POLICE BUSINESS

Was The Topic For Discussion Mayor Bush Does Not Like Discrimination

Asks The Police Committee To Report

The regular meeting of the Council was held last Monday evening and Councillor Smith's chair was the vacant one.

Mr. J. H. Magill reported that some person had stolen large quantities of brass and other fixtures from International Tool and Steel Company. There were missing one Detroit force feed lubricator, crank shaft and pipe connections taken from the A. R. Williams engine, three oil cups taken from the compression blower. The engine in the annex is all disconnected and the lubricator valves and connections stolen. The boiler is generally disconnected and the injector, steam guage, water guage cocks, fittings and several valves stolen. The water feed pump for boiler generally is disconnected and one lubricator and seven or eight valves stolen. There is also one round mouth shovel, one large scoop shovel, one vice and a quantity of pipe connections missing. There are also one hundred and eighty five panes of glass broken.

The Council expressed much surprise that wholesale stealing should be going on in this matter and asked whose duty it was to look

after it. The mayor stated that it came ander the Police Committee and asked Mr. Hayden for some light on the matter.

Mr. Hayden said that it had not been reported to the Police Commit-tee and the Mayor added that the public were beginning to realize that the town was without a Police Department.

Chief Royce reported that during the month of July there were twelve arrests and two summoned to court. In the month of August five arrests and one summoned.

There were in Port Hope between sixty and seventy Austrians and Germans. He had detained and searched quite a number of tramps and strangers coming into town during the last three weeks.

Mayor Bush expressed the opinion that the number of Austrians and Germans as set forth in the Chief's report was greatly exaggerated. At the Standard Ideal factory there were not more than ten Austrians but there were about forty Russians. These latter men were in sympathy Coats New Stamped Goods with Britain and it was that they should be continually annoyed by the Police. With these noved by the Police with these foreigners the chief has acted anything but fair in the matter of collecting poll tax. While he is still poll tax to be settled at once, sever- And Had His Foot Badly Crushal weeks ago he took a number of Russians to court and had them each fined \$9 50 for neglecting to pay this tax. The Mayor had learned on good authority that one of the Russians who was fined was under the age limit by three years and had only been in the country a few months. This discrimination was not right and it was the duty of the Police Committee to investi-

The Mayor pointed out that it was for reasons of this kind that he had suggested not to pay any further accounts until the system was in a proper running order.

It was decided to have Mr. Rosevear go over the contract with the Town solicitor.

Report of I. O. D. E. Meeting

There was a very largely attended meeting of the Col. Arthur Williams Chapter I. O. D. E; Friday atternoon in the Hall of the Carnegie Library. Plans for work to be undertaken by the organization were discussed and it was unanimously resolved that as there was immediate necessity for hospital and camp supplies, all the energies of the women should be given to sewing and knitting. The articles called for are pyjamas, grey flannel shirts, handkerchiefs made of cheese cloth of which a bale has been kindly donated by Mr. Andrews,) grey socks, colera bands and other supplies. Two sewing machines and a cutting out table were also given and will be placed in the Assembly Hall of the Library. A Committee of ladies of which Mrs. Alf. George is convenor, was appointed to cut out and arrange the work and they will meet in the room on Wednesday afternoon at 2 o'clock. All women of the town whether members or not of the 1. O. D. E. are earnestly invited to assist as the need is great and haste is necessary. As the room will be open every afternoon after Wednesday, anyone wishing for it can be provided with work to take home or sew in the Committee room.

The tollowing ladies were added to the executive-Mrs. Haultain, Mrs. Edgar, Mrs. Quinlan, Mrs. Pipher and Miss McLean.

TRAIN WAS LATE

But An Interested Crowd Waited

The military train with the 9th Field Battery of Toronto, did not pass through town until eleven o'clock Friday evening. It was expected about eight and a large crowd of Port Hopers were present to great the volunteers. Quite a number waited until the train arrived, but it hustled by and there was little chance for a reception.

NOT A MAN FALTERED

The 14th Field Battery completed enrollment on Tuesday when the men took the oath of allegiance. Major Ralston reports that the Battery is six men overstrength and others still applying. On Tuesday the men were lined up and addressed by the officer commanding who set plainly before them the task that they were undertaking and the perils and hardships they were to endure. He said:

'Now if there is a man who for any reason whatever, desires to withdraw; if for example any one feels that family ties call too loudly and that those at home need him, or who is afraid that the hardships will be too much for his physical strength or who feels his courage will fail him in the hour of danger, let him step out or come to me and state his case and he will be released."

Ten minutes later he gave the opportunity again. Not one man fell out. Every man took the oath and grimly set himself to prepare. There seems no doubt that these brave fellows will reach the front and receive a baptism of fire.

LEFT FOR VALCARTIER

The 14th Battery left Cobourg Friday afternoon by the C. N. R. for Valcartier. There were 150 men, including twenty-eight from Port Hope and five from the Township of Hope. A large crowd of Port Hopers were present when the train pulled out and gave Major Ralston and the local lads a royal send off. On behalf of the Daughters of the Empire Mrs. Mulholland and Miss presented each of the Port Hope boys with a box contain-

WASHED BANKNOTE

A London doctor has been advocating the use of a sterilizer at all banks to clean all dirty money. He complained of receiving from his bank £5 in silver in such a "disgust-inglyfilthy condition" that he had to boil it with soda before he could use it. "This," he said, "is not the first or the twenty-first time this has happened, and in one bank, patronized by Billingsgate firms, I have many times been unpleasantly concious of the source of much of the

He suggests that all the silver paid in over the counter should be passed through a sterilizer. The desirability of such precautions is emphasized by the knowledge that practically all infectious diseases are communicable by means of dirty coins - typhoid, scarlet fever, measles, dipththeria, and the rest. EDITOR CHISTISED

Col. Sam Sharpe Used Whip on Editor of Uxbridge Journal

On Tuesday morning while coming from the post office the editor of the Journal was suddenly attacked by Major Sam Sharpe, M. P. he received was some vulgar lanstout, true, honest hearts, of guage, then a slash, when the editor grabbed at him he was slashed over the face, knocking his glasses off. While the editor was blinded by HER salt sea spray, the salt of the slash in the face he grabbed him below the arms and tumbled him over the side of the crossing. Then in a cowardly manner, characteristic of the man, tried to hit him in the face. A number of his pals were there to back up Sharpe.

"It appears the gallant Major took exception to the reference in the journal to a number of officers hiding behind their wives skirts and felt that this had reference to him. If the cap fits he is quite welcome to wear it.

"It is a fine example of parliamentry law making to use the weapons used only by suffragettes and cowards. Had there been any altercation it would not have appeared so dastardly, but with premeditation and malice aforethought, armed himself to do bodily harm. This is probably the most dastardly act that any citizen, let alone a member of parliament, could be guilty of.

"As it appears that Sam Sharpe s going to make a bully of himself, t is time the riding of North Ontario found some member of higher calibre to represent them." - Uxbridge Journal.

Illegal Shooting Will Be Severely Dealt With

Once again a few poachers are spoiling the sport for Lindsay sportsmen. Again the ducks are being molested by those who will not wait till the season opens.

Within the last week a number of ducks have been shot in the neighborhood of McClaren's creek, and the Fish and Game Protective Association have taken steps to stop this outrage. Already four special inspectors have been placed on the river by the association to look after the rights of the true sportsmen of the town.

It is not that the association care about the few ducks taken in this way, but once shooting starts in a district the flocks of birds move off to some other feeding ground. The season opens on Sept. 1st, Tuesday next, and if this illegal shooting is not stopped at once those who go down the river on Tuesday will find

only a few scattered birds to fire at The association is determined to put a stop to this practice, and this should be a warning to the guilty parties, some of whom are known.

HOW THE ZEPPELINS DROP THEIR BOMBS

London, Aug. 27 .- The method used by Zeppelin airships in dropping bombs has been described as follows by an English refugee, who has just arrived here from Belgium:

The dirigible hovers over its objective at a sufficient altitude to keep out of range of the enemy's guns. At the same time it lowers a steel cage attached to a steel wire rope 2,000 or 3,000 feet long. This cage is divided into compartments, and it carries one man, whose duty it is to throw down the bombs. The cage is sufficiently strong to make rifle fire against it ineffective, and because of the fact that it is kept constantly in motion it is very cult for heavy guns to hit it.

MAKE IT GENERAL

If it is such a good idea for doctors to fix their fees in accordance with the paying abilities of their patients, why not extend the principle to other domains of human activity? Before delivering a letter to a gentleman, why not look him up in Bradstreet's and, if he is a millionaire, charge him a good round sum, which would then enable us to deliver letters to the poor without charge? Or, in our public schools, for the operation of nserting a given amount of know ledge into a child's cranium, we should not charge according to the amount or quality of the knowledge or the thickness of the child's cranm, but solely according to the a quisitory powers of the parent. Or at the greengrocer's, we should be able to hear the following dialogue occasionally:

Tea Embargo Removed Price Drops Five Cents

Reduction-Will Buy Tea Back From Grocers

The Salada Tea Company announced Tuesday that they have reduced the prices of their teas five cents a pound. They make the following announcement:

The embargo on tea has been de-

finitely removed in England, and however temporary this may be, we have taken advantage of it to immediately reduce our pieces five cents per pound. This is in spite of the fact that

war risk insurance and freights are still abnormally high, and that no shipments have yet been made from Ceylon or India.

