DIVISION COURT

George Caldwell and Township No Reports on Water or Milk of Hope Have a Lengthy Fight Over \$3.00

The case which drew the audience at Division Court, Wednesday afternoon, April 22, was between George Caldwell and the Township

of Hope for the sum of \$3.00. Mr. Caldwell, while crossing a culvert in the Township of Hope, had the misfortune to damage his wagon, the repairs to which cost \$3.00. Mr. Caldwell asked the Township to pay the account, and upon their refusal it was placed in the hands of the bailiff for collec-

From the evidence it was clearly shown that the culvert was defective and the Council had rather neglected road work on this side line. His Honor Judge Roger gave judgment in favor of Mr. Caldwell for \$1.00 without costs, with the exception of two witnesses. The case will cost Mr. Caldwell more than the amount he sued for, and the Township could have settled at the amount claimed by Mr. Caldwell at considerable gain.

The Metal Shingle and Siding Co. sued Mr. Fraser of the Township of Hope for \$19.46 for material sup-plied to him. Mr Fraser pointed out that the material supplied to him by the Company was unfit for use and the delay caused by awaiting a second shipment put him to considerableinconvenienceand expense. The material was used on a new barn and the Company guaranteed that this sheeting was lightning proof. Shortly after the sheeting was put on, the barn was struck by lightning and damaged. Mr. Fraser had a counter claim of more than \$100.00 and His Honor dismissed the claim of the Roofing Co. and the counter claim was not tried.

C.A. Merrifield sued Richard George for \$10.00, the price of a counter. At the last court Mr. George was ordered to pay \$5.00 and costs but he had neglected to do so. The court now ordered that he pay the \$5.00 and costs within ten days or full amount of the claim would be

95th ANNIVERSARY

Of Independent Order of Oddfellows - Durham Lodge Attend St. Paul's Church

The 95th anniversary of the establishment of the I.O.O.F. on the American continent was fittingly observed last Sunday evening, by Durham Lodge No. 78, attending Divine service at St. Paul's church, There was a large turn out of the brethren, the local ledge being accompanied by many from Cobourg and other places.

The pastor, Rev. T. D. McCullough occupied the pulpit, and in his opening remarks, extended a a warm welcome to the Triple Linkers and congratulated them upon the grand work that the order had done and was still doing for the alleviation of human suffering and distress, and helping to bind men more and more into a common brotherhood. The reverend gentleman took his text from Judges 12: 6, from which he preached a very practical and helpful sermon.

The music by the organist and choir was splendid. The two anthems were beautifully rendered, and the trio by Miss Meyers, Mr V. Williams and Mr. W. Blood was

much enjoyed. On returning to the lodge room, also given by several of the breth-

BOARD OF HEALTH

It Was All Privies and Cess Pools

The regular meeting of the Board of Health was held Thursday afternoon. There were present, T H Ambrose, chairman; Mayor Bush, H Fulford and Dr Dickinson.

Notwithstanding the chlorinating of the water which is anything but pleasant to the consumers, no mention was made to our water supply. We do not know whether the water is fit to drink or filled with germs. Dr Dickinson takes particular pleasure in keeping the public in the dark and the Board appear to uphold him. This month there was not even a report on the milk tests. It was an afternoon on privies and cess pools and Dr Dickinson was appointed a committee of one to go to Woodstock to secure information regarding the work of the Sanitary bylaw. Surely a copy of the bylaw would have been sufficient without this

further expense.
It is understood that the Board intends to have all closets on property where sewers pass, removed. Miss Edith Perks complained of

the sewerage from a stable on the property of Mr James Ray, running past her dwelling house, now occu-pied by Mr H Wheatley. It was

very offensive.
The Sanitary Inspector reported that he had examined the place and found no cause for complaint.

Mrs Martha Carveth objected to the condition of the lane at the west of her house. All winter, asbes from this lane had been coming in her front door and lodging on the verandah, making a garbage pile at the end of the verandah all the time. Mrs Carveth asked that the nuisance be remedied.

It was referred to the Sanitary Inspector for investigation.

Mr Oliver H Moffatt complained of a pool of water at the south end of Princess street, near his front gate and he considered it injurious to the health of his family.

The matter was referred to the Street and Bridge Committee of the Council.

It was moved by Mr Fulford, seconded by Mr Bush, that the Sanitary Inspector make an examination in reference to a sewer , presumed to be opened near the neck-

Moved by Mr Fulford, seconded by Mr Bush, that the Medical Health Officer go to Woodstock and obtain information and details as to the working of the Sanitary by-law.

Moved by Mr Fulford, seconded by Mr Dickinson, that a draft of the Privies by-law be referred to the Council for consideration and action. The Board will recommend Mr bert Mountain to the Council for the position of public scavenger.

CHLORINATED WATER IS POISON

Dr. Hodgetts is Strong in Condemnation of it

The fight put up by Alderman Yeoman and his supporters two years ago against slow sand filtration has been more than justified by the report of Commissioner Harris in favor of mechanical filters

Slow filtration has entailed on this city continuous use of chlorine to ensure a safe water, to kill the typhoid germ which the filter does not slay.

If anything further were needed votes of thanks were passed to Rev. to prove the absolute correctness Mr. McCullough, the managers of the church, and also to the organist in the absolute condemnation of and choir, to which the pastor brief- chlorination by Dr. Hodgetts recently ly responded. Short addresses were made at Ottawa. The former secretary of the Ontario Board of Health calls water continuously doped with chlorine a poison. Mayor Hocken has expressed the hope that some time Toronto may do without the poison.

case of an emergency when that municipality could not get water in any other place, and only at that particular time was the hypochlorite treatment allowed. A year or so after there was another outbreak in another town and its use was again

introduced, and again it was only permitted as an emergency measure. The American engineers, thinking they had a great thing, came along and introduced the hyphochlorite treatment in all water supplies, and this is a matter I feel very strongly on as a Canadian. This hypochlorite treatment has been used and is being used by the American engineers for the purpose of preventing the accomplishment of the very object you are trying to cover by the bill now before this committee, namely, the pollution of our water supplies by raw sewage discharged into the rivers and

streams.

If you are pouring raw sewage into the source of your water supply and then treating it with hypo it is all humbug to say you are safe. I am telling you, gentlemen, the actual facts. That is how its use was first allowed in England for a short time, as an emergency measure, but it has been used by the American engineers as a system to be adopted for all time. No sanitarian can say that it is a proper thing to use constantly in a water supply. Over every tap through which such doped water is supplied should be placed a label "Poison" and the government or municipality should insist upon such a label being there. The people of this country rely upon a broken reed every time they rely upon the hypochlorite treatment of their water supply. You will pardon me, gentlemen, for speaking so strongly, but I feel that no sanitarian can say anything too strong in condemnation of the practice. It is a false position in which to place every man, woman and child in any community when we make them depend upon such a supply for their use day in and day out. Toronto Telegram.

The Conservation Commission of Canada is seeking in conjunction with American bodies to bring about a day when pollution shall cease. In the meantime Port Hope is chlorating or in Dr. Hodgetts words "poisoning the people with chlorine."

THIS MAN HAS ONE WIFE TOO MANY

A bigamist from Eldon appeared this morning before County Magistrate F. D. Moore, K. C., to answer to the crime of taking to himself another woman while the first still lived.

The prisoner who was charged with taking the second awful chance in the bonds of matrimony, was a very unkempt looking mortal and just the style of a man who could be easily led, but it is difficult to see how he could be loved. He wore a big knitted cap, had several weeks' growth of sun-burned whiskers on his face and he had a shuffling gait, and turned his toes in when he walked. He is a man of about 43 years of age and was accompanied by his father, a venerable and respectable looking old man.

