After considerable hesitation, we asked a young lady what turkeys were worth, and she replied that they were worth more, but she was only charging 25c. per lb., on ac-count of Thanksgiving. Someone standing behind, we think it was our old friend C. A. Hagerman, called out, "Have a heart," so we turned our attention to the ducks. You could buy a nice little (with the emphasis on the little) duck for 70 or 90 cents. Then we thought of chickens, but they were roosting high, 20c. per lb. We kept marching on, so, gentle reader, you will find it difficult to figure out what our bill of fare is for Thanksgiving.

Butter sold at from 28 to 30 cents a pound and potatoes \$1.00 per bag, with the chance of a drop before the close of the market.

Notwithstanding the action of the weather man, Wednesday mornng, October 7th, a large crowd visited town to attend the annual Fall Fair. nual Fall Fair. O'clock prevented many coming in, but the attendance however exceeded all previous years and t was the unanimous verdict that the show was the best in the history of the Society. The entries simply poured in, there being an increase of 700 over last year. Every class was well represented and the judges had a real busy time and quite a difficult task. The poultry exhibit was a pleasant surprise to all It required a huge tent to accommodate this show and it was certainly very fine. Mr L G Jarvis, of Grimsby, who acted as judge and who has been to nearly every fall fair in the Province, stated that it was the best exhibit he had seen outside of Ottawa, Toronto and London.

Another feature was the splendid exhibit of horses, especially the carriage and road horses. Dr J A Sinclair, of Cannington, was the judge of the light horses and he told the Guide it was the best he had seen this year and he had acted as judge at Toronto, Ottawa and Cobourg. The Dr also remarked that, with the exception of Toronto, we had

the best track. The children's work, exhibited in a tent near the main building was a revelation to the many visitors and brought forth many favorable comments on the side. On the south side of the tent was the work of the sewing girls of the Women's Institute and on the north was the work of the boys and girls from the rural schools.

In the main building there was a large exhibit of fruit, flowers, dairy produce, vegetables, grain, etc. The ladies' work upstairs was much larger than usual and this part of the building was crowded by the

fair sex all afternoon. The Directors are very jubilant over the outcome and they are to be congratulated upon the success. There is a whole lot of work to a Fall Fair and it is evident from the many improvements to the Pack that the Directors have spent much time and worked real hard. The receipts amounted to over \$700 and with the entrance fees this is increas

ed to \$1,000.

A complete prize list will appear in our next issue.

### A Supposition.

Suppose for an instant that Germany, instead of going to war, should have been content to guard herself against assault and invasion, suggests a correspondent in the New York Evening Post. Suppose that Russia should have moved against her, and that France should have joined her forces with those of Russia. What then would have been the world's verdict as to Germany's position? The public sentiment that now condemns Germany, would have been her strength and possibly her salvation. But by her unjustifiable aggressions, her eagerness to force war, she has alienated from her cause the sympathy of the rest of the world, and will have to abide by the results. Well will it be for Germany if these results be not her deep humiliation, almost to the extent of annihilation .- St. Thomas Times.

the history of hydro-electric power in Ontario yesterday when Sir Adam Beck pressed the button which turned on hydro power in the village of Beaverton. The second session of the third Legislature of Alberta was convened

yesterday with the usual ceremony. The speech from the throne gave but little indication of the business that will be considered.

Antwerp Undergoes Terrific Bombardment by Germans.

KING RETIRES WITH ARMY

Belgian Monarch at Head of Forces Withdraws to Join Remainder of Army In West Flanders-British Troops With Big Guns Are Participating In Operations and Have Quieted Panic.

LONDON, Oct. 9 .- While the immense armies of the belligerent powers of Europe are engaged in death struggles along lines hundreds of miles in extent, in battle which for the numbers engaged, fierceness and stubbornness, have no precedent in history, the intrepid little army of Belgium is making a last stand be-hind the forts of Antwerp, one of the strongest fortified positions in the world.

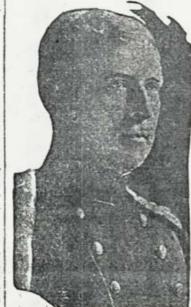

The bombardment of Antwerp has been so violent that the houses at Rosendaal, a Netherlands town more than 20 miles distant, have been visibly shaken, according to a telegram from that town to the Central News by way of Amsterdam. Some wounded civilians have ar-

rived at Rosendaal, and the Dutch Government has ordered all trains to proceed to that place, to be held in readiness to transport the refugees and injured. Thousands of refugees

have already arrived.

News has been received here that the King of the Belgians marched out of Antwerp yesterday at the head of a portion of his army. This portion of the Belgian army is probably retiring to the west and southwest. At Ghent it will come into contact with the Belgian forces holding West Flanders.
Several reports that strong rein-

forcements, presumably of Birtish troops, with heavy guns, reached Antwerp during the day are not officially confirmed, though references to reinforcements have been allowed to pass the censors.

count of the Zeppelins' successful at-tack of Antwerp the large avenue leading to the railroad station quickly became black with a struggling mass of people eager to escape from the city. Seized with an unreasoning, terrible fear of a bombardment or of a charge of German cavalry, the people are transporting invalids, crip-ples, and even the occupants of lunapies, and even the occupants of luna-tic asylums. It was a pathetic sight to see the poor people, some carry-ing on their backs their hopelessly maimed or idiotic relatives, who were crowded into railroad vans and transported northward to remain in some cattle shed or railroad platform until rooms can be found for them in Dutch asylums and institutions.

