## THE LADIES' AID.

We've put a fine addition on the good old church at home, it's just the latest kilter with a gallery and dome. It seats a thousand people—finest church in all the town, And when 'twas dedicated, why, we planked ten thousand down. That is, we paid five thousand—every deacon did his best, And the Ladies' Aid Society, it promised all the rest.

We've got an organ in the church—very finest in the land, It's got a thousand pipes or more, its melody is grand, And when we sit in cushioned pews and hear the master play, It carries us to realms of bliss, unnumbered miles away. It cost a thousand, and it stood the hardest test, We'll pay a thousand on it, the Ladies' Aid the rest.

They'll give a hundred sociables, cantatas, too, and teas, They'll bake a thousand angel cakes and tons of cream they'll freeze, They'll beg and scrape and toil and sweat, for seven years or more, And then they'll start all o'er again, for a carpet on the floor, No; it isn't just like digging out the money from your vest, When the Ladies' Aid get bust and says: We'll pay the rest.

Of course, we're proud of our big church, from pulpit up to spire, It's the darling of our eyes, the crown of our desire, But when I see the sisters work, to raise the cash that lacks, I somehow feel the Church is built on women's tired backs.

## THE CENSUS MAN

May Have You Fined For Refusing to Answer Questions.

Lindsay Post.

"Civil action can be taken against any person who refuses to answer any question put by the enumerator in taking the census," said Mr. J. O'Reilly, the Census Commissioner for the County of Victoria, when asked regarding the penalty incurred by refusal to answer all questions of a census-taker.

"According to the statute every person who wilfully, or without lawful excuse, refuses to give an answer, or who falsely answers a question, is liable to a fine of not more than \$50 nor less than \$5 for each offence," continued Mr. O'Reilly.

The Commissioner intimated that

that this rule applied particularly to manufacturers who might refuse to divulge information about their business.

All officers engaged in the work of taking the census are sworn to secrecy, so that no one need fear that any information secured will be passed around.

"It will be impossible, even at Ottawa, for anyone to ascertain particulars about any concern for the purposes of comparison. A system of papers is used whereby certain answers are written on a stub, which is detached, thereby rendering identity with any firm impossible. Most of the questions relating to the output of a business, etc., are dealt with in a collective way."

In case of a family moving away after the first of June, which is the deciding date, before they have been reached by an enumerator, the collector of statistics in the place where they move will secure the required information in the regular way. The enumerator who finds that a person or persons have just moved fills out a card supplied for the purpose which he forwards to Ottawa. This is used as a check for the set of answers turned in by the second officer.

Quarterly Official Board of the Methodist Church Pass Complimentary Resolution

The fourth Quarterly Official Board meeting of the Methodist church was held in the Minister's Vestry last (Wednesday) evening. There was a large attendance of the members. Reports were presented from the different departments of the church's work, all of which were shown to be in a satisfactory condition. Mr. Thos. Wickett was elected to attend the District meeting in Cobourg, with Mr. H. Fulford as alternate.

The following resolution was unanimously passed:— Moved by A. Fulford, seconded by F. Outram, that the members of this Quarterly Official Board at this the fourth and last session for the present year, it being also the last session during the pastorate of our present pastor, desire to place on record our appreciation of the valued labors of Rev. W. G. Clarke, B.A., during his pastorate in Port Hope. In consideration of the many and varied interests with which our pastor has of necessity been associated in connection with the church, it is with gratitude to the Great Head of the church that we recall our pastor's unflinching loyalty to duty, his untiring efforts to promote every department of the church's organized efforts, and at the same time bringing into requisition all his consecrated talents to proclaim the word of life to our people. We also take this opportunity of extending to him our congratulations in the fact of his being invited to an important pastorate in the city of Belleville, and furthermore, we pray that heaven's blessing may attend him and his family wherever in the good providence of God he shall be called to labor in the future. Carried unanimously.

## HOSPITAL MISSION

Interesting Reports Presented of the Work Performed by the Ladies.

On Tuesday, May 9th, 1911, the annual meeting of the Hospital Mission was held, a number of the members being present.

The meeting opened by prayer, with Mrs. Burton, the president, in the chair.

The minutes of the last meeting were read and approved. The reports of the officers were then read.

Mrs. Read, the Collecting Treasurer, reported 374 names on the roll for the 1 cent a day collections. The total amount received from this is \$590.82. This was approved.

The Treasurer reported a balance of \$777.55 in the Traders' Bank on May 6. Approved.

Mrs. Mulholland then took the President's chair and a vote of thanks was extended to all the retiring officers.

The election of officers was as follows:

Pres.—Mrs. Burton  
1st Vice Pres.—Mrs. Bush  
2nd Vice Pres.—Mrs. J. McLean  
Sec'y.—Mrs. J. Gould  
Treas.—Miss Bolton  
Mrs. R. Read, Collector.

