#### APPEAL DISMISSED, WILLIAM JEWELL

With Costs-Austin vs Dickin-

Mr. Harry Austin appealed against the decision of His Honor Judge Rogers in his case against Dr. S. S. Dickinsen. It will be remembered that Dr. Dickinson sued Austin for \$10.75 for professional services. Austin entered a counter claim of \$300, the value of a mare which Mr. Austin claimed he lost through the negligence of Dr. Dickinson. The counter claim was dismissed and Dr. Dickinson was given judgment for the amount ot his claim.

Mr Austin has now appealed from this decision and the appeal was heard at Osgoode Hall last week and dismissed with costs.

#### SPECIAL MEETING

Of Town Council-Loan to the Cosmos Chemical Company

A special meeting of the Town Council was held Monday evening. His Worship Mayor Bush occupied the chair and the following members were present: Messrs Smith, Strong, Rosevear, Perry, Patterson,

It was moved by Mr Strong, sec-onded by Mr Rosevear, that where-as the Cosmos Chemical Company are commencing business in Port Hope as a manu acturing concern and are desirous of obtaining a loan of money and whereas the Board of Trade at a recent meeting recommended that such loan be raised by a guarantee signed by a number of citizens with liability limited to each individual on the amount set opposite their names respectively, such guarantee list to be further guaranteed by this municipality in as far as they may do so, the money to be loaned by the Bank of Toronto.

And whereas the said guarantee ist has been largely signed, the total amount so guaranteed being in the neighborhood of \$3,750 00 and it is intended to procure signatures to bring the total up to \$4,000.00.

And whereas the amount of the said loan to the Cosmos Chemical Co., is by the said guarantee list not to exceed the sum of \$3,000 and is to be repaid by the said Co. within two years from the date of such guarantee.

Now therefore it is hereby resolv-ed that this Council hereby approves the said plan and undertakes and promises on behalf of the municipal ty so far as it may do so to indemnify and save harmless the signers of the said guarantee list of and from all loss, costs and damages which they or any of them may or shall suffer or be put to by reason or on account of their extending the said guarantee.

At the last session of the Division court, Mr. Caldwell was given judgment against the Township of Hope, for damages to his rig caused by a defective culvert. At the expiration of fourteen days from the time judgment was given the Township had neglected to settle and Mr. Caldwell issued an execution. Before the Bailiff had an opportunity to take possession of the Township, Mr. Gilbert Ed wards paid the amount of the judgment, \$3.00 & \$4.02 costs.

#### RUMOUR NOTENTIRELY TRUE

During the past few weeks it has been rumoured about the streets that Mr. Frank Field, registar had been dismissed, and that Capt. Hugh McCullough had been appointed. However, that is not quite true. In speaking to the World this week Capt. McCullo-ugh stated that he had not yet been appointed althoughh he expected to be before long. Just how long, the Captain could not say.

Bake Shop and Stable Badly Burned-Partly Covered by Insurance

About eight o'clock last Friday evening, the fire alarm was sounded, when Mr. Wm. H. Jewell's bake shop, Ellen street, was discovered to be in flames. The firemen were promptly on the scene, and did a splendid work in saving Mr. Jewell's house and the residence of Mr. Wm. Thorndyke. The bake shop and stable were badly damaged and both will have to be rebuilt. The flour house was unharmed. The horse was suffocated by the smoke, before it could be gotten out of the stable. The delivery wagons were also destroyed. Mr. Jewell estimates his loss at about \$600.00, partially covered by insurance in the Hartford.

The origin of the fire is supposed to be spontaneous combustion from

the manure pile. Mr. Jewell's friends in the same line of business have come to his rescue and Mr. Jex, the driver, is serving his patrons as usual to-day.

Long placed his car at the disposal of the Committee and the Grard Patriarch

was given an hour's ride around our beautiful town and Mr Ketcheson expressed the pleasure it afforded him, as he had no idea Port Hope was such a beauty spot. Arriving at the lodge room, hearty welcome was extended to the guest of the evening, and after

considerable routine business was transacted, the Patriarchal Degree was conferred. The work was especially well done, and the Grand Patriarch highly complimented the degree team, observing that seldom had he ever heard the several charges given with greater accuracy and such clever expression.

#### RECEPTION ON JUNE 1st

#### To Duke of Connaught and Princess Patricia --- All Arrangements Made

A meeting to arrange for the re-ception to His Royal Highness the Duke of Connaught and Her Royal Highness the Princess Patricia was held in the Town Hall Friday evening, with a large attendance.

All arrangements were made and committees appointed to look after the various details of the reception. A large stand for the school chil

dren will be erected at the west side of the Town Hall and the pupils will render several patriotic songs. The Governor General's special car will arrive at the Midiand Division at the foot of Augusta street and a platform will be constructed from that point to the band stand on the Town Square. To the right of this plat-form will be the Guard of Honor, and while the Royal Party and Reception Committee advance to the present band stand the band will play the National Anthem. His Royal Highness and Princess Patricia and the members of the Reception Committee will occupy this stand and His Worship the Mayor will present the address of welcome on behalf of the town

A special band stand will be erected and there will be a platform for the ladies and the various Municipal Boards. After the ceremony at the Square the Royal Party will be taken around town in automobiles and thence to the College.

