ANOTHER BUBBLE

Shoe Factory Promoter Made a Sudden Move.

Guelph Mercury.

The promoter of the new Harrison shoe factory has departed for parts unknown. It is said the total belongings of the institution is a horse and typewriter.

The party came to Harrison about a year ago and induced the town to give him the use of a factory building to operate in. There was a flourish, joy-riding in an automobile, feasting, etc. A leading citizen advanced \$1,000 and "the hum" was sure to come to Harrison. The automobile was burned while out on a trip last summer, how or why is merely conjecture. Now the bird has flown and the bailiff is in possession of what little assets remain.

MICHAEL FRASER HAPPILY MARRIED

Aged Midland Man Tells the Judges of His Wedding.

"Happy as the day is long," was Michael Fraser's description of his married life given to the three Divisional Court Judges who visited him at his home in Midland.

Mr. Fraser told how he met his wife. "My little wife and Miss Weston were friends, and my little wife used to go out and visit her many times. I possessed a pretty little boat on the lake down there, and they used to come and ask the loan of it. I used to give it to them every time. That is how the acquaintance thickened. The little woman liked me and she accepted me. No trouble whatever. Not a cross word since nor a crooked word between us. Of course, ladies have little ways of their own that

they like to keep to themselves." "You never made a will yet?" was the next query.

"Never," Mr. Fraser replied. "I have a horror of those things. It is next to going to die."

The aged bridegroom was introduced to the Judges by his wife. "People are taking a great interest in your affairs?" Mr. Fraser was asked.

"Yes," he replied. "It is the few hundred dollars that I own that they want to grab at."

Mr. Fraser said that he believed he and his brother John had between sixty and eighty thousand dollars. His brother died about two years ago.

Mr. Fraser said that his wife had not a dollar from him yet, but he had made hints to her that in case he dropped off the money would be all hers.

"I saw the little woman (his wife) on the road and I saw that she was a good, modest little woman, and good enough to boot, and I asked her to marry me and she accepted me." The marriage took place shortly afterwards. His proposal was made the first time he saw her.

MOTHERS' DAY

Sunday was Mother's Day and the Carnation, the chosen emblem of the occasion, was worn by many in Port Hope.

There have been some who have scoffed at the idea of a special Mother's Day and said why not have a special Fathers' Day too. Well, why not? Simply because no one has started the idea perhaps. But mother comes first. In a man's life his children are incidents. In a woman's life her children are the warp and wool of her life. They are events which overshadow all else. Even the most selfish mothers make sacrifices for their children that the father never dreams of. There are, to be sure, some mothers who do not possess, in the smallest degree, the maternal instinct. The maternal instinct begins very early to evince itself in the child. Before she is able to lisp she huddles a dollie to her breast and cuddles it just as a mother does the wee baby. The little girl who never cuddles a dollie has not the maternal instinct. Of course I cannot say that this instinct will not come later in life.

By all means let us have one day in the year for Mothers' Day and do not let us scoff at the idea. On March 17 we don the Shamrock whether we're Irish or not, in memory of good St. Patrick, about whose life and origin there is more or less mystery. If then we honor St. Patrick by wearing the Shamrock, why not honor the mothers who are with us to-day, and those who gave to the world men like St. Patrick. Englishmen wear the rose in honor of their patron saint, Saint George. Scotchmen wear the thistle for St. Andrew, and Welshmen the leek for St. David. Why should we not wear the white carnation in honor of the mothers?

But merely the wearing of the carnation, the chosen emblem for Mothers' Day will bring little happiness to mothers if the heart is not in it. How many sons are there right in Port Hope who ought to write a letter to mother? You have meant to do it of course. You promised her when you left her that you'd write every Sunday and wrote for a Sunday or two, or maybe more, and then maybe because you had nothing new to write or no good news to write you cut it off; time went on and it was easier not to write than to write, your con-

science troubled you for a little, perhaps, but did you ever think how your mother watches and longs for those letters? She never gave up, though many a night her pillow was wet with the tears she shed over her disappointment, and the ache in her heart that just a letter would serve to ease. To the young the time passes quickly, and they do not realize that mother is worrying and fretting because the letter from the boy has not come to tell her just what she wants to know, that he is alive and has not forgotten the mother who cared for him when he was helpless and who still cares for him in spite of all.