The situation, however, quickly changed again. While at 2 o'clock even grown-up men were weeping with terror and were fighting for places around the railway station, at six o'clock everybody was again certain that the --- forces would be able to hold out against the Germans and even throw the n back across the River Nethe, while everybody was telling his neighbor how far superior the —— guns were to the German heavy artillery. ### CHARGED WITH MURDER.

Pte. Hartley Accured of Deliberate Slaying of Burgoyne.

ST. CATHARINES, Oct. 9 .- That Pte. Frank Hartley, after the tragedy on the Welland Canal Wednesday night, admitted killing Pte. Burgoyne, and stated afterwards that he "got the wrong one," was evidence given by Chief of Police Greene at the inquest last night. The "other one" apparently was Sergt. Burgoyne, brother of the victim, who a few mo-ments previous to the shooting had sent Hartley to his tent because he answered the roll call late and was improperly dressed.

According to the evidence of several eye-witnesses 'ast night, Hartley later left the tent, complaining of Sergt. Burgoyne's treatment of him, and saying that the non-com. was not treating him right. The deceased, "Teddy" Burgoyne, overhearing the remarks of Hartley, denied that his brother had a pick on him. Next came a boast from the prisoner that he was an Englishman and he could lick anybody on the canal. "Teddy" replied that he was a Canadian and that he was proud of it. "I'll shoot remarked Hartley to the deceased, to which Burgoyne, drawing himself up to "attention," with his hands in the pockets of the sweater

coat which he wore, said: "Shoot." This dialogue was corroborated by five members of the guard who were standing near, and at least three could have knocked the rifle aside had they known it was loaded. There proved to be cartridges in the magazine contrary to order.

After forty-five minutes' consider-

ation of the evidence the jury re-turned a direct verdict against Hartley of wilfully murdering Burgoyne.

Michigan Minister Admits That Hold-Up Was a Fraud.

LONDON, Ont., Oct. 9. — Rev. Isaac Wilson, pastor of Marble Me-morial Methodist Church of Milan, Mich., who told a sensational story Wednesday night alleging to have been held up and robbed, now admits that he invented the story. One of the clues was found in his pocket, being several bogus checks he had torn up.

### GERMAN DESTROYER SUNK.

Intrepid Submarine E9 Has Another Victory To Her Credit.

LONDON, Oct. 8 .- The Admiralty announces that the British submarine E9 has returned safely after having torpedoed and sunk a German tor-pedo-boat destroyer off the estuary of the River Ems, bet seen the Netherlands and East Friesland in the North Sea. An earlier report of the sinking of the destroyer, from Amsterdam, said that the vessel had

struck a mine.

The British submarine is commanded by Lieut.-Commander Max K. Horton, and this was her second successful raid in German waters. Earlich she sank the German cruiser Hela

in the North Sea.

The action took place at 1 o'clock Tuesday and was witnessed by the Dutch coastguards on the Dutch island Schiermonnikog, in the North Sea, off the province of Friesland.

The weather was clear and the sea calm, and the destroyer could plainly be seen cruising before the mouth of the Ems. Suddenly the observers saw a column of water rise near the bow of the destroyer. The vessel immediately turned over and sank in three minutes.

Shortly after the explosion the periscope of the submarine came above the surface of the water for a moment, but as soon as those on board the plunger saw that their tor-pedo had struck its mark the vessel

was again submerged.

A German cruiser and torpedo boats came quickly to the rescue of the crew of the ill-fated destroyer who could be seen swimming about who could be seen swimming about in the vicinity of the disaster or clinging to the wreckage of their sunken ship. As Schiermonnikog is close to the Island of Borkum, where the Germans have a naval base and within 60 miles of Heligoland and the naval arsenal at Wilhelmshaven, the dash of the submarine is considered here a particularly daring one.

A despatch to the Central News from Harwich, England, says that a rumor is in circulation there of the sinking of a German cruiser in addition to the German torpedo-boat destroyer.

turned deadly pale.
"Fate has taken all choice in the heiress broke off the engagement with me; and the girl for whom I would have renounced a fortune refused me point blank, with scorn and derision, then suddenly disappeared. I have been trying to dis-

cover her whereabouts ever since." Gerald Thorndyke knew his friend's strict notions of honor too well to tell him exactly how the the matter at all, all save that part

of it relating to Florabel. "No doubt you censure me, Forrester, for admiring one when I was engaged to another, but if you had seen Miss Vane you would not have pretending to be absorbed in its colmarveled at that. Why, she was beauty at once peculiar and striking. Her face was as fair as a lily; her dimpled cheeks like two pink roses; and her eyes-it would take a painter or a poet to describe them—they were a rich hazel, wonderfully pathetic; and the little head was crowned with a mass of curling, golden hair. Why, heavens ! Forrester, him glance keenly, and with represwhat is the matter? You look as

You shall see her picture, and you can judge for yourself. No doubt you have heard my story; the newspapers have aired it pretty

thoroughly." "Yes, I have heard of it," replied Thorndyke, extending his hand and there and board in some quiet place grasping that of Max in earnest sympathy; "but I hope all will come

> "Never!" declared Max, firmly. As he spoke he took the portrait from his breast pocket and handed

it across the table to his friend. One glance, then Gerald Thorndyke sprang to his feet with a start-

led crv. "My God! am I mad, or do I dream?" he cried excitedly. "No. no, my senses are not playing me false; this is the portrait of Miss Vane! Even her name, in her own delicate chirograpy, is beneath it-Fiorabel. Do you mean to tall me this-this-is your wife, Forrester?' he said, his voice husky with agita-

Max had sprung to his feet in inintense amazement.