Magistrate Moore, after inform ing the prisoner that he was charged with being a bigamist, read the bond which was framed to bind father and son in two sureties of \$500 each to appear in Lindsay before the County Magistrate on the 24th day of April next, at 11 o'clock in the forenoon, when the case will be fully ventilated .- Lindsay Warder.

This merchant also pointed out that his taxes every year were high while on the other hand the town received no benefit from the Montreal firm The action of the Council sets a very bad example to the citizens whom they epresent. It should be the slogan of every consumer to never send away for goods that he can just as well buy at home. Every time you send a dollar to a mail-order house that dollar, as far as you and your community are concerned, is practically out of circulation. I heard in the connection with the administration earlier years, many criticisms of his leniency, but I came to the conclusion before I was many years at the Bar, that he was another Sir Samuel Romilly, fifty years ahead of his time, changing the administration of criminal justice from a semi-barbarous tradition to the best humanithese pithy words. He said that the swiftly flying years are taking "Judge Benson was a gentleman him from us, and those of us whom in the truest sense of the word." I thank you from the bottom of my heart for these remarks that have been made.

- HIS HONOUR, JUDGE WARD:

My Lord, and Gentlemen of the Bar: not only to your Lordship for the kind words which you have uttered of the Bar who have also spoken so kindly. I may say, that in accept-ing the position of Judge of these United Counties, I recognized two very strong reasons why I should not undertake the responsibility. One of them was, that I realized, to the full, the difficult task I had before me in following so eminent a Judge as the gentleman who is now retiring. Another thing, I had my doubts, I do not know why, as to how my name would be received by the members of the profession in these United Counties. After the kindly expressions which have been given to-day, as to my succeeding my friend Judge Benson, I cannot but feel great relief in taking up the duties of this very responsible posiion. I look forward to the cordial relations being continued in the uture, between the members of the Bar and myself, as, I am happy to say, have always existed in my long practice here, and it is a great satisfaction to me, in assuming this high position, to know that I will have that assistance and support from the members of the Bar that my good friend here has always received, and t will be my aim, as far as in me ies, to justify the action of the Gov ernment in having appointed me as the successor of my revered friend, Judge Benson.

I thank you most heartily, my Lord and gentleman, for the kindly manner, in which you have referred

CANAL ON WAR FOOTING.

Governor Goethals Takes Step Because of Mexican Sentiment,

PANAMA, April 25.—Col. Geo. W. Goethals, Governor of Panama Canal zone, yesterday issued orders placing the canal zone on a strictly war foot-ing. He instructed Major Gerhardt, commanding the 10th Infantry, to send two companies of infantry to patrol the Gatun locks, and one each for duty at the Miraflores and Pedro Miguel locks The soldiers were given 100 rounds of ammunition each, and will camp near the locks.

The operating machinery of all the locks will be securely locked and the keys placed in the possession of Col.

Goethals. It is understood that coast artillery companies will be distributed among the fortifications on Flamencol and Culebra islands, at the Pacific end of the canal, and also at Toro Point and other forts at the Atlantic end. The action of Col. Goethals is be-

lieved to have been the result of anti-American sentiment contained in the fly sheets, which were making their appearance in the streets of Panama, and also expressed editorially in El Diario, which is strongly pro-Mexican.

Check those Colds in the Head with FOSSAL BALM

As you know, "catching a cold" simply means allowing the germs of a cold to catch you.

Usually these germs, which abound wherever people congregate, gain their first footbold in the mucous membrane ining the nasal passages. Here they multiply if unchecked, and quickly set up an inflammation. Then follows that smarting, burning, stuffed up, "headachy" feeling—that cold in the head that is so depressing and so likely to develop into something more serions.

Fossal Balm goes right to the spot, kills the germs and checks the cold. Fossal Balm is an antiseptic, healing Fossal Balm is an antiseptic, healing ointment, put up in a collapsible tube with a lohg, nozzle-shaped opening. This little nozzle, inserted in the nostril, carries the Fossal Balm well up into the passage, where it quickly spreads over the inflamed membrane, destroys the germs that are causing the trouble, soothes the irritation, clears the passages, and gives grateful and lasting relief.

tameness of the sending off.

Another of the matters which had been settled satisfactorily was Mrs Leopold Freymuth's departure from Pinehurst. She had decided, after all, not to wait until she was "dragged out."

In answer to Hermione's entreaties, Ray had consented to allow the disappointed woman an income of two hundred & year so long as she remained a widow. Ada had been badly treated, and, even allowing that she had deserved it, that was no reason why they should constitute themselves her judges.

"But you must please understand, Mrs Leopold," Ray had explained, when placing this offer before herspeaking in the very quiet but deci-sive manner which, Hermione declared laughingly, made her a little bit afraid semetimes -"it must be clearly understood that this income or fifty pounds a quarter begins and ends all communication between us. I don't think I am unforgiving, but I find it very difficult to forget how you behaved to Hermione and her mother when the power was all in your own hands. Hereafter, in no circumstances whatever, will it be pleasant to me to receive you as a guest in my house."
"Which I consider was a simply

brutal thing to say," Ada told her sister afterward. "I don't see what harm it could have done them to have had me there for a month or two, now and again; as a member of the family, I should have had a recognized standing in the house. I might have filled up my time between here and there.'

"Not here, Ada!" Mabel answered sadly. "I have promised Alaric that, as soon as he is strong enough to stand the journey, I and baby will be ready to go with him to the Cape. He has the offer of a partnership there, and he will be rejoiced to say 'Good-by' to Northcliffe and its sorrowful memories."

"The Cape?" queried Ada, quite aghast. What in the world does he want to go to the Cape for?"

"He knows that his share of this shameful Pinehurst business is bound to get wind and be talked about, no matter how much 'Mione may try to prevent it," replied Mrs Deane, her pretty blue eyes full of tears, "and he says that he could never stay with such a disgrace on his name among the people who have known and respected him all his life."

"But surely, Mabel, you won't let him drag you off, too? Why should you be condemned for his wrongdoing? Make him give you, an allowance, and stay in England, and we will go into joint housekeeping." But notwithstanding all that Mrs

Deane had suffered, and would still continue to suffer, she was shocked by the intense selfishness of this suggestion.
"In his trouble how could I send

him away by himselt?" Mabel de-manded. "Baby and I are the only The do bits of comfort he has left. Besides, Ada, I don't feel so sure that I am quite blameless in all that happened. If I had been more economical, and more contented with things as they were, instead of always worrying him to let me spend money in some foolish way or another, we should have had enough for all our needs, and we might possibly still have had our darlings with us."

"But," persisted Ada, "if you go, what in the world is to become of living on this paltry allowance, after all the abundance and luxury of the last six months? Good heavens, it is enough to drive a woman to commit suicide. To think that I should have given up a jointure of five hundred a year for

There was a general laugh at oitchers' notion of the division of labor, but it proved to be not so very far wrong in the long run.

It had been understood from the first that the doctor had set his heart upon giving a full explanation to Hermione and Ray before they went away on their wedding tour, for, long before their return in September, the Deanes would have left Northcliffe forever. It was an erdeal which both would have gladly evoided, more on the doctor's account even than their own. But Hermione received a note from Mabel on the day before the wedding, beseeching the bride-elect so earnestly not to go without seeing"poor Alaric," that they could no longer refuse.

So, after dusk the lovers walked down quietly to the house in the dip, where Mabel had meant to be so happy and gay. She was awaiting them in the "square hall" upon which she had set such store, looking very tragile, but prettier and sweeter than ever, as Hermione thought.

"You won't be hard on him?" Mrs Deane whispered, as she kissed her old friend and raised tender, pleading eyes to her. "He has sinned terribly, but he has suffered for it. Don't wound his feelings more than you

CHAPTER XXVII.

THE QUALITY OF MERCY.

