PORT HOPE WANTS A MODEL SCHOOL

Will Provide Necessary Accommodation if Government Supplies Teacher and Pays Salary.

A special meeting of the Public School Board was held on Tuesday afternoon to consider the question of having a Model School established here. The members all favored the proposal and after considerable discussion the following resolution was carried:

Moved by Mr. T. B. Chalk, seconded by Mr. R. W. Smart, that this Board is of the opinion that a Model School should be established at Port Hope to serve this portion of the Province, and further that this Board will furnish the necessary accommodation provided the Government will supply the teacher and pay the salary of the same.

WEDDING BELLS.

GARRISON-ELLISON.

A quiet wedding was solemnized at Moose Jaw on Monday, April 10, 1911, when Miss Anna Garrison, of Vancouver, B.C., and R. J. Ellison, of Weyburn, Assa., were united in marriage by Rev. Mr. McLane, of St. Andrew's Presbyterian church. Mr. and Mrs. Ellison came at once to Weyburn and have gone to house-keeping in the Wm. McIntyre residence on Coteau avenue.

Miss Garrison was until recently a resident of this city, but for the past year or more has resided in Vancouver, her parents having located in that city after leaving Weyburn. She is well known and popular here and her numerous friends will welcome her return.

Mr. Ellison has held a responsible position in the McKinnon Company's store for a number of years and is one of the town's popular young men.—Weyburn Review.

WORTH SEEING.—Mr. V. J. Carruthers, of the Art Wall Paper Store, has just received and placed in stock 5,000 rolls of Wall Paper, imported from the leading New York manufacturers. The are certainly worth seeing. Inspection invited. 1w

TIM FOUND IT

A LITTLE CROWDED

Timothy Clement who had charge of the sidewalk work here last summer is having trouble of his own according to the following from the Sault Ste. Marie Star.—The Sault has no room for more citizens until the building program makes some progress.

For several days this week Mr. T. Clement, of the firm of Cnrran & Clement, the sidewalk men, has tried to secure accommodation for his staff. The firm makes a specialty of looking after the comfort of their men and for this purpose carry their own chef. But there isn't much use having leather furniture and a Parisian cook if you can't get somewhere to stow them. Mr. Clement, after a strenuous search, found a vacant house, and had just started to move in when the house was sold.

And then it began to snow. It was as bad as being without visible means of support. The other man bought the house to beat Tim out of it.

Thro it all Mr. Clement was cheerful.

"I think this is a fine town," he said. It's like having a birthday to work here.

Finally the large and commodious building at the rear of the Star office was gratefully accepted till brighter days dawn. There Martin, and Mike, and John, and Joe, and Bill, with the chet and the mahogany furniture, and the rest of the staff repose till someone builds something better.

And as for a single room furnished, what do you imagine people are paying for one in our city? It's a pretty poor one you could rent this week for \$10 a month.

From \$10 to \$16 were the quotations.

Very few at that.

A TROUBLESOME MISGIVING

(Continued from Yesterday)

'Yes, I am; but I can't be sure that there's any cause for it.' 'Let us come to matters of fact,' said Mr. Warricombe showing that he was not sorry to discuss this side of the affair. 'I suppose there is no doubt that Peak had a position till lately at the place he speaks of?' 'No doubt whatever I have taken pains to ascertain that. His account of himself, so far, is strictly true.' 'Martin smiled, with satisfaction he did not care to disguise. 'Have you met some acquaintance of his?' 'Well,' answered Buckland, changing his position, 'I went to work in rather an underhand way perhaps,—but the results are satisfactory. No, I haven't come across any of his friends, but I happened to hear not long ago that he was on intimate terms with some journalists.' His father laughed. 'Anything compromising in that association, Buckland?' 'I don't say that—though the fellows I speak of are hot radicals. 'Though?' 'I mean,' replied the young man with his shrewd smile, 'that they are not exactly the companions a theological student would select. I understand. Possibly he has journalised a little himself?' 'That I can't say,' though I should have thought it likely enough. I might of course, find out much more about him, but it seemed to me that to have assurance of his truthfulness in that one respect was enough for the present. 'Do you mean Buckland asked his father gravely, 'that you have been setting secret police at work?' 'Well, yes. I thought it the least objectionable way of getting information.' Martin compressed his lips and looked disapproving. 'I really can't see that such extreme measures were demanded. Come, come; what is all this about? Do you suspect him of planning burglaries? That was an ill-judged step, Buckland; decidedly ill-judged. I said just now that Peak impressed me by no means disagreeably. Now I will add that I am convinced of his good faith—as sure of it as I am of his remarkable talents and aptitude for the profession he aims at. In spite of your extraordinary distrust, I can't feel a moment's doubt of his honour. Why, I could have told you myself that he has known Radical journalists. He mentioned it the

