CONTRACTS GIVEN FOR C. N. R. LINE

New Road from Toronto to Ottawa to be Finished in Year

Toronto Globe

Sir Donald Mann announced to The Globe yesterday that the contracts had been awarded for the completion of the Toronto-Ottawa line of the Canadian Northern Railway. The successful tenderers are: Messrs. J. P. Mullarkey, Montreal; A. Sinclair and Ewan Mackenzie, Toronto.

"When will the line be completed?" Sir Donald Mann was asked. "In one year" was the terse reply. The line will be 250 miles in extent and the cost will mount up in the millions.

This marks another forward step in the extension of the great Canadian Northern system of railways.

The Toronto-Ottawa line was commenced in the autumn of 1909, and except the perfection of some of the ballasting and grading, and the completion of the bridge across the Moira River at Belleville, this section is ready for operation to that city. The first passenger train will be in operation some time this summer, probably before the opening of the Toronto exhibition, although no definite time has yet been announced as set by the management.

The Toronto-Ottawa line of the Canadian Northern will be a fast freight and passenger line, and it will afford railway communication to several new sections of Eastern Ontario. In no part will the grade exceed four-tenths of one per cent.

ANCIENT ORDER OF FORESTERS

The members of the Ancient Order of Foresters No. 7682 are earnestly requested to attend a special meeting on Sunday evening next, May 21st, at the lodge room at 6.15 for the purpose of attending Divine service at the Methodist church, when the Rev. W. G. Clarke will deliver a sermon suitable to the occasion. A large attendance is very desirable. S. YEO, T. R. POMEROY, Chief Ranger. Sec'y.

FOR SALE.

A RECORD MODEL WOOD PUMP WITH logs, in working order, good as new. Enquire at the GUIDE OFFICE.

BLACK MINORCAS; LARGEST STRAIN; 11 eggs for \$1.00. Parred rocks 13 for 60c. On to May 24. FRED OKE, Box 150, Port Hope

THAT DESIRABLE 6 ROOMED HOUSE ON North st., now occupied by J. J. Morgan. Modern conveniences, hot water heating, electric light, hot and cold water also soft water. Apply to THOS. LONG & SON, or W. E. MCGIBBON, March 21 1/2. 2608 Graham st., Victoria, B. C.

TWO BLAKE (WALL) TELEPHONES IN Mr. E. H. CHISHOLM. Enquire at THE GUIDE OFFICE.

2 DWELLINGS: ONE ON THE WEST-side of King street, just south of the window, and the other is the second house north of Ward street on the west side of Hope street, Port Hope. For particulars apply to D. H. CHISHOLM, My 9 1/2 Barrister, Port Hope, Ont.

13 B. QUICK FOCUS KODAK 11351. Sole leather case for same, kodak tank developer one 16 ounce graduate, one portrait attachment, two 4 1/2 trays, one 7 1/2 trimming board, 4 1/2 printing frame. A bargain, cheap. Apply at My 17 1/2 GUIDE OFFICE.

a mile, while in many sections the grade will be even less than this. Thus it will permit the haulage of maximum loads with the minimum of motive power.

Mr. A. Sinclair will complete the section between Toronto and Belleville. Mr. Mackenzie will perform the grading and timber work on the twenty-mile section between the 180th mile post to the 200th mile post. Mr. Mullarkey will construct the rest of the road between the 164th and the 180th mile posts, and between the 200th and the 250th mile posts. He will also do the track laying and ballasting on Mr. Mackenzie's section.

Mr. Mullarkey in all will build 66 miles. His portion of the road starts at Sydenham.

The contract of Mr. Mullarkey covers the grading, fencing, track-laying and ballasting.

Work will be put under way on these contracts at once.

From Belleville to Sydenham the line will follow the Bay of Quinte. From the latter point it runs north with a deflection of a few points to the east in almost a straight line to the capital. The most important town through which it will pass is Smith's Falls. It will cross the Westport & Brockport Railway at Portland Station, the Rideau Canal at Chaffey's Falls, and the Canadian Pacific Railway at Smith's Falls.

The country which will be tapped by this railway between Sydenham and Ottawa was described by a person familiar with its topography as being practically level and as being of general excellence for agriculture.

Between Smith's Falls and Sydenham are a hundred minor lakes, and the country is full of attractions for tourists.

It is understood that the Canadian Northern Railway has completed the purchase of the entire right of way.

The above appears to us to mean that Mr. Angus Sinclair will finish what he has now nearly complete, but does not get a look in at the new sections. Mr. J. P. Mullarkey will have about 16 miles from Sydenham east, Ewan Mackenzie about 20 miles adjoining eastward and from the end of that section to Ottawa Mr. Mullarkey has secured.

