

CLUNG TO ROBBER

Toronto Woman's Plucky Fight Led to Burglar's Capture.

WAS RANSACKING ROOM

Mrs. Dr. Frederick Fenton Surprised Well-Known Criminal Going Through Dresser and Seized Him and Hung on in Spite of Shower of Blows — Neighbors Chased and Caught Him.

TORONTO, Feb. 16.—Mrs. (Dr.) Frederick Fenton is portrayed in her home, corner of Bloor and Church streets, as a result of a terrifying encounter with a desperate burglar on Saturday night and the story of the plucky fight put up by her is the feature of conversation in police circles.

As a result of Mrs. Fenton's grit her assailant is now in the police cells, she having detained the desperado single-handed until the alarm had been spread and a posse of neighbors and pedestrians ultimately ran the culprit to earth after a break-neck chase over fences and through several yards.

Mrs. Fenton was quite ill and confined to her room yesterday. She has a badly discolored eye and several bruises about her head, the effect of the ruffian's heavy blows.

Jack Gowans, no home, a person who is well-known to the police, is the prisoner, and he is charged with an attempt at burglary, and owing to his peculiar appearance the police feel that they can connect him up with other recent occurrences.

Shortly after 8 o'clock Saturday evening Mrs. Fenton heard heavy footsteps in a room on the second floor of her home, and knowing that her husband was absent went to the room to investigate. She opened the door and found Gowans ransacking the drawers of a dresser. Mrs. Fenton demanded an explanation.

Gowans, seeing that the only avenue of escape from the room was blocked by Mrs. Fenton, who stood in her doorway, made an effort to brush Mrs. Fenton aside. When Gowans reached the doorway Mrs. Fenton seized him and shouted for assistance. Gowans tried to throw the plucky woman off, but she clung to him and finding that she would not release her hold he dealt her several heavy blows on the head.

The sound of the struggle in the hallway above brought children who were in the house. The children quickly realized what had happened, but before they had brought assistance from Bloor street Gowans had escaped into the back yard and had scaled a six-foot fence to Church street. He was seen racing down Church street by several pedestrians, who followed him. Gowans took to back yards on Charles street in an effort to escape. His pursuers, however, were equal to the occasion and caught him in a lane near the corner of Charles and Church streets. He was then handed over to Constable Lowery.

GIVES ORGANS TO SCIENCE.

Viennese Professor Bequeathes Eye, Heart and Brain.
BERLIN, Feb. 16.—Prof. Doerfler of Vienna has bequeathed one of his eyes, his heart and brain to the Physics Museum at Jena as a contribution to the foundation which will be established to-day on the occasion of the eightieth birthday of Prof. Ernst Haeckel. Prof. Doerfler, who edits a magazine devoted to Haeckel's theories, writes that he is so poor that he cannot give anything except his corpse to the museum founded by Haeckel, "and not even all of that," adds Prof. Doerfler, "as my native town has secured my promise to let it preserve my ashes in a memorial urn, but there's nothing preventing the transfer of one eye, my heart and my brain to the museum, which urgently requires anatomical exhibits for the purpose of establishing the truth of your great principles."

Official Kills Himself.

BUFFALO, Feb. 16.—John J. Kennedy, state treasurer, committed suicide shortly after noon yesterday at the Markeen Hotel, where he had lived with his family for about a year. He was found in a small lavatory off the hotel ballroom, with his throat cut and an open razor lying on the floor beside him. His jugular vein had been severed and death occurred before a doctor arrived.

A flash of temporary insanity induced by worry over his impending appearance before a New York grand jury, where District Attorney C. S. Whitman has been conducting a John Doe graft inquiry, is said to be the cause.

Coulthrust Is Remanded.

BRIDGEBURG, Ont., Feb. 16.—Edwin Coulthrust, the deputy returning officer, who was arrested in connection with the vote on the Scott Act in Welland County, was again remanded yesterday, when the case was called. The lawyers on both sides agreed that it was advisable to wait for the result of the recount. The case comes up again on Thursday.

Eight Go Down in Wreck.

LONDON, Feb. 16.—Eight men were lost Saturday by the sinking of the freight steamship "My Own," which went down in the channel off Shoreham. The captain alone was saved.

Life-savers hurrying to the foundering vessel found only the captain clinging to the rigging, and took him off.

Lord Minto Very Low.