The Canadian Home Journal tells a very pathetic little incident that occurred last May in a very well known and prominent Toronto family. On the Tuesday morning after Mothers' Day the postman brought a letter from a member of the family who had been a wanderer and rather a black sheep for many years, addressed to the mother of the group. As that dear old person had been with the angels for some time, the letter was opened by a daughter who read as follows:

"DEAR OLD MOTHER,—The nurse in the hospital where I am has been telling me about Mothers' Day and I have made up my mind to write to you. I am not long for this life, being far gone in illness, but if you are still alive, I want you to know that I am thinking of you on this Mothers' Day. I enclose a white flower nurse pinned on me this morning. Good-bye, dear old mother.

In answer to a telegram sent immediately by the family, the word came that the patient asked for had just died.

Just here comes to me some verses by George Bancroft:

BEFORE IT IS TOO LATE.
If you've a gray-haired mother, in the old home far away, Sit down, and write the letter, You've put off day by day. Don't wait until her tired steps, Reach heaven's pearly gate. But show her that you think of her Before it is too late.

If you've a tender message, Or a loving word to say, Don't wait till you forget it, But whisper it to-day. Who know what bitter memories, May haunt you if you wait, So make your loved one happy. Before it is too late.

We live but in the present, The future is unknown, To-morrow is a mystery; To-day is all your own. The chance that future lends us, May vanish while we wait, So spend your life's rich treasure, Before it is too late.

The tender words unspoken, The letters never sent, The long forgotten messages, The wealth of love unspent, For these some hearts are breaking, For these some one waits: So show them that you care for them Before it is too late.

There is no love like mother love. No matter how time-worn, weather-beaten and sin worn a boy may be, there is always one who believes in him, and no matter how helpless

seems that belief, not till death closed eyes and stills her heart does she ever cease to believe in him and that belief has been her passport to heights of peace. I hope, this article will meet the eye of even one boy, who has forgotten his mother and that he will write that long promised letter to her.

"Don't wait to throw all of your bouquets on her grave. It's mighty doubtful whether an angel in heaven takes any interest in cemeteries or gets any satisfaction from revisiting earth and contemplating a flattering tombstone; but it is utterly certain that you can make your old mother's heart sing for joy by showing her while she is alive, just one tithe of the love and affection that you will heap upon her when she is dead."

SPORTING SKITS

BASEBALL.

A large weathered oak frame baseball picture has been offered to Mr. Gerald McFadden, of McFadden's furniture establishment, for the first home run at Riverside Park by a player of the Peterboro-Midland League. The picture, which is 36x12 inches, shows two teams in action, and a player sliding into the counting station. A miniature bat, ball, glove and mask is mounted on the frame, and the prize is a particularly appropriate one, and the kindness of "Doc" will be appreciated by the officers and players of the club.—Peterboro Review.

BOWLING

The Bowling Club have received an invitation from Peterboro to visit there on May 24th. All bowlers desirous of going will kindly leave their names with Mr. Henry Reynolds.

A TROUBLESOME MISGIVING

(Continued from Yesterday)

In moods of discouragement he thought with envy of his old self his life in London lodgings, his freedom in obscurity. It belongs to the paths of human nature that only in looking back can one appreciate the true value of those long tracts of monotonous ease which, when we are living through them seem of no account save in relation to past or future; only at a distance do we perceive that the exemption from painful shock was in itself a happiness, to be rated highly in comparison with most of those disturbances known as moments of joy.

Without anxiety concerning his material needs (certainly the most substantial of earthly blessings), his leisure not inadequate to the gratification of a modern studiousness, with friends who offered him an ever-ready welcome,—was it not much? If he were condemned to bachelorhood, his philosophy was surely capable of teaching him that the sorrows and anxieties he thus escaped made more than an offset against the satisfactions he must forego.