Doctor Deane was sitting by a large open window, which looked aross the gardens to the sea. There was but a very dim light in the room, but, Hermione noticed at her first glance how, as the doctor lay back in the depths of a big square chair, he appeared to have shrunk and dwind-

led to half his former breadth. He had evidently heard their arrival, and possibly his heart had failed him at the last moment, for his crouching attitude almost looked as if he would have hidden from them if possible.

Hermione went quickly across the room, and, stopping, kissed his

Why should she care for the decrees of a God who had abandoned her!

There had been nothing in the life of Mary Turner, before the catas- demurely enjoyed a modest appretrophe came, to distinguish it from many another. Its most significant details were of a sordid kind, familiar to poverty. Her tather had been an unsuccessful man, as success is mon-worshipers. He was a gentleman, but the trivial fact is of small avail to-day. He was of good birth, and he was the pessessor of an inwell, intelligence, but it was not of a financial sort.

So, little by little, his fortune became shrunken toward nothingness, by reason of injudicious investments. He married a charming woman, who, after a brief period of wedded happiness, gave her life to the birth of a single child of the union, Mary. Afterward, in his distress over this loss, Ray Turner seemed even more incompetent for the management of business affairs. As the years passed, the daughter grew toward maturity in an experience of ever increasing penury. Nevertheless, The lids of the girl's eyes lifted there was no actual want of the slowly, and she stared at the panel of necessities of life, though always a that had been his own. That was goods not the value of a pin.

Yet, measured according to the stern standards of adversity, Mary was fortunate. Almost at once, she procured a humble employment in the Emporium, the great department store owned by Edward Gilder. To be sure, the wage, was infinitesimal, while the toil was body-breaking, soul-breaking. So she merged herself in the army hideous thing on which she looked of workers-in the vast battalion of those that give their entire selves to and most ill rewarded.

Mary, nevertheless, avoided the worst perils of her lot. She did not flinch under privation, but went her way through it, if not serenely, at least without ever a thought of yielding to those temptations that REFUSED RENEWAL beset a girl who is at once poor beast finds a mocking imitation of that, the cul de-sac of chastity, worse with vicious gossip, all alive with the very outset of her employment, she might eke out the six dollars held so fixedly their gaze on the weekly by trading on her personal attractiveness to those of the oppothing. She was one of those that possess an barmonious beauty, with, too, the penetrant charm that springs from the mind, with the added graces born of the spirit. Just now, as she sat, a figure of desolation there on the bed in the Tombs cell, it would have required a most analytical observer to determine the actualities of her loveliness. Her form was disguised by the droop as exhaustion. Her complexion showed the pallor of sorrowful vigils. Her face was no more than a mask of misery. Yet, the shrewd observer, if a lover of beauty, might have found much for delight, even despite the concealment imposed by her present condition. Thus, the stormy glory of her dark hair, great masses that ran a riot of shining ripples and waves. And the straight line of the nose, not too thin, yet fine enough for the rapture of a Praxiteles. One could know nothing accurately of the complexion now. But it were easy to guess that in happier places it would show of a purity to entice, with a gentle blooming of roses in the cheeks. Even in this hour of unmitigated evil, the lips revealed a curving beauty of red - not quite crimson, though near enough for the word; not quite scarlet either; only, a red gently enchanting, which turned one's thoughts toward tendernesswith a hint of desire. It was, too, a generous mouth, not too large; still, happily, not so small as those modelled by Watteau. It was altogether winsome-more, it was generous and true, desirable for kisses -yes!-more desirable for strength and for faith.

He was there to fulfil the law, and he was to have not only the backing of the Police Committee but of the Council. There had been some and in doing so he had fully expres-sed himself. IN TOWNS

The Chief of Cornwall Speaks Along the Same Line as Mayor Bush

The following extracts of a report on Police Administration in towns given by Chiet Smyth of Cornwall. at the Chief Constables Association recently is along much the same line as set forth by His Worship, Mayor H: T. Bush and will be read with

interest by many of our citizens.

The old saying had it, that "The Policeman's lot is not a happy one," and with the growing complexity of life, and conditions in many of our Towns, and the increasing duties imposed on our Police Forces, the words of this familiar old ballad now seem more true than ever.

The public at large-that free and careless public-strong in its confidence and reliance upon the laws of the land, and the vigilance and thoroughness with which the laws are generally enforced, gives but little thought to the men, whose duty it is to see to the enforcement of those laws.

The average citizen has been accustomed all his life long to the spectacle of the Policeman pacing his rounds, day after day, and has finally accepted him as one of those things which and exist asa mere matter of course.

Very rarely does the average citi zen stop to enquire into the special qualities, which, at this day and labors are not so manifold and date, each Police Officer must possess, and still less frequently does he think of the numerous, and varied, and diverse duties which each Policeman must at all times hold himself in readiness to perform.

In very few, if indeed any other calling in life, must a man be posessed of such a combination of trained mental and physical qualities. He must not only be familiar in a quick finger-tip fashion with general Criminal Law, but he is also supposed to have some general knowledge of the principles on which that law is founded.

He must have some well grounded arrests, and of the cases and instances, and circumstances in and under which arrests may be made without warrants, without which he his Municipality, to actions for guard and protect them, but any damages for illegal and unauthor- movement to increase the salaries

Apart from General Criminal Law how many of our citizens are aware of the study each of us must make of the various Acts of our Dominion Parliament, and Provincial Legislature, and their amendments, which throw special burdens upon the Municipal Police?

I might mention amongst others, the Criminal Code, Laws against the "Truancy Act," the law of for- ness, and the best part is brains. bidding the sale of tobacco to tend the list, while to refer, even By-laws enacted under our Munici- | are made, not born. pal Act would prolong the paper

haustible patience and dignity. We' tion to the wayfarer, and animated

An angry, excited or brutal officer, is not only practically useless, but danger. It goes without saying, that phy-

sical courage is absolutely pre-

requisite-a coward has no place on a Police Force. If a Police Force is lacking in harmony of action, and consequently effectiveness, the fault, I venture to say, will, on investigation, in almost all cases be found not to be the fault of the Chief, but with some officious Town Legislator.

POLICE ADMINISTRATION The weakness is not so much in the Feeding Hogs for individual as in the system. Many towns might with profit

amend their By-laws, and more clearly define the duties, rights and responsibilites of their Chief Constables. This association might prepare a draft By-law for the purpose, and submit it to a future Convention, and if the Government thought fit, that By-law could be made a Statutory Law and be in force in all towns in the same manner as the Statutory Law known as the "Public Health Act" is in force in all municipalities having a Medical Health Officer and Sanitary In-

spector.

Considering the lives our Police lead the special qualities demanded in them, the duties they perform, the risks and dangers they assume, and the responsibilities of their office, I say without fear of contra diction that they are the most poorly paid men in any walk of life.

The Police Officer must be on duty each day or night, rain or shine, fair weather or foul, and must hold himself in readiness for call each hour of the twenty four.

The street laborer is paid \$1.50 or \$1.75 per day, and his work begins and ends at the stroke of the clock. The Carpenter, Bricklayer, or Mechanic draws from \$2.50 to 84.00 per day. The Firemen who keeps the fires under the boilers in our factories, works a stated number of hours each day or night, and as a rule is paid more than the average Police Officer.

An ordinary Civil Service Clerk draws a larger salary than the aver age Blue Coat, and his duties and

Living is more expensive than it formerly was, and is becoming more costly as the years pass by. Salaries and wages in all other callings have been raised to meet the new conditions, but the Policeman, faithful, vigilant, watchful and keenly alive to protecting the property and persons of the public, has been overlooked.

What to do is the problem. Each Municipal Council as it goes from office, deplores the increasing expenditure, and each Council as it comes into office promises economy. Grants are made, and large sum information of the law governing are annually spent by our Munici palities in extending and improving our streets, parks, public buildings and places of recreation, all of which add just so much to the duties would speedily expose himself, and of those whose business it is to of the Police to some appropriate amount is frowned down as a rule.

