Mar 25 if

WE'RE MAKING A STRONG BID

for every man's business, with prices extremely favorable to the buyer. Now you must not make the mistake of classing "Our Suits" merely by price. They are distinctly superior to the ordinary suits generally shown at the same prices. That superior judgment and excellent taste are displayed in the selection of our garments is plain from the appreciations we receive from day to day. Fashion's demands must be kept pace with, and our present stock includes every new and attractive design.

HATS.—Undoubtedly a man's hat is the crowning touch to his whole attire, and it can improve or mar the general effect. All the style and quality you want at \$1.25, \$2.00 and \$2.50.

TIES.—The latest style tendencies of both home and foreign conception, and this season's showing proves its pre-eminence as never before—elegance. 50c and down to 25c.

BEN OLVER & CO.

The Best Hats at prices such as you only expect at one-price cash stores.

Water Works Board

Held Regular Meeting—Want to Borrow \$10,000 for Water Works Extension

The regular monthly meeting of the Board of Water Works Commissioners was held Friday evening May 6th at 8 o'clock in the Secretary's office.

The following gentleman were present:—Dr. L. B. Powers, chairman; Mayor Mulholland and Mr. E. A. Pipher.

The minutes of the previous Board meeting were read, approved and on motion confirmed.

The Secretary read a letter from Mr. Barlow Cumberland agreeing to the terms laid down by the Board as follows:—

Water Commissioners to extend 4 inch pipe to the town line, at their expense.

From that point he, Mr. Cumberland to lay 4 in. pipe in roadway, erect fire hydrant, providing all material and construction at his own expense, work to be executed by the Commissioners staff, and in consideration of this Mr. Cumber-

land further agrees to pay 25c. per 1000 gallons for water with a yearly minimum of \$25.

The Secretary further reported. That, as instructed, the two cement wells at the beach had been thoroughly cleaned out, that all street boxes had been turned down level with sidewalks, that the casing of street hydrants had been driven down, and that the ground around the water tower had been put in good order.

The Chairman thought it well, where the earth was packed up high round the hydrants, as it is in several cases, that this earth should be removed before next winter sets in.

The Secretary was instructed to have this matter attended to during the summer months.

The Chairman drew the attention of the Board to the necessity of the Council passing a bylaw whereby \$10,000 could be borrowed for water works extension.

The Commissioners would pay the interest and sinking fund out of their revenue, and would only ask for the sale of debentures as might be required from year to year out of this \$10,000.

The Mayor saw no reason why this could not be obtained in a few days. He would have a meeting of the Finance Committee of the Town Council when he would ask the Commissioners to meet with them and discuss the whole question. Personally, he, the Mayor, was in favor of handing over the system altogether to the control of the Commissioners at an amount to be agreed upon, they, the Commissioners to assume the total indebtedness, and corporation be charged a fixed amount per hydrant for the use of water.

Also that Bruce Peacock had applied for water from hydrant at the gravel road for building purposes. Only a small quantity of water would be required.

The Board would not allow hydrant to be opened for less than \$5 and the Secretary was so instructed.

The Chairman and Secretary were empowered to sign a note drawn on the Traders Bank for \$500 at 3 months, after which the meeting adjourned on motion of Mayor Mulholland.

ST. PAUL'S

Presbyterian Church

Special Brotherhood Service Sabbath Evening, May 14

Service Conducted by Rev. A. H. Keith, of Knox Church, Peterborough.

the Durham Co-operative Fruit Growers Association.

The association decided to take no person in who would not take good care of their orchards by pruning and spraying, etc.

Another determination is to pack grades of apples of the highest quality above rather than below the standard required by law. The by-laws and rules are similar to those adopted by the Norfolk Fruit Growers Association.

HOSPITAL MEETING

Directors Appointed and Instructed to Examine Properties Suitable Building Site.

A meeting of the Executive Committee of the Port Hope Hospital, was held in the Council Chamber, Thursday evening, May 11th, at which the following were present: Mayor Mulholland, Messrs H T Bush, Col Ward, E M Thurber, A H C Long, John Hume, J L Schwartz, A E Pipher, E J W Burton, J Stephenson and C S Mann.

The following resolutions were passed: Moved by Mr. Burton, seconded by Mr. Thurber, that the accounts in the Treasurer's Statement, amounting to \$425.18, be paid.

Moved by A H C Long, seconded by E M Thurber, that the Chairman, Mayor Mulholland, Messrs. Bush, Thurber, Hume and Schwartz, be appointed the Provisional Directors of the Hospital Committee.

Moved by Mr. Thurber, seconded by Mr. Long that Col. Ward be requested to act as solicitor for the Hospital Committee.

It was suggested by Mr. Bush that the provisional directors examine various properties as sites for building the hospital, and also interview Dr. Rigby and others. It was arranged that they meet for that purpose on Friday, May 12th, at four o'clock.

Moved by Mr. Thurber, seconded by Col. Ward; that the Meeting adjourn.

OPEN ON SUNDAY.—In Brantford the restaurant by-law, which has allowed eating houses open Sundays for only couple of hours for dinner and supper, has been amended, so that they may now keep open all day Sunday, except between 2:30 and 5 p. m. in the afternoon.

Swicide is increasing in America. In 1890 65 leading American cities showed a population of 10,903,441, 1343 suicides, and a suicide rate of 12.3 per 100,000 population. Five years later these cities have increased in population to 12,623,983. with 1999 suicides or 15.8 suicides for every 100,000 persons.

