purpose. W. J. B. DAVISON

The New Suits for Spring J. F. CLARK & SON

There are just three things about them to which we would especially draw your attention :-

1. The superior look of the garments.

2. The perfect fit easily obtainable. 3. The value for money.

The finest cloth is but flat material, devoid of shape or form To mould, round out and shape it to fit and properly drape the lines and curves of the body of the man who is to wear the garment, requires better tailors—a different kind of talent than Fur Departments, is used to make ordinary clothing.

The clothes we sell are made by expert tailors with the "Know How," from the most celebrated Wool Tweeds and Fine Worsteds, and have the characteristic styles demanded by the very best dressed men.

From \$20.00 down to \$10.00 a Suit, you find with us the Marvels in Clothingdom.

We advise early buying of Shirts and Hats

DEATH WAS VERY SUDDEN

Thomas Armstrong Passed Away at Micholls Hospital, Peterboro, Friday Night.

Thomas Armstrong died Friday night in the Nicholls Hospital, Peterboro, shortly after his removal there. Heart failure was the immediate cause of death.

Deceased was apparently in good health up to about 6 o'clock when he complained of feeling unwell. Medical aid was immediately summoned and the man removed to the Nicholls Hospital. He succumbed shortly after his arrival there.

Deceased was 59 years of age, and had been employed in the woods all winter, but went to Peterboro about two weeks ago.

Deceased leaves seven brothers three sisters to mourn his loss, viz: William, James and David, Kendal; Richard, Manvers; Edward, Muskoka; Andrew, Peterboro, and John, Monaghan. The sisters are Jane, Kendal; Mrs. McLean, Toronto; Mrs. Patterson, Clarke.

The funeral took place Saturday afternoon at 3 o'clock from Comstocks undertaking establishment to Little Lake Cemetery.

FATAL ACCIDENT AT PETERBORO-

Peterboro Examiner.

A serious accident occurred on Thursday at the Canadian General Electric Company's Works, resulting in the death of James C. Borland, Victoria avenue, city.

The victim was employed in the wire department and by some means or other became entangled in the in wire, which was rapid motion, sustaining a compound fracture of the

Dr. Scott was immediately summoned and the victim was removed in the ambulance to Nicholls Hespital, where an operation was performed. It was thought that he would recover, but the shock was too great. Death took place on Friday morning at 4 o'clock.

Deceased was 44 years of age, and leaves a mother, two sisters and three brothers to mourn his loss.

WOMAN'S INSTITUTE

The Port Hope Branch of the Woman's Institute held a very successful meeting in the Board room of the Agricultural Depart- kills lice, licks and flees, a disinfecment, Ontario street, recently.

A goodly number of ladies have already joined and all appeared well pleased and much interested. There was a very instructive talk Colic Cure, Worm Powders, on stenciling, and the following Heave Powders, Distemper and paper was given by one of the members:

THE CARE OF PLANTS IN THE HOME. I have been given a most interesting subject-"The culture and care of house plants." It is one that will not lead' to as much discussion as some subjects might, but will rather lead to much questioning. The answers to these questions will, I am sure, be carefully

deliberated on, and perhaps some valuable hints will be given by the different members. Some of the questions present great difficulties. One would naturally think that insect life and flowers would go well together. "Birds and bees and flowers." Why not? But we all know better where house plants are concerned. Every house plant seems to pro-

duce its own enemy. There are so many points on this subject upon which I cannot touch that I have thought it best to deal with only one or two. My experience is that not a single day should pass without your giving some little care to your plants. It is this care that is frequently called "love of flowers," but whether love be at the root or not, every fading leaf-especially those curled back, and every wilting blossom should be removed. It is well to have an empty flower pot to receive these leaves, and pick them off at leisure, being careful to burn the collection every morning as they are dangerous. The curled back leaf, you are all aware, may have a colony of tents (only visible under a microscope) that mean destruction straight along the line. A microscope, or other strong glass, should be often in use, so that the plants may be cleansed before the larval has fed on the young branches and leaves and drawn all their succulence from them, This refers to roses, geraniums, lilies, in fact to almost all plants. The earth should be lightly probed and a small amount of water applied almost daily. Just a few minutes each day will keep plants clean and

Re-rotting should go on con-

PEOPLE'S

Brooklyn, March 5.-Pastor Russell preached this afternoon in Brooklyn's largest Auditorium and in the evening held a Question Meeting. Both services were crowded and at both eager and deep interest was manifest. The text of the afternoon service was, Thenceforth there shall be no more [death of] an infant of days, nor of t an old man who hath not filled his days. For the dving one shall be but the child at an hundred years old-a sinner at a hundred years old, he shall be accursed"-cut off from life (Isaiah lxv, 20). The speaker said:

Our text is a part of the Divine prophecy of the blessings which will come to Israel and to the whole world during Messiah's glorious reign of a thousand years-beginning with the close of this Gospel Era. Succeeding verses tell that in that glorious Epoch landlordism will be a thing of the past. "They shall build houses and inhabit them; they shall plant vine yards and eat the fruit of them; they shall not build and another inhabit; they shall not plant and another-Additionally we read, "They shall not labor in vain nor bring forth for trouble." Further we read that then the "Wolf and the lamb shall feed together and the lion shall eat fodder like the bullock."