> The average Councillor thinks it is an easy matter to find a good policeman. He imagines that all that has to be done is to pick up some burly fellow, put a Police uniform on him, place a baton in his hand, and then turn him loose on the unsuspecting public.

Experienced Aldermen and Coungaming and gambling, houses of ill cillors know better. A Policeman fame, the "Liquor License Act," uses his body and brains in his busi cillors know better. A Policeman

Profit Competition

DEAR SIR,-The Department of Agriculture is arranging to conduct a Feeding Hogs for Profit Competition with the hope that it may result in securing valuable information re the feeding of swine and demonstrate the profitable side of the industry.

The regulations are as follows:--This competition shall be confined to farmers' sons under 25 years of age or those who have taken a course of agriculture under a District Representative.

There must be five entries before the competition can be conducted. Entries close June 1st, 1914.

Hogs are to be weared at 6 weeks and fed until 'seven months old, when they will be carefully inspected and weighed by the District Representative. All reports must be in by December 10th, 1914. Each contestant must feed 3

A fourth may be fed hogs. and used as a spare in case of accident or disease.

The hogs must be fed and cared for by the contestant and an accurate account kept of the kind and amount of food consumed. At the time of entry the Dis-

trict Representative will inspect the hogs and mark with ear tags or in some equally suitable way. He will also give the contestant directions re keeping accounts.

A uniform price will be allowed for the various kinds of feed used. Refuse from house not to be fed.

Suitable blank forms will be supplied for making a statement of costs.

The prize will be free transportation and living expenses to the Two Weeks' Course in Stock and Seed Judging at the O. A. C., Guelph, in January, 1915. The winner will be selected on the tollowing basis:-(a)-50 points for highest net profit.

(b)-50 points for type and finish; this judging to be done with bacon hog score card. (c)-Where there are more

than 12 entries, two men will be sent to Guelph. Thus the prize will go to the man

who best combines economic feeding and ideal type. Contestants will kindly send me

their entries at once. Yours very truly, R. S. DUNCAN, District Representative. Port Hope, April 21st, 1914.

Address and Presentation

The members of the Adult Bible Class of Welcome Sunday School gathered at the home of Mr. and Mrs. Thos. Martyn, Welcome, on Friday evening, and presented Miss Bertie Martyn with a beautiful mahogany rocker. The following address was read by Miss Viola Thompson and the presentation was made by Miss Ethel Williams-

ADDRESS

DEAR MISS MARTYN,-For many years we have mingled together both in public and Sunday School, and our companionship has been of the most cordial character. We have heard of your approaching marriage and we meet here in your home to congratulate you and to show you in a meagre way by our highest esteem by us all. In your your future may (if it is possible) be more happy and prosperous than your past. We are glad you are to continue to live in our neighborhood and we shall watch with continued interest both for your things.

Signed on behalf of your many friends-

MR. T. ROBERTS, MISS M. HENWOOD, MISS V. THOMPSON,

MISS E. WILLIAMS. Miss Martyn, although taken by surprise, made a suitable reply.

Speeches were made by the Rev. Mr. Hill, Mr. Roberts and Mr. White. The remainder of the even ing was spent very pleasantly, after which dainty refreshments were served.

A number of the friends of Miss Bertie Martyn gathered at the home of her parents, Mr. and Mrs. Thos. Martyn, Welcome, recently, and presented her with a kitchen shower in view of her approaching marriage. After the presentation a social time was spent, refresh ments being served at the close.

The Week in the Legislature

ANOTHER BLOCKADE.

Why did License Inspector Snider visit the Counties of Huron, Peel and Welland and work against the Canada Temperance Actir Why did not the Government reprimand this official for interfering in this election? Was it on account of the Government's fear of Snider because he knew too much?

These and other questions were asked by C. H. Bowman, Chief Liberal Whip, in moving his resolution to appoint a select Committee of the House to Investigate Snider's activities in opposition to the Canada Temperance Act and the relations of the Government and the

Still more serious aspects of the question will undoubtedly come up later in the House.

REDISTRIBUTION.

Vigorous protests were made by Mr. Rowell and the Liberal members against what they call the jerrymander of the proposed redistribution. The most intolerable unfairness, they claim, comes in the changes in the County of Bruce, which now returns three Liberal seed, and a gold watch will be members. Under the proposed redistribution most of the Liberals will be hived in one seat to be It must be understood that the known as West Bruce with a Liberprizes will not be awarded for the al majority, on the basis of the vote greatest yield per acre, but for the at the last election, of 1027. Instead of four ridings in the Niagara Peninsula there will be five with Monck, a Liberal constituency, abolished. Of these five, two show Liberal majorities. In Essex there will be three seats instead of two. one of these a Liberal riding.

Strong objection is being taken to the retension in Toronto of the A and B arrangements of seats.

Hon. Adam Beck introduced his Bill for Hydro Radials which was cordially supported by Mr. Rowell and the Opposition.

William McDonald, Liberal member for Centre Bruce, referred to the 'society snobs" who would disport themselves at social functions in the new Government House being built on a scale of lavish extravagance by the present Government, and which will have to be paid for by the people of the Province.

TRIBUTES TO JUDGE BENSON AND JUDGE WARD

The last paragraph of The Grand ury presentment at Cobourg reads as follows:-

We cannot conclude this presentment to Your Lordship without placing on record our deep appreciation of Your Lordship's action with regard to our retiring County Judge, His Honor, Judge Benson, and his successor, Judge Ward. We are in full sympathy with the splendid tribute paid by your Lordship to the character of His Honor, Judge Benson and rejoiced to hear such testimony to those qualities of heart and mind which have endeared him to the people of this community, and we regard it as a matter of congratulation for the people of these United Counties that His Honor, Judge Ward, who takes up the burden so long borne by Judge Benson, starts on his career with such a testimony to his worth and ability as Your Lordship gave in your address to us. We entirely agree in all that Your Lordship said of these eminent men of our Counties, as well as with what was added by Mr. F. M. Field, K. C., and Mr. W. F. Kerr, County Crown Attorney, with reference thereto on behalf of the legal profession. We cannot but feel, moreover, that the responses made by Judge Benson and Judge Ward will have a lasting effect for the welfare of our people and will maintain for each of them that warm place which we believe they have held for many years in the public regard. This ceremony entirely attributable to Your Lordship's thoughtfulness and courtesy will be a cherished memory in these

municipalities. In conclusion we desire to express our pleasure at again having Your Lordship as presiding Judge at our Assize, and we hope that you will long live to grace the Bench where your services have been such as to receive that well merited distinction from His Majesty the King.

Archbishop of Quebec Is Among the New Cardinals.

CONSISTORY ON MAY 25

Eurprise Is Occasioned on Publication of List of Princes of the Church at the Fact That Archbishop Bruchesi Is Omitted and Abbot Gasquet Included-Mgr. Begin Born at Levis.

ROME, April 27 .- Pope Plus yesterday decided to hold a consistory May 25 for the purpose of creating Cardinals. Among those who will be elevated to membership in the Sacred College are: Most Rev. Louis Nazaire Begin, Archbishop of Quebec; Monsignor Giuasola Menendez, Archbishop of Toledo, Spain; Monsignor Berafini, Assessor of the Congregation of the Holy Office; Monsignor J. Delachiesa, Archbishop of Bologne; Monsignor Czernoch, Archbishop of Stri-igonis; Monsign Sevin, Archbishop of Lyons; Monsignor de Bettinger, Archbishop of Munich; Monzignor de Harmann, Archbis op of Cciogne; Monsignor Piffl, Archbishop of Vienna; Monsignor Giustini, Secretary of the Congregation of the Sacraments; Monsignor Lega, Senior Judge of the Rota Tribunal; Monsignor Tecchi, Ascessor of the Consistorial Congregation, and Abbot Gasquet, President of the English Benedictines.