LONDON, Feb. 16.—Lord Minto's condition last night was stated to be very grave.

A Chain of Facts about TORONTO

10,000 new houses needed in Toronto every year.

Nearly 2,000 acres of new home-site property is required every year in Toronto.

20,000 new houses needed in Toronto to-day.

Toronto will soon be the finest residence city in America.

One Hundred Million Dollars Being Spent On The Development Of Greater Toronto

This is the biggest plan of improvement ever undertaken by Toronto, and heralds in a period of unprecedented commercial activity and prosperity.

It has already given a powerful impetus to business of every kind. When this magnificent plan is finally completed Toronto will be the finest residence City on the American continent. It will have one of the best harbors in Canada, not only from a utilitarian point of view but from a standpoint of beauty. What is now the railway esplanade will be a raised viaduct to a \$2,500,000 station. From the Humber to Scarborough will be a magnificent concrete breakwater and boulevard along the whole length of the island.

Toronto will be not only the railway centre of Canada, but one of its greatest shipping ports. Great development work will take place around the present outskirts of the city. Toronto will really be two cities—the industrial section down town and the great residence district of magnificent homes along the highlands to the north, where Lawrence Park and Strath Gowan are situated.

Never before in the history of Toronto has there been such an opportunity for safe, profitable real estate investment as is today offered by certain districts in the City.

TORONTO

Is Growing At The Rate Of Thirty To Forty Thousand A Year

Toronto is just now passing the half million mark. Its population has doubled in ten years, and it is confidently expected to reach the million mark before 1923. This means that during the next decade realty values will be many times what they are now, the city will have doubled in size and the foresighted investors who have the wisdom to purchase now will find their Toronto realty holdings the most valuable asset they could have.

With the growth of Toronto all sections of the city will naturally show an increase in land values, but there are certain properties which on account of their location will advance more rapidly than others. It is to show you just what these locations are, and why they will increase in value that we have sent our representatives to your city, and the experience and knowledge of our whole organization is now at your disposal.

As we have said before, we are the largest real estate firm in this country—our holdings in valuable Toronto real estate are enormous, and the investors who took our advice, depended on our judgment and invested through us during the past years have made profits that would have been impossible had they depended on their own judgment.

We are the Home Builders of Toronto We Convert Raw Land into Magnificent and Valuable Residence Property

Toronto is pre-eminently a city of homes. The Toronto man's first ambition is to buy a home for his family. He is not satisfied with a rented house, with a flat or even luxurious suite of apartments. He wants his own home, whether it be an unpretentious little house or a mansion.

This is the principal reason why there is such a demand in Toronto for improved homesite property where building operations can commence at once.

No organization or company in Toronto has done so much as ourselves to foster this home-loving spirit. We have created for the home-seeker the most beautiful and charming residence parks to be found anywhere in Canada. We have opened up subdivision after subdivision, developed them and filled them with fine substantial homes. Land that a few years ago was farm land is now a solidly built up, integral part of the city.

All this we have done because we have studied Toronto's needs for years, watched its growth and foreseen its development.

STRATH GOWAN—the Beautiful

A woodland in the midst of Toronto—a shadowy forest surrounded by the city's growth—the old homestead of Jesse Ketchum, whose name meant much in Upper Canada.

It is seldom that land developers have such a naturally beautiful property on which to work, and by the time our \$50,000 development work is completed, Strath Gowan will be one of the very choicest residence parks in Toronto.

The demand for new, beautifully situated, and well restricted building lots in high class residence property is becoming keener every year as the tremendous influx of newcomers is forcing the wealthier class of residents from the older districts of the city.

Probably no property we have ever placed on the market offers better advantages and greater possibility of profit to investors than STRATH GOWAN, and we can confidently recommend the purchase of one or more lots to our clients and all others who are looking for a safe and profitable investment.

Our Mr. H. C. Lapp is now in town and will be glad to quote prices and terms at the office of our local agent.

PORT HOPE, FEB. 20, 1914

FLYER LEFT TRACK

Engineer Is Killed and Fireman Hurt in C.P.R. Wreck.

PASSENGERS ALL ESCAPED

Montreal-Toronto Train Struck Broken Rail Near Lakerman, Ont., and Was Ditched—Engineer Grant Buried Under His Locomotive While Fireman Was Hurled Into a Field.