And yet hope had her periods of control, for there are times when the mind wears of rationality, and as it were in self-defence, in obedience to the instinct of progressive life, craves a specious comfort. It seemed undeniable that Mr. Warricombe regarded him with growth of interest, invited his conversation more unreservedly. He began to understand Martin's position with regard to religion and science, and thus could utter himself more securely.

of two kinds: there's the theory of evolution, and there's modern biblical criticism. The more I study these objections, the less able I am to see how they come in conflict with belief in Christianity as a revealed religion.

'Yet you probably had your time of doubt?' remarked the other, touching for the first time on this personal matter. 'Oh, yes; that was inevitable. It only means that one's development is imperfect. Most men who confirm themselves in agnosticism are kept at that point by arrested moral activity. They give up the intellectual question as wearisome and accept the point of view which flatters their prejudices: thereupon follows a blunting of the sensibilities on the religious side.'

'There are men constitutionally unfitted for the reception of spiritual truth,' said Martin, in a troubled tone. He was playing with a piece of string, and did not raise his eyes.

'I quite believe that. There's our difficulty when we come evidences. The evidences of science are wholly different in kind from those of religion. Faith cannot spring from any observation of phenomena or scrutiny of authorities, but from the declaration made to us by the spiritual faculty. The man of science can only become a Christian by the way of humility—and that a kind of humility he finds it difficult even to conceive. One wishes to impress upon him the harmony of this faith with the spiritual voice that is in every man. He replies: I know nothing of that spiritual voice. And if that be true, one can't help him by argument.'

SALTS KILLED COW WHO WILL PAY?

AVLMEER, ONT., MAY 14.—At the sittings of the division court held here on Friday, before his Honor Judge Ermatinger, a case was heard which holds considerable interest for both farmers and merchants. Mr. James Johnston a farmer near here, purchased from a merchant a quantity of salts and administered an ordinary dose to a cow, which died almost immediately. The supposed medicine proved to be sodium nitrate instead of the salts ordered.

The merchant declined to settle for the cow, saying he had purchased the article in good faith from a London wholesale house. The action followed and judgment was reserved by his Honor Judge Ermatinger. It appears that there is a further complication owing to the fact that the London wholesalers claim, they did not personally supply the drug, but that when the order was received not having the article in stock, they directed a firm in Montreal to forward a keg of salts direct to their Springfield customer. There is much curiosity excited by the case and the public are wondering where the liability will eventually end.

MILLBROOK. From Our Own Correspondent. Mr. Walter Curtis, of Port Hope, was here last Monday, guest of Mr.

and Mrs. R. H. Edmunds. Mrs. Tisdale, of Toronto, came here last Monday to join her husband, Mr. Tisdale, manager of Mr. J. F. Brownscombe's store. They are welcomed residents here and no doubt they will find our village quite a pleasant place to live in.

The Methodist Epworth League meeting last Monday night was efficiently led by Mr. Ross Edmunds subject "Citizenship" on which good readings were given acceptably by Miss E. Mabee and Miss Stella Hetherington.

We notice that Mr. Tisdale is quite an artistic window dresser.

YOU NEEDN'T DESPAIR Here's an Offer That Should Interest Sufferers of Skin Irritation.

First of all I want to explain that the remedy I am about to tell you of carries my promise of money back for the mere asking to anyone not thoroughly pleased with its use. That should unquestionably establish the sincere faith I have in it.

Parasites or germs cause eczema, and eczema is probably the most prevalent cause of all skin ailments. To overcome them, the remedy must of necessity destroy or remove the parasite or germ before relief can be obtained.

Possessing remarkable antiseptic, germicidal, cleansing, soothing and healing power, the curative value of Rexall Eczema Ointment is very pronounced in the treatment of eczema and allied skin diseases, whether of the dry scaly sort, the weeping type, where there is a flow of ill-smelling excretion, or the intermediary kind, such as pimples, blotches, discoloration, ringworm or acne. It is very useful for treating hives, nettle rash, insect bites and wounds. It is ideal for the skin ailments peculiar to children.

Rexall Eczema Ointment is grayish white in color, has a pleasant odor, and is very cleanly for use. If you are a sufferer of skin irritations or eruptions in any form whatever, I urge you to try a box at my risk. At the mere hint of dissatisfaction, you may have your money back. Two sizes, 50c. and \$1.00. Remember, it is only sold at my store—The Rexall Store. H. W. Mitchell, Phm. B.

