

HOPE COUNCIL.

The Municipal Council of the Township of Hope met in the Clerk's Office, Port Hope, on May 17th at 1.30 o'clock. Present,—Lewis H. Cann, Reeve, in the chair; S. R. Caldwell, Deputy Reeve; J. N. Greenaway, G. H. Martin, G. Edwards, Councilors. The minutes of special and regular meetings were read and on motion adopted. Communications were read from T A G Bray offering water from a spring on his farm for a water trough on Rice Lake gravel road. This kind and generous offer was much appreciated by the Council. The Salvation Army asked for the usual grant of \$5 to aid in their rescue work. A petition signed by W. A. Walker and over one hundred ratepayers was read, asking to have a road opened west of Osaca station between lots 30 and 31. Practical

addresses in support of this petition were delivered by Messrs John Dunn, Geo Runnals, W A Walker and Mr. Wilson. It was claimed this would be the direct road from Toronto to Osaca station. It would be a great convenience to the ratepayers in the west and south of the township. The deputation asked that this work be started at an early date and completed as soon as the Council were in a position to do so. Another largely signed petition from Alex Beatty and over 100 ratepayers praying Council to open and to put in a proper state of repair side line between lots 28 and 29, con. 6. It was forcibly pointed out by F. S. White that this road would accommodate about an eighth of the ratepayers of the township in getting to the Osaca Station, saving them several miles of travel as well as giving the people of the 6, 7, 8, 9, and 10th cons. of Hope a much more direct road to Port Hope. Addresses in addition to Mr. White's were in support of this petition given by

Alex. Beatty, John Sowden, Mr. Farrow, F M Tamblin, R F Beatty. It was pointed out that this road could be opened without acquiring any additional land. The bridges to be constructed with one exception would be small. There is from one-half to one acre of good cedar on this road allowance available to Council and that this work could be accomplished at less expense than at first anticipated. The Reeve promised the deputations that the Council would give these petitions due consideration and he was personally in favor of the whole Council meeting and going over these proposed roads before coming to a conclusion, and afterwards it was so ordered. This Council are to meet any of the interested parties at Osaca School on Thursday, May 25th at 1 o'clock and go with them over these proposed roads. Mr. Edwards asked for an extension of time re E Barrowclough's account. He also stated he had let two road jobs which were heard completed, but which had not been inspected as yet. Mr. Greenaway reported that Morrish Bridge required repairing. Mr. Caldwell reported that the supply of cedar ordered by committee was not all forthcoming. John Gordon's request for refund of dog tax could not be granted. Mr. Martyn reported that the Reeve and he had let a job on road east of Bye's toll gate near gravel. Also one at Berry's. Also given instructions to have the Mills bridge repaired by day work, no persons offering to take it by contract. Messrs Greenaway and Martin sold some trees to the Seymour Power Co., for \$40 and the clerk reported having received from the same company \$15 for trees. These amounts were given to the treasurer. The Reeve reported having purchased a car load of tile from Garnett and Son for culverts. Mr. D. McKenzie asked permission to cross gravel road with steam shovel which was granted. The following bills and accounts were read in detail by the Reeve, and on motion ordered to be paid. R S Caldwell, 3 lambs killed by dogs..... \$8 00 R F Wood, work Cavan boundry..... 2 50 Hy. Meaking, refund statute labor..... 8 25 F. J. Osland, contract to be held by committee..... 20 00 James Bell, unloading tile..... 5 00 Wm. Rowland, repairs..... 5 00 Samuel Grey, cleaning ditch Sculthorp and Allison repairs..... 3 00 Salvation Army, grant..... 5 00 Jno Prouse, lamb killed by dogs..... 4 00 Bryans & Wilson repairs..... 5 50 Fred Austin, repairs..... 5 00 Jno Hamilton, moving and storage of grader..... 2 00

from the pulpit of St. Margaret's, and rear to what heights he could the edifice of his social glory; men of that stamp were alone fitted to thrive in England. Was not he almost certainly a hypocrite, masking his brains (for brains he had under a show of broadest Anglicanism?) But his career was throughout consistent. He trod in the footsteps of his father, and with inherited aptitude moulded antique traditions into harmony with the taste of the times. Compared with such a man, Peak felt himself a bungler. The wonder was that his clumsy lying had escaped detection. Another day, and he had done nothing whatever, but was still buoyed up by the reaction of visionary hope. His need now was of communicating his change of purpose to some friendly hearer. A week had passed since he had exchanged a word with anyone but Mrs Roots, and conversely he must. Why not with Mr. Warriccombe? That was plainly the next step: to see Martin and make known to him that after all he could not become a clergyman. No need of hinting a conscientious reason. At all events, nothing more definite than a sense of personal unfitness a growing perception of difficulties inherent in his character. It would be very interesting to hear Mr. Warriccombe's replies. A few minutes after this decision was taken, he set off towards the Old Tiverton Road, walking at great speed, flourishing his stick—symptom of the nervous stick (so to speak) which he was dispelling. He reached the house and his hard was on the bell, when an unexpected opening of the door presented Louis Warriccombe just coming forth for a walk. They exchanged amiaibilities, and Louis made known that his father and mother were away on a visit to friends in Cornwall. 'But pray come in,' he added, offering to re-enter. Peak excused himself, for it was evident that Louis made a sacrifice to courtesy. But at that moment there approached from the garden Fanny Warriccombe and her friend Bertha Lilywhite, eldest daughter of the genial vicar; They shook hands with Godwin, Fanny exclaiming: 'Don't go away, Mr. Peak. Have a cup of tea with us—Sidwell is at home. I want to show you a strange sort of spleenwort that I gathered this morning.' 'In that case,' said her brother, smiling, 'I may confess that I have an appointment. Pray forgive me for hurrying off, Mr. Peak.' Godwin was embarrassed, but the sprightly girl repeated her summons, and he followed into the house.