SMITH'S FALLS, Feb. 18.—Engineer Robert Grant of Montreal was instantly killed, Fireman Ernest Anderson, of Smith's Falls, sustained a fracture of the leg, and nearly a dozen others were slightly injured in a wreck on the C. P. R. between Mountain and Inkerman, about 1.30 yesterday afternoon.

The escape from death of many of the other passengers and trainmen is considered miraculous, as two of the coaches were badly smashed by coming in contact with the overturned engine. There were, however, not more than 50 passengers on the train and comparatively few in the cars which bore the brunt of the shock.

The train was a heavy one, consisting of the baggage, mail and express cars, six day coaches, two Pullmans and diner. Had not the engine overturned, it is probable that no great damage would have occurred.

The wreck is believed to have been due to the action of frost heaving and breaking a rail.

EXPLOSION NEAR TRAIN.

Passengers Hit By Debris From Discharge of Dynamite.

QUEBEC, Feb. 18.—Through what appears to have been a blunder, several passengers on the incoming G.T.R. express yesterday morning were endangered by a dynamite explosion at St. Romuald.

The G.T.R. express, due at Levis at 7 a.m., was two hours late. Construction work on I.C.R. double track is under way near St. Romuald, and a fuse for a dynamite blast was lighted just as the G.T.R. express was nearing St. Romuald.

A line man was sent to flag the train, but was too late. The train was stopped and the blast went off. Every window in one side of the first-class car was shattered by the flying debris, and passengers were knocked down and cut about the head and body.

COMPANY WOUND UP—This week at Osgoode Hall, Toronto, an order was made by Mr. Justice Middleton, winding up the Tudhope Motor Co. of Orillia.

Cox Wins \$500 Suit—Judge Roger held a special session of the County Court, in Cobourg, Wednesday, to try the case of Cox v. C. P. R., an action for \$500, value of cattle killed on the railway, which escaped from the Cox farm during construction work on the C.P.R. by reason of alleged negligence of workmen.

CLEANEST CITY—The city of Bonham, Texas, which has just won the prize offered by a magazine in the cleanest city in Texas, has in its central square a well-equipped restroom for women, which is attended by a matron.

SOME CHARGES—The proprietors of moving picture shows in Montreal were sued for keeping their places open on Sunday, and engaged a lawyer, J. O. Lacroix, to defend them. It was ultimately decided that no conviction could be had under the Quebec Sunday observance law, when the lawyer put in his bill for over \$13,000.

THE HIGH COST OF LIVING.—Mr. and Mrs. Thomas S. Thorpe of Bradford celebrated their golden wedding last week.

A CHANCE—Here's a chance for Port Hope market gardeners. The Montreal Herald says: A French experimenter claims to have crossed the potato and mushroom with gratifying results.

MANY PERSONS MISSING—The report of the New York police department for the last three months of 1913 as made public Thursday was chiefly remarkable for the number of missing persons during the quarter.

PORT HOPERS WERE TAKEN IN.—Two young men posing as students working their way through college are accused of having victimized at least 2,000 citizens of London, and residents of other Ontario cities also.

THE MONTH OF FEBRUARY.—There are four weeks in February exactly, beginning on Sunday and ending on Saturday.

WORTHY OF AID.—We see in Cobourg Sentinel-Star that it was on motion of J. C. Hayden, Reeve of Port Hope that \$200 was granted at Counties Council to the hospitals at Cobourg, Port Hope and Bowmanville.

THE HIGH COST OF LIVING.—Mr. and Mrs. Thomas S. Thorpe of Bradford celebrated their golden wedding last week.

Over 100 dozen fine shirts at and below cost at Gould's sale.

ACCIDENT—Miss White, Victoria street, while on her way to church Sunday evening slipped and fell fracturing her leg just above the ankle.

DECIDED BY CARDS.—"Let's cut the cards to see who will kill one of this bunch!" This method was used to select the executioner of a rival gangster who had been cornered, according to a statement made to Judge Fawcett, at New York, by an assistant district attorney when three gangmen were arraigned on a perjury charge.

ROBIN CEMENT—The cement commonly used for fastening the tops on kerosene lamps is plaster of Paris, which is porous and quickly penetrated by the kerosene.

SECURED DAMAGES—Tuesday's Montreal Herald says: The first claim for damages from lead poisoning ever to be brought in the local courts under the workmen's Compensation Act, was disposed of this morning by Justice Beaudin.