"I do not comprehend what you say," cried Max, hoarsely. "Make this thing clear to me, Thorndyke."
"I will," replied Gerald. "Calm yourself. Sit down and listen. I will tell you all;" and he told briefly and truthfully the story of Miss Carlisle's accident, which had brought her and the beautiful young stranger together, and all that had transpired since.

"It is but two days since that you saw her in the park, you say?"gasped Max. "It is so," replied Gerald.

"And you have been searching for her ever since, but could find no trace of her?" questioned Max,

breathlessly. "If the green earth had suddenly

Then, in the face of all this, he remembered her letter. She had written on that tear blotted page that she was "going to Arthur;" and at the thought his face grew dark and stormy. He would have given his life to have believed in her innocence; but, ah, Heaven! how could he? how could he?

He bowed his handsome, troubled face in his hands, his tall form shaking like an aspen leaf.

It had been a severe breaking up of a pretty love dream to Gerald in love with pretty girls; but he never made the fatal mistake of admiring or giving one thought to a beautiful woman on whom another had claims which should always be are in for hearing the whole truth." held sacred.

Gerald Thorndyke walked back to his hotel.

"I'm the most unluckly dog un-der the sun," he ruminated. "Miss Carlisle and her fortune gone; and matter cut of my hands," he replied, the girl I have loved so madly Max with much embarrasment. "The Forrester's bride. Was there ever the girl I have loved so madly Max such a contretemps, such a strange revolution of the wheel of fate?"

He walked into the reading-room of the hotel, and threw himself down into an arm-chair near the window. A young man sat opposite him, glancing eagerly down the columns of a newspaper. His face seemed to attract Gerald

Thorndyke strangely at the first affair had happened; indeed, it was glance. Feeling intuitively the a source of deep annoyance to recall deep scrutiny of the prolonged gaze bent upon him, the young man dropped the paper nervously and turned hastily away. "Why should he do that?"thought

umns. "There is something wrong as beautiful as a dream, with a there, I feel sure. That fellow will bear watching." Twice the young man rose from his seat and paced up and down the floor of the reading-room, eagerly

watching the great bronze clock en

the wall. Several strangers entered the oom, and Gerald Thorndyke saw sed uneasiness and agitation, very carefully at each and every one; and as they looked at him indifferently and passed by, he turned away in apparent reliet.

As the porter passed by the door "Has my baggage been taken

down from my room yet?" he asked, hesitatingly. "Not yet, sir," returned the man.

is only 8:15 now. You have plenty HELP FOR THE BELGIANS! The young man resumed his seat

and his paper. "I shall never feel safe until I have put a considerable distance between New York and me," he muttered. At that instant one of the bell-

boys stepped into the room, holding a telegram in his hand. "Is Mr Arthur Hurlhurst here?" he asked, glancing quickly among the different groups of gentlemen. "A telegram for him."

The young man sprang to his feet and held out his hand for it, saying, in a constrained voice: 'This way, my lad. I am Arthur

Hurlhurst.'

CHAPTER XXIII. 'SEND FOR HIM. TELL HIM I AM DY-ING. I CANNOT REST IN MY GRAVE

If a thunderbolt had suddenly fallen from a clear sky and exploded at Gerald Thorndyke's feet, he could not have been more startled.

UNLESS I HAVE SEEN HIM.

Could it be possible that the man Forrester was looking for - who had caused him such a world of woe -was within his grasp? In an instant he had made up his mind what course to pursue. He would detain him until Max Forrester could be sent for.

Approaching him, Gerald opened a conversation with great care, taking the presaution of sending a special messenger in great haste for Max first.

Gerald Thorndyke knew so well how to make himself a "thoroughly good fellow," as his companions expressed it, that he quite charmed Arthur.

"I am sorry I did not meet you before," he said, rising to leave the reading-room. "I leave New York to-day. I shall have to bid you good-bye now."

There was a quick ringing step outside; some one burst into the room with a bound; and before Arthur Hurlhurst could wheel about, a hand like a grip of iron fell on his shoulder, and a hoarse voice-which he knew but too well-fell hoarsely

on his ear, crying out: "I have tracked you down at last, you villian! Most any other man would shoot you down on the spot: but I will give you an equal chance with me for your life. But I will have this accursed affair cleared up first. Answer me! Where is Florabel?"

Arthur Hurlhurst attempted to shake himself free, but the grasp on his shoulder was as firm as a band of steel. Much to Max Forrester's amazement, the brown eyes of the young man met his unflinchingly.

"Upon my honor, I answer you candidly, I do not know,"he replied, calmly.

"Tell me on the spot, or I will not be accountable for what may happen after; what is Florabel to

It almost killed Max Forrester to utter these words; but he must know the truth.

"I may as well make a clean. breast of it," said Arthur, frankly, "and throw myself upon your mercy... Excuse will not avail. I see you "Yes," said Max, hoarsely, "I will have the truth."

"What I have to say shall never be told before a third party," said Arthur, proudly.
"You can retire, Gerald," said

Max. "I will deal with this fellow alone." "Now, then, speak out quickly,"

cried Max, harshly. "Answer my question at once.' "I am Florabel's brother," replied Arthur, slowly. "This I swear to you. But before I explain further you must give me your solemn promise that you will not reveal what I am about to tell you to any living person, for upon this strange point hangs, what seems to you, poor little Florabel's unaccountable actions."