Mrs. Firman, seamstress, offered her services for one day.

It was then moved that the officers and executive committee have the power to use the money now in the treasury and henceforth for whatever purpose is needed for the benefit of the hospital and it is to be called a maintenance fund.

It was moved by Mrs. Snyder, seconded by Miss Bolton. Carried.

A vote of thanks was extended to Mrs. Rob. Garnett for her interest in the work and for the donation received.

The different sites were discussed by the ladies and the meeting closed at 5:30 p. m.

In April of last year the last meeting of Mrs. Burton's nursing class was held and the few ladies present thought after such an interesting time had been spent in this way that it should be carried on, so the "Hospital Mission" was formed electing Mrs. Burton, Pres., Mrs. Edgar, Vice-Pres., Miss Tempest, Treas., Mrs. Jay Gould, sec.

They then decided to hold a meeting on the second Tuesday of each month. Circulars were printed and sent to all the Old Boys and Girls of Port Hope that could be reached and a number responded to the call for funds. Various other ways and means were used to raise money for the hospital by the ladies and we also inquired from other towns nearby the means utilized in raising money.

In June Mrs. Williams and Mrs. McLaughlin, of Oshawa, gave the ladies a pleasant talk on how they had worked for a hospital in that town, which all enjoyed.

Boxes are soon to be placed in the business houses and we sincerely hope that all stray coppers, nickels and dimes will find their way into the boxes.

The ladies worked diligently for some months and then called a meeting of the gentlemen of Port Hope and asked them to take charge. They responded most

heartily and have worked very earnestly for the cause.

On behalf of the ladies of the Hospital Mission I wish to thank all the ladies and gentlemen of Port Hope and other places for the kindness shown to this society and for the liberal donations from one and all.

(Signed) Miss V. TEMPEST, Treasurer

Report of the house to house collections of the Hospital Mission: In May of last year Miss Boulton arranged 22 districts for collection purposes covering the entire town. One of these, Cavan street north, has not been canvassed. The others are at present worked by 18 collectors.

The collectors have been well received wherever they have gone, and comparatively few persons have failed to pay the amount promised, especially in those districts where the collector has called regularly.

The number of names at present on the roll is 314, and while some of these persons will retire now, having completed the first year there should be no difficulty securing others to take their place.

some districts in particular should be canvassed again. The total amount received is \$90.82, which shows how small sums mount up, for throughout the whole town we have only 11 subscriptions of \$10 and upwards, or to be exact, 1 of \$25, 1 of \$10, 2 of \$12 and 7 of \$10.

In conclusion I wish to express the pleasure it has given me to be associated with such an agreeable band of collectors, who with the exception of 5, were entire strangers to me when I took up the work and I especially thank them for responding to my request to have all returns in before this meeting.

Trial more severe to his conscience lay in the perceptible solicitude with which Mr. Warricombe weighed these disingenuous arguments. It was a hateful thing to practice such deception on one who probably yearned for spiritual support.

NOTICE TO CREDITORS

IN THE MATTER OF the estate of EMILY WARMINGTON, late of the Town of Port Hope in the County of Durham, Widow, deceased.

NOTICE is hereby given pursuant to "The Revised Statutes of Ontario" 1897, chapter 129, that all creditors and others having claims against the estate of the said Emily Warrington, who died on or about the Twelfth day of February, 1911, are required to be before the First day of June, 1911, to send by post prepaid or deliver to Henry White of the Town of Port Hope, Solicitor for George Warrington of the City of Toronto in the County of York, Merchant, Administrator of the estate of the said Emily Warrington, deceased, their Christian and surnames, addresses and descriptions the full particulars of their claims, the statement of their accounts and the nature of the securities, if any, held by them.

And further take notice that after such last mentioned date the said administrator will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which he shall then have notice, and that the said administrator will not be liable for the said assets or any part thereof to any person or persons of whose claims notice shall not have been received by him at the time of such distribution.

Dated the First day of May, 1911. HENRY WHITE, Port Hope, Ont. Solicitor for said Administrator.

When he ceased speaking there came upon him an uncomfortable dreaminess which he had already once or twice experienced when in colloquy with Mr. Warricombe; a tormenting metaphysical doubt of his own identity strangely beset him. With involuntary attempt to recover the familiar self he grasped his own wrist, and then, before he was aware, a laugh escaped him, an all but mocking laugh, unsuitable enough to the spirit of the moment.

Godwin was biting his lip fiercely, and could command himself to utterance of a word. 'By no means, I assure you,' added the other. It appears to me very strongly.