Double tracking on the C.P.R. from Smith's Falls to Bathurst will be finished this summer. Messrs. Campbell and Lattimore have secured the concrete work on this section of about 21 miles.

It is rumored that the C.P.R. will not get busy on construction work from Bathurst to Toronto through to Port Hope and lake front towns this summer. Location work and right of way is to proceed right along, we understand. Meanwhile there will be considerable speculation all along the line as to whose property will be hurt, or required or benefitted by the C.P.R. new line.

The Tip Should Go.

There is a new outbreak against the tips on the railways, especially in the Pullman service. The Pullman company is a million dollar concern, and own 5,000 cars, which in their lifetime make enough money to pay back the entire cost of construction and the cost of three more cars. The Interstate Commerce Commission in an appeal to it, cut down the rates of upper berths, but left untouched the rates of the lower berths. It paid no attention to the porters, who are paid the scanty wage of \$25 per month, and must supplement their income by tips.—Kingston Whig.

DR. ISLAND SOLD SECRET

For Economic Treatment of Low Grade Ore—Receives Seven Million Dollars

The Island Smelting and Refining Company of Toronto, which sprang into existence a few years ago through the researches of Dr. J. S. Island in the back room of his dental office, has been sold to Sir Donald Mann, of Mackenzie and Mann, for the sum of seven million dollars.

Dr. Island confirmed the report this morning at his office. Under the conditions of transfer of the secret process for which Dr. Island searched for years, together with all apparatus, and the services of the inventor, the holders of stock in the Island Smelting and Refining Company will receive approximately seven million dollars for their holdings, which will represent an enormous profit on their original investment. Payment will be in stock, Sir Donald Mann and his associates retiring about three millions.

The story of the transaction contains several elements of peculiar interest, inasmuch as the inventor was for many years a practising dentist in Toronto, and during spare hours patiently developed his theories of the profitable extraction of precious metals from low grade ores. Upon that goal, which had brought failure and financial ruin to many predecessors, he concentrated his attention and success came at last. To-day, through the negotiations for the new company he finds himself several times a millionaire.

The process by which the former dentist has overcome one of the greatest problems of the mining world, namely, the successful and profitable extraction of valuable metals from low grade ores which have formerly been cast away upon the "dump" or left unmined in the earth, was described guardedly by Dr. Island to the News.

"It is not an electrical process," said he, "but purely chemical. There are no refractory metals as far as the scope of my invention is concerned. It consists of the application of hydro-chloric acid and sulphuric acid to ores which converts the mineral salts into soluble salts." While the above revelation will hardly enable an outsider to turn his backyard into a river of gold, it is nevertheless the basis of a ten million dollar secret.

It is not regarded as all surprising that the eyes of Sir Donald Mann should have been turned ed covetously upon such a practical and precious idea as was represented in the discovery. Of recent years the Mackenzie-Mann money has gone extensively into mining properties, particularly iron mines west and north of Lake Superior and in other localities which branch lines from the Canadian Northern system could reach.

The application of the process to the ores of such properties is understood to be worth untold fortunes, as would likewise be the exclusive control of the scheme in Canada, and the rights for its sale in other countries. A highly important factor in inducing the present large price for Dr. Island's holdings was the fact that the patents have been

secured upon it, giving full protection.

About two years ago the Mann interests offered six millions cash for the secret, which was refused. It is understood that in addition to the inventor's share holdings, a large portion of the balance is in the hands of Toronto men, although United States money is also represented. Mr. John Douglas, a well known Canadian mining man is president.

[A number of Port Hoppers are interested in this deal and we understand it will make some of them millionaires.]

Not So Slow.

Those on this side of the Atlantic who imagine that the English are slow and behind the times may be interested to learn that all preparations have been made for the reproduction in the London theaters of the Coronation procession and ceremony by moving picture films on the same evening.

The first outward bound Atlantic liner will also take a supply of films to New York. But, most remarkable of all, will be the transmission of the pictures of the Coronation by wire to Paris, where they will be exhibited to the Parisians a few hours after the King and Queen are crowned.

For some time London audiences have enjoyed moving pictures of the great horse races in England on the evening of the day on which the races were run. But the transmission of pictures by wire is evidence that John Bull is not quite so slow as some of his rivals would make him out to be.

ENTERED THE COMPETITION.—Barrie is to hold a big celebration on Coronation Day, June 22nd, including a band competition. The local band has entered and will likely run an excursion.

and to have learnt everything. My husband says he felt quite rebuked by such a display of vigour!

Even in his discomposure, graver than any that had affected him since his talks with Buckland Warricombe, Peak was able to notice that the Rev. Bruno had not made a wholly favourable impression upon the Lilywhites. There was an amiable causticity in that mention of his 'display of vigour,' such as did not often characterise Mrs. Lilywhite's comments. Finding that the vicar would be away till evening Godwin stayed for only a quarter of an hour, and when he had escaped it irritated and alarmed him to reflect how unusual his behaviour must have appeared to the good lady.

