DAVID RYAN FOUND GUILTY

Mentally Weak—Cunning Enough When He Was Doing Wrong.

Hamilton Spectator.

"It would have been better if you had remained in Port Hope, Ryan. I have the report of the police magistrate of that town before me, and he tells me that you have criminal instinct. You do not start out to do wrong, but you cannot withstand the first temptation that presents itself to you. It would indeed be a misfortune if you were allowed to ramble around the country, so I will therefore send you to the penitentiary for a term of three years."

So said the magistrate this morning in imposing sentence on David Henry Ryan, Port Hope, who was arraigned on three charges of housebreaking and theft. Ryan pleaded not guilty to the charges and elected to be tried by the magistrate. Margaret Sims, a young girl who resides at the home of Mrs. Wanzer, Freeman place, went onto the stand and testified that on Thursday afternoon, about 3.45, she looked out of the attic window and noticed the prisoner trying to pry the screen from the pantry window. She called to him and asked him what he wanted, and he asked the way to the asylum, and on being told he hurried away. Miss Sims discovered a short time later the screens had been taken off two of the cellar windows, and the hinge had been taken off the screen door leading to the kitchen.

"Do you want to ask her any

ANCIENT ORDER OF FORESTERS

The members of the Ancient Order of Foresters No. 7682 are earnestly requested to attend a special meeting on Sunday evening next, May 21st, at the lodge room at 6.15 for the purpose of attending Divine service at the Methodist church, when the Rev. W. G. Clarke will deliver a sermon suitable to the occasion. A large attendance is very desirable.

J. F. CLARK & SON

Monday, May 22nd, local theatergoers will witness a musical offering which is undeniably the greatest success New York has produced in recent years.

The scenes of "The Red Mill" are laid in the picturesque and quaint country of Holland of the present day, the atmosphere lending itself to a faithful portrayal of the dykes, canals and the little red mills of the small Dutch Kingdom, with the peculiar costumes of the officials and peasants which are relieved by tourists from America and England.

The story has to do with two venturesome spirits who are 'doing' Europe on their nerve rather than their purse, but who strike a snag in a little Dutch town, where they are caught in the act of leaving the hotel by the window with their board bill unpaid. They are sentenced by the burgomaster (the Mayor) to work out their debt to the innkeeper. One acts as the porter and the other as the waiter. In these disguises they find themselves the harmless victims of extraordinary circumstances, having to assume innumerable disguises before funds arrive from America and they settle their indebtedness.

Mr. Blossom has rounded out his interesting story by bringing into the play two young lovers who are so timely helped by the touring pair.

Victor Herbert has also done his share in furnishing a score which consists of some twenty musical numbers, all of which are now being sung or whistled throughout the country. They include Every Day is Ladies' Day with Me, You Never can Tell About a Woman, Go, While the Goin's Good, The Streets of New York, Because You're You, The Isle of our Dreams, and I Want You to Marry Me.

This same attraction and company that is now playing at the Grand Opera House, Toronto, and comes direct to Cobourg.

Demonstration Orchards

In Northumberland and Durham

The Fruit Growers of Northumberland and Durham Counties will be glad to know that the Fruit Branch of the Ontario Department of Agriculture, in co-operation with the District Office for Northumberland and Durham, has seen fit to take over four orchards for demonstration purposes. Mr. P.W. Hodgetts, Director of the Fruit Branch, Toronto, is carrying on a campaign for better orchard management all over the Province of Ontario to show that quality and quantity in apple production can be obtained when the orchard receives proper treatment, as to fertilizing, cultivating, pruning, spraying, etc.

The management of these orchards in Northumberland and Durham will be in the hands of Mr. R. S. Duncan, B. S. A., District Representative at Port Hope, who will be assisted by Mr. H. S. Fry of Vineland, Lincoln County, an associate of the Ontario Agriculture College and who has had a practical and thorough training in fruit growing. Mr. Fry will also complete the orchard survey work of

Durham County along much the same lines as that carried on in Northumberland last summer.

The need of such work in these two Counties "The Apple Counties" of Ontario, is quite marked, in view of the fact that so many of the old orchards are being seriously neglected. When we consider the number of acres that were annually planted out to apples, particularly in Northumberland County, up to a few years ago, and the sudden decrease of such planting, we are led to wonder why such is the case. Not only are the old orchards neglected, but many young orchards from 5 to 12 years of age are constantly to be seen unpruned, unsprayed and some dying from want of food and cultivation. Fruit-growing was never more in need of a "boost" than at the present time and it is to be hoped that the taking over of these orchards by the District Branch will have the desired effect, as their purpose is to show as clearly and as accurately as possible what may be accomplished through care and feeding in the average orchard throughout these Counties.

