Invitation Extended

Rev. A. H. Going, B. A., pastor of the Port Hope Methodist church, receives a unanimous invitation to remain a 2nd term.

At the Third Quarterly Official Board meeting of the Methodist church held last Friday evening, the following resolution was moved by R. Grandy, Esq., seconded by H. Fulford, Esq., and resolved that, we, the members of the Quarterly Official Board of the Port Hope Methodist church, extends a most hearty and cordial invitation to the Rev. A. H. Going, B. A., to remain a 2nd term as pastor of this church.

This resolution was carried unanimously by a standing vote of the members composing the said Board, several members expressing their appreciation of the good work their much loved pastor was doing. HENRY SKITCH.

TOWN IS SADDLED WITH LARGE AMOUNT

Case of Neal Vs Town Will Cost \$2,187-Who Was to Blame?

The award in the case of E. B Neal vs the Town has been made by the Arbitrators, His Honor Judge Harding, His Honor Judge Huycke and Mr. T. B. Chalk. The portion of the award of interest to our read-

ers is as follows:-Now we the said Arbitrators having taken upon ourselves the burden of this Arbitration, and having duly weighed and considered the allegations and evidence of the parties and what was alleged by Counsel representing the parties, do hereby make and publish this our award in writing of and concerning the matters above referred to us in the manner following, that is to say;

We hereby award and have fixed the sum of \$900.00 as a fair and reasonable compensation to the applicant for damages occasioned to the property of the said applicants, by the said closing of Hope street aforesaid, other than to lots eight, nine and ten, situated and located on the West side of Ontario Street in the said Town of Port Hope, which we do not find damaged by the closing of said Hope street.

And we also find and award, that the Corporation of the Town of Port Hope, pay the costs of this Arbitration upon the scale of costs of the Supreme Court of Ontario, to be taxed and in addition thereto, the Arbitrator's fees, stenographer's fees and \$20.00 for this award, etc.

The arbitrators fees are \$687.00, other costs \$600 00 and the damages allowed Mr Neal \$900.00 making a total the Town must pay of \$2,187.00.

We were always under the impression that the Town had an agreement with the C. N. R. that the said railway company should indemnify the Town for all cases of this kind. It would be very interesting to know why Hope street was not included in this agreement and further who was responsible for leaving it out.

Thieves Make A General Round Up of The Churches

Some local thieves made a round up of the churches on Wednesday evening, evidently in search of contribution boxes but their work was in vain. GENEROSITY EXTENDED

Mr. Culverwell Gowns Cobourg Choir Similar to Port Hope Choirs.

St. Andrews Record, Cobourg.

The process of gowning the choirs of the Presbyterian church is fast spreading but few of them have had the pleasure of receiving them as a gift. The quiet and unassuming way in which Mr. Culverwell went about the matter added to the pleasure of the recipients. Not until Rev. Mr. Beattie urged that the name of the kindly donor should be given to the congregation did he consent. The following letter from Mr. J. A. Culverwell shows the kindly motive prompting the gift. It is all the more appreciated because Mr. Culverwell has shown a broad Christian spirit in going beyoud his own communion to do this. He is a member of St. John's Anglican church, Port Hope, and for many years was an ardent chorister in a Toronto church. He is however not so much a citizen of Port Hope as of our United Counties. It was due to his initiative work and energy that the great waterpowers of our Counties were harnessed and power in abundance furnished for the whole Midland District. By his generous gift he is showing appre-ciation of the co-operation he received from many Cobourg people in his great undertaking. The fol-lowing is an extract from Mr. Culverwell's letter to Rev. Mr. Beattie:

"DEAR MR. BEATTY:-Your very kindly letters received. I am Indeed glad to know that the authorities of your church have approved of the use of the gowns by your choir. l indeed appreciate greatly the privilege and honor in doing something useful and tangible for the church.

"You have asked me what made me think of doing this. You pro-bably now will recollect that I have already had the privilege of vesting the choirs of St. John's Anglican Church, Port Hope, and also that of the Port Hope Baptist church, so that it is not a new departure of mine. I feel that Cobourg is to me like a part of my home town, Port Hope, so many kindnesses having been received by me from Cobourg, so I felt that I wanted the privilege of doing similar work there."

"I will send you a cheque and in voice tomorrow, (Monday) so that you can make the payment on the arrival of the gowns and mortarboard caps—and also that you will know that they are paid for, before being used in the House of God Yours Sincerely

A SPLENDID SUCCESS

The First Concert by the Philharmonic Society Enthusiastically Received

(From Friday's Evening Guide) The first Concert of the Port Hope Philharmonic Society took place in the Opera House last night, and it must have been a matter of gratification to the members to observe the interest taken in the Society as evidenced by a full house and the hearty applause evoked by the different numbers. It is quite erident that much faithful work has been done, for which great credit is due the members as well as the Conductor, Mr. Ernest E. Pridham for his conscientious and painstaking efforts. The assisting soloists were Mme. Leonore Kennedy, Soprano, Miss Valborg M. Zollner, Pianiste, and Mr. Sidney Dixon, Tenor. Mme. Kennedy has a pleasing and well trained voice, flexible, sweet and true, and will always be a welcome visitor. Miss Zollner was also heard for the first time in Port Hope, and made an exceedingly good impression on the audience. She appears to have much musical temperament, backed up by a good technique, and all her numbers were given in a very finished and artistic manner. It seems a great pity that she could not have been heard with a better instrument than the one provided tor the occasion, which, to put it very mildly, left much to be desired-Mr. Dixon, in a former visit had already established himself as a favorite here, and last night quite upheld

Upon the whole the Philharmonic Society and the Conductor, Mr. Ernest E. Pridham, are greatly to be congratulated on the result of last night's performance, and it is also very greatly to be hoped that interest will be stimulated and main tained in this kind of work.

The Committee desire to thank all those who assisted and especially Mr. J. A. Culverwell whose kindly interest in the affair, was responsible in no small degree for the splendid success. Mr. Culverwell is a great musical enthusiast and his theater party last evening, was a great boost to the society and much appreciated by the committee and also Mr. Culverwell's guests.