NO HOSPITAL FOR MR. LAWLER

HE TOOK GIN PILLS

If you ever hear anyone say that Rheumatism can't be cured, ask them if they have ever tried GIN PILLS. Or ask them to write us for proof that GIN PILLS have cured hundreds and hundreds of cases of Rheumatism, Sciatica, Lumbago, Pain in the Back and other troubles caused by weak Kidneys or Bladder. Rheumatism can be cured—is being cured every day—by GIN PILLS. Here is the best kind of proof. 'I have been troubled with Rheumatism so bad that I could not work. A doctor tended me and told me to go to the hospital but all to no good until a friend told me to try GIN PILLS. I did so and after taking a few boxes, I am perfectly well.' D. J. LAWLER. Take GIN PILLS on our positive guarantee that they will cure you or money refunded. 50c a box—6 for \$2.50. Order from us if your dealer cannot supply them. Sample box free if you write us. other day, and explained how far his sympathy went with that kind of thing. No, no; that was hardly permissible, Buckland.' The young man had no difficulty in bowing to his father's reproof when the point at issue was one of gentlemanly behaviour. 'I admit it,' he replied. 'I wish I had gone to Rotherhithe and made simple inquiries in my own name. That all things considered I might have allowed myself; at all events, I shouldn't have been at ease without getting that assurance. If Peak had heard, and had said to me, "What the deuce do you mean?" I should have told him plainly, what I have strongly hinted to him already, that I don't understand what he is doing in this galley.' 'And have placed yourself in a position not easy to define. 'No doibt.' 'All this arises, my boy,' resumed Martin in a tone of grave kindness, 'from your strange inability to grant that on certain matters you may be wholly misled.' 'It does.' 'Well, well; that is forbidden ground. But do try to be less narrow. Are you unable then to meet Peak in a friendly way?' 'Oh, by no means! It seems more than likely that I have wronged him.'

'Well said! Keep your mind open. I marvel at the dogmatism of men who are set on overthrowing dogma. Such a position is so strangely unphilosophic that I don't know how a fellow of your brains can hold it for a moment. If I were not afraid of angering you,' Martin added, in his pleasantest tone, 'I would quote the Master of Trinity.' 'A capital epigram, but it is repeated too often.' Mr. Warricombe shook his head and with a laugh rose to say good-night. 'It's a great pity,' he remarked next day to Sidwell, who had been saying that her brother seemed less vivacious than usual, 'that Buckland is defective on the side of humour. For a man who claims to be philosophical he takes things with rather obtuse seriousness. I know nothing better than humour as a protection against the kind of mistake he is always committing.' The application of this was not clear to Sidwell. 'Has something happened to depress him?' she asked.

FIELD COMPETITION

Fifty Dollars in Prizes for Best Fields of Fall Wheat.

The Port Hope Agricultural Society will conduct a standing field competition in fall wheat for which they will offer \$50 in prizes, to be awarded as follows:—1st, \$15; 2nd, \$12; 3rd, \$10; 4th, \$8; 5th, \$5—fields of wheat not to be more than twenty and not less than five acres. Competition will be limited to members of the Port Hope Agricultural Society by paying the sum of one dollar and the fields entered must be not more than fifteen miles from Port Hope. Competitors will be allowed to make entry in only one Society and but one entry can be made by each competitor. First, second and third prize winners will be allowed to exhibit two bushel sack of fall wheat at both Guelph and Ottawa Winter Fairs. Particulars furnished later. All entries to be made on entry forms with the Secretary, H. A. Walker, Charlecotte P.O., not later than May 15th, 1911. 3t

New Train Service to "Lake of Bays."