CHAPTER V Having led the way to the drawing-room, Fanny retired again for a few moments, to fetch the fern of which she had spoken, leaving Peak in conversation with little Miss Lilywhite. Bertha was a rather shy girl of fifteen, not easily induced, under circumstances such as these, to utter more than monosyllables, and Godwin, occupied with the unforeseen results of his call, talked about the weather. With half-conscious absurdity he had begun to sketch a theory of his own regarding rain-clouds and estuaries (Bertha listening with an air of the gravest attention) when Fanny reappeared, followed by Sidwell. Peak searched the latter's face for indications of her mood, but could discover nothing save a spirit of gracious welcome. Such aspect was a matter of course, and he knew it. None the less, his nervousness and the state of mind engendered by a week's miserable solitude, tempted him to believe that Sidwell did not always wear that smile in greeting a casual caller. This was the first time that she had received him without the countenance of Mrs. Warriccombe. Observing her perfect manner, as she sat down and began to talk, he asked himself what her age really was the question had never engaged his thoughts; Eleven years ago, when he saw her at the house near Kingsmill and again at White-law, she looked very young but whether of thirteen or sixteen he could not at the time have determined, and such a margin of possibility allowed her now to have reached—it might be—her twenty-seventh-summer. (To Be Continued.)

Need More Power. Kingston, May 22.—Hon. Adam Beck has written Ald. Elliott stating that the Hydro-Electric Commission has an engineer going through eastern Ontario municipalities, and says that more power will be required than at first estimated. It will probably be late in the fall before anything further is heard from the commission. Kingstonian Hurt In Cleveland. Kingston, May 22.—Edward Clark, son of J. E. Clark, of the Bay of Quinte and Lake Ontario Navigation Co., was struck by an automobile in Cleveland and badly injured. He will recover. He was getting off a street car when an automobile on the wrong side of the road hit him.

Losers. Lord made request for some gravel for the 8th Con., it was on motion of Edwards and Greenaway, ordered that 100 yards of gravel be granted and that the Reeve and Deputy be a committee to let this contract. John Bassett reported that railing on west end of McCallum's bridge was out of repair; on motion of Caldwell and Edwards, Martin and Greenaway are to attend to this. Moved by Greenaway and Martyn that the Salvation Army be granted \$5.00 to aid them in their rescue work. Moved by Edwards and Greenaway that the Reeve and Mr. Martyn look after the water trough on Rice Lake Gravel Road and also after the cutting down of the knoll near the Choate subway. Moved by Edwards and Greenaway that 100 yards of gravel be put on the roads in each sub-division where it is most required and that the Councillor in each division attend to this and that in No. 5, the Reeve and Deputy Reeve have charge. Messrs Greenaway, Martyn and Edwards are to look into condition of the Morrish Bridge and report. Moved by Greenaway and Martin that Edwards and Caldwell look after lumber fence east of John Hamilton's, covered by sand. The Council on motion adjourned to meet as a Court of Revision on June 3rd next, at 11 o'clock. T. ROBERTS, Clerk

LANSDOWNE'S BILL

His Reform Scheme Passes Its Second Reading in Lords.
IT MAY GO NO FURTHER
Government Supporters Refrain From Opposing the Unionist Measure on Division and Their Plans Are Still a Mystery—Liberals Think Tories Will Capitulate in Hope of Repealing Veto Some Day.
London, May 23.—Lord Lansdowne's bill for the reconstitution of the House of Lords passed its second reading in that House yesterday without division, after War Secretary Haldane announced that the Government would not divide against it. The Secretary said that he welcomed the evidence the bill afforded; the Conservatives were convinced of the need of the reform, but the Government held that the passage of the veto was essential before any steps were taken in that direction. Lord Lansdowne complained that the debate had not elicited any statement of the Government's plans for reforming the House. The fact that there was no division on the bill prevents the disclosure of the revolt among the Unionist peers against the measure, but the speeches of the Duke of Marlborough, the Duke of Somerset, and Lord Killanin showed it to be considerable, and it is not expected that the committee stage will be proceeded with. The second reading of the veto bill will be moved in the House of Lords to-day. The debate is likely to last for some days, but in Parliamentary circles it is generally believed that the bill will be given its second reading. Attempts to amend the bill will be made, but the Government will refuse to accept such amendments or disclose its own plan for reforming the second chamber. The Liberals confidently predict that the Lords will ultimately capitulate and pass the veto bill, with the expectation that it will be repealed when the Unionists return to power.

PEACE SUNDAY.—Sunday last was set apart in many communities in Canada and the United States as "Peace Sunday." Says the Peterboro Examiner. We, that is the world at large, are getting more and more to taking our religion in chunks; by spasms. We have "Peace Sunday," "Temperance Sunday," "Mothers' Sunday," and so on. Is not this getting astray? Why should we not practise the cardinal virtues, upon the observance of which all these special Sundays are founded, every Sunday and every day in the week. The religion or virtue that shines only at times is a poor quality. Religion virtue righteousness is a personal belonging, and should be practised every day in the week, and every hour of the day, and enter and influence every act of life. The carpenter can, and should, drive in his religion with every nail, the bricklayer lay it with every brick—in the way of honest, faithful work, and so on through all the diversities of human activity. The religion that will not mould, influence and direct a man's every-day life is not of the sterling variety. Too many of us are pious only on Sundays.