No end of comiusion has been created by the intent of well-meaning people to apply these prophecies as the reward of the Church in heaven. Nothing in the Scriptures warrants us in thinking that there will be spiritual, heavenly sheep and oxen, wolves and lions, vines and houses, planting and building. Those who reject the clear Bible teaching respecting a Messianic reign of righteousness cannot understand the Bible at all. Not a single passage of the Old Testament tells of heavenly hopes or promises. Only a few of them teach heavenly things at all, and then

As, for instance, in the types of the Old Testament the garments of the High Priest, glorious and beautiful, symbolize, we believe, the heavenly grandeur, honors and glories of Messiah during the period of His reign. Similarly God's promise to Abraham declares that His Seed, His posterity, shall be as the stars of heaven and as the sands of the seashore. Nothing in this statement would necessarily teach a heavenly state or condition. Only by the sid of the New Testament and the Holy Scriptures' illumination can we see that two Seeds of Abraham are distinctly referred to, the stars indirectly implying the Spiritual Seed, while the sands of the seashere refer to Abraham's Natural Seed. As it is writ-"I have constituted Thee a father of many nations"-like unto

So the Spiritual Seed of Abraham is now being developed. With its completion this Age will end, and the Natural Seed of Abraham will return to special favor and become the leading nation of the world under the guidance and direction of the spiritual and invisible, yet All-Powerful, Kingdom of Messiah.

The blessing through natural Israel will gradually extend to every nation, in that the door will be opened by which all nations may come into and become a part of Abraham's Seel, and thus into harmony with Messiah's Kingdom. Whosoever rafuses this great privilege and blessing of Messiah's Kingdom will be destroyed from amongst the people in the Second Death.

Centenarians of the present time are few, and they by no means are like children. Usually they are wrinkled and laggard. We are to remember, however, the Bible record that several of the earlier members of Adam's race lived nine hundred years or rather, they were more than nine hundred years in coming fully under the sentence against sinners-"But one man's disobedience sin entered into the world, and death as a result of sin; and thus death passed upon all men, because all are sinners" (Romans v, 12).

Gradually, and especially since the flood, when a great change took place in our cosmogony, human longevity has decreased, while mental, moral physical ailments have increas-Several of Adam's children did not have their first born child until after they were a century old. In confirmation of this, and correspondingly in contradition of the Evolution theory, we find that the Ancients were stronger than we, mentally as well as physically; for they intermarried brothers with sisters and cousins without injury, whereas today the mental weakness of the race is such that one out of every one sane asylum, and the marriage of and even the marriage of second cousins is disapproved and held responsible for increasing weak-minded-

Partridge are getting more We see, then, that our text, debeen shot this autumn. The black explains that Restitution blessings sqirrels are also very numerous. Will recover mankind from the effects of the fall, so that it shall then be as it was in Adam's day-that full human rightness, maturity, will be Toronto, March 6.-Reports from reached in a century and that a man dying then would be dying in childhood as compared with the remainder er during the last week or ten days; of the race. The further guarantee is that none will die even at a hundred years of age, except wilful sinners

Might Have Lived a Thousand Years.

siah-all of whose dealings will represent Divine Justice, Wisdom, Love and Power.

The Scriptures tell us that under Messiah's Kingdom the days of a man shall be as the days of a tree. And it is believed that some trees live to be at least a thousand years old. This is God's provision for every man -every member of the human family after He shall have accomplished the work of this Gospel Age, the selection of the Spiritual Seed of Abraham, typified by the priests and Levites, "The Church of the First. born, whose - names are written in

Messiah's Kingdom is to dominate the earth for a thousand years, with a view to blessing Adam and all of his posterity-with a view to uplift ing them from sin and degradation and d ath. The uplifting influences will begin at once, following the great time of trouble with which the Kingdom will be inaugurated. The judge ments of the Lord will be broad in the earth and the inhabitants of the world will learn righteousness. None shall longer need say to his neighbor or his brother, "Know thou the Lord; for all shall know Him, from the least unto the greatest of them." the knowledge of the Lord shall fill! the whole earth" (Jer. xxxi, 34;