(TO BE CONTINUED.)

OBITUARY.

LATE THOMAS W. ELLIOTT.

After patiently suffering with rheumatism for the past three or four years, Mr. Thomas W. Elliott, a pioneer of Morden and district, passed away at 1 o'clock on Wednesday morning, May 10, in his 80th year. The deceased was born in Devonshire, England, and emigrated to Canada with his parents when one year and a half old. Settled in the Township of Hope, where he lived until going to Manitoba. In 1854, he married Rachael Gordon, whose death occurred in 1899. Some twelve years ago, in March, 1886, Mr. Elliott went west with his family, taking up land in the Calf Mountain district. He moved to Morden in 1866, retiring from farming. He has always been a good citizen—was a Liberal in politics and a Presbyterian in religion, being an elder in Knox church, Morden. About eight years ago he married Mary Jener, who now survives him. Besides the widow four sons and two daughters are left to mourn his loss. The children are John G., of Winnipeg; Henry G. and Thomas G., Morden; George, Indian Head, Sask.; Mrs. J. W. Stbbings, Morden; Mrs. W. A. McK. McVicar, Wolseley, Sask. The remains were laid to rest in Hillside Cemetery, Morden, Man., May 11, 1911.

Mr. Elliott will be remembered by many of the old residents of Hope and Port Hope, as he was a gentleman highly respected by all.

Mr. Isaac Cobbedick fell from the top of a 20 ft ladder yesterday morning receiving injuries, just how serious is not yet fully known although we understand the doctor states he has a rib or two broken. Mr. Cobbedick had taken the contract of building a cement foundation and stable under Mr. Colin Staples' barn which is on a steep hill-side and was sawing a large limb from a willow tree that interfered with the raising of the building and when hardly half way through the limb dropped from its weight and swung round knocking the ladder from its bearing. Isaac fell heavily to the ground where he lay unconscious for a time. The accident was witnessed by a number of people, who rendered what assistance they could, and carried him to his home on a stretcher. Mr. Cobbedick retired to Orono from the farm three years ago. We wish him a speedy recovery. — Orono News.

NATURE WILL CURE YOU

Of Kidney Disease, Aided by Father Morriscy's No. 7.

Kidney trouble is one of the most distressing ailments of mankind, and leads to backache and rheumatism. This is because of the importance of the work done by the kidneys,—work which must proceed normally to insure good health. A very large proportion of civilized people have some form of kidney trouble, sometimes without knowing that their malady is of that nature. Many obscure pains can often be traced to diseased kidneys. These organs are the filters of the body. Their function is to strain out of the blood and eliminate through the bladder the worn out tissue and other impurities gathered by the blood in its course. When the kidneys become congested and sluggish, these impurities, including the irritating and poisonous uric acid, are not entirely removed from the blood. The result is that the uric acid is deposited in the joints and tissues, causing the agonies of rheumatism and frequently affecting the liver and other organs. Father Morriscy, the famous priest-physician of Bartibogue, N.B., after much research compounded a remedy which worked hand in hand with Nature. His doctrine, justified by thousands of cures, was that the need is not a patchwork relief, but a treatment that will enable the forces of Nature, working through the kidneys, to accomplish their intended work. His famous prescription, No. 7, assists the kidneys to work vigorously and eliminate the harmful uric acid from the whole system. In the form of tablets, No. 7 is easy to take, and will effect cures where other remedies have failed. Do not trifle with kidney disease, but take No. 7 Tablets, the treatment that has proved so successful with other sufferers. 50c a box, at your druggist's or from Father Morriscy Medicine Co., Ltd., Montreal, Que. 98

A TROUBLESOME MISGIVING

(Continued from Yesterday)

Indeed, our knowledge of the true meaning of the Bible has increased with the growth of science, and naturally that must have been intended from the first. Things which do not concern man's relation to the spiritual have no place in this book. They are not within its province. Such things were discoverable by human reason, and the knowledge which achieves has nothing to do with a divine revelation.

To Godwin it was a grinding of the air, but the listener appeared to think it profitable.

With his clerical friend, Mr. Lilywhite, he rarely touched on matters of religion. The vicar of St. Ethelreda's was a man well suited to support the social dignity of his church. A gentleman before everything he seemed incapable of prying into the state of a parishioner's soul; you saw in him the official representative of a Divinity characterised by well-bred tolerance. He had written a pleasant little book on the by-ways of Devon and Cornwall which brought about his intimacy with the Warricombe household. Peak liked him more the better he knew him, and in the course of the summer they had one or two long walks together conversing exclusively of the things of earth. Mr. Lilywhite troubled himself little about evolution; he spoke of trees and plants, of birds and animals, in a loving spirit like the old simple naturalists. Geology did not come within his sphere.