ARE JUSTICES.—The chief and deputy chief of police of Toronto have been made justices of the peace so that they can sign warrants without the magistrate having to be hunted up causing serious delay at times. It is not known yet whether the Ontario Government's edict applies to Toronto only or to other Ontario cities.

IT'S BEGUN

The rugs are hanging on the line, The curtains have been sent away And every useful thing of mine Has hidden been since yesterday. The chairs are tacked up in the hall The sofa pillows in the sun, There's not a picture on the wall, For it's begun.

Ammonia pervades the place, My easy chair is piled with books, Strange women, lacking every grace And also lacking pleasant looks, Rush madly through the house all day.

Perspiring freely as they run; Down town for lunch I'm glad to stay. For it's begun.

Upon the parlor floor I see A cake of yellow soap, half-worn; Was ever, comes the thought to me, Man's habitation so forlorn? My path is barred with rocking chairs, At risk of limb my room is won; To-day I tumbled down the stairs, For it's begun.

Farewell, sweet peace and comfort now, Farewell, contentment, for a while, At night she'll have a throbbing brow And will have lost the way to smile Worn out and weary on her couch, I'll find her when the day is done, And for a week she'll have a grouch For it's begun.

HE WILL SOON FORGET IT.—A man in Hull jail thinks he is lazy and whenever he does not work-fasts enough to suit his ideas, punnels himself as punishment. What an odd ailment. Most men would like to punnell anyone who tried to make them do more than exercise themselves.

Every Drop OF SHERWIN-WILLIAMS PAINT (S.W.P. Prepared)

can be depended upon to do good work. Every can is full measure both as to quantity and quality. When you buy S.W.P. you get your money's worth. It wears for the longest time, covers the greatest amount of surface. If you want quality and economy buy S. W. P.

Census Men To Ask 300 Questions

Get Ready For Their Visit In June

How old are you? What is your nationality? What do you work at? How long have you worked at it? What sickness has there been in the family? Were you ever hurt while engaged in your employment? If you were hurt did you receive any compensation? Did this compensation come willingly from your employer, or was it secured under the Workmen's Liability Act? What insurance do you hold? These and some three hundred other questions will be asked by the census enumerators who start on their work all over Canada on the first day of June. For three weeks these men will go through the district allotted to them. Then the reports will be sent to Ottawa, and it is expected the results of the census will be known by the end of November.

WHAT CENSUS WILL TELL

The results of the census will be much more far-reaching than the majority of people have thought. It will make known the number of people in the Dominion, the number in each of the provinces, the number in every town, village, country and municipality throughout the country. But that will not be all. The census will tell more about Canada than has ever been told before. It will show how many native born Canadians there are here; how many have come from the various parts of the empire; how many Europeans are working here, and how many have left the United States to throw in their lot with those living in the northern part of the country. Then the census will show the wealth of the country. It will give accurate figures indicating how large a percentage of the population is engaged in farming; how many work in manufactures; and how many earn their living in stores. It will show even the number of cattle in the Dominion.

SECURES MONEY STATISTICS

Indeed, the facts obtained will be more extensive than this. They will not only give an idea of the number of heads of cattle, but will estimate their value. The value of the farm land under cultivation will be shown, and the estimated value of the land fit for farming will be given. The report will give an idea of the mineral wealth of the country in dollars and cents. It will show what is the total output of the factories, how much raw material is used in each and whence this raw material comes. When in doubt on any subject all that is necessary will be to consult the census report.

A TASK OF GREAT DETAIL

There are twelve schedules, setting forth the facts which must be obtained by the enumerators who will work under the various commissioners. These have to be

carefully studied, the commissioners learning what questions are to be asked of country residents and what of those living in the city. Then there are special cases which must be provided for, for instance, the manufactories, information regarding which is to be given by the heads of the concerns. Some questions are common to all the people. All over ten years will have to give their occupation. If children are going to school, then that will be entered. If they are employed in some concern, that too will be registered. Each one will be questioned with regard to his or her education. And each student over sixteen years of age will be asked to tell how much the last year's schooling, in Collegiate Institute or College cost. Then every person will be asked what language he or she speaks.

TRACING HEALTH HISTORY

The schedule relating to "mortality, disability, and compensation," will deal with the sickness of the one questioned and with the illness from which his or her parents suffered. This part of the census will partake of the nature of a medical examination for insurance. For the agricultural districts schedules have been prepared which will show the style of land owned, the size of the farms cultivated, the number of acres improved and unimproved and the number of acres allowed to lie fallow. The size of the farm-house will also be ascertained, and the number of unoccupied rooms being asked.

Then the number and size of the farm buildings, the barns and the henhouses will be recorded, while a careful note will be made of the crops of 1911 and of the areas sown in 1911. The number of cattle on the farm will be taken by classes, while in the fruit districts it will be stated how many are just growing to maturity.

FROM THE MANUFACTURER

The manufacturer will be called upon to declare the capital invested, the number of men and women employed, the power used, the coal and other fuel purchased, the raw material used and the kind and value of the products.

Brick kilns and cheese factories have schedules which relate to them alone. The census will bring a mass of information regarding all phases of the country's activity.

The work of the enumerator will be harder than any of those eagerly seeking the position thought. When they get through the list of questions they will have earned the five cents offered for each name. As for the ones questioned well, it appears they will have to suffer for the general good of the country.