#### BOARD OF HEALTH

SUFFERS LOSS Will Appoint a Sanitary In-

A special meeting of the Board of Health was held Friday afternoon and the members were all present. The Board of Health is determined to appoint a Sanitary Inspector and have another inspection of the town made. They object to the Night Constable acting in this capacity and want a special man appointed. Last year a special officer was appointed and the public would like to know what was gain ed by the inspection. The Board of Healths chief business is to draft by-laws never to be enforced, and to appoint special officers.

It was moved by Mr. Fulford, seconded by Mr. Vandervoort-In the absence of the appointment by the Council of a competent Sanitary Inspector, we respectfully notify you that we are instructed to make such appointment by John W. McCullough, Chief Officer of Health. We feel that the dual position of Night Watchman and Sanitary Inspector cannot be combined effectively, as besides the Country Dairies are to be visited, there are some 700 yards and places to be inspected from time to

time in the town. Carried. The Health Officer was authorized to obtain a thousand copies of forms for the Health Inspector.

An account from H. A. Ward for attendance at a Police Court case in the interests of the Board of Health was passed.

#### Allan Fountain Attempts Suicide

Slashed His Neck With a Razor

Allan Fountain, a well known resident of Coboconk, made a de-liberate attempt Monday night to end his life by cutting his throat with a razor. The deed was com-mitted about six o'clock at the home of his mother, the unfortunate man being found by his brotherin-law shortly after the deed was committed. Fountain's mother has been away on a visit to Midland, but returned home Monday evening.

Dr. Johnston, of Fenelon Falls, was hurriedly summoned, and upon his arrival it was found that Fountain had cut his throat almost from gave the man every attention and got a partial statement from him, the contents of which have not been made public. It is understood that another statement made by Fountain is in the possession of some one in Coboconk, and it will no doubt explain, why Fountain attempted the rash act.

Fount in was taken to Lindsay Tuesday morning on the Coboconk train in charge of Drs. Johnston, of Fenelon Falls, and Pogue, of Minden. The wounds inflicted were of such a terrible nature that the physicians had some difficulty in sewing it up. It was impossible to administer chloroform through the mouth, and had to be administered

#### CONSTABLE QUESTION

#### In Oshawa, Still Unsettled

Developments came to an issue, in the Constable Carl Stevens case, on Wednesday afternoon, when Stevens sent a letter, notilying the Chief of Police and Chairman of the Finance Committee of the Council, that he was ready to resume his duties as Constable, and reported for duty on Wednesday evening. The Mayor was immediately communicated with in Toronto, and wired back that Steven's suspension should stand, as per Council's order. What the next move in the little drama may be, remains to be seen, but the clue has been given for the play to move up to another stage. By reporting for duty in a formal way, we understand Stevens can, if he wishes to do so, come on the town for his salary, owing to the fact that the legal time for a suspension had expired and he has not Counterfeit ten and twenty-five cent been re-instated or any notice of pieces have circulated in Peterboro dismissal given him. Continued from last week.

It was the man who now took from Headquarters, spoke in a rough, indifferent voice, well suited to his appearance of stolid strength. "The District Attorney told me to bring this girl here on my way to the Grand Central Station with

Sarah got to her feet mechanically. Somehow, from the rancous notes of the policeman's voice she understood in a flash of illumination that the pitiful figure there in the doorway was that of Mary Turner, whom she had remembered so different, so frightfully different. She spoke with a miserable effort toward her usual liveliness.

Mr. Gilder will be right back. Come in and wait."

She wished to say something more, something of welcome or of mourning, to the girl there, but she found herself incapable of a single word for the moment, and could- only stand dumb while the man stepped forward, with his charge following helplessly in his

clutch. The two went forward very slowly, the officer, carelessly conscious of his duty, walking with movements of the girl, the girl lettin g herself be dragged onward, aw are of the futility of any resistance to the inexorable power that now had her in its grip, of which the man was the present agent. As the pair came thus falteringly int o the center of the room, Sarah at last found her voice for and ex-

pression of sympathy.
"I'm sorry, Mary," she said,
hesitatingly. "I'm terribly sorry,
terribly sorry!"

The girl, who had halted when the officer halted, as a matter of course, did not look up. She stood still, swaying a little as if from weakness. Her voice was lifeless.

"Are you?' she said. "I did not know. Nobody has been near me the whole time I have been in the Tombs." There was infinite pathos in the tones as she repeated the words so fraught with dreadful-

ness. "Nobody has been near ma! The secretary felt a sudden glow of shame. She realized the justice of that unconscious accusation, for, till to-day, she had had no thought of the suffering girl there in the prison. To assuage remorse, she sought to give evidence as to a pre-

valent sympathy.
"Why," she exclaimed, "there was Helen Morris to-day! She has been asking about you again and again. She's all broken up over your trouble."