All these conditions leave the tea situation, while relieved somewhat from last week, still in very difficult condition and it is impossible to see a week ahead.

We are undertaking to take back all the tea we shipped last week from the grocer, and pay him for it exactly what he paid us. The cost of this will be very large, but we know this is the only way in which the interests of both the consumer and the grocer can be safe-

The glamour of love was upon him; he could see no taults in artless little Florabel.

True, she knew little of learning or books. She was like an untamis beautiful- a child of nature not city belles and their caprices, declared to himself he liked Florabel all the better for being simple, sweet: and true. That rosebud mouth was meant for kisses, not grammer.

He was so handsome, so eager, so thoroughly the impassioned lover. His hands were clinging to her own -his pleading bonny blue eyes regarding her so intently.

He torgot the terrible stern anger of the stern father, who never torgot or forgave, which would be sure to follow. Handsome Max forgot everything save his love for the young girl standing beside him.

Florabel she was vo and impressible. It was sweet to be wooed in such a fashion-to have such promise of love and devotion made to her, and hear such a Joving voice pleading with her-and then it would be so nice to have a husband to care for and protect her.

With the girl's natural craving for love and protection, it could end but one way.

"Is it to be 'yes' or 'no' Florabel?" he asked, eagerly.

The peachy bloom on her tace deepened. "Yee," she murmured, shyly, and

in the prettiest girlish confusion. He caught her to his heart in a rapture of delight.

"We will be married at once," he declared: "delays are dangerous oftone in name as well as in heart ed me to marry well. By that I within the hour. Are you willing?" And again she answered "Yes."

The wind that stirred the lilybells and the roses near her seemed to die over the river in a long low wail, as though it knew and realized that a human soul was in danger -aye, in most piteous peril. The birds flew from their nests in the apple tree above their heads with startled cries, as though they were warning her to beware. But it Florabel heard, she did heed them.

She married handsome Max-and that was the beginning of one of the most pititful stories that ever was written. And yet young girls will sigh for love, even though they weep tears of pity over beautiful, hapless Florabel's sad fate.

A week passed away like a happy

Max was too much in love with pretty little Florabel to notice any imperfections in her. As yet, there was not the faintest cloud to mar their happiness.

A thousand times each day handsome Max thanked Heaven that he had wedded this fair young girlwife. It was so blissful to be loved for himself with such passionate devotion, and Florabel loved him so dearly.

Her education had been rather neglected, it was true; but what did he care for that? A few little eccentrics were less than nothing compared with her wonderful beauty. Besides, he could teach her.

"I suppose we may as well think about going home soon," he said one morning to Florabel.

That same morning Max telegraphed his father that he would be bringing home a bride.

But Maud Pemberton's letter had already been received, falling like a bombshell into the peace and quiet of the old merchant prince's house-

It must certainly have been a very malicious cruel letter, for Mrs Forrester went into hysterics long before she had read the half of it.

To think that MY son, of all the young men in the world, should contract a low marriage!" she groaned; "and I have always had such a bitter horror of anything of the kind;" and the proud old lady wrung her jeweled hands, crying out that the greatest sorrow of her life had fallen upon her, and she did not know how to meet it. If she had heard that her only son - her handsome, idolized Max-had committed a forgery or a murder, Mrs Forrester

could not have been more affected. "Did you read the last line of Miss Pemberton's letter?" she cried, turning to the old merchant prince, who still held the letter in his hand. "She says the girl is uneducated, a regular little barbarian, who has nothing to recommend her but a pretty, gypsyish face; and this is the girl my son is bringing home to us. Of course he has fallen desperately in love with her, after the fashion of young men nowadays; and, being in love, is blind to her faults," she added, with another groan. "1 was so sure he would take a fancy to Inez Clavering when he came to see her, and that it would end in a

marriage." One can never make much dependence upon the future of ones children," replied Mr Forrester, pacing up and down the luxurious room, white to the lips.

"The boy will soon tire of her pretty face, if she is all that this letter indicates; but the price of his folly must rest upon his own rash Many a young man has wrecked his life upon just such a rock, and lived to rue it while his life lasted. With such a marriage, regret and disappointment are sure to follow." 4

"If she has married Max for his money, money will release him. I would give her half my fortune to give him back his freedom," Mrs Forrester answered, bitterly.

Inez Clavering, their lovely guest, heard of Max Forrester's marriage with a stifled cry of dismay, and ried letter to her parents in Virginia, breaking at once into the subject uppermost in her mind.

"I might as well come home at once, mamma," she wrote. "My visit here is useless - worse than useless. Mrs Forrester has just received a telegram from her son that he is married, and is bringing home his bride. That means ruin for us; yet nobody shall know how we are trembling on the verge of banksuptcy, and had hoped that I might win handsome Max Forrester to retrieve our crumbling fortunes. Taking the money to come here, and the strain to keep up appearances, hawe cost us dear. I may as well stay here until the end of the season, though, despite the torture and bittermess I shall experience in being brought into daily contact with the girl who won the heir from me. I feel sure I could have won him if he had seen me first, for my beauty is fatal, you have always declared. "Yours in great haste,

Despite Mrs Forrester's repugnance to the bride Max was bringing home, it was decided that a reception must be given in their honor,

or society would gossip. It might as well be gotton over first as last. But, oh, how Mrs of introducing the uncultured creature, Maud Pemberton's letter had pictured as her son's wife, to her aristocratic guests. from the door. And Inez Clavering

Mrs Forrester was glad of her presence. She felt that some must bring home a wife. They will soon be near her in this dreadful ordeal. A closed carriage dashed quickly up the drive that led to the side porch. A white, frightened face peered out at the palatial home, all spend together, and how happy life ablaze with light from the lace-drap-

Max Forrester laughed lightly. "Don't be so much of a child, Plorabel," he retorted, more sharply than he really meant. "Not meet guests! Why, they are invited here for the sole purpose of welcoming feelings. us home. This is our wedding re-

ception." Max knew how she would cling to him like a frightened school-girl when they entered the spacious drawing-room. It would be a little embarrasing; and at that same moment he really wished that this sweet little bride had more dignity

and self-possession. A moment later Max raps on his

His mother raised her eyes, and framed in a mass of crinkled, tawny, curling hair; a pair of brown, startled, hazel eyes, and a red, quivering had disapproved—forgive me for say mouth. With a sudden impulse, Florabel stepped forward, shyly lifting her eyes to that cold, hard

face. "I hope you will love me," she murmured, softly; "it not for my own sake, for Max's. I have never known a mother's love since I was a very little child, and I have yearned for yours so much" And the next instant two soft white arms were around Mrs Forrester's neck and two sweet rosebud lips sought hers in a timid kiss.

The heart of the merchant prince went out to Florage on the spot, but his wife was prejudiced against her. She groaned out in spirit:

"A pretty face-that much I grant. But, oh! how unsuited to my Max! I shall not like her. Would to Heaven he had married Inez Clavering instead!"

Meanwhile Inez Clavering was being presented to Max and his bride.

Max Forrester bowed low before the queenly girl, and Florabel, looking into her face, read startled admiration there, and a fierce pang of ciplined little heart. Max was thinking as he gazed on the wondrous beauty of that fatally lovely face, that this was the most beautiful girl whom he had ever beheld.

She held out her white jeweled hand to Max with the charming smile peculiar to her, and kissed Florabel's red mouth sweetly. And Florabel, looking into that dark, sparkling, wondrous tace, wondered vaguely why Max had ever chosen her when he might have wedded this

peerless, dark-eyed beauty. How beautifully she was dressed, too! How was Florabel to know that the mad idea had taken possession of Inez to outshine the little bride's fair loveliness - to outrival her-that she might pale into insignificance when contrasted with her own dark, dazzling splendor. Then Max Forrester would see what he had lost, and regret, perhaps, that he had not chosen her.

When Florabel found herself alone in her room a few moments later, she could not repress the flood of tears that welled up to her eyes.

"I wish Max and I had never come here!" she sobbed. "We were so happy before! A horrible chill has come over me ever since I enter-

ed the house!" Poor child! How little she dreamed that it was the shadow of the pitiful doom that was to fall upon her all too soon! Ere the grand reception was over a thrilling event happened.

Florabel looked from one to the other with some trepidation. "I-I-hope I have not said anything wrong," she stammered, her

face blushing crimson. For the first time since his marriage a frown of annoyance marred the beauty of Max's face as he looked at his young wife and wondered whether the simple, natural manner that he had always thought so

"Do not call me Mrs Forrester!" she said; "my name is Florabel." "I must try to remember it," returned Inez.

The style of conversation annoyed Max, and he saw a nervous distressed expression on his wife's face. From the bottom of his heart he wished that there had been no wed-Oh, my darling, what could bring ding reception or that it was well over. Beautiful little Florabel was not

acccustomed to society, and, to use: her own words, she knew nothing of you I have no cause in the world to the ways of fine ladies. Poor child! She was utterly ignorant of the manners and habits and customs of the class with whom, for the future, she had to live.

These deficiencies had not been noticed during those few brief weeks of wooing. The time was coming when they could no longer be-hidden.

For years afterwards, Florabel had but a confused idea of how that reception progressed. She did not hear the murmur of admiration that ish form, draped in white silk and greeted her. She stood in the midst of the elegant assemblage confused and embarrassed. Her sweet face flushed and paled; the hand that the fairest picture of youth and held the white rosebuds trembled.