Fire Brigade Makes Suggestion

For the Council and Asks That Action be Taken

The Fire Brigade have reported to the Council that the three months ending Dec 31st, there had been but one fire, that of W J McClung, on Dec 17th. It was a stubborn fire to contend with, owing to so much inflammable material being stored within the building. The Brigade recommended that the Council have an Inspector to see that all buildings having a stable in the rear be equipped with partialso asked that the burning of rub bish in back yards be prohibited after sundown. A pole and a seat had been attached to the ladder truck and this would be used when needed. They also asked that the Fire Hall up town be repaired. They would like some plan devised to test the hydrants during the winter months for occasionally they are frozen up. The Brigade requested that the bell on the Central Fire Hall be placed in proper working order.

Earthquake Gave Decided Shock ontario.

To Port Hope and Alarmed Many | BISHOP OF TORONTO People

Port Hope had a taste of a real earthquake Tuesday afternoon. Schools, factories, business houses and private homes all felt the tremor and in many instances considerable alarm was felt. It was more distinctly felt on the hills and in many they having no regular pastor. His instances the inmates of the houses rushed out of doors, fearing that from the swaying of the walls a noon. During his stay in Port Hope, collapse would follow. Dishes rat- the Bishop was the guest of Mr. tled about and plants in the window and Mrs. J. A. Men in the tall grain elevator at Millbrook station were so alarmed at the creaking and trembling that a ship. near-panic occured, and the forty employees rushed out fearing the elevator was about to collapse. In the other larger buildings in the town the shock was very noticeable, the windows rattling and the dishes jumping about.

A lady living in Delaware avenue, Toronto, while lying on a couch, was suddenly thrown to the floor by the house trembling and tipping crazily from one side to another. The upheaval was accompanied by a loud rumbling sound. Several ten years back. Superior is 49 other people in the district have feet higher than a year ago. Micheported similar occurrences.

SHOOK PHONE FROM WALL At the house of A L Gadsby, of

One of the most pecular features of the shock was the result upon he fish and birds in the J J Ulley & Son establishment, Montreal, on Craig street, West. Though the buildings on the north side of the street vibrated, people in those on the south side. with a few exceptions, did not notice the rumble. The birds and fish in Mr Ulley's store plainly showed there was something wrong, how-ever. The fish immediately went to the bottom of their acquarium and

POPULAR PASTOR HAS BEEN RE-INVITED

At a meeting of the Quarterly Official Board of the Tabernacle Church last evening the pastor, Rev. W. G. Clarke, B. A., was unsnimously invited to the pastorate of the Tabernacle for the fourth year. This Board expressed their high appreciation of Mr. Clarke's service and of his earnest devotion

to the cause of his Master. Mr. Clarke in reply thanked the Board for their kindly words of appreciation and cheer. In the course of his remarks, Mr. Clarke said that he had never in all the years of his ministry met a Church Board that

stood so loyally by their pastor and the church, and gladly accepted the position offered. — Belleville.

Fenian Raid Bounty Farce

The Ottawa Journal (Conservative) remarks that the Fenian Raid bounty has become just a trifle ridiculous. Ten thousand men went to the front and served in the actual thousand wish to collect the \$100 | tee. bounty which parliament decided on as an indication of a grateful country's recognition of the services which the patriots rendered. The ceived and fyled. sum is not large, but neither was the fighting. A couple of engage-ments occurred which might be by a stretch of courtesy termed battles, and the actual fighting was of a very short duration. A number of the ten thousand veterans must have died within the last forty-seven years and the actual number of combatants left alive would probably run to less than two or three thousand.

The old thirty-one or thirty-two thousand "veterans" left will be militiamen who were under arms but didn't go to the front. They should not be paid the bounty any more than our present militia should be given the South African land grant because they were willing to go to South Africa if needed. The fact that ten thousand of the applicants for the bounty are from the maritime provinces, which took no part in the fighting, makes the demands of these bounty hunters look even more ridiculous. If the government is willing to give a bounty to these men, then let's all go after it. If we didn't happen to be alive at the time of the Fenian Raid, it is no bar; remember that if you had been you would have been willing to go to the front.

Don, the hound, after several unsuccessful attempts, finally succeeded in getting up on the pier, but poor little Topsy didn't seem able to get out, although Don was doing all in his power to help her. Finally, after a few vain efforts on the part of Don to get Topsy out, as a last resource Don rushed at headlong speed over to Mr. Lavis' boat house and found his master there. Don couldn't speak, but he could bark; and he did bark. At first Mr. Lavis did not pay attention, but when Don seemed so persistent to coax his master over to the pier, Mr. Lavis finally walked over, with Don

fairly shoving him along. When Mr. Lavis arrived at the pier Don's barking became much louder, and he noticed right away what the trouble was and at once went over to the place that Don was so interested in.

Don immediately plunged into the water and grabbed hold of Topsy, while Mr. Lavis reached down and, with Don's aid, rescued his little

playmate, Topsy. Just as soon as Topsy was once again on dry land Don rubbed up against his master in an affectionate way letting a series of woo's, woo's out of him to show his appreciation to his master for the valuable services rendered.

ST. LAWRENCE CANALS

Toronto News Discusses Mr. Culverwell's Address

The Toronto News, of which Sir John Willison is Editor-in-chief, editorally states:-

"At a meeting of the Port Hope Council the other day, Mr. J. A. Culverwell presented strong arguments in favor of having the St. Lawrence Canals deepened while the new Welland Canal is being built. In his opinion it will be disastrous to Canada if time is lost in securing a deep water channel all the way from the morning Mr. Glover brought the of the Hereford, with the powerful head of the Great Lakes to the City of Montreal. The danger ticket, and made arrangements for The hide is more valuable than that that the Erie Canal from Buffalo across New York State to the Atlantic will draw off increasing quantities of Canadian grain unless we have a superior alternative route of our own.

In conclusion Mr. Culverwell said: "If the Government feels that the country cannot stand the expense, it would not take me a very long time to interest prominent gentlemen in Toronto, Hamilton and Montreal in the project. We could build the canals ourselves and get Government assistance similiar to that given the railways, in return for which the Government could regulat the rates so we could not utilize them too much for our own benefit."