The Demonstration Orchards are situated as follows:—

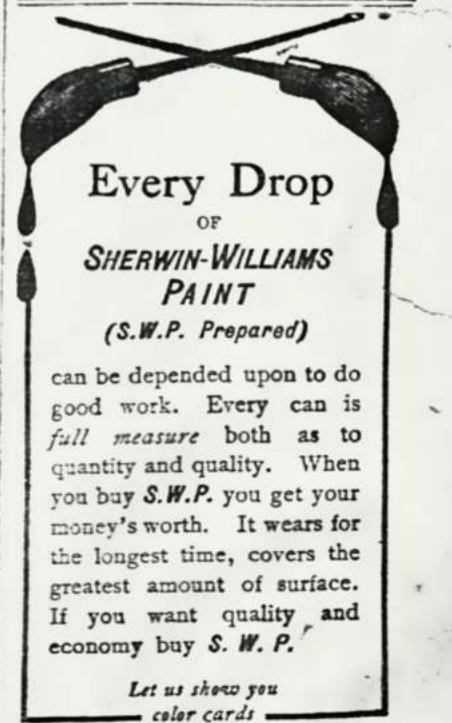

DURHAM COUNTY

West Durham—Jas. Stanley, Bowmanville; one-half mile west of town, on the main road, Toronto to Kingston, comprising 80 trees, principally Spies, Baldwins, Kings and Russets.

East Durham—Nathanie Nicholls, Welcome; about 4 miles north and west of Port Hope on the main Kingston Road, comprising 80 trees of Spies, Ben Davis, Greening, Pewaukee, Duchess, Baldwin and Snow.

NORTHUMBERLAND COUNTY

West Northumberland—W. G. Noble, Port Hope; situated about midway between Cobourg and Port Hope on the Kingston Road, an orchard

Every Drop OF SHERWIN-WILLIAMS PAINT (S.W.P. Prepared)

can be depended upon to do good work. Every can is full measure both as to quantity and quality. When you buy S.W.P. you get your money's worth. It wears for the longest time, covers the greatest amount of surface. If you want quality and economy buy S. W. P.

G. A. OUTRAM HARDWARE

NA-DRU-CO DYSPEPSIA TABLETS
relieve and cure indigestion—acidity of the stomach—biliousness—flatulence—dyspepsia. They re-inforce the stomach by supplying the active principles needed for the digestion of all kinds of food. Try one after each meal.

chard of 140 trees of Spies, Russets, Ben Davis, Duchess and Snows. East Northumberland — F. W. McConnell, Colborne; exactly midway between Colborne and Brighton on the main travelling road, consisting of 120 trees, principally Russets and Greenings, with a few Snow, Wagner, Canada Red, Holland Pippin and three Spies.

The soil in the first three is clay loam and in the last, light sandy loam.

These orchards have been planted from 30 to 40 years but have been neglected, and are full of bark lice, badly in need of pruning and the quality of fruit has been of a very low grade. They have also suffered severely from canker and sunscald, but it is hoped that with good management, liberal feeding, and thorough pruning and spraying, they will respond and give satisfactory results.

None of the orchards will be pruned very severely the first year on account of their neglected condition and the pruning that will be done will be more of a cleaning out of the dead wood and a thinning out of the top. All the trees will be scraped thoroughly so as to facilitate spraying operations.

The orchards will be sprayed thoroughly 3 times with Commercial Lime Sulphur. First, when the leaf buds are bursting to catch the oyster shell bark louse and the blister mite, strength 1 to 10. Secondly, just before the blossoms open, for the scab, caterpillars such as tent caterpillar, case bearers, canker worms and bud moths at a strength of 1 to 35 with an addition of 2 lbs. of arsenate of lead to 40 gals. of the mixture. The third spraying which will be for the control of the codling moth, will be given just after the blossoms have fallen and before the calyxes close, and the formula will be 1 to 40 of lime sulphur and 2 lbs. of arsenate of lead per 40 gals. of the mixture.

Pruning and spraying demonstrations will be held at each of the four orchards to give those interested an opportunity of seeing the work done and to ask any questions regarding it.

A special feature in this demonstration work will be some experiments in connection with the thinning of the fruit. It is the object of the experimenters to ascertain whether or not thinning the fruit will pay the farmer with a few acres of orchard, and interesting results are looked for along this line. Thinning will probably commence about the first of July and continue throughout that month.

The conditions upon which these orchards were taken over are as follows:—

The Department prunes the orchard, furnishes spray material and pumps and sprays the orchard three times while the farmer must manure at the rate of 12 loads per acre cultivate thoroughly until the middle of June, sow a cover crop and render assistance in pruning, and board the men while doing the work. The farmers got the apples but the sale cannot be completed without the consent of the Department.

Mr. Duncan is endeavouring to

do this work in a very careful manner and is using practical methods which will be applicable to any orchard throughout Ontario and it is expected that his work will be of much benefit to the apple growers of Durham and Northumberland Counties.