But the effort on the secretary's part was wholly without success. "Who is Helen Morris?" the lif eless voice demanded. There was no interest in the question

Sarah experienced a momentary astonishment, for still remembering the feverish excitement displayed by the salesgirl, who had declared herself to be a most intimate friend of the convict. But the mystery was to remain unsolved, since Gilder now entered the office. He walked with the quick, bustling activity that was ordinarily expressed in his every movement. He paused for an instant, as he beheld the two visitors in the center of the room, then he spoke curtly to the secretary, while crossing

to his chair at the desk. "You may go, Sarah. I will

ring when I wish you again.' There followed an interval of silence, while the secretary was leaving the office and the girl with her warder stood waiting on, his pleasure. Gilder cleared his throat twice in an embarrassment foreign to him, before finally he spoke to the girl. At last, the proprietor of the store expressed himself in a voice of geuuine sympathy, for the spectacle of wo presented there before his very eyes moved him to a real distress, since it was inded actual, something that did not depend on an appreciation to be de-

veloped out of imagination. "My girl,' Gilder said gentlyhis hard voice was softened by an honest regret-"my girl, I am sorry

Yet, the words were uttered with a total lack of emotion It seemed from their intonation that the speaker voiced merely a statement concerning a recondite matter of truth, with which sentiment had nothing whatever to do-But the effect on the employer was unfortunate. Life quickened swiftly in the drooping form of the girl. Her muscles tensed. She stood sudsame second its bleakness of paller. The eyes opened widely, with startling abruptness, and looked straight

"Would you be humble," she demanded, and now her voice was become softly musical, yet forbidding, too, with a note of passion, "would you be humble if you were going to prison for three yearsfor something you didn't do?"

There was anguish in the cry torn from the girl's throat in the sudden access of despair. The words thrilled Gilder beyond anything that he had supposed possible in such case. He found himselt in this emergency totally at a loss, awkward steps to suit the feeble and moved in his chair doubtfully wishing to say something, and quite unable. He was still seeking some question, some criticism, some rebuke, when he was unfeignedly relieved to hear the policeman's harsh voice.

> "Don't mind her, sir," Cassidy said. He meant to make his manner very reassuring. "They all say that. They are innocent, of course! Yep-they all say it. It don't do 'em any good, but just the same they all swear they're innocent They keep it up to the very last, no matter how right they've been

The voice of the girl rang clear. There was a note of insistence that carried a curious dignity of its own. The very simplicity of her statement might have had a power to convince one who listened without prejudice, although the words themselves were of the trite sort that any protesting criminal might utter.

"I tell you, I didn't do it!" Gilder himself felt the surge of emotion that swung through these moments, but he would not yield to it. With his lack of imagination he could not interpret what this time must mean to the girl before him. Rather, he merely deemed it his duty to carry through this unfortunate affair with a scupulous attention to detail, in the fashion that had always been characteristic ot him during the years in which he

"Oh, no, I wasn't!" she contradicted bluntly, with a singular confidence of assertion. "Why, if the trial had been fair, I shouldn't

The harsh voice of Cassidy again broke in on the passion of the girl with a professional sneer.

But the girl went on speaking fiercely, impervious to the man's coarse sarcasm, her eyes, which had deepened almost to purple, still fix-ed piercingly on Gilder, who, for ed under that regard.

"Do you call it fair when the lawyer I had was only a boy-one whom the court told me to take, a boy trying his first case-my case, that meant the ruin of my life? My lawyer! Why, he was just getting experience-getting it at my expense!" The girl paused as if exhausted by the vehemence of her emotion, and at last her sparkling eyes dropped and the heavy lids closed over them. She swayed a little, so that the officer tightened cisively.

The man who was the employer of hundreds concerning whom these grim truths were uttered, stirred uneasily in his chair, and there came a touch of color into the healthy brown of his cheeks as he spoke his protest.

"I'm not their guardian. I can't watch over them after they leave the store. They are paid the current rate of wages-as much as any other store pays." As he spoke, the anger provoked by this unexpected assault on him out of the mouth of a convict flamed high in virtuous repudiation. "Why," he vent on vehemently, "no man living does more for his employees than I do. Who gave the girls that. You are going to pay me for did! Who gave them the cheap

"But you won't pay them enough to live on!" The very fact that the words were spoken without any trace of rancor merely made this statement of indisputable truth obnoxious to the man, who was stung to more savage resentment in asserting his impugned self-righteous-

" I pay them the same as the other stores do," he repeated, sullenly.