The long-expected list of cardinals to be created at the consistory is causing some surprise, as they expected Monsignor Druchesi, Archbishop of Montreal, to be included, while nobody thought Abbot Gasquet would receive the honor, although all agree he is most worthy. It is stated that the decision to hold the consistory was due chiefly to the insistence of Germany, which would otherwise cause a conclave without a representative of the Sacred College. However, evidently, Cardinals Gibbons, Farley and O'Connel' k-ew the consistory would be at the end of May, as all had lecided to be in Rome at that time.

The Most Rev. Louis Nazaire Begin was born at Levis, Que., in 1840. At one time he was principal of Laval Normal School, Quebec. From 1888-91 he was Fishop of Chicon'imi. From 1891 to 1898 he was coadjutor place. to Cardinal Taschereau, with the title of Archbishop of Cyrene. He was administrator of the archdlocese from 1894 to 1898, and was made Archbishop of Quebec April 12, 1898. He has traveled widely, and is the author of a number of religious and other books and pamphlets.

WENT AFTER STEPMOTHER. Montreal Girl Gave Up Knife Only

After Hard Struggle. MONTREAL, April 27 .- A fifteenyear-old girl, armed with a long carving knife, made a murderous attack upon her stepmother at her home on Friday night. Her father put up a lively battle and after a terrible rough-and-tumble fight on the kitch-

en floor, wrestled the knife from her.

Then he swore out a warrant for her

arrest in the juvenile court. The girl, who is big for her age and alleged to be a wayward one, was remonstrated with by her stepmother for her street walking tendencles. She flew into a dreadful passion, and, grabbing the knife, made a sudden leap for her. The father jumped and grasped her arm and the two fell to the floor. She put up a furious battle before she was over-

Mutilated Body Is That of Negro Named John Oxindine.

CHATHAM, April 27. - A body, which has since been identified as that of James Oxindine, a local colored man, was found about five miles east of the city yesterday on the Grand Trunk right of way. The body is badly disfigured and dismembered, and identification is made possible only by the clothing and a book found in the pocket.

Oxindine had been in considerable trouble in one way and another in the city, and was a frequent Police Court character on account of drink.

Farmers To Run Canning Company. ST. CATHARINES, April 27 .-Several fruit growers of the western part of the fruit belt are forming a syndicate to underwrite the bonds of Bell Fruit Farms, Limited, an independent canning company at Grimsby, a bylaw to aid which to the extent of guarantheing \$50,000 bonds was defeated by the village ratepayers.

Suffragettes In Bathing Tights.

LONDON, April 27 .- Because the police yesterday refused to permit the suffragettes to hold a procession of boats on Serpentine Pond, in Hyde Park, a large party of militants tried to cut the boats on the pond adrift. The women, attired in bathing tights, swam among the boats and cut a number of the mooring ropes.

Peach Crop Reduced.

ST. CATHARINES, Ont., April 27. -Predictions that the peach crop for 1914 had been greatly reduced by the extreme weather of January and February, following an unusuall, mild December, which brought on the buds is being borne out by the investigations of fruit growers of the Niagara district during the past few days.

Gill Nets Seized. GALT, April 27.—The game war-iden of Puslinch Saturday made an inspection of the outlet from Fuslinch Lake and found several nets placed in the stream for catching the fish which go up the creek at this season. The nets were confiscated.

Fletcher Takes Step To Recall Vera Cruz Civic Officials.

VERA CRUZ, April 27.—Vera Cruz is to-day under martial law. Rear Admiral Fletcher, commanding the American naval forces on shore, yesterday issued a proclamation to this effect, and the last opportunity Mexicans had for handling their own affairs in Vera Cruz under their own

laws disappeared. Admiral Fletcher and his staff determined that there should be no more quibbling with the Mexican officials regarding forms of Government and until further notice the residents of this port will live and be judged by military law.

This proclamation makes Rear Admiral Fletcher absolute ruler as before, and it is agreed that he will use his power with stoical regard for all, to the end that order shall be maintained.

It is expected that the martial law proclamation will have another effect -that of opening the way for more of the city and federal employes to return to their posts and co-operate in restoring the local government functions, Mexicans point out that these men will now be in a position to explain to their friends and the existing government at the capital that under martial law they felt obliged to return to their work.

The federal general, Maas, has established his headquarters at Soledad, about sixteen miles from Yera Cruz, and his men are tearing up the railway tracks. The gap between Tejera, the water supply station, which guarded by the Americans, and Soledad has grown greatly, and it is now no simple task for the refugees, whether foreigners fleeing from Huerta or Mexicans, proceeding from Vera Cruz towards the capital to get themselves and their baggage across the open space.

VILLAGES WRECKED.

Fierce Tornado Swept Over Small Towns In Illinois.

KANKAKEE, Ill., April 27 .- One woman was killed, one man was fatally injured and hundreds of head of farm stock were killed when three villages were razed by a tornado that tore through Kankakee, Illinois County, early Saturday, according to meagre reports here yesterday afternoon. When the twister struck Clifton, destroying three business blocks and eight houses, Mrs. Hortense Col-lins was caught in the Coors of her ruined home, sufering fotal injuries.

At Otto, Ray Madriz, an operator, was fatally injured when the tornado demolished a railroad watch tower. Momence also suffered heavy property damage, but reports from that village are meagre. The path of the

tornado was only a hundred feet wide in most places.

Gun-Running Into Ulster Fans Situation Into Flame.

QUICK ACTION IS EXPECTED

Premier Asquith Holds Hasty Conference With Colleagues and Steps May Be Taken to Deal With Menace - Big Debate In Commous Will Occupy the Stage

-Many Questions Asked.

LONDON, April 27 .- The gun-running exploit of the Ulster Volunteers, resulting in receipt of 40,000 rifles, stirred the British Cabi et into sudden activity Saturday. Premier Asquith, who was on the way to his country residence for the week-end, was stopped by telegraph and returned to London immediately. On his arrival he conferred with Augustine Birrell, Chief Secretary for Ireland, and other colleagues in the Cabinet. Major-Gen. Sir Cecil McCready of the War Office participated in the conference.

It is unlikely that one result will be a statement in Parliament that what has happened is the very thing the Government feared when they took steps to find out the possible action of the officers of the army if detailed to prevent such a rush-in of munitions of war or in preventing the seizure of the Government stores already located in Ulster.
The Times' Belfast correspondent

says conviction is growing to-day that the authorities are again contemplating action against Ulster. Belfast is in the same condition of suppressed excitement which prevailed on March 18, when it became known the Government were +bout to concentrate military and naval forces.

Belfast Unionists say there is considerable activity among the police. and opinion is prevalent that they and not the troops will be "called upon to initiate the provocative action." Some confirmation of this is afforded by the repeated spying by the police near private houses throughout the whole of Ulster and renewed shadowing of prominent

nionists. Although the motion has been modified to include the word "inaccuracy," which will give Mr. Austen Chamberlain opportunity to bring up the whole of the Irish 'ssues, especially those as one Unionist puts it, which concern the Government's attempt to conceal the vital facts. More than sixty questions will be put to Mr. Asquith and Mr. Churchill durir ; the two days' debate rext week.

Questions will be asked about the personal assurance which Sir John French appended, exempting Curragh officers from fighting in Ulster, and about the reasons which led the Government to think that the safeguarding of stores had become necessary. One wants to know what Sir A. Paget did to carry out his instructions to guard the stores in the south of Ireland. Mr. Austen Chamberlain will submit the motion, and will be followed by Mr. Churchill on behalf of the Government, Mr. Bonar Law and

Mr. Asquith will conclude the debate

on Wednesday night. The Standard (Unionist) remarks that there will no doubt be a demand from the radical benches that severe steps be taken, but the responsibility, especially in view of the warning of a month ago, is so appalling that it can scarcely be believed that the Prime Minister will sanction measures in the least degree likely to be effective. The police are obviously powerless to deal with a population of trained determined men, who will assuredly not submit to disarmament without a struggle. To attempt to use the military force for the purpose is only to precipitate calamities from which the country was providentially saved a month ago. Asquith has no longer the excuse which we take the liberty of calling a poor excuse, of being knowled into a reckless adven-ture by a cabal of hot-headed sub-ordinates. He now knows the whole danger, and he has full power over the army. If he takes a false step the blood will be on his own head. It can only be hoped that even at the eleventh hour he will see the situation, in its true gravity and act not as a party leader, but as a statesman.