Isniah xi, 9). Whoever, then, by obedience to the laws of the Kindom will avail him. self of the blessed privileges or Restitution (acts in, 1921), will not only be helped upward out of mental, moral and physical imperfection, step by sten toward perfection, but, so long as he progresses, he may live—elear down to the end of that blessed thousand years. If we had never seen trees; if our own experiences had been with vegetation such as perishes within a year, we might have difficulty in believing some one who would tell us of having seen trees. centuries old. Such a statement would seem as unreasonable to us as to tell us that humanity could live for a thousand years or forever.

Have we not indeed seen children old and wrinkled looking, yet only in their teens? And have we not seen others cheerful, fresh and comparatively young-looking at sixty and seventy?

At the present time God "winks" at much of the wrong-doing that there is in the world. He does not interfere with it. But of course every transgression carries with it. naturally more or less of a depraying influence on the transgressor's mind and body. The conscience is the most tender and the most important clement of our human nature. Whoever violates it, whoever injures it, much or little, will proportionately be disadvantaged in the future and will have all the more difficulty in cure the release of Adam and all of rising up gradually out of his degradation and weaknesses, even with all the helps that will then be available. Thus will be fulfilled the Scriptural declaration, "Whatsoever a man soweth, that also shall he reap."

With all mankind redeemed there rill be nothing whatever of the post chargeable against any on the books of Divine dustice. The great "High Priest," by his better sacrifices, will have made full satisfaction to the demands of Justice, but the weaknesses, mintal, migal and physical, resulting from more or less wilful and deliberate ein, must still be reckoned on, and thus every idle word and be the masses of mankind during the every idle thought, every idle and Messianic reign. If they wilfully remaking its mark-spon the characters | die the Second Death. God has proof men. is providing for corresponding difficulty on their part in that glorious day of their opportunity.

The suggestion of our text is that one. the great Messiah will not temporize, for the entire period of His reign, appreciation of opportunities when fully brought in contact with them and clearly understanding the terms of Divine grace. But one hundred years is quite a considerable period violated their relationship with God of probation and surely every reasonable mind will concede that so long a delay in meeting out the full penalty of sin, Second Death, manifests the extreme limit of reasonable

The Church, whose trial is in progress during this Gospel Age, receives individually a much shorter period of probation than our text declares will be granted to mankind in the future. God's saintly people are expected to develop character and to approve themselves to God as "overcomers" within a very brief space of life. And not only so, but they are required to "walk by faith and not by sight." They merely have God's Word as respects His Justice and Love and gracious plans, while, in the next Age, the world will have the all flesh shall see it together" (Isaiah

The world during Messiah's reign ered out. But the overcomers of the in the course of my life, and I he the narrow way, steep, narrow, rug. secondtime."-Corbett's "Advice to ged, and hoset with snares of the Adversary "For we are not ignorant of his snares" (II. Corinthians

We are not to forget, however, that these differences between the Church and the world are fully offset by the differences of reward. The overcomers of the Church are to be re-

the great Messiah. The world is to have no such change of nature from man to spirit, but is to have the earthly Eden. Truly God's ways are I. True and righteous are Thy ways; Lord God Almighty! (Revelation av. 3, 4.)

The Church's test takes place in the cont life. And in each member thereof the matter of worthiness or unworthiness of eternal life on the spirit plane for all time is determined at death. Not so with humanity in general. As we have just seen, some may live for only a hundred years and then be cut off in the Second Death, because found unworthy of further opportunity. Others, by availing themselves of the privileges and rendering obedience to the laws of the Kingdom, may live to the very close of the thousand years, and be found unworthy of eternal life. Still others may so fully appreciate Divine Wisdom, Justice, Love and Power and may become so obedient thereto that God will be pleased to grant them eternal life. Their days, their lives, will be far more than the days of a tree.

The world of mankind, at the conclusion of Messiah's reign of righteousness, will have attained again the perfection originally enjoyed by father Adam. Like him they will be in Eden, which then will be, worldwide. Those perfect human beings will be required to stand a test-to demonstrate, to prove their absolute loyalty to God and his righteous laws. as Adam was tried, tested, proven in Eden. As Adam was promised eternal life if his test proved him loyal to his Maker, so his restored race will have before them the offer of eternal life if they shall manifest their obedience satisfactorily.