Peak rose from his chair. 'It struck me,' he said, 'that I had been preaching a sermon rather than taking part in a conversation. I'm afraid it is the habit of men who live a good deal alone to indulge in monologues.'

On his return home the sight of Bibel and Natur and his sheet of laborious manuscript filled him with disgust. It was two or three before he could again apply himself to the translation. Yet this expedient had undoubtedly been of great service to him in the matter of his relations with Mr. Warricombe. Without aid of Reusch he would have found it difficult to speak naturally on the theme which drew Martin into confidences and established an intimacy between them.

Already they had discussed in detail the first half of the book. How a man of Mr. Warricombe's intelligence could take grave interest in an arid exegesis of the first chapter of Genesis, Godwin strove in vain to comprehend.

Often enough the debates were perilously suggestive of burlesque, and, when alone relieved himself of the laughter he had scarce restrained.

CANADIAN EMIGRATION.

In 1900-1, 49,000 Americans crossed the line into Canada. In 1910-11 110,000 American farmers went to Canada and settled on the virgin wheat fields of the Old Dominion. According to Col. Andrew D. Davidson, who is known as "The Father of the American invasion," the number of Americans, farmer's families, with their goods and chattels also will cross the boundary into Canada this year easily will exceed 200,000.

Trainloads of colonists are already taxing the railways and hundreds who bought land last fall are moving north to get their crops in as early as possible. Others are going to take up land in some of the huge blocks of new homesteads that are being opened up along the rail-ways.

One block of 10,800 free homesteads has been opened up beyond Edmonton and is attracting settlers to the Peace River Valley in great numbers. Reports from Edmonton say that for the last two months a steady stream of homeseekers' wagons has been passing through that city and that the hitherto unsettled prairie west of there will be sown to wheat this spring. Four million acres of free homestead land is now available along the branch lines of the Canadian Northern, and it is expected that much of it will be taken up in the next two months.—Peoria Star.

HE IS A BIG MAN.

Hon. D. C. Fraser Has Both Physical and Mental Size.

The Honorable Duncan Cameron Fraser, Lieutenant-Governor of Nova Scotia, is, his numerous friends throughout Canada will be pained to learn, in poor health at the present time and, after consulting a specialist in Montreal, has retired to the quiet of his country home in Guysboro, the county he represented in the Federal Parliament for many years.

Governor Fraser is an ardent disciple of Izaak Walton. He likes to catch fish—fresh water fish and salt water fish.

D. C. Fraser is one of Pictou county's big men. He is big in stature, big in heart, big in his convictions, and, if I may use the term, big in the affections of all Nova Scotians.

A Liberal of the old school, a trenchant speaker, an indefatigable canvasser, a ready fighter, he has, nevertheless, won the love of his strongest political opponents and they will rejoice to see him return to Government House possessing all his old-time vigor and geniality.

D. C. Fraser is a lawyer by profession, a Presbyterian by religion, and was, when in politics, a Grit. He was a member of the Supreme Court Bench for a short time, resigning that honorable position to accept the more congenial and less arduous one of lieutenant-governor. The latter position he fills with dignity and tact.

As an after dinner speaker, Governor Fraser has no equal in Nova Scotia, and as a presiding officer at important functions he has few peers. He is broad and liberal in his views, and is a valiant champion of the right of every man to his own opinion.

In his younger days—the early days of his legal and political career—D. C. Fraser was an ardent upholder of the doctrine of moral suasion. He believed in moral suasion—he preached moral suasion and he practiced moral suasion, and throughout the countryside was known as "Duncan Suasion." In the cause of temperance reform, he wielded quite an influence, and it was here he found vent for the doctrine so near his heart. Making men sober by moral suasion is almost unknown now. The law is supposed to be the cure all.

D. C. Fraser is prominent in the courts of his church. His experience has been all the way over the road from singing in James Church choir to taking an active part in the debates of the General Assembly. He is an ardent church unionist, and his address before the last General Assembly on that question will ever live in the memory of all who heard it.

He is a past grand master of the Nova Scotia Masonic Lodge and a Scottish clansman, appearing at the annual banquets of the North British Society in full Highland costume. As a story teller he excels, and he can speak the Gaelic as readily as he can the English.

"Mr. Osgoode Hall." That Osgoode Hall is a respectable old man who grinds out legal grist when not otherwise engaged is the idea of a New Ontario bushranger. A letter has reached Osgoode addressed to "Mr. Hall, Toronto," and in the letter he is called Mr. Osgoode Hall.

The writer hails from Emo, and explains that he has been busy fire-rang-ing for some time, and asks "Mr. Hall" for information about some far-off legal squabble wherein he was assessed \$30 for fees.