PORT HOPE, MAY 19, 1911

A TROUBLESOME MISGIVING

(Continued from Yesterday)

For instance, there was that terrible thohu wabohu of the second verse, a phrase preserved from the original, and tossed into all the corners of controversy. Was thohu wabohu the first condition of the earth, or was it merely a period of division between a previous state of things and creation as established by the Hexameron? Did light exist or not, previous to the thohu wabohu? Then, again, what kind of 'days' were the three which passed before the birth of the sun? Special interest of course attached to the successive theories of theology on the origin of geologic strata. First came the 'theory of restitution which explained unbiblical antiquity by declaring that the strata belonged to a world before the Hexameron, a world which had been destroyed, and succeeded by the new creation. Less objectionable was the 'concordist theory,' which interprets the 'six days' as so many periods of creative activity. But Reusch himself gave preference to the 'ideal theory,' the supporters whereof (diligently adapting themselves to the progress of science) hold that the six days are not to be understood as consecutive periods at all but merely as six phases of the Creator's work. By the exercise of watchfulness and dexterity, Peak managed for the most part to avoid expression of definite opinions. His attitude was that of a reverent (not yet reverend student. Mr. Warricombe

was less guarded, and sometimes allowed himself to profess that he saw nothing but vain ingenuity in Reusch's argument: as, for example, where the theologian, convinced that the patriarchs did really live to an abnormal age, suggests that man's life was subsequently shortened in order that 'sin might not flourish with such exuberance.' This passage caused Martin to smile.

'It won't do, it won't do,' he said quietly. 'Far better apply his rationalism here as elsewhere. These are wonderful old stories, not to be understood literally. Nothing depends upon them—nothing essential.'

Thereupon Peak mused anxiously. Not for the first time there occurred to him a thought which suited only too well with his ironic habits of mind. What if this hypocritical comedy were altogether superfluous? What if Mr. Warricombe would have received him no less cordially had he avowed his sincere position and contented himself with guarding against offensiveness? Buckland, it was true, had suffered in his father's esteem on account of his unorthodoxy, but that young man had been too aggressive, too scornful. With prudence, would it not have been possible to win Martin's regard by fortifying the scientific rather than the dogmatic side of his intellect? If so, what a hopeless error had he committed!—But Sidwell! Was she liberal enough to take a personal interest in one who had renounced faith in revelation? He could not decide this question, for of Sidwell he knew much less than of her father. And it was idle to torment himself with such debate of the irreversible.

And, indeed, there seemed much reason for believing that Martin whatever the extent of his secret doubts, was by temperament armed against agnosticism. Distinctly it comforted him to hear the unbelievers assailed—the friends of whom he spoke most heartily were all on the orthodox side; if ever a hint of gentle malice occurred in his conversation, it was when he spoke of a fallacy, a precipitate conclusion, detected in works of science. Probably he was too old to overcome this bias.

His view of the bible appeared to harmonise with that which Peak put forth in one of their dialogues. 'The Scriptures were meant to be literally understood in primitive ages, and spiritually when the growth of science made it possible. Genesis was never intended to teach the facts of natural history; it takes phenomena as they appear to uneducated people, and uses them only for the inculcation of moral lessons; it presents to the childhood of the world a few great elementary truths. And the way in which phenomena are spoken of in the Old Testament is never really incompatible with the facts as we know them nowadays. Take the miracle of the sun standing still, which is supposed to be safe subject of ridicule. Why, it merely means that light was miraculously prolonged; the words used are those which common people would at all times understand.'

(Was it necessary to have admitted the miracle? Godwin asked himself. At all events Mr. Warricombe nodded approvingly. Then the narrative of the creation of man; that's not at all incompatible with his slow development through ages. To teach the scientific fact—if we yet really know it—would have been worse than useless. The story is meant to express that spirit, and not matter, is the source of all existence.

(To Be Continued.)

DON'T BE BALD

Nearly Anyone May Secure a Splendid Growth of Hair.

I have a remedy that has a record of growing hair and curing baldness in 93 out of every 100 cases where used according to directions for a reasonable length of time. That may seem like a strong statement—it is, and I mean it to be, and no one should doubt it until they have put my claims to an actual test.

I am so certain Rexall "93" Hair Tonic will cure dandruff, prevent baldness, stimulate the scalp and hair roots, stop falling hair and grow new hair, that I personally give my positive guarantee to refund every penny paid me for it in every instance where it does not give entire satisfaction to the user.

Rexall "93" Hair Tonic is as pleasant to use as clear spring water. It is delightfully perfumed, and does not grease or gum the hair. Two sizes, 50c. and \$1.00. With my guarantee back of it, you certainly take no risk. Sold only at my store—The Rexall Store. H. W. Mitchell, Phm. B.

LOSSES AT MONTE CARLO.

Not at the Gaming Tables, but From Thieves and Pickpockets.

The extent to which pickpockets carry on their calling at Monte Carlo is shown by the experiences of an Englishwoman, the wife of a prominent member of the British colony in Paris. While playing at the gaming tables in the casino she found suddenly that somebody had opened her bag and stolen her purse, which contained several hundred dollars. In a letter to her husband she writes: "It was about 5 o'clock when they entered my complaint and a description of the purse in the ledger. I returned after 7 o'clock, and the clerk had to turn back three pages to find the entry."

"Surely," I said, "these are not all losses that have occurred since I was here two hours ago?"

"Yes, madame, they are," he replied, "and it's the same every day." The writer thinks that "losses" is scarcely the right word to use. She relates the case of another Englishwoman who was robbed of \$1,000 in the same way as herself. The victim actually caught a woman's hand in her bag and she held on until some detectives arrived, but the thief had already passed the notes to an accomplice, and she was allowed to go.—Cor. New York Sun.