Max Forrester dropped back as though he had been shot. "Florabel's brother!" he gasped. 'Impossible! How dare you tell

me this? She has no brother." "I am her brother-her miserable, unhappy brother,"responded Arthur, sadly. "I wish to Heaven I had never made myself known to the poor girl, to have brought all this misery upon her. If you were not blind, Forrester, you could trace in Thorndyke, picking up a paper and

my face the relationship. It does not admit of doubting." Ah, yes! Here were the same hazel eyes, the sweet mouth, the crinkled, golden, curly hair; the same trick of cresting the head backward Yes, yes, he must be-lieve the truth. This was certainly

The hearts of all our citizens have been touched and harrowed by the tales of terrible suffering and destitution endured by the brave Belgians, who have sacrificed everything in defence of their country. They now lack even the common necessaries of life and an appeal has come to us from several sources to

help them in their dire extremity. The Imperial Order Daughters of the Empire are responding to the call and ask for the assistance and co-operation of the townspeople in sending a consignment of good, warm clothing. New clothing is not necessary, nor is it asked for, but it must be clean, warm and in good condition, suitable for men, women and children, including babies; shoes, stockings and underwear will be very acceptable. The ladies in charge will be in the Li-brary Hall to receive clothing, on Tuesday and Wednesday next, from 10 to 12 a.m. and 2 to 5 p.m. The things must be shipped on Thursday so as to take advantage of the ship being sent by Nova Scotia for Belgian relief, on Oct. 19th.

### CANADA AFTER THE WAR

John Oliver Curwood, an American author of note, believes Canada will see the greatest immigration movement in its history following the war. He says:

"Following the signing of peace will follow an immigration movement that I believe will amaze the world. Have people forgotten what happened immediately after the Franco-Prussian war of 1870?. Have they torgotten that three of the greatest states in the United States-Nebraska, Minnesota and Iowa-were settled by more than two hundred thousand Germans during the few years that followed the victorious march to Paris? And that war was a German triumph. What, then, will follow a German To-day Nebraska, Iowa and Minnesota are our three great German states, and three of our richest states. The Franco-Prussian war made those states. And where one German sought new opportunities across the sea in those days I look to see five come after the present war. They will not go to the United States. In spite of tremendous real estate booms in Texas and other parts of our south I cheerfully place myself on record as saying that there are no fit lands left open in the United States. To pear in all the papers of Canada Canada and South America must go the grant of the future who is seeking land on which to make a livelihood."

Not only will Canada be the haven for the emigrant as a result off after the business.

### THE PATRIOTIC FUND WHAT IT MEANS

To The EDITOR OF THE GUIDE.-Having had but a very nebulous

idea of what the Patriotic Fund was and how it was administered, been asked to publish:

Ottawa, 24th Sept., 1914. for assistance from the Fund, even sins of omission of other people. At the same time I would strongly urge upon you the necessity of forming a local Branch of the Fund at Port Hope, not merely for the purpose of securing subscriptions, but to undertake the work of administering local reliet. It is not possible for a Central organization to deal with the latter, except beyond exercising a general supervision. I may say that your neighboring town of Cobourg already organized, and I think it would be well for you to communicate with Mr C J Thornton, M.P. Orono, and ask him if he will help you to form a Branch which will include the whole County of Durham within the scope of its activities.

The reference that you see in the papers to \$20.00 a month to soldiers' families, applies to the separation allowance which the Dominion Government is granting, and has nothing to do with the Canadian Patriotic Fund, except of course, that it is taken into consideration when granting relief. The separation allowance is payable to the wives and not to other dependents, except widows whose sons were their sole support. In the latter case, the widow must make a special application to Mr. J. W. Borden, Department of Militia, Ottawa, and send with her application, a certificate from her clergyman that she was entirely dependent upon her son.

Your suggestion that an official statement covering all aspects of the fund should be given to the press, has already received consideration, and the announcement should apwithin a day or two.

Finally I want to impress upon you the importance of organizing the County of Durham at the earliest possible moment. Every day I receive applications in this office the war, but she stands to profit from women in various parts of greatly in trade and commerce f rural Ontario, and until the responour manufactures will only get out sible men in the different districts awaken to the necessity of forwarddifficult to afford relief to every ap-

Ottawa, 24th Sept., 1914.

DEAR SIR,—I am in receipt of your letter of September 22nd, which has been handed to me by the Minister of Finance. The Canadian Patriotic Fund has been incorporated for the benefit of Canadian soldiers, British Army and Navy reservists and French, Belgian, Russian, Servian and Japanese reservists. sian, Servian and Japanese reservists, coming that we should make a subwho are leaving families behind them in Canada and have gone to the Front or are engaged on active service within the Dominion. Certainly the dependents of soldiers living in Port Hope will be aligible. living in Port Hope will be eligible lack of employment due to the war.

While this relief is not properly a if Port Hope has not contributed part of the work of the Patriotic thereto. We cannot allow the de. Fund, it could be taken up with it, pendents of soldiers to suffer for the as has been done in Montreal, Toronto and elsewhere, A certain proportion of the money raised, or all the money in excess of a given sum should be devoted to this local relief of an exceptional character. To this end it would appear to be very desirable that a public meeting of the citizens should be called to consider this question. The greatest possible freedom is granted by the central committee in the way of local autonomy. If for example \$2000 were raised in Port Hope, that money might be placed in a local bank and simply reported to Ottawa. We could draw our cheques on that then turn to the general fund. Or if we choose we could send it direct to the central organization and have all the cheques issued from head

quarters. Finally some one has asked what Patriotic Fund raised at the time of the South African war? In the circular issued by the central organization it is stated that that sum amounting to \$77,000 was turnep over to the present fund at its very beginning. I trust that the men at the head of this great work will not overlook the wisdom of setting before the public the fullest information concerning its operations. The consideration which is given to the families of soldiers ought to aid materially in securing men for the second contingent.