Orchard Demonstration.

The Durham and Northumberland Branch of the Ontario Department of Agriculture is holding, under the supervision of Mr. R. S. Duacan, district representative, Port Hope, together with Mr. H. S. Fry, assistant in demonstration orchard work, an orchard demonstration on the farm of Mr. W. G. Noble, on the Cobourg Road near the first toll-gate going east from Port Hope, at 2 p.m. on Monday, May 22nd. Demonstrations will be given in pruning and spraying, and the question of orchard management will be discussed, as well as the combating of insect pests and fungus diseases. Everybody is cordially invited and an interesting afternoon is expected.

Jumping at Fall Fairs.

M. J. Lockie Wilson, superintendent of agricultural societies, is of the opinion that if jumping competitions were included in the program of the Fall Fairs, many farmers would enter their horses, and some good sport would result. With this end in view he has determined on a plan whereby handsome prizes will be given for this class of competition. At present the only extra attraction at these fairs are

the trotting races, and the introduction of the jumping contest will likely lead to more extensive breeding of high class fencers.

LAI D UP FIVE YEARS Until Half a Bottle of Father Morrissey's Lincture Cured His Shoulder.

Mr. Jos. J. Roy, a prominent tinsmith of Bathurst, N.B., July 16, 1909: "I cannot let this opportunity pass without letting you know what benefit I received from your Lincture. For five years I had a sore shoulder, which prevented me from working or from sleeping at night. I had tried everything possible and still could find no relief, until I was advised to try a bottle of your lincture, which I purchased without delay. I only used one half of the bottle when I was completely cured, and now I feel as if I never had a sore shoulder. I would advise anyone suffering from Rheumatic pains to give your lincture a trial, for I cannot praise it too highly."

A lincture that will do that is the lincture you want. It is equally good for sore throat or chest, backache, toothache, ear ache, sprains, sore muscles, cuts, bruises, burns, frost-bites, chapped hands or chilblains. Rub it in, and the pain comes out. 25c per bottle at your dealer's, or from Father Morrissey's Medicine Co. Ltd., Montreal, Que. 64 Sold and guaranteed in Port Hope by W J B Davison

PEACE IS IN SIGHT

Outlook in Mexico is Very Bright For Amity. DIAZ LIKELY TO RESIGN

U. S. Commander Says President Will Relinquish His Position in Two Months—Madero Demands Four Places in the Cabinet and Ten Provincial Governorships—General Election Is Expected

Washington, May 17.—President Diaz of Mexico probably will resign in two months according to a telegram received at the White House last night, from Col. Steever, in command of the United States troops at El Paso. The telegram reads: "Prospects for peace brighter to-day and armistice will probably be agreed upon in twenty-four hours. Madero demands four places in Cabinet, one of them Secretary of War, and fourteen governorships. Mexican Government agrees to give him Gobernacion and Justice and possibly one other, while the Secretary of War is to be chosen jointly by the two parties. Madero will likely get ten governorships, Diaz to resign after new governors appointed, probably in two months. This is the latest fairly reliable information I can procure."

The minor conditions of peace include the pensioning of soldiers, the payment of indemnities out of the public treasury and arrangements for the reconstruction and repair of public utilities.

The question of the resignation of Diaz has been diplomatically avoided in the peace terms. The revolutionists obtained their demand that soon public announcement be forthcoming from the President as to his intention to resign when peace should be restored.

The feeling is that Gen. Diaz will give way to Senor de la Barr as Provisional President within two or three months, and that a general election will follow within a month or two later. The provisional governors will hold office until state elections shall have been arranged.

The President's advisers indicate that the insurgent army in Mexico now numbers 27,000 men, while the federal army is only 23,000.

STABS INSTEAD OF FRANCS.

Reward Informer Would Have Received, According to Camorrist Chief.

Viterbo, Italy, May 17.—Enrico Alfano, reputed head of the Neapolitan Camorra, was again confronted yesterday by Abbatemaggio, the informer, when the trial of the thirty-six Camorrist for murder resumed.