An important feature that will be inaugurated during the coming season will be a new train service to "the Lake of Bays" district. A standard Grand Trunk passenger train will leave Toronto with through coaches, parlor cars, dining cars at 10:15 o'clock in the morning, daily except Sunday, for Huntsville, reaching the latter point at about 3 o'clock in the afternoon, connecting with the steamers for points in the "Lake of Bays" district, and affording passengers the opportunity of reaching their destination in time for dinner. The Sunday evening boat service from the WaWa hotel, Britannia, Point Ideal, Portage, Deerhurst and other important calling ports on "Lake of Bays" to Huntsville, will be run on same schedule as for season 1910, during the months of July and August and which will be a boon to week-enders desiring to return to the city for business on Mondays.

SOME BRIDE—Miss Gertrude May Davis, weight 639 pounds, eighteen years of age, was married at Wayo, Indiana, on Saturday to M. C. McCorry, who tips the scales at 119. The bride wore a hobble skirt and picture hat.

FREAK EGGS.

More Authentic Stories Concerning Hen Scared by Snake

Is it psychology, or what is it? Now we have the real problem, and again it is the hen and her egg. There may be a perfectly natural and common-place explanation for it all, but from the facts which have been laid before the Star it would appear that for the mental influence of the hen and their impressions upon the egg, as a psychologist the ordinary fowl has Pisto and his schools faded way back into the ages.

When brought to this office the egg in question showed the perfect outlines of a snake in miniature wrapped about the shell. The circular trail was wrapped once and a half around the egg, commencing about the middle of the large portion and ending at the small point. It began in a very thin needle-like point, about half an inch in length, corresponding to the wriggly black end of a snake's tail. This gradually spreads out in thickness until it has circled the egg, ends with a broad neck and is a quick little turn about the point of the egg, where the marking suddenly enlarges to the exact counterpart of a snake's head. The appearance is that of a reptile with its head raised a short distance above the ground, and at the end there are two little prongs like fangs which a snake darts about when it is angry. This portion of the shell is somewhat thinner than the rest of the egg, and the marking is undoubted.

The man who offered this remarkable specimen is Mr. Charles Smith of Bracondale, and the story he has to tell is one which is calculated to make doubters sit up and take notice.

Mr. Smith states that it was on Sunday morning that he was out in his garden, and noticed a quick disturbance among his fowl. Mr. Smith has quite a plot at the back of his house. There are trees, raspberry bushes and other small shrubs, through which the fowl wander. While he was in the yard one of his barred Plymouth Rocks dashed from the raspberry bushes, cackling and cutting up something of a row, the owner investigated, and wasn't long in discovering that it was a big garter snake which had chased the hen from her grubbing. He didn't think much of the matter at the time, but it did startle him a little to find on the following morning that this unique egg had been deposited in the nest, which that particular hen ordinarily occupied.

In the case of a similar instance mentioned about a month ago a hen had been operated upon, had it crop sliced open, some oats removed and the wound closed by a few stitches. The first egg which that hen laid had a neat little wound in the shell, and running off from this depression were a number of lines which resembled nothing quite so much as stitches. Later, however, a number of eggs bearing the same marking were offered The Star, but in none of these cases had the hens which laid them first undergone a surgical operation in the crop.

It Is Not In the Blood

Medicine Taken Internally Can not Cure Eczema! It Is Caused by Germs.

Eczema cannot be overcome by ordinary treatment and the old fashioned way of dosing the system with drugs. Eczema is caused by a parasite germ that boras into the skin. It is generally a contagious disease. Until the parasite is completely destroyed and removed, eczema cannot be cured. Fully one-third of the skin diseases are in the form of eczema. I so thoroughly believe that Rexall Eczema Ointment will overcome eczema and allied skin complaints, that I unhesitatingly promise to promptly return the money paid me if it should in any way be unsatisfactory to the user.