As an Ontario scribe would put it there have been persistent rumors during the past few weeks that the good old globe was going to give up its regular job of chasing itself around the sun and go skylarking with Halley's comet. Some of these rumors have been ascribed to Pastor Russell, but there are those who sav they emanated from the Kaiser's news factory in Berlin, where the descendants of Munchausen are at work.

A Winnipeg pastor made reference Sunday night to the winged rumors and somewhat startled his congregation by news that Winnipeg disciples of Pastor Russell were disposing of their wordly goods in preparation for the big plunge into the unknown which was scheduled to take place this month. At least Opinion. one excited individual tipped the Free Press off to this world scoop, and told with bated breath about a young lady on Langside street, who had given away everything but the clothes she wore and had left for Fort William to be with her folks at the jumping off.

OFFICIALLY DENIED.

The rumors have been officially denied, and we will not wake up one morning to have a brush for a few millions of miles with some unstrapper of a comet, who thinks we are not built along speed lines. The man who figured he would get out begin saving his sheckles. It will be a good deal colder this winter for some people than it might have been had the rumors been fulfilled.

HAS BEEN MISQUOTED.

To come to the point Pastor Russell says he has been misquoted lightly. His reputation as a world wrecker was becoming so widespread that he has caused to be spread broadcast a sermon which sets forth his views correctly. He states that he has never prophesied the end of the world in 1914. What he does teach is that this year will mark the beginning of a new epoch or a new age. "To my understanding," he says, "the bible teaches that Jesus has been present in the world since 1874. In other words his second advent then began. The wonderful progress in the world since then, bible students thus explain; the wonderful blessings upon them and their study of the bible they interpret in harmony with this. They understand the bible to teach that this Parousia will continue for a thousand years; but that the Epiphania, or manifestation to the world will be due in forty years from the time the Presence began. That is in 1914) For this reason they are looking very interestedly to see what the present year may bring forth. Our Lord, in describing his second presence clearly indicate that it would be unnoticed by the world until the cataclysm of unwounded. PATRIOTIC SALE trouble should come. ### THAT AERIAL ATTACK ON ENGLAND.

It is not to be believed that von Moltke has been dismissed by the Kaiser simply because he disagreed pleasure of his erratic master.

England long ago aroused the yellow demon of greed and jealousy in the Kaiser's breast, and his hatred for England now amounts to a mania. What he could hope to gain by an airship attack on England is not apparent. Nobody in his senses could imagine that such an attack would in any way influence the campaign at its present juncture. All that could be accomplished is the possible destruction of historic places-the robbing of England of

some of her historic possessions. Some of Germany's professors are as rabid in their greedy jealousy of England as is the Kaiser, for instance, in New York to-day is published a statement from Dr. Leonard, President of Physics at Heidelberg University, in which he cries aloud for the destruction of London. It must be razed. Especially is there to be "no respect for the tombstones of Shakespeare. Newton

and Farady."
As the New York Herald says editorially, the meaning of this ra-bid utterance is plain. The special object of the professor's projected attack is Westminster Abbey. It must go the way of the cathedral at Reeims, while London is meeting the fate of Termonde and all of course, in the interest of the spread of "Kulture" throughout the world. Evidently the Kaiser and his underlings would like to destroy all evidence of the greatness of other nations. Thus Germany could get not only "a place in the sun," but pose as the sun itself. - Montreal Herald Telegraph.

Theodore Burgoyne of the 19th Regiment was shot dead while on guard duty on the Welland Canal last night. in full view of several comrades, by a fellow-member, of the same detail, known as Pte. Frank Hartley, aged 25 years, who was immediately placed under arrest, brought to this city and lodged in the police station on a charge of murder.

The victim is a son of the late E. W. Burgoyne, and a nephew of Ald. Burgoyne, proprietor of The Daily Standard. In private life he was a clerk in the St. Catharines branch of the Bank of Toronto, 19 years of age, and a great favorite. Of Hartley little is known. He joined the regiment a few weeks ago, since the guard had been placed upon the canal, and as far as can be learned, has no relatives here. He came to St. Catharines from some place in the United States and gave his birthplace as England.

The tragedy took place just outside the lock shanty at lock 9, near Merritton, neither of the men being on sentry-go at the time. An altercation over some trivial matter took place between Burgoyne and Hartley, according to other members of the guard who were close at hand, but very few words of the discussion appear to have been heard. All however agree that with an imprecation, and with no visible provocation, Hartley raised his rifle, pointed it hurriedly at Burgoyne's face, and discharged it before Burgoyne, who was standing just a few feet away. could brush the weapon aside, the bullet passing through Burgoyne's eye. The shot was fired at 7.05, and the victim was dead in seven minutes. Four comrades who witnessed the tragedy, surprised and enraged, sprang upon Hartley before he could again use the rifle, wrenched it away from him, bore him to the ground and handled him rather roughly before he was formally arrested.