INCLUDES FRANCE A DESCRIPTION OF CORONETS

Arbitration Treaty Drafted For Three Powers. SENATE HAS LAST WORD

Great Surprise Is Shown When It Is Discovered That France Will Be a Party to the Great Peace Scheme—Commission of Enquiry Will Examine All Cases Where National Honor Is Involved.

Washington, May 18.—The principle of arbitration of practically all disputes between nations, including even questions of vital interest and national honor, assumed vitality yesterday when Secretary of State Knox submitted to the British and French ambassadors at Washington the draft of a convention to serve as a basis of negotiations. The fact that this world movement would be inaugurated with France as well as Great Britain came as a great surprise, as it was generally understood that only the U. S. and England were concerned in the initial steps.

When President Taft enunciated the doctrine of comprehensive arbitration, he received a quick response from Ambassadors Bryce and Jusserand that Great Britain and France were willing to begin negotiations with this country for the peaceful settlement of practically all differences that may arise.

Secretary Knox has evolved a document, which has received the approval of the President and other members of his Cabinet, providing that all differences which are internationally justifiable shall be submitted to arbitration. It expands the scope of the existing arbitration treaties by eliminating the exceptions referring to "questions of vital interest and national honor." This elimination is the real accomplishment of the proposed treaty. The exceptions mentioned are found in the arbitration treaties the world over, and have constituted the chief obstacle to the application of the

SECRETARY KNOX.

arbitration principle, for it is hard to conceive of a problem which in its essence cannot be regarded as having a controlling bearing upon "national honor" or "vital interest."

Recognizing that there may be questions of policy and other matters likely to force nations to the brink of war, but which no people would be willing to arbitrate, the tentative draft of the treaty provides that differences that either party consider within this category shall be referred to a commission of enquiry empowered to make recommendations for their settlement. In this connection the treaty will take another advanced step by binding the disputants to arbitration in case the commission of enquiry declares that the controversy shall be arbitrated.

Arbitration in all cases will be a last resort. After the two countries have concluded that it is impossible to settle a dispute through diplomatic interchange, the question will be submitted to a commission of enquiry, charged with the duty of suggesting a way to avoid arbitration if possible.

The United States Senate will not be asked to relinquish its right to pass upon the question of arbitrating such dispute. All agreements to arbitrate will be entered into with "the advice and consent of the Senate," as under existing conventions.

The submission of the drafts to Great Britain and France marks the actual beginning of negotiations. The foreign offices of the two countries will now make an exhaustive examination of the American proposition with a view to suggesting modifications or additions. It is the desire of the administration to complete the negotiations if possible for time for submission to the Senate before adjournment of the present session of Congress.

The vast importance of the proposed treaty has been the subject of discussion in diplomatic circles ever since the idea was suggested. Now that this Government's proposal has been reduced to concrete form, the state department assumes a receptive role, willing to enter into negotiation on the same basis with all countries, signifying a desire to do so. It has been rumored recently that Japan was anxious to join in the negotiations, but so far no formal discussion of the subject between the two countries has occurred.

Will Insure Municipal Buildings. Montreal, May 18.—Following the fire on Tuesday, which destroyed the civic waterworks shops, the Board of Control has decided to insure all municipal buildings in the city against fire. The value of the buildings, exclusive of land and furniture, owned by the city is entered in the city assessor's books at \$3,827,535, of which \$531,800 is put down as the value of the City Hall.

A DESCRIPTION OF CORONETS

Many of Those Used at the Edward Coronation in 1902 will be Worn in June

"Numbers of persons," declared a London jeweler and silversmith, "imagine coronets to be composed of 24-carat gold, and studded with priceless gems. Well, the fact is, we often supply peers or peeresses with beautifully finished, light-weight coronets in silver gilt for less than twenty pounds. A peer's coronet must fit him like a hat; but those for peeresses are half the size. Peeresses, thus having plenty of room on their heads—happily for us—wear tiaras as well as coronets. In this way:

"The tiara, high in front, sloping down each side, is placed well forward on the noble brow. With hair bunched on top of the head, puffed out at the sides, the coronet rests on top of the hair, behind the tiara. Plenty of work there will be at the last moment of course, altering tiaras for the Coronation, so that they may be worn in this way, for many of them are of the 'all round' pattern."

"Most of the coronets donned in June next will be those used for the last Coronation. I estimate that two thousand new coronets were then turned out, at an average of \$30 apiece—\$180,000 in all.

"One peer told me of the rescue of his coronet for the 1902 ceremony. His lordship's plate-chest was crammed. To make room, odds and ends were cleared out. Sorting these, he encountered his coronet. The butler, fairly staggered, said he had been pushing it into one corner and another for years past, till he could come across the other part of 'the old casket.'"

"The most gorgeous Coronation item, though that comes the way of workers in precious metals, is the pallium, or Royal mantle of the King. It is of English cloth of gold—remember the 'Field of Cloth of Gold'—woven from finest gold thread, gold as pure as will stand the strain of being so used, almost without alloy.