A TROUBLESOME MISGIVING

(Continued from Yesterday) Sidwell mused, and her brother watched her askance.

"I don't know whether the others would care for it," she said, "but I am not tempted by a winter of fog."

"Fog? Pooh! Well, there is an occasional fog, just now and then, but it's much exaggerated. Who ever thinks of the weather in England? Fanny might have a time at Bedford College or some such place—she learns nothing here. Think it over. Father would be delighted to get among the societies, and so on."

He repeated his arguments in many forms, and Sidwell listened patiently, until they were joined by Mr. Warricombe, whereupon the subject dropped; to be resumed, however, in correspondence, with a persistency which Buckland seldom exhibited in anything which affected the interests of his relatives. As the summer drew on Mrs. Warricombe began to lend serious ear to this suggestion of change, and Martin was at all events moved to discuss the pros and cons of half a year in London. Sidwell preserved neutrality, seldom making an allusion to the project; but Fanny supported her brother's proposal with sprightly zeal, declaring on one occasion that she began distinctly to feel the need of a higher culture, such as London only could supply.

In the meantime there had been occasional interchange of visits between the family and their friends at Budleigh Salterton. One evening, when Mrs. Moorhouse and Sylvia were at the Warricombes, three or four Exeter people came to dine, and among the guests was Godwin Peak—his invitation being due in this instance to Sylvia's express wish to meet him again.

"I am studying men," she had said to Sidwell not long before, when the latter was at the seaside with her. "In our day this is the proper study of womankind. Hitherto we have given serious attention only to one another. Mr. Peak remains in my memory as a type worth observing; let me have a chance of talking to him when I come next."

She did not neglect her opportunity, and Mrs. Moorhouse, who also conversed with the theologian and found him interesting, was so good as to hope that he would call upon her if ever his steps turned towards Budleigh Salterton.

After breakfast next morning, Sidwell found her friend sitting with a book beneath one of the great trees of the garden. At that moment Sylvia was overcome with laughter, evidently occasioned by her reading.

"Oh," she exclaimed, "if this man isn't a great humorist! I don't think I ever read anything more irresistible."

The book was Hugh Miller's Testimony of the Rocks, a richly bound copy belonging to Mrs. Warricombe. "I daresay you know it very well; its the chapter in which he discusses with perfect gravity, whether it would have been possible for Noah to collect examples of all living creatures in the ark. He decides that it wouldn't—that the deluge must have spared a portion of the earth; but the details of his argument are delicious, especially this place where he says that all the insects could have been brought together only "at enormous expense of miracle"! I suspected a secret smile; but no—that's out of the question. "At enormous expense of miracle!"

Sylvia's eyes winked as she laughed, a peculiarity which enhanced the charm of her frank mirth. Her dark, pure complexion, strongly-marked eye-brows, subtle lips, were shadowed beneath a great garden hat, and a loose white gown, with no oppressive moulding at the waist, made her a refreshing picture in the glare of mid-summer.

"The phrase is ridiculous enough," assented Sidwell. "Miracle can be but miracle, however great or small its extent."

"Isn't it strange, reading a book of this kind nowadays? what a leap we have made! I should think there's hardly a country curate who would be capable of bringing this argument into a sermon."

"I don't know," returned Sidwell smiling. "One still hears remarkable sermons."

"What will Mr. Peak be like?" They exchanged glances. Sylvia wore a look of reflective curiosity and her friend answered with some hesitation, as if the thought were new to her.

"They won't deal with Noah, we may take that for granted. "Most likely not with miracles, however little expensive."

"Perhaps not. I suppose he will deal chiefly with the moral teaching of Christianity."

CARD OF THANKS.

The undersigned having disposed of his ice business to Mr. George A. Brown, would thank his numerous customers for their kind patronage during the past years; and would solicit a continuance of the same for his successor, who will be pleased to receive all orders and give prompt attention in due time. Respectfully yours, W. E. BEAMISH. Phone No. 159. 1w

PROMISING CROP OF DANDELIONS.

Already specks of golden in grassy hollows signify the nearness of the dandelion (leontodon taraxacum) season. It almost seemed as though the little yellow flowers had naturally agreed upon this morning as the time to bloom, for yesterday practically none were seen, and today there are a few, a very few, representatives of this most numerous family.

COURT ADJOURNED FOR PIGEON.

The sound of fluttering wings and the distressful cooing of a pigeon imprisoned in an air shaft at the court-house in Boston so moved Judge Wentworth that he adjourned court in order that the captive bird might be released. The pigeon had been trapped under a grating and in the dark and dusty shaft was located with difficulty. Court officers, assistants, lawyers and spectators interested themselves in the work of rescue. When, with the aid of a torch and a

small boy who willingly allowed himself to be lowered into the well, the pigeon was carefully removed, everyone was delighted to see it sail away to its mates unharmed and to all appearances grateful.

MAKE THIS TEST

How to Tell if Your Hair is Diseased

Even if you have a luxuriant head of hair you may want to know whether it is in a healthy condition or not. 98% of the people need a hair tonic.

Put a hair out of your head; if the bulb at the end of the root is white and shrunken, it proves that the hair is diseased and requires prompt treatment if its loss would be avoided. If the bulb is pink and full the hair is healthy.