While The News recognizes the enormous advantage that would accrue to Toronto and other lake perts and to all interior Canada from the deepening of the St Lawrence route, we should not like to see the route given over to the control of private capitalists, however worthy. Canadians have already done enough for transportation companies on land, and future public expenditures for traffic facilities must be reserved for public-owned enterprises. Currency Bill

English Economist Asserts American Act Means End of Stringency

London, Jan. 31.-Moreton Fre-wen, a writeron economic problems, tariff, and the exchanges, said in an interwiew to-day:

"At the close of 1913 the opinion here anticipated a bank rate on discounts of 6 per cent. It has fallen in a fortnight from 5 to 3 per cent. Why? Why have consols jumped five points?
"The answer is the new American

currency act. Here is Uncle Sam, with the power of a hundred Morgans, entering the bill discounting business and prepared to do the world's business. Therefore every banker knows that stringency and contraction have disappeared and that a new day has dawned. This act is a bigger thing by all odds for

bill safe and sound?" Mr. Frewen "It is safe if only the American people do not become scared. If

the shipment of large sums of gold during the year creates alarm then Americans might forfeit their share n the feast of fat things at hand. Make up your minds to lose perhaps \$300,000,000 to \$400,000,000 of gold in the next two years and that the export of this precious metal will greatly strengthen your export trade. If you accept the bill in that spirit great good will result.

"New issues of paper and great expansion of bank credits will advance your prices.

SAYS ACT HELPS WHOLE WORLD.

"The protectionists in Americaand I am a protectionist-will de-clare that this loss is the result of the new tariff. On the contrary, it will result in your new vast currency issues.

"Could there be anything more striking to show the internationality of these money problems," Mr. Fre wen continued, "than that a local act should have restored confidence and vigor to every bourse in Europe? What was done Christmas week will make money cheap here and business will expand for a long time. It will have an effect for at least four years.

"The passage of the American currency act was a greater discovery than half a dozen new African gold fields. Four or five years hence we may all have to walk warily. Meantime let us thank Washington for the Santa Claus visit to millions of anxious bedsides."

THE COST OF "REFORM"

Lawyers Profit From Civil Service Decapitations

Civil Service "reform" as interpreted by the Borden Government is decidedly profitable for the legal friends and supporters of that Government. According to the Auditor-General's report, the total cost of investigations held last session under the Inquiries Act, mostly in connection with legal "investiga- poses. tions' leading to dismissals or charges of partisanship was \$35,149. One lawyer, Mr H P Duchemin, who conducted the head hunting expedition in the Maritime Provinces, drew no less than \$5,272 during the year for his services. Mr J G H Berge-ron, ex-M P for Beauharnois, one of Mr Borden's Quebec leaders, got \$4,057 during the 12 months for his services in conducting investigations in Quebec.

OUR TORONTO LETTER

OPENING OF PARLIAMENT

February 18th has been fixed as the date for the opening of the Ontario Legislature. It is not likely that Sir James Whitney will be able to be in the House this Session and Hon. J. J. Foy, the senior member of the Council, and acting Prime Minister, will take his place as leader of the Honse.

CANADA TEMPERANCE ACT Quite unusual interest has appar-

ently been aroused throughout the of Huron in favor of the Act and against the liquor traffic. The majority was 2,568. The Act was carried in both the other counties thorough agricultural survey. Let is caused from the blood being thick. where the question was up for decision and in Peel it was 56. There will doubtless be a recount and litigation in Welland.

TWO IMPORTANT MOVEMENTS

Two of the important develop

movement and the Women movement-were dealt with by Mr. N. World Benefit W. Rowell in a recent speech at Victoria College. Mr. Rowell paid a warm tribute to Allan Studholme, the only Labor representative in the House, and declared that he himself looked forward to the day when there would be a score or more Labor members in the Legis-

In regard to the women, Mr. Rowell thought that whatever our own views may be, the forces of this age were tending to the procuring for women their share in the management of the country's affairs. He thought particularly that married women, otherwise qualified, shauld be given the mun-icipal franchise. "A married wo-man," he said, "instead of being handicapped by her marriage should rather be bonused by the State.

FAVORS BAR ABOLITION

Mr. George Wickie, a well known Toronto lawyer, speaking at the Belleville Liberal Club under the auspices of the Speakers' Bureau of the Liberal Club Federation, declared that although not a temperance man, he was absolutely in favor of the Abolish the Bar policy of the Liberal party and thought that the introduction of such a retorm would most decidedly be in the public interest. He also made a plea for radicalism in politics.

BABIES BARRED

BY PARCEL POST

You wouldn't be able to send your baby away for a holiday by parcel post, according to an asser-

Last night at midnight the long expected and much-vaunted parcel post system was put in operation.

Throughout Canada, from the Pacific to the Atlantic, machinery to compete with the express companies was started, and what is expected to be a rate war between the government and railroads has started. It is expected that it will be several months before the service is working smoothly, and the rates,

the public expected, are finally adusted. For the first three months only parcels of six pounds and under will be accepted, as it is expected considerable trouble will be experienced in obtaining the necessary train accommodation. After that the limit

TEACHERS ON STRIKE.

Pupils In Hertfordshire Take a Hand In the Affair.

LONDON, Feb. 3 .- Lively scenes marked the first day of the strike of elementary school teachers in the County of Hereford, Eng., the first of its kind in the British Isles.

Seventy schools are closed and at the other schools the children resented the appearance of new teachers and made demonstrations in sympathy with those who have resigned. When the school at Ross, the largest in the county, should have opened, the boys paraded the town, singing

songs and cheering. Towards 10 o'clock they were induced to enter the school. Immediately there was pandemonium. Inkpots were thrown about and desks overturned. Finally the boys broke out of the building and marched again through the town, the demonstration still proceeding last night, with the apparent approval of the

MISS SYLVIA SECEDES.

She Disapproves of the Peaceful Leanings of Her Sister.

LONDON, Feb. 7. — Miss Sylvia Pankhurst, daughter of the militant suffragette leader, yesterday an-nounced her secession from the Women's Social and Political Union, the militant women's organization. Her east end of London federation, which hitherto has been a branch of the parent organization, will henceforth he entirely independent.

The rift among he militant suffra-gettes is said to be due to hiss Sylvia Pankburst's ultra-revolutionary aspirations, which the leaders of the Women's Social and Political Union are beginning to believe are damaging their cause.

Reports of dissensions in the inner circles of the militant organization, involving the Pankhurst triumvirate, have been in circulation for some time. According to these, Christabel Pankhurst is anxious to end her long exile in Paris and retur to London and take control of the organization.