"There are very few skilled weavers capable of making cloth of gold. It is exceedingly slow work, and as each inch of the material is formed, it is carefully wrapped up, so that it shall retain its glorious flood of color. Such new, absolutely unsoiled cloth of gold looks more like a blaze of brilliant sunshine than anything you ever saw.

"Many of the State robes will have Indian embroidery—gold and silver thread on silk.

"An ounce of the pure metal is drawn out into a thread half a mile long for the embroiderers to use. The pattern is always original, the embroiderers, trained from childhood, 'making it up' as they go along. Thus no two existing patterns are alike, and one robe can always be distinguished from another, which saves marking. The work is usually done in India, but for the Coronation some of the most expert craftsmen of Delhi, where the best come from, are being brought over here.

"The famous crimson velvet, with which Westminster Abbey will be ablaze, I find on inquiry costs about a pound a yard, bought by the piece. A piece measures some forty yards, and though the velvet is quite plain, without any pattern, such a length takes four months to make.

"British-spun pure silk linings are used, in proper lining for the crimson—really almost purple—velvet being white corded silk, costing about eight shillings a yard.

"So, although coronets themselves are not exactly pure gold jewels, one way and another the little bill tops up."

QUEEN MARY THE DUBAR AT DELHI.

The King Will be Crowned in India on December 12.

King George, on Wednesday, March 22, officially gave his approval of the details for his Coronation. The King conferred with the Privy Council when the plans were gone over and ratified. It was decided that the Coronation Dubar at Delhi, India, should be held December 12 next, when King George and Queen Mary will be present. Both will sail for India about the middle of November.

New George V. Stamps. The Secretary to the Treasury in a printed reply to a question, says that it is proposed to issue the new George V. stamps at the time of the Coronation. It has not been considered necessary to maintain the former large reserve of the existing stamps. A first delivery of sixty-eight reams has been made by the contractors, and the stamps fulfil the conditions of the new contract.

A Suggestion. The M. A. P. Magazine says:—"It is hoped that the King and Queen may find it possible to visit South Africa after the Coronation Durbar in India."

GUARANTEE PASSES

C.N.R. Bond Measure Gets Its Third Reading.

HOUSE ADJOURNS FRIDAY

Hon. Mr. Fielding Announces a Heavy Bill of Work to Be Put Through Before To-morrow Night - Will Withdraw Contentious Legislation - Hon. Mr. Graham Defends the Guarantee Bill.

Ottawa, May 18.—The question of the terminals in Montreal and the proposed interchange of traffic with the I.C.R. was a fruitful subject of debate in the House yesterday, when the C.N.R. guarantee bill was under discussion in committee.

Mr. Fielding announced last night that the House would adjourn on Friday. He intimated the program of business that the Government would endeavor to have passed before adjournment. It was as follows: Amendment of the Railway Act, the Banking Act bill, the Quebec Savings Bank bill, the forest reserve bill, the Grain Act, the water carriage bill, the Quebec battlefields bill, the resolution regarding the Japanese treaty, and the Collingwood Shipbuilding Co. bill. Besides that he said there was the question of supplying, in addition to several items which the Government desired to have passed for the whole year, and a vote on account for such a sum as would make five-twelfths of the estimates of the year would be asked for. He said he realized that to permit adjournment on Friday such legislation as proved to be contentious would have to be withdrawn, and promised that this would be done.

The leader of the Opposition said the Government could terminate its agreement with the Grand Trunk for the interchange of traffic at any time, but was bound by a ninety years' lease to use the G.T.R. terminals. He declared that the present terminals of the I.C.R. were unworthy of a road which covered sixteen or seventeen hundred miles of territory.

Mr. Graham said he was cognizant of the difficulties of the problem. However, the agreement with the G.T.R. might not be annulled unless it would be in the interest of the country to do so, if at the same time the Government were released from its terminal obligation to the Grand Trunk.

Mr. Graham stated that the route of the railway had been approved from Montreal to North Bay by the Railway Department, but not by the Railway Commission. From Sudbury to Port Arthur the route had been approved by both.

F. D. Monk protested against putting this bill through before adjournment, describing it as a public scandal. He asked if the City of Montreal would have anything to say regarding the terminals.

The procedure, Mr. Graham replied, was for the city and the agreement on the site, and the agreement to be approved by the Railway Board.

Guss Porter insisted that there should be some check on the C.N.R., to see that the railway was not built out of the proceeds of the Government guaranteed bonds.

Mr. Graham contended that no engineer who knew the country would think the road could be built for \$36,000 per mile.

Mr. Porter declared that the owners' of the C.N.R. had grown wealthy in building their railways out of the bond issues, at least this was the opinion of the country.