'I'm very sorry,' he said that I could never care much for it. Don't think I'm afraid of it—not I feel the grandeur of its scope, just as I do in the case of astronomy; but I have never brought myself to study either science. A narrowness of mind, no doubt. I can't go into such remote times and regions. I love the sunlight and the green fields of this little corner of the world—too well, perhaps; yes, perhaps, too well.'

After one of these walks, he remarked to Mrs. Lilywhite: 'It's my impression that Mr. Peak has somehow been misled in his choice of a vocation. I don't think he'll do as a churchman.'

'Why not, Henry?' asked his wife, with gentle concern, for she still spoke of Peak's 'quiet moral force.'

'There's something too restless about him. I doubt whether he has really made up his mind on any subject whatever. Well, it's not easy explain what I feel, but I don't think he will take Orders.'

Calling at the vicarage one afternoon in September, Godwin found Mrs. Lilywhite alone. She started him by saying at once: 'An old acquaintance of yours was with us yesterday, Mr. Peak. Who could that be, I wonder?' He smiled softly, controlling his impulse to show quite another expression. 'You remember Mr. Bruno Chilvars?' 'Oh, yes!' 'There was a constriction in his throat struggling to overcome it he added: 'But I should have thought he had no recollection of me.'

Quite the contrary, I assure you. He is to succeed Mr. Bell of St. Margaret's at Christmas; he was down here only for a day or two, and called upon my husband with a message from an old friend of ours. It appears he used to know the Warricombes, when they lived at Kingsmill, and he had been to see them before visiting us; it was there your name was mentioned to him.'

Godwin had seated himself, and leaned forward, his hands grasping the glove he had drawn off.

We were contemporaries at Whitelaw College,' he observed. 'So we learnt from him. He spoke of you with the greatest interest; he was delighted to hear that you contemplated taking Orders. Of course we knew Mr. Chilvars by reputation, but my husband had no idea that he was coming to Exeter. What an energetic man he is! In a few hours he seemed to have met everyone,

"THE RED MILL."

In the new Henry Blossom and Victor Herbert comic opera, "The Red Mill," which Martin & Emery Company will present at the Cobourg Victoria Opera House on Monday, May 22nd, local theatergoers will witness a musical offering which is undeniably the greatest success New York has produced in recent years.

The scenes of "The Red Mill" are laid in the picturesque and quaint country of Holland of the present day, the atmosphere lending itself to a faithful portrayal of the dykes, canals and the little red mills of the small Dutch Kingdom, with the peculiar costumes of the officials and peasants which are relieved by tourists from America and England.

The story has to do with two venturesome spirits who are 'doing' Europe on their nerve rather than their purse, but who strike a snag in a little Dutch town, where they are caught in the act of leaving the hotel by the window with their board bill unpaid. They are sentenced by the burgomaster (the Mayor) to work out their debt to the innkeeper. One acts as the porter and the other as the waiter. In these disguises they find themselves the harmless victims of extraordinary circumstances, having to assume innumerable disguises before funds arrive from America and they settle their indebtedness. Mr. Blossom has rounded out his interesting story by bringing into the play two young lovers who are so timely helped by the touring pair.

Victor Herbert has also done his share in furnishing a score which consists of some twenty musical numbers, all of which are now being sung or whistled throughout the country. They include Every Day is Ladies' Day with Me, You Never can Tell About a Woman, Go, While the Goin's Good, The Streets of New York, Because You're You, The Isle of our Dreams, and I Want You to Marry Me.