REFUGEES AT GALVESTON

Fleeing Foreigners Report Terrible Treatment By Mobs.

GALVESTON, April 27 .- Driven out of Mexico by armed motz, insulted, taunted and sometimes shot and otherwise tortured, 2,654 Americans have arrived he within the last 24 hours, all glad to escape with their lives, which they had all but despaired of. One United States battleship, two United States colliers and three other steamers were necessary to bring this number of refugees to Galveston. All of the vessels brought word that other steamers were behind them in the Gulf, and officials here are expecting and preparing to care for fully 4,000 r : Les before the end of the week. Many of the who escaped fre-1 the neighboring republic suffered insults and indignities. They say that several were shot at or carried away by an armed mob of Mexicans and some few were shot and tortured. Many women and children are in the party.

All of the refrees are being held for five days in quarantire. In the meantime food and clothing are being sent to them and a camping ground being prepared. Individual stories of losses of property and hardship are countless. Many of those on board the vessels now anchored in the Galveston roads are without any funds whatever or any method of obtaining money. sany ale barely clothed.

MAY LEAD TO PEACE

U. S. and Mexico Accept Offer of Republics to Mediate.

PRES. WILSON SENDS REPLY

In Thanking Argentina, Chile and Brazil For Their Offer to Negotiate For Peace He Says Something Might Happen at Any Time to Render Efforts of No Avail -Huerta Also Accepta.

WASHINGTON, April 27. - Spanish Ambassador Riano announced late last night that he received private advices from Merico City stating that Gen. Huerta had accepted the offer of Argentina, Brazil and Chile to use their good offices to bring about an amicable settlement of the difficulty between the United States and Mexico.

Wilson Also Accepts.

WASHINGTON, April 27. - President Wilson last night announced he had accepted an offer from Brazil, Argentina and Chile to use their good offices in an attempt to bring about a peaceful and friendly settlement of the difficulty between the United States and Mexico.

The offer was formally submitted by the three South American envoys to Secretary Bryan and laid before the President.

It is held that Mr. Wilson's reply means that he will insist upon the elimination of Huerta from the Mexican Presidency,

The reply of the President, made through the Secretary of State to the diplomatic representatives, was as follows:

"The Government of the United States is deeply confident of the friendliness, the good feeling and the generous concern for the peace and welfare of America manifested in the joint note just received from your Excellency tendering the good offices of your Government to effect, if possible, a settlement of the present difficulty between the Government of the United States and those who now claim to represent our sister Republic of Mexico. Conscious of the purpose with which the proffer is made, the Government does not feel at liberty to decline it. Its own chief interest is in the peace of America, the cordial intercourse of her republics and our people, and the happiness and prosperity which can spring only out of frank, mutual understandings and the friendship which is created by common purpose. The generous offer of your Government is. therefore, accepted.

"This Government hopes most earnestly that you may find those who speak for the several elements of the Mexican people willing and ready to discuss terms of satisfactory and therefore permanent settlement. If you should find them willing this Government will be glad to take up with you for discussion in the frankest and most concilia ory spirit any proposals that may be authoritatively formulated, and will hope that they may prove feasible and prophetic of a new day of mutual co-operation and confidence in America.

"This Government feels bound in Thomas J. Zarratt, chairman of candor to say that, its diplomatic relations with Mexica being for the present severed, !! is not possible for it to make sure of an uninterrupted opportunity to carry out the plan of intermediation which you propose. It is, of course, possible that some act of aggression on the part of those who control the military forces of Mexico might oblige the United States to act to the upsetting of the hopes of immediate peace, but this does not justify us in heritating to accept your generous suggestion. We shall hope for the best result within a brief time, enough to relieve our anxiety lest most ill-considered hostile demonstrations should interrupt negotiation and disappoint our hopes

of peace."
The text of the offer made by the three countries was:

"Mr. Secretary of Etate: "With the purpose of subserving the interests of peace and civilizat"-a in our continent and with the earn-est desire to revent a / further bloodshed to the prejudice of the cordiality and union which have always surrounded the relations o' the Governments and the people of America, we, the plenipotentiaries of Brazil. Argentina and Chile, du'y authorized hereto, have the honor to tender to your Excellency's Government our good offers for the reaceful and friendly settlement of the conflict be-

tween the United States and Mexico. "This offer puts in due form the suggestions which we have had occasion to offer heretofore on this subject to the Secretary, to whom we re-new the assurances of ur highest and most distinguished consideration.

Fall Crops a Failure.

GALT, April 27. - Farmers throughout a wide range of this western country are greatly disappointed in the conditions of the fall wheat and clover crops. Early in the spring when the snow disappeared there was every evidence of promising crops of wheat and hay, and apparently the winter had injured them very little. But the cold, wet, backward spring and the continued frost by night in which the ground was frequently frozen to a depth of several inches, has caused the destruction of the plants and in many instances felds of wheat have been almost ruined. Much of the wheat and clover will be plowed up and re-seeded with spring crops.

The Progreso was hailed by the flagship and boarded by Lieut Byron McCandless, of Admiral Badger's staff, who informed the commander that he had the choice of remaining under the guns and searchlights of the flagship or putting out to sea. It was explained to him that the United States was not at war with Mexico, but for the present the presence of Mexican gunboats and soldlers at Vera Cruz was not desirable. The interview was trief and ended with the Progreso putting to sea.

THREE FIRES REPORTED.

Bryson, Que., Kingsville, Ont., and

Haileybury, Ont., Visited. OTTAWA, April 24.-The business section of Bryson, Que., the county seat for Pontiac, was wiped out last night by a conflagration, which, start-ing in Goddand. hotel at the end of Main street, early yesterday morning, swept the entire street, destroying twenty-eight stores and dwellings and entailing a loss of \$65,000.

Owing to the absence of any fire fighting apparatu: the residents were unable to stop the progress of the flames, which swept the whole street, with the exception of the courthouse and a couple of other buildings.

Over thirty families have been rendered home! ss. and tents and provisions are being rushed from Portage Du Fort, Campbell's Bay, Shawville to the stricken town. All telegraph and telephone wires were burned down and communication was completely cut off.

Blaze at Kingsville. KINGSVILLE, Ont., April 24. — A serious fire which broke out in the business district of Kingsville did much damage to half a dozen business places and for a time threatened to become general. The flames were first discovered by the night watchman in the Hart Block, on the south side of Mann street, and he promptly gave the alarm. Hard work by the volunteer fire department confined the flames to the one block, but the loss will, it is estimated, amount to between \$20,000 and \$30,000, most of which is covered by insurance ...

The principal losers are: Herman Ukh, harnes shop; Pearcall's photograph studio; Sherman's restaurant, and Hart estate. The ciuse of the fire is unknown.

A Haileybury Fire. HAILEYBURY, Ont., April 24.— The Wright Block, in Main street, the temporary quarters of the Judicial offices of the district of Timiskaming, caught fire, causing a loss of several thousand dollars, and gutting the building. In this building were si'uated the offices of Sheriff Caldbick and Registrar T. J. Meagher, on the ground floor, and of Judge Hartman, Crown Attorney F. L. Smiley, Magistrate S. Atkinson, and other offices on the second storey. The basement is used as a bonded room by Hamilton & Co., liquor dealers. The Wright Block is of concrete block construction and was built after the fire of August, 1906.