F. R. Lalor said the whole thing had the appearance of an enormous election fund being got ready for a general election in the fall.

Guss Porter asked how the Minister knew that the road would cost \$50,000 per mile, when the Minister could not state definitely where it would be located.

Mr. Graham said that a large portion of the line had already been approved by the Board of Railway Commissioners. As to the other part it was known approximately where it would run and the nature of the country to be traversed was known.

Mr. Middleboro said there was nothing in the bill to bind the company to carry out its agreement to enter into a traffic arrangement with the I.C.R.

Mr. Graham thought that if the company repudiated its agreement there would be redress in the courts.

Major Sharpe then protested because the guarantee had not been fixed at a certain percentage of the cost of construction.

The Minister said this system had not been altogether satisfactory in the case of the G.T.P. He believed it to be in the interest of the country to name a stated amount.

Mr. Borden said that was a good argument, when reasonable evidence as to the cost of the line is produced, and the Minister replied that he had acted on the advice of the engineers of his Department, although they had not written a formal report.

An amendment was inserted providing that the length of the line guaranteed must not exceed 1,660 miles.

That the terms of the new trade treaty between Great Britain and Japan are not suitable to Canadian conditions and circumstances is the chief reason why Canada declined to adhere to the treaty, is made clear in a return tabled in the Commons last night, setting forth the reasons why Canada proposes to continue the existing treaty with Japan in effect for a couple of years, in order that Canada may have an opportunity to make a treaty of her own with the mikado's kingdom.

New Service Inaugurated.

OBJECTED TO SIGN.

So Frenchmen Put a Gallic Label on Postoffice.

Montreal, May 18.—The following despatch to La Presse yesterday from Vercheres says: A demonstration unique in its kind in the history of that village has just been held. The postoffice was indicated by a notice bearing the English sign "Postoffice." Our population, wholly French-Canadian, decided to protest against this state of affairs. The pupils of the college and the schools formed in procession before the church and, headed by a banner, assembled in front of the postoffice, under the direction of Brother Regis, singing patriotic songs. A board bearing in gilt engraved letters the words "Bureau de poste" was carried by a number of the procession. Father Dulude, the vicar, and the brothers of the Christian schools, also took part in the demonstration.

At the postoffice the whole parish had assembled. Father Baillarger, curate of the parish, welcomed the processionists and delivered a stirring speech in favor of the French language. The French signboard was then placed in front of the postoffice amidst the acclamation of the crowd.

COMMUTATION ASKED.

Appeal Sent to Hon. Mr. Aylesworth to Save Woman.

Toronto, May 18.—A letter from the Toronto Suffrage Association has been sent the Hon. A. B. Aylesworth, Minister of Justice, at Ottawa, earnestly pleading for a speedy commutation of the death sentence passed upon Angelina Napolitano, "since every additional hour spent by her in the condition of terror anticipating her execution on August the 9th, cannot but react in a deleterious manner upon her unborn innocent child." They further held "that the woman's condition at the time at which she committed the crime, aggravated the sense of provocation received."

Saved Life of Mother of Nine.

New York, May 18.—Weak from repeated internal hemorrhages, Mrs. Sarah Wynn's life has just been saved by Dr. Arthur J. Savage, who allowed a quart of his virile young blood to be pumped into her veins. Dr. Savage, who is a Rhodes' scholarship graduate of Oxford, is a son of the dean of McGill University, Montreal, and was captain of their famous football team four years ago. He is now interne at the Volunteer Hospital here, and a fellow-physician declares that his sacrifice of blood has never been equaled in New York. Dr. Savage declares the matter is nothing to talk about, for he says: "The woman had a husband and nine little kids waiting at home for her. I haven't got a soul that depends on us. It was little enough to do for her."

Insufficient Fire Protection.

Montreal, May 18.—Chief Tremblay appeared before the Board of Control yesterday and deposited his report upon the inspections the fire captains have made of all the apartment houses in the city and moving picture shows. In regard to the apartment houses, the chief states that in nine cases out of ten the houses are not provided with proper or sufficient protective apparatus against fire, and in many instances there are no fire escapes at all.

People's Railway Progressing.

Toronto, May 18.—It is reported that the People's Railway, on which construction work has been done from Guelph to Berlin, will extend from Toronto to Detroit. A contract was signed at Toronto yesterday between a Mr. Van Norman, representing Michigan capitalists, and the company. This railway was originally incorporated under a provincial charter, but was recently granted federal incorporation, and will use Hydro-Electric power. It is expected that the line will be in operation in five years.

Circus Camel Attacks Boy.