I want every one whose hair requires treatment to try Rexall "93" Hair Tonic. I promise that it shall not cost anything if it does not give satisfactory results. It is designed to overcome dandruff, relieve scalp irritation, to stimulate the hair roots, tighten the hair already in the head, grow hair and cure baldness.

It is because of what Rexall "93" Hair Tonic has done and my sincere faith in its goodness that I want you to try it at my risk. Two sizes, 50c. and \$1.00. Sold only at my store—The Rexall Store. H. W. Mitchell, Phm. B.

CASTORIA For Infants and Children.

The Kind You Have Always Bought Bears the Signature of J. C. Ayer & Co., Lowell, Mass., U.S.A.

PROPHETS OF SPRING.

Wild geese went honking in the night, Above the pasture drear, Their chorus tended to exite The rustic weather-seer.

"An early spring, O, joyous news!" That wishbone prophet said, And then he found he had to use, More blankets on his bed.

A lone mosquito sang "Bizz-zizz" About a Nutmeg brow, The said observer said, "This is A sign spring's coming now.

O harbinger of weather mild, Of green in field and grove!" And then he got more wood and piled It in the red hot stove.

A robin sang within a glade, In Jersey (or in Conn.) What happy carolings he made, The theme of "spring upon."

But as he trilled, the sky to win, His high soprano broke, Until his solo ended in A rasping bronchial croak.

The ground-hog ventured out to see, If he would cast a shade, Whereon he chuckled in his glee, For not a spot he made.

"Henceforth the weather will be nice" He barked, puffed up with pride, And then, all crusted round with ice, That woodchuck froze and died.

Of prophets of the early spring, Reversed by simple men; The same old brand of dope you bring

And then—and then—and then— Well, then I look within my bin, And get my hard earned roll, And speed me out and order in, A fresh supply of coal.

His Old Age Made Free From Suffering

BY GIN PILLS

ANNAPOLIS, N.S. "I am over 80 years of age and have been suffering with Kidney and Bladder Trouble for fifteen years. I took doctors' medicine but got no help. I want to thank you for sending me the sample box of GIN PILLS.

I have taken six boxes of GIN PILLS altogether but got relief before I had taken near that amount. I had to get up some nights every fifteen minutes and had to use an instrument before I could urinate.

Now, I can lie in bed four or five hours without getting up. I can say that GIN PILLS have nearly cured me and I shall always keep a box in the house."

W. H. PIERCE. Do as Mr. Pierce did—write us for free sample box of GIN PILLS and see for yourself just how much they will do for you,—then buy the regular size boxes at your dealer's—50c. or 6 for \$2.50. GIN PILLS are sold with a positive guarantee of money back if they fail to give prompt relief. National Drug and Chemical Co., Dept. B., Toronto. 51

STORM IN WINNIPEG

Electrical Disturbance Works Havoc to Industry.

POWER WIRE IS STRUCK

City Lights Snuffed Out and Power Station Put Out of Business by Lightning Bolt That Hits Transmission Line—Rain, Hail, Snow and Sleet Add to the General Misery in Big Western City.

Winnipeg, May 12.—Winnipeg was the centre Wednesday night of a violent electric storm that in the space of a couple of hours tied up almost every modern convenience driven or operated by electrical energy. It was a wild night, with a conglomeration of weather suitable to every season of the year, and vivid lightning flashes lit up the heavens even while hail and snow descended. At one stroke the lights of the city were snuffed out and the power transmission station of the Winnipeg Electric Railway was put out of business. Not a street car was running at 10.30. Officials of the company state that one of the transmission cables from Lac Du Bonnet was struck by lightning fourteen miles from the city, which resulted in the cutting off of the current.

The telephone lines were temporarily affected and the telegraph wires running into the city were damaged to such an extent that Winnipeg was ill but cut off from the outside world. Over the few wires that were operating, however, came the glad news that the precipitation, extended all over the province, and that on a million fields the moisture was sinking to the ground to generate life in the young wheat.

The rain started to come down late Wednesday afternoon and since that time there has been a continuous downfall of hail, snow and sleet. The electrical storm broke about 2 o'clock and the reverberations of the thunder over the city were so loud as to waken the majority of the citizens. The hail that descended at the time came in such volumes as to test the strength of window glass. Yesterday morning the unique sight of the trees all in leaf and the ground covered with snow was seen.

St. John's Observatory recorded 2.4 inches of rain Wednesday night, which is almost unprecedented here. Power was turned on again yesterday afternoon.

Must Fill Out Immigration Form.

Montreal, May 12.—Immigration officials yesterday announced that the new regulations, which state that everybody coming into Canada on a sleeping car must fill out a Canadian immigration form before retiring for the night, would be strictly enforced. Even a Canadian-born passenger is obliged to fill out a statement, giving details of address, accompanied by a declaration that he is a Canadian citizen. No exceptions will be allowed.

Not Criminally Liable.

Montreal, May 12.—Ambrose Lafrance, charged with being responsible for the death of Mrs. H. F. Coulson, as a result of an accident in which her husband's automobile collided with excavation work in front of Mr. Lafrance's property on Park avenue, on the night of April 26, was acquitted yesterday morning by Judge Leet.

Foster Changes His Mind.

Ottawa, May 12.—Hon. Geo. E. Foster has reconsidered his decision not to go to the coronation, uttered in the heat of debate the other day, and will sail with the other members on June 8 or sooner.

MUST HAVE LINES

Mr. Graham Explains Guarantee of C.N.R. Bonds.