This Tormer Shows How Good Roads Benefit

M. J. J. HOUSTON, who lives on a road that has lately been improved, in Lauderdale County Mississippi, makes the common-sense statement which follows:

"I have never made an investment for which I have gotten as much financial returns and satisfaction out of as I have out of this road. The advancement in property alone has been sufficient to four or five times pay the whole cost of construction, and I don't think the county could make any investment that would bring in as much returns as to build a network of them all over it. It is such a good thing that I want every man in the county to have one just like it, and I am willing to pay my part of the taxes to help him get it."

Build Concrete Roads

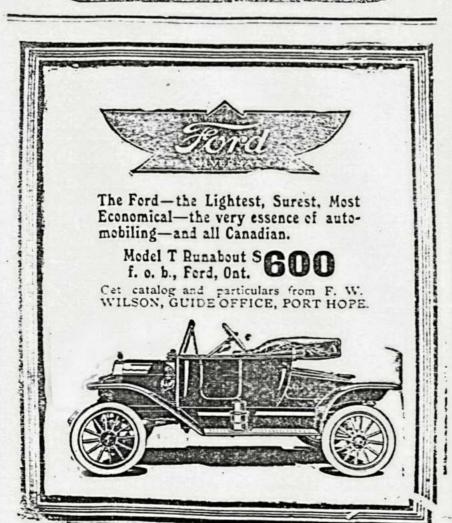

Then your road taxes will be invested and not merely spent. They will return many times the amount they cost, and those returns will show in the increased valuation of your property, the lessened cost of marketing your produce, the longer life of your horses and vehicles, the greater conveniences and general prosperity of your community.

Concrete roads outlast all other kinds of roads and require practically no require for many years. They are safe, clean, permanent and passable every day in the year.

Some co the Difficulties Which Confront Divers.

Hundreds of millions sterling in gold, sliver, copper and precious stones are lying on the button of the sea, ready to the hand of the first person who will devise means of recovering them. Inventors in every part of the world (says Mr. F. Par-ker, writing in The Popular Mechanics' Magazine) are building submarine boats, diving armor, dredging apparatus and other devices, solely for the purpose of finding and bringing to the surface these sunken treasures. The two main problems to be solved are those of protection against water pressure and of providing light in which to work. The latter problem is more easily solved than the former. Modern developments in electric lighting make it practically certain that powerful searchlights can be devised which will give sufficient illumination for salvage operations at depths as great as 400 feet. The other and more serious problem is that of pressure. The ordinary diver's equipment depends upon a constant supply of air pumped in from above, and a rubber suit with a metal helmet, all airtight, or nearly so, to keep the water from rushing in the minute the pressure the air pumped through the hose becomes less than the water pressure from outside. At 200 feet the water pressure is a little over \$6 1-2 pounds to the square inch; at 250 feet it is over 108 pounds; at feet it is 130 pounds-and many of the sunken treasure ships lie at even greater depths. Very few div-ers have descended as deep as 100 feet. One adventurous young man went down 196 feet in Puget Sound, but on a second attempt his helmet was crushed by the \$5 pound water pressure, and he was hauled up dead. Two English naval officers are said to have descended 210 feet, but could remain at that depth only a few seconds. The problem of getting down to the deep-lying treasure ships, therefore, is essentially one of constructing a mechanism sufficient-ly rigid to withstand the terrific water pressure. It must carry its own supply of oxygen, and it must be so constructed that the diver in-sile it can accomplish something after he reaches the wreck, even if le can do nothing more than attach a grappling book to a copper ingot.

ISSUE IS DEFINED

Liberal Amendment to Budget Is Presented in House.

SIR WILFRID STATES CASE

Opposition Leader's Demand For Free Wheat, Free Implements and Tariff Revision Designed to Remove Unnecessary Taxation Is Voted Down In House After

Debate of Two Weeks

OTTAWA, April 24. - After over two weeks of debate in the Commons the tariff issue between the two parties in Canada was summed up and defined yesterday in the amendment proposed by Sir Wilfrid Laurier and voted down at a late hour last night by the Government majority. This amendment declared for free wheat, free wheat products, and free agriculture implements, with tariff revision designed to relieve the consumers from unnecessary custom taxation without doing. injustice to any class.

Although the amendment dealt specifically only with the wiping out of tariff restrictions and tariff taxation on wheat, on flour and on the instruments of agricultural production, the speech of the Liberal leader, together with the speeches of the two concluding Liberal speakers of the debate, Dr. Michael Clark and Mr. Geo. H. Boivin, laid down the gen-

eral principles of Liberal fiscal policy. Sir Wilfrid Laurier, in opening, said the duty on agricultural implements was lowered so little that it was simply adding insult to injury. The Government certainly wasn't offering the farming class much encouragement. It had refused to give the farmer free implements and free wheat. The two main causes of the desertion of farming as an occupation were, in the opinion of the leader of the Opposition: (1) The high cost of production, and (2) the insufficiency of markets. The cure said Sir Wlifrid was to put agricultural implements on the free list. The argument adthe western farmer must pioneer the same as did our forefathers in

"If we cannot aid the dead," said Sir Wilfrid, "let us at least help the

living." Putting wheat and implements on the free list no more meant free trade than did the Conservatives declare themselves for free trade when they put lumber on the free list in

"The policy of my party," declared Sir Wilfrid, amid applause, "is not a policy of protection, but one which has as its principle a customs tax for revenue purposes only."

In support of the Liberal free wheat policy Sir Wilfrid pointed out that although Canada produced over 200,000,000 bushels of wheat, she only used 50,000,000 herself and exported another 50,000,000 to Britain, thus leaving on her hands 100,000,-000 bushels. Did not the country immediately to the south of us offer the best possible market for the over-production? We could also sell our flour there, he contended, as it was his belief that in many of the states, particularly in the east, Canadian millers could successfully compete with Am-

In replying, Hon. George E. Foster ridiculed Sir Wilfrid's statement that agriculture was on the decline. There was not a farmer who would agree with that statement. Both Provincial Governments and the Federal Government were aiding the farmer in every way possible. The free food policy of the Opposition certainly didn't encourage the "back to the land" movement. Evidently the ex-P.emier's advisers had recognized this fact, because Sir Wilfrid had rightabout-faced on that issue, and, to the surprise of the House, did not embody it in his amendment.

"Now the hon, gentleman advises us," said Mr. Foster, "that if we can't get free food he will get us free bran

for our breakfast table." Continuing, Mr. Foster declared that Sir Wilfrid was prone to change his views on the tariff. From 1876 to 1896 he had opposed the national policy, but upon assuming the reins of office he had immediately formulated a protective tariff. "At the present time," said Mr. Foster, "my hon. friend is not searching for a policy for Canada; he is looking in vain for a political policy which will put him back in power again, and unfortunately for him, he can't find such a

policy." (Laughter.)
Not only this but Sir Wilfrid had framed a policy which made its appeal to a particular class and only a section of that class. While the granting of the demand for free wheat would undoubtedly be injurious to the millers and other considerable industries it would also intensify the present trouble in the west by encouraging the fartners there to specialize in wheat. The crying need of the west was for mixed farming, and refusal of the extension of the wheat market at the present time would certainly have the tendency of bringing about a greater variety of crops in the

west. Canada's problem did not lie in the finding of new markets. The high cost of living demonstrated that the need of the country was to encourage

selling on the Canadian market.
Dr. Clarke (Red Deer) expressed himself optimistically as to the future of the Canadian Northern and the Grand Trunk Pacific, but intimated that he had no faith in the Hudson Bay Railway project.

H. H. Stevens (Con., Vancouver) and G. H. Boivin (Lib., W. Shefford)

also spoke. The Laurier amendments was defeated on the following vote. Yeas, 48; nays, 88; Covernment majority, GOING 1.0 FAST.

Mr. Rowell Checks Attempt To Jam Redistribution Bill Through.