### TELLS STORY OF BATTLE.

British Naval Officer Describes Sink ing of Austrian Ships.

the British Mediterranean squadron writes to The Times as follows, describing recent fighting in the Adriatic Sea: W. got wind of the Austrians blockading ALtivari, so we planned an attack at 8.30 next morning. A cruiser squadron consisting of Frenchmen and British patrolled one side of the Adriatic during the night. We turned so that we might be off Antivari at 8.30 next morning, and the French squadron turned so as to be to the westward of us. We intended to look in at Durazzo on the way up, but we were late. We increased to full speed, but the Austrians sighted up coming from the southward, and at once steamed north. The French fleet were in such a position that as the enemy went northward they ran right into the arms of a huge fleet.

The Austrians were very inferior, having only two small cruisers, four destroyers and certain heavy ships. We opened fie, and the destroyers sank immediately. The enemy's cruisers returned the fire, but in about three minutes both ships caught fire, and were a burned mass. Suddenly there was a huge mass of dense, black smoke, followed by an explosion. The ships could be seen with their bows at right angles to the water. In less than a second both ships sank with all hands. Cheers weat up from the deet. We did not open fire, but followed closely in the rear, and then turned southwards, steaming out at full speed."

Correspondents Do Not Believe That German Force Can Capture Stronghold Itself-Operations In Surrounding Country Overshadow Actual Siege and Another Battle of Rivers Begins,

LONDON, Oct. 8.—The Daily News has the following from its correspondent in Belgium;

"The siege of Antwerp is developing into a second Battle of the Rivers (the Aisne battle.) It is raging from Termonde on the west to Lierre on the east, along the banks of the Scheldt, the Rupel and the Nehte, which the Belgian army is defending against odds but with stubborn determination.

"The main attack at the moment is being launched against Lierre, the enemy having apparently determined to cross the Nethe at this point. But vigorous pressure is also being applied along the Termonde-Malines road, in the neighborhood of St. Amand, with the object of forcing the Belgian field army beyond what can best be described as "the elbow of the Scheldt."

It cannot be too clearly understood that there is a vital difference between the defences of Antwerp and those of Liege and Namur. the 52-centimetre howitzers of the Germans may dispose of a Brialmont ring fortress, it by no means follows that they will be equally successful against a widespread network of flood, mine, and wire entanglements intersected by water courses, such as that which I passed through yesterday afternoon while I was in the western area of the operations,

The Telegraph publishes the following from its correspondent in Bel-

gium: "There is nothing, as the position stands at the present, to indicate the least possibility of the Germans being able to secure possession of Antwerp, or even to invest it successfully. Everything points in the opposite direction. Comparatively small results have followed the several days' pounding on the advance forts by the siege guns, and failure has met the successive infantry attempts to break through, carried out, as they undoubtedly have been, with bravery and utter indifference to the loss of life involved."

PETROGRAD, Oct. 10 .- The following official statement has been given out by the general staff:

"On Oct. 8 our troops on the East Prussian border continued to press the enemy who had formed two fighting groups.

The first group was operating in the region of Vladislavoff and Wirballen (both towns in the Government of Suwalki, Russian Poland). Our troops dislodged them from Vladislavoff and surrounded them on the north. On Oct. 8, however, this group still maintained its position east by southeast of Wirballen. All its attempts to take the offensive at that point failed, the enemy sustaining heavy losses.

"The second group of the enemy, a very strong one, commenced an energetic attack in the vicinity of Ratchka and Bakalarzewo (East Prussia). Towards morning on Oct. 8 we assumed a vigorous offensive against their front. The enemy, covered by strong rear guards, tried, it seems, to get out of the sphere of the Our troops captured, by successful assaults, the positions which the enemy were trying to hold. dated Friday, quotes The Nieuws Van Der Dag of Ghent as saying that King Albert left Antwerp yesterday morning and has arrived a' Seizaete, a village near the Dutch frontier town of THE IDEAL JURYMAN.

His Age and Qualifications From an English Point of View.

There is a general agreement in London legal circles that the best jurymen are to be found among men sixty years of age. The opinion is that jurymen at that age show better judgment than younger men.

A leading London barrister, asked for his opinion, said: "I prefer men about fifty years of age. A defending barrister in, say, a criminal case which has certain sentimental elements will always welcome a young jury. He knows he can touch their emotions far more easily than he can those of men over fifty. Sentiment is very rare at fifty, and a man is cold and purely logical. The average man who has reached the age of fifty looks upon things from a materialistic point of view, and his judgment is therefore unaffected by sentiment.

"Education, save in certain civil cases, is no great asset to a juryman. The bricklayer or the mechanic has just as much knowledge of human nature and a sense of justice as the professor, and in many respects barristers and judges prefer the unlettered juryman to the man of culture, though in the case of the latter be is less susceptible to an emotional plea. The man with sound common sense, learned not from books, but from everyday life, is not so easily led either by judge or counsel as many suppose, and if you add the wisdom of years you get the ideal juryman."-Exchange.

### FORCED THEM TO FIGHT.

How "Honor" Was Satisfied by a Com-

pulsory Duel Hungary. The code duello as insisted upon abroad is strikingly illustrated by the story of a happening at Budapest, Hungary. It appears that a lawyer, Babocsay by name, quarreled with his wife over a new bat. The wife called her brother, Lieutenant Hajdu, a military aviator, to her aid. The husband used words deemed insulting by Hajdu.

This coming to the hearing of Hajdu's superior officer, the latter ordered the lieutenant to fight a duel with Babocsay. Nelther party wished to fight. Babocsay offered to apologize, and Hajdu was willing to accept the apology and thus end the affair.