Yet once again, the gently cadenced voice gave answer, an answer informed with that repulsive insistence to the man who sought to resist her indictment of him. "But you won't pay them enough

Cassidy, the officer in charge of Mary Turner, had stood patiently teside her all this while, always holding her by the wrist. He had been mildly interested in the verbal duel between the big man of the think he could get along without department store and this convict in her, if he were to see her his own keeping. Vaguely, he had them going over the Niagara sitting down-loafing, you know! maiveled at the success of the frail district. With the idea in mind, he stared inquiringly at Gilder until he caught that flustered gentleman's eye. A nod from the magnate sufficed him. Gilder, in truth, could not trust himself just then to an audible command. He was serious- the Leamington trees have not been lips. He was not prepared with any answer, though he hotly resented ninging factories, at least in that every word of her accusation. So when he caught the question in the

her final speech. "Oh, he can take me now," she said, bitterly. Then her voice rose above the monotone that had contented her hitherto. Into the music of her tones beat something sinister, evilly vindictive, as she faced about at the doorway to which Cassidy had led her. Her face, as she scrutinized once again the man at the

desk, was coldly malignant. "Three years isn't forever," she said, in a level voice. "When I come out, you are going to pay for every minute of them, Mr Gilder. There wont be a day nor an hour that I won't remember that at last it was your word sent me to prison. And you are going to pay me for the five years I have starved making money for you-that, too! You are going to pay me for all the things I am losing to-day, and -

The girl thrust forth her left hand, on that side where stood the officer. So vigorous was her movement, that Cassidy's clasp was thrown off the wrist. But the bond between the two was not broken, for from wrist to wrist showed taut the steel chain of the manacles. The girl shook the links of the handcuffs in a gesture stronger than words. In her at the desk, was a cold threat, a symbol of her degradation, she looked to the man whose action had placed it there. In the clashing of their glances, hers won the victory, so that his eyes fell before the menace in hers.

"You are going to pay me for this!" she said. Her voice was little more than a whisper but it was loud in the listener's heart. "Yes, you bear. are going to pay-for this!"

Yet, these were not the worst injuries to mar the girl convict's life. That which bore upon her most weightily and incessantly was the degradation of this environment from which there was never any respite, the viciousness of this spot wherein she had been cast through no fault of her own. Vileness was everywhere, visibly in the faces of many, and it was brimming from the souls of more, subtly hideous.

#### Yellow Peach Buds Blighted

#### Around Niagara - Better Reports From the Leamington District, But Country Around Hamilton Has Suffered

Reports from the Niagara district say that the yellow peach crop will be almost an entire failure this year. F. H. Grindley and G. W. Smith from the Dominion Fruit Department, Ottawa, have been through the peach sections and what they found in the Niagara district gives. reasons for the gravest concern. F. G. H. Pattison spent a day with yellow flesh peach orchards of the Grimsby fruit belt. A few live buds were found around Niagara and old Niagara, and a few on the trees question at issue was no concern of I near the lake shore, but the great his. #### OVERCOMING THE HIGH COST

We all feel the pinch of the high cost of living, and some of us the ill effects of the cost of nigh living. But there is it seems, a way of management that will give nourishing meals at a moderate price. It s not known whether the enterprise is a profit or not, but the King's daughters of Toronto have devised a roval way of serving a democratic luncheon-for working girls-at the low price of eleven cents. A restaurant has been established in which business girls, that is, girls employed in business houses and other similar occupations, can get a wholesome, appetizing luncheon, and enjoy a noonhour rest for the absurdly low price of eleven cents. That is the price of a cup of tea or coffee, cold ham, two slices of bread and butter and a segment of pie. Householders may not see how it can be done; but if the secret were revealed and installed in the households of Port Hope, there would not be such an agonizing and in many cases such an unsuccessful struggle to make the monthly income comfortably meet the cost of the monthly bill of fare. Good management is the secret of good housekeeping, and though good management won't affect directly final utterance to the agitated man the market prices of food, it will make a dollar go further than it prophecy of disaster. ### Police Looking for .

The Police are in receipt of a message from O. Campeau, Supt. of Police, Montreal, asking them to keep their eye out for a man charged with highway robbery and attempted murder. His description is as follows-

The man is about 5 feet 6 inches to 8 inches in height; weight, about 150 lbs.; age, 20 to 23 years; clean shaven, heavy fair hair. Parisian or French Canadian; speaks good English, slight French accent; dressed in yellowish brown suit, black laced boots, pretty much worn. Had no hat when left here. May secure any sort of headwear.

This man snatched a heavy silver mesh purse from a lady on the street on afternoon of 16th inst., then shot a citizen who attempted his arrest and jumped into passing auto; held revolver to citizen's head and compelled him to drive away. After driving about a mile he jumped from the auto and made his escape. The purse referred to was engraved with initials B.M.N. on outside. Search all trains and make every effort to apprehend this man, as he is a desperate character.

#### BUSH FIRES RAGING

Heavy Damage Is Threatened in Northern Muskoka.

SUMMER HOUSES IN PERIL

News Has Been Received of Total Destruction of Mill at Axe Lake and Workmen Are Battling Hard to Save the Company's Camps -West Cobali Fire Brigade Has a Haid Struggle.