"To-day," he began, "is the anniversary of the death of my beloved brother Ciro, who died in prison. I must make a superhuman effort to overcome the emotion that possesses me. Still in my ears is the echo of the last desperate lamentations of my brother. In the agony of death he continued to deny the assertion of this man Abbatemaggio."

Attacking the informer, Alfano said: "It is absurd to say that 400 francs (\$50) was given to Abbatemaggio, who took no part in the affair, and only 150 francs to the real murderers." Here Abbatemaggio interrupted: "Alfano intended to buy my silence." Alfano, infuriated, replied: "If I had been in a position to fear your revelations I would have given you 400 stabs instead of 400 francs."

Not the Water Wagon.

Sarnia, May 17.—Nathaniel H. Williams of Toledo, charged with the theft of a team of horses and buggy from Charles McFee's livery, appeared before the magistrate yesterday. The defence was that the man had been intoxicated and was drinking continuously till found at Toledo with the horses. The case was adjourned until the 23rd.

MARKET REPORTS.

Liverpool Wheat Futures Close Higher, Chicago Lower—Live Stock—Latest Quotations.

CHICAGO, May 16.—Wheat prices sank under free selling in the last half of the session to-day. The decline was coincident with talk by a prominent operator that crop prospects in this country could hardly be better, and that a fall of the bushel from present values might easily take place. Closing figures were the same as last night to 3/4 down. Final trades left corn 1/2c off to a shade, oats unchanged to 1/4c higher, and hog products less expensive by 1/2c to 3/4c.

The Liverpool market closed to-day 1/4d to 1/2d higher than yesterday, on 150 to 160 lower on wheat. Bida Post 1/4c higher. Paris 1/4c higher. Berlin closed unchanged.

OBSTRUCTION PLAY

Opposition Spends Day Criticizing Waterways Treaty.

CANNOT ADJOURN FRIDAY

Hon. Mr. Fielding Had Hoped to Get the Table Cleared by the End of the Week, But the Conservatives Will Not Assist—Mr. Magrath Sees Peril For Alberta In Diversion of the Flow of Water.

Ottawa, May 17.—Plans for an adjournment on Friday were dissipated by the Opposition last night. When the Government bill confirming the waterways treaty was submitted to committee they resumed obstructive tactics, repeated their critical contributions of the morning and afternoon sittings, when the measure was under consideration for second reading, and thereby detained the House upon it until after midnight.

During the morning sitting, Hon. Mr. Fielding told Mr. Herron that the House hoped to adjourn at the end of the week. "May we hope to have the co-operation of the hon. gentlemen opposite in that endeavor?" he asked with mild irony.

Then C. A. Magrath, leading the attack, the Opposition fell back and nail on Dr. Pugsley's bill for the establishment of the International Commission.

Mr. Magrath says that under the agreement entered into between the representatives of the two countries a situation has arisen in Southern Alberta which, it is claimed, may do everlasting harm to the Canadian farmers in that territory, and may turn prospective smiling farms into arid wastes. In other words their supply of water is threatened. He contends that the Canadian representatives who agreed upon the waterways treaty have jeopardized Canadian interests through absolute ignorance and neglect of ordinary precaution, and so apparently have the interests of Alberta been sacrificed that one of the experts employed by the United States Government has publicly stated that this is so.

The chief argument of Mr. Magrath was in connection with the Milk and Mary rivers, which flow from the United States into Alberta. The former of these, after traversing one hundred miles of Canadian territory, returns to the United States and empties into the Missouri system. By the arrangement made, water can be diverted from the Milk River into the United States to the Milk River. Mr. Magrath pointed out that the whole water of the Mary River was necessary for irrigation in Alberta. Mr. Oliver claimed that Canada had no choice in the matter, and that the United States, if so minded, could divert the whole of the water of the two rivers, so that none would enter Canada at all. The Opposition constitutional lawyers argued that this could not be done.

Another statement made by Magrath was that the advice of the only expert appointed by the Canadian Government had been set aside, and that there was "not an expert within one thousand miles of the negotiators on the part of Canada," whereas the United States negotiators, as usual, had a number of experts at their elbow. Canada, by slipshod methods, had undertaken to manufacture experts.

He declared that no parallel was to be found in the history of any business in the wide world.