But Christabel, the reports have it, desires to come back under conditions that will not necessitate frequent terms of imprisonment for her under the "cat and mouse" act. Therefore, it is said, she wants militancy dropped.

Sylvia Pankhurst, on the other hand, is not prepared to abandon militancy until she has fully tested the fighting capacity of her "people's

TENSION DECREASES

Germany and Britain on Very Good Terms, Says Minister.

SOCIALISTS ARE GLOOMY

They Do Not Share In General Feeling of Optimism Among German Political Parties - Gottlieb Von Jagow Says Relations of the Governments Are Marked by Mutual Trust.

BERLIN, Feb. 5 .- Anglo-German relations are "very good," according to the German Foreign Minister, Gottlieb Von Jagow, in a speech before the Ways and Mcans Committee of the Imperial Parliament yesterday. This utterance is the strongest official characterization of the relations between the 'wo countries that has been expressed in years.

The Foreign Minister declared that the one-time tension was steadily decreasing and that the relations of the two Governments were now marked throughout by mutual trust.

Admiral Alfred Von Tirpitz, Min-

ister of Marine, declared he had nothing to add to his statement of last year that England's proposed fleet ratio of sixteen to ten as compared to that of Germany was acceptable to the German Empire.

Both Herr Von Jagow and Admiral Van Tirpitz expressed the opinion that the unofficial suggestion of a year's naval shipbuilding holiday made by Winston Spencer Churchill, First Lord of the British Admiralty, was impracticable.

Their view was shared by the representatives of all the parties with the exception of the Socialists.

Admiral Von Tirp!tz refuted the argument that Germany was setting the pace in naval armaments, and showed by statistics that Germany had increased her naval expenditures during the last five years by 55,000,-00 marks (\$13,750,000), as compared with an increase of 216,000,-000 marks (\$54,000,000) by Great Britain, not counting 60,000,000 marks in the anticipeted supplementary estimates. In the same period the naval expenditures of France increased 134,000,000 marks, and Russia 302,000,000 marks.

TAX ROLL IS GONE.

Caradoc Township Loses Valuable Document In Fire.

MOUNT BRYDGES, Feb. 5 .- An unusual loss was sustained in a fire which destroyed the branch of the Union Bank here yesterday, when the tax-roll of Caradoc Township was destroyed.

Manager Lee, forr erly teller in the head office, wien it was located in Quebec, and who was absent in London at the time ' the fire, had collected considerable money during the past week for the township. trzes being payable at the bank. The to roll, it is understood, was not placed in the vault Tuesday night. and as the fire occurred yesterday morning before office hours, there was no one to cave the township records.

The bank was located in the best business property in the village, a large general store, conducted by Mr. Walter Snelgrove, adjoining. The fire broke out ir the bar ment of the bank about 8 o'clock, destroying the eatire building, with most of Snelgrove's stock. As the building alone cost upward of \$10,000, the total loss wil be quite heavy.

TO MEET ULSTERMEN?

Sveeping Concessions From Asquith Are Prophesied.

GLASGOW, Scotland, Feb. 5 .-Concessions of the most sweeping description are to be made to Ulster in connection with the introduction of home rule in Ireland in the course of a statement to be made by Premier Asquith on the reassembling of Parliament, according to yesterday's Glasgow Herald. The concessions, says the newspaper, are to cover practically everything short of the exclusion of Ulst - from the provisions of the home rule measure.

The announcement made by The Herald is regarded in political circles as particularly significal since it coincides with the arrival in Glasgow of David Lloyd George, C ancellor of the Exchequer, to speak on the land question.

TOO MUCH CODDLING.

Sir Wm. Ramsay Suggests That Unfit Should Be Iet Die.

LONDON, Feb. 5 .- Sir William Ramsay raised the question whether the unfit should be left to die, at the annual dinner of the Institute of Sanitary Engineers last night. He surprised his audience by asking whether it was right that people should be "so coddled as they are." Were they not doing something to prolong lives of the unfit? Would it not be better to let some of them ais out? They insisted on children getting education, and the result was that many went to school starved: they had to give the breakfast and had to find them boots. Ultimately they wou'd have to take over the children entirely. Where was that sort of thing going to stop, he asked.

FAIRS FOR INSTRUCTION.

Not For Looting of Young By Wandering Gamblers.

TORONTO, Feb. 6. A strong stand was taken by the delegates to the fourteenth annual convention of the Ontario Association of Fairs and Exhibitions, which opened at the Foresters' Hall yesterday, in the matter of making the annual fall fair a 'day of agricultural schooling" rather than a day set apart for the filching of the pockets of the younger generation by fakirs, etc.

Heated discussions following every suggestion for the elimination of questionable features of the midways from the fall fairs were participated in by the militant agriculturists from as far north as New Liskeard and Manitoulin Island, and from points stretching from Essex to Glengarry. Something of a furore followed the reading of a resolution asking the Attorney-General to summarily dismiss any magistrate who, after firding a fall fair trickster guilty of gambling, allows him to go on suspended sentence. But the resolution

"I regret to state," declared Supt. Lockie Wilson, "that a number of directors of agricultural societies in 1913 permitted the use of gambling devices on their grounds. The department has not been disposed in the past to deal harshly with these societies which are breaking the law, but leniency does not seem to have the desired effect."

WILD MAN CAUGHT.

Insane Trapper Gave Provincial Constable a Hard Tussle.

FORT WILLIAM, Feb. 6. - A year's nomadic life in Western Ontario has evidently blotted from the mind of George Georgeson, who has been apprehended after a long chase by Provincial police, all memory of, and certainly all liking for civilizaton, was placed in a cell yesterday afternoon, after having fought over every foot of the twenty-six miles

Several weeks ago the provincial police received a petition signed by numerous settlers saying a wild man was terrorizing the district and that their families lives were in danger. A search of the country revealed only a man's footprints leading to a dilapidated cabin, barren of furniture, save a broken stove and a few quilts.

Scarcely a shadow of the man who came from Minnesota a year or so ago to fish, hunt and trap, he was yesterday stealthily approaching his cabin.