In the last three months 1910 the steam and electric railways of the United States killed 2,880 persons and injured 41,352. Of those killed 248 met death in "train accidents" and 3,729 were injured. In "industrial accidents," that is accidents in which no moving train or locomotive was concerned, there were 107 killed and 20,394 injured.

GOOD THING TO DO.—Do your work as well as you can, "right up to the handle." Do it lovingly, like a consecrated man. Make your work a prayer!

Use your vote and your influence to help the world along towards better things. Fight for men! Let money and property look out for themselves. Fight for men—for men, women and children!

Love your folks! Love is the only reality. If you do good work it will be because you love it. If you vote for human good, it will be because you love humanity. But anyhow, love your folks—the little wife, the babies, the old mother and father—anybody that belongs to you. And love 'em good and hard!

NOTICE TO CREDITORS

IN THE MATTER OF the estate of EMILY WARMINGTON, late of the Town of Post Hope in the County of Durham, Widow, deceased.

NOTICE is hereby given pursuant to "The Revised Statutes of Ontario" 1897, chapter 129, that all creditors and others having claims against the estate of the said Emily Warrington, who died on or about the Twelfth day of February, 1911, are required on or before the First day of June, 1911, to send by post prepaid or deliver to Henry White of the Town of Port Hope, Solicitor for George Warrington of the City of Toronto in the County of York, Merchant, Administrator of the estate of the said Emily Warrington, deceased, their Christian and surnames, addresses and descriptions the full particulars of their claims, the statement of their accounts and the nature of the securities, if any, held by them.

And further take notice that after such last mentioned date the said administrator will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which he shall then have notice, and that the said administrator will not be liable for the said assets or any part thereof to any person or persons of whose claims notice shall not have been received by him at the time of such distribution.

Dated the First day of May, 1911. HENRY WHITE, Port Hope, Ont. Solicitor for said Administrator.

MUST CONFER AGAIN

Spanish Statesmen Predict Another Algerias Pact.

GERMANY MAKES TROUBLE

Officials at Madrid Say the Germans Are Fomenting Feeling Against France Over the Moroccan Situation — Relief Column Is Now About Sixty Miles From Fez and Are Moving Very Slowly.

Madrid, May 19.—Statesmen here are talking of the necessity of another international conference to settle the Moroccan affair, which is becoming more disturbing and more confused each week. Diplomatic observers believe that Germany is using her influence to add to the international feeling regarding French action in Morocco.

The Spanish Ministers are not satisfied, it is understood, with what it seems the result is likely to secure. Not Necessary, Says France. Paris, May 19.—It was denied at the French Foreign Office yesterday that any thought existed there of the necessity arising for another Algerias conference. The French plans in Morocco, it was stated, include nothing outside of the Algerias engagement. Consequently all the suggestions concerning another international conference to consider the Moroccan situation were untimely and untrue.

Within Sixty Miles of Fez. Tangier, Morocco, May 19.—Wireless telegraph messages received here yesterday from the French column to Fez for the purpose of relieving the besieged capital indicate that Col. Brulard, in command of the troops, bivouacked Wednesday night within about 60 miles of Fez.

Additional French forces form an intermittent chain behind Col. Brulard and within easy reach of El Knitro. Of the three principal French commands, Col Brulard has the advance position. Major Simon holds a force holding an intermediate post, while Col. Gouraud is keeping up communication with the French base.

Gen. Moirer, commander-in-chief of the French forces in Morocco, has joined the expedition and is personally directing the advance. It is understood that he alone knows the wishes of the French Cabinet Ministers as to what shall be done when the column reaches Fez. The actual date of its arrival at the southern capital is uncertain, since its progress is precautionary and also slow because of the summer heat. Impense trains of animals are accompanying the troops, the column including 2,000 camels and several thousand mules, largely brought from Algeria.

Moorish horsemen are always in sight observing the French movements and slight skirmishes occur now and then between the tribesmen and the distant patrols.

Sent to Asylum. Brockville, May 19.—William Albert Vandusen, the hermit, taken into custody after a stiff fight at his island home near Long Point, Township of Lansdowne, was given a hearing yesterday. Several witnesses were on hand, but on the evidence of two doctors, who made an examination, Vandusen was committed to the asylum.

MARKET REPORTS.

Liverpool Wheat Futures Close Higher, Chicago Lower—Live Stock —Latest Quotations.

CHICAGO, May 18.—A fall in the barometer helped carry down the price of wheat to-day. The suggestion of wet weather was too strong to be resisted by dealers who had a handsome profit in sight. Accordingly, selling became somewhat general and the close was 1/4 to 3/4 lower than last night. Corn 1/4 to 3/4 to 1/2 up, and provisions at a decline of 5c to 7 1/2c.

The Liverpool market closed to-day 1/4 to 3/4 higher than yesterday, on wheat and 1/2 higher on corn. Buda Pest wheat closed 1/4 higher. Hamburg unchanged to lower. Antwerp, Berlin and Havre unchanged.

NO WONDER HE IS THANKFUL

Owes It All To GIN PILLS

If you want to find out what GIN PILLS will do in Kidney and Bladder Troubles, just drop a line to Mr. Fraser. He will tell you. He knows. For years, he was tortured with Pain in the Back, Headaches, Indigestion and Biliousness, that usually accompany any Kidney Trouble.