Hon. Mr. Oliver complimented the previous speaker on his knowledge of the situation. He agreed with him in many respects, in most respects. Mr. Oliver explained that Canada was to get half the flow of the St. Mary's River in high water and three quarters of the flow in low water. Two international rivers flowed from the United States into Canada; one of those remained in Canada, while the other, the smaller, turned back again into the United States. But the alternative of Canada was not as between getting half or three-quarters of the flow of the river, but between getting what we did get and nothing at all. The United States proposed to divert the St. Mary's River into the Milk River and so take the flow to Montana irrigation works.

Mr. Borden asked what right the United States had to do this. He could not find that they had any authority for the proposed diversion.

Mr. Oliver said he agreed with Mr. Borden as to the question of the abstract right. The United States, however, had the power, as the river where the diversion was proposed was entirely in United States territory.

Major Currie asked if Canada could not divert back the water to the St. Mary's River, from the Milk River, after the United States had diverted it, as the Milk River ran through Canada, after the point where the work was to have been done.

Mr. Oliver said this was undoubtedly the case. But although this could be done, the fact was that Canada by this diversion could not use the water for the lands it was proposed to irrigate directly from the St. Mary's River, and without the double diversion.

TREATY PROGRESSING.

Draft of Arbitration Pact Approved by U. S. Cabinet.

Washington, May 17.—The proposed treaty of arbitration between the United States and Great Britain has at last reached the stage where it is to be presented to the British Government for its approval. Ambassador Bryce of Great Britain, before the Cabinet met yesterday, had a half-hour conference with President Taft, during which certain points in the treaty were thoroughly discussed. This was the first conference which these two advocates of permanent peace have had since the President announced his intention of negotiating with Great Britain for such treaty. State Department officials have been constantly at work upon the treaty and yesterday Secretary Knox presented to the Cabinet for its approval a tentative draft. Apparently it was most satisfactory to the President and his official family as a whole.

Secretary Knox, after the Cabinet meeting, announced that the tentative draft probably would be submitted to-day to Ambassador Bryce for transmission to the British foreign office.

Exchange of dates between the two nations will follow. When the draft is accepted by both countries, the treaty will be signed and submitted to the United States Senate for approval and ratification.

STARVED TO DEATH.

Story of Tragedy of Fitzgerald and Men Reaches Ottawa.

Ottawa, May 17.—A pathetic tale of suffering, borne with fortitude and patience, culminating in the death from starvation in the northern wilds, of Inspector Fitzgerald and three other members of the Royal Northwest Mounted Police force, was received by Col. Wm. White, comptroller, in the form of a report from Corpl. Dempster of Dawson, Yukon, who was sent out to investigate the tragedy.

There is no little pathos in the report, which includes a diary of Inspector Fitzgerald for the ten days preceding the slowly and grimly approaching death. In a will of 22 words, written with a burnt twig, the inspector left all his possessions to his mother, ending the document with the words "God bless all."

The theory that the party lost their trail and were compelled to eat their dogs and eventually starved was all too true. The official diary discloses the whole story. It is heart-rending in the extreme. Inspector Fitzgerald's last words were written Sunday, Feb. 5, stating that the men were forced to eat their dogs while staring death and starvation in the face, reveals some conception of the awful outlook confronting the party on the last day.

CANNOT APPEAL.

Judge's Order for Anti-Combine Inquiry Is Final.

Montreal, May 17.—That there is no appeal from an order of a judge directing an investigation under the Combines Investigation Act of Canada, is the effect of a judgment given in the Court of Appeal yesterday by Mr. Justice Cross, and supported by the other judges on the bench.

It was in the case of the United Shoe Machinery Co. v. Drouin Metal, and on account of the precedent which it establishes it was awaited with interest by a host of lawyers and industrial interests.

The result of the judgment is that the investigation into the United Shoe Machinery Co.'s alleged combined "combine" may be continued, as originally ordered by a judge of the Superior Court.

It was announced later, however, that the United Shoe Machinery Co. would immediately carry the case to the Privy Council. This will mean that the three commissioners appointed to carry out the investigation into the so-called combine will not be able to make a move for some time, in any event.

"A Storm In a Teacup."