But the military martinet was inexorable. The duel must be fought to satisfy the honor of the army. Consequently these two men, closely related, were compelled to attempt to try to take each other's life. They met, Babocsay, firing aimlessly, nevertheless sent a bullet through the lung of his adversary, and Lieutenant Hajdu died of his wound.

Upon hearing of the death of her brother at the hand of her husband in her quarrel Mme. Babocsay went insane, twice attempted suicide and was finally confined to an asylum .- Chicago Inter Ocean.

A man was on trial before a western judge for horse stealing, and when it came time for the lawyers on both sides to tell the judge what instructions they wanted him to give to the jury in addition to the points covered in his own charge the attorney for the defence said, "I respectfully ask your honor to instruct the jury that it is a fundamental principle of law in this country that it is better for ninety-nine guilty men to escape than for one innocent man to be found guilty."

"Yes, that is true," said the judge, "and I so instruct the jury, but I will add that it is the opinion of the court that the ninety-nine guilty men have already escaped." .

Mme. Adam and the Crinoline. Mme. Adam has been confiding to an interviewer that she owed her introduction to journalism to the fact that she did not wear a crinoline at the time when fashion decreed the garment. Alphonse Karr, who objected to the crinolines, had been denouncing them in his journal, but had concluded his denunciation with the sentence, "Still, there is not a pretty woman in France who does not wear one." Whereupon Mme. Adam, who was then Mile. Lambert, took up her pen and wrote: "Mr. Editor-One may be pretty-some people even say that I am beautifuland yet one may abstain from crino-lines." ### MERELY WAITING!

Fall of Antwerp Marks Start of Was on England Say Germans.

ROME, Oct. 10. — (Via Paris.)— The war against Great Britain, according to German newspapers, will commence at the end of October, after Antwerp has fallen. Belgium then will become the base of operations against Great Britain, the newspapers say. They add that Admiral Von Tirpitz, the Minister of the Navy, who is now at general headquarters with Emperor William, has announce ed that he will go aboard the flagship of the German fleet and direct the operations of the navy.

French Fleet Is Active.

BORDEAUX, Oct. 10-The follow ing official statement was given out yesterday: "The French fleet, commanded by Admiral Boue de la Peyrere, after provisioning at Antwerp, cruised among the islands of the Adriatic between Cattaro and the island of Lissa. Later the French fleet ap-

peared before Ragusa and Garvosa. "The Austrian authorities and other notables at Ragusa fled on two special trains as soon as the battle-ships were sighted. The Italian and Slav population remained calm. The French squadron destroyed the lighthouses and the wireless apparatus at Garvosa. The torpedo boat destroyer Sabretache made a few prisoners at the Putini lighthouse.
"The Austrian warship remained

hidden in the harbors at Pola and Cattaro.

The Germans have recommenced the bombardment of Campigny, a village 14 miles south of Verdun, in which is President Poincare's residence. Forty-eigh: shells have dropped on the president's country home.

### BRIEFS FROM THE WIRES.

The Czar personally inspected the fortress of Ossowitz on Thursday and thanked the defenders for their valorous resistance against the Germans. While walking the G. T. R. tracks at Brampton, W. Burbidge, of Mal-ton, was killed by a passing train.

He had been mentally depressed for some time. Several cases of plague have been

eported at Salonika, and as a result all steamers scheduled to sail from Genoa for that port have suspended their departure. Dr. T. C. Lapp has been appoint-

ed coroner at Cobourg, Dr. Elliot, who has held the office for some time, is with the first Canadian expeditionary force. A German fishing vessel has been blown up by a mine in the Lange

land belt, north of the coast of Denmark. The captain was killed, but the rest of the crew were saved.

Missa Julia Brown, of Somerville, Ont., was assaulted yesterday morning by an unknown young man. Miss Brown is 65 years old, and was brutally beaten and robbed of a small sum of money.

### B. C. HOLDINGS SAFE.

Kaiser's Property Is In No Danger of Confiscation.

LONDON, Oct. 10 .- Emperor William is popularly supposed to have large investments in the timber and minerals lands of British Columbia and it has been rumored in London that the British Government was considering the confiscation of the Emperor's property in Canada.

It can be stated on the authority of a high official in the Foreign Office that the Government thought of confiscating the property of alien enemies within the confines of the British Empire.

The German Emperor is supposed to be heavily interested with Alva Von Alvensleben in Western Canada properties. However, the British Government has not even made an investigation of the titles of the properties in question and disclaims any curiosity as to the Emperors' reported investments.

Defeat of Servians Claimed.

LONDON, Oct. 10 .- The Austrian War Office made the following official announcement under date of Oct. 8, says a despatch to the Retuer Telegram Co. from Vienna, coming by way of Amsterdam:

"To the already announced successes against the Montenegrin troops now is added a decisive blow against the Servian troops who invaded Bos-nia at Vishegrad. Their northern column from Srebrenitza, moving against Bajnaa and Basta, already has been repulsed and driven across the Drina with the loss of their supply train,"

Three Thousand Captured. OSTEND, Oct. 10 .- It appears tlat in the course of yesterday's bomba'dment of Antwerp a sortle was made which proved eminently successful, according to information received last night from the besieged ciy. Three thousand Germans were taken prisoners. The enemy, it is thought, may now have to retire from Lierre, to which it had brought up heavy artillery. Courtral has now been occupied by 5,000 German troops.