Inez Clavering sneered, and one or two were malicious enough to whisper witticisms about "country

As the evening wore on Florabeli became physically fatigued and exhausted; it over-taxed her strength. The chances are that she would havegone through the evening successfully had it not been for a pitiful incident that occurred.

The reception had ended in a grand ball, and during the progress of one of the quadrilles, Max had sought her, saying, hurriedly:

"Come into the conservatory a moment, darling; I have something to say to you."

I am right glad she was disappointed in getting him, and it serves her right, too, laying herself out to win him by coming here on a visit to his mother.'

When Max entered Florabel's apartment to accompany her to the drawing-room, where the impatient guests were awaiting her, he found her sitting alone by the window, her curly, golden head buried in her two little white hands. With some light, gay word, he

foremost surgeons passed away at 8.30 on Saturday night in the person of Dr Bruce Livingston Rior-dan, M.D. (Tor.), C.M. (McGill). Born at Port Hope on March 17, 1859, he was the grandson of an lrish settler, who located in Ontario when its population could easily be numbered by thousands. After securing his primary education at Port Hope Grammar School he studied medicine at McGill University, where he graduated before reaching the age of 21. Later he took the necessary qualifying degrees at Toronto University. Entering upon the profession at this early age he rose rapidly to the top of the ladder and has been for many years respected as one of Canada's greatest sur-geons. Dr Riordan was a specialist in traumatic surgery, and had great experience with accident work HOW CONDUCTORS by his connection as a railway surgeon, and by being in charge of the old Emergency Hospital,

For one and a half years after his graduation, Dr Riordan was ship surgeon on the Allan Line. Coming to Toronto in 1881 he commenced connected with the work of his profession in this city until shortly before the time of his death. His off. ce was located in turn on Peter, ohn and Simcoe streets, and latterly at 1 Roxborough street, east, with headquarters downtown at 101 Bay street, where he was associated with Dr Gordon Rice.

HAD DISTINGUISHED CAREER.

In 1881, as soon as he had located in Toronto, Dr Riordan was made one of twelve Grand Trunk surgeons, and for the past fifteen years was divisional surgeon for the Ontario lines of the Grand Trunk Railway System. Besides holding this appointment, he was chief surgeon for the York Radial Railway, and dean of the staff at Grace Hospital. The late Dr Riordan was formerly a member of the Board of the Toronto General Hospital, and was, until his death, a consulting surgeon on the staff of that institution. The Association of Railway Surgeons of the United States and Canada, claimed Dr Riordan as their president. Several years ago he was also vice-president of the Ontario Medical Association, president of the section of surgery of the Academy of Medicine, and was, at his death, the President of the Aesculapian Club. He was also licensed to practise his profession in New York

All Charged With Conspiracy

According to the C.P.R. railway to practice and has been actively people the way the scheme was worked by the six C.P.R. conductors now under arrest in Toronto, was for a ticket to be sold a man which wasn't stamped or dated. The conductor taking it up would hand it back to the agent, and the two would split the money. An other way was for a man to be introduced to the conductor as being all right, and he would only charge the man part of the fare on the train

and pocket the rest. Against some of the men there are more than one or two charges. The prosecution claims that fifteen charges could be laid against some of them. They are all charged with conspiracy, and the other charges are under the Secret Commission Act. All the men got bail of \$2,000 except Lee and McCarl. Their cases were left over for the crown attorney to consider. He is asking \$2.000 substantial security for them.

It is intimated that before the job is completed those arrested will include train conductors, sleeping car conductors, porters, brakemen and office clerks.

LOOK AFTER HOME

ents of Men Going to War Suffer

Saturday Night.

The real duty of Toronto and other towns and cities lies in the direction of seeing to it that none of the dependents of the men going to the front from Canada suffers unduly because of their absence. And it is a duty which is also incumbent Mr. and Mrs. E. Boyle. on the whole community. There will undoubtedly be a vast number just begun, and be it long or short, never greater needs of unity and foresight in the matter of expenditures than at the present time. The morning after England declared war, everybody was on the street with a scheme to raise a fund of some kind or another. Patriotic funds are all right in sentiment, but our private and public expenditures should be made with consideration for luture contingencies-for the fact that it is going to be a hard winter for many beside those who are going to the scene of war. There should be no niggardliness zeal. There are many ways by which Canadians may contribute to the cost of war, less ostentations than some of those adopted. The man who keeps his business going with as large a number of employees as he can retain and avoid bankruptcy is making a very real contribution to the welfare of the Em pire at the present crisis. This is not a time when Governments, municipalities or individuals should spend money like drunken sailors; they should see to it that every dol-

MONEY FOR THE HOSPITAL SHIP MAY BE DIVERTED

At a meeting of the Heather Chapter of the I.O.D.E., held Tuesday night in the nurses' residence of the Sick Children's Hospital, Toronto, Mrs George made an important announcement regarding the Women's Hospital Ship Fund.

It was now almost certain, she said, that the fund, which now totals \$122,000, would reach the handsome sum of \$150,000. She also stated that a telegram had been received by Mrs Gooderham, from Ottawa, asking if the money might be applied to an emergency hospital in connection with Haslar Hospital at Portsmouth, rather than to the ship, as had been at first suggested. To this Mrs Gooderham had replied that the women of Canada would be delighted to comply with the wish of the Admiralty in the matter. The entire fund will be handed over on Sept. 2.

It is probable that the hospital will become a memorial to the women of Canada. It is to be known

as the Canadian Women's Hospital. Arrangements were continued of which were urged to work harder than ever for this year's event. One of the booths will be called the Florence Nightingale booth, and will have full supplies of things of service to the boys at the front.

TEARS DOWN GERMAN FLAG; SENT TO JAIL

Dr. J. J. Jones, dentist, of Orange street, Newark, was sent to jail for twenty days yesterday by Recorder McGoern, in Hoboken, because he fore down a German flag. Dr. Jones was passing the newstand kept by Willian H. Schroeder, a newsdealer, at Second and Rier streets Hoboken, when he noticed a German flag flying. He immediately went over to the stand and tore it down, not noting that there was an American flag on the reverse side. Schroeder called a policeman and had Dr. Jones arrested.

He was taken to the police station and later arranged before the Recorder. Dr. Jones said he was glad said he would do it again. He said Germany army for thirty-five years, and at one time he served in the German army. The Recorder said he had violated the law in disturbing both flags and fined him \$10 the storm period, 9th to 14th. After with the alternative of twenty days in jail. Dr. Jones said he would thunder, on and touching the 11th not pay good American money for such a purpose and declared he would rather go to jail .- N. Y. Herald.

IF THE KAISER WINS.

If Germany wins, there will be no place in the world for the little nations. The brutal treatment already meted out by the kaiser's legions to the gallant Belgians furnishes a clue to what will happen in the case of an overwhelming Teu-tonic triumph. Belgium, Holland and Denmark would disappear from the world, and millions of French will be brought under the tyranny long endured by the people of Alsace and Lorraine.

Austrians Drill At Oshawa

Oshawa, Aug 30.—Eight Austrians, who had been drilling on the base line between Oshawa and East Whitby, early every morning, as if for war, and were suspected of tearing down flags from people's houses in the south part of the town were arrested here last night by Chief of Police Hinds of Oshawa as prisoners of war.

Hearing of their actions, he wired the Police Commissioner of Canada, at Ottawa, and received a reply appointing him patrol officer here, instructing him to arrest the men, and enclosing the proclamation regarding Austrians and Germans with forms to be signed by those of these nationalities by which they

could be paroled. The interpreter communicated the edict of the Government to the prisoners, explaining that they must abstain from all conduct that might be deemed of a hostile nature, as set forth in the proclamation, if they wished to retain their liberty. Each subscribed his name to the docudence among them.

FORECASTS FOR

Bowmanville, Aug. 30.—A guard through town on Modday by the A regular storm period beginning on the C.N.R. bridge near Steven's Canadian Northern. The train in August, will reach its culminating mill, four miles from this town, consisted of six cars of horses, five crisis, in central to eastern states on September the 1st, 2nd and 3rd, followed closely to the Atlantic Ocean by rising barometer and change to coider weather.