"What size do you wish, sir?" asked the salesgirl. The prospective bridegroom blushed and stammered. Really, I don't know." Then a thought struck him. "Lend me your tape measure," he said. The measure was handed to him and he laid it on the inside of his arm from shoulder to wrist. "Twenty inches," please," he said, with decision.

CHICAGO SERVANT GIRLS.—Hereafter, in Chicago the domestic servant will be engaged just the same as a girl working in a factory. She will come at a stated hour and go home at a stated hour. Why not? And then, again, why? To be sure there is no reason, in the nature of things, why a domestic should sleep in the house of her employer if she prefers to sleep in her own home, and we are sure, most parties will welcome the change. Why too should a girl, doing home work, not work a certain number of hours per day and be paid by the hour just as a girl in a factory does—that is, if it is feasible? The point is, is it feasible? What do the Kingston woman think? And what do the girls themselves think?—Kingston Standard.

TRADE WITH ORIENT

B. C. Member Assails Japanese Treaty Measure.

AGAINST IMMIGRATION, TOO

In Reply to Martin Burrell, Hon. Mr. Fielding Says Commercial Relations With Japan Have Developed Very Slowly But as Regards Immigrants Island Country Was Keeping Well to Agreement.

Ottawa, May 19.—That Canada should abandon her efforts to develop a large trade with Japan and China, adhere to the new treaty between Great Britain and Japan, and restrict or prohibit Japanese immigration was the policy enunciated by Martin Burrell, of Yale-Cariboo, in the Commons yesterday, when Hon. W. S. Fielding moved the House into committee to consider the resolution extending for two years the existing trade agreement with Japan.

Mr. Burrell declared that Oriental trade was a chimera. During the last three years Canada exported less to Japan than during the preceding three years. It was expected at one time that Canadian wheat would find a large market in Japan, but, owing to the heavy tariff maintained by Japan, Canada's exports of wheat to that country during the past three years was to the value of only \$23,000. It would not be of any commercial advantage for Canada to adhere to the new treaty, Mr. Burrell said in conclusion, but because we could keep out oriental immigration and have the backing of the British navy.

Mr. Fielding, by way of reply, read the letter he addressed to the Japanese consul-general, setting forth the reasons of Canada's Ministers for desiring to continue the present arrangement for two years, as set forth in a Parliamentary return made public on Wednesday.

While admitting that trade with the Orient had not developed as rapidly as expected, he said Canada did not desire to be worse off in regard to Japan than other nations, and for that reason it was proposed to continue in the favored nation class. As to immigration he pointed out that our arrangement with Japan was not by treaty. The Japanese Government had faithfully lived up to its promise to restrict immigration to Canada, with the result that only 1,200 Japanese had come in during the last three years. Therefore it was the desire and the intention of the Government to maintain the present agreement governing immigration. If this were done there would be no possibility of further unpleasant incidents on the Pacific coast.

George H. Cowan (Vancouver), discussed the question of emigration from Japan. He argued that, under the arrangement entered into, the power to restrict the immigration from Japan to Canada was in the hands entirely of the Japanese Government. Canada had nothing to do with the matter. The vice of the treaty, he said, was that it gave a preference to Japanese immigrants over the immigrants from every other country. The arrangement was over and above the Immigration Act. Under the act there were restrictions on English, Scottish and Irish immigrants, but under the arrangement there was none on immigrants from Japan. He declared there was no necessity for the making of a treaty at all at this time. "Why not," he asked, "exercise the power of a self-respecting nation and keep the restriction of our immigration in our own hands?"

The debate on Hon. G. P. Graham's amendments to the Railway Act was resumed in the Commons yesterday morning. It lasted all afternoon and into the evening. It was a fight on behalf of the farmer. The clause prescribing new conditions in regard to the killing of stock by railways, and which provides that railways are responsible for animals slaughtered, unless the farmer leaves his gates open, was strongly opposed by A. E. Lancaster, Arthur Meighen and other members of the Opposition, who argued that the striking out of the provision fixing onus of proof on the railways would leave the farmer in a worse position than he is to-day. Mr. Lancaster said that it would be better to allow the law to stand as it is.

Much Building Tied Up.

Kingston, May 19.—The building trades are making a strong effort to have the strike of the masons, their helpers and the stonecutters settled. They have asked that the difficulty be submitted to arbitration. If the strike is not soon settled it will have a very serious effect, as other trades will be forced to quit work as well. Work on the following buildings is tied up: Addition to postoffice, new Bank of Commerce, metallurgy building of Queen's, addition to House of Providence, Royal Military College dormitories.

Found Body In River.

Niagara Falls, Ont., May 19.—Geo. Clark yesterday found the body of an unidentified man floating in the river near Queenston. The body is that of a man about forty-five years old, five feet nine inches in height and stoutly built. It had evidently been in water about three months and had but little clothing on. A ring found on the ring finger of the left hand bore the inscription "Hustler John Fay, April twenty-fifth, nineteen two." The ring was such as is worn by organizers of the Woodmen of the World.

Springhill Strike Settled.