He seemed bewildered at the sight of the constable, who singlehanded, took him into custody. When nearing the city limits 12 succeeded in breaking away and was recaptured only after a long chase. He may be

Level Crossing Disaster Near Guelph Results In Death of Robert Wright, of Ashgrove, and Serious Injury of Mildred Bessey, Aged 15-Pearl Bessey Slightly Hurt and Two Others Uninjured

GUELPH, Feb. 7.—Robt. Wright, about 40 years of age, of Ashgrove, three and a half miles from Georgetown, was killed, and Mildred Bessey, aged 15, is lying seriously injured at the Guelph General Hospital, as a result of being struck by a Grand Trunk passenger train going east shortly before five o'clock yesterday afternoon, while driving in a buggy.

The fatality occurred at a level crossing on the seventh line of the Township of Esquesing, two miles west of Georgetown.

Pearl Bessey, aged 12, who also

was an occupant of the buggy, es-

caped with a bruise on one knee.

Her brother, Roy, aged 9, and David Marcellus, another lad of about the same age, who were sitting in the back of the buggy, jumped in time to save themselves and were uninjured. Wright, who died as he was being lifted from the train at Guelph station, had been in attendance at an auction sale on the seventh line of Esquesing, as had also John W. Bessey, the father of the injured girls, but Wright left for home first, fearing that the snow storm might block the road. He picked up the four young people on the way, as they

were going home from school. It was snowing hard and Mr. Wright could see only a short distance ahead of him, but he evidently heard thet rain coming and kept telling the girls to watch out for it. Just before they came to the crossing the train came thundering down the track, and the horse becoming unmanageable, bolted directly in front of the engine. It was killed instantly and the occupants of the buggy were thrown some distance.

The train was brought to a standstill as quickly as possible and the injured were placed in the rear coach and taken to Georgetown, where physicians were summoned. The injured were placed on the westbound train for Guelph, but as stated, Wright died as he was being lifted from the train. It was later discovered that his back was broken.

An examination proved that Mildred Bessey's right thigh was broken a ! her left arm also, and she has not regained consciousness. Her condition is serious. Mr. Bessey came up on a later train and is at the bedside at the General Hospital. It was stated last night that the

whistle of the engine was not blown before it reached the crossing, but this matter will come out at the inquest which has been called for this afternoon.

Robert Wright, the dead man, leaves a widow. He had been married about two rears.

Chief of Department of Militia and Defence Is Under Scritting of Opposition During Question Icu. -No Wives or Jarohters Were In Party Officially-

Husbands Paid Their Way.

OFTAWA, Feb. 5 .- Col. the Hoa. Sam Hughes trip to England last summer, with enteurage of officers, officers' wives . nd dau hts. , and lady private secretaries, his part pation with Gen. 3'r Ian Ham Itor while on military duty, in the ; icnic of War! Four Conservative Association of Toronto at Queenston Heights last summer, and his showering of Fenian raid 'ounties over the country out-ivalling the United States p asian record, were the chief subjects of inquiry by Liberals in the

Commons yesterda,.

At the question bour Col. Sam
Hughes answere! number of interrogations about his trip to England and the famous visit with Sir Ian Hamilton to Queenston Heights. The cross-examiner was Mr. Proulx (Lib. Prescott) and he asked if the Minister of Militia had accompanied Gen. Sir Ian Hamilton to the political picnic of Ward Four Chase vative Association at Queension Heights in July last wearing - adge inscribed "Bor-den and our Empire," and was so photographed.

Col. Hughes said that he was there with Sir Ian as his guest on the day in question, inspecting Queenston Heights from a military point of view, that there were a great many picnics going on, that he wore a badge showing "a stalwart young Canadian grasping, across the Atlantic, the hand of John Bull," that the Minister and "r Ian was photographed some score of times that day "with a lot of fine people." and "doubtless many of them, apparently intelligent, belonged to the Conservative Association.'

With regard to the trip to England. Hon. Col. Hughes said there were 21 officers, a private secretary and her assistant, and two orderlies in the party, no wives and daughters were in the party "officially." The expense of the ladies were borne by their husbands and fathers, and the expenses of the party paid by the . vernment amounted to \$24,262. The officers, while on the trip, received pay according to rank, amountirto \$3,984, and for subsistence and other allowance received \$10 a day. Members of the party other than officers received actual expenses and

their permanent pay.

The officers saw the French, Swiss and British manoeuvres, while the Minister of Militia visited the German divisional manoeuvres, and the

Dutch and Belgian military centres. Mr. Michaud was told that men enlisted for military service to resist the Fenian raid in 1866 consisted of 122,031, divided as follows: Upper Canada, 12,199; Lower Canada, 7,598; Nova Scotia, 59,379, and New

Brunswick, 44,055. In the year 1870 the men called out numbered 43,541, divided as follows: Ontario, 20,956; Puebec, 15. 006; Nova Scotia, 4,192, and New Brunswick, 3,327. The total called out to resist the two raids numbered

LONDON, Feb. 5 .- Captain Francis Inch, commander of the steamship Volturno, which was burned in .-Atlantic on Oct. 11, 1913, with a loss of 135 lives, was presented esterday with the freedom of the City of London in a silver casket and also with a gold medal, a gold watch and chain, a purse of goli and Lloyd's silver medal. The presentation was made by the Lord Major at the Mansion House. He told Capt. Inch that the tokens were in accognition of his heroism and staunch allegiance to

duty." At the same time a diamond and sapphire pendant and a silver tea service were presented to Mrs. Inch.

Rate War Will Aid Immigration.

MONTREAL, Feb. 5 .- The shipping rate war, in the opinion of local agents, is likely to lead to a large increase in the immigration of Euro-peans of the 'aboring class, providing ample material for railway and other - istruction work. This may result in lower wages being paid to laborers in Canada. Further reductions in third-class steamship passages are anticipated.

FIREMEN ESCAPE DEATH.