TORONTO, April 23 .- In the latest draft of the redistribution bill, which will probably be subject to little change, provision is made for an addition of four new . embers to the Ontario House. These will come from a new city riding, comprising Windsor, Walkerville and Sandwich; from Cochrane, a new electoral district in the north, and from the two new seats given to Toronto. There will be two Lincoln ridings. Monch is abolished.

Among the ridings which have had their boundaries considerably altered are the Greys, Middlesex, Victoria, the Bruces and North Oxford.

At the meeting of the committee yesterday Mr. Rowell claimed that the Liberal members had not had nearly enough time to study the sitnation, and quoted th - division of the Victorias and North Oxford as instances of insufficient notice. "Not much of a change there.

surgested a member. There is only a question of one

hundred Liberal majority; that is all," said Mr. Rowell. "We should have an opportunity to hear from the different parts of the province." "That is out of the question," said

Mr. Rowell insisted however and another meeting was arranged for today at 10.20 before the reporting of

the bill in the House this afternoon. William McDonald (Centre Bruce) fought strongly for the Bruces as at present distributed. He said the average difference in the Kents and other counties was greater than there. He urged that to change the makeup of the centre riding and to call it West Bruce with the municipalities grouped as proposed would destroy the "old fighting ground."

Mr. Rowell said that the inclusion of Sullivan Township in North Grey seriously hurt the Liberal cause.

Hon. Mr. Lucas stated that the bill merely sent back certain sections to where they had been before the Liberal redistribution.

DEBATE NEARS END.

Final Speeches In Budget Discussion To Be Made To-day.

OTTAWA, April 23 .- The budget debate is expected to conclude night with speeches from Sir Wilfrid Laurier, Dr. Michael Clark and Geo. H. Boivin for the Opposition and Hon. Geo. E. Foster and Hon. Arthur Meighen replying for the Government. The debate took up most of yesterday with eight speakers on the floor, three Conservatives and five Liberal.

E. W. Nesbitt (Lib., N. Oxford) charged the Mirister of Finance with mismanagement of loans and extravo gance which made borrowing notessary. He believed that farmers would have been satisfied with the duty on implements if they had been given

wider markets. "The Finance Minister and his supporters," declared Dr. A. Thompson (Con., Yukon), who followel, "stand for moderate protection. This party stands or falls on a policy of molerate protection." Referring to the people of the west, he said that if they entered upon manufacturing, instead of confining themselves to the one industry of agriculture, they would become protectionists, and 'e urged upthe Przirie Provinces and thus has-

tening manufacturing. At the evening sitting Levi Thompson (Lib., Qu'Appelle) argued that trade was under a restriction which the business of eastern industrial

Prevented by Dr. Pyne. TORONTO, April 25. - On the second reading of a bill to sanction the Government's appropriations in the Legislature yesterday the Opposition renewed its criticism of the fin-

ances of the province.

Liberal Whip Bowman said the sum of the estimates along with the statutory payments of last year would involve an expenditure of \$22,-000,000. Allowing for the cash ballance of \$2,380,000 carried over from last year and the balance available on the New Ontario loan, which, with the new loan of \$8,000,000 authorized, along with the estimated receipts, would leave a shortage of three or three and one-half million dollars.

John Seath, Superintendent of Education, recently published a letter that contained references to W. E. N. Sinclair, M.P.P., and as a result Mr. Sinclair asked in the House yesterday that either Dr. Seath be reprimanded by Hon. Dr. Pyne or called before the Bar of the House and dismissed.

Dr. James McQueen moved that the House "protest against this unfair and unjust attack by the Superintendent of Education upon one of the honorable members of this House in respect to his legitimate work as a member," and "that this House must hold the Minister of Education responsible for this breach of the privileges of the members of the House." Dr. Pyne, in reply, said that he would not help to air old grudges in

the House. He believed Mr. Sinclair should be censured for using his position to attack a man who could

not answer him. The Liberal motion lost.

The Sudbury district is asking the on the Government the desirability Ontario Government to extend the of developing the water powers of T. & N. Shipments of a thousand tons of ore per day and a flourishing pulp wood business were some of the business the line would handle.

Before any municipality enters agreement the Lieutenant-Governor's approval must be gained and the electors who vote on money bylaws will

then vote on it at the polls. The change in the Government polley is understood to have been caused by the desire to centralize the management and to ensure certain capable men being in charge. This bill is now taken to open the way for all places so desiring to advance at once

upon electric railway schemes. Hon. Mr. Hanna introduced amendments to the provictial liquor license administration. One thing arranged for is the enforcement of the Scott Act by means of the Government backing with consolidated revenue funds the operation of the act in municipalities where the fines collected are not large enough to permit adequate enforcement. BLETCHER RECEIVES

MRS. GERALD

Mrs: Gerald Bletcher's cosy home on Seventh Ave. was literally thronged with guests during the late afternoon yesterday, when she was receiving formally for the first time since coming to Lethbridge.

The drawing room was artisti-cally adorned with quantities of daffodils, palms, and ferns, and unshaded yellow candles, while yellow shades over the electrolier

The hostess was very attractive in a smart gown of pale blue satin with an overdress of lace and corsage bouquet of Richmond

She was assisted in receiving by her mother, Mrs. M. Kennedy, who wore a handsome creation of black velvet with lace and jet accessories, and her sister, Mrs. W. L. Ritchie. of Phoenix, who was gracefully gowned in black silk with tunic of coral brocaded ninon edged with

Miss Boles, who invited to the dining room, wore a dainty white embroidered costume, and black

hat with flowers.

The tea table was centered with an exquisite basket of daffodils, the handle tied with an immense bow of yellow chiffon, while unshaded the same color heightened the pleasing effect.

becoming toilette of rose satin with Swallowed a Cylinder.—At an inquest at Preston, G. B., on Ellen Cookson, 53, wife of a local tradesman, it was stated that she had been ratine with satin and lace trimundergoing radium treatment for mings and black hat with white mount, cut the ices.

The dainties were served by Miss Muriel Macleod, who looked decidedly well in a cream brocaded satin gown veiled in black net and lace and black hat with marguerites. Little Miss Eleanor Marrs, frocked in white with pink ribbons, admitted the many guests.—The Lethbridge Daily Herald.

PENETRATED HEART TO SAVE BOY

Montreal, April 23 .- Death was approaching a nineteen-year-old boy last night when the surgeons penetrated to his heart in an almost unprecedented operation and saved his life. As the boy, Bruce Moffatt, of 240 Delisle street, felt his strength returning at the conclusion of the operation he spoke up from the operating table with the words:

"I'm feeling good."
He is now living at the Royal Victoria Hospital with a tube at-tached to his heart, and there is every hope that the single operation will have done away for ever with the pericarditis, or heart-strangulation, from which he suffered.

Details of his condition had been forwarded to the hospital by telephone. As the ambulance was dashing through the streets at top speed with him the operating table

was being prepared.

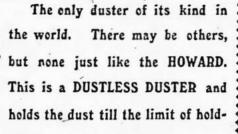

So weak was the boy when laid on the operating table that it was impossible to administer ether, and a local anaesthetic was injected into his body, about the heart. In consequence he was able to watch the surgeons cutting into his breast.

IN THE CAUSE OF MEDICINE. - The death is reported of Dr. Alfred Conor, Under Director of the Pasteur Institute at Tunis, who had proved himself a hero in the cause of medicine. Some time ago, while experimenting on a guinea-pig, the knife he was using fell on his thigh, inflicting a very slight wound. In-fection set in, however, and the doctor had to take to his bed, suffering from an illness the nature of which could not be diagnosed. All the resources of medicine and surgery were employed to save him. On March 22, this martyr to science was decorated on his deathbed with the Cross of the Legion of Honor, specially conferred on him, as he had been dangerously wounded in the performance of his professional