A reactionary storm period has

its central days on the 4th, 5th and 6th. This period finds the full moon on both the ecliptic and the equator, hence there is an eclipse of the moon on the 4th. This is another period in which general convulsions of earth, sea and air will be most natural. If the barometer falls far below normal-results reasonably to be expected-there will be danger of violent, equatorial storms, reaching inland from the Gulf and south coasts, on and touching the 4th, 5th and 6th. Great electrical storms, and much kindred phenomena, will center on and about the 5th. For many hours, if not days, the true and trusty barometer will give warning from the southern gulf and sea, of West India disturbances heading northward toward our southern coast regions. We do not claim that this forecast must inevitably come true, but we do insist that the astronomic condition at and about this time is such as to warrant this warning to those most concerned. If danger is brewing along our south coasts, or far inland, unmistakable indications will appear, to all who will see them, in ample time to escape danger. Should no danger develop, surely no harm can result from that calm and commonsense watchfulness, which would prove the price of property and life, if the worst should come, This is no sensational alarm, but a calm torelook into the possible and probable face of conditions which would certainly bring alarm and consternation at an hour too late to think or plan or act. If very low barometer and great storms cover the south of this, and other September periods, gales and high winds will blow from northerly regions, followed over much of the country by unseasonable cold and frost.

the 12th. It must also be remembered that the annual, autumnal crisis of magnetic and electrical unrest falls from about the 8th to the 15th of September. This storm period is therefore coincident with period, and nearing the center of about Thursday the 10th to Monday cal and magnetic forces, on all instruments and appliances which are ter. subject to such influence. Autumnal weather will most probably follow low barometer, rain, high winds and to 14th, look for a general change to cooler weather, followed by probable frosts over many sections northward, say from about the 13th

This period, also, has a critical outlook, in the fact that new moon on the 19th is within a day or two of the center of the autumnal equinox, with the moon on the celestial equator. The chances are that a series of storms and other disturbances will set in at this time which will continue forward into the next storm period. The Mercury and the Venus periods both reach into this period, adding greatly to the probabilities of severe and prolonged disturbances centering on and

about the 19th. A regular storm period falls at the crisis of Earth's September equinox, being central on the 22nd, and extending from the 20th to the 25th. The moon is in perigee on the 21st, only one day after new moon on the equator on the 19th. As stated above, the probability is that storms, with threatening weather generally, will continue from the 19th into the regular storm period. If the barometer does not rise very decidedly about the 20th, with sharp change to cooler, and stiff westerly winds, expect many active storms during the 21st, 22nd, 23rd and 24th. This is a period when dangerous equinoctial disturbances are liable to visit many parts of the globe-land and seaespecially both the Atlantic and Pacific coasts regions to the southward. As a sequel to these storms, look for an early dash of very cool weather to spread from the northwest, southeasterly over almost the entire country. We figure that premature and heavy frosts will reach far into the central, if not into southern regions, after these storms have spent their force and as the

-let us see.

On and about mese dates, threatening conditions will return-baro-meter will fall, temperature rise, cloudiness ensue, with more or less storms and storminess moving from west to east across the country. September will go out with clearing and much cooler weather moving eastward from the northwest.

AEROPLANE FLIGHTS

Albany, N. Y., Aug. 30-Aeroplane flights made by American aviators over the St. Lawrence River and Lake Ontario into Canada has prompted the Canadian military authorities to ask Governor Glynn to order aviators from this state not to fly into the Dominion. The fears of the Canadian authorities of spy operations were intensified by the fights. In view of the European war and the possibility of a nation hostile to Great Britain taking advantage of the United States neutrality, the Canadian officials expressed the belief to Governor Glynn A regular storm period is central that the fights should be stopped. on the 11th, only one day from the Governor Glynn turned the matter center of a mercury period center on over to the State Department at Washington, realizing that the case was one of international import and a problem for the Federal authoriies to handle.

Despatches From Roumania Declare That Defeat of Francis Joseph's Army Has Been Colossal and Numerous Regiments Are Destroyed-All Forces Call-

ed to Scene of Battle.

LONDON, Sept. 2. - The Central News has a despatch from Rome saying telegrams received there from Bucharest, Roumania, declare that the Austrian defeat in Galicia was co-

lossal. They inflicted a loss of 20,000 on the Austrians, who sought to cross

the Vistula.

Trains are transporting tens of thousands of wounded.

Numerous Austrian regiments have

been destroyed. \(\) A despatch from Bucharest, which reached the Central News at London by way of Rome, says the Rouman-ian General Staff considers that the battle on the Austro-Russian frontier will be decisive. They believe that the defeat of the Abstrians would be followed by a general insurrection, and that, therefore, whatever may be the sacrifice, the Austrians will not fall back. They are now making a strong effort, and are recalling even the troops engaged against France

and Servia. Closing In on Lemberg. ST. PETERSBURG, Sept. 2. - The official account of the situation at the front, as made public by the War Of-

fice, says:—
"The German defence has stiffened, and we are sustaining severe losses, but the Germans are losing far more than are we, and, despite the arrival of fresh troops, who have strengthened the German lines, the enemy will be unable to withstand

our assault.
"In Galicia our army continues victorious, and the Austrians who managed to invade Russian Poland in an attempted flanking operation have been repulsed, with enormous losses, and have fallen back. The Russian cavalry is covering itself with glory. In the Austrian retreat it surrounded an entire Austrian

regiment and forced !ts surrender.
"As a result of the general engagements which lasted from Aug. 26 to Aug. 30 we took 17,000 prisoners and captured 120 Austrian and German guns."

Greatest Battle In History.

VIENNA, Sept. 2 .- (Via Rome.) —In an official statement issued by the Austrian War Office yesterday the battle now in progress along the Austrian-Prussian-Russian frontier is referred to as the "greatest in the history of the world. It is stated that already there are three million men engaged in the active fighting. Every branch of the service is represented, and the fighting tide ebbs and flows like that of the seas.

In another instance, the correspon-dent says, it is related that a shell fell on a British ship and as there was no immediate explosion, the sailors rushed at it and pushed it into the sea with their naked hands.

PLAN NOW APPARENT.

Kaiser's Strategy Involves Advances on Paris.

LONDON, Sept. 2. - The Daily Telegraph in a despatch from Ash-mead Bartlett, its correspondent,

"It is evident that the Germans have been obliged to abandon their attempt to outflank the left wing of the allies owing to large reinforcements of French troops. The Gere mans are making a desperate effort to beat through the centre of the allied line and occupy Noyon, La Fere and Laon, thus gaining the shortest road to Paris. The reason for this manoeutre is because at La Fere they strike the main line by Noyon, Compeigne and Senlis, and the other by Laon and Soissons. It seems that they are in fact endeavoring to drive a wedge of troops into a rough circle formed by Noyon, Compeigne, Soissons and Laon.

The grand scheme of German strategy, therefore, becomes apparent. There are apparently three armies all marching on Paris. The mos westerly is that which is operating in the region of La Fere and endeavoring to enter the rough circle formed by Noyon, Compiegne, Sois-sons and Laon; the centre is that which has been in action at Launey and Signy L'Abbaye, and which is endeavoring to seize the main road via Rethel and march on Reims; and the third is the Crown Prince's army, which is also endeavoring to con

verge on Relms via Montmedy, Ste-nay and Vouziers.

Of the disposition of the allies to resist these three attacks we know but little, but with the immense forces which should be at Gen. Joffre's disposal there should be no diffi-culty in holding them all.

The operations of the German aeroplane over Paris have been watched with equanimity by the peo-ple. The first day the operations caused some nervousness among the women; the second day it was already an old story, and the third day they provoked for the most part sarcastic remarks for the inefficiency of the German marksmanship.

Governor of German Colony Surrenders Unconditionally.

FIRST ASKED FOR TERMS

Reply of Commander of Forces In British West Africa Was to the Effect That the Germans Were In No Position to Demand Anything - Troops Enter

To-day to Take Control. LONDON, Aug. 27. - It was anhounced last evening that German Togoland had surrendered unconditionally. The allies will enter Ka-

mina to-day. Premier Asquith, in the House of Commons yesterday afternoon, read a communication from the Commander-in-Chief of the forces in British West Africa, saying that the authorities of Togoland, the German colonial possession on the west coast of Africa, had offered to capitulate on terms. In reply the British officer said that the capitulation must be unconditional.

The report from British West Africa read by the Premier is as follows:

"The German telegraph installation at Carrima has been destroyed by the enemy, and they sent Tuesday afternoon a flag of truce offering, if given all the honors of war, to capitulate, and stipulating specific terms. I replied that they were not in a position to ask terms; that they must surrender unconditionally. I told them that we would always respect private property, and that there would be as little interference as possible with the trade of the country and private interests and firms. I advanced and occupied the crossing of the Riven Amu. The German answer is expected to-night."

Togoland lies between the Gold Coast Colony (British) and Dahomey (French). It is the smallest of the German colonies, with a coast line of 32 miles, area 32,680 square miles, and population of 1,500,000, of whom about 500 are Europeans.

The colony was proclaimed a Protectorate in 1884. It is the smallest of the German colonies, yet the only one existing without state aid. It includes Little Popo and Porto Seguro, and is administered by an Imperial Governor, assisted by a Government Council.

LIKE HAMMER AND ANVIL.

Germany Caught Between Muscovite \$700,000. and Allies Says Writer.

LONDON, Aug. 27 .- "The allies in their present entrenched positions are as the anvil to the Muscovite hammer," declares The Daily Graphic's military correspondent.

"It is good news," he continues, 'that the concentration of the allies on entrenched lines within the French frontier is complete, and the positions thus held are little less than impregnable. The Germans will find that their next move will be much more difficult than that which confronted them a week ago.

'Gen. Joffre's troops will now be devoting all their energy to a stubborn defensive. They are the anvil. The Muscovite hammer is gathering all its immense force for a crushing blow in Posnia. Hence it is most im portant that the allies' forces should

"The hammer is doing excellently. although the preliminary work is necessarily slow on account of the Russians' lack of facilities for mobilization. Nevertheless, the progress thus far made by Russia has exceeded the most optimistic expectations, and the Germans are likely to pay dearly for their undervaluation of the Russian efforts."

Six Furious Attacks Repulsed.

LONDON, Aug. 27 .- The Paris correspondent of Reuter's Telegram Co. says that a raid by a German cavalry division in French territory is re ported by The Petit Parisien, which states that: when the Germans arrived at four o'clock Tuesday morning they encountered a regiment of French artillery which practically annihilated

GIFT DECIDED ON.

Ontario Will Give Flour to Value of \$700,000 to Britain.

TORONTO, Aug. 27. — Sir James Whitney conveyed to the Prime Minister of Canada yesterday Ontario's proposals for aid to the Imperial Government during the present war crisis. A quarter of a million bags of flour means an expenditure of

The announcement was made yesterday afternoon following a protracted Cabinet meeting, at which the Toronto representatives in the Legislature were present.