GREAT PROSPERITY COMING

In a Very Short Time the Country Will Be Producing So Much Grain That It Will Need Every Possible Road to Get the Wheat Out at Canadian Ports—Not Enough Notice, Says Mr. Borden.

Ottawa, May 12.—That Canada is on the eve of a spell of expansion that will need every available transportation line was the reason which Hon. G. P. Graham gave in the Commons yesterday for the guaranteeing of the C.N.R. bonds. The bill was introduced in the House and with it an opposition resolution of protest, which, however, lacked any real backing.

Hon. Mr. Graham explained the new move and showed that the guarantees would probably never cost Canada a dollar. In the slight chance that they showed the Dominion would be richer by a transcontinental railway.

The Prime Minister moved the appointment of the following committee of five to try the charges recently made about Hon. Mr. Oliver in connection with the alleged receipt of \$70,000: Messrs. Clark (Essex); Carvell and Geoffrion (Liberals); and Meighen and Crothers (Conservatives).

Haughton Lennox made enquiry as to when the Government would introduce the new Bank Act. He presumed it could not be before the adjournment, but expressed the hope that it would be introduced and considered when the House met in July.

Hon. W. S. Fielding said he doubted much if the proposed act would be introduced during the present session of Parliament, but he was willing to keep an open mind on the matter. He gave notice, however, that he would before adjournment introduce a bill having for its object the extension of the bank charters for one year.

In introducing his resolutions providing for a Government guarantee of 3-1/2 per cent. on \$35,000 per mile for that section of the Canadian Northern to be constructed between Port Arthur and Montreal, Hon. George E. Graham, Minister of Railways, expressed the opinion that a bargain had been made which would be of the utmost advantage to the entire Dominion.

Mr. Graham said that coming eastward from Port Arthur, except for a few miles, the C.N.R. would serve an absolutely new territory from that now served by the C.P.R. and the G.T.P. Except in one or two instances it would not come nearer than 20 miles to the existing roads. In many cases it would be from 69 to 70 miles from the Grand Trunk and from 20 to 40 miles from the C.P.R.

Explaining the provisions of the route, he said that it was a 3-1/2 per cent. 50 years bond that was guaranteed by the Government. The road would have 80 pound rails, with good modern bridges. The C.N.R. would add its guarantee and would stand between the Government and any possible loss.

Mr. Borden asked the Minister to give his views as to what public necessity would be benefited by the building of this road and what necessity there was for a subsidy, assuming that the road was not only desirable but necessary.

Mr. Graham replied that with the rapid growth of Canada, and the fact that the company had now 4,000 miles of railway in the west, and were increasing it, rapidly and gathering up traffic, it made it absolutely necessary that there should be another line for the carriage of the products of the west to the east, as well as feeding that line from the east to the west.

"I believe," he said, "that there is a day of prosperity near at hand, that will extend clear through to the Maritime Provinces, a prosperity which I do not think will be secondary even to that of the west. My own conviction is that we cannot get these lines constructed so rapidly to meet the absolute necessities that will then exist for the carrying trade of our own products, to say nothing of the carrying trade we might do for any other country."

"As to the necessity of a guarantee, this company might in a few years proceed to work this line through. They have done a good deal, but they have been aided by subsidies, and aided by guarantees. But in order that we may have this line constructed, and constructed without undue delay, constructed in a way that we should have something to say about its construction, and in order that we may be able to finance such an undertaking in the best possible method, so that the freight rates might be based on the least possible cost of construction, I believe it is in the interests of the people who have to ship goods, that the Government should enable the company to borrow their money at the best possible rates in the old country. I do not believe that this guarantee will ever cost the Dominion of Canada a dollar, and if we can ensure the rapid construction of this road at the cheapest possible rate merely by lending the name of the Dominion of Canada to the company to secure its money.

R. L. Borden protested against so important a measure being delayed until the eve of the adjournment of the session. He would postpone consideration of various points in the resolution until the discussion in committee. The questions he had asked the Minister of Railways had only been answered in general terms. "He would point out, however, that between the east and west there was a stretch of country that had no appreciable population, yet a railway had been constructed through it, and had been in operation for twenty years.

Hon. John Haggart said that the Minister of Railways had not made it clear that there was room for this additional transcontinental line.

Haughton Lennox criticized the

Children Cry FOR FLETCHER'S CASTORIA

proposal. What with the proposed water routes and the three railway systems he believed there would be no necessity for this line. The result might be that all would become impoverished and compelled to charge rates which would afford no measure of relief to the western farmer.

ITALIANS SENTENCED.

Torpetto Gets Three Years and Francisco Six Months at the Soo.

Sault Ste. Marie, Ont., May 12.—At the assizes yesterday morning the Italians Torpetto and Francesco received sentences for the stabbing affair in Little Italy last Easter. Torpetto will serve three years at Kingston, and Francesco six months in the Central Prison. The third Italian, Stonnelli, was allowed to go. Justice Britton charged strongly against the prisoners, believing that the use of offensive weapons amongst the foreign element should be discontinued.

William Carroll, 65 years of age, is now on trial for the murder of Joseph Talion, in a lumber camp forty miles from Blind River, last November. Evidence given yesterday by those in the camp shown that Carroll had no premeditation, and Provincial Constable Taylor, who made the arrest, testified that Carroll had told him he had struck the wrong man with the axe. Dr. Bruce Smith said he believed Carroll to be sane, although of an excitable nature. In Dr. Smith's opinion Carroll was fully responsible at the time he struck the blow, although, having been confined in the London Asylum in 1902, was suffering from acute melancholia. The defence is endeavoring to prove insanity.