St. Catharines, May 18.—Tuesday night a small boy was standing watching the camels in the menagerie of Rowe's Circus, before the performance of "the big tent" commenced, when one of the camels seized the lad's shoulder in his teeth and, lifting him, hung on to the boy, who was screaming with terror, until literally forced by the keeper to let go. The youngster had got too near the camel's hay. His clothing protected him from serious injury.

Gets Fortune From Toronto.

Hamilton, May 18.—Peter McKenna, a teamster, with a wife and four children has just been left a fortune of \$75,000 by Miss Elizabeth McCarrow of Toronto, an aunt whom he befriended in her old age. The money is in Toronto real estate, and the will is to be probated to-morrow. McKenna received \$35,000, and the balance is to be divided among the three children when they become of age.

Trepanier Will Hang.

Three Rivers, Que., May 18.—Hermidas Trepanier, found guilty on Saturday last of the murder of Maurice Plouffe in March last, was yesterday sentenced to be hanged on July 21. Trepanier did not evince any sign of emotion on hearing his sentence. The court-room was packed to the doors. It is said the defence will move for a new trial.

Steamer Simcoe Released.

PULP CHEAPER HERE

U. S. Senate Receives Report on Paper Prices.

WOOD COSTS HALF AS MUCH

Tariff Board's Comparative Statement Shows That Canada Can Produce News Print at \$5.35 Less Than the American Mills—Labor is About the Same, But Wood Costs Less Than in the U.S.

Washington, May 18.—President Taft yesterday sent to the Senate the tariff board's full report of its investigation of the pulp and news print paper industry in the United States and Canada.

Summarized briefly, the report says that a ton of news print paper is made in Canada for \$5.35 less than it is made in the United States. The average Canadian cost is given at \$27.53, and the average cost in the United States at \$32.88. The duty upon a ton of news print paper under the present tariff is \$3.75.

Several factors entering into the increased cost of manufacturing in the United States are taken up exhaustively in the report. The principal increases are said to be due to the fact that a ton of pulpwood costs nearly twice as much in the United States as it does in Canada, and that many of the American mills have much older and much less efficient equipment than the Canadian mills, which is said to be responsible for a large increase in manufacturing cost.

The total average cost of a ton of ground wood pulp in bulk at a mill in the United States is \$14.50; in Canada it is \$9.56.

The total cost of a ton of sulphite fibre in the United States is \$31.39; in Canada it is \$26.47. The total materials entering into the manufacture of a news print paper in Canada are shown as \$16.89 and in the United States as \$22.74. The labor cost of a ton of paper in the United States is shown to be \$3.27, and in Canada \$3.19. All other allowances for manufacturing costs in the United States are \$6.87, and in Canada \$7.45. Labor costs in all the items concerned run very closely alike.

One feature of the report shows that the cost of manufacturing news print paper in the United States varies widely. The lowest cost recorded is \$24.50 a ton; the highest is \$43. From this the tariff board strikes an average of \$32.88.

At the Canadian mills the lowest price recorded for producing a ton of newsprint is \$24.97, and the highest is \$30.13. Average, \$27.53.

In accounting for the increased cost of the pulpwood, it is shown that an American mill the average cost for a ton of wood for ground wood pulp is \$10.23; in Canada, \$5.70. The average cost of the ground wood pulp entering into a ton of newsprint paper in the United States is given at \$13.27; Canadian value, \$8.49. The average cost of the sulphite fibre in a ton of paper at a mill in the United States is given at \$8.63; Canadian valuation, \$7.41; manufacturing labor in the United States, \$3.75; in Canada, \$3.19.

To the question of how far American mills are on an equal basis for competition with the Canadian mills in the matter of equipment, the reports present the answer that the total average of equipment and efficiency is slightly better for Canada than for the U. S.

It is declared that in 44 per cent. of the American mills investigated, a condition exists as to machinery and equipment, which would force them, if obliged to meet really extensive competition from Canada, greatly to curtail other expenses, greatly increase their investment for equipment, or shift to making other kinds of paper.

In treating upon the subject of labor efficiency in Canada, the report says: "It would seem then that with modern mills, American machinery, American trained managers and superintendents and American skilled operatives, together with lower rates of wages for unskilled men, the Canadian manufacturing labor costs per unit of production in the modern and well equipped mills of Canada would be considerably lower in the U. S."

Tables show, however, that the Canadian labor cost per ton of news print paper is only slightly lower on the average. The 41.5 per cent. of the tonnage reported in the U. S. carries a manufacturing labor cost of less than \$3 per ton, while 54.7 per cent. in Canada falls under \$3. The total average for the U. S. is \$3.27, as against \$3.19 in Canada, notwithstanding Canada's advantage in equipment. This indicates that there is greater efficiency and experience in the first-class mills of the U. S.

Forty Thousand Homeless.