Montreal, May 19.—The Springhill coal strike, which has been on for 22 months, is practically at an end, the men making an unconditional surrender, accepting the cut rate as well as dropping the claim for recognition of the U.M.W.A. They ask, however, that there shall be no discrimination shown by the Dominion Coal Co., compared with those who have not been on strike.

Children Cry FOR FLETCHER'S CASTORIA

MAKES AMENDMENT.

Senate Committee Refuses to Admit Pulp and Paper Free.

Washington, May 19.—The Senate will refuse to concede immediate free entrance from Canada pulp and paper from the unrestricted lands, as proposed by the amendment of the House of Representatives, and with this and a few other minor changes it looks as if the Senate Finance Committee would report the reciprocity bill next week. The amendment to the paper clause, which will make free trade in paper an event of the indefinite future, was proposed by Senator Root of New York yesterday, and at once caused a flutter in the committee. The manner in which it was received suggested that it had hearty support there, and subsequent inquiry from several Senators showed that it seems predestined to adoption. Paper manufacturers present also shared this confidence.

The effect of making an amendment to the bill is taken to mean, even by members of the committee opposed to reciprocity, that the bill as amended will be favorably reported. Senator Gallinger said as much yesterday afternoon, while Senator Smoot said in an interview that it was proposed to add this amendment and a few other slight ones, which, he said were necessary to make the bill conform to the agreement with the Canadian Ministers, and then report the bill, probably about a week from Saturday.

LEAVES MONEY TO POOR.

Gustav Meurling's Estate Amounts to \$118,500.

Montreal, May 19.—"I will bequeath all the moneys realized on my properties in France and Germany, England and America to the mayor and corporation of the City of Montreal, to be employed by them for such charitable or other purposes for the benefit of such inhabitants of the said City of Montreal as the mayor and corporation shall in their absolute discretion think fit."

Such are the terms of the last will and testament, dated Oct. 14, 1910, of Gustav Meurling, a typewritten copy of which will be received by Mayor Guerin yesterday from Messrs. Duncan and Gibson, lawyers, of 21 Leadenhall street, the English executors of the estate of the late Mr. Meurling, as far as his English properties are concerned.

In the accompanying letter the lawyers inform the mayor that the exact value of the deceased's estate in England amounts to \$118,500.

"We have not yet received any particulars of the deceased's property in France, but we will let you know all details as soon as the particulars are to hand," add the lawyers.

Nothing is said of the properties in Germany and America beyond their bare mention in the deceased's will.

Found Blind Pig.

Chatham, Ont., May 19.—License Inspector Thomas M. French, assisted by Officers Henry Darr and James McGregor, raided the house occupied by E. Termosta, a Belgian, at 33 Forsyth street yesterday morning and found it to be a "blind pig." In the back shed of the place they found a number of empty and two full beer cases. In an ice box in the house and in a boiler they discovered 20 bottles of beer on ice. There were a woman and a man in the house at the time, the former being Termosta's wife and the latter a man named Beaupre, who boarded at the place. The house at 33 Forsyth street is reputed to be a hangout for Belgians, and some complaints were entered against it. Six Belgians have been boarding there. Charges have been laid.

More Money Growing Fruit.

Cornwall, May 19.—Farmers in this part of Ontario are waking up to the fact that there is more money in the growing of fruit than in the dairy business, to which most of them have devoted nearly all their attention in recent years. D. A. McIntosh of Harrison set his neighborhood a good example last week by setting out 325 fruit trees, 500 of which are McIntosh Red, Mann, Monroe and Ben Davis apples, and 25 Montmorency large cherries. The trees have been planted in rich well-drained soil and in a few years Mr. McIntosh will have a wealth producing orchard. The demonstrations of fruit culture carried on by representatives of the Department of Agriculture in this district is having good results in causing farmers to pay more attention to their orchards, which had been neglected.

Servant Burned to Death.

Ottawa, May 19.—The house of Hector Chauvin, solicitor, of Hull, and residing on Rideau street, Ottawa, was burned yesterday afternoon. Katie O'Rourke, aged 35, a servant, was burned to death. Her clothes caught fire at a gas stove and she rushed upstairs to the bath room and thus set fire to the residence. The inside of the house, with all the furniture, was burned; \$6,000 damage was done. An inquest will be held on the victim.

Motor Apparatus For Montreal.

Montreal, May 19.—Chief Tremblay is planning to further improve the fire-fighting machinery of the city by the adoption of motor-driven engines, ladder trucks and chemical wagons. The first step in his plan is to put motor propelled apparatus in number twenty station, fire headquarters. It is Chief Tremblay's intention to lay the matter before the Board of Control very shortly.

Saving Up For the Big Show.

Ottawa, May 19.—Ottawa's Board of Control would not, yesterday afternoon, grant \$1,200 to celebrate the coronation locally. They considered it better to await the arrival of the Duke of Connaught and spend the money available on a royal welcome.

American Alumni at Falls.

Niagara Falls, Ont., May 19.—About eighty members of the Alumni Association of the American college in Rome, lunched at the Clifton Hotel yesterday, when the house was reopened for the season.

A VERY GOOD STEP

Haldane Comments on the Reciprocity Agreement.