For some days the Provincial Government has been in communication with the Dominion and Imperial authorities as to the best way in which aid could be given by Ontario, and as a result of these deliberations it has been decided that the best aid would be a contribution of flour, and in pursuance of this decision Sir James Whitney has so advised Sir Robert

Notwithstanding the advance in the price of wheat Ontario is fortunate in being able to secure the flour at the same price as that paid by the Dominion Government recently, which is a striking evidence of the fairness and loyalty of the Canadian millers.

Apart from this feature the conference with the Toronto members was along the same lines as that of two days ago, and further discussion factories and industries in the province maintain operations to keep as many men employed as possible and minimize the hardship among the working classes caused by the war. On this point no definite announcement was made, but it is understood substantial progress was made.

AUSTRIANS REFUSE TO FIGHT.

Fully Forty Per Cent. Have Failed to Mobilize.

ROME, Aug. 27.—The Messaggero has received a despatch from its correspondent at Nish, Servia, saying that the total Austrian prisoners in Servia number 10,000. The Austrian casualties since the commencement of the war have been in the third southern army.

Some of the prisoners which the Servians have taken declare that the Austrian mobilization bore great resemblance to a farce. The desertions were countless in number, and it is estimated that fully 40 per cent. of the men called upon to serve failed to answer.

Despite this and Austrian defeats at the hands of the Servians and Russians, the aged Emperor Francis Joseph is being supplied constantly with fallacious triumphant bulletins. The reason for this is the critical state of the health of the monarch. Officials would entertain the gravest fears for him should he be apprised of the true situation.

ROYAL FAMILY MOVES.

Belgian Monarch's Relatives Take

Secret House In Antwerp. LONDON, Aug. 27.—The Belgian royal family will abandon the temjouary - palace, establishing themselves in a secret place in the city as a result of the attack by a Zeppelin airship, according to The Morning Post correspondent at Antwerp. "The attack," he adds, "was evidently designed against the royal family. The warrior of the air stole silently over the forts outside the city against which no assault was made and steered toward the palace,

where it dropped six explosive bombs. None found the mark exactly, though all landed within the palace grounds. One narrowly escaped wrecking the Antwerp cathedral and three found human victims."

French War Office Announces That German Right Wing Has Forced Back French Left But Republic's Troops Haye Made Advance In Lorraine - No News Is

Received From Meuse. LONDON, Aug. 31. - The London Daily Mail, in a despatch from Dieppe, dated Sunday, says: It is announced officially at the Sous Prefecture at Dieppe that a German army corps has been "wiped out" by Gen. Pau's troops.

Yielded on Left. PARIS, Aug. 31.—"The progress of the German right wing has obliged us to yield ground on our left," says an official statement issued here last night.

A previous statement was as follows:

"In Lorraine our forces have advanced. We occupy a line along Mortagne, and our right wing is pushing forward. There is no news from the

"A violent battle occurred yesterday in the region of Lannoy, near Lille, Signy l'Abbaye and Chateau Poicien, but the result has not been decisive, and the attack will be resumed to-morrow.

"Four French army corps engaged in a violent battle on the left wing. The right wing of these four corps. taking the offensive, duove back on Guise the 10th German Corps and the guard, both suffering consider-

able losses. "Our left was less fortunate. The German forces are advancing in the direction of La Fere."

La Fere is a town in Aaisne, fourteen miles northwest of Laon, and 75 miles from Paris. It is a fortress of the second class.

It is officially announced that the military government has ordered all residents of the zone within action of the defending forts of Paris to evacuate and destroy their houses within four days from to-day, Aug. 30. This is a precautionary measure in case Paris has to stand a siege.

According to Liberte, the Germans have penetrated a short distance farther on the River Somme. The British, in conjunction with the French left, have resumed a vigorous offengive. Farther west the French troops have checked the enemy's advance guard. At the other extremity of the line on the Meuse the French are offering a strenuous and successful resistance, which extends along nearly the whole front.

"Our offensive succeeded on our right, but was checked on our left," The Liberte says. The Germans gained ground, as announced, toward La Fere. At any rate, we hold firm, even under attack-a sure sign of the confidence of our army."

BRITONS PROVED BARRIER.

Germans Did Not Expect Resistance After Occupying Belgium.

LONDON, Aug. 31. - A despatch from Boulogne says the wounded Germans are being given the same attention as the French and British. "They declare," says the despatch, "that the extraordinary resistance offered by the allied armies was a great surprise to the invaders. After the occupation of Brussels they expected to march to Paris with comparative ease. Their information was that the took place with a view to having all | main French army was distributed along the frontiers of Alsace and Lorraine, so an easy victory for the enormous German forces in Belgium was anticipated.

The wounded German officers admit that the British have taken the principal part in holding up the German advance. The resistance made by the British to the superior German force enabled the French to convey by railway large reinforcements from the eastern to the northern frontier and to interpose new obstacles between the invaders and Paris.

"The wounded Germans say their losses surpass anything ever experienced in warfare, that the dead number thousands, but they claim that the spirit of the German army is still unbroken and that no sacrifices will deter them from backing their way to Paris."

AVIATOR OVER PARIS. German Airman Drops Bomb Into

French Capital.

PARIS, Aug. 31 .- A German aeroplane, flying at a height of 6,000 feet over Paris, dropped a bomb into the city at 1.30 o'clock yeslerday afternoon. The bomb struck near l'Est railway station, not far from the military hospital, but did no damage.

Zeppelin Is "Winged." C. P. R. Steamer Runs Down Alaska Liner Near Seattle.

VANCOUVER, B.C., Aug. 27 .--The C. P. R. steamer Princess Victoria, which left Vancouver at 11 o'clock Tuesday night, was in collision in a fog early yesterday morning ten miles from Seattle, where she was due at seven o'clock. She struck and sunk the steamer Admiral Sampson, which was bound out from Seattle for Alaska. The Sampson had 56 passengers, besides a crew. Three passengers and eight mem-

bers of the crew were drowned. The passengers lost are: Ezra Byrne, fatally burned by explosion of oil tanks, died just after reaching Seattle hospital; C. W. Bryant, painter, bound for Seward, Alaska: Mrs. Ruby Banbury, wife of George Banbury, clerk for Grand Trunk Pacific Steamship Co., Seattle. The dead among the crew are:

E. S. Moore, captain: D. Cabanas, third cook; W. E. Ricker, first wireless operator; Miss M. Campbell, stewardess; C. Marquette, seaman; A. Sater, watchman; Allen J. Noon, chief engineer; J. B. Williams, mess boy.

Captain Moore could have saved himself, but he declared he would go down with the ship, and he did so.

The Princess Victoria took most of the persons from the Sampson while the boats were still locked. The Princess Victoria did not pull loose until the Sampson was about to go down.

The Victoria, going 18 knots an hour, hit the Sampson abaft of the beam at about a quarter angle. On arrival here she showed a large hole in her bow, it being split back about 20 feet and choked with wreckage from the Sampson. Captain Moore of the Sampson han-

dled his crew admirably, directing the rescue of the passengers. The Sampson dived to the bottom bow foremost. Captain Moore ran to the stern and waved his hand as he was carried down with the ship. Many of the passengers of the

Sampson were asleep at the time of the accident and were rescued only partly clad.

CAMP IS ENLARGED.

Government Buys 4,000 Acres Across River From Valcartier.

VALCARTIER CAMP, Que., Aug. 27 .- Reports to the effect that the first contingent of Canada's overseas expeditionary force will leave Quebec firmed here. No definite information can be obtained from official sources.

Announcement was made by headquarters last night that negotiations for the purchase of 4.000 acres of land situated across the river from the camp site had been successful. The property is known as Pinkney's Mountain and will be used primarily for artillery practice. Most of the artillery will arrive early next week and will be about the last section of the militia to reach the camp. The field hospital has been moved out of its present quarters to accommodate the artillery and the infantry lines have also been extended to make room for incoming troops.

About 3,400 military men arrived in camp during the day, making the total strength in the neighborhood of 20,000. They came principally from the prairie provinces. It is impossible to secure exact figures owing to the great press of work on the transport officers.

Panic Caused In Berlin. LONDON, Aug. 27 .- "Despite the

German efforts to minimize the extent and importance of the Russian victories," says The Standard's Copenhagen correspondent, "the German public apparently is by no means satisfied of their security. A panic seems imminent in Berlin. Wealthy Germans already are leaving the city and hastening toward Scandinavia by way of Copenhagen. A number of these already have passed through this city."

AEROPLANE GAVE WARNING

German Aviator Saw Destroyers Creeping In on Kaiser's Fleet and Gave the Alarm When Cruisers Came Out Only to Be Destroyed - Unconfirmed Rumor Says Six Others Disabled.

LONDON, Aug. 31. - An official statement issued last night says that of 1,200 men composing the crews of the five German warships sunk off Heligoland only 330 were saved. Twenty-nine killed and thirtyeight wounded was the price in men

paid by the British for the success. The Admiralty yesterday announced the casualties as follows: "The light cruiser Arethusa lost Lieut. Eric Westmacott and nine men killed, four men seriously

wounded, and Lieut. Robinson and

eleven men wounded, but not seriously. "The torpedo boat destroyer Liberty lost Lieut.-Commander Barttelot and six men killed; one man who has died from wounds, one dangerously wounded, five seriously wounded and

five slightly wounded. "The destroyer Laurel suffered ten men killed; one has since died of his wounds, and two men dangerously wounded: seven seriously wounded and two slightly wounded."