Because of its remarkable cleansing, antiseptic, germicidal, soothing, healing influence, Rexall Eczema Ointment has a very pronounced value in the treatment of skin diseases, especially where the form of ailment is of the chronic, aggravating sort. I highly recommend it for the dry scaly form or the weeping type, where there is a constant flow of ill-smelling excretion. Rexall Eczema Ointment is very prompt in relieving pimples, blotches, skin discolorations, ringworm, acne, nettle rash, tetter, hives, ulcers, insect bites, and for healing sores and wounds. It is a pleasant smelling, grayish-white ointment, and is very cleanly for use. Two sizes, 50c. and \$1.00. Sold only at my store—The Rexall Store. H. W. Mitchell, Phm. B.

Weather Prophecy for May

BY HICKS.

A regular storm period having its beginning in April, will reach its culmination in eastern part of the country the first two or three days in May. A seismic period also reaches into the same days. A wave of higher barometric pressure will follow from west and north, bringing cooler weather behind the storm. The mercury period, which came into May from April, will last until after the 10th, causing prolonged cloudiness, and intensifying regular and reactionary storms which fall under its influence.

A reactionary storm period will culminate on and touching the 4th and 5th, and this period being under the influence of the Mercury equinox, will bring storms of rain, with continuation of cloudy, threatening weather for several days. Under stress of the Mercury period, and solar conditions peculiar to this month, very severe storms are probable, at this and other May periods. High barometer with very cool weather with probable frosts northward will be the natural order from about the 5th to the 8th—first to the west and north, advancing eastward and southward.

A regular storm period covers the 9th to the 14th, with moon on the celestial equator on the 9th and full on the 13th. High temperature, falling barometer and electrical storms will appear about the 9th in western extremes, and from Wednesday the 10th to Sunday the 14th these conditions will progress to the eastward, causing general and violent storms in many localities. From the 10th to the 16th constitutes a period of seismic strain that will very probably cause earth quake shocks and shivers in many parts of the globe. A marked change to high barometer and cooler, with probable frosts at night northward should be no surprise from about the 13th to the 16th.

A reactionary storm period will bring return of warm weather, falling barometer and storms, on and touching the 17th and 18th. Those who have followed us for years tell us that the solar eye is focused along the central parallels of the northern hemisphere during May, and hence violent electrical and tornadic storms often reach a maximum at this season. There is no special indication of such storms at this period, at the same time approaching storms should be calmly and carefully scanned. Expect change to much cooler after these storms for several days.

A regular storm period falls from the 20th to the 25th, being central on the 22nd. This period will culminate in very high temperature, a drop of the thermometer, and forceful storms of rain, wind and thunder, on and next to Tuesday, 23rd. Dashes of heavy hail will be most natural at this time, with probability of a tornado coming upon the unwary in scattering localities. Cycles of rain, wind and thunder storms may repeat themselves in afternoons and evenings for several days at this period, or until the barometer rises, attended by westerly winds and much cooler.

A reactionary storm period is central on the 27th, 28th and 29th. The New Moon is near perigee, and near north declination, falls on the 28th calling for low barometer, change to very warm and resulting in vicious storms of thunder, wind and rain. Earthquakes from 26th to 30th.

POOR CROPS.—A good deal of fall wheat in this section is being ploughed up, as well as some clover, and what is unusual the high land seems worse than the low, so Warden Kelly informs us. He had to plough up ten acres this spring on a field that never missed before. Spring seeding has been progressing favorably.—Millbrook Reporter.

SOLDIERS and RAIN—It has long been a conceded fact that after every battle there is a rainfall. The question now is dose Jupiter Pluvius follow the army, Texas has been dry for number of months' but the moment the soldiers were mobilized at San Antonio, the rain began to fall, and this has continued at intervals, to the great delight of the farmers and the discomfort of the soldiers. Some years ago a genius conceived the idea that heavy detonations of artillery would attack the clouds. And so he made a contract with several of the dry counties in

Most Canadians Have Catarrh

Our Changeable Climate is Responsible.