Asked Passage For Wounded. AMSTERDAM, Oct. 10. - (Via London.) - The British Minister at

The Hague has asked the Government to permit the free passage of a hospital ship to convey wounded from Antwerp to England. This, it is explained, was the only foundation for the report that Great Britain had asked the Dutch to allow British warships passage to Antwerp.

LONDON, Oct. 9. - The big battle line between the combined Austro-German armies and the legions of Russian extends from the Galician frontier, near Tarnow, right north to the east Prussian border. Another Russian force is besieging Przemysl, in Galicia, and still another is invading Hungary. On the East Prussian frontier the fighting appears to have come to a standstill for the present. The Russians having driven the Germans back, after their advance to the Niemen river, found on getting to the German border that reinforcements had been brought from Koenigsberg and their further progress was arrested.

Fighting on a larger scale will soon be resumed, and it will then be decided whether the Germans are to reinvade Russia in this region or the Russians are again to overrun Prus-

Many Austrian subjects of Italian birth also have fled to Italy because of their unwillingness to serve in the Austrian army.

I lest potterdam yesterday morning, in company with two Dutch journalists, via Dordrecht Breda, for Roosendaal. The previous night thousands of refugees had arrived at Rotterdam from Ant-

The advance guard of the fugitives was encountered at Dordrecht, straggling little bands of men and women trudging along the wayside, with children clinging to their hands and skirts. The number increased when Exada was reached, and as we approached nearer the frontier little knots of these unfortunates grew more and more frequent. Our motor car stopped at Gundert for a moment. Instantly a weeping Belgian girl approached and begged me to tell her whether a certain Antwerp fort, in which her brother was serving, had been blown up, as reported. From this moment onwards there was no cessation in the stream of wretched-

We were assured 25,000 fugitives passed along one road, and that not a main road, from Antwerp to Holland. For many hours I watched the pitiful procession. Every conceivable species of conveyance was utilized for this Belgian exodus, and the roads were encumbered with the Belgian cows and calves in droves. It is said 200,000 cattle thus entered Holland. These are the source of milk supply for the homeless wanderers. Intermingled with them were people of both sexes and all ages, afoot. Large country wagons were loaded with little children. Young as the children were, they realized the tragic character of the occasion, and journeyed in unchildlike silence.

The fiery French Republic, Will fight on to the last; The skies around our Fatherland Look dark and overcast.

The mighty hordes of Russia Despise me to a man, And in the east I'm up against The Emperor of Japan.

My troops are like their Kaiser, Determined, brave and bold, They slaughter helpless children, And massacre the old.

I'm trying to work up Turkey, To hoist the Prophet's flag; Which would stagger all creation And stop Britannia's brag.

A Holy War is wanted, It would wipe Great Britain out And I mean to stop at nothing To bring this work about.

Britain, France and Russia, Would go under in the strife; And the foes that I am fighting, Would be driven out of life.

may gain a few odd battles, In the end I cannot win; Meanwhile the Allied forces Are marching on Berlin.

I hear the famous Kitchener Now holds supreme command This looks like Goodbye! Kaiser And Good Night! Fatherland.

We know this mighty leader Whose plans none can define, He burned the Mahdi's body And now he's after mine.

Without a friend in Europe Though Austria may be true, We look like getting beaten By the Old Red, White amd Blue.

Portugal is restless And Spain may break away, And the World is out for plunder Of my Colonies to day.

To change the map of Europe I've plotted and I've planned, And then-the Fatherland.

My old Italian Alties Saw thro' my little game, And refused to be a party, To join a war of shame.

The Swiss and Danes and Dutch

Have now begun to frown, And the world seems quite deter-

To haul my colours down.

In my fight with France and Russia, Whatever may betide Those cursed British Bull Will never be denied.

So I pray the Great Almighty Will hoist a flag of truce, Ere England and her Allies Have cooked the German goose.

Russians Have Chosen Ground on Which to Meet Enemy.

PRREMYSL SIEGE GOES ON

Russians Say Their Guns Are Destroying Forts of Galician City-Vigorous German Resistance Has Halted Advance Into East Prussia -Germany Has Suspended Exemptions From Service.

LONDON, Oct. 14.—It is officially announced at Petrograd that the siege of Przemysl is progressing, according to a despatch to a local news agency from the Russian capital. The Czar's artillery is rapidly destroying the forts, which, however, continue an energetic resistance. The Przemysl garrison, it is announced, does

not exceed 30,000 men.
Of fighting in Galicia the official reports from Petrograd and Vienna are so directly at variance that there is no reconciling them. Vienna says that the relief of Przemysl is complete, while Petrograd declares that the Russian artillery is achieving great success.

The general opinion gathered from the various reports is that the Russians have withdrawn to a line startig from Sambor, in Galicia, and passing through Przemysl, Sandomir and Ivangorod, and thence to the west of Warsaw, roughly, along the San and Vistula rivers, where they are wait-ing to meet the advancing Austro-German armies on ground of the Russians own choosing.

The biggest forces are between Sandomir and Ivangorod, which is the centre of the German advance. The fighting thus far is only of advance guard character, or probably, where the Russians are withdrawing,

in the nature of rear guard actions.

The Germans seemingly are completely cut of the Suwalki and Lomza districts, but the Russian advance into East Prussia is making little if any progress. Probably both are will-ing to wait where they are until the bigger battle to the south has been decided. The Germans, it is said, have been surprised by the early set-ting in of winter, and not being provided with heavy clothing, such as the Russians have, are suffering severely