London, May 17.—Frank Lascelles, master of the Festival of the Empire pageant, in an interview yesterday with reference to the strictures in the Canadian Parliament because of the omission of the battle of the Chateauguay, said that it was a storm in a teacup. The abandonment of the scene, he asserted, was not due to fear of American feeling, but the result of conclusion reached by the Canadian committee that the episode was not typical of Canadian life.

Sun Worshipers' Temple.

Montreal, May 17.—The Sun Worshipers are to have a temple in Montreal. On May 23, it will be dedicated as such by Dr. C. Z. Halish of Chicago, the "master" of the Mazdaznan, or Sun Worshipers. HAS HAD GOOD YEAR

Mr. Lloyd-George Announces a Handsome Surplus.

PROPOSES TO PAY M.P.'S

Keeper of the British National Purse Reports a Surplus of Twenty-Eight Million Dollars of Which Seven Go to Fight Tuberculosis—Salaries for Members Will Cause a Hot Debate.

London, May 17.—Chancellor Lloyd-George presented the budget in the House of Commons yesterday.

About the only novelty it contains is a proposal to pay members of the House of Commons a salary of \$2,000 a year. The Chancellor declined to give members traveling allowances or pensions, and excluded from the salary benefit all Ministers already drawing salaries.

The Chancellor's realized surplus, including payments delayed in 1909-10 by the action of the Lords in throwing out the budget of that year, totalled \$28,035,000, of which he proposes to donate \$7,500,000 to the support of sanitariums for consumptives. His estimated expenditure for the current year is \$906,170,000, which is \$37,750,000 more than last year.

The Chancellor's estimated revenue for the current year is \$908,580,000. There is no fresh taxation provided. Of the increased expenditure of \$38,750,000 over that of last year's budget the navy, civil service and old age pensions account for most of this enhancement. The payment of members of the House of Commons will absorb a further sum of \$1,250,000, while the coronation will add another \$1,500,000 to the demands of the Treasury.

Mr. Lloyd-George claimed that the British fiscal system had passed through an exceptional strain with added lustre. During his three years' tenure of office, the Chancellor declared, he had paid off \$130,000,000 of the national debt, while it has been reduced \$350,000,000 since the Liberals had assumed power. The Chancellor said he had reached the conclusion that the prospects of a continuance of good trade were excellent, as the trade barometer stood set "fair." Of the estimated revenue of \$908,580,000 the big items are the customs and excise duties, which are dependent on oil to bring in \$345,000,000, death duties of \$125,750,000, income tax and super-tax of \$221,500,000 and the postoffice revenue of \$128,700,000.

The Chancellor, as was anticipated, announced the revision of the cocoa import duties, from which the protective effect is removed. This involves the small loss of \$225,000.

The Opposition criticism on the budget centered in the provision for the payment of members of the House of Commons, to which Austen Chamberlain declared he was unalterably opposed, as it would deprive members of the British House of the unique distinction of serving without pay. He predicted that it would flood the House with money-grabbing politicians seeking an easy livelihood.

A. J. Balfour, the Opposition leader, obtained the promise of the Government that an opportunity would be afforded later to debate the question fully.

Veto Bill In House of Lords. London, May 17.—The veto bill was introduced in the House of Lords yesterday and formally passed its first reading.

Aqueduct Plans Burned.

Montreal, May 17.—Damage difficult to calculate was sustained by the city yesterday morning at 10.30 o'clock, when fire completely cleaned out the stores department of the waterworks, at the corner of St. Charles, Borromee and Lagache streets.

S. Lafond, clerk and storekeeper, had a narrow escape when the flames burst from the paint room and singed his coat as he sat at his desk, and seven draughtsmen on the upper floor, besides losing valuable instruments, were not able to save the plans and notebooks they were working on. As a result the engineers will have to go over their work and calculations for the new aqueduct again, delaying the work for months. While blue prints of the older works are stored in another place, the plans of the men were engaged upon had not been completed, and no record of them now exists.

The building was valued at \$300, and the damage to the contents, valves, watermain fittings, etc., is estimated at \$20,000.

Had Eighteen Bridesmaids.