Explosion Occurs In Chicago Elevator While 30 Men Are Inside,

CHICAGO, Feb. 9 .- Thirty firemen had a narrow escape from death inthe blaze which early yesterday destroyed a big grain elevator owned by the Armour Grain Co. Twenty minutes after the fire was discovered and when it was believed to be under control, an explosion occurred, and for a time all the firemen in the building were given up for lost. All escaped, however, although a number were overcome by smoke and had to be

carried out by comrades. The loss was estimated at \$300, 000. The elevator had a capacity of 1,500,000 bushels and contained a

large quantity of wheat. The building was entirely destroyed. A second explosion brought down the wall facing the Chicago river and a third caused the remaining walls

to crumble inward. Serious Riots In Barcelona. BARCELONA, Feb. 9. — An attempt was made yesterday to kill Senor Ossorio-Callardo, who was governor of Barcelona at the time of the disorders in 1909. The ex-governor

escaped and, in his stead sive citizen was shot dead. A great mob gathered outside the building, and in spite of repeated charges of the police forced their way to an automobile in which it was supposed the ex-governor was riding. A volley of revolver shots was fired into the machine, and when the body of the victim was taken out it was found to be that of a civilian. In the meantime Senor Ossorio-Callando drove off by a roundabout

route. Zamor President of Haiti, PORT AU PRINCE, Feb. 9 .- Drester Zamor was yesterday elected President of Halti. The revolutionary troops under Zamor occupy all the military stations. There were no disorders on the arrival of the revolutionists from Gonaives. Congress met at two o'clock yesterday afternoon and elected Zamor President by a vote of 93 out of 105 ballots cast. It was announced that after the election the detachments from the

Huge Aeroboat Is Almost Ready For

NEW YORK, Feb. 5.—Plans for flying across the Atlantic Ocean in an aeroplane, which has long been a matter of imaginatica speculation among airmen, "ere reduced yesterday, according to an announcement made at the headquarters of the Aero Club of America, to a definite proposal to cruise through the air lanes from Newfoundland to the west of Ireland during the present -sar. Not only was an announcement made that a transatlantic trip will to attempted, but it was given out that the construction of a giant aeroplane, or rather aeroboat, in which the trial is to be made, was commenced six months ago at Hammondsport, N.Y., and that the machine is now rapidly nearing completion. Rodman Wanamaker is the backer of the transatlantic expedition, and the aeroboat in which it is to be attempted has been designed under his supervision by Gienn 4. Curtiss.

It is the irtention of Rodman Wanamaker to have the giant flying boat driven to Europe by two aviators especially selected by the Secretary of the Navy from the navy's aeronautic corps.

orruption and intimidation by Provincial Government workers in the Gimli bye-election of last May were made in the Provincial Legislature by T. H. Johnson, Liberal member for West Winnipeg, on Saturday morning, and created a sensation. Gimli was carried by L. E. Taylor for the Roblin Government. The charges will probably be probed after the Govern-

Mr. Johnson opened the matter by reading the following statement in

the House: "I, on my responsibility as a memof this House, charge: that public moneys were improperly and corruptly employed in influencing electors to vote for E. L. Taylor at the byeelection in the constituency of Gimli on the 12th day of May, 1913, clear evidence of which is to be found in items of the public accounts aggregating some ninety-three thousand dollars expended directly by the Government; that bribery was extensively practiced in this bye-election on behalf of E. L. Taylor; that corrupt treating was carried on throughout the constituency to a degree never before known; that liquor was dispensed freely by the agent of Taylor in local option territory and elsewhere; that intimidation was largely practiced; that employes of the Manitoba Government and officers of the law were personally guilty of acts of intimidation, bribery, corrupt treating and distribution of liquor; that violators of the law were protected by officers of the Government charged with enforcement of law and order: that prominent among the workers and agents of E. L. Taylor were owners, managers, employes and habitues of notorious drinking resorts in Winnipeg and 'clubs of that class'; that this campaign of corruption, intimidation, bribery and illegal use of liquor was directed and man-

aged by prominent members of the Manitoba Legislature." Johnson also cited over 100 special instances of alleged corrupt practices during the Gimli car aign.

CLEANING UP CITY.

New York Police Are Making Round-Up of Gunmen.

NEW YORK, Feb. 9 .- Revelations of the great number of gunmen and desperate characters that infest the city were made yesterday to Magistrate McQuade, in police court by Police Commissioner McKay's "cleanup" squad. This squad, under the direction of Commissioner McKay, over a fence at the side of the road has been waging war against gangs and went down a precipitous incline in all sections of New York, where

these outlaws are active. Warfare began as a rerecent gun fights among gunmen on the streets of the lower east side, in which several persons were shot and one man killed. The result so far has been that in the last 21 days 326 revolvers and 27 blackjacks have been confiscated. Besides this the squad has raided 18 alleged gambling places, made three arrests for larceny, captured one outfit of burglar tools and recovered thousands of dollars' worth of stolen property.

BANDIT GANGS BUSY.

Montreal Police Think They Have Four Youthful Robbers.

MONTREAL, Feb. 9. - In Joseph Gilmour, 17 years old, arrested Saturday on a charge of burglary, the Montread police believe they have landed one of a gang of ten youths who have been extensively looting factories in the east end of the city. The gang is said to have stolen thousands of dollars' worth of goods. Gilmour is held in connection with the theft from the Metal Shingle Co. of goods valued at \$300 which were sold for \$7. Three other youths, said to belong to another gang which has been operating in departmental stores, were remanded last week.

The rooming house which they occupied was searched and revealed quantities of boots, clothing and other articles which had been reported missing.

Secrets on Film.

BERLIN, Feb. 9. - The auct sale of personal effects of Col. Rodl, the Austrian traitor and spy for Russia, who killed himself several months ago, has disclosed some of his operations. A high school boy in Prague bought at the auction three rolls of film. When he reached home he discovered that on one roll of supposedly unexposed film there was cleverly hidden the photographic copy of a secret military order of the Lighest importance, signed by the Arch-duke Francis Ferdinand, and intended only for the eyes of the corps commander of Prague and the chief of the Prague general staff. It was promptly delivered to the army authorities.

TO CLEAN UP SLUMS.

King George Orders Complete Reconstruction on Cornwall Properties.

LONDON, Feb. 9 .- It is not generally remembered that King George or the Prince of Wales, as the beneficiary of the estates of the Duchy of Cornwall, is the landlord of one of the worst slums in London. There is a part of Kennington on the south side of the Thames which belongs to the Duchy of Cornwall, and consists of a maze of small streets and alleys, constituting a veritable Alsatia. At the King's personal instigation the committee which controls the revenues of the Duchy of Cornwall has taken in hand the task of doing away with the conditions prevailing there and the whole area has been subjected to a cleaning-out process. Old houses have been torn down, new streets laid out, and a number of artisans' dwellings of the latest mo-

del will be constructed. A tribute to the work started by the King in this connection was paid by Sir James Crichton-Browne at a meeting of sanitary engineers on Saturday. He said: "In the reconstruction work being carried out under the direction and supervision of his Majesty on his estate in Kennington, he has declared that the object to be kept in view is to make people happy and comfortable. His Majesty recognized the fundamental principles that : e to be observed if that object is to be attained, for he insisted on the planning of substantial, commodious and comely dwellings, with every modern improve-

BAD WEATHER REPORTED.