HUNTSVILLE, May 20 .- Not ever

during the midsummer drought of last year when forest fires raged so fiercely was there felt the same measure of anxiety as is being shown dur-ing the present time in this vicinity. No rain has fallen for two weeks, and fires appear to be raging in nearly every direction. Monday word was received that the Axe Lake Mill of the Muskoka Wood Manufacturing Co. was totally destroyed, and that a fire was raging in their limits. Yes-terday large gangs of men were battling heroically to save the company's camps and to stay the progress of the flames. Word has just been received also that the forest in the vicinity of Sand Lake is ablaze, and summer residents have been rushing out in au-tomobiles to make an effort to save their summer homes.

In the Townships of Stisted and

Chaffey, the farmers are working as organized bands in seeking to stay the progress of the flames, but despite their efforts the high wind is driving the fire ahead, and it is feared that the loss will amount to thousands of dollars. Happily, up to the present there does not appear to be danger for the summer homes about Lake of Bays. The fires are burning in the vicinity, but have been controlled by organized efforts. Unless rain falls very soon North Muskoka will suffer a loss far to excess of any period for years back.

West Cobalt Threatened. COBALT. May 20 .- Bush fires are still raging in this neighborhood, particularly in West Cobalt, were the fire brigade have been busy ever since three o'clock resterday afternoon. They are still out trying to pre-vent the fire from spreading. Helped by a fierce wind, the flames were rushed down the hill and destroyed everything within reach. The fire took a hold in several backyards, but was stopped in time, although several residences were threatened.

There is nothing slow or roundabout in the way Fossal Balm gets after a cold in the head, nasal catarrh or irritation

in the nasal passages.

The action of its antiseptic, healing ingredients is made more certain and effective by the handy way of applying it. The collapsible tube containing the Fossal Balm ends in a little nozzle about half an inch long, which fits into the nostrils and applies the ointment

well up in the passages. Here it works almost like magic, killing the disease germs, checking the inflammation, relieving that burning irritation, clearing the passages for easy breathing, and restoring normal, healthy conditions.

Use Fossal Balm at the first sign of a cold in the head-it will not only save you from all the miserable discomfort of it, but in doing so will protect you from the more serious diseases which follow neglected colds. ### BRIDGE BLOWN UP

Mexican Federals Destroy Structure Near Vera Cruz.

ON ROUTE TO THE CAPITAL

Gen. Funston Reports the Wrecking of an Important Link Between Vera Cruz and Mexico City-Act In Violation of Armistice Probably Done With View to Checking U.S. Advance.

WASHINGTON, May 18. - Brigadier-Gen. Funston reported from Vera Cruz yesterday that the Mexicans had dynamited and destroyed the San Francisco bridge, on the line of the Interoceanic Railway, 28 miles out from Vera Cruz.

This bridge was one of the most important on the line of the Interoceanic road, and its destruction greatly increases the difficulty of this route for an American invasion.

The San Francisco bridge crossed the Antigua ravine and was 164 feet in length and 14 feet high. The Interoceanic is a narrow-gauge line, and has not been used for the removal of refugees from Mexico City. It also was the second choice as route for the American troops to the Mexican capital, the broad-gauge line of the Mexican Central being prefer-

Gen. Funston does not say how the San Francisco bridge was destroyed or by whom, but apparen'ly it was the work of the Federal troops.

Gen. Funston also reported a rumor that Gen. Navarette, the Federal commander, is in the neighborhood of Vera Cruz with a force of 3.000 men. The fact of the actual blowing up of the bridge was not so disconcerting to the Washington officials as was the evidence which it presented of the continued activity of Huerta's forces almost within the shadow of Vera Cruz. This uneasiness was increased by the suggestion by Gen. Funston of the nearness of the Mexican commander with his 3,000

Huerta Jailing Grumblers.

VERA CRUZ, May 18 .- Huerta is still pursuing a policy of cowing dis-loyal residents of Puebla by jailing all those suspected of sedition. Many hundreds of arrests have been made in the past ten days, and some of the most prominent and wealthy Mexicans in the city have been consigned to the army. The latest victims of political persecution are Doctors Jesus Alfaro and Juan Guateau, and Prof. Luis Ibarra. Alfara is the di-rector of the general hospital of the state, and Guateau is a professor in normal school. Ibarra is a close friend of Juan Sanchez Azcona, former secretary to Madero, now the represen-tative of the Constitutionalist Junta in Paris. Azcona after Madero's murder fled from the capital and was arrested in Ibarra's house.

Mr. Coderre, as Minister of Mines, also piloted through committee his bill respecting the manufacture. storage and carriage of explosives in and about quarries and mines.

Mr. Henderson (Halton) enquired if the clause as amended would apply to the storage of "Crackrock," explosive used generally and to a large extent in quarries. Mr. Henderson naively pointed out to the House that unless the explosive was subjected to rough usage there was no danger of it exploding. Mr. Coderre replied that no decision respecting this explosive had as yet been reach ed, but the matter was under consideration by the Government.