Dr. Carman Called.

Montreal, May 12.—Dr. Carman, general superintendent of the Methodist Church in Canada, took the witness stand in the Workman libel case yesterday and gave evidence on points of Methodist belief involved in the alleged assertions of Dr. Workman. Dr. Carman claimed that from his position his testimony could be regarded as the voice of the Methodist Church. His statements on points of Methodist belief, he declared, were the interpretations of the Methodist Church courts. His testimony on many points was directly opposed to that of Dr. Workman, who in testifying Wednesday refused to admit that the beliefs which he held were not in accord with the standards of Methodism.

Want Tracks Underground.

Montreal, May 12.—The plans which the Grand Trunk Railway Co.'s engineers have submitted to the city authorities for the elevation of the company's tracks running from Bonaventure Station westward to the city limits were disappointed at a conference of aldermen, controllers and citizens yesterday. A resolution calling for a revised scheme to provide for the railway tracks being placed underground, or if it were found by the engineers that an underground railway was not feasible, that new plans for elevated tracks should provide for concrete and stone embankments instead of earth embankments specified in the present plans.

Ministers Off to Coronation.

Ottawa, May 12.—Sir Wilfrid Laurier, Sir Frederick Borden and Hon. L. P. Brodeur, Canada's representatives at the Imperial Conference, left Ottawa yesterday afternoon to sail on the Virginian for Liverpool to-day. Accompanying the Ministerial party were Lady Borden and Miss Borden, Madame Brodeur; Mr. J. G. Desbarats, Deputy Minister of Naval Affairs; Sir Wilfrid's nephew, Robert Laurier, and the Ministers' secretaries.

Officers Resign.

St. Catharines, May 12.—In consequence of objections made some time ago liquor laws have been entirely banished by the Nineteenth Regiment from the Officers' Mess, Sergeants' Mess and every other part of the armories. As the Thirteenth Regiment is coming here on Victoria Day it was proposed that prohibition should be suspended for that day. Two of the officers, understanding that such were the orders, asked to be relieved of their commands and placed on the corps of reserves. One of these was yesterday morning asked to resign the command of his company.

Stenographers For M.P.'s.

Ottawa, May 12.—The vote of \$14,000 for the establishment of a corps of stenographers and typewriters for the use of the members of the House of Commons, which is contained in the supplementary estimates, is understood to involve the creation of a staff of twenty ladies, with a lady superintendent.

The superintendent, who will be Miss Lena Bryan, of this city, will be paid \$5 a day, and each of the girls will get \$3 a day. They will, of course, be purely seasonal employes.

Deny Merger Story.

Montreal, May 12.—A flat denial was yesterday given by Mr. C. J. Smith, general manager of the Richelieu & Ontario, to a story that with the practical consummation of the Richelieu Northern Inland Navigation merger three Toronto concerns, the People's, the Hamilton, and the Ontario Navigation Companies, would later be involved.

Col. Matheson Ill.

Perth, May 12.—Hon. Col. Matheson, Provincial Treasurer, lies at his home threatened with an attack of pneumonia. He returned from Toronto on Tuesday and on Wednesday evening was in a serious condition. Yesterday morning he was reported by his physicians as resting much easier.

A Russian Appointment.

Berlin, May 12.—The Lokal Anzeiger yesterday published a despatch from its correspondent at St. Petersburg saying that Baron Rosen, the Russian Ambassador at Washington, has been appointed temporary director of the Russian Foreign Office.

Children Cry FOR FLETCHER'S CASTORIA

CHOOSES A CABINET

Madero Establishes a Real Government at Juarez.

ORDER AMONG THE REBELS

Provisional President Chooses His Cabinet and Has Things So Well Under Control That Looting is Almost Entirely Absent at Juarez—General With Federals Marching Against the City.

Juarez, Mexico, May 12.—Mexico's Provisional Government, composed of insurgents, became an established fact yesterday with the naming of a Cabinet by Francisco I. Madero, jr., Provisional President, and with the establishment of the capital city of Juarez, where Gen. Navarro and his federal troops are held prisoners.

Secretary of War Carranza will have charge of railways and telegraphs. His first act was to grant permission for the repair of the Mexican Northwestern Railroad. Men immediately began repairing the roadbed south of Juarez.

Gonzales Carza will have charge of the mail service and Secretary of the Treasury Madero will direct the affairs of the customs house.

That the insurrecto army is more than an armed mob, was shown yesterday in the absence of general looting and intoxication and the quickness with which the shattered city was cleared of its dead and wounded. The embargo against visitors was removed during the day and sightseers in thousands poured across the bridges from El Paso.

Only occasional cases of looting were reported, and these not by the insurrectos themselves, but by insatiable curio hunters, one of whom triumphantly displayed in El Paso two silver candlesticks, taken from the big church in which the federals made a desperate stand.

The insurrectos are not overlooking the possibility of attack from Col. Rago, reported approaching from Chihuahua with a relief force.

KILLED BY TRAIN.

Toronto Boy Was Picking Up Coal Along the Track.

Toronto, May 12.—Seven-year-old Albert Hutchings, 35 Delaney crescent, was jolted from the footboard of a G.T.R. engine, at the foot of St. Clares avenue, at 11:20 yesterday morning. The lad had been picking up coal along the track.