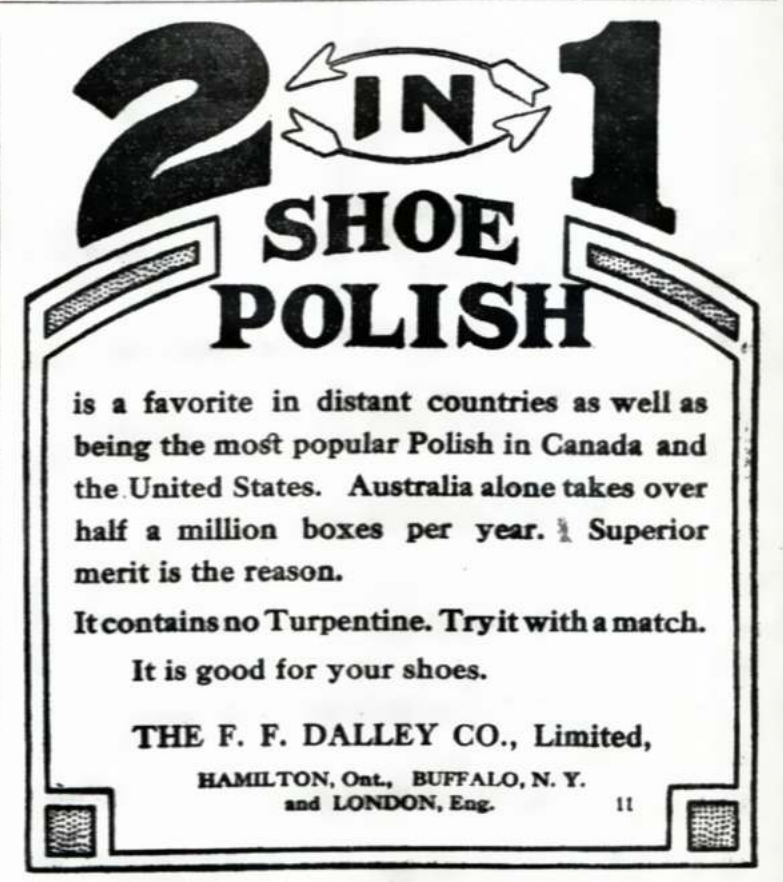

This the same attraction and company that is now playing at the Grand Opera House, Toronto, and comes direct to Cobourg.

A LUMBER COMBINE

U. S. Will Proceed Against Great Group of Companies.

TO RESTRAIN OPERATIONS

Attorney-General Wickersham Puts In Information Against Several Companies and 150 Persons, Charging Them With Keeping Up Prices and Maintaining a Blacklist—Wants Permanent Injunction

New York, May 20.—Sweeping charges of a gigantic conspiracy to maintain high prices, to blacklist concerns not regarded as "proper" trade, and to violate generally the Sherman anti-trust law, are made in a Government suit filed by Attorney-General Wickersham in the U. S. Court here yesterday against the so-called lumber trust. Ten trade organizations and more than 150 individuals are named as defendants in this suit.

The defendants named in the suit, and who are alleged to have conspired among themselves and with the assistance of the National Wholesale Lumber Dealers' Association, have prevented wholesalers from selling directly or indirectly to consumers, are: The Eastern States Retail Lumber Dealers' Association, a New York corporation, with offices at No. 18 Broadway; the New York Lumber Trade Association of New York City; the Building Material Men's Association of Westchester County, New York; the Lumber Dealers' Association of Connecticut; the Massachusetts Retail Lumber Dealers' Association; the Lumber Dealers' Association of Rhode Island; the Retail Lumbermen's Association of Baltimore.

The officers and directors, trustees and members of the above are named as individual defendants as well as the officers and directors and members of the three following voluntary organizations: The New Jersey Lumbermen's Protective Association; the Retail Lumbermen's Association of Philadelphia; the Lumber Exchange of the District of Columbia.

The Government asks for a permanent injunction restraining the defendants from continuing the conspiracy charged.

Briefly the retailers have conspired among themselves to prevent manufacturers and wholesalers from selling lumber direct to the consumer. A consumer for these purposes is held to be a contracting builder, mail order house, farmers' co-operative union, or the citizen who buys a pine board to repair his woodshed.

That hundreds of consumers, some of them the largest industrial corporations in the country, have been compelled by alleged unlawful agreements to buy lumber from retailers at much greater prices than they would have paid to wholesalers.

The wholesalers and retailers in joint conventions and by agreements have classified the consumers into "proper" and "improper" trade and have prepared and exchanged blacklists.

That, although the National Wholesale Lumber Dealers' Association is not named as a defendant in this action, by agreements with it, the Eastern States Retail Lumber Dealers' Association has organized and circulated blacklists which have affected the lumber trade in New York, North Carolina, Kentucky, Penna., Maryland, Michigan, West Virginia, Massachusetts, Tennessee, South Carolina, Virginia, New Jersey, Illinois, Ohio, Wisconsin, Louisiana, Connecticut, Indiana, Florida, Georgia, Missouri, Alabama, Rhode Island, California, Missouri, the District of Columbia, the Canadian provinces of Quebec, Ontario, Nova Scotia and British Columbia.

That as a result of the alleged blacklists wholesalers have been directed not to sell lumber to retail dealers, will have dealt with consumers in wholesale quantities and that wholesalers who have dealt with consumers in retail quantities have been "protected" to the organized retailers who were directed by their organization not to buy lumber from such wholesalers.

That retailers who have sold lumber in wholesale lots or who have competed for business outside their allotted territory have been posted to the traders as "poachers" or "scalpers," and in some instances have been heavily fined or expelled from the organization.

More to Follow.

Washington, May 20.—At the Department of Justice yesterday it was stated that the suit filed in New York against the so-called lumber trust probably would be the first of a series to be instituted wherever similar violations of law are alleged.

Storm in Brockville.