We are not informed of the particulars of the test that will then be applied to mankind. We merely have the figurative declaration that Satan, sin and everything which Satan represents will be loosed for a little season at the close of Messiah's reign (Revelation, xx, 7-10). The world, full of perfected humanity, "as the sand of the seashore," will all be subjected to the test. But how many, or what proportion of the whole, will prove loyal, and what proportion disloyal, we are not informed

All that we know on the subject and all that is necessary for us to know, is that the trial will be thorough and just and that all found faithful will have eternal life, and all found unfaithful will be counted as followers of Satan and, with him, will be destroyed in the Second Death. The test which God will apply will be so searching, so thorough, that although his creatures will still be free moral agents, he is able to guarantee that thenceforth "there shall be no more sighing, no more crying, no more dying, because all the former things of sin and death shall have passed away."

Not a word is said about the hundred-year old sinner-child-being sent to eternal torment, just as there is not a word said in the Bible to the effect that Adam or his children were condemned to eternal torments. The sentence upon Adam, which his race shares by heredity, was a death sentence. This just but awful penalty has wrought havoc with our race-

sickness, sorrow, pain, dying, death, God's mercy has provided the redemption of Adam and his race through His Son, who died, the Just for the unjust. The death of Jesus is the price which will eventually ashis posterity from the death sentence and give to them resurrection privileges provided through Messiah's Kingdom reign.

But every one who has been enlightened, and brought to a clear knowledge of God and to the opportunities provided for his salvation from sin and death, is more responsible for the manner in which he accepts or refuses "the gift of God, eternal life through Jesus Christ our Lord.", As the wilful, intelligent sinner in the Church now is sentenced to the Second Death (Hebrews vi, 6; x, 23-31), so, our text tells us, it will vicious action of the present time, by ject reconciliation to God, they will vided a redemption and recovery from the first death, but assures us that the Second Death will be an eternal

> Instant death from electric shock will be the method of executing the penalty of wilful sinners during the next Age, and not hanging nor decapitation. Thus it was that in olden times two of Aaron's sons, having and having disobeyed Him, were smitten to death. Fire from the Lord smote them-an electric flash. We may be sure that torture will not be heedlessly inflicted on such. They will lose everything, but will not be tortured. Stripes or punishments chastisements, are sometimes used of the Lord, but always in a reformatory manner—"He chasteneth every son whom He receiveth." He chastens none others-none for whom chastising would accomplish no blessing. Such will be smitten down in the Second Death.

> > The Maternal Woman.

"There are comparatively few women not replete with maternal love, and, by the bye, take care if you meet with a girl who is not fond of chilworld will walk by sight. "The glory of the Lord shall be revealed and a boast that they cannot bear children'-that is, cannot endure them. I never knew a man who was good for much who had a dislike to little way of holiness, from which all the of that taste who was good for anystumbling stones will have been gath. I have seen a few such Church class are required to walk in never wished to see one of them a Young Men."

Taft Wants to Alter the Text of the Agreement.

CONGRESS ENDS SESSION

Regular Sitting of the United States .Houses Comes to a Close Without a Vote on the Tariff Question, and the President Calls an Extraordinary Session to Begin on on Tuesday, April Fourth.

Washington, March 6.- The 61st Congress came to an end yesterday afternoon, and the 62nd Congress will be called in special session on April 4, to act on measures which the 61st Congress failed to pass. All the big appropriation bills got through, but President Taft's tariff board measure was lost in the House and the proposition to admit New Mexico and Arizona jointly to statehood was lost in the Senate.

The passing of the 61st Congress was attended by scene of riotous disorder both in the House and in the Senate.

Senator Bailey of Texas, wild with anger because his colleagues would not follow him in opposition to admitting Arizona as a state because of its radical constitution, tendered his resignation, and when Vice-President Sherman refused to accept it sent it by wire to Governor Colquit of Texas. Bailey expects to be promptly re-elected by the Texas Legislature.

At the close of Congress on Saturday practically every member was at last ready to concede that they believe that there will be no delay in passing the agreement in the next House, but that as soon as the lower Chamber can be organized the McCall bill will be reported from the ways and means committee, in its present form and run through the House. This will then place it squarely before the Senate, and it is hoped to avoid further hearings in the finance committee. This stimulates the belief that the McCall bill ratifying the treaty will be back again before the Senate in its present position probably a good deal before the end of March, provided that the new session is called as early as is now expected, and is promptly or-

Reports were current that the President had concluded to accept a few amendments to the treaty, provided the Canadians could be induced to assent to them.

This report was based upon the fact that Consul-General Foster of Ottawa has been called here for conference and that the Canadian Cabinet memher is likely to arrive here very shortly. The latter visit will, however, have no direct bearing upon reciprocity, but it is thought possible that the President, when the current conferences are over, may indicate a willingness to accept a few changes in the agreement, provided they are not

objectionable to the Canadians.