Where the atmosphere is damp, with sudden changes in temperature, almost everybody has Catarrh, in some form or other. The ordinary cold in the head inflames and weakens the membranes lining the nose and throat, and starts a discharge. The next cold is more easily caught, and soon the patient is never quite free of it.

As Catarrh develops the discharge increases—drops into the throat, especially at night—and takes on an offensive odor. Besides being exceedingly disagreeable, there is great danger of the disease extending to the lungs, stomach, or bowels. Though it is very difficult to cure, Father Morrissy devised a combined internal and external treatment that has cured thousands. The Tablets tone up and invigorate the system, and assist Nature in throwing off the disease, while the salve, applied up the nostrils, clears out the discharge and heals the membranes. Combined treatment, 50c at your dealer's, or from Father Morrissy Medicine Co., Ltd., Montreal, Que.

FOREST RESERVES

Hon. Frank Oliver Outlines His Conservation Policy.

EASTERN ROCKIES ADDED

Nearly Seventeen Million Acres Will Be Set Aside Under the Revised Forest Reserve Act as Against Three and a Half Million Acres at the Present Time — To Harvest Mature Growth in the West.

Ottawa, May 10.—Consideration of Hon. Frank Oliver's bill respecting forest reserves and parks was proceeded with in the Commons yesterday. The measure covers a complete revision of the present Forest Reserves Act, and its most important feature is that it authorizes by statute the setting apart of the entire eastern slope of the Rocky Mountains as a forest reserve.

Dr. Schaffner introduced a short discussion as to the policy to be pursued in regard to the timber on the reserve by saying that he was suspicious of the proposal to destroy part of the timber by lumbering operations and to depend upon it being replaced by a system of reforestation.

Mr. Oliver said the forestry branch of the Department was studying the question in all its bearings, with the object of working out a system which would mean that when a crop of timber is harvested there would shortly after be another to harvest. He pointed out that in the west timber was particularly valuable and acquaintance had to be taken of the forces of public opinion.

Mr. Oliver replied in the negative. He said that no alienation of surface rights would be permitted, although it was possible that under certain conditions grazing rights might be granted without prejudice.

The proposal was negotiated on a vote of 39 to 17.

Late in the evening the steamship subsidies and subventions were piloted through by Sir Wilfrid Laurier and a number of supplementary estimates were passed.

The Quebec and Ontario Railway bill was talked out by E. A. Lancaster and Dr. Spruille. The objection to the measure is that while by the charter it is proposed to build a line through northern Quebec and northern Ontario, with feeders in New Ontario, there is no stipulation that the main line should be built.

Five Thousand Fishermen Starving. St. John's, Nfld., May 10.—Yesterday's information from Battle Harbor, Labrador, that the 5,000 inhabitants of the coast are starving was not wholly surprising to people here.

It is expected that the relief party organized here will be able soon to make its way to Battle Harbor, as the ice has broken up and is drifting south with the advancing spring.

Presumed Dead. Vienna, May 10.—The controversy regarding the fate of Archduke John Salvator of Austria, otherwise known as John Orth, was legally settled yesterday. The Supreme Court decided that his death must be presumed to have occurred July 21, 1890.

Archduke John was the younger son of the late Grand Duke Leopold II. of Tuscany. He was born in 1852. He renounced his rank and titles and called himself John Orth. He married Miss Stibel, an actress, in London, July, 1890, and with his wife sailed on his vessel, Santa Margherita, for Chile.

Entire Block Burned. Montreal, May 10.—Fire destroyed a block of seven wooden dwellings in Longue Pointe yesterday morning, the eleven families occupying them having barely time to escape with their lives.

ARCHBISHOP IS DEAD

Most Rev. F. P. McEvay Passes Away at Toronto.

FIFTY-FIVE YEARS OF AGE

Widely-Loved Prelate Had Been Steadily Weakening For Some Months Past From Pernicious Anaemia and Friends Expected the End—He Was Born at Lindsay—Highly Honored by Pope Leo

Toronto, May 10.—After an illness of more than a year, Most Rev. Fergus Patrick McEvay, Archbishop of the Roman Catholic Diocese of Toronto, passed away peacefully at 12.25 a.m. this morning at the palace, 510 Sherbourne street.