Accounts of the battle say it was perfect in execution as well as in plan. Led by a fearless small detachment, the destroyers crept within the German lines between Heligoland and the German coast.

An aeroplane sighted them and gave the news to the Germans, whose destrovers then came out. The British destroyers lured the Germans to the open sea, where other destroyers were waiting, spread out in fan shape.

A small engagement followed, and then the German cruisers came out In the ensuing battle the Arethusa hit a German cruiser and the latter burst into flame. It was hot work, but presently the

British light cruisers and battle cruisers appeared. It was the moment for which they had been waiting, and their execution was deadly. The first shot from one of the British battle cruisers sank a German cruiser which had been battering a destroyer.

An unconfirmed report says six more German destroyers were permanently disabled.

CRUISER LEIPZIG CAUGHT? Report Says Rainbow and French

Warship Took German Craft. VANCOUVER, B.C., Aug. 31 .- The Vancouver World publishes the following despatch under Victoria date: 'The chase for the German cruiser Leipzig, which has been playing hideand-seek with the cruisers protecting British trade in Northern Pacific waters, is over. The German warship is on her way to Esquimalt. She will be in that port to-night, according to

most reliable advices obtainable. "To the French cruiser Montcalm and the Canadian cruiser Rainbow, according to the information so far received, the credit of the capture is assigned. The casualties aboard the Leipzig are said to have reached 120 killed and wounded. The full details both of the fight, the capture, the casualties and the bringing in of the only German war vessel in British Pacific waters are being withheld owing to the close censorship and to the implicit instructions to the naval authorities here to report direct to the British Admiralty."

No confirmation of this despatch is to be had, the naval authorities at Esquimalt denying all knowledge.

Kiaochau May Last Three Months. TOKIO, Aug. 31 .- Military experts

here are said not to expect the fall of Kiaochau before the end of November, except by the voluntary capitulation of the Germans. The defences are reported to be most formidable and virtually impregnable from the sea. The land fortifications do not follow the usual German methods, but resemble those at Port Arthur. There are three lines of the defences.

The food supply in Kiaochau is said to be ample for three months.

VALCARTIER, Aug. 31. - Col. Sam Hughes stated last night that the Princess Patricla Light Infantry, w ich was ordered to disembark at Quebec, had been stopped in its journey because the British Admiralty was not ready to have the steamer Megantic convoyed across the Atlantic. Some time ago the Dominion Government had been notified that it would be unwise to attempt to send forward any troops unless under escort of British warships, as purely a precautionary measure. The troops were placed on the Megantic at Montreal, as the authorities expected that a cable would be received by the time the steamer reached Quebec that a

CORRESPONDENTS IN DARK.

Kitchener's Message Gives Everything Up-to-Date Says Bureau.

LONDON, Aug. 31. - The official bureau correspondence accompanying the publication of Lord Kitchener's statement concerning the British army at the front took a rap at the correspondents whose storle purport to be made up of personal experiences on the battle line. The bureau says:

"The bureau has issued an official statement describing the fortunes of the expeditionary force during the past few days. This statement, the terms of which have been carefully considered, accurately and fully describes the present position. The bureau has not found it necessary to forbid the publication of messages dealing with recent operations, provided such messages neither gave away military information nor disclosed the organization or position of the troops.

"These messages, however, should be received with extreme caution. No correspondents are at the front, and the information, however honestly sent, is, therefore, derived at second or third hand, from persons who are in no condition to tell coherent stories, and who are certain to be without the perspective which is necessary to construct or understand the

general situation.
"It is hoped that the statement issued to-night will dissipate any apprehension caused by such reports, and restore the necessary perspective to the recent operations.'

TURKEY NEXT?

Declaration of War Against Greece

Expected Any Day. LONDON, Aug. 31. - The Daily Telegraph's diplomatic correspondent, in an article printed to-day,

"Turkey may declare war at any

moment. It is now only a matter of a few days-possibly a few hours. 'All efforts of the powers of the Triple Entente have failed, and the London Embassy admits the situation very grave. The military party, now dominant in Constantinople, has reached the conclusion that the present is the best time to secure the restoration of Macedonia and the

Aegean Islands. 'German officers and men are being poured into Constantinople to help the Turkish army and navy. Turkey apparently counts on the Balkan states quarreling among themselves while Turkey fights Greece, but it seems likely that Turkey's declaration of war against Greece will be regarded as a hostile act by the Triple Entente, which will send a fleet to dispose of all the Turkish and German ships.

Austrian Troops Transferred.

AMSTERDAM, Aug. 31 .- Information has been received here that the Austrian troops are being transferred from Alsace to the Italian frontier. This movement is in line with despatches from Geneva, Switzerland, which state that some 800,000 Italian troops are massed near the Austrian front, and that the Government could not restrain the public if once the war spirit gets full control of the people.

Tsingtau Will Call For Best Efforts of Attacking Force.

KIAOCHAU, China, Aug. 29 .-German reservists from distant parts of China are : till entering Tsingtau. Many of them, khaki-clad, are along the railway in Wei-hsien, Province of Shantung, and Tsingtau. The first German outposts are at a village 12 miles from Tsingtau. It is there that the bridge has been broken.

The outer line of defence runs from Ts.ugtau. This line is not strongly fortified, and the real defence probably will be made across a narrow neck of land only three-quarters of a

The mountains within this line are named Moltkeberg, Bismarckberg and Iltisburg. Powerful guns are in position on the slopes leading to these mountains. The defences are strengthened by barbed wire entanglements and mines on the plain between the two ranges of mountains, while trees have been felled and villages burned.

BERLIN IN A PANIC TROUPS ARE RESTED HINDUS ARE COMING TO INCREASE CORPS

Advance of Russians Is Proceed-Ing Without Check.

WILL ISOLATE FORTRESSES

Policy of Russian War Office Will Not Involve Attacks on German Strongholds-Commissariat Is In Excellent Condition-Eight Million Men Are Now In Arms -Germans In Flight,

LONDON, Aug. 28. - The Rome Tribuna's correspondent at St. Petersburg says that the Russians are now operating in western Prussia and are marching on Danzig in immense numbers. The population is in flight. It is stated that there is a panic in Berlin.

The possibility of an attack on Berlin by the Russian army was officially admitted in St. Petersburg. Within three weeks was given as the probable time, and it was declared that Russia now has more than 8,000,000 men under arms, divided into armies of about 2,000,000 each.

The arrangement for feeding this huge body of men, the Russian commissariat asserts, have been completed, and there will be no chance of hardship from the lack of food or supplies. The armies are being sent into the field from the inland mobilization centres to operate one behind the other, the armies in the rear filling up the gaps of those in the front after each battle.

It is declared here that with this huge force it will not be necessary to take German forts by storm. Inthe small river Litsum through the stead the Russians will probably atmountains, about eight miles from tempt to isolate each of them and then keep them bottled up to prevent any flank movement. The main Russian advance, it is expected, will ap-proach Posen from the south, crossmile long, three miles from Tsing- ing the south bend of the Warta river some miles from the Russian frontier.

Following the victory of the Russians the German troops in eastern Prussia evacuated the region of Mazuron. The Russian advance has not suffered any reverse in that section. Difficulties are presented thereabout by the River Terrein, the western outlets of which the Czar's troops occupied yesterday. The report that the Russians had captured 100 cannon from the enemy has been confirmed.

The Russian offensive movement in

Galicia is now following its normal course until checked, in the region south and southwest of Tarnapol. The southern army or left wing of the invading Russian army is now forcing its way through the Austrian

Province of Galicia and has already occupied a wide tract of territory. The northern Russian army, form-ing the right wing, is invading eastern Prussia. This is the force that has fought a number of battles with the Germans and occupied important

railway centres. The Russian forces operating in the Austrian Province of Galicia have advanced on a widely flung front and the cavalry is engaged in clearing the country before the approach of the army

The Austrian troops have failed seriously to oppose this sweeping Russian advance, which has been achieving a series of successes at small cost in casualties.

The Germans in eastern Prussia

are still hastily retiring before the the railway tracks. There is very little insurance on the burned buildings.

> Regarding the approach of the Russian main army, before which a German infantry brigade advanced the cavalry are reported to be clearing a path, little has been heard until now. This is known as the army of the centre. It is believed to be heading for Posen. Further, it is supposed that this main army, which is advancing with marked rapidity, has had considerable to do with the German retreat all through eastern Prussia. The Russian general staff is significantly silent as to the operations of this main army. On Aug. 26 the Russian army is reported to have occupied Tilsit, Nordenburg, Bischosburg, Sensburg and the station of Rothfliess on the main railway from Russia to the fortress of Thorn.

Successful Advance Continues. NEW YORK, Aug. 28 .- The military attache of the Russian embassy yesterday issued from the Russian consulate here the following statement on the operations of the Russian army:

'The Russian advance in eastern Prussia continues successfully. On Aug. 26 the Russian army occupied Tilsit, Nordenburg, Bischoftsburg, Sensburg and the station of Rothfliess on the main railway line from Russia to the fortress of Thorn.

Galicia the Austrian rear guards have been driven behind the River Lipa, affluent of the Dneister."

ABANDONED FOOD UNSAFE.

Russian Army Finds German Supplies Have Been Poisoned.