These, it is believed, will be in the direction of freer trade.

If the President should conclude to place such items as meat products, flour and a few others on the free list of the treaty, he would undoubtedly meet the demands of the insurgents, and would take away much of the basis of their argument against the agreement. In that event the document might be considerably strengthened before the country. No such course has been definitely determined upon, but the indications are that even if it is not, the insurgents and Democrats in the Senate will have the votes to amend the agreement in the direction indicated. It would probably be good politics to anticipate

There is no positive prediction here in any quarter as to the length of time that will be required to pass the deciprocity treaty in the Senate. There is a pretty general concession that it can be adopted in some form, whether amended or unamended, if brought to a vote. Estimates as to the time required vary from two weeks upwards.

It is already evident that the paper people intend to offer a very bitter opposition to the ratification of the document. They are preparing for strenuous resistance and the latest proposition seems to be that of retaining at least some portion of the existing tariff, Canada, of course, to do the same. Presumably this would not vitiate the agreement, particularly as the Canadians have not shown much anxiety to accept it, and the terms of the document postpone the subject to the indefinite future in any ease. This, however, will not be done

without a very sharp struggle. The call for an extra session was as Whereas, by this special message,

date Zan. 26, 1911, there was transmitted to the Senate and House of representatives an agreement between the Department of State and the Canadian Government in regard to reciprocal tariff legislation, together with an earnest recommendation that the necessary legislation be promptly adopted;

"And, whereas a bill to carry into effect said agreement has passed the House of Representatives, but has failed to reach a vote in the Senate:

"And, whereas the agreement stipulates not only that the President of the United States will communicate to Congress the conclusions now reached and recommends the adoption of such legislation as may be necessary on the part of the United States to give effect to the proposed agreement, but also that the Governments of the two countries will use their utmost efforts to bring about such changes by legislation at Washington and at Ottawa.

"Now, therefore, I, William Howard Taft, President of the United States of America, by virtue of the power vested in me by the constitution requires the convening of both Houses of the Congress of the United States at their respective chambers in the City of Washington on April 4, 1911, at 12 o'clock noon, to the end that they may consider and determine whether the Congress shall, by the necessary legislation, make operative

the agreement." Children Cry FOR FLETCHER'S CASTORIA BRIEFS FROM THE WIRES.

The death took place at Quebec yesterday of Lady Casault, wife of the late Sit L. N. Casault, the former chief justice. She was in her 70th year. Her death was somewhat unexpected, she having been ill for only a couple

of days. The Port Arthur council will send a delegation to Ottawa to ask the Goverument to renew the iron and steel bounties and allow the mixing of grain at local elevators to offset any effect r ciprocity might have to divert grain to Duluth routes.

Aim at Common Ends.

Paris, March 6 .- M. Pichon, Foreign Minister in the late Cabinet of M. Briand, responding to a toast at a luncheon given on Saturday in his honor by the British and American correspondents, referred to the community of good-will between Great Britain, France and the United States. 'During my long and difficult years as Foreign Minister," he said, "I have labored constantly to solidify the friendship between France, the United States and Great Britain. I am not entitled to any great merit in doing this, because how could I have been blind enough to act otherwise? There exists between England, the an identity of aspirations and solidarity of interests that it would be chimerical to seek to separate these grand peoples who aim ever at common ends-liberty, social progress, democracy, and the maintenance of peace throughout the world."

M. Pichon, in concluding, affirmed that his successor would continue to strengthen the co-operative friendship of these three nations.

Bread Merger In Sight?

Toronto, March 6.-Rumors were ! rife on Saturday of a five-million-dollar bread merger to buy up the bakeries in Toronto, Hamilton, London and , escape. Ottawa, and a meeting of Toronto bakers at the Fleischman Co.'s offices was supposed to be in connection with the proposed merger. The current report was that Mark Bredin was a prominent factor in the attempt to consolidate the bakeries of the chief Ontario cities.

Mr. Bredin was interviewed regarding the rumors. He laughed heartily at the idea of heading a five-milliondollar bread trust. He said that so far as he was personally concerned he had been spoken to regarding the formation of a bread syndicate by Percy Gillespie. The meeting of Toronto bakers had nothing to do with Mr. Gillespie's project. The Toronto men simply met to arrange for compliance with the bread law, and decided to begin on Monday morning.

Heir Hanging on Tree.