G. T. R. Constable at Bridgeburg Had Been Waylaid.

BRIDGEBURG, Ont., May 18 .-County Constable George Wilson, who up to a month ago was a special officer of the Grand Trunk, was waylaid near the Michigan Central Railway depot here Saturday night and severely beaten. He was found unconscious at half-past three yesterday morning, and it is believed that he lay two hours before he was discovered by customs officers. Dr. J. R. Mencke was called, and it was only after two hours' work that Wilson regained consciousness and it was believed that when found he was almost dead. Wilson, when he could talk a little, said that he knew who had assaulted him, but he would not give

their names. During the three months he was employed by the Grand Trunk he became very unpopular with the men.

> His Seat Last March-Father Was Prominent Jurist.

MONTREAL, May 16 .- Hon. F. D. Monk, former Minister of Public Works in the Dominion Cabinet, died here yesterday morning.

Mr. Monk resigned his seat for

Jacques Cartier on March 3 last, owing to the continuance of his illhealth. He had been absent from Parliament since his resignation of the portfolio of Public Works on Oct. 22, 1912, hoping against hope that he would recover sufficiently to attend to his Parliamentary duties. The late statesman had been suffer-

ing from hardening of the arteries. It was noticed Thursday night by his physicians that he was sinking and the last rites of the Roman Catholic Church, to which he belonged, were administered by Rev. Father Trole, a personal friend.

The end came about 3.25, the daughter of Mr. Monk and his two sons, F. A. and J. D. Monk, being present. Mr. Monk was conscious to the last.

Among the earliest callers on the bereaved family was Henri Bourassa, a very old friend of the dead former Minister.

Frederick Debartzch Monk, D.C.L. K.C., was born at Montreal in 1856. He was a son of the late Hon. Samuel Cornwallis Monk, a judge of Court of Queen's Bench for the Province of Quebec, his mother being of French descent. He graduated in law at Mc-Gill University and was called to the Bar in 1878. He represented Jacques Cartier in the Cominion Parliament from 1896 to 1914. He was Minister of Public Works in the Borden Cabi-net from Oct. 10, 1911, to Oct. 28, 1912, when he resigned, being out of sympathy with the Borden naval policy. Owing to continued ill-health he relinquished his seat on March 3, 1914.

Hon, Mr. Monk was leader of the Conservative party in Quebec from 1900 to 1904. He was said to have been the best bilingual speaker in Canada, and his unfailing courtesy and kindliness made him popular on

both sides of the House. Premier Deplores Death.

OTTAWA, May 16 .- The death of Hon. F. D. Monk drew tributes to his worth from Premier Borden, Hon. L. P. Pelletier, Hon. C. J. Doherty and Hon. Rodolphe Lemieux in the Commons yesterday. The Premier said that he and Mr. Monk were first elected members of the House at the same time, and ever since they had been closely associated in public affairs. Though there were sometimes marked differences between him and Mr. Monk on public policies, yet those differences never interfered with Spanish Ambassador Riano at their personal friendship. He was a great Parliamentarian, of great ability and industry and of commanding Orderly Samuel Parks immediately presence in the Parliamentary and thlic affairs of Canada

Came to Canada In 1862. MONTREAL, May 15 .- Word was received here last night of the death earlier in the evening at Atlantic City of Mr. William Wainwright, senior vice-president of the Grand Trunk and Grand Trunk Pacific Railways. Mr. Wainwright, who was 74 years of age, had been critically ill for a

the New Jersey resort to recuperate. Although not much improvement was seen in his condition arrangements had been made to bring Mr. Wainwright home to-day. Several of his relatives were with him to the end. The late Mr. Wainwright was one

and complications. He had gone to

of the best known railroad men on the American continent, in fact it was said of him that he was as well known in the capitals of North America as the late King Edward was in the capitals of Europe.

A man of exceptional ability and versatility; capable, hard-working, pertinacious and possessed of a keen intellect and insight, the late vicepresident was for a long period responsible for much of the Grand Trunk Railway's development, in connection with which he had labored from its inception.

Among the executive he was known as the "general purpose man," and as such acted in an advisory capacity right up to a short period before his last illness. Also on account of his popularity with men of all parties at Ottawa he was entrusted with the road's interests in matters that come before Parliament. He was numbered among the twenty-three men said to be at the basis of Canadian finance.

Mr. Wainwright's many responsibilities during a crowded business career did not preclude him from taking an active part in military matters. He was gazetted captain in 1872 in the First Brigade of Garrison Artillery, and had seen service during the Trent affair and Fesian Raids, for which he received the medals. He was a devoted Imperialist, and in religion an Anglican.

Born in Manchester, Eng., April 30, 1840, he later entered the service of the Manchester, Sheffield & Lincolnshire Railway as a junior clerk, and subsequently rose step by step until he became secretary to the general manager of the system in 1858. In that year, at the solicitation of the late Sir E. Watkins, then prominently connected with the Grand Trunk Railway, Mr. Wainwright resigned his position and came to Canada as senior clerk in the chief accountant's office at Montreal.