Brockville, May 20.—This section was in the grasp of a violent electrical storm for an hour or so yesterday, accompanied by a heavy down-pour of rain and sleet. Two houses were struck in Brockville and slightly damaged, but the occupants escaped.

From the rural section reports are coming in of much damage wrought. The barns on the farm of John Harzett, near Kempsville, were struck by lightning and totally destroyed. Five cows were burned, besides a quantity of hay and grain. Members of the family had just finished milking and left the cow barn when the bolt descended.

C.P.R. as Tree Planter.

Montreal, May 20.—The latest C.P.R. scheme to be tried out is the planting of millions of young trees along their lines in Western Canada. These trees are to serve the double purpose of taking the place of the present snow fences and of encouraging their settlers to beautify their homes by the planting of shade trees. So far the railway has had great success with their trees, nearly all of them appearing to be in a flourishing condition.

Children Cry FOR FLETCHER'S CASTORIA

FOR SKIN IRRITATION

I Guarantee Relief. Your Money Back if Not Satisfied.

I have an ointment possessing extraordinary power to permanently relieve all forms of eczema, skin eruptions, pimples, blotches, ring-worm, acne, tetter, scaly scalp, hives, all forms of itching and irritation caused by insect bites. Its powers to soothe ulcers, sores and wounds is very pronounced.

I am so positive that Rexall Eczema Ointment is unexcelled for overcoming these ailments that I sell it with my personal promise that it will not cost the user anything unless it in every way gives satisfaction. I exact no promise and in no way obligate the purchaser. You must admit that I could not afford to make such a broad liberal guarantee, except I am certain I could substantiate my claim.

Rexall Eczema Ointment is a grayish white, pleasant smelling, antiseptic, cooling, healing salve that is strongly germicidal. It destroys the germs that penetrate the skin and cause eczema and other tormenting skin ailments. A remedy must do that to be effective, for in no other way can such diseases be overcome.

Rexall Eczema Ointment is ideal for the treatment of skin irritations peculiar to children, for barber's itch, and for sore itching feet.

It is positively the best remedy I know of, and I urge you to try it at my risk. Two sizes, 50c. and \$1.00. The Rexall Store. H. W. Mitchell, Phm. B.

HE CRITICIZES GREY

Senator Power Says Governor-General is Shirking Duty.

SEVERE SAYS CARTWRIGHT

Sir Richard Takes Up Cudgels For His Excellency When Latter Is Condemned For Not Closing Parliament In Person Instead of Sending a Deputy — Weakens Tie Than Binds, Says Power.

Ottawa, May 20.—A sensational episode took place in the Senate yesterday. His Excellency Earl Grey being severely criticized for his alleged slighting of Parliament by sending his deputy, Sir Charles Fitzpatrick, to give royal assent to bills prior to the two months' adjournment. Senator Power led the attack, and he was in some degree supported by Sir Mackenzie Bowell. Sir Richard Cartwright came to the defence of the governor-general, extolling his service to Canada in the high position he holds. "I am a very strong believer in British connections," said Senator Power. "I should very much regret that the present practice of having the Governor-General come from England be discontinued. I am altogether opposed to the idea of our becoming independent and separate from the Mother Country. The connection which now exists is not any too strong, and I would regret if anything should be done which would tend to weaken the silken tie that binds us to the Mother Country. I feel that the fact that the gentleman who represents the crown here apparently is desirous of showing that he is not necessary, and that we can get a chief justice or an associated justice of the Supreme Court who will discharge his most important functions just as well as he does, is really doing a good deal to teach this country that we do not want a Governor-General from England. From that point of view it is to be hoped that future Governors-General will do what was practiced formerly and will, unless absent from the seat of Government, make it a point to do what I consider their duty as one constituent of Parliament."

Sir Richard Cartwright: "My hon. friend is perhaps a little too severe with His Excellency." Senator Power: "I do not wish to be understood as reflecting on His Excellency. I simply think he has made a mistake, and we should enter a protest."

Sir Richard Cartwright: "There is a material difference between an adjournment and prorogation. Unless my memory is entirely at fault I think that in Great Britain the sovereign does as a rule or very frequently delegates the adjournment of the House where such a thing occurs to commissioners equivalent to our deputy governors."

"One thing I can assure the House, that the last thing the Governor-General would desire would be to show any discourtesy to either Houses of Parliament. That I am perfectly certain is entirely removed from his intention or desire."

Control Over Cable Rates. London, May 20.—In the course of a statement in the House of Commons concerning the postoffice appropriations, Postmaster-General Samuel announced that he had arranged to obtain some control over cablegram rates from now on by the insertion of a clause in the licenses of cablegram companies, giving the Government power to protest against excessive rates, and, in cases of dispute, to refer the matter to impartial arbitration.

The cable companies had agreed, the Postmaster-General said, to reduce by 50 per cent. their rates on telegrams, written in plain language, which are liable to delay not exceeding 24 hours.

