Simkins, you're sacked," was the doleful rejoinder.

OBTUARY

Mrs. G. F. Lang Was Sister of Port Hope Man—Funeral Friday

Following a long and trying illness, Mrs. G. Fred Lang, an esteemed resident of Brockville for the past 33 years, passed away at the family residence, 120 Church street.

The deceased was born near New Dublin, a daughter of the late Henry A. Clow and of Mrs. Clow, at present in Smith's Falls. Besides her husband she is survived by two daughters and one son, namely, Mrs. W. J. Anderson and Miss Blanche Lang at home, and Mr. J. Clifford Lang of 55 Pearl street west. She also leaves four brothers and two sisters. They are Mrs. Mary Davison of that town; Mrs. Celia Dewolfe, Watertown, N.Y.; Mrs. Clark C. Cook, Smith's Falls; Mrs. Gilbert Orser of Gananoque; Messrs. Morton Clow of Port Hope, and Wilbur Clow of Gananoque.

Mrs. Lang was a member of the Wall Street United Church. During her long residence in Brockville the deceased made many warm friends by her kindly disposition and many neighborly qualities. She was well known and highly esteemed and much sorrow is felt at her passing. The bereaved relatives have the sympathy of many friends in their loss. The funeral was held on Friday afternoon.

HEARD ON THE STREET

Good morning! This is the end of the week and month. Watch out for tomorrow!

One does not know what a day may bring forth—especially when it's the first of April.

Being the Sunday before Easter we will expect to see a big crowd out to church tomorrow.

If it keeps this cold it will be rather unpleasant for those who want to trot out in their new spring clothes next week.

With the big cast to be used in presenting the United church Young People's play on Monday evening, it is certain that "The Pill Bottle" will be a great success curing many Port Hoppers of griefs and worries.

Euchre will entertain a large number of people at the Vet's Hall on Monday evening. A good time is always spent on Euchre nights there.

Fire completely razed to the ground the home of George Bowdell, who resides on the edge of the Indian Reserve, about one and one-half miles west of Deseronto. The home was a fine two-story frame building. A very small amount of furniture was saved from the conflagration. The loss will be in the neighborhood of \$2000 but no information could be obtained about the insurance carried.

Samuel Bruce, who was 101 years old last June, died of old age, without any disease and retaining his faculties practically until the end, at the home of his nephew, Robert Holden of Fraserville, Friday. Mr. Bruce was a remarkable old man. He came as an infant to Canada from Ireland with his parents who settled near Kingston, where he lived for many years and raised his family, some of whom have long predeceased him. He was a boyhood friend of Sir John A. Macdonald.