The bride was attended by eighteen young girls, all members of her Sunday school class.

TWENTY BUILDINGS BURN.

Peel, N.B., Visited By a Fire Which Will Cost \$25,000.

Peel, N.B., May 17.—With the wind blowing a hurricane and everything dry as a tinder from the prolonged drought, a fire caught on the roof of the house yesterday owned by Herbert Clark, and occupied by himself and Howard Boyd, and after an hour's hard fighting some twenty buildings are in ashes, a score are homeless and there is a monetary loss of nearly \$25,000. The fire is supposed to have caught from a burning flue, and the beautiful residence with contents and the buildings adjoining were swept away, entailing a loss of \$5,000 with only \$700 insurance.

W. W. Melville lost a barn and contents with small insurance. Harry Carr's building and contents were wiped out with a loss of \$1,000 or \$1,200 with small insurance.

The fire leaped from these buildings to the McIntosh house occupied by John Thomas. The buildings are a total loss. Some furniture was saved. The loss is \$5,000 with \$600 insurance.

Clarke Craig had 500,000 lath stored at the C.P.R. tracks, which were wiped out with no insurance. Mr. Craig was called from this fire to one at Charleston, where his mill was threatened.

Ought to Be Careful.

Ottawa, May 17.—At the evening session of the Royal Society of Canada, Prof. Ramsay Wright delivered the presidential address on "The Progress of Biology."

He urged the careful selection of the class of immigrants to be admitted to Canada. Earl Grey and M. J. J. Jusserand, French Ambassador to the U. S., were present.

Prof. Wright said it was believed the physical basis of heredity had been discovered in certain particles in the cells of organisms. The problem had been attacked in more than one way; by means of statistics by the principles of the school of eugenics, who sought to show the effects of the introduction of good and bad stock in the race. London, for instance, was slowly becoming decadent. "We ought to be careful in the selection of immigrants into Canada. If we can get a good quality of immigrants from the British Isles, I think that is where we should look for them."

THE CORONATION STAMPS.—The contract for printing a special issue of postage stamps to be known as the Coronation issue has been awarded to the American Bank Note Company, and it is expected that they will be distributed throughout the country by June 3rd, the King's Birthday. These stamps will be double the size of the ordinary Postage stamp and only a limited number will be printed as in the case of the Quebec Tercentenary issue. The new two-cent stamps for ordinary use bearing the head of the new King will not be ready for some time.

NO OIL FOR PETERBORO.—Peterboro has decided to use no more oil on the streets, but instead have purchased a quantity of larbia. The manufacturers of larbia claim that one coat will last for a whole season and probably more, also that loads may be drawn over it almost immediately after it has been put on the ground, thereby causing no delay, or tying up traffic on a street. There is absolutely no smell from the stuff, and it gives a very clean and neat appearance to the street.

Our Maple Syrup Has Arrived

Body Seen Floating In The Harbor

Supposed to be That of John Fishleigh, Drowned Last Winter

A body was seen floating in the lake near the middle pier this morning. A number of men endeavored to secure it by means of an oar but were unsuccessful, and before they could secure the necessary grappling irons the body had gone down. It is thought it was the body of John Fishleigh, who was drowned near the freight shed on January 5th. Grappling will be commenced at once and it is not thought that any difficulty will be experienced in recovering the body.

ATTENDED CHURCH

Home Circle No. 4 attended Divine service in a body at the Methodist church Sunday evening, when a splendid sermon suitable to the occasion was delivered by Rev. Bro. W. G. Clarke, pastor of the church. The turn-out was a very creditable one, the local lodge being assisted by a number of brethren from Cobourg. On the return to the lodge room votes of thanks were passed to the preacher, the officials of the church and the organist and choir. The Cobourg brethren were also heartily thanked for turning out so well. Short speeches were made by Rev. Bro. Clarke and others, after which the meeting adjourned.

NOTICE

The members of the Ancient Order of Foresters No. 7682 are earnestly requested to attend a special meeting on Sunday evening next, May 21st, at the lodge room at 6.15 for the purpose of attending Divine service at the Methodist church, when the Rev. W. G. Clarke will deliver a sermon suitable to the occasion. A large attendance is very desirable.