The engine steamed into a siding with its train to allow another train to pass and the lad jumped on the back of the engine. When the other train had passed 1651 started backing out of the siding and the lad was jolted off. He fell on his head, clear of the tracks and was carried home dead. The mother says that a brakeman saw him jump on the engine and warned him off, but before he could reach him the train had been jolted off.

An older brother of the dead boy lost both legs in jumping from a moving train at Brock avenue, three years ago.

Hopewell Will Not Go.

Ottawa, May 12.—Mayor Hopewell of Ottawa announced yesterday that under existing prospects he will not attend the coronation either in an official or private capacity. When told that Mayor Geary of Toronto had stated that he would attend in any event, Mayor Hopewell said: "No, I am not going over to take a chance on getting a seat on the 'fence' to see the procession. I had a talk with Toronto's mayor over failure to provide accommodation for visiting civic officials from the Dominions, but he and I do not hold the same views."

A Seven-Year Term.

Toronto, May 12.—Fred Watson, alias Casey, a well-dressed, well-educated Englishman, was given seven years in the Police Court by Magistrate Kingsford yesterday upon the uncorroborated testimony of a seventeen-year-old boy for the committing of an unnatural offence. The man has previous convictions in England, Canada, and the United States. In addition there were convictions on two charges of theft of jewelry from houses in which he had lodged. On these the terms were three years each, to run concurrently with the other term.

Get Leave to Appeal.

Ottawa, May 12.—The Supreme Court yesterday morning rendered judgment in the case of Shantz vs. Good, granting special leave to appeal to the Supreme Court of Canada from the judgment of the Court of Appeal at Ontario upon payment of the costs already taxed in the court below. The suit was over the transfer of a number of shares in a company.

To Cremate His Body.

London, May 12.—In accordance with a wish revealed in his will, which was examined yesterday, the body of Lafayette will be cremated and the ashes placed between the paws of his trained dog "Beauty," the body of which rests in a pretentious tomb in Piers Hill Cemetery at Edinburgh.

Jebusite Remains.

London, May 12.—Captain Montagu Parker, who headed the party of English explorers who have been accused of removing sacred relics from the mosque of Omar, and who is back in London, announces that the party found the first Jebusite remains ever excavated in Jerusalem.

Mother and Son Killed.

Sioux City, Ia., May 12.—Two persons were killed and four injured, two seriously, in an accident on the Chicago, St. Paul, and Minneapolis and Omaha Railroad near Lyons, Neb., yesterday. The dead: Mrs. A. L. Craig, Lyons, Neb.; John Craig, son of Mrs. Craig.

Children Cry FOR FLETCHER'S CASTORIA

POWER FOR KINGSTON.

Hon. Adam Beck Promises Juice at \$25 Per Horsepower.

Kingston, May 12.—That in five years Kingston would be in a position to supply power to manufacturers at \$25 per horsepower was the prediction of Hon. Adam Beck, addressing a meeting of citizens in the City Hall last night, at which Mayor Graham presided. Mr. Beck was listened to attentively for two hours.

The estimate made by Assisting Engineer Yates of the commission, at present in the city, is that the city's requirements to-day are 4,100 horsepower. Mr. Beck made it quite clear that the commission is not a competitor. He said that many in Eastern Ontario were of the opinion that this was the case. His advice to Kingston was to keep control of the market it had in the supply of electrical power, and not to allow a company to come in and divide it. He said he was sorry that the Seymour Co. had commenced business in Central Ontario with the Trent water-power, and was buying franchises. If the city dealt with a company, it would not receive as favorable terms as if dealing with the commission. One reason would be that it would get advantage of the overlapping in power supply. He pointed out that the question of price was not the whole issue, but it was a case of principle. Reference was made to Port Arthur City, which had refused to deal with a private company.

Continuing, Mr. Beck said that the contract which had just been made with the New York & Ontario Power Co. was at lower rate than that from Niagara Falls. It was necessary to have a company at Waddington, N.Y., to reduce the power to the necessary voltage, because the Ontario Government could not build apparatus outside the province. The company's figure for a minimum of two thousand horsepower was \$13; for 10,000 horsepower, it was \$11. The prices for power for Kingston would be lower than those quoted a month ago. For 1,204 horsepower, \$38.33; for 1,500 horsepower, \$30.31; for 2,400 horsepower, \$22.91.

BRIEFS FROM THE WIRES.

A fatal duel was fought at Berlin. The Republicans lost temporary control of the United States Senate.

The Brantford Y.M.C.A. campaign closed yesterday. The sum raised was \$117,000.

Four hundred British members of Parliament met yesterday to advocate the Anglo-American arbitration treaty.

Patrick Burns of Kingston was taken to the Central Prison yesterday, to serve a year for assault on John Aickey, a grocer.

Hon. Adam Beck opened the "Fair of All Nations" in the Kingston Armories yesterday afternoon, to raise funds to fight tuberculosis.

Advices received yesterday relative to the situation in Morocco say that Col. Erulard's relief expedition has started from El Knitra for Fez.

While working in a gravel pit at Britannia Park, Ottawa, yesterday a falling mass of earth struck Fred Rose, a workman, and he was killed.

Prominent bent apple dealers look for a bumper crop of fruit this year in that district. There is a very heavy show of bloom for pears, cherries and plum trees.