LORDS CRITICIZE THE PACT

Tory Noblemen In British Upper Chamber Assail the Government For Not Taking Action In Matter of Canadian Tariff Revision—Viscount Haldane Says It Will Improve British Trade.

London, May 19.—The Government was sharply criticized by the Earl of Selborne in the House of Lords last evening for what he termed "Their extraordinary supineness in failing to safeguard the interests of the United Kingdom in the American-Canadian reciprocity agreement." The earl referred to President Taft's "very remarkable speech," and declared that when Mr. Taft said the annexation talk was bosh all accepted the President's word; nevertheless the agreement formed a precedent capable of very large extensions. It was the first time in the history of the Empire that one part had obtained better terms from a foreign country, than had the United Kingdom, and the step between receiving and giving better terms, the earl continued, they might come to think that it was natural to give foreign countries better terms than they gave the United Kingdom or the other dominions of the Empire.

Ratification of the agreement, the earl said in conclusion, would place this country in a position of extraordinary difficulty.

Baron Lucas, Parliamentary Under Secretary to the War Office, replying on behalf of the Government, declared that the Earl of Selborne greatly over-estimated the damage to the trade of the United Kingdom and the difficulties that might arise as a result of the reciprocity agreement. Canada was perfectly within her statutory rights, and the Government could not interfere. The United Kingdom, the baron said, could never offer Canada the same advantages as could the United States. Canada and the United States were complementary to one another in a degree to which Canada and Great Britain never could be. If Canada and the United States wanted a reciprocity agreement this country could not prevent it. Great Britain must give Canada a fair field for promoting her own prosperity in whatever way she thought best, and it was on these lines, Baron Lucas concluded, that the Government was watching the reciprocity negotiations now going on.

War Secretary Haldane, who recently was elevated to the peerage, said that it was the policy of the Government to give the people of Canada every facility to do the best they could for themselves. The Government held that it was not to the disadvantage of the United Kingdom that Canada should develop trade relations with the United States.

"We hold," continued the Secretary, "that Canada, with a great trade of this kind, cannot fail to be a more prosperous Canada, affording a better market for our goods and able to do more trade with ourselves. Therefore, from every point of view we look upon the step she is taking as probably a very good step in our interest, as well as in the interests of Canada. It is not for us to intermeddle in her policy. We do not think it a good thing to attempt to guide or influence the policy of our great dominions in matters of trade. We are free traders, and we intend to remain free traders."

Speakers for Borden Tour.

Ottawa, May 19.—The speakers who will accompany Mr. R. L. Borden on his political tour of the west are: Andrew Broder of Dundas, the chief agricultural expert of the Conservative party; Dr. Roche of Marquette, the leading Manitoba Conservative in the House; and Arthur S. Meighen of Portage la Prairie, a youngster who has already distinguished himself as a Parliamentarian of a high order. It is probable that the party will be joined by one of the leading Quebec Conservative orators.

Besides those mentioned, Mr. Borden will be assisted in Manitoba by W. H. Sharpe, W. D. Staples, Glen Campbell, G. H. Bradbury, Dr. Schaffner and Alex. Haggart.

Investigation Falls Flat.

Kingston, May 19.—The investigation into alleged irregularities on the part of the property committee of the Board of Education have come to a sudden halt. A special committee has been endeavoring to secure evidence, but so far none has been secured. The committee placed an advertisement in the press asking for information, but with no result. The entire affair is now looked upon as street gossip.

The investigation was brought on when Trustee Wallace alleged that he had been told that a member of the board had been offered \$100 for his vote and influence for the purchase of certain property for a school site.

Killed Wife and Self.

London, Ont., May 19.—Nathaniel Self, aged 45, shot and fatally wounded himself and wife at her home, 242 King street, at 8 o'clock yesterday morning because she refused to come back and live with him.

Robbed Freight Cars.

Niagara Falls, Ont., May 19.—Chas. Hill and Frank Garner, were yesterday sentenced by Magistrate Fraser to six months imprisonment in the Central Prison, for robbing Michigan Central freight cars.

Will License Cigarette Vendors.

Iroquois, May 19.—The village council has decided to pass a bylaw prohibiting the sale of cigarettes after June 1, except by licensed persons. The license fee was placed at \$25 per annum.

Children Cry FOR FLETCHER'S CASTORIA

ALL-RED CABLE.

Resolution Commending Idea Passed by Royal Society.

Ottawa, May 19.—Officers were elected at the concluding session of the Royal Society in the Carnegie Library yesterday afternoon and a number of resolutions passed; one, moved by Sir Sandford Fleming, advocated the all-red system of state-owned cables.

The new officers of the society are as follows: President, Dr. W. F. King; vice-president, Dr. W. D. Lesueur; honorary secretary, Duncan Campbell Scott; honorary treasurer, Lawrence M. Lambe.

A memorandum prepared by Sir Sandford Fleming, approving of an imperial system of state-owned cables on British territory and recommending an alternative route from Australia through the Indian Ocean, instead of depending on one line, was adopted and will be issued in the form of pamphlets to be sent to every member of the Imperial Conference. In the report of the section on English literature was included a suggestion that the Minister of Mines be asked for permission to establish the library of the Royal Society in the new Victoria Museum. A motion for the establishment of a Canadian National Library was also moved, and passed.