ST. PETERSBURG, Aug. 28 .-(Via London.) - A Russian army order prohibits the use of food and forabandoned by the Germans in East Prussia because of cases of poisoning which have occurred at Eydtkuhnen, Gumbinnen and Insterburg. According to all accounts the Ger-mans were taken by surprise by the rapidity of the Russian cavalry movements and the dash through the Mazur Lake districts where fire lines of

defence were flanked. After the capture of Gumbinnen and Insterburg, the line which was strongest, the Angerburg line was

taken without fighting.

The swift Russian movement, together with the crossing of the River northward toward Naidenburg, seals the fate of the central fortifications. sia is consequently quite open.

KITCHENER ISSUES REPORT

Losses In Four Days Fighting Last Week Amounted to Between 5,000 and 6,000, But Gaps Have Been Filled Twice Over and Men Refitted - Positions Were Fiercely Contested.

LONDON, Aug. 31. - After four days of desperate fighting, the British army in France, is rested, refitted and reinforced for the next great battle, according to an announcement yesterday by Lord Kitchener, Secretary of State for War. In a statement based on reports from Sir John French, commander of the British expeditionary forces, the Secretary says that the British, after struggling against tremendous odds, retired to a new line of defence where they have not been molested since Thursday. Their casualties are between 5,000 and 6,000. Since this fighting ceased, the French on the right and left, have brought the German attack to a standstill, it is declared.

The official news bureau issued a statement yesterday, authorized by Lord Kitchener, regarding the recent fighting of the British troops. It says in part:

During the four days, from Aug. 23 to Aug. 26, the British troops conforming to the general movement of the French armies, resisted and checked the serman advance and withdrew to www lines of defence. "The battle began at Mons, Belgium, on Sunday. The stubborn German attack was completely checked on the British front. The Germans made vigorous efforts with superior numbers on Monday to preserve the safe withdrawal of the British force and to drive it into the fortress at Maubeuge (in France, southward of Mons). Their efforts were frustrated by the steadiness and skill with which the British retirement was effected.

"Very heavy losses were inflicted on the enemy's force, exceeding ours. 'The enemy was in dense formation and in enormous masses marched forward again and again to storm the British lines. The British retirement proceeded on Aug. 25. There was continuous fighting, though not on the scale of the previous two days.

"By night on Aug. 25, the British troops occupied a line from Cambrei to Landrecies and Le Cateau. It had been intended to resume the retirement at daybreak on Aug. 26, but the German attack, in which no less than five army corps were engaged, was so close and fierce that it was impossible to carry it out.

"The battle on Aug. 26 was of the most severe and desperate character. Our troops offered a superb and most stubborn resistance against the tre-mendous odds with which they were confronted. They finally extricated themselves with severe losses. They were under the heaviest artillery fire, but no guns were taken by the enemy except those of which the horses were all killed or had been shattered

by explosive shells. "Field Marshal Sir John French estimates that during all these operations, from Aug. 23 to 26 inclusive, our losses amounted to from 5,000 On the other hand, the German losses in the attacks across the open, with dense formations, are out of all proportion to ours.

'In Landrecies alone, on Aug. 26. in the closest order through a narrow street, which was completely filled. Our machine guns were brought to bear on this target from the end of the town. The head of the column was swept way and a frightful panic ensued. It is estimated that not less than 900 dead and wounded Germans were dying in this street alone.

'The British troops have not been molested apart from cavalry fighting since Aug. 26. They have rested and refilled after their glorious achievements. Reinforcements amounting to double our loss have already joined the force and every gun has been replaced, and the army is now ready to take part in the next great eacounter with undaunted spirit."

White Flag Ready.

BOULOGNE, Aug. 31. - From a military point of view Boulogre is evacuated. The city's white flag is said to hang ready for instant heisting at the historic old chateau which crowns the high central bill, and can e seen a mile away. No trains have arrived from Paris since Saturday.

When it was apparent that it was not in accord with the larger purposes of the campaign for the allies to defend Boulogne there was a sudden alteration in the spirits of the people. As long as the city was filled with British and French soldiers it was possible for it to retain some of its essential character of a ville de plaisance. Now, when the pomp and circumstance which always surrounds military headquarters have been withdrawn and no staff automobiles racket their way through the streets, the, people have given themselves over to depression.

FILLING UP GAPS IN ARMY

Lord Kitchener Announces Reinforce ment and Earl Crewe Confirms Belief That East Indians Are Meant

-They May Now Be Almost at Point of Disembarkation-India Is Very Loyal.

LONDON, Aug. 29 .- Lord Kitchener, Secretary of State for War, an-nounced in the House of Lords yesterday that in addition to reinforcements which would be received from this country, the Government had de-cided that the British army in France should be increased. The troops to increase the forces were now on the way, he said. He added that all the gaps in the army in France were being filled up.

That the employment of native In-

dian troops was meant by Lord Kitchener was later confirmed by the Marquis of Crewe, Secretary of State for India. The Marquis of Crewe

"It has been deeply impressed on the Government that the wonderful wave of enthusiasm and loyalty at the present time passing over India is largely due to the desire of the Indian people that Indian soldiers should stand side by side with their comrades in the British army.

"India is aware of the employment of African troops to assist the French army, and it would have been a disappointment to Indians if they had been debarred from taking part in

the war in Europe "Our army will thus be reinforced by soldiers — high souled men — of first-class training, and I am certain that they will give the best possible account of themselves. I venture to think that this keen desire of our Indian fellow subjects to co-operate with us is no less gratifying than the same desire shown in the self-governing dominions, some of whose sol-diers in due course, will no doubt also be found fighting side by side with British and Indian troops in the war.

"I feel confident, therefore, that the action we take will meet with a most enthusiastic reception in India, and I believe it will be approved by your lordships, the House of Commons and by public opinion here generally.

Earl Kitchener's statement is taken to mean that the East Indian troops are very near their destination.

SHOT ON SENTRY-GO.

Montreal Highlander Is Killed While Guarding Canal at Soulanges. MONTREAL, Aug. 29. - Private

Gordon M. J. Betts, of the Fifth Royal Highlanders, was shot and killed at Soulanges yesterday morning, according to advices reaching local military headquarters.

While there were rumors that Pte. Betts had been shot by a spy the military authorities, who are making an investigation, were of the opinion that the killing was the result of the accidental explosion of a rifle in the hands of some one, who may have discharged it while reloading.

Betts was on sentry duty at Soulanges and was shot through the eye, being killed instantly. An inquest was opened here yesterday, but was adjourned as no details of the shooting are so far available.

The killing of Betts comes as a culmination to a number of attacks that have been made on the sentries posted along the canal at Soulanges, during which shots have been repeatedly fired at them.

BRITISH MARINES LAND.

Strong Force Is Now Ready For Defence of Ostend.

LONDON, Aug. 29 .- The British marines in force are now in control of Ostend, says a despatch from the last named place to The Times. They continued landing all day Thursday and several quick-firers were brought ashore early yesterday.

Meanwhile the approaches to the station are thronged with sightseers and citizens who express regret that the marines were not landed sooner. The British officers declare they had not landed sooner was because of objections by the local authorities, who held a meeting in the town hall, on the ground that it would frighten

the hotel visitors. The fighting at Snaeskerke on Tuesday changed the minds of these objectors, and the city fathers did forthwith ask the British Government to send marines.

Soccer Players May Fight.

LONDON, Aug. 29.—The incorpor-ation of a brigade of football players into Lord Kitchener's new army is the latest proposal to be made in England. Both the War Office and the football associations have received it with considerable enthusiasm.

The football association has a membership of 7,000 trained athletes, who, it is suggested, might be better employed in charging the Germans on the battlefield than in charging each other on the football field. council of the association is to hold a meeting on Monday to decide if these 7,000 men shall be released from their present engagements and the football fields turned into drilling grounds.

CONTINGENT TO BE UNIT

Supply Column Transport Hospital and Reserves Numbering Nearly, 2,000 Men and Nurses Will Be Added to the First Force-

Contingent Will Serve Lat-

ed Under One Command.

OTTAWA, Aug. 28.—The Minister of Militia, Col. Hughes, announced last night that the War Office had asked that Canada send with its expeditionary force a complete line of communication, consisting of a supply column, transport hospital, serves, etc. These additional units will aggregate 1,678 men, 86 nurses, 378 horses, 166 motor trucks and 155 transport wagons.

The request for a line of communication is taken to mean that Canada's army division will go to the front as a unit, although no definite word has as yet been received from the Office in regard to this. It is believed at Militia Headquarters here that while there is a likelihood of the Canadian force being temporarily disintegrated on arrival in England, and brigaded with various sections of the British regulars, pending a few months' training and experience with the trained veterans under active service conditions, the whole army division will be later brought together and serve under one command. This will, however, depend entirely on the decision of the War Office on the ar-

rival of the force in England. The line of communication which will be sent will consist of one supply column of 245 officers and men, one reserve park of artillery of 271 officers and men, 358 horses and 155 wagons, one ammunition park of 451 officers and men, two general hos-pitals with 328 officers and men and 86 nurses, two stationary hospitals with 188 officers and men, one clear-ing hospital with 85 officers and men, one rallway supply detachment with 62 officers and men, and two depop units of supply with 28 men.