Fire, which broke out in the superintendent's office of the G.T.R. station at Richmond, Que., at 11:15 last night, almost totally destroyed that structure. The damage is estimated at \$5,000.

Constable McKay and Mr. Gordon were bringing two prisoners across Cobalt Lake in a canoe, when one of the men stood up and the craft turned over. They clung to the canoe and were saved.

Dr. R. A. Falconer, president of the Toronto University, delivered the convocation address at Manitoba University to-day, and he and Sir Daniel McMillan, Lieutenant-Governor, received the honorary degree of doctor of laws.

Word was received in Quebec of a fatal accident at Syriacque River. Five men were on a jam, one of them, Art. Bouelle, fell off and was not again seen. A second, Thomas L. Tremblay, after trying hard to remain on, disappeared in his turn.

Bones in Chimney.

Kingston, May 12.—Workmen engaged in making alterations at the Albion hotel came across a number of what are supposed to be human bones stored away in an old chimney.

In connection with the finding of the bones a strange tale is told. Old residents say that many years ago the building now used as the Albion hotel was the military headquarters and that one day an Indian who had some trouble with the militia suddenly disappeared and was never heard from again. The finding of these bones has led some to believe that the Indian met with foul play and that these are his bones.

Two Camorristi Sick.

Viterbo, May 12.—Oenarro Abbate-maggia is suffering an acute attack of laryngitis and was unable to appear at the trial of the Camorristi yesterday, much to the disappointment of the spectators, who had expected to see him confronted by Enrico Alfano, the alleged actual head of the Camorra.

Maria Stendarano, the woman prisoner, was also reported to be critically ill with pneumonia. The session was occupied with testimony of minor importance.

Church to Support Professor.

Kingston, May 12.—Dr. Dyde, principal of the Presbyterian Theological Seminary, of Strathcona, Alberta, writes that Knox Church, Calgary, has promised to pay the salary of one professor at the new college, commencing at \$2,500, and raising \$100 yearly until \$3,000 is reached.

Suing Dun's Agency.

Kingston, May 12.—Justice Clute will, in June, hear the case of Telfer v. R. G. Dun & Co. Telfer, proprietor of the British American Hotel is suing the company for \$50,000 for the published statement that the bailliff was in charge of his place.

DID IT REALLY

ever occur to you that the large majority of depositors who have suffered loss through the mismanagement of the institution of which they were customers did not actually

KNOW

anything of those to whom their savings were entrusted? Think this over. It may pay you.

There is no **Known Security** better than first mortgages on improved real estate judiciously selected, and this is the **Security** we have to offer every depositor who cares to open an account with this old-established, strong and safe institution.

THE MIDLAND LOAN & SAVINGS COMP'Y

Port Hope, Ont., Established 1873
J. H. HELM, Manager

The Evening Guide

PORT HOPE, MAY 12, 1911

SELLING OUT.—Mr. David Snell is going west, and will sell by auction, Strachan st, his valuable household furniture, on Saturday, May 13, at 1 o'clock. See handbills for particulars. J. H. Wilson, Auct.

The assessment roll returned Wednesday May 10 to show the population of Orillia to be 6,478, an increase of 775 over last year. The total assessment is over three million dollars, which is a round million more than last year.

Don't Miss seeing Kerr's Flag at Mrs. McCabe's, Bruton street, on Tuesday, May 16th, 1911, at one o'clock, as all her household furniture and effects will be sold on that date, as Mrs. McCabe is leaving town. Terms cash. No reserve. See posters later.

WORTH SEEING.—Mr. V. J. Carruthers, of the Art Wall Paper Store, has just received and placed in stock 5,000 rolls of Wall Paper, imported from the leading New York manufacturers. The are certainly worth seeing. Inspection invited.

The regular meeting of the Port Hope Branch of the Woman's Institute will be held Tuesday, May 16th, at 3.30 o'clock in the Board room of Ontario Agricultural School. Members kindly note change in date and time.

SERVICE TO THE BROTHERHOOD.—Next Sunday evening at St. Paul's church a special service will be held for the Brotherhood, and the Rev. A. H. Keith, of Knox church, Peterboro, will deliver the address. A special program of music has been prepared, and the service throughout will be bright and inspiring. The program will be found in another column.

AT THE GRAND.—Marks Bros. opened for a three nights' engagement at the Grand last evening with the play "Brother Against Brother." The company supporting the Marks Bros. is the strongest that has ever appeared here, and the audience last evening were loud in their praises of the performance. The specialties were exceptionally fine, and the different artists had to respond to repeated encores. Tonight the company will present one of their best plays, "Master and Man" with an entire change of specialties.

Slaughter! Slaughter! Slaughter! Yes it means more than that. Everything must be cleared before the first week in June, that means a hustle and it is up to you to take advantage of the greatest values ever given in Port Hope. Come first and get the choice. We are not going to let you go out without buying. To give an idea of values offered we have put all our prints at 5¢ cents, values up to 15 cents a yard, not one cost me less than 7 up to 10c a yard. All threads, cotton and silk, regular 5c. at 2¢ each. Everything cut likewise. Cotton Baiting at 7c. package. Remember the place, Cheffins, two doors west of bridge.

Our Maple Syrup Has Arrived

It's here at last after a long wait, but you don't mind waiting when you get the goods, and we have it.

The run of sap was short this season, so the PURE GOODS will not last long. ORDER EARLY.