A year after his arrival in Canada he was holding down a responsible position as senior clerk to the managing director, as well as being in charge of the car mileage depart ment. Nine years later, in 1872, he -as appointed general passenger agent, was promoted to the assistant managership in 1881, and became assistant general manager of the railway in 1891, comptroiler in 1900. fourth vice-president in 1907, and second vice-president in 1910. Since then he has been vice-president of the Grand Trunk Railway and second vice-president of the Grand Trunk Pacific Railway, and more recently senior vice-president of both systems. He was also director in many other corporations.

#### ACCUSED OF MURDER.

Two Men Are Arrested as Sequel To Hayde Mystery.

· MIDLAND, May 15 .- Andrew and Peter Morreau were arrested yesterday and placed in Midland jail in connection with the murder of Robt.

Robert Hayde, a grocer of Tomahawk Point, some miles north of Honey Harbor, was murdered on or about the night of Friday, March 27. His body was found on Monday, April , buried in a manure heap near the stable of his home, with a shot wound in the back of his neck.

At the inquest subsequently conducted by Coroner Raikes the jury rought in a verdict of mu mitted by persons unknown." Since that date the police have made a thorough search for the guilty persons, and believe the men arrested Wednesday know something of the crime.

Hayde was a bachelor, about fifty years of age, and lived alone. It is generally believed in the neighborhood that the man was murdered for his money. He was known to always carry a large sum in his pockets. which were empty when his body was found.

#### "PLAYING SEPARATE"

Two sisters, now in middle life, spent their girlhood in a small New England village, where they were carefully and strictly reared. They had few companions. Nearly all their games they made up, and in time they grew to prefer them to others that tradition or their elders

supplied. One of the games they called "separate." When they grew tired of each other's society, one of them would suggest that they play that game. Starting in opposite directions from a given point, they tried to keep away from each other as long as they could. That was the whole game. The longer they kept apart, the more successful was the sport. If they stumbled upon the same hiding place, or if they so much as saw each other, they had to begin all over again.

The thing is so absurdly simple that it does not seem at first glance to deserve to be called a game at all; nevertheless, in the passing of time it has come to stand out in the minds of these two women as more interesting than any other game of their child life. The reason is that it rests on a basis of sound psychology. It suggests a funda-mental need often overlooked. As adults, the two women see that the simple game lessened the fric-tion of their early years, and they believe that many persons who must live in close association with others would be happier if they would only learn to play "separate" with understanding and good

numor. Last winter a bright, energetic woman, the mother of a family of grown sons and daughters, decided that she was going to Bermuda, and to the amazement of her family, that she was going alone. She did it, and had the most satisfactory vacation of her life; for not only was the trip itself delightful, but the brief separation quickened her love for her family, and their love for her.

For those who have grown irritable and weary because of the strain of being constantly with the same persons, there is no better way to get a new grip on themselves than to do as the little girls and the wise mother did. Let them go away alone to seek new faces in new scenes; to fill the days with unaccustomed occupations and the mind with fresh thoughts; in a word, to play "separate."-The Youth's Companion.

#### HOME

A lady received the following reply from a neighbor in answer to a question as to why she allowed her children and her husband to litter up every room in the house. The sentiment will find lodgement in the heart of every home loving person in the land. "The mark of the little muddy feet upon the floor can be more easily removed than the stains where the little feet get into the highway of sin. The prints of the little fingers upon the window pane, cannot shut out the sunshine Bill and Dan-the heroes of the lobhalf so much as the shadow that darkens the mother's heart over the one who is but a name in the coming years. And if my Joe finds home a refuge from care and his greatest happiness is within its four walls, he can put his boots on the Said Dan to Bill: "The hills are rocking chair and hang his coat on the floor any day in the week. And if I stand it and he enjoys it, I cannot see that is anybody's affair,"

#### Little Things

A little word, said pleasantly in passing, may brighten up some careworn fellow's day; a little sneer, a little bitter sassing, may change his skies from gold to sombre gray. A little praise may send feet blithely triping, that otherwise would drag the long day through; a little help, when some poor cuss is sliping, may start him right and bring Bill and Dan each has a little hobby; success in view. A little roar when vicious things are brewing may spoil the brew, and oil up Virtue's wings; a little kick when statesmen are pursuing false gods may bring round to better things. A little sense may make us seem a fountain ot wisdom if you keep your tongue on straight;a little debt may very soon become a mountain, and crush you down beneath its galling weight. The little things make lite a joy or nuisance; if you ignore this fact, when you are gray, you'll realize you were a blooming goose since you let the best of all things get away. - Walt Mason.

Every careful and observant mother knows when her child suffers from worms. She also knows that if some remedy be not speedily applied much harm will result to the infant. The best application that can be got is Miller's Worm Powders. It drives worms from the system and sets up stimulating and soothing effects so that the child's progress thereafter is painless and satisfying.

#### Regulating City Milk Supply

BY W. H. IRVINE, EDMONTON, ALTA. I was much interested in your recent editorial in which you discussed and touched upon several vital points concerning the sale of milk. do not, however, agree with all your statements or conclusions reached. In the first place you state that the law simply calls for a minimum standard of three per cent. fat, and all milk containing more than this amount may be reduced to the three per cent. standard, and the retailer still does a legitimate busi-

This conclusion is contrary to my interpretation of the Dominion statutes regarding the sale of milk which states that milk from which a proportion of the fat is extracted is an adulterated product, and any person offering for sale such milk is liable to the penalty of the law.