Col. Hughes stated last night that there will be more than 30,000 men assembled at Valcartier. The men who are not selected to go with the first contingent will be kept as a nu-cleus of a second contingent and used for patrol and guard work in Canada, The camp at Valcartier will be continued until the war is over and used as a mobilizing and training centre, Permanent structures, roads, etc., are

to be built this fall. In the continued stream of offers to serve coming in from the United States was an offer yesterday from a prominent American to raise a body of 7,000 experienced ditchers.

EAST PRUSSIA LOST.

Kaiser Not Quick Enough to Save Outlying Province.

LONDON, Aug. 31 .- The German Emperor has not been quick enough to save East Prussia. The invading Russians are now in West Prussia and threaten to cross the Vistula river, and it has been promised in their behalf that should they succeed in crossing they will march directly to Berlin.

It was officially announced here yesterday that the Russians have attacked Thorn and Graudenz in West Prussia, having marched from Allenstein in East Prussia. Grandenz is on the Vistula, while Thorn, a fortified town, is about 35 miles to the south also on the Vistula and just above the edge of Posen.

In their attack on the two towns or on Thorn at least the Russians are expected to use the numerous slege guns they have with them. It is also announced that the Czar's troops have taken the offensive along the entire front and flerce fighting is pro-

gressing on the eastern frontier. The Austrian troops resisting the Russians of Galicia have concentrated at Kieles, in Russian Poland, and are proceeding along the right bank of the Vistula. They will take part in the battle to the east of Lemberg, where the Russians have taken 300 prisoners. In the fighting in that re gion the enemy, it is stated, lost 300

men in killed and wounded. The Hungarians also lost four cannon and a number of caissons to the

Near Podgoroz the Czar's troops took 1,000 prisoners, while north of Tomacheff the 15th Hungarian division was defeated. Entire regiments

surrendered, it is reported. Newspapers in St. Petersburg have made quite a stir in the Rusisan capital by the announcement that the German railways are preparing to transport German troops from the western frontier to Prussia. The Ruse sian forces are expected to be engaged in an enormous contest within the next few days.

TOO MANY OFFICERS AT VALCARTIER

Only 500 Out of 1500 Can be Accepted-No Rural Regiments Going as Units

Valcartier Camp, Aug. 31.-Col. Sam Hughes, Minister of Militia, announced this afternoon in an address to the officers that a fourth brigade was to be organized here, bringing the strength of the Canadian force which will leave here shortly for active service to about 26,000. One battalion of this brigade will be sent to Bermuda, while the others will be despatched to points not yet decided upon. A later official announcement was to the effect that four regiments, considered to be the strongest individual units in the Dominion, would go to the front as separate units. These are the Queen's Own Rifles and 48th Highlanders, of Toronto, and the 5th Royal Highlanders and 1st Royal Montreal Rifles, Montreal.

Mounted on his bay charger and surrounded by upwards of a thousand officers, the pick of Canadian manhood, Col. Hughes this atter-noon delivered a brief, soldierly address, in which he said that only fully qualified officers, thoroughly trustworthy and capable of leading men, would be allowed to go with the expeditionary force. This affects a great many of the younger men here, and it is probable that they will go as privates. Many other officers will be left behind, for there are some 1,500 in camp, and only 500 will be required for the first con-

tingent.
"It is absolutely necessary to secure the most competent officers available," Col. Hughes said, "and have even refused some of my personal friends who have applied for commands."—Mail and Empire.

HUGE SUCCESS

Card Party and Tea by Mesdames Forrest and Helm - Large Crowd Braved the Storm

Mrs. (Dr.) R. F. Forrest and Mrs. Walter J. Helm are deserving of hearty congratulations upon the success of the card party and tea Tnesday afternoon, at the beautiful residence of the latter lady. The house was most artistically decorated with flowers and flags, the good old Union Jack being everywhere in evidence. Notwithstanding the very inclement weather, a large crowd was present, showing the deep interest they had in such a worthy object. Bridge, Euchre and Five Hundred were played and twenty tables participated. The proceeds reached the handsome sum of one hundred dollars and will be given to the Daughters of the Empire for the patriotic fund.

Mrs. Forrest and Mrs. Helm wish to most heartily thank the ladies who assisted them in their preparations for the patriotic fund card party and tea and also the gentlemen who so kindly gave the use of their motors.

This was one of the parties that required a great amount of telephonof the telephone staff.

Struck Girder Near Where Guard Stood

Peterboro, Sept 1.- Edward Keating, one of the guards on the C. P. R. bridge, finds himself in a very awkward position to-day. About 10 rifle was heard in the vicinity of there was a dull thud against the as though it was the lead from the cartridge. Now right above where guard and O. Huhel, bridge inspectior for the C. P. R. There were tour or five other men around who distinctly heard the shot. Two of the men in the group rushed up along the bank by Engleburn but Bowmanville Statesman. has caused quite a stir of excitement amongst the guards. And the fact that there were three guards killed last week doing similar duty, makes the local boy a trifle uneasy.

THE KAISER BUST EPISODE .-Two young men, Fred Bolton and Allan Smith, were arrested in Berproperty by removing the bust of early Sunday morning. They were admitted to bail of \$200 each. The police are searching for two alleged accomplices.

BULLY FOR CAMPBELLFORD. -'Bully for Campbellford" may not be elegant language, but it is eloquent of the fine spirit and liberality of plucky little Campbellford. A despatch states that the women of the town and of Seymour Township | taken gladly. collected \$1,000 for the Hospital Ship Fund in one day Campbellford has a population of a trifle over 3,000.

SEVERED AN ARTERY-Mr Clitheroe, a young man employed at the Grafton Canning Factory, was unfortunate enough to sever an artery in his arm on Wednesday,a disc off one of the machines working out of place. No doctor was available in Grafton at the time, and he was taken to Cobourg where the artery was tied and the wound sewed up.

LOCAL DESERTER IN CITY. - A few days ago a young man went to Cobourg for the local battery. A friend mentioned young man is back in the city and kept by his people in the house. Of course he is liable to arrest for desertion whilst his seducer is liable on a most serious charge. It is to be hoped that the young man, who was sworn in, will realize his error and return to the colors.-Peterboro Review.

ACCIDENT AT C.P.R .. - At the C.P.R. bridge on Saturday morning an accident happened to James Little, one of the section men which might have cost him his life. A as approaching, and the l board, which he did, but hadn't time to get off the bridge. He was struck by the engine, and was injured about the skull, two ribs being broken and a kidney hurt. He was held out for his recovery .- Cobourg Star.

STEALING POTATOES. - Stealing potatoes is surely an indication of a severe winter and that all the o'clock this morning the report of a potato eaters are not in Ireland if one may judge from depredation "Chip" Island. Simultaneously caused in the potato field of Messrs. S. J. Jackson & Sons last Friday posedly two, took potatoes from some 500 hills; unfortunately the most of them were late ones and by pulling the tops spoiled the crop to that extent, and got very little booty for their pains. The police have pretty good idea of the culprits and we may expect revelations soon .-

HASTENED THE POPE'S DEATH .-Whatever Pope Pius could do to maintain peace and prove the ennobling influence of Christianity, he did. But against the mad and barbaric ambitions of Wilhelm the Second all the influence of the Vatican was impotent. The Kaiser wanted war and with blood the soil of Europe is THE SCHOLAR drenched. The folly, the pity, the wanton wickedness of it all, preyed upon the goodly mind of Pius the Tenth till in sorrow he passed. His Speller. Our stock is the largest life is the richest which the ambition of one kind in town. Special prices. of the Kaiser has claimed. His death is upon the head of the Emperor of Germany, and more righteous than ever becomes the world's effort to wreak vengeance upon, the Berlin murderer who has abundantly ago before rise in prices. SMALL MEAL .- The complete collapse of the German commissariat arrangements in front of Liege is lin charged with destroying public shown by the fact that each soldier's property by removing the bust of ration for a day was one sausage, Kaiser Wilhelm I, at Victoria Park two teaspoonfuls of dried peas, and a small square of bread.

> A DARKIE TO THE FRONT-Among the Liskeard Volunteers who have gone to the front is a colored man. He came to the Captain, and said: "Captain, is my colour against me because I want to go and fight for a country which has done so much for my race?" The colored man was

> WHAT NEXT ?- A citizen, while coming down to business this morning was surprised to find his bicycle turned upside down on his lawn and the front wheel missing. A tew blocks farther on he saw another bicycle in the same position on a lawn, and it was also minus a wheel -Lindsay Post.

Military surgeons say that of 100 killed-and wounded in modern warfare, 12 are killed by scrapnel, from 15 to 20 are wounded by scrapnel, & are killed by the infantry, and from 60 to 65 are wounded by the infantry. According to that proportion, a loss of his met him in Cobourg and of 25,000 killed and wounded means bilarity followed, and now the first about 5,000 killed. about 5,000 killed.

NOT A PEOPLE'S WAR .- It is difficult to believe that the millions of quiet folk who make up the German people can approve of a war which promises to almost exterminate the male population of the best part of Europe. Not the industrious workers of Germany, only a ruling few, have brought this about .- Toronto

REMEMBERED- The ladies of Oshawa have very thoughtfully presented each departing soldier with a "hold-all," containing 2 pairs Jaeboard was on the track. Mr. Little ger socks, I towel, I knile (for ran upon the bridge to remove the pocket or table,) I pot of ointment, 10 post cards, 1 indelible pencil, supply of sticking plaster, needles, thread, buttons, &., the name of each man being worked on his bag. The boy's camp bags are 18 inches taken to the hospital and hopes are long and 12 inches wide, and the hold-all, made of linen, was 12 by