Incoming Ocean Liners All Tell of Difficult Voyages.

NEW YORK, Feb. 9.—Steamships arriving, overdue, from European ports yesterday, reported rough weather and the presence of icebergs at sea. The Megantic of the White Star Line, coming in from Liverpool after a nine-day voyage, passed through a northwesterly gale, which reached its, climax of effect on this ship on Jan. 31, when a giant wave dashed over the starboard rail, awakening the 350 passengers, sweeping away a life-boat, partly flooding the corridors, and entering the funnel, dampening the fires.

The Megantic saw no ice, but re-ceived reports of bergs, field ice and numerous "growlers," including one berg 150 feet high and a quarter of a mile long, in an area of broken ice, extending from 40 to 250 miles east of St. John's, Nfld.

Barrie Gives \$50,000.

NEW YORK, Feb. 9 .- The reason Sir Ernest Shackleton has been able to announce that he has finally collected the necessary funds for his Antarctic expedition is that Sir J. M. Barrie, the novelist and playwright, has come forward with the remaining sum desired.

The Barrie contribution, without which the expedition would not have been possible, was made with the single stipulation that it should be kept private. The sum with which Barrie rounded out the funds deemed necessary for this newest dash to the South Pole is \$50,000. The entire equipment needed can now be furnished according to the estimate of Sir Ernest Shackleton.

Boys Charged With Theft.

CORNWALL, Feb. 9 .- Four young boys, ranging in age from 8 to 13 years, were before Police Magistrate Danis, charged with breaking into W. H. TO FIGHT FOR LIFE

Asquith Government Faces the Crisis of Its Career.

SESSION BEGINS TO-MORROW

With Divisions of Opinion on Home Rule, Welsh Disestablishment, Naval Estimates, Fiscal Reforms and Plural Voting Coming Parliament Will Be Historic -Action of Lords In Doubt.

LONDON, Feb. 9 .- After the longest vacation that members have cointo power eight years ago, Parliament reassembles to-morrow for a session that promises to be full of hard work and excitement.

There are not only the home rule and Welsh disestablishment bills, which come up for third passage and then to become law, despite anything the Lords may do, but there is a great mass of cher business which will compel the Government to fight continually to hold the confidence of the House of Commons. From start to finish of a session a British Government must keep on the alert to prevent an adverse vote, which, if it has the backing of a majority of the members, means the retirement of the Ministry. The danger will be more acute than ever during this ses-

From the moment that King George leaves the House of Lords after delivering his speech from the throne opening the proceedings, the Government will be under fire, not only from their Unionist opponents, but on several questions from Liberals as well. Fortunately for the Government, it probably will have the support of many Unionists on the questions that the revolting radicals will chose for their attacks.

In taking up regular measures it is understood that the Welsh disestablishment bill will be given precedence over home rule, which will be left until the last in hope that some compromise will be forthcoming. Between these two big measures will be introduced the bill to abolish plural voting, which has already passed once under the Parliament Act, and which Liberal election agents are deeply anxious to see made law before another election, as they believe most of the plural voters are Unionists.

There is still much interest as to how the House of Lords will receive the home rule and Welsh disestab-lishment bills. The Liberals contend that under the Parliament Act no matter what the Lords do the bills will become law on receiving the signature of the King. There are some Uninists, however, who believe that as the act distinctly says they shall become law on the Lords rejecting thom for the third time, if the Upper Chamber simply refuses to consider them they cannot be rejected, and, therefore, cannot become law. The House of Lords, however, would require a lot of urging to take that view, remembering as they would that the people have already endorsed the Parliament Act and any attempt to evade it might have serious consequences for the Unionist party. The Government, therefore, is looking with confidence to a smooth passage for its two chief measures.

ist device to force a disselution of Parliament and thus defeat home rule for Ireland is for the House of Lords to reject the annual army budget bill. If this were done the army would cease to exist, and the Government would be compelled to appeal to the

country. It is believed that such an extreme course is hardly practicable, and the milder suggestion is said to be favored of amending the bill in such manner as to put the army out of existence in Ireland alone, and thus prevent it being employed to coerce Ulster.

WILL NOT SELL ESTATE.

Earl of Derby Refuses to Fulfill Offer to Baron de Forest.

LONDON, Feb. 9 .- The Earl of Derby has declined to sell to Baron de Forest his Bootle estate in the suburb of Liverpool, as at one time appeared likely, on the ground that the Baron had wilfully misrepresented the terms of his offer.

Recently in a contribution to the land enquiry committee's report Baron de Forest cited the Bootle estate of the Earl of Derby as a striking example of unearned increment. The property, which was purchased in 1724 for \$35,000, he estimated to be worth at between \$15,000,000 and \$20,000,000 at present.

Lord Derby declared that the estimates were grossly excessive, and said he would sell the Bootle estate to Baron de Forest for \$7,500,000.

Toll Exemptions No Part of Democratic Policy Say Leaders.

WASHINGTON, Feb. 9 .- The provision favoring free passage for American ships through the Panama Canal was injected into the Democratic platform without the knowledge of the majority of the resolutions committee at the Baltimore convention, according to the assertion yesterday of Representative Adamson of Georgia, chairman of the Interstate and Foreign Commerce Commission. He had met but three or four members of the convention, he said, who knew of the existence of the tolls plank before the platform was promulgated.

Branding the tolls exemption pro-vision as "heretic doctrine" Adamson issued a statement Saturday paying the way for congressional debate on a repealing bill, to be introduced in accordance with the determination of President Wilson that the United States should recognize the claim of Great Britain exemption for American ships is in violation of the Hay-

Pauncefote treaty. Senator O'Gorman, who will fight the repeal provision in the Senate, and Representative Broussard of Louisiana, the Senator-elect from that state, were members of a sub-committee at Baltimore, which wrote the tolls exemption plan into the platform. It was done, it was stated on Saturday, without the consent of a majority of the full committee or Secretary of State Byran, chairman of the resolutions committee.