Of course it is not always an easy thing to tell when a small proportion of the fat is extracted, but such a practise would have to be followed behind closed doors. In suggesting that every dealer who has the equipment reduces his milk to the minimun standard, thereby securing a little rake off on the side, I believe you are unfair to the dealers. Through personal knowledge of many dairies in both Eastern and Western Canada, I do not believe that, if any, more than a very small percentage of the retailers extract fat or or standardize their milk. We have only to look at the monthly milk tests taken by the health department of any of our larger cities in proof of this statement. If the milk were standardized would we not expect to find all milk retailed of a uniform test of 3.2 or 3.3 per cent., but do we find this? No, we find that milk from different dairies will vary from three to four per cent, according to the source of their supply, and also that milk from the same dairy will vary from month to month, due to influences affecting its production.

In suggesting that milk should be bought and sold according to quality, you touch a most important point in the sale and production of milk. It does seem very unfair that the farmer who produces four per cent. milk should only receive the price per hundred as the man who produces three per cent. milk. While paying for milk on the fat test alone may not be an absolutely correct method, yet it is undoubtedly a great deal more ac-curate than by buying by the hundred weight.

What seems to me like a very fair method would be for the dairies to pay a rate, say of fifty cents a pound butterfat up to a test of 3 2 per cent. and for all butterfat over this standard, the price be forty cents per pound fat. While these figures or prices would not apply in all localities, yet this ratio could be adopted, and would prove, I believe, a most gary, and the Edmonton Dairy Co. milk going into Vancouver is bought on the straight fat basis.

As regards your suggestion of retailing two qualities of milk, such a system would, I believe, prove too cumbersome, and would only in crease the already high operating expenses of the dairy, which in the end would mean a reduction in price to the already underpaid producer or else a general increase to con-sumers. The consumer in buying a milk of three to four per cent. fat at nine or ten cents per quart is buying one of his cheapest foods, and protein in one of its cheapest forms, and therefore is receiving no injustice whether he be a poor man or wealthy, in fact, at present prices milk is more a poor man's food than it is a wealthy man's.

True, the present system of buying milk is unfair to the farmer producing high quality milk, but how are we to overcome it? Will it be necessary for the government to pass a law requiring that quality be considered, or will the dealers organize and adopt a system of equitable payment?"—Canadian Farm.

Two Schotchmen had been having a good time on the heather downs of an island, and were rowing back across the firth, when the boat capsized. Angus had clung to the boat, and, Jock, who had clung to the bottle, was floundering bravely in the deep. Although a poor swimmer, he struck out for the skiff, holding the bottle in one hand. After a few strokes he became exhausted. Augus, he cried, I dinna think I can mak' it. Weel, if ye canna mak' it, Jock, throw it, called back Angus.

Things are looking up in Cobourg. Last week, as we learn from the Sentinel Star, an enterprising citizen had the roof of his back kitchen shingled. Port Hope may get even by flooring the Mayor's "stoop."-Orillia Packet.

On July 4th next the town of Beaumont, Tex., is to enclose its entire main street, which is called Broadway, and is to locate several bands at intervals so that the street may be turned into a tango dancing floor. In addition there will be illuminations and fireworks.

FOUND NOT GUILTY .- Chester Unger, of Cramahe Township, appeared before Judge Ward on Monday in the County Judges Criminal Court on a charge of incest, and was found not guilty and discharged from custody. This was the first

man seated beside her, and said

INVITED TO ROCHESTER. — Two years ago, a number of the Oddfelvisit them on the occasion of the Grand Cantonment of Patriarchs Militant, June 1st to 4th. They promise the boys a good time.

MURDERER ARRIVES. - Frank Smith, a negro, arrived at the Portsmouth Penitentiary yesterday after-noon to serve a life sentence tor murder. He was sentenced to be hanged but the sentence was commuted to life imprisonment. He went to Portsmouth from Chatham, yesterday, to spend the rest of his days at the big penal institution. A peculiar coincidence in his case is that he arrived here on the day he was to have been hanged.-Kingston Whig.

It is, isn't it?-Every morning during good weather, the business man on his way to work is compelled to walk through a cloud of dust from the moment he steps on the main streets. Those who sweep the stores continue their occupation to the sidewalks, and thence to the roadway. They seldom sprinkle the walks or put anything on them which will keep down the dust. A moment's reflection will show that this practice is as dangerous as uncovered manure bins and the like.

CANNOT BE DEPORTED .- William Auastayjgeweski, the Austrian who was arrested last week while on a rampage in the Township of Hamilton, came up before P.M. Boggs on Friday last. He was pronounced insane, after an examination and remanded to jail for safe keeping. Wide Suede Belts, all the new He cannot be deported, as he has taken out naturalization papers.