While it became evident some months ago that his grace was suffering from an acute form of pernicious anaemia, which threatened to end fatally, the archbishop at times showed improvement in his condition, which gave rise to hope of ultimate recovery.

THE LATE ARCHBISHOP McEVAY. He visited Mount Clemens, Michigan, and Atlantic City in quest of health, and appeared to be considerably benefited, but of late it became evident that dissolution could not long be stayed.

The Right Rev. Fergus Patrick McEvay, who succeeded to the archdiocese of Toronto upon the retirement of Archbishop O'Connor three years ago, was a native of this province, having been born in Lindsay in 1856.

Combined with a thorough classical training, the late archbishop possessed to a remarkable degree business acumen, which was evidenced by the development in every parish with which he was associated.

While in the midst of these labors, Father McEvay went to Hamilton, where he occupied the dual position of secretary to the bishop and rector of the cathedral.

But Archbishop McEvay seemed destined to follow in the wake of his predecessor in Toronto, for when the then Bishop O'Connor was called from London to the larger diocese in Toronto, Father McEvay was elevated to the Bishopric of London.

Archbishop McEvay was a striking and forceful personality. He carried the dignity of his high office well. A profound scholar and clear thinker, he was nevertheless just and firm.

CHINA WAKING UP.

Imperial Edicts Touch on Railways, Opium and New Cabinet.

Pekin, May 10.—An imperial edict issued yesterday authorizes the conclusion of the Hukwang loan of \$30,000,000 for railroad construction in Central China. The loan was signed a year ago this month by groups of financiers representing Great Britain, the United States, France and Germany.

Another edict exhorts the viceroys to abolish the production of opium expeditiously. Great Britain having consented by the Anglo-Chinese agreement signed Monday to reduce the exportation of Indian opium to China as rapidly as the home growth is exterminated.

The important edicts of yesterday and the one of Monday which abolished the grand council, substituting for it a constitutional cabinet of ten members, indicate that the Government is assuming a responsibility which heretofore has lacked revolutionary evidences, and that the assembly's unabated hostility has forced the Government to lead or be led.

It is expected that the expenses of the Canadian military contingent, which will go to the coronation of King George will be \$15,000. The whole expenses of Canada's representatives will be \$217,000.

A fatal accident occurred on the Canada Line steamer Willahad, which arrived at Quebec yesterday. An immense wave hit one of the passengers, a boy named Fred Stieck, aged thirteen years, inflicting such injuries as to cause his death.

Woman Sentenced to Hang.

Sault Ste. Marie, May 10.—Angelina Napolitana was found guilty at the assize yesterday afternoon of the murder of her husband on Easter Sunday. Judge Britton sentenced the prisoner to hang on Aug. 9.

Pastoral on Mixed Marriages.

Ottawa, May 10.—On May 21 there will be read in all the Anglican churches in Canada a pastoral letter signed by Archbishop Matheson of Winnipeg, primate of all Canada, and Archbishop Hamilton of Ottawa, metropolitan of the ecclesiastical province of Canada, on the question of mixed marriages.

The pastoral will deprecate the performance of these marriages, but says that when once performed they are indissoluble by the Church of Rome.

The disbelief of the Anglican Church in divorce is also strongly brought out, and the clergy are prohibited from remarriage divorced persons during the life of the other party to the first marriage.

Subsidy For New Line.

Ottawa, May 10.—A contract was signed yesterday between the Government and the Union Steamship Co. of New Zealand, for a direct service between Vancouver and Victoria and Auckland, 18 days to each trip, at the rate of \$19,500 per annum.

Severed an Artery.

Kingston, May 10.—Cadet Godwin of Vancouver, attending the Royal Military College, was seriously injured in swimming at Navy Bay. While ascending the ladder against the bathing house his hand went through a window, severing an artery.

BOYS KILLED BY TRAIN.