Children Cry FOR FLETCHER'S CASTORIA

COMMONS ADJOURNS

The Members Will Take a Recess Until July 18th.

BORDEN PASSES ONE ITEM

Opposition Leader and His Colleagues Obstruct Dr. Pugsley's Supply List But When Halifax Improvement Comes Up Mr. Borden Hastens to Agree to It—Postal Salaries Measure Gets Third Reading.

Ottawa, May 20.—After attending in the Senate where Sir Charles Fitzpatrick, the Deputy Governor-General, gave the royal assent to a supply bill for thirty-four and a half million dollars, and all the other bills which had passed their third readings, the members of the House of Commons ceased work shortly before ten o'clock last night. Just before the Speaker left the chair R. L. Borden asked what business would be taken up when the House met on July 18. "Probably reciprocity," was the laconic reply of the Minister of Finance.

The supply bill, which includes five-twelfths of all the items not voted, is made up of main estimates for the current year, totalling over twenty-six millions, supplementary estimates of slightly less than eight millions, and \$350,000 of supplementaries for the previous fiscal year.

At the evening sitting Mr. Lemieux's bill to increase the salaries of postoffice officials was given a third reading. The Minister stated that he expected within a year or two to bring all the outside postal service under the Civil Service Act.

Hon. Mr. Graham introduced his resolutions providing for the lease of various short lines of railway in the Maritime Provinces, by the I.C.R. They were under discussion when the Black Rod summoned the members to the Senate chamber, Hon. H. R. Emmerson, who was the founder of this policy, advocated the inclusion of the lines of the Maritime Coal & Railway Co. and the Cumberland Coal & Railway Co. in the terms of the resolution, pointing that it would not be in the interests of the I.C.R. to have them fall into other hands.

Mr. Emmerson said that this was a business proposition, which should not be treated as a party matter.

In committee of supply Hon. William Pugsley produced a list of 47 items for dredging and public works, which he said it was necessary to put through before adjournment.

R. L. Borden took exception to the proposal. He said that the Minister of Public Works had purposely submitted a list which he knew the Opposition could not accept.

Mr. Pugsley said that if the Opposition refused to pass the items it would be necessary to give orders to have the work stopped.

George H. Perley said that during the early part of the week the House had been discussing matters which were not of urgent importance, including amendment to the Railway Act. The Minister of Public Works, he said, was putting up a bluff. The Opposition did not object to the items, but desired time to discuss them.

Mr. Pugsley said the officials of the Department had informed him that it was essential that these items should be passed, as they covered repairs, necessary dredging, and small works.

Both Dr. Sproule and Mr. Perley declared that the Minister was not sincere in his proposals.

After some further protests by the Opposition members, Mr. Pugsley said that if the Conservatives decided it was not in the public interests he would not press the votes.

Hon. George P. Graham secured the approval of the House for several votes which he described as urgent, including one of \$600,000 for a dock at Halifax.

Mr. Borden gave his approval. He said that increased facilities were necessary because in past seasons there had been much delay owing to the lack of proper dock accommodation.

Mr. Pugsley, to the amusement of the House, said the Opposition leader was quite willing to put through this large vote affecting his own constituency, but declined to allow many items just as urgent to pass.

Mr. Borden said if the Minister of Public Works had adopted the policy of Mr. Graham and submitted only a few items he would have received different treatment. He had, however, asked the House to pass no fewer than 47 items, without consideration.

Laurier at Liverpool.

London, May 20.—(C.A.P. Cable.)—Sir Wilfrid Laurier landed at Liverpool Thursday. The Canadian Premier was met at the landing stage by the lord mayor and accorded a civic welcome. A large crowd had assembled to witness the arrival of the Virginia which was gaily dressed in bunting.

Sir Wilfrid refused to be interviewed on political topics, and remarked that he was truly delighted to be in England once again. The London & Northwestern Railway Co. placed at the Premier's disposal one of the saloon carriages of the royal train, which was decorated with flowers.

Hardie Holds Wrong View.

Kilmarnock, Scotland, May 20.—At a meeting here, presided over by Keir Hardie, Hon. Andrew Fisher, Premier of Australia, voiced his dissent from the chairman's views with regard to naval defence. "If anyone holds the same ideas after looking at a map of the South Pacific ocean," he declared, "I would say that he lacks perspective in his judgment."

Dropped Dead.

Brockville, May 20.—Thursday evening a sudden death took place in the Township of North Crosby. The victim was Mrs. Thos. Bier, who dropped dead. The other members of the family left the house to do the evening milking, and on their return discovered the lifeless body lying on the floor. She was 60 years of age.

Children Cry FOR FLETCHER'S CASTORIA

HONOR TO KAISER.