London, March 6 .- What is believed to be the solution of the mystery of the strange disappearance of the Hon. Francis Patrick Clements, brother of Lord Leitrim, and only heir to the earldom, has been found in the Isle of Wight, where in the quiet churchyard of St. Boniface's Church the missing heir is now said to lie buried. Clements left England in May, 1907, in order to earn his daily bread, and at various times since then strange stories concerning him were sent from America, New Zealand and Japan, and it was reported in 1908 that he had died in Kansas City. It is now stated that Lord Leitrim has identified the photograph taken of a man found hanging from a tree in the Isle of Wight and buried in a nameless grave as that of his brother.

Reciprocity Denounced.

St. Catharines, March 6 .- The City Conservative Association Saturday night held a largely attended smoker, when reciprocity was again denounced by Dr. Smellie, M.P.P., Fort William; E. A. Lancaster, M.P., Dr. E. Jessop, M.P.P., and Louis Blake Duff, editor of The Welland Telegraph. Dr. Smellie also spoke on the advancement of New Ontario since the advent to power of Sir James Whitney, the mining, forestry and educational policies all being thoroughly cutlined and explained. Dr. Jessop is arranging for the appearance of R. R. Gamey of Manitoulin at the next smoker.

Hot Times Expected.

Springhill, N.S., March 6.-Twenty policement arrived at Springhill yesterday from Cape Breton for the purpose of giving protection to the strikers who want to return to work in the mines. Whether the policemen who come from Cape Breton have the requisite commission to enable them to act legally in Springhill is not known. The town authorities are not in favor of the newcomers and may refuse to recognize them. Hot times are expected.

Children Cry FOR FLETCHER'S CASTORIA SWEPT BY FLAMES

Minneapolis Has Million Dollar Conflagration.

Mrs. C. J. Corrigan, a woman sup- | TWO LIVES MAY BE LOST

Heroic Fireman Leaps Across Ten-Foot Space and Lands on Fire Escape In Rescue of Woman Cut. Off by Fire-Would Have Fallen Forty Feet to the Ground If He Had Missed His Hold.

Minneapolis, March 6 .- One of the most disastrous fires this city has ever known, destroyed yesterday the syndicate block, on Nicollet avenue, between Fifth and Sixth streets. The total loss is estimated at \$1,000,000, and it is possible that two lives were lost, although this has not as yet been a definitely determined.

Twelve persons were rescued from the upper storeys of the building, ! while the flames were roaring around them. Some of these sustained slight injuries, but none were seriously hurt. The origin of the fire is unknown. The alarm was given by some passerby on Nicollet avenue, who saw the flames bursting out of the second storey window. An alarm was quickly given, but before the firemen had arrived, the tenants of the building, who were asleep in the upper rooms, began to appear at the windows, calling frantically for aid.

A strong southwest wind was blowing, and in a very few minutes the west half of the building was a roaring furnace. The entire fire department of Minneapolis was called out, but it was totally inadequate to cheek flames. Later a call was sent to St. Paul for help, and this was immediately furnished.

The members of the Franzon family,

on the third floor, finding all exit by stairway and front windows cut off. made for the fire escape on the alley side of the building. Elmer Franzon aped to the fire escape through a i -si of flame to a window, out of which was his only escape. Holding to the not trong of the ladder, he nelped his mother to climb through the window and stepped on the platform beside him. As soon as her hands touched the rails, Mrs. Franzon uttered a shrick and would have iallen to the ground, had not Fireman Caldwell leaped to her res.ue from a ladder perched against the New England building, which adjoins the Syndicate building. Caldwell made a leap of fully ten feet and took a chance of falling to the pavement erty feet below if he missed the fire escape. Fortunately he struck it right, and reached Mrs. Franzon's side not a second too soon.

He asissted her to the ground, while Elmer Franzon followed, shouting "there are two women back there in the flames, I saw them fall." firemen made every effort to break into the building at this place, but the heat was too great and they were repulsed. All the occupants of the upper floors were accounted for. It is believed by the firemen and police that young Franzon was mistaken when he said that he saw two people in the building as he left the fire

During the progress of the fire there were several explosions at the west end .f the building, the heavy stone sidewalks being lifted high in the air and huge pieces of stone scattered about the street. The explosions were attributed to breaking gas pipes.

Earl of Crewe III.

London, March 6.-The Earl of rawe, the Secretary of State for Iniia, Lord Privy Scal and leader of the Covernment in the House of ioris, who has recently been sufferaz from the effects of overwork, was seized with a fainting spell after dinher on Friday night. He collapsed, and in falling struck his head on the or. A bulletin issued by his physilaus yesterday morning a ya the earl s suffering from concussion of the brain, but that his condition is as satisfactory as could be expected.

It is understood that Viscount Morvi the Lord President of the Counwill take up the leadership of the Covernment in the second Chamber and the representation of the India Office during the earl's absence, which s likely to last two months.