Two Hamilton Lads Run Down on G.T.R. Tracks.

Hamilton, May 10.—Instant death overtook Harold Tye and Morris Holden, two English boys, about 11 years of age, when they were run down by G.T.R. passenger train No. 12, about a quarter of a mile west of the Jockey Club, a few minutes before six o'clock yesterday afternoon.

The G.T.R. tracks at the point where the accident occurred, are on a sharp curve, but as there are three tracks, the boys could have been on one of the outer tracks. After striking the boys, the train stopped and the crew telephoned to the railway company's office about the matter.

A brakeman was left in charge of the train and proceeded on its way to Buffalo. Dr. H. S. Burns, whose office is nearby, was called, but of course, could do nothing.

The occupants of the basket were Dr. Thomas E. Eldridge, president of the Philadelphia Aeronauts and Recreation Society, John Hoggie, president of the Philadelphia Chemical Co., and Mrs. Ada Turner Kurtz, all of this city.

The balloon still 50 feet in the air they were towed to Delaware City, where a landing was finally effected after the passengers had been drenched and nearly drowned when the basket sank beneath the waters of the bay.

The theatre was completely destroyed. Some of the performers, however, had narrow escapes, and the theatre was completely destroyed.

It was this theatre at which King George promised to attend a "command" performance on the occasion of the royal visit in July.

IMPORTANT MEETING.—A meeting of the Executive Committee of the Hospital will be held on Thursday night at 8 o'clock in the Town Hall. A large attendance is very desirable.

Don't Miss seeing Kerr's Flag at Mrs. McCabe's, Bruton street, on Tuesday, May 16th, 1911, at one o'clock, as all her household furniture and effects will be sold on that date, as Mrs. McCabe is leaving town. Terms cash. No reserve. See posters later.

SELLING OUT.—Mr. David Snell is going west, and will sell by auction, Strachan st, his valuable household furniture, on Saturday, May 13, at 1 o'clock. See handbills for particulars. J. H. Wilson, Auct.

SHOULD BE LOOKED AFTER.—Those fellows who drive autos at reckless speed are now dubbed 'road eaters.' Some of those who flash through our streets and charge the hills at twenty miles an hour ought not longer to go unwhipped of justice. The police cannot get busy too soon.

AN OVERSIGHT.—In selecting the streets for concrete walks, that part of Barrett Street, from the track to Cavan Street, was evidently overlooked, and as it is one of the most extensively travelled portions of our town, we trust those having the matter in hand will see that a permanent walk is laid down there.

Don't Miss It. — The Private Secretary Company arrived this afternoon and will appear at the Grand this evening. The attraction is one of the best of the season and from every town where the Company has appeared the most favorable reports are given. A large crowd should greet the company tonight.

LECTURE.—A lecture on Christian Science will be held at the Town Hall on Thursday evening, May 11th, at 8 o'clock, by F. J. Fluno, M. D., C. S. D., of Oakland, Cal., member of the Board of Lectureship of the First Church of Christ Scientist, Boston, Mass., under the auspices of First Church of Christ Scientist of this town. Public are cordially invited. Admission free.

Slaughter! Slaughter! Slaughter! Yes it means more than that. Everything must be cleared before the first week in June, that means a hustle and it is up to you to take advantage of the greatest values ever given in Port Hope. Come first and get the choice. We are not going to let you go out without buying. Mr. and Mrs. W. F. Rogers have returned from Mt. Clemens and spent a few days with her mother, Mrs. James O'Brien. They left for their new home yesterday.

Mrs. S. E. Keats after spending a couple of weeks with her brother, Mr. S. Barrowclough, Wesleyville, left on Saturday to visit other relatives and friends down east before leaving for her home in St. Paul.

Mr. Ellis, Architect of Toronto, visited our public school to-day. He had a plan for remodelling the present Central School estimated to cost \$15,000 and a plan for a new building of 11 rooms, estimated cost \$30,000. The Board has an option on the property known as the athletic grounds on Ward street and they are considering the advisability of erecting a Primary school there in place of the East primary.