First State Ball of the Reign Held at Buckingham Palace.

London, May 20.—The first state ball of the reign of King George, the date for which was selected in honor of the visit of the German Emperor and Empress, was held at Buckingham Palace last night. It was an unusually brilliant function.

King George and Emperor William previously had dined together at the palace with the royal family, and afterwards were joined by some thirty additional members of the royal household, who formed into a magnificent procession. The King and Emperor, in German and British uniforms respectively, were preceded by the state officials attired in gorgeous robes, carrying their wands of office, through the whole length of the state apartments to the ball room, where had gathered thousands of guests, including the entire diplomatic corps.

Queen Mary and the Empress Augusta Victoria and all the ladies wore lavish displays of jewelry. Emperor William took as his partner Queen Mary, and King George, the German Empress. The Duke of Connaught and Princess Victoria Louise opened the ball with the "Royal Quadrille." Midnight saw a repetition of the gorgeous procession, this time from the ball room to the supper room.

RESCUES BROTHER.

Twelve-Year-Old Girl Performs Brave Feat.

Ottawa, May 20.—The plucky rescue by a twelve-year-old girl of her baby brother, and the revelation of a dangerous fire trap in the shape of a spike fence erected near a lofty apartment house, were features of a fire on Elgin street yesterday. The fire originated in one of the apartments occupied by Mr. A. R. Shehyn of the civil service, on the third floor, where some children were playing with matches. The family were in the rear, all save the baby and a brother, and by the time they reached the front of the apartment the place was in flames. Simone Shehyn, aged 12 dashed through the burning hall and carried the little one to safety, though a cushion on which it was lying was ablaze. The girl's arms and face were burned. The fire brigade was seriously handicapped by a thirty-foot fence erected by a neighbor to prevent the windows of the place from overlooking his lawn. Removal of the fence will be ordered.

BRIEFS FROM THE WIRES.

Earl Grey paid a long visit to the prison farm during his stay at Guelph yesterday.

President Taft regards the proposed amendments to the reciprocity bill as dangerous.

Thursday evening a two-year-old son of George Moore of Virgil, near Welland, was drowned by falling in an unused well.

Charles Webster, a fourteen-year-old Barnardo Home boy, dropped dead on Thursday while engaged on the farm of Mr. Adam Knister, Middle road, Rochester Township, near Comber.

Alfred J. Assaf, a Syrian, was yesterday presented with the medal of the Royal Humane Association for bravery, in Montreal. Mr. Assaf on Feb. 25, rescued six women and four children from a burning building.

During a sharp electrical storm the barn of Mr. Martin Coughlin, Douro Township, near Peterboro, was struck by lightning. John Cummings, a farm hand, aged eighteen, who was working in the barn, was instantly killed.

The Nottingham, Eng., election petition—an attempt to unseat Captain James A. Morrison, Unionist, who defeated Dudley Stewart Smith, K.C., by 1,470—was yesterday dismissed. The petition alleged 220 charges, including 443 cases of alleged bribery, 74 allegations of treating.

At a largely attended meeting of seamen yesterday Secretary French of the Glasgow Seamen's and Firemen's Union stated that a date for a general strike at all ports had been fixed, but that the union officials had decided to keep the date secret until the eve of the day that the strike was to become effective. It is believed to be May 29.

For Alsace-Lorraine.

Berlin, May 20.—After prolonged bargaining the committee of the Reichstag yesterday adopted the Government's bill providing a constitution for Alsace-Lorraine.

The support of the Socialists was secured by abolishing the proposed plural voting. The original measure provided that the lower Chamber should be made up of members elected by universal suffrage of those twenty-five years old or over, and that voters over thirty-five years old should have two votes and those more than forty-five years old three votes.

The clericals were won over by concessions in the matter of religious freedom, and an arrangement by which the French language will be used officially in the schools of those districts of Alsace-Lorraine where there is a French-speaking population.

Auto Thrown Into Ditch.

Belleville, May 20.—A serious auto accident occurred Thursday on the gravel road in Sydney near this city. The machine, which was running fast, was thrown into the ditch. Seated in the car in addition to the driver were Mrs. Thomas Kelso, Miss Kelso, Mrs. A. A. Roberts and two young children of this city and Mrs. L. Grant of Montreal. Mrs. Grant and Mrs. Roberts were the most seriously injured, and were conveyed to the hospital. Mrs. Grant sustained a fracture of the right wrist and was cut about the head and face. Mrs. Roberts' injuries consisted of cuts about the head and face and bruises. Her young son was also bruised. Mrs. Kelso, Miss Kelso and the driver escaped with some painful bruises.

More Boats From Belgium.

Antwerp, May 20.—In consequence of the growing popularity of emigration to Canada, it is reported that several steamship lines are altering their service accordingly.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy.