Harbin, Manchuria, May 18.—Forty thousand persons at Kirin are homeless as a consequence of the recent conflagration at that city. A money loss is estimated at \$20,000,000.

Four thousand shops, 15 banas and 8,387 other buildings were destroyed. The fire at Kirin will rank with the London and Chicago conflagrations. In the great London fire 13,200 houses were burned, besides churches.

Woman Startled Reichstag.

Berlin, May 18.—The deliberations of the German Reichstag were interrupted yesterday when a woman in the gallery attempted to make a speech, protesting against the inaudibility of the debate on the floor of the Reichstag. She was forcibly removed from the gallery, the chamber resounding with her hysterical shrieking.

Killed by a Train.

Montreal, May 18.—Struck by a G.T.R. train at Valois, near Lachine, yesterday morning, Mr. Harry Hobman, aged 30, was almost instantly killed. He lived in Valois, and was on his way to take a train for the city.

Investigated Charges.

Montreal, May 18.—During the regular meeting of the directors of the Canadian Cement Co., which was held here yesterday afternoon, the sensational charges recently made by Sir Sandford Fleming were brought up.

At the close of the meeting the secretary was authorized to make the following statement:

"With regard to the charges made by Sir Sandford Fleming, these are the same as he made last year. The meeting then had Sir Sandford's charges investigated by a committee of his own choosing, and also by two prominent counsels, one of whom was nominated by Sir Sandford Fleming himself. The result of these investigations showed that there was no justification for his charge and that Sir Sandford's position was untenable."

Body Lifeless, Yet Lives.

New York, May 18.—Physicians are mystified by the case of Ella Campbell, sixteen months old, who is a patient in the Florence Crittenton Home, in Paterson, N.J. The child is suffering from an ailment resembling tuberculosis, but the attending physician, says no one has been able to really diagnose the illness. Last Wednesday mortification set in and the child's body is now in the condition of one dead several days. It has been necessary to isolate her. Although her body is lifeless and immovable, the child is conscious and recognizes those about her.

The ballast trains on C. N. R. now go east within five miles of Port Hope. Another pig steam shovel went through on Friday to work at the Port Hope fill where they are anxious to rush the work to permit of the steel being laid so that there construction trains may run right through to Cobourg.—Orono News.

If everybody in Port Hope would buy a tin of Tiger Hand Cleaner the result would be that we could not supply the demand. Tiger is so superior to all others that you would be forced by your own convictions to buy it ever after. Cheaper and better than soap. Three-quarter pound tin 10c.

Ladies' Oxford Shoes, values from \$2.25 to \$3.50, your choice \$1.45 at Cheffin's Clearing Sale.

**AUCTION SALE OF REAL ESTATE, FURNITURE, ETC.**—The undersigned has been favored with instructions to sell by auction on Wednesday, May 31st, 1911, at one o'clock sharp, the house and grounds on Dorset street, Port Hope, belonging to the estate of the late Mrs. Warrington; also the household furniture. For particulars see posters later.

JAS. KERR, Auct.

Cloth and Linen vests, sizes 33 to 38 value from \$1.25 to \$2.50. Your choice 35c at Cheffin's Clearing Sale.

**FIRE TEST.**—Yesterday an alarm of fire was rung and the firemen responded promptly. It appeared that this was a test made for Mr. Wilson, inspector of fire equipment for the Underwriters Association. THE GUIDE does not know whether this test will be used as an excuse to give fire rates a further boost in Port Hope or that the companies doing business will find it necessary to add a few more "variations of conditions" or changes to the requirements of the Statutes. Time alone will tell whether our rate goes up or down. Did it ever go down?

Tiger, Tiger, Tiger. That's the name.

**PROSPERING.**—Messrs. J. G. Jackson & Clark have, we understand, purchased the business block in Cobourg where they have been established for some time. The price was something over \$7,000.00. Mr Jackson was a resident of Port Hope so long that his friends here will be pleased to know of his success.

**A TRAVESTY OF JUSTICE.**—A boy was injured in the Vanderbilt automobile race last fall. A racing car skidded and struck the youth, disabling him permanently. He sued the driver of the car and recovered a judgment for \$7,000. The appellate division of the New York supreme court set aside the judgment on the ground that the boy, by standing too near the track, had been guilty of contributory negligence. One of the judges who objected to the reversal put it this way "If the boy had stayed at home he would not have been injured. If he had not left the state of Connecticut he could not have been injured by the car of the defendant, which was using the highways of the state of New York for an advertising exhibition. To charge responsibility upon a boy who was out of reach of harm except from the defendant's negligence is to make a travesty of justice."

NOTICES OF BIRTHS, MARRIAGES AND DEATHS. Fifty Cents. "In Memoriam" Notices from 10 cents up, each insertion.