1. C. B. Preparing.

Moneton, N.B., March 6 .- Anticipating a busy season of summer tourist ravel, a large number of passenger cars are being thoroughly renovated and repuilt at the L.C.R. shops, and mere is considerable activity on this recount, as it is the desire of the management to have every piece of rolling stock in thorough repair before the rush of summer travel commences. the cars of the Ocean Limited Express are being thoroughly overhauled, repainted, varnished and upholstered, and this famous train will go or the route when summer commences with a thoroughly renswed equipment equal in elequence and comfort to the best through trains on the continent. A large number of new cars are being constructed at the shop.

Sold to a Minor. Welland, March 6 .- Wm. - R. Armstrong, a driver for Toynes liquor store was fined \$30 and costs for selling liquor to a minor. A large delegation of temperance workers of Weland County had a conference at Weland court house with the license commissioners in reference to the stricter observance of the law and the cancelling of a number of licensed pars throughout the county that are claimed to be merely drinking places.

Gets No Financial Solace. New York, March 6 .- Miss Anne Bertha Grunspen is not entitled to recover damages from William English Walling, the wealthy Socialist writer and worker, for alleged breach of promise of marriage, the jury in the Supreme Court, which has been trying her \$100,000 suit against Walling, decided on Saturday. The jury, after dict for the defendant.

Children Cry FOR FLETCHER'S CASTORIA PREAKS A RECORD.

French Aviator Steals J. A. D. Mc-Curdy's Laurels.

Nice. France, March 6 .- Lieutenant Bague accomplished a sensational and daring feat yesterday by flying over the Mediterranean from Antibes to the little Island of Gorgona, off the Italian cast. He covered a distance of more than 200 kilometres (124.5 miles), establishing a new record for oversea flight. This he did without the assistance of tugs, torpedo boats or any other craft to guide him or add to his confidence by their presence.

Lieut. Bague started at 7.30 o'clock yesterday morning in a B.ercit monorlane with the intention of landing on Corsica and proceeding thence by way of Sardinia and Sicily to Tunis. to visit the colonel of the fourth Alserian rifles, from which regiment he resigned to devote his time to avia-

In the presence of a few spectators the aviator left the ground, rising at once to a considerable height. He shaped his course southward and soon vanished. Aided by a strong wind his progress was rapid, and a despatch was finally received here that he had arrived at Gorgons. This island lies between Corsica and Leghorn. It is a small wood-i rock about two miles ing belonging to Italy. Basue landed there as I o'clock in the afternoon. the descent being made awkwardly and with great danger to the aviator. on account of the trees and rocks. The aschoplane struck heavily and was badly damaged, but Bague was not

It had been his intention to land at ijaccio, on the west coast of Corsica, but lesing his way the aviator shaped his course too far north. As it was, he covered a greater distance over the water than if he had carried out his

riginal plan. Lieut. Pague's oversea flight breaks the previous record, held by J. A. D. McCurdy, who, on Jan. 30 last flew from Key West to within ten miles of the Cuban shore, a distance of ninetyone miles. Glenn H. Curtis last August made a flight over Lake Erie of 64 miles, while other aviators have done 50 or more on several occasions.

Will Pursue Peaceful Policy.

Paris, March 6 .- The new Cabinet met last night and drew up the declaration which will be delivered in the Chamber of Deputies to-day. This decigration says that in the interests of social peace, the railroad employes of the state who were dismissed at the time of the recent strike will be taken back into service, with the exception of those who were guilty of gross insubordination and destruction of property. The railroads not under state supervision will be requested to act similarly with regard to their em-

The declaration outlines the Government's policy in respect to the laws, the laic sation of the schools. social reform and foreign affairs. It affirms the Government determination to pursue a policy of pacification, based upon the one hand on a system of ententes and alliances, and on the other on a strong army.

Will Fight Typhoid.

Ottawa, March 6 .- Hon, Clifford Sifton, chairman of the Commission on Conservation, has offered the City of Ottawa the services of the chief medical adviser of the commission, Dr. Hodgetts, to make an exhaustive enquiry into the source of Ottawa's tvphoid outbreak.

To Mayor Hopewell Mr. Sifton stated yesterday that the commission's business included assisting in just such a case as this. Dr. Hodgetts. he said, would be given any assistance he required, and he would be allowed all the time necessary to make a full enquiry.

The mayor and the medical health officer both approve of the suggestion, and so the Board of Health has been called for a special session to-night to consider accordance of the offer.

Big Lumber Deal.