A resolution of regret was passed at the termination of office of Earl Grey, and another at the retirement from the Royal Society of John Reade of Montreal, a well-known newspaper man.

BRIEFS FROM THE WIRES.

Galt Y.M.C.A. raised \$769,548 in three days.

The Anti-Tuberculosis Association, meeting at London, elected officers, and chose Toronto as the place for the next meeting.

Fire yesterday in Kansas City Stock Yards destroyed sheep pens, covering about a block, and 1,000 sheep, and destroyed two mule barns.

Yesterday the \$10,000 mark was passed in the Stratford Y.M.C.A. campaign to raise \$13,000 to lift the mortgage and renovate the building.

Rev. W. S. Bradford, in opposing church union at the northern Methodist district meeting at Montreal, severely criticized Presbyterians and Congregationalists.

Forest fires are raging on a section of timber limit owned by the Guelph Patent Cask Co., situated in the vicinity of Little Quebec, about two miles from La Patrie Village.

Hon. Frank Oliver has been cleared of one of the allegations made against him, it being shown that the transfer of the Manitoba & Southeastern land grant was made on the advice of the Department officials.

The Canadian artillery team is going to England to compete against the Royal Artillery team in August. The team will consist of a commandant, seven officers and forty non-commissioned officer and men.

The outlook for a prolific crop of apples in Lambton County is not promising. The plum and peach trees are heavily laden with bloom, but it is stated by fruit growers that the recent frosts have destroyed the cherry crop.

A mistake on the part of James MacLlwin, a farmer of Goderich Township, caused his untimely death on Wednesday night. About a week ago MacLlwin drank a mixture of some Gillet's lye and other material in mistake for buttermilk.

Ottawa Fabricists of Ottawa was run over on the Grand Trunk Railway tracks while taking a short cut from work, and died last night. He lay on the side of the railway all Wednesday night unnoticed, with both legs cut off and died from loss of blood.

Strathcona Offers \$10,000 to Y.M.C.A.

Brantford, May 19.—The Y.M.C.A. officers were surprised and elated over the receipt of a message yesterday from Lord Strathcona, stating that when Brantford has raised \$90,000 for the new Y.M.C.A. building he would gladly contribute \$10,000 more. The campaign closed last week and Brantford raised \$117,000, but is likely the contribution will be accepted. Lord Strathcona has already donated \$25,000 each to Winnipeg and Vancouver, \$10,000 to Halifax and \$5,000 to Guelph.

The announcement was made here yesterday of the resignation of J. H. Crocker, general secretary of the Y.M.C.A. in this city. Through the efforts of the international committee Mr. Crocker has been induced to take up work in Shanghai, China, and will leave next September. He has just closed a most successful two years in Brantford, having been formerly physical director at Toronto. He recently refused secretaryships at Montreal and Kansas City.

Cornwall High School.

Cornwall, May 19.—The Cornwall High School board has re-engaged the following teachers: H. B. Petyler, principal, at a salary of \$1,650 per annum; James Nugent, \$1,300; A. F. Birchard, \$1,200; A. D. Norris, \$1,125; and Miss Rose N. Healy \$1,125. J. C. Burns of St. Mary's, Ont., has been engaged as teacher of classics, at \$1,400; and H. V. Pickering of Guelph, as teacher of ancient and moderns, at \$1,300. One position remains yet to be filled. The retiring teachers are: Miss Morden of Lundy's Lane, Ont.; Miss McKeacher and Mr. Hocking.

Tried to Kill Hospital Attendants.

Montreal, May 19.—Swinging an axe about his head, Edward Welsh yesterday threatened to kill the Royal Victoria Hospital attendants who had come with the ambulance to remove his aged aunt, who lay seriously ill at her home, 442 West Lagache street. Welsh has been remanded to jail for eight days for examination. It is believed he is insane.

Dismissed the Appeal.

Montreal, May 19.—A cable yesterday from London states that the Privy Council has dismissed the appeal of the Drummond Mines and the Montreal Trust Co., maintaining the petition of Wm. Marshall and the Grey-shiding Development Co. Marshall is therefore definitely confirmed in the ownership of the Sterling Mines.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. DISTRICT MEETING.—The annual district meeting of the Methodist church was held in the town of Cobourg on Thursday, 18th inst. Rev. W. G. Clarke and Mr. T. Wickett represented the Port Hope Methodists. Among the questions considered was that of the union of the Presbyterian, Congregationalist and Methodist churches, which on vote resulted by a large majority in favor of union on the proposed basis. The action of this district will be taken up with the reports from other districts when the Conference convenes in our town on the first of June. The lay delegation from Port Hope consists of Messrs. T. Wickett and H. Fulford

STONE THROWING AGAIN.—The large, plate glass window facing Ontario Street, in the store of Messrs. John Wickett and Son was broken last evening between six and seven o'clock. The stone which did the damage was found lying on the sidewalk outside, it must have been thrown with great force, for splinters of the glass were thrown about six feet into the show window. This is the fourth time this glass has been broken within two years, and this was insured. An example should be made of the boys who will throw stones whether damage results from their acts or not, for the practise should be stopped.

Our Maple Syrup Has Arrived