"I am not at all troubled about the cry," said Representative Adamson, "that repealing the exemption vio-lates the Democratic platform. A subsidy is not a cardinal doctrine of the Democratic party. In fact that exemption is a contradictory interjection into an anti-subsidy plank in the platform and is utterly void.

GLADSTONE TO QUIT.

Governor-General of South Africa to

Give Place to Buxton. LONDON, Feb. 9 .- The Daily News has authority to confirm the rumor, which gained currency during the past week, that Viscount Gladstone, first Governor-General of South Africa, has resigned, but learns that

he will not return home immediately. The News says that the Rt. Hon. Sydney Chas. Buxton, President of the Board of Trade, will succeed him. and receive a peerage, and that Rt. Hon. C. F. Masterman will enter the Cabinet as successor to Mr. Buxton. The News also predicts that other Cabinet changes are imminent.

The Cape Town correspondent of The London Daily Mail says that Viscount Gladstone's retirement is due to the state of his health, and is in no way connected with the recent industrial crisis.

GUSTAVE IS SCORED.

Swedish Monarch's Speech to Peasants Severely Criticized.

STOCKHOLM, Feb. 9. - King Gustave's speech to the 30,000 peasants who attended the demonstration Friday in favor of the increase of Swedish armaments, threatens to lead to a serious conflict in the Cabinet, the members of which hold that the speech was tantamount to severe censure of their policy and that the language was stronger than a constitu-

tional monarch was justified in using. During the court of his remarks the king said that the problem of defence was one which must be solved without loss of time, and declared that on that point he was determined

not to yield. The whole Cabinet intimated its desire Saturday to resign, and in both chambers the king's speech was severely criticized. What is considered the awkwardness of the king's position is increased by the unwillingness of the Conservatives to form a

Springbank Hermit Frozen Stiff When Found by Neighbors.

LONDON, Ont., Feb. 9.-Wm. Ful-ton, known locally as the hermit of Springbank, from the fact that for many years he has lived the life of a recluse in a three-roomed shack on the bank of the Thames, was found dead yesterday by neighbors, who, not having seen him for some days, and suspecting that something was wrong, broke in his door.

The body was lying right behind the door and was frozen stiff, but a doctor who was summoned expressed the opinion that death had been due to heart failure, and that the freezing had occurred subsequently. An inquest will be heid.

Germany Would Like To Stop. LONDON, Feb. 9. - Admiral Von Tirpitz, the German naval minister. has made the interesting confession that his refusal to entertain Winston Churchill's proposal of a "naval holi-day" was mainly due to industrial reasons. Well Marked Earthquake Causes Widespread Alarm.

IT LASTED FOUR MINUTES

Total Oscillation Continued For That Time Says Dr. Klotz of Ottawa, Although It Seemed Shorter-People Rushed Into Streets For Fear Houses Would Topple-Commons Jolted.

OTTAWA, Feb. 11. - A severe earthquake was felt in the capital yesterday at 1.31 p.m., and considerable damage resulted.

Dr. Otto Klotz, assistant astrono-mer at the Dominion Observatory, issued the following official report on the quake:

"A fairly severe local earthquake was recorded to-day at 1.31 p.m. The disturbance lasted about four minutes, that is, the earth oscillated during that time, although it would not be noticeable to persons for that length of time. It was far more severe than the one which occurred on April 28, 1913, and which was felt over an area of 25,000 square miles.

"The distance from the epi-centre (the point on the earth's surface vertically above the point where the quake had its origin) is about sevent/ miles. The earthquake simply means that there has been an adjustment of the stresses of the crust of the earth, so that the earth's coat fits a little more snugly now since comparative

equilibrium has been restored."

Despatches reporting the tremor have been received from Omemee, Burk's Falls, Prescott, Smith's Falls, Uxbridge, Belleville, Gravenhurst, Port Hope, Owen Sound, Brantford, Meaford, and other places.

Articles Scattered to the Floor. MONTREAL, Feb. 11.—The entire St. Lawrence Valley around Montreal was swept by a severe series of earthquake shocks at 1.30 yesterday

Two distinct shocks were felt, one Two distinct shocks were felt, one of about twenty seconds, and the second less sharp, but lasting longer. The occupanis of the upper stories of the taller buildings of the city felt the shocks most distinctly.
No damage has been reported in

the city thus far.
In restaurants and offices tables

and desks were rocked to such an ex-tent that articles were scattered about the floor.

Verdun, suburb of Montreal, felt the shock to such an extent that residents left their houses in fright

and ran into the streets.

At St. Madeleine the record of the shock was obtained by Jacques Car-tier, wireless expert, who was listening at his instruments. Mr. Cartier got a duration of fifty seconds over his instruments, which corresponds closely with the McGill seismograph

record of one minute.

Arthur Rainville, a furmer, was injured while driving along Notre Dame street during the earthquakes. The shock loosened a board from the roof of a building recently burned. The board struck his horses, and Mr. Rainville was thrown from his wag-on and badly hurt.

Balls Rolled Around on Tables. ST. CATHARINES, Feb. 11.-The earthquake was quite distinct here, particularly in the upper stories of buildings. In the billiard rooms unracked balls rolled .r und promiscuously on the tables, while on No. 3 section of the Welland ship canal two shocks were plainly perceptible.

Telephone Knorked Fro: Wall. BROCKVILLE, Fab. 11. - Yesterday afternoon at 1.32 a distinct shock of earthquake, lasting be ween thirty and forty seconds, was felt here. The quake was unusually severe, and lle buildines shook damage is reported. At North Augus-ta, ten miles north of here, a telephone in the residence of Join Mc-Crimmon was knocked from the wall.

Wall Moved Ten or Twelve Inches. CCRNWALL, Feb. 11.—The worst earthquake in the history of the old-est inhabitant of the town passed over here yesterday afternoon at 1.31. In drug stores the bottles on shelves were moved over two inches out of their regular position. At the separate school the wall on the second floor was moved a distance of from ten to twelve inches

Arrangements have been made for a meeting between Sir Lionel Carden, British Minister to Mexico, and President Wilson.

Archdeacon Fletcher, aged 63, climbed 130 feet Monday to lay the final stone on the spire of Tarleton (Eng.) Parish Church.