Fredericton, N.B., March 6 .- The negotiations carried on by Bonald Fraser & Sons of this city for the purchase of the timber limits and mills at Edmundston, N.B., of James Murchie, Sons & Co. of Calais, Maine, have been completed. The timber limits consist of property about twenty-two miles long and six miles deep, part of the Madawaska River, and part on Lake Temiscouata. The mill at Edmundston is of large capacity. and one of the finest in the northwest section of the province. It employs about sixty men. The price paid for the property is not publicly stated, but is generally believed to have been in the vicinity of \$300,000.

Fatal Fight Over Girl.

Montreal, March 5 .- In the Court of King's Bench, the grand jury has returned a true bill on the indictment for murder against Rossario Casavant charged with killing Ernest Bigras.

The young men had a quarrel over a girl residing in Seigneurs street, with whom Bigras was keeping company. Bigras worsted Casavant in a fist fight, but a few days later Casavant struck Bigras on the head with a stick, in the end of which there was a nail. The nail entered Bigras' head, and four days later he died in the Hotel Dieu from the effects of blood poisoning.

Will Visit Canada.

Havre, March 6.-Baron de Estourneles de Constant, judge of The Hague tribunal and president of the French Parliamentary group for international arbitration, was a passenger on the steamer Laprovence, which sailed yesterday for New York. The baron is to deliver a series of addresses in Canada and the United States. After visiting Washington and New Orleans. h: will go to the Pacific coast and return east by the Canadian route, visiting the principal cities.

Enlarging the Livingstone Channel. Windsor, March 6.-This week will

mark the beginning of work on the Livingstone channel, and Superintendent Locher expects to have night and day shifts working within a few an all-night session, brought in a ver- days. It will take ten days to get the mechanical equipment in order. and only one cableway is now in use.

Will Usa Hydro-Elective.

London, Ont., March 6 .- The preiminary decision between Hydroelectric, city and street railway representatives for the taking of the Niagara power by the London Street Railway, took place on Saturday af-

The whole situation was carefully gone into by the engineers representing the Hydro Commission, and a draft agreement submitted to the company. The matter is now in the hands to the company and commission.

The proposition that has been sub-

mitted to the company, is the "universal" one, that providing it is accepted by the Hydro-Electric Commission, will be the one adopted by it as a basis for all negotiations with the city and suburban railway com-

London is the first "city" system that the system has been applied to, and should the agreement be found to cover the situation locally, when applied, it will likely be adopted without further question.

Killed by K. & P. Train.

Kingston, March 6 .- Saturday afternoon's train coming in over the King-ston & Pembroke Railway, struck and instantly killed Miss Emma Walker, aged 45, employed as a do-mestic at the home of Arch, Strachan, customs collector. The engineer and fireman saw her on the track, but not in time to save her. It is not known whether she deliberately stepped on the track to commit suicide or not. On the bank close to where the body was found, was her umbrella, bundle of clothing and Bible.

Judge Girouard Hurt.

Ottawa, March 6 .- Mr. Justice Girouard of the Supreme Court was in a runaway yesterday. With Mrs. Girouard he was being driven home from the Country Club, when the horse ran away, throwing out the driver and the two occupants. The judge was found to be suffering from the shock and was cut about the face, while Madame Girouard had her left arm broken. Both were taken to their home on Wilbord street.

THE STRENGTH OF A CHAIN

Is that of its Weakest Link. Father Morriscy's No. 10 Forges it Anew.

The chain of the physical system is only as strong as its weakest link. When that link breaks, the chain breaks, and serious illness followed by death often results. The weak link with many people is the throat and lungs. In fact, statistics show that over twenty-five per cent of all deaths can be directly traced to diseases of these most important respiratory organs. Weakness here is very dangerous_

During his long and successful practice, Father Morriscy, the learned priestphysician, was often called upon to treat bronchial and pulmonary affections. He soon found that it was not enough to make temporary repairs on the "link," but that it had to be forced anew, in order permanently to strengthen the

After much study, he succeeded in devising a prescription that would secure this result, by not only giving prompt relief but also by rebuilding and strengthening the delicate cells and membranes of the throat and lungs:

This prescription, Father Morriscy's Lung Tonic, or No. 10, has cured thousands. It is absolutely free from any dangerous drug, being compounded from Nature's own roots, herbs and balsams.

No. 10 stops the cough, relieves the soreness and strengthens and fortiles the system against future attacks. Even in the early stages of consumption it has proved helpful, but the wise plan is to take it in time, and avoid serious disease. In our climate it is well to have a reliable and tested remedy like No. 10 always on hand. Take it at the first appearance of a cold, and keep the chain of life strong and capable of resistance.
